MESSAGE FROM MANAGEMENT

In 2Q13, the Company recorded an improvement of R\$320 million and registered an operating loss (EBIT) of R\$35 million. The operating margin was negative by 1.8%, up by 18 percentage points over 2Q12, in what is the industry's seasonally weakest quarter. As a result, GOL reported a positive operating margin of 1.7% in the first half.

Since April of last year, GOL has adapted its capacity to the new cost reality in the aviation industry, reducing its domestic route network while adjusting its cost structure and operational capacity.

The strategy was implemented without losing focus on the client and the Company's commitment to expanding products and services. Corporate clients are the object of special attention for GOL. According to Abracorp (the Brazilian travel agents' association), GOL's share of the domestic business trip market grew by 3 percentage points in the last 12 months, closing the first half at 33.5%.

The remote check-in ratio has also been recording a continuous improvement, reaching an average 55% in the first half of the year, helping GOL to maintain the punctuality lead in the domestic market year-to-date. In the country's leading airports, the ratio was higher than 80%.

The development of partnerships has also played an important role in GOL's strategy of increasing its international presence. The codeshare agreement with Delta was expanded and all destinations covered by Delta in Brazil will be connected to GOL's route network and available for purchase on its sales channels by the end of August. The Company also announced the first step in the implementation of a codeshare agreement with the Italian airline, Alitalia, which will give GOL and Alitalia clients improved access to flights between Brazil and Europe.

Thanks to these measures, among others, our services became more attractive to passengers willing to pay for higher yields, reflected in the 10.5% year-to-date increase in PRASK and in the clear benefits for members of the SMILES program.

In line with its commitment to maintaining high liquidity, GOL accessed the capital market and launched the IPO of SMILES S.A. in the end of April. With this, the Company's total cash position reached R\$2.8 billion at the close of the quarter, equivalent to 34% of LTM net revenue and the Company's highest ever figure. GOL also amortized debt of around R\$318 million in the first half, thereby reducing its financial costs.

ITR - Quarterly Information – 06/30/2013 – GOL LINHAS AÉREAS INTELIGENTES SA

Thanks to the improved operating margins and the consequent EBITDAR recomposition, GOL continued its process of gradual deleveraging and strengthening the balance sheet. GOL closed 2Q13 with a 44% improvement in its financial leverage ratio over the previous three months and this downward trajectory should continue until the end of the year due to prospects of a positive annual operating result.

Given the recent shift in the macroeconomic scenario, the Company has increased its projected annual reduction in domestic supply from 7% to 9% in June. In the second half of the year, it will have to cope with record jet fuel prices and a new cost hike due to the depreciation of the Real, as well as prospects of a reduction in Brazil's annual GDP growth estimates. The scenario is even more challenging.

The various changes in scenarios faced by the industry in recent years have made us strengthen our fundamentals, maintaining a strong cash position, appropriate debt profile, efficient cost structure and a focus on the profitability of our flights, always seeking to serve our clients in the safest and most intelligent manner possible. It is for these reasons that we have maintained our beginning-of-year annual operating margin guidance at between 1% and 3%.

GOL thanks its Team of Eagles for their hard work, motivation and commitment in this especially challenging period for the airline industry.

Paulo Sérgio Kakinoff

CEO of GOL Linhas Aéreas Inteligentes S.A.

National Civil Aviation Agency (ANAC) figures; 2Q12 includes consolidated GOL + Webjet figures

Domestic Market

GOL's domestic supply **fell by 5.8%** over 2Q12. **The year-to-date reduction was 11%, above the Company's own estimate of between -8% and -10%.**

Domestic demand recorded a **7.5% decline** in the quarter due to the above-mentioned reduction in supply and the recomposition of prices in the period. The domestic load factor came to 69.0%, versus 70.3% in 2Q12.

International Market

In 2Q13, international market supply **moved up by 34.0%** over the same period of the last year, chiefly due to the new flights to Santo Domingo, Miami and Orlando launched in December 2012, **helping push international demand up by 26.1%.**

As a result, the international load factor **stood at 57.2% in the quarter**, 3.6 percentage points down on the 60.8% recorded in 2Q12. Part of this reduction was due to the increased representativeness of the flights to Santo Domingo, where we made around 85% of seats available for sale due to the performance of the 737-800 NG aircraft. In accordance with ANAC's methodology, the load factor is calculated over total aircraft capacity.

PRASK, RASK and Yield

In 2Q13, PRASK and RASK increased by 10.5% and 7.5% year-over-year, respectively, primarily due to the 13.4% upturn in yield.

* Non-operational aircraft.

In 2Q13, the Company took delivery of three aircraft under operating lease contracts and one aircraft under a finance lease contract, and returned one aircraft under an operating lease contract. The Company also sub-leased five aircraft to Transavia Airlines, permitting greater seat supply flexibility, in line with the seasonality of the Brazilian and European markets in the period between April and October.

In the first half, the Company returned nine Webjet aircraft and negotiations are under way for the sale of the 10 remaining B737-300s by the end of 2013.

The Company leases its fleet through a combination of finance and operating leases. Out of the total of 136 aircraft, excluding Webjet's, 90 were under operating leases and 46 were under finance leases. Of the 46 under finance leases, 40 have a purchase option when their leasing contracts terminate.

On June 30, 2013, the Company had 146 firm aircraft acquisition orders with Boeing, **totaling around R\$35.3 billion, excluding contractual discounts.**

Capex

GOL invested around R\$158 million in 2Q13, 69% of which in the acquisition of aircraft (pre-delivery deposits); around 30% in aircraft parts, reconfigurations and improvements; and around 1% in bases, IT and the expansion of the maintenance center in Confins, Minas Gerais (construction of the Wheel and Brake Workshop).

The amounts described above only include additions to fixed assets (excluding divestments, write-offs and the reimbursement of aircraft pre-delivery deposits), and do not include additions related to the entry of aircraft under finance leases due to the non-occurrence of cash effects at the moment of acquisition, as a result of the financing structure for this type of operation. For more information on fixed assets, see note 17 to the financial statements.

