NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1. BASIS OF PRESENTATION

Description of Business

Viacom is home to premier global media brands that create compelling television programs, motion pictures, short-form content, apps, games, consumer products, social media experiences and other entertainment content for audiences in 180 countries. Viacom operates through two reporting segments: Media Networks, which includes the Music & Entertainment Group, the Kids & Family Group and BET Networks, and Filmed Entertainment. The Media Networks segment provides entertainment content and related branded products for consumers in targeted demographics attractive to advertisers, content distributors and retailers. The Filmed Entertainment segment produces, finances, acquires and distributes motion pictures, television programming and other entertainment content under the Paramount Pictures, Paramount Vantage, Paramount Classics, Paramount Animation, Insurge Pictures, Nickelodeon Movies, MTV Films and Paramount Television brands. References in this document to “Viacom,” “Company,” “we,” “us” and “our” mean Viacom Inc. and our consolidated subsidiaries, unless the context requires otherwise.

Unaudited Interim Financial Statements

The accompanying unaudited consolidated quarterly financial statements have been prepared on a basis consistent with accounting principles generally accepted in the United States of America (“GAAP”) for interim financial information and pursuant to the rules of the Securities and Exchange Commission (“SEC”). In the opinion of management, the accompanying unaudited financial statements reflect all adjustments, consisting of only normal and recurring adjustments, necessary for a fair presentation of our results of operations, financial position and cash flows for the periods presented. The results of operations for the periods presented are not necessarily indicative of the results expected for the fiscal year ending September 30, 2016 (“fiscal 2016”) or any future period. These financial statements should be read in conjunction with our Form 10-K for the year ended September 30, 2015, as filed with the SEC on November 12, 2015 (the “2015 Form 10-K”).

Use of Estimates

Preparing financial statements in conformity with GAAP requires management to make estimates, judgments and assumptions that affect the reported amounts of assets and liabilities as of the dates presented and the reported amounts of revenues and expenses during the periods presented. Significant estimates inherent in the preparation of the accompanying Consolidated Financial Statements include estimates of film ultimate revenues, product returns, potential outcome of uncertain tax positions, fair value of acquired assets and liabilities, fair value of equity-based compensation and pension benefit assumptions. Estimates are based on past experience and other considerations reasonable under the circumstances. Actual results may differ from these estimates.

Recent Accounting Pronouncements

In January 2016, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2016-01 - Financial Instruments - Overall: Recognition and Measurement of Financial Assets and Financial Liabilities. ASU 2016-01 addresses certain aspects of recognition, measurement, presentation, and disclosure of financial instruments. Among other provisions, the new guidance requires the fair value measurement of investments in certain equity securities. For investments without readily determinable fair values, entities have the option to either measure these investments at fair value or at cost adjusted for changes in observable prices minus impairment. All changes in measurement will be recognized in net income. The guidance will be effective for the first interim period of our 2019 fiscal year. Early adoption is not permitted, except for certain provisions relating to financial liabilities. We are currently evaluating the impact of the new standard.

In November 2015, the FASB issued ASU 2015-17 - Income Taxes: Balance Sheet Classification of Deferred Taxes, which requires that all deferred taxes be classified as noncurrent in the balance sheet. The guidance is effective for interim and annual periods beginning after December 15, 2016, with early adoption permitted on either a prospective or retrospective basis. In the quarter ended December 31, 2015, we adopted the new guidance on a retrospective basis.

As a result, our \$99 million net deferred tax liability in the Consolidated Balance Sheet as of September 30, 2015 is presented as a deferred tax asset of \$51 million within Other assets and \$150 million in Deferred tax liabilities, net. In May 2014, the FASB issued ASU 2014-09 - Revenue from Contracts with Customers, a comprehensive revenue recognition model that supersedes the current revenue recognition requirements and most industry-specific guidance. The guidance provides a five step framework to recognize revenue to depict the transfer of goods or services to customers in an amount that reflects the consideration it expects to be entitled to in exchange for those goods or services. The guidance will be effective for the first interim period of our 2019 fiscal year (with early adoption permitted beginning fiscal year 2018), and allows adoption either under a full retrospective or a modified retrospective approach. We are currently evaluating the impact of the new standard.

