	TOTAL NET ASSETS—100%	\$142,785,697

Edgar Filing: Federated Enhanced Treasury Income Fund - Form N-Q

At February 28, 2013, the Fund had the following open futures contracts:

Description	Number of Contracts	Notional Value	Expiration Date	Unrealized Appreciation (Depreciation)
⁴ U.S. Treasury Bonds, 20-Year Short Futures	105	\$15,097,031	June 2013	\$(229,103)
⁴ U.S. Treasury Notes, 10-Year Long Futures	98	\$12,891,594	June 2013	\$120,748
⁴ U.S. Treasury Notes, 2-Year Long Futures	350	\$77,164,062	June 2013	\$59,369
⁴ U.S. Treasury Notes, 5-Year Short Futures	75	\$9,298,828	June 2013	\$(45,872)
NET UNREALIZED DEPRECIATION ON FUTURES CONTRACTS				\$(94,858)

The average notional value of long and short futures contracts held by the Fund throughout the period was \$72,176,496 and \$35,347,670, respectively. This is based on amounts held as of each month-end throughout the three month period.

At February 28, 2013, the Fund had the following outstanding written option contracts:

Security	Expiration Date	Exercise Price	Contracts	Value
⁴ U.S. Treasury Notes 5-Year Short Calls on Futures, 3/22/2013	March 2013	\$124	500	\$(281,250)
⁴ U.S. Treasury Notes 10-Year Short Calls on Futures, 3/22/2013	March 2013	\$131	140	\$(177,187)
⁴ U.S. Treasury Bonds 20-Year Short Calls on Futures, 3/22/2013	March 2013	\$142	244	\$(568,063)
(PREMIUMS RECEIVED \$584,743)				\$(1,026,500)

The average value of written call option contracts held by the Fund throughout the period was a net payable of \$654,308. This is based on amounts held as of each month-end throughout the three month period.

Net Unrealized Depreciation on Futures Contracts and Value of Written Call Option Contracts are included in “Other Assets and Liabilities—Net.”

- 1 All or a portion of the security pledged as collateral to ensure the Fund is able to satisfy the obligations of its outstanding futures and written call option contracts.

At February 28, 2013, the cost of investments for federal tax purposes was \$134,382,217. The net unrealized appreciation of investments for federal tax purposes excluding any unrealized appreciation/depreciation resulting from futures contracts and written call option contracts was \$8,201,370. This consists of net unrealized appreciation from investments for those securities having an excess of value over cost of \$8,208,371 and net unrealized depreciation from investments for those securities having an excess of cost over value of \$7,001.

- 3 Assets, other than investments in securities, less liabilities.

- 4 Non-income producing security.

Note: The categories of investments are shown as a percentage of total net assets at February 28, 2013.

Investment Valuation

In calculating its net asset value (NAV), the Fund generally values investments as follows:

Fixed-income securities acquired with remaining maturities greater than 60 days are fair valued using price evaluations provided by a pricing service approved by the Fund's Board of Trustees (the “ Trustees”).

Fixed-income securities acquired with remaining maturities of 60 days or less are valued at their cost (adjusted for the accretion of any discount or amortization of any premium), which approximates market value.

Shares of other mutual funds are valued based upon their reported NAVs.

Derivative contracts listed on exchanges are valued at their reported settlement or closing price.

Over-the-counter (OTC) derivative contracts are fair valued using price evaluations provided by a pricing service approved by the Trustees.

For Securities that are fair value in accordance with procedures established by and under the general supervision of the Trustees, certain factors may be considered such as: the purchase, price of the security, information obtained by contacting the issuer, analysis of the issuer's financial statements or other available documents, fundamental analytical data, the nature and duration of restrictions on disposition, the movement of the market in which the security is normally traded and public trading in similar securities of the issuer or comparable issuers.

If the Fund cannot obtain a price or price evaluation from a pricing service for an investment, the Fund may attempt to value the investment based upon the mean of bid and asked quotations or fair value the investment based on price evaluations, from one or more dealers. If any price, quotation, price evaluation or other pricing source is not readily available when the NAV is calculated, the Fund uses the fair value of the investment determined in accordance with the procedures described below. There can be no assurance that the Fund could purchase or sell an investment at the price used to calculate the Fund's NAV.