2013 Financial Guidance

Due to the impact of the adverse macroeconomic scenario, GOL may revise its guidance on a quarterly basis to incorporate any developments in its operating and financial performance, as well as any changes in interest, FX, GDP and WTI and Brent oil price trends.

ITR - Quarterly Information – 06/30/2013 – GOL LINHAS AÉREAS INTELIGENTES SA

The Company reviewed its projections and its current expectations for 2013. All metrics were revisited, and three indicators have been changed:

- i. The operating cost per available seat kilometer excluding fuel was changed to between R\$9.5 and R\$10.0 cents;
- ii. The average exchange rate (R\$/US\$) for 2013 was changed to between R\$2.10 and R\$2.20;
- iii. The fuel price* was changed to between R\$2.38 and R\$2.48.

The Company maintains its guidance for operating margin between 1% and 3% announced earlier this year.

REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION

To the Board of Directors and Shareholders of

Gol Linhas Aéreas Inteligentes S.A.

São Paulo - SP

Introduction

We have reviewed the accompanying individual and consolidated interim financial information of Gol Linhas Aéreas Inteligentes S.A. and its subsidiaries (the “Company”), included in the Interim Financial Information Form (ITR), for the three-month period ended June 30, 2013, which comprises the statement of financial position as of June 30, 2013 and the related statements of profit or loss and comprehensive income for the three and six-month periods then ended and statements of changes in equity and cash flows for the six-month period then ended, including the explanatory notes.

Management is responsible for the preparation of the individual interim financial information in accordance with CPC 21 (R1) - Interim Financial Reporting and the consolidated interim financial information in accordance with CPC 21 (R1) and IAS 34 - Interim Financial Reporting, issued by the International Accounting Standards Board (IASB), as well as for the presentation of such information in accordance with the standards issued by the Brazilian Securities Commission (CVM), applicable to the preparation of Interim Financial Information (ITR). Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of review

We conducted our review in accordance with Brazilian and International Standards on review of interim financial information (NBC TR 2410 and ISRE 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with the standards on auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion on the individual interim financial information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying individual interim financial information included in the Interim Financial Information (ITR) referred to above is not prepared, in all material respects, in accordance with CPC 21 (R1) applicable to the preparation of Interim Financial Information (ITR) and presented in accordance with the standards issued by the CVM.

Conclusion on the consolidated interim financial information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated interim financial information included in the Interim Financial Information (ITR) referred to above is not prepared, in all material respects, in accordance with CPC 21 (R1) and IAS 34 applicable to the preparation of Interim Financial

Information (ITR) and presented in accordance with the standards issued by the CVM.

Other matters

Interim statements of value added

We also have reviewed the interim statements of value added (“DVA”), for the six-month period ended June 30, 2013, prepared under the responsibility of Management, the presentation of which is required by the standards issued by CVM, applicable to the preparation of Interim Financial Information (ITR), and is considered as supplemental information for International Financial Reporting Standards - IFRS that do not require the presentation of DVA. These statements were subject to the same review procedures described above and, based on our review, nothing has come to our attention that causes us to believe that they are not prepared, in all material respects, consistently with the individual and consolidated interim financial information taken as a whole.

1. General Information

Gol Linhas Aéreas Inteligentes S.A. ("Company" or "GLAI") is a publicly-listed company incorporated in accordance with Brazilian Corporate Laws, organized on March 12, 2004. The Company is engaged in controlling of its wholly-owned subsidiary VRG Linhas Aéreas S.A. ("VRG"), and through its subsidiaries or affiliates, essentially exploring: (i) regular and non-regular air transportation services of passengers, cargo and mailbags, domestically or internationally, according to the concessions granted by the competent authorities; (ii) complementary activities of air transport service provided in its bylaws.

Additionally, GLAI is the direct parent Company of the subsidiaries GAC Inc. ("GAC"), Gol Finance ("Finance"), Gol Luxemburg Co. ("Luxco."), Gol Dominicana and Smiles S.A ("Smiles"), and indirect parent Company of the subsidiary Webjet Linhas Aéreas S.A. ("Webjet").

GAC was established on March 23, 2006, according to the laws of the Cayman Islands, and its activities are related to the aircraft acquisition for its single shareholder GLAI, which provides financial support for its operating activities and settlement of obligations. GAC was the parent Company of SKY Finance II, located in the Cayman Islands, whose activity were related to obtaining funds on finance aircraft acquisition. SKY Finance II was ended on December, 2012.

Gol Finance was incorporated on March 16, 2006, in accordance with the laws of the Cayman Islands, and its activity is related to fundraising on finance aircraft acquisition.

On April 9, 2007, the Company acquired VRG, which operates domestic and international flights and provides regular and non-regular air transportation services from/to the main destinations in Brazil, South America and the Caribbean.

On February 28, 2011, the subsidiary VRG constituted a Participation Account Company ("SCP BOB") engaged in developing and operating on-board sales of food and beverages in domestic flights. VRG has 50% participation in the share capital of the Company, which started to operate in September, 2011.

On August 1, 2011, the subsidiary VRG acquired the entire share of Webjet, an airline headquartered in Rio de Janeiro. The operation was approved by the ANAC on October 3, 2011 and by the Administrative Council for Economic Defense ("CADE") on October 10, 2012. The approval occurred under the execution of a term of commitment to performance ("TCD") between VRG, Webjet and CADE to achieve certain operating efficiencies, related specifically to maintenance, by VRG and Webjet, of a minimum index of regularity (85%) of the use of the

operational schedules (HOTRAN) at Santos Dumont Airport.

On November 23, 2012, the Company started the process of discontinuance of the Webjet trademark, along with the ending of its operational activities, being VRG, from that date, responsible for all the flight transportation services, passengers and customers assistance for Webjet. For further details, see Note 12.

On April 28, 2012, the subsidiary VRG constituted a participation account company ("SCP Trip") in order to develop, produce and explore the Gol magazine ("Revista Gol"), distributed free on the Company flights. The participation of VRG is equivalent to 60% of the SCP.