NOTE 4. PENSION BENEFITS

The components of net periodic benefit cost for our defined benefit pension plans, which are currently frozen to future benefit accruals, are set forth below.

NOTE 5. REDEEMABLE NONCONTROLLING INTEREST

We are subject to a redeemable put option, payable in a foreign currency, with respect to an international subsidiary. The put option expires in December 2022 and is classified as Redeemable noncontrolling interest in the Consolidated Balance Sheets.

The activity reflected within redeemable noncontrolling interest is as follows:

Net earnings	7	7

Ending Balance	\$231	\$207

NOTE 6. COMMITMENTS AND CONTINGENCIES

Commitments

As more fully described in Note 11 of the 2015 Form 10-K, our commitments primarily consist of programming and talent commitments, operating and capital lease arrangements, and purchase obligations for goods and services. These arrangements result from our normal course of business and represent obligations that may be payable over several years.

Contingencies

We have certain indemnification obligations with respect to leases primarily associated with the previously discontinued operations of Famous Players Inc. (“Famous Players”). In addition, we have certain indemnities provided by the acquirer of Famous Players. These lease commitments amounted to approximately \$250 million as of December 31, 2015. The amount of lease commitments varies over time depending on expiration or termination of individual underlying leases, or of the related indemnification obligation, and foreign exchange rates, among other things. We may also have exposure for certain other expenses related to the leases, such as property taxes and common area maintenance. We have recorded a liability of \$192 million with respect to such obligations as of December 31, 2015. We believe our accrual is sufficient to meet any future obligations based on our consideration of available financial information, the lessees’ historical performance in meeting their lease obligations and the underlying economic factors impacting the lessees’ business models.

Legal Matters

Litigation is inherently uncertain and always difficult to predict. However, based on our understanding and evaluation of the relevant facts and circumstances, we believe that the legal matters described below and other litigation to which we are a party are not likely, in the aggregate, to have a material adverse effect on our results of operations, financial position or operating cash flows.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(continued)

In July 2015, the Directorate-General for Competition (“DG Comp”) of the European Commission (the “EC”) issued a Statement of Objections (the “SO”) to the six major Hollywood film studios, including Paramount Pictures, and to Sky UK (“Sky”), in connection with DG Comp’s investigation into whether conventional territorial restrictions in agreements licensing content to pay television broadcasters impeded European Union (“EU”) single market imperatives in an anti-competitive way. The SO directed at Paramount takes issue with certain geo-filtering provisions in Paramount’s 2009 and 2014 agreements with Sky, which are designed to enforce the territorial nature of the content Paramount licenses for distribution on Sky’s online and mobile pay television platforms. In addition, the SO challenges certain provisions in the 2009 agreement regarding Sky’s satellite distribution of Paramount content. Paramount has responded to the SO. If the SO directed at Paramount is not closed or resolved by settlement and the EC decides that violations have in fact occurred, it has the power to impose fines. Any such decision by the EC could be subject to judicial review in the EU’s General Court and, thereafter, the Court of Justice of the EU. The full process, including appeals, could last several years. We believe that Paramount’s licensing practices in the EU are consistent with the region’s competition and other rules, and the objections presented by the EC are without merit. We will vigorously defend against the claims made by the EC.

In November 2015, Robert J. Casey, II, a Viacom shareholder, commenced a shareholder derivative action in the Court of Chancery of the State of Delaware naming, as defendants, all of the members of our Board of Directors, our Chief Financial Officer and our Controller. The complaint alleged breaches of fiduciary duties and unjust enrichment in connection with (i) our decision to recognize a pre-tax charge in the second quarter of fiscal 2015, reflecting the impact of write-downs of underperforming programming, costs associated with workforce reductions and the accelerated amortization of programming expenses, as we publicly announced on April 6, 2015, (ii) our decision to temporarily pause our stock repurchase program in order to stay within our target leverage ratio, also as publicly announced on April 6, 2015, and (iii) the matters relating to the European Statement of Objections, as discussed above. The complaint was filed following communication to Mr. Casey’s counsel that the Board unanimously determined not to authorize commencement of a civil action against members of management in connection with the above matters, as requested by Mr. Casey’s counsel in previous demand letters. We believe the complaint is meritless and, in January 2016, moved to dismiss it.

