Petrobras confirms light oil potential of Muriú area in the Sergipe Basin

Rio de Janeiro, January 9, 2015 – Petróleo Brasileiro S.A. – Petrobras announces results of drilling well 9-SES-187A (Petrobras nomenclature) / 9-BRSA-1278A-SES (ANP nomenclature), located in concession area BM-SEAL-10, blocks SEAL-M-347 and SEAL-M-424, in Sergipe Basin ultra-deep waters.

Results have confirmed the continuation of the light oil accumulation in turbidite sandstone in the Muriú area (from 38º to 40º API), as announced to the market on August 16, 2013.

The well is 88 km off the coast of the city of Aracaju, some 2.8 km from the discovery well and at a water depth of 2,533 meters. A 56-meter thick reservoir presenting good permeability and porosity features was detected.

The well reached the total depth of 5,521 meters. At this time, the well is in the completion phase and, subsequently, an injectivity test will be conducted to assess the reservoir's productivity.

This accumulation is part of the Sergipe-Alagoas Basin deep-water exploration project, as provided for in the Petrobras' Business and Management Plan for the 2014-2018 period.

Petrobras, which holds 100% of the stake of concession BM-SEAL-10, will proceed with the Discovery Evaluation Plan, as approved by Brazil's Petroleum, Natural Gas and Biofuels Agency

(ANP).

SIGNATURE

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (Securities Act), and Section 21E of the Securities Exchange Act of 1934, as amended (Exchange Act) that are not based on historical facts and are not assurances of future results. These forward-looking statements are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.

All forward-looking statements are expressly qualified in their entirety by this cautionary statement, and you should not place reliance on any forward-looking statement contained in this press release. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information or future events or for any other reason.