The Company's shares are traded on the New York Stock Exchange ("NYSE") and on the São Paulo Stock Exchange ("BOVESPA"). The Company entered into an agreement for adoption of Level 2 Differentiated Corporate Governance Practices with the São Paulo Stock Exchange ("BOVESPA"), and is included in the Special Corporate Governance Stock Index ("IGC") and the Special Tag Along Stock Index ("ITAG"), which were created to identify companies committed to adopt differentiated corporate governance practices.

2. Summary of Significant Accounting Policies Applied in Preparing the Financial Statements

These financial statements were authorized for issuance at the Board of Directors' meeting held on August 12, 2013. The Company's registered office is at Pça. Comandante Linneu Gomes, s/n, portaria 3, prédio 24, Jardim Aeroporto, São Paulo, Brazil.

2.1. Basis of Preparation

The Consolidated Interim Financial Information - ITR were prepared for the three and/or the six-month period ended on June 30, 2013 in accordance with International Accounting Standards (IAS) no. 34 and technical pronouncement CPC 21 (R1) – “Demonstração Intermediária” (Interim Financial Reporting).

GOL LINHAS AÉREAS INTELIGENTES S.A.

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL INFORMATION RELATED TO PERIOD ENDED ON JUNE 30, 2013

The Individual and Consolidated Interim Financial Information as of June 30, 2013 were reviewed by Independent Auditors on the extent described on the Report on Review of Interim Financial Information dated on August 12, 2013.

(In thousands of Brazilian reais - R\$, except when indicated otherwise)

IAS 34 requires the use of certain accounting estimates by Company's Management. The consolidated interim financial information - ITR were prepared based on historical cost, except for certain financial assets and liabilities, which are measured at fair value.

The interim financial information of the parent company were prepared in accordance with technical pronouncement CPC 21 (R1) – “Demonstração Intermediária” (Interim Financial Reporting).

The individual interim financial information prepared for statutory purposes, measures investments in subsidiaries by the equity method, according to Brazilian legislation. Thus, the consolidated interim financial information are not in accordance with IFRSs, which require the evaluation of investments in separate financial statements of the parent at fair value or cost.

These Interim Financial Information- ITR individual and consolidated do not include all the information and disclosure items required in the consolidated annual financial statements and, therefore, they must be read together with the consolidated financial statements referring the year ended December 31, 2012 filed on March 25, 2013, which were prepared in accordance with Brazilian accounting practices and IFRS. There were no changes in accounting policies adopted on December 31, 2012 to June 30, 2013.

The Company has chosen to present the individual and consolidated interim financial information in one single set, side by side, because there is no difference between the individual and consolidated shareholders' equity and net income (loss). The shareholder's equity between these individual and consolidated quarterly financial information do not present differences on its composition, except on the non-controlling interest over Smiles S.A., highlighted on consolidated shareholder's equity.

3. Seasonality

The Company expects that revenues and profits from its flights reach the highest levels during the summer and winter vacation periods, in January and July, respectively, and during the last two weeks of December, during the season holidays. Given the high portion of fixed costs, this seasonality tends to result in fluctuations in our operational quarter-on-quarter income.

The tax credits arising from tax loss carryforwards and negative social contribution basis were valued based on the reasonably expected generation of future taxable income of the parent company and its subsidiaries, subject to legal limitations.

Estimates of deferred tax asset recovery were based on projections of taxable profits when taking into consideration the above assumptions, in addition to several financial, business assumptions and internal and external factors, all based on considerations at the end of the financial year. Consequently, the estimates may not materialize in the future due to the uncertainties inherent in these predictions.

The Company and its subsidiaries have the total amount of tax credits of R\$1,245,348, of which R\$84,940 are from the parent Company GLAI and R\$1,160,408 are from the operating subsidiaries VRG and Webjet. On December 31, 2012, the projections for GLAI and its indirect subsidiary Webjet do not result in sufficient taxable profits to compensate all available tax credits over the next 10 years and, as a result, there has been recorded a provision for tax credit losses of R\$41,245 for GLAI and R\$233,534 for Webjet. For the direct subsidiary VRG, such projections indicate the existence of sufficient taxable profits for realization of all deferred tax credits recognized in up to 10 years. However, due to tax losses reported in the last years, the Administration conducted a sensitivity analysis on the results and projections and significant changes in the macro-economic scenario, which resulted in recognition of deferred assets on the tax losses and the negative basis at the lowest value derived from this analysis. As a result, the Company and its subsidiaries recognized a provision for loss of R\$390,972 related to the subsidiary VRG.

The Company's management considers that the deferred assets recognized on June 30, 2013 arising from temporary differences will be realized when the provisions are settled and the related future events are resolved.

Escrow deposits represent guarantees in legal proceedings related to labor claims, deposited in escrow until the conclusion of the related claims. The balances of escrow deposits as of June 30, 2013 recorded as noncurrent assets totaled R\$19,363 (R\$18,548 as of December 31, 2012).

Consolidated

Maintenance Deposits

The Company and its subsidiaries VRG and Webjet made deposits in U.S. Dollars for maintenance of aircraft and engines that will be used in future events as set forth in some finance lease contracts.

The maintenance deposits do not exempt the Company and its subsidiaries, as lessee, neither from the contractual obligations relating to the maintenance of the aircraft nor from the risk associated with maintenance activities. The Company and its subsidiaries hold the right to select any of the maintenance service providers or to perform such services internally.

As of June 30, 2013, maintenance deposits are presented based on the net recoverable amount, whose balance classified in current and noncurrent assets was R\$4,179 and R\$373,791, respectively (R\$2,575 and R\$324,492 in current assets and noncurrent assets in December 31, 2012, respectively).

Deposits in Guarantee for Lease Agreements

As required by the lease agreements, the Company and its subsidiaries hold guarantee deposits in US dollars on behalf of the leasing companies, whose full refund occurs upon the contract expiration date. As of June 30, 2013, the balance of guarantee deposits for lease agreements, classified in noncurrent assets, is R\$211,350 (R\$173,313 as of December 31, 2012).

Escrow Deposits

Escrow deposits represent guarantees in legal proceedings related to tax, civil and labor claims, deposited in escrow until the resolution of the related claims, paid at SELIC rate. The balances of escrow deposits as of June 30, 2013, recorded in noncurrent assets and presented at its net realizable value totaled R\$195,716 (R\$156,816 as of December 31, 2012).

