(1) Includes non-food categories of Hypermarkets, Nova Pontocom and Via Varejo.

Sales Performance - Consolidated

Gross sales revenue in 4Q13 totaled R\$ 18.8 billion, up 14.9%, thanks to the strong 10.8% growth in 'same-store' sales, continuing the solid performance of the previous quarter, and the accelerated growth across all Group businesses in comparison with 4Q12, as detailed below:

ü **Food category: growth of 9.8%**, driven by the strong growth across all Food Retail categories in comparison with 3Q13, notably beverages, and the extension of the Black Friday campaign to the food segment in 2013, in addition to the anniversary promotions that benefited Assaí during the period. This increase of about 400 basis points over inflation (as measured by the IPCA index) represents accelerated

growth in relation to the initial months of the year.

ü **Non-food category: growth of 11.5%**, driven by technology products – mobile phones, video and computers – in all the formats, fueled by Black Friday sales. 4Q13 was the best quarter of the year for non-food products in hypermarkets, with sales recovering during the course of 2013.

Gross sales revenue totaled R\$ 64.4 billion in 2013, fueled by ‘same-store’ sales, which grew 9.0%, 300 basis points above inflation (IPCA), closing the year with excellent performance and growth in all the businesses. The Company ended 2013 with 128 new stores, of which 87 were GPA Food stores and 41 were Via Varejo stores. In 4Q13, 50 new stores were opened.

GPA Food Highlights

ü Gross sales revenue increased 14.8% in 4Q13, fueled by the sharp growth across all Food Retail banners, highlight to Minimercado Extra banner that continued posting ‘same-store’ sales growth above GPA Food average, and in Assaí, which continued to register faster growth pace (35.6%). ‘Same-store’ growth was 8.8%. A total of 24 stores were opened in the period: 12 Minimercado, 6 Assaí, 4 Extra Super and 2 Pão de Açúcar.

ü After opening 8 stores in 9M13, Assaí opened 6 more in 4Q13, focusing in states where it already has a presence in order to increase volume scale and strengthen its position regarding its direct competitors. In the past 12 months, 14 stores were opened, of which 8 new stores in 5 new states, whose results continue to surpass expectations.

ü In Retail, the growth had fastened its pace quarter by quarter across all banners, reaching 10.3% in 4Q13, due to the implementation of the commercial competitiveness strategy in the first half of 2013, driven by an assertive communication in stores and media. This strategy already reflects higher customer traffic in stores, increase in average ticket and market share gains, especially in the Hypermarkets.

ü The Retail sales in 4Q13 were also benefited from the excellent performance of the Black Friday campaign, which was extended to the food categories, notably driven by the perishable and beverages products. Non-food items growth in the Hypermarkets were also boosted by Black Friday, with sales recovering during another quarter, driven by electronics and home appliances, which posted the highest growth of the year, especially in the mobile phone and video lines.

Nova Pontocom Highlights

ü Gross sales revenue grew 35.3% in 4Q13, reflecting the strategy of adjustments in the pricing policy in 2013, which improved the competitiveness. The customer's traffic increased during one more quarter, accompanied by an improvement in the conversion rate. It is worth highlighting the significant impact of Black Friday, which registered record sales in the calendar of Nova Pontocom.

ü In 2013, Nova Pontocom outperformed market growth, with signalization of market share gains. This was the result of accelerated growth throughout the year, especially as of 3Q13 with the consolidation of the gains in efficiency, strategic investments and improvements in service levels.

Via Varejo Highlights

ü Gross sales revenue totaled R\$ 7.1 billion in 4Q13, with 'same-store' sales growth of 9.0% and total-store sales growing 11.4%, maintaining the growth pace of the previous quarters. Twenty-six new stores were opened in the quarter, of which 24 were Casas Bahia stores and 2 were Pontofrio stores.

ü The 4Q13 highlights were the Black Friday campaign for Ponto Frio and Casas Bahia, which registered record sales for the Company on a single day and made both banners a reference for consumers on this date, as well as the Christmas and Children's Day campaigns, which also contributed to the results. The mobile phone category and technology-related products deserve special mention, maintaining the trend of the previous quarters and confirming the continuation of the technology consumption cycle in the country.

The information presented is preliminary, unaudited and subject to review. It is based on consolidated figures and denominated in Reais, in accordance with Brazilian Corporate Law.

The change and growth calculations are based on the same period in the previous year, except where otherwise indicated.

The basis for calculating 'same-store' sales is defined by the sales registered in stores that have been operating for at least 12 consecutive months and have not been closed for seven consecutive days or more in this period. Acquisitions are not included in the 'same-store' calculation basis in the first 12 months of operation.

GPA adopts the IPCA consumer price index as its benchmark inflation index, which is also used by the Brazilian Supermarkets Association (ABRAS), since it more accurately reflects the mix of products and brands sold by the Company. IPCA in the 12 months ended December 2013 was 5.91%.

Disclaimer: Statements contained in this release relating to the business outlook of the Group, projections of operating and financial results, growth potential of the Group and market and macroeconomic estimates, constitute mere forecasts and were based on beliefs, intentions and expectations of Management in relation to the future of the Company. These expectations are highly dependent on changes in the market, on Brazil's general economic performance, on the industry and on international markets, and are therefore subject to change.

About GPA and Via Varejo: GPA is Brazil's largest retailer, with a distribution network comprising approximately 1,800 points of sale and electronic channels. The Group's multiformat structure consists of the GPA Food and Via Varejo operations. GPA Food's operations comprise supermarkets (Pão de Açúcar and Extra Supermercado), hypermarkets (Extra), neighborhood convenience stores (Minimercado Extra), cash-and-carry stores (Assaí), gas stations and drugstores. GPA Food's business is divided into Food and Non-Food (electronics/home appliances, clothing, general merchandise, drugstore and gas station). Via Varejo's operations consist of bricks-and-mortar stores selling electronics/home appliances (Ponto Frio and Casas Bahia) and online stores (Nova Pontocom: Extra.com.br, PontoFrio.com.br, Casasbahia.com.br). Founded in 1948 in São Paulo, the Group is present in 20 of the 27 Brazilian states, which jointly account for 94.1% of the country's GDP.