In January 2016, E.F. Greenberg, a putative Viacom shareholder, commenced a shareholder derivative action in the Court of Chancery of the State of Delaware against the Company and all the current members of our Board of Directors. The complaint alleges breaches of the fiduciary duties of loyalty and candor, waste of corporate assets, and unjust enrichment in connection with compensation arrangements between Viacom and Sumner and Shari Redstone since October 1, 2013. CBS Corporation and its directors were also named in the complaint in connection with arrangements between CBS and Mr. Redstone and Ms. Redstone. We believe the complaint is meritless and will seek its dismissal pursuant to the procedural rules of the court.

NOTE 8. RESTRUCTURING

Our restructuring liability as of December 31, 2015 by reporting segment is as follows:

December 31, 2015	\$62	\$46	\$7	\$115

The liability as of December 31, 2015 is related to future severance payments in connection with the restructuring plan undertaken in fiscal 2015, as further described in Note 14 of the 2015 Form 10-K. We anticipate that substantially all of the remaining restructuring liability will be paid by September 30, 2016.

NOTE 9. EARNINGS PER SHARE

Basic earnings per common share is computed by dividing Net earnings attributable to Viacom by the weighted average number of common shares outstanding during the period. The determination of diluted earnings per common share includes the weighted average number of common shares plus the dilutive effect of equity awards based upon the application of the treasury stock method. Anti-dilutive common shares were excluded from the calculation of diluted earnings per common share.

The following table sets forth the weighted average number of common shares outstanding used in determining basic and diluted earnings per common share and anti-dilutive common shares:

Weighted Average Number of Common Shares Outstanding and Anti-dilutive Common Shares (in millions)	Quarter Ended December 31,	
	2015	2014
Weighted average number of common shares outstanding, basic	396.6	410.6

Weighted average number of common shares outstanding, diluted	398.4	416.1
Anti-dilutive common shares	12.7	4.1

NOTE 10. SUPPLEMENTAL CASH FLOW AND OTHER INFORMATION

Our supplemental cash flow information is as follows:

Supplemental Cash Flow Information (in millions)	Quarter Ended December 31,	
	2015	2014
Cash paid for interest	\$157	\$156
Cash paid for income taxes	\$65	\$48

Accounts Receivable
We had \$545 million and \$577 million of noncurrent trade receivables as of December 31, 2015 and September 30, 2015, respectively. Accounts receivables are principally related to content distribution arrangements at Media Networks and long-term television license arrangements at Filmed Entertainment. These amounts are included within Other assets - noncurrent in our Consolidated Balance Sheets. Such amounts are due in accordance with the underlying terms of the respective agreements with companies that are investment grade or with which we have historically done business under similar terms. We have determined that credit loss allowances are generally not considered necessary for these amounts.

Variable Interest Entities

In the normal course of business, we enter into joint ventures or make investments with business partners that support our underlying business strategy and provide us the ability to enter new markets to expand the reach of our brands, develop new programming and/or distribute our existing content. In certain instances, an entity in which we make an investment may qualify as a variable interest entity (“VIE”). In determining whether we are the primary beneficiary of a VIE, we assess

whether we have the power to direct matters that most significantly impact the activities of the VIE and have the obligation to absorb losses or the right to receive benefits from the VIE that could potentially be significant to the VIE.

Unconsolidated Variable Interest Entities: We have an unconsolidated investment in Prism TV Private Limited (“Prism”), a 50% owned joint venture in India that qualifies as a VIE. In connection with our investment, we do not have the power to direct matters that most significantly impact the activities of Prism and therefore we do not qualify as the primary beneficiary. Our carrying value in Prism was \$152 million and \$145 million as of December 31, 2015 and September 30, 2015, respectively.

Consolidated Variable Interest Entities: Our Consolidated Balance Sheets include amounts related to consolidated VIEs totaling \$207 million in assets and \$55 million in liabilities as of December 31, 2015, and \$207 million in assets and \$54 million in liabilities as of September 30, 2015. The consolidated VIEs’ revenues, expenses and operating income were not significant for all periods presented.