12. Webjet's Operation Restructuring

On November 23, 2012, the Company initiated the winding up of Webjet's activities and the consequent discontinuation of its brand. The winding up of Webjet's activities aims at the optimization of the organizational structure of the companies and unification of their operations, reducing costs and bringing new synergies.

The Individual and Consolidated Interim Financial Information as of June 30, 2013 were reviewed by Independent Auditors on the extent described on the Report on Review of Interim Financial Information dated on August 12, 2013.

(In thousands of Brazilian reais - R\$, except when indicated otherwise)

Due to not representing a component according to IFRS 5 and CPC 31 "Noncurrent assets held for sale and discontinued operation", with operations and cash flows that could be clearly distinguished, operationally and for disclosure purposes in the financial statements of the Company, Webjet was not considered a "discontinued Operation". This understanding is supported by the fact that the routes previously operated by Webjet will continue to be operated by the Company. Given that Webjet's fleet is available for immediate sale and their sale is considered to be highly probable, the accounting balance of aircraft was reclassified in accordance with IFRS 5 and CPC 31, to the Group of "assets held for sale" and are recorded at the recoverable amount estimated by the Company as detailed below:

	06/30/2013	12/31/2012

The subsidiary VRG also holds contracts with the related party Vaud Participações S.A. to provide executive administration and management services, expiring on October 01, 2014.

During the period ended on June 30, 2013, VRG recognized total expenses related to these services of R\$3,114 (R\$5,299 as of June 30, 2012). All the entities referred above belong to the same economic group of the Company.

c) Contracts Account Opening UATP (“Universal Air Transportation Plan”) to Grant Credit Limit

In September 2011, the subsidiary VRG entered into agreements with related parties Pássaro Azul Taxi Aéreo Ltda. and Viação Piracicabana Ltda., both with no expiration date, with the purpose of the issuance of credits in the amounts of R\$20 and R\$40, respectively, to be used in the UATP (Universal Air Transportation Plan) system. The UATP account (virtual card) is accepted as a payment method on the purchase of airline tickets and related services, seeking to simplify the billing and facilitate the payment between participating companies.

d) Financing Contract for Engine Maintenance

VRG has a line of funding for maintenance of engines whose disbursement occurs through the issuance of Guaranteed Notes. The series, issued on 29 June 2012 and 27 September 2012 respectively, will mature on June 29, 2014 and 27 September 2014 and aims to support the maintenance of engines, (see details in Note 17). On March 11, 2013, VRG issued the third serie of Guaranteed Notes for maintenance of engines, with financial guarantee from the Export-Import Bank of the United States ("Ex-Im Bank"), with maturity date on March 11, 2015. During the period ended on June 30, 2013 the spending on engine maintenance conducted by Delta Air Lines was R\$41,170.

e) Trade Payables – Current Liabilities

14. Share-based Payments**Consolidated**

The Company has two kinds of share-based payments plans offered to the key management personnel: the Stock Option Plan and the Restricted Shares. Both plans stimulate and promote the alignment of the Company's goals, the administrators and employees, mitigate risks in value creation for the Company by the loss of their executives and strengthen the commitment and productivity of these executives to long-term results. The plans were developed to attract and retain key managers and strategic talents, linking a significant part of their equity to the value of the Company.

a) The Stock Option Plan

The Company's Board of Directors, within the scope of their functions and in conformity with the Company's stock options plan, approved the grant of preferred stock options plan to the Company's management and executives. For grants through 2009, the options vest at a rate of 20% per year, and can be exercised within up to 10 years after the grant date.

Due to changes in the Company's Stock Options Plan approved by the Company's Annual Shareholders' Meeting held on April 30, 2010, for plans granted beginning 2010, 20% of the options become vested as from the first year, an additional 30% as from the second, and the remaining 50% as from the third year. The options under these plans may also be exercised within 10 years after the grant date.

The fair value of stock options was estimated on the grant date using the Black-Scholes option pricing model. The expected volatility of the options is based on the historical volatility of 252 working days of the Company's shares traded on the stock exchange.

The date of the Board of Directors' meetings and the assumptions utilized in the Black-Scholes option pricing model are as follows:

For the six-month period ended on June 30, 2013, the Company recorded in shareholders' equity a result with share-based payment in the amount of R\$3,692 (R\$7,684 for the year ended June 30, 2012), being the counterpart in the income statement result classified as staff costs.

Until June 30, 2013 there were no restricted shares transferred to participants of the plan.

15. Investments

Due to the changes in Law 6,404/76 introduced by Law 11,638/07, investments in foreign subsidiaries, GAC and Finance were considered as an extension of the controller GLAI and consolidated on a line by line basis, only the subsidiaries Smiles and VRG were considered as an investment.

Changes in investments to June 30, 2013 are as follows:

Balance as of December 31, 2011	2,103,325
Equity in Subsidiaries	(1,333,033)
Unrealized Hedge Losses (VRG)	10,686
Amortization Losses, net of Sale Leaseback (*)	(1,810)

Advance for Future Capital Increase	224,719
Amortization Losses, net of Sale Leaseback (*)	(884)
Balance as of June 30, 2013	1,231,218

(*) The subsidiary GAC has a net balance of deferred losses and gains on sale leaseback, whose deferral is subject to the payment of contractual installments made by its subsidiary VRG. Accordingly, as of June 30, 2013, the net balance to be deferred of R\$27,972 (R\$28,877 for the year ended December 31, 2012) is basically a part of the parent's net investment in the VRG. See Note 30b.

a) VRG

The subsidiary VRG's shares are not traded on stock exchanges. The relevant information on VRG is summarized below:

	Total Number of Shares	Interest %	Capital	Shareholders' Equity (i)	Net Loss

The Company entered into an investment agreement with General Atlantic Service Company LLC. ("G.A.") involving the grant by the Company options to purchase Smiles' shares by G.A. for the equivalent of 20% of its investment on Smiles. While its not exercised, any and all rights attributable to the options owned by the Company, regardless of the date it will occur the payment or settlement. The fair value of the transaction was recorded in liabilities with derivative transaction, as as detailed in Note 31.

