Item 8.01 Other Events.

The Company announced today on its 2008 year end earnings call that it has received commitments from its existing bank group to amend its \$150 million credit facility and extend the facility's maturity to May 2011.

The amended facility will be structured as an asset-based loan and will be comprised primarily of a revolving credit facility with a small term loan component, for an aggregate facility size of \$150 million, thereby maintaining the size of the existing facility. The interest on the amended facility will be priced at LIBOR plus 400 to 450 basis points.

Based upon current LIBOR rates, the Company anticipates that the annual interest rate on the amended facility will not be significantly greater in comparison to the annual interest rate on its previous debt structure, given the fact that its \$75 million convertible subordinated debentures (which have been substantially repaid) carried interest at a 5% annual coupon rate.

The amendment and extension of the facility will be subject to the satisfaction of customary closing conditions, and the Company expects it will be finalized shortly. Additional details of the amended and extended credit facility will be disclosed at that time.

A copy of the press release is being furnished as Exhibit 99.1 to this Current Report on Form 8-K.