Income Taxes

We recognized net discrete tax expense of \$21 million in the quarter ended December 31, 2015 and \$23 million in the quarter ended December 31, 2014, principally related to a reduction in qualified production activity tax benefits as a result of retroactively reenacted legislation.

Our effective tax rate was 35.7% in the quarter ended December 31, 2015, which included discrete tax expense that contributed 2.9 percentage points to the effective tax rate. Our effective tax rate was 35.1% in the quarter ended December 31, 2014, which included discrete tax expense and a loss on pension settlement that, when taken together, contributed 2.8 percentage points to the effective tax rate.

NOTE 11. FAIR VALUE MEASUREMENTS

The following table summarizes our financial assets and liabilities measured and recorded at fair value on a recurring basis as of December 31, 2015 and September 30, 2015:

Financial Asset/(Liability)	Total	Quoted Prices		
		In Active Markets for Identical Assets	Significant Other Observable Inputs	Significant Unobservable Inputs
(in millions)		Level 1	Level 2	Level 3

Marketable securities	\$ 100	\$ 100	\$—	\$—
Derivatives	(10) —	(10) —
Total	\$90	\$ 100	\$(10) \$—

The fair value for marketable securities is determined utilizing a market approach based on quoted market prices in active markets at period end and the fair value for derivatives is determined utilizing a market-based approach. The notional value of all foreign exchange contracts was \$1.171 billion and \$1.040 billion as of December 31, 2015 and September 30, 2015, respectively. At December 31, 2015, \$809 million related to our foreign currency balances and \$362 million related to future production costs. At September 30, 2015, \$769 million related to our foreign currency balances and \$271 million related to future production costs.

NOTE 12. REPORTING SEGMENTS

The following tables set forth our financial performance by reporting segment. Our reporting segments have been determined in accordance with our internal management structure. We manage our operations through two reporting segments: (i) Media Networks and (ii) Filmed Entertainment. Typical intersegment transactions include the purchase of advertising by the Filmed Entertainment segment on Media Networks' properties and the purchase of Filmed Entertainment's feature films and television programming exhibition rights by Media Networks. The elimination of such intercompany transactions in the Consolidated Financial Statements is included within eliminations in the tables below.

Our measure of segment performance is adjusted operating income/(loss). Adjusted operating income/(loss) is defined as operating income/(loss), before equity-based compensation and certain other items identified as affecting comparability, when applicable.

NOTE 13. RELATED PARTY TRANSACTIONS

National Amusements, Inc. (“NAI”), directly and indirectly, is the controlling stockholder of both Viacom and CBS Corporation (“CBS”). Sumner M. Redstone, the controlling shareholder, Chairman and Chief Executive Officer of NAI, serves as our Chairman Emeritus and as the Chairman Emeritus of CBS. Shari Redstone, who is Sumner Redstone’s daughter, is the President and a director of NAI, and serves as non-executive Vice Chair of the Board of Directors of both Viacom and CBS. George Abrams, one of our directors, serves on the boards of both NAI and Viacom, and Frederic Salerno, another of our directors, serves on the boards of both Viacom and CBS. Philippe Dauman, our Executive Chairman, President and Chief Executive Officer, also serves on the boards of both NAI and Viacom. Transactions between Viacom and related parties are overseen by our Governance and Nominating Committee.

Viacom and NAI Related Party Transactions

NAI licenses films in the ordinary course of business for its motion picture theaters from all major studios, including Paramount. During the quarters ended December 31, 2015 and 2014, Paramount earned revenues from NAI in connection with these licenses in the aggregate amounts of approximately \$1 million and \$2 million, respectively.

Viacom and CBS Corporation Related Party Transactions

In the ordinary course of business, we are involved in transactions with CBS and its various businesses that result in the recognition of revenues and expenses by us. Transactions with CBS are settled in cash.

Our Filmed Entertainment segment earns revenues and recognizes expenses associated with its distribution of certain television products into the home entertainment market on behalf of CBS. Pursuant to its agreement with CBS, Paramount distributes CBS’s library of television and other content on DVD and Blu-ray disc on a worldwide basis. Under the terms of the agreement, Paramount is entitled to retain a fee based on a percentage of gross receipts and is generally responsible for all out-of-pocket costs, which are recoupable together with any advance amounts paid. Paramount made advance payments of \$60 million to CBS during the quarter ended December 31, 2015. Paramount also earns revenues from CBS through leasing of studio space and licensing of certain film products.