As of June 30,2013, there we options axercised by G.A. under this agreement.

16. Result per Share

Although there are differences between common and preferred shares in terms of voting rights and priority in case of liquidation, the Company's preferred shares are not entitled to receive any fixed dividends. Rather, preferred shareholders are entitled to receive dividends per share in the same amount of the dividends per share paid to common shareholders. Therefore, the Company understands that, substantially, there is no difference between preferred shares and common shares, and, accordingly, basic and diluted earnings or loss per share are calculated equally for both shares.

Consequently, basic earnings or loss per share are computed by dividing income or losses by the weighted average number of all classes of shares outstanding during the period. Diluted earnings or loss per share are computed including stock options granted to key management and employees using the treasury stock method when the effect is dilutive. The antidilutive effect of all potential shares is disregarded in calculating diluted earnings or loss per share.

Diluted Loss per Share	(1.626)	(2.682)	(1.898)	(2.837)

Diluted earnings or loss per share are calculated by considering the instruments that may have a potential dilutive effect in the future, such as share-based payment transactions, discussed in Note 14. However, due to the losses reported for the six-month period ended on June 30, 2013, these instruments have anti-dilutive effect and, therefore, are not considered in the total number of outstanding shares.

The stock options owned by General Atlantic (as in note 15) are not included in the calculation of earnings per share because they have no dilutive effect.

a) Provision for Anticipated Return of Aircraft

GOL LINHAS AÉREAS INTELIGENTES S.A.**NOTES TO THE CONSOLIDATED INTERIM FINANCIAL INFORMATION RELATED TO PERIOD ENDED ON JUNE 30, 2013**

The Individual and Consolidated Interim Financial Information as of June 30, 2013 were reviewed by Independent Auditors on the extent described on the Report on Review of Interim Financial Information dated on August 12, 2013.

(In thousands of Brazilian reais - R\$, except when indicated otherwise)

In 2011, according to the strategic planning of Webjet, a provision for the anticipated return of aircraft was recorded. This provision was calculated based on the expected return of 18 aircraft Boeing 737-300 with operating leases contracts, as part of the Company's fleet renewal. The anticipated returns of aircraft are scheduled to occur between 2012 and 2013 and the original termination of leases was between 2012 and 2014. For the period ended June 30, 2013, the Company completed 9 aircraft returns with prefixes: PR-WJS, PR-WJT, PR-WJM, PR-WJL, PR-WJE, PR-WJO, PR-WJQ, PR-WJR and PR-WJU.

b) Return of Aircraft and Engines

The return provision considers the costs that meet the contractual conditions for the return of engines maintained under operating leases, as well as the costs to reconfigure the aircraft without purchase option, as prescribed in the return conditions of the lease contracts, and which is capitalized in fixed assets (aircraft reconfigurations/overhauling), as described in note 17.

c) Provision for Restructuring

In December 2012, Webjet recognized a provision for restructuring costs due to the closure of the activities and the discontinuation of its brand. The first step of the restructuring plan was the extinction of flight operations and discontinuity of the Boeing 737-300 fleet, announced on November 23, 2012. The reduction of R\$33,963 is related to the settlement of obligations incurred until June 30, 2013.

d) Lawsuits

As of June 30, 2013, the Company and its subsidiaries are parties to 21,924 (6,483 labor and 15,441 civil) lawsuits and administrative proceedings. The lawsuits and administrative proceedings are classified into Operation (those arising from the Company's normal course of operations), and Succession (those arising from the succession of former Varig S.A. obligations). Under this classification, the number of proceedings is as follows:

	Operation	Succession	Total
Civil Lawsuits	12,702	488	13,190
Civil Proceedings	2,234	17	2,251
Labor Lawsuits	2,810	3,496	6,306
Labor Proceedings	175	2	177
	17,921	4,003	21,924

Edgar Filing: Gol Intelligent Airlines Inc. - Form 6-K/A

The civil lawsuits are primarily related to compensation claims generally related to flight delays, flight cancellations, baggage loss and damages. The labor claims primarily consist of discussions related to overtime, hazard pay, and wage differences.

The provisions related to civil and labor suits, whose likelihood of loss is assessed as probable are as follows:

	06/30/2013	12/31/2012
Civil	41,412	38,484
Labor	60,789	54,456
	102,201	92,940

GOL LINHAS AÉREAS INTELIGENTES S.A.

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL INFORMATION RELATED TO PERIOD ENDED ON JUNE 30, 2013

The Individual and Consolidated Interim Financial Information as of June 30, 2013 were reviewed by Independent Auditors on the extent described on the Report on Review of Interim Financial Information dated on August 12, 2013.

(In thousands of Brazilian reais - R\$, except when indicated otherwise)

Provisions are reviewed based on the progress of the proceedings and history of losses based on the best current estimate for labor and civil lawsuits.

There are other lawsuits assessed by management and its legal counsel as possible risks, in the estimated amount as of June 30, 2013 of R\$19,901 for civil claims and R\$6,639 for labor claims (R\$37,250 and R\$16,354 as of December 31, 2012 respectively), for which no provisions are recognized.

GLAI has been challenging in the courts the taxation of PIS and COFINS in respect of revenue associated with interest on capital in the amount of R\$37,750, received in the period between 2006 and 2008 from its subsidiary GTA Transportes Aéreos S.A., succeeded by VRG on September 25, 2008. According to the opinion of the legal counsel and based on the recent precedents, the Company classified this process as possible loss, with no provision for the amount involved. Additionally, the Company maintains with the Bic Banco a letter of credit with a partial guarantee on the value of the process as described in note 6.

The Company and its subsidiaries are challenging in the court the ICMS levied on aircraft and engines imported under aircraft lease transactions without purchase options in transactions carried out with lessors headquartered in foreign countries. The Company and its subsidiaries' management understand that these transactions represent simple leases in view of the contractual obligation to return the assets that are the subject matter of the contract.

