**Item 2.01 Completion of Acquisition or Disposition of Assets.**

Structure and Price of the Transactions

On October 25, 2006, Peabody Energy Corporation ("Peabody") completed the previously announced acquisition of Excel Coal Limited ("Excel"), an independent coal company in Australia, pursuant to a Merger Implementation Agreement (the "Merger Implementation Agreement"). The Merger Implementation Agreement was amended on September 18, 2006, when Peabody signed binding agreements to acquire 19.99 percent of Excel (the "Advance Purchase") and agreed to increase the purchase price to A\$9.50 per share for all outstanding shares. On September 20, 2006, Peabody closed on the Advance Purchase for \$307.8 million in cash and on October 25, 2006, Peabody completed the acquisition of all outstanding, remaining shares of Excel for \$1.21 billion in cash. In addition, Peabody has assumed debt of approximately \$277 million (net of cash) as of October 25, 2006. Peabody funded the acquisition with net proceeds from its registered offering of senior notes and borrowings under its senior unsecured credit facility. A copy of the Merger Implementation Agreement was attached as Exhibit 2.1 to Peabody's Current Report on Form 8-K filed on July 7, 2006 and is incorporated herein by reference as though fully set forth herein. The foregoing summary description of the acquisition does not purport to be complete and is qualified in its entirety by reference to the Merger Implementation Agreement.

Acquired Assets

Assets acquired include three operating mines and three development-stage mines, along with an estimated 500 million tons of proven and probable coal reserves. Excel produced approximately 5.6 million tons of coal in 2005.