Our Media Networks segment recognizes advertising revenues and purchases television programming from CBS. The cost of the programming purchases is initially recorded as acquired program rights inventory and amortized over the estimated period that revenues will be generated.

Both of our segments recognize advertising expenses related to the placement of advertisements with CBS.

Item 2. Management's Discussion and Analysis of Results of Operations and Financial Condition.

Management's discussion and analysis of results of operations and financial condition is provided as a supplement to and should be read in conjunction with the unaudited consolidated financial statements and related notes to enhance the understanding of our results of operations, financial condition and cash flows. Additional context can also be found in our Form 10-K for the fiscal year ended September 30, 2015, as filed with the Securities and Exchange Commission ("SEC") on November 12, 2015 (the "2015 Form 10-K"). References in this document to "Viacom," "Company," "we," "us" and "our" mean Viacom Inc. and our consolidated subsidiaries, unless the context requires otherwise. Significant components of management's discussion and analysis of results of operations and financial condition include:

Overview: The overview section provides a summary of our business.

Results of Operations: The results of operations section provides an analysis of our results on a consolidated and reportable segment basis for the quarter ended December 31, 2015, compared with the quarter ended December 31, 2014. In addition, we provide a discussion of items that affect the comparability of our results of operations.

Liquidity and Capital Resources: The liquidity and capital resources section provides a discussion of our cash flows for the quarter ended December 31, 2015, compared with the quarter ended December 31, 2014, and of our outstanding debt, commitments and contingencies existing as of December 31, 2015.

OVERVIEW

Summary

We are home to premier global media brands that create compelling television programs, motion pictures, short-form content, apps, games, consumer products, social media experiences and other entertainment content for audiences in 180 countries. Our media networks, including Nickelodeon®, COMEDY CENTRAL®, MTV®, VH1®, SPIKE®, BET®, CMT®, TV Land®, Nick at Nite®, Nick Jr.®, Channel 5® (UK), Logo®, Nicktoons®, TeenNick® and Paramount Channel™, reach 510 million households worldwide. Viacom Media Networks also provides extensive online, mobile and app experiences. Paramount Pictures® is a major global producer and distributor of filmed entertainment. Paramount Television™ develops and produces programming for television and video-on-demand platforms.

We operate through two reporting segments: Media Networks and Filmed Entertainment. Our measure of segment performance is adjusted operating income/(loss). We define adjusted operating income/(loss) for our segments as operating income/(loss), before equity-based compensation and certain other items identified as affecting comparability, when applicable. Equity-based compensation is excluded from our segment measure of performance since it is set and approved by the Compensation Committee of Viacom's Board of Directors in consultation with corporate executive management, and is included as a component of consolidated adjusted operating income.

When applicable, we use consolidated adjusted operating income, adjusted net earnings attributable to Viacom and adjusted diluted earnings per share ("EPS"), among other measures, to evaluate our actual operating performance and for planning and forecasting of future periods. We believe that the adjusted results provide relevant and useful information for investors because they clarify our actual operating performance, make it easier to compare our results with those of other companies and allow investors to review performance in the same way as our management. Since these are not measures of performance calculated in accordance with accounting principles generally accepted in the United States of America ("GAAP"), they should not be considered in isolation of, or as a substitute for, operating income, net earnings attributable to Viacom and diluted EPS as indicators of operating performance and they may not be comparable to similarly titled measures employed by other companies. For a reconciliation of our adjusted measures and discussion of the items affecting comparability, refer to the section entitled "Factors Affecting Comparability".

Media Networks

Our Media Networks segment generates revenues in three categories: (i) the sale of advertising and marketing services, (ii) affiliate fees from cable television operators, direct-to-home satellite television operators, mobile networks, video-on-demand services, and other distributors of our programming and program services, and (iii) ancillary revenues, which include consumer products licensing, brand licensing, sale of content on DVDs and Blu-ray discs, licensing of our content for download-to-own and download-to-rent services and television syndication.