Management believes that there is no evidence of goods circulation and so, there are no legal events to generate the ICMS taxation. Based on the legal counsel opinion and supported by similar lawsuits with favorable decisions to taxpayers by the Superior Court of Justice (STJ) and Supreme Federal Court (STF) in the second quarter of 2007, the Company understands that the likelihood of loss is remote, and thus did not recognize provisions for these amounts. As of June 30, 2013 the estimated aggregated amount of the ongoing lawsuits related to the non-levy of ICMS tax on said imports is R\$225,524 (R\$217,279 as of December 31, 2012) adjusted for inflation, not including late payment charges.

The revenues are net of federal, state and municipal taxes, which are paid and transferred to the appropriate government entities.

On January 1, 2013, the Federal Government through the "MP 540/12", converted on law n. 12.546/11 determined that the contribution to the INSS that was based on payroll disbursements should be calculated considering the rate of 1% over the billing and, among the activities discharged, fall within this requirement the passenger revenue. For being a contribution that is now calculated over the billing, the Company has changed the INSS presentation to as a reduction of the gross revenue. This reclassification was performed prospectively from the date in which the "MP540/12" became

effective.

The Individual and Consolidated Interim Financial Information as of June 30, 2013 were reviewed by Independent Auditors on the extent described on the Report on Review of Interim Financial Information dated on August 12, 2013.

(In thousands of Brazilian reais - R\$, except when indicated otherwise)

Operating segments are defined as business activities from which it may earn revenues and incur expenses, whose operating results are regularly reviewed by the relevant decision makers to allocate resources and evaluate the segments' performance.

As a result of Smiles Program operations as an independent entity, which only started on January 1, 2013, the structure of presentation of segment information has been broken down into two operating segments. The information of these segments presented to decision makers in order to allocate the resources and evaluate the segment performance emphasizes the two types of services as below:

- Flight transportation segment
- Customer's loyalty program segment

This note has not been presented with comparative figures for June 30, 2012 because the business model used by the Smiles Program until December 31, 2012 was an extension of the Flight transportation segment, for example, the costs of services provided were embedded and diluted in the operating costs of the Flight transportation segment. With the separation of the operations from January 1, 2013, operating agreements for sale tickets and purchase of miles were signed between the segments and these transactions represent a significant portion of revenues and costs of the "Smiles Loyalty Program". Therefore, any comparisons with prior period information would be inappropriate because the comparative figures would not reflect the current business model. The information below presents the summarized financial position related to reportable segments for the period ended on June 30, 2013. The amounts provided to the decision makers related to the income and the total assets are consistent with the balances recorded in the financial statements and the accounting policies applied.

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL INFORMATION RELATED TO PERIOD ENDED ON JUNE 30, 2013

The Individual and Consolidated Interim Financial Information as of June 30, 2013 were reviewed by Independent Auditors on the extent described on the Report on Review of Interim Financial Information dated on August 12, 2013.

(In thousands of Brazilian reais - R\$, except when indicated otherwise)

On the individual financial statements of the subsidiary Smiles S.A., which represents the segment "Smiles Loyalty Program" and in the information provided to the relevant decision makers, the revenue recognition occurs upon redemption of the miles by the participants. Under the perspective of "Smiles Loyalty Program" segment, this measurement is appropriate given that this is when the revenue recognition cycle is complete. At this point, Smiles has transferred to his suppliers the obligation to provide services or deliver products to its customers.

However, from a consolidated perspective, the revenue recognition cycle related to miles exchanged for flight tickets is only complete when the passengers are effectively transported. Therefore, for purposes of reconciliation with the income/loss, consolidated assets and liabilities, as well as for purposes of equity method of accounting and for consolidation purposes, the Company performed, besides eliminations entries, consolidating adjustments to conform the accounting practices of Smiles' revenues. In this case, under the perspective of the consolidated financial statements, the miles that were used to redeem airline tickets are only recognized as revenue when passengers are transported, in accordance with accounting practices and policies adopted by the Company.

30. Commitments

As of June 30, 2013 the Company had 146 firm orders with Boeing. These aircraft purchase commitments include estimates for the contractual price increase during the construction phase. The approximate amount of firm orders, not including the contractual discount is R\$35,269,346 (corresponding to US\$15,918,643 at the reporting date) and are segregated according to the following periods:

	06/30/2013	12/31/2012
2013	1,284,804	2,690,803
2014	1,669,650	2,740,256
2015	1,658,029	2,722,067
2016	1,725,130	2,821,653
After 2016	28,931,733	21,487,711
	35,269,346	32,462,490

As of June 30, 2013, in addition to the firm orders mentioned above, the Company has commitments in the amount of R\$4,561,245 (corresponding to US\$2,058,695 at the reporting date), related to advances for aircraft purchases to be disbursed in accordance with the following schedule:

	06/30/2013	12/31/2012
2013	69,876	283,693
2014	224,734	389,047
2015	321,300	444,920
2016	140,031	146,706
After 2016	3,805,304	2,782,181
	4,561,245	4,046,547

The installments financed by Long-term debt, collateralized by the aircraft through the U.S. Ex-Im Bank ("Exim") corresponds approximately to 85% of total cost of the aircraft. Other agents finance the acquisitions with equal or higher percentages, reaching up to the limit of 100%.

The Company makes payments related to the acquisition of aircraft using its own funds, short and long term debt, cash provided by operating activities, short- and medium-term credit facilities, and supplier financing.

The Company leases its entire fleet of aircraft through a combination of operating and financial leases. As of June 30, 2013, the total leased fleet was comprised of 136 aircrafts, Excluding 4 aircraft operating lease and finance lease 5 of Webjet, of which 90 were operating leases and 46 were recorded as finance leases. The Company has 40 financial aircraft with purchase options. During the three-month period ended on June 30, 2013, the Company received 3 aircraft based on operating lease contracts and 1 aircraft based on financial lease contracts. There was 1 aircraft return during the period.

