- Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

**Top of the Form**

**Item 7.01 Regulation FD Disclosure.**

Transocean Inc. (the "Company") expects operating and maintenance expenses to be approximately \$550 million to \$575 million for the third quarter of 2006 and approximately \$515 million to \$535 million for the fourth quarter of 2006, which includes approximately \$4 million per quarter of integrated services costs. Assuming ten percent inflation, the Company expects to incur total operating and maintenance expenses in 2007 of approximately \$2.30 billion to \$2.35 billion, which includes approximately \$20 million per quarter of integrated services costs in 2007. The primary cause for the expected increase in integrated services costs from 2006 to 2007 is the anticipated increase in the number of rigs under integrated services in India in the first quarter of 2007 from one rig to six rigs. The Company expects that revenues generated from integrated services, which are a component of Other Revenues, will also increase from 2006 to 2007 with targeted margins of ten to fifteen percent.

**Forward-Looking Disclaimer**

Statements regarding operating and maintenance expenses, integrated services costs, rig counts, revenues, as well as any other statements that are not historical facts in the statements above, are forward-looking statements that involve certain risks, uncertainties and assumptions. These include but are not limited to operating hazards and delays, risks associated with international operations, future financial results, actions by customers and other third parties, factors affecting the supply of drilling rigs, including newbuilds, reactivations and the reallocation of current rigs, factors affecting the duration of contracts including well-in-progress provisions, the actual amount of downtime, factors resulting in reduced applicable dayrates, hurricanes and other weather conditions, the future price of oil and gas and other factors detailed in the Company's most recent Form 10-K and other filings with the Securities and Exchange Commission. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those indicated.

The information in Item 7.01 of this report is being furnished, not filed. Accordingly, the information in Item 7.01 of this report will not be incorporated by reference into any registration statement filed by the Company under the Securities Act of 1933, as amended, unless specifically identified therein as being incorporated therein by reference. The furnishing of the information in this report is not intended to, and does not, constitute a determination or admission by the Company that the information in this report is material or complete, or that investors should consider this information before making an investment decision with respect to any security of the Company.