Table of ContentsManagement's Discussion and Analysis
of Results of Operations and Financial Condition
(continued)

Media Networks segment expenses consist of operating expenses, selling, general and administrative ("SG&A") expenses and depreciation and amortization. Operating expenses are comprised of costs related to original and acquired programming, including programming amortization, expenses associated with the distribution of home entertainment products and consumer products licensing, participation fees, integrated marketing expenses and other costs of sales. SG&A expenses consist primarily of employee compensation, marketing, research and professional service fees and facility and occupancy costs. Depreciation and amortization expenses reflect depreciation of fixed assets, including transponders financed under capital leases, and amortization of finite-lived intangible assets.

Filmed Entertainment

Our Filmed Entertainment segment generates revenues worldwide principally from: (i) the theatrical release and/or distribution of motion pictures, (ii) home entertainment, which includes sales of DVDs and Blu-ray discs relating to the motion pictures we release theatrically and direct-to-DVD, as well as content distributed on behalf of Viacom and third parties, transactional video-on-demand and download-to-own services, (iii) licensing of film and television exhibition rights to pay and basic cable television, free television, subscription video-on-demand and free video-on-demand services and (iv) ancillary revenues from providing production services to third parties, primarily at Paramount's studio lot, licensing of its brands for consumer products, theme parks and other uses, and distribution of content specifically developed for digital platforms.

Filmed Entertainment segment expenses consist of operating expenses, SG&A expenses and depreciation and amortization. Operating expenses principally include the amortization of film costs of our released feature films (including participations and residuals), print and advertising expenses and other distribution costs. We incur marketing costs before and throughout the theatrical release of a film and, to a lesser extent, other distribution windows. Such costs are incurred to generate public interest in our films and are expensed as incurred; therefore, we typically incur losses with respect to a particular film prior to and during the film's theatrical exhibition and profitability may not be realized until well after a film's theatrical release. Therefore, the results of the Filmed Entertainment segment can be volatile as films work their way through the various distribution windows. SG&A expenses include employee compensation, facility and occupancy costs, professional service fees and other overhead costs. Depreciation and amortization expense principally consists of depreciation of fixed assets.

See the section entitled "Factors Affecting Comparability" for a reconciliation of our adjusted measures to our reported results.

Revenues

Worldwide revenues decreased \$190 million, or 6%, to \$3.154 billion in the quarter ended December 31, 2015. Excluding foreign exchange, which had a 2-percentage point unfavorable impact, worldwide revenues decreased 4%. Filmed Entertainment revenues decreased \$108 million, or 15%, primarily driven by lower theatrical and home entertainment revenues, partially offset by increased license fees, and Media Networks revenues decreased \$89 million, or 3%, principally reflecting lower advertising and ancillary revenues. Excluding foreign exchange, which had a 1-percentage point and 3-percentage point unfavorable impact, respectively, Media Networks revenues declined 2% and Filmed Entertainment revenues declined 12%.

Operating Income

Adjusted operating income decreased \$120 million, or 13%, to \$839 million in the quarter ended December 31, 2015. Filmed Entertainment adjusted operating results decreased \$86 million reflecting the timing and mix of current quarter releases, as well

as lower contributions from films in release in the post-theatrical distribution windows. Media Networks adjusted operating income decreased \$47 million, or 4%, as the decline in revenues was partially offset by lower expenses. In addition, corporate expenses decreased \$11 million, or 18%, due to lower employee-related costs. Adjusted results in the quarter ended December 31, 2014 exclude the impact of a non-cash pension settlement loss of \$24 million. Including the pension settlement loss, operating income decreased \$96 million, or 10%.

See the section entitled "Segment Results of Operations" for a more in-depth discussion of the revenues, expenses and adjusted operating income/(loss) for each of the Media Networks and Filmed Entertainment segments.

Net Earnings Attributable to Viacom

Adjusted net earnings attributable to Viacom decreased \$68 million, or 13%, to \$470 million in the quarter ended December 31, 2015, principally due to the decline in tax-effected operating income described above, partially offset by the impact of foreign currency losses in the prior year quarter.

Our effective income tax rate was 32.8% in the quarter, compared with 32.3% in the quarter ended December 31, 2014, excluding the impact of discrete tax items.