Future payments of non-cancelable operating lease contracts are denominated in U.S. Dollars, and are as follows:

	06/30/2013	12/31/2012
2013	350,487	720,708
2014	536,110	520,677
2015	399,188	358,766
2016	341,899	292,357
After 2016	1,574,806	1,141,234
Total Minimum Lease Payments	3,202,490	3,033,742

b) Sale-leaseback Transactions

As of June 30, 2013, the Company recognized R\$7,564 and R\$4,585, as 'Other payables' in current and noncurrent liabilities, respectively (R\$7,564 and R\$8,367 as of December 31, 2012), related to gains on sale-leaseback transactions performed by its subsidiary GAC Inc in 2006, related to 8 aircraft 737-800 Next Generation. These gains were deferred and are being amortized proportionally to the monthly payments, which 3 of these aircrafts have the contractual term of 144 months and the other 5 aircrafts have lease agreements over the contractual term of 120 months.

On the same date, the Company recorded R\$9,373 and R\$30,769, as 'Prepaid expenses', in current and noncurrent assets, respectively (R\$9,373 and R\$35,456 as of December 31, 2012), related to losses on sale-leaseback transactions performed by its subsidiary GAC Inc of nine aircraft. During the years 2007, 2008 and 2009, these losses were deferred and are being amortized proportionally to the payments of the operational lease agreements over the contractual term of 120 months.

Additionally, during the three-month period ended on June 30, 2013, the Company recorded a gain of R\$66,708 directly in profit and loss. This gain results from 8 aircraft received during the quarter that were subject to sale-leaseback transactions and resulted in operating leases. Given that the calculation of gains and losses on sale-leaseback will not be offset against future lease payments and the sale-leasebacks were all negotiated at fair value, the gains were recognized in profit or loss.

31. Financial Instruments

The Company and its subsidiaries have financial asset and financial liability transactions, which consist in part of derivative financial instruments.

The financial derivative instruments are used to hedge against the inherent risks related to the Company operation. The Company and its subsidiaries consider as most relevant risks: fuel price, exchange rate and interest rate. These risks are mitigated by using exchange swap derivatives, futures and options contracts based on oil, U.S. Dollar and interest markets. The contracts may be held by means of exclusive investment funds, as described in the Risk Management Policy of the Company.

Management follows a documented guideline when managing its financial instruments, set out in its Risk Management Policy, which is periodically revised by the Risk Committee (CPR), and approved by the Board of Directors. The Committee sets the guidelines and limits, monitors controls, including the mathematical models adopted for a continuous monitoring of exposures and possible financial effects and also prevents the execution of speculative financial instruments transactions.

The gains or losses on these transactions and the application of risk management controls are part of the Committee's monitoring and have been satisfactory when considering the objectives proposed.

The fair values of financial assets and liabilities of the Company and its subsidiaries are established through information available on the market and according to valuation methodologies.

Most of the derivative financial instruments are engaged with the purpose of hedging against fuel and exchange rates risks based on scenarios with low probability of occurrence, and thus have lower costs compared to other instruments with higher probability of occurrence. Consequently, despite of the high correlation between the hedged item and the derivative financial instruments contracted, a significant portion of the transactions presents ineffective positions for hedge accounting purposes upon settlement, which are presented in the tables below.

The description of the consolidated account balances and the categories of financial instruments included in the balance sheet as of June 30, 2013 and December 31, 2012 is as follows:

On June 30, 2013 the Company had no assets available for sale.

Risks

The operating activities expose the Company and its subsidiaries to the following financial risks: market (especially currency risk, interest rate risk, and fuel price risk), credit and liquidity risks.

The Company's risk management policy aims at mitigating potential adverse effects from transactions that could affect its financial performance.

The Company's and its subsidiaries' decisions on the exposure portion to be hedged against financial risk, both for fuel consumption and currency and interest rate exposures, consider the risks and hedge costs.

The Company and its subsidiaries do not usually contract hedging instruments for its total exposure, and thus they are subject to the portion of risks resulting from market fluctuations. The portion of exposure to be hedged is determined and reviewed at least quarterly in compliance with the strategies determined in the Risk Policies Committees.

The relevant information on the main risks affecting the Company's and its subsidiaries' operation is as follows:

a) Fuel Price Risk

As of June 30, 2013, fuel expenses accounted for 43.9% of the costs and operating expenses of the Company and its subsidiaries. The aircraft fuel price fluctuates both in the short and in the long term, in line with crude oil and oil byproduct price fluctuations.

To mitigate the risk of fuel price, the company and its subsidiaries engage derivative financial instruments referenced mainly crude oil and, eventually, to their derivatives; are also contracted, directly with the local supplier, future fuel deliveries of aircraft to predetermined prices.

b) Exchange Rate Risk

The exchange rate risk derives from the possibility of unfavorable fluctuation of foreign currencies to which the Company's liabilities or cash flows are exposed. The exposure of the Company's and its subsidiaries' assets and liabilities to the foreign currency risk mainly derives from foreign currency-denominated leases and financing.

The Company's and its subsidiaries' revenues are mainly denominated in *Reais*, except for a small portion in U.S. Dollars, Argentinean pesos, Bolivian bolivianos, Chilean peso, Colombian peso, Paraguay Guarani, Uruguayan peso,

Venezuela bolivar etc.

To mitigate the risk of exchange rate, the company and its subsidiaries hold derivative financial instruments that are referenced to the U.S. Dollar.

The currency exposure of the company on June 30, 2013 and December 31, 2012 is shown below:

c) Interest Rate Risk

The Company and its subsidiaries are exposed to fluctuations in domestic and foreign interest rates, substantially the CDI and Libor, respectively. The highest exposure is related to lease transactions, indexed to the Libor and local debt.

To mitigate the interest rate risk the Company and its subsidiaries hold swap instruments.

d) Credit Risk

The credit risk is inherent in the Company's and its subsidiaries' operating and financing activities, mainly represented by trade receivables, cash and cash equivalents, including bank deposits.

The trade receivable credit risk consists of amounts falling due of the largest credit card companies, with credit risk better than or equal to those of the Company and its subsidiaries, and receivables from travel agencies, installment sales, and government sales, with a small portion exposed to risks from individuals or other entities.