Fair Valuation and Significant Events Procedures

The Trustees have appointed a Valuation Committee comprised of officers of the Fund, Federated Investment Management Company (“Adviser”) and the Adviser's affiliated companies to determine fair value of securities and in overseeing the calculation of the NAV. The Trustees have also authorized the use of pricing services recommended by the Valuation Committee to provide fair value evaluations of the current value of certain investments for purposes of calculating the NAV. The Valuation Committee employs various methods for reviewing third-party pricing service evaluations including periodic reviews of third-party pricing services' policies, procedures and valuation methods (including key inputs and assumptions), transactional back-testing, comparisons of evaluations of different pricing services and review of price challenges by the Adviser based on recent market activity. In the event that market quotations and price evaluations are not available for an investment, the Valuation Committee determines the fair value of the investment in accordance with procedures adopted by the Trustees. The Trustees periodically review and approve the fair valuations made by the Valuation Committee and any changes made to the procedures.

Factors considered by pricing services in evaluating an investment include the yields or prices of investments of comparable quality, coupon, maturity, call rights and other potential prepayments, terms and type, reported transactions, indications as to values from dealers, and general market conditions. Some pricing services provide a single price evaluation reflecting the bid-side of the market for an investment (a “bid” evaluation). Other pricing services offer both bid evaluations and price evaluations indicative of a price between the prices bid and asked for the investment (a “mid” evaluation). The Fund normally uses bid evaluations for U.S. Treasury and Agency securities, mortgage-backed securities and municipal securities. The Fund normally uses mid evaluations for other types of fixed-income securities and OTC derivative contracts. In the event that market quotations and price evaluations are not available for an investment, the fair value of the investment is determined in accordance with procedures adopted by the Trustees.

The Trustees also have adopted procedures requiring an investment to be priced at its fair value whenever the Adviser determines that a significant event affecting the value of the investment has occurred between the time as of which the price of the investment would otherwise be determined and the time as of which the NAV is computed. An event is considered significant if there is both an affirmative expectation that the investment's value will change in response to the event and a reasonable basis for quantifying the resulting change in value. Examples of significant events that may occur after the close of the principal market on which a security is traded, or after the time of a price evaluation provided by a pricing service or a dealer, include:

- Political or other developments affecting the economy or markets in which an issuer conducts its operations or its securities are traded; and

- Announcements concerning matters such as acquisitions, recapitalizations, litigation developments, a natural disaster affecting the issuer's operations or regulatory changes or market developments affecting the issuer's industry.

The Trustees have approved the use of a pricing service to determine the fair value of equity securities traded principally in foreign markets when the Adviser determines that there has been a significant trend in the U.S. equity markets or in index futures trading. For other significant events, the Fund may seek to obtain more current quotations or price evaluations from alternative pricing sources. If a reliable alternative pricing source is not available, the Fund will determine the fair value of the investment using another method approved by the Trustees.

Various inputs are used in determining the value of the Fund's investments. These inputs are summarized in the three broad levels listed below:

Level 1— quoted prices in active markets for identical securities, including investment companies with daily net asset values, if applicable.

Level 2— other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.). Also includes securities valued at amortized cost.

Level 3— significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments).

The inputs or methodology used for valuing securities are not an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used, as of February 28, 2013, in valuing the Fund's assets carried at fair value:

Valuation Inputs

	Level 1— Quoted Prices and Investments in Mutual Funds	Level 2— Other Significant Observable Inputs	Level 3— Significant Unobservable Inputs	Total
Debt Securities:				
U.S. Treasury	\$—	\$141,542,587	\$—	\$141,542,587
Repurchase Agreement	—	1,041,000	—	1,041,000
TOTAL SECURITIES	\$—	\$142,583,587	\$—	\$142,583,587
OTHER FINANCIAL INSTRUMENTS*	\$(1,121,358)	\$—	\$—	\$(1,121,358)

*Other financial instruments include written call option contracts and futures contracts.