GOL LINHAS AÉREAS INTELIGENTES S.A.**NOTES TO THE CONSOLIDATED INTERIM FINANCIAL INFORMATION RELATED TO PERIOD ENDED ON JUNE 30, 2013**

The Individual and Consolidated Interim Financial Information as of June 30, 2013 were reviewed by Independent Auditors on the extent described on the Report on Review of Interim Financial Information dated on August 12, 2013.

(In thousands of Brazilian reais - R\$, except when indicated otherwise)

As defined in the Risk Management Policy, the Company and its subsidiaries are required to evaluate the counterparty risks in financial instruments and diversify the exposure. Financial instruments are performed with counterparties rated at least as investment grade by S&P and Moody's. The financial instruments are mostly contracted on commodities and futures exchanges (BM&FBOVESPA and NYMEX), which substantially mitigate the credit risk, derivative transactions contracted on the OTC market (OTC) have counterparts with a minimum rating of "investment grade". The Company's and its subsidiaries' Risk Management Policy establishes a maximum limit of 20% per counterparty for short-term investments.

e) Liquidity Risk

Liquidity risk takes on two distinct forms: market and cash flow liquidity risk. The first is related to current market prices and varies in accordance with the types of assets and the markets where they are traded. Cash flow liquidity risk, however, is related to difficulties in meeting the contracted operating obligations at the agreed dates.

As a way of managing the liquidity risk, the Company and its subsidiaries invest its funds in liquid assets (governmental bonds, CDBs, and investment funds with daily liquidity), and the Cash Management Policy establishes that the Company's and its subsidiaries' weighted average debt maturity should be higher than the weighted average maturity of the investment portfolio. As of June 30, 2013, the weighted average maturity of the Company's and its subsidiaries' financial assets was 11 days and of financial debt, excluding perpetual bonds, was 4.8 years.

f) Capital Management

The table below shows the financial leverage rate as of June 30, 2013 and December 31, 2012:

The Company and its subsidiaries adopt hedge accounting. On June 30, 2013, the derivatives contracted to hedge interest rate risk and fuel price risk were classified as "cash flow hedge", according to the parameters described in the Brazilian accounting standard CPC 38, and 40, technical guidance OCPC03 and International Accounting Standard IAS 39.

Classification of Derivatives Financial Instruments

i. Cash Flow Hedges

The Company and its subsidiaries use cash flow hedges to hedge against future revenue or expense fluctuations resulting from changes in the exchange rates, interest rates or fuel price, and accounts for actual fluctuations of the fair value of derivative financial instruments in shareholders' equity until the hedged revenue or expense is recognized.

GOL LINHAS AÉREAS INTELIGENTES S.A.

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL INFORMATION RELATED TO PERIOD ENDED ON JUNE 30, 2013

The Individual and Consolidated Interim Financial Information as of June 30, 2013 were reviewed by Independent Auditors on the extent described on the Report on Review of Interim Financial Information dated on August 12, 2013.

(In thousands of Brazilian reais - R\$, except when indicated otherwise)

The Company and its subsidiaries estimates the effectiveness based on statistical correlation methods and the ratio between gains and losses on the financial instruments used as hedge, and the cost and expense fluctuation of the hedged items.

The instruments are considered as effective when the fluctuation in the value of derivatives offsets between 80 % to 125% the impact of the price fluctuation on the cost or expense of the hedged item.

The balance of the actual fluctuations in the fair values of the derivatives designated as cash flow hedges is transferred from shareholders' equity to profit or loss for the period in which the hedged costs or expenses impacts profit or loss. Gains or losses on effective cash flow hedges are recorded in balancing accounts of the hedged expenses, by reducing or increasing the operating cost, and the ineffective gains or losses are recognized as financial income or financial expenses for the period.

ii. Derivative Financial Instruments Not Designated as Hedge

The Company and its subsidiaries hold derivative financial instruments that are not formally designated for hedge accounting. This occurs when transactions are in the short term and the control and disclosure complexity make them unfeasible, or when the change in a derivative's fair value must be recognized in profit or loss for the same period of the effects of the hedged risk.

iii. Derivative Equity Instruments

In April 2013, the Company entered into an investment agreement with General Atlantic Service Company LLC. ("G.A.") that established the grant by the Company of an option to purchase its Smiles shares enabling the secondary acquisition by G.A. (or other person designated by it), of Smiles S.A shares held by the Company. These options are exercisable for a period of 12 months from the date of the settlement of the offer, May 2, 2013, and the number of shares is equivalent to 20% (twenty percent) of the investment already realized by GA and is based on the same price per share as determined in the Offer, adjusted from the date of the settlement of the Offer to the date of exercise of the option based on the variation of CDI. The Company used the Black & Scholes methodology for the calculation of the fair value of the transaction and recorded, as a result, a loss of R\$7,677 shown as a "Loss on Derivative Transactions" on June 30, 2013. The corresponding entry, registered in liabilities as "Derivatives Obligations" will be registered in equity when the exercise of the options by G.A. occurs. Whilst not exercised, any and all rights attributable to the shares related to the options in question are owned by the Company, regardless of the date on which the payment or settlement will occur.

Designation of Hedged Item

a) Fuel Hedge

Due to the low liquidity of jet fuel derivatives traded in commodities exchanges, the Company and its subsidiaries contracts crude oil derivatives (WTI, Brent) and its byproducts (Heating Oil) to hedge against fluctuations in jet fuel prices. Historically, oil prices are highly correlated with jet fuel prices.

As of June 30, 2013, the company and its subsidiaries have contracts of options and collar, Brent and WTI, designated as cash flow hedge accounting of fuel.

Measurement of the Fair Value of Financial Instruments

In order to comply with the disclosure requirements for financial instruments measured at fair value, the Company and its subsidiaries must classify its instruments in Levels 1 to 3, based on observable fair value levels:

- a) Level 1: Fair value measurements are calculated based on quoted prices (without adjustment) in active market or identical liabilities;
- b) Level 2: Fair value measurements are calculated based on other variables besides quoted prices included in Level 1, that are observable for the asset or liability directly (such as prices) or indirectly (derived from prices); and
- c) Level 3: Fair value measurements are calculated based on valuation methods that include the asset or liability but that are not based on observable market variables (unobservable inputs).