Adjusted diluted EPS decreased \$0.11 per diluted share to \$1.18 in the quarter, reflecting lower earnings, partially offset by the impact of fewer shares. Foreign exchange had an unfavorable \$0.02 impact on adjusted diluted EPS. In addition to the pension settlement loss in the prior year quarter mentioned above, adjusted net earnings attributable to Viacom exclude net discrete tax expense of \$21 million and \$23 million in the quarters ended December 31, 2015 and 2014, respectively. Including these items, net earnings attributable to Viacom declined \$51 million, or 10% and diluted EPS decreased \$0.07.

Segment Results of Operations

Transactions between reportable segments are accounted for as third-party arrangements for the purposes of presenting segment results of operations. Typical intersegment transactions include the purchase of advertising by the Filmed Entertainment segment on Media Networks' properties and the purchase of Filmed Entertainment's feature films and television programming exhibition rights by Media Networks.

Advertising

Worldwide advertising revenues decreased \$47 million, or 3%, to \$1.320 billion in the quarter. Excluding foreign exchange, which had a 1-percentage point unfavorable impact, worldwide advertising revenues decreased 2%. Domestic advertising revenues decreased 4%. While pricing increased, softer ratings at certain of our networks caused lower audience delivery, reducing impressions and associated revenue. International advertising revenues decreased 2%, driven by the impact of foreign exchange, which had an 8-percentage point unfavorable impact on international revenues. Excluding the impact of foreign exchange, international advertising revenues increased 6% driven by growth in Europe.

Affiliate Fees

Worldwide affiliate fee revenues decreased \$13 million, or 1%, to \$1.119 billion in the quarter. Excluding foreign exchange, which had a 1-percentage point unfavorable impact, worldwide affiliate revenues were flat. Domestic affiliate revenues were substantially flat. Excluding the impact from the timing of product available under certain distribution agreements, domestic affiliate revenues grew in the low mid single digits as rate increases were partially offset by a modest decline in subscribers compared to the prior year quarter. International affiliate revenues decreased 6%, driven by the impact of foreign exchange, which had a 9-percentage point unfavorable impact on international revenues. Excluding the impact of foreign exchange, international affiliate revenues increased 3% driven by the launch of new channels and increased subscribers.

Ancillary

Worldwide ancillary revenue decreased \$29 million, or 19%, to \$126 million in the quarter, driven by lower consumer product revenue, reflecting Teenage Mutant Ninja Turtles merchandise sales in the prior year quarter, and a decline in television syndication revenue.

Expenses

Total expenses decreased \$42 million, or 3%, to \$1.508 billion in the quarter.

Operating

Operating expenses decreased \$30 million, or 3%, to \$957 million in the quarter. Programming costs decreased \$25 million, or 3%, to \$847 million primarily driven by the benefit associated with programming charges taken in the second quarter of fiscal 2015, partially offset by our continuing investment in original content. Distribution and other expenses decreased \$5 million, or 4%, to \$110 million.

Selling, General and Administrative

SG&A expenses decreased \$12 million, or 2%, to \$510 million in the quarter, reflecting lower employee costs, partially offset by higher advertising and promotional expenses related to marketing original programming.

Adjusted Operating Income

Adjusted operating income decreased \$47 million, or 4%, to \$1.057 billion in the quarter, reflecting the operating results discussed above and a 1-percentage point unfavorable foreign exchange impact.

Revenues

Worldwide revenues decreased \$108 million, or 15%, to \$612 million in the quarter ended December 31, 2015. Excluding foreign exchange, which had a 3-percentage point unfavorable impact, worldwide revenues declined 12%. Domestic revenues were \$311 million and international revenues were \$301 million, a decline of 16% and 14%, respectively. Foreign exchange had a 7-percentage point unfavorable impact on international revenues.

Theatrical

Worldwide theatrical revenues decreased \$75 million, or 44%, to \$94 million in the quarter. Carryover revenues decreased \$46 million principally due to revenues from Teenage Mutant Ninja Turtles in the prior year quarter, and revenues from our current quarter releases were lower by \$29 million due to the timing and mix of releases. Significant current quarter releases included Daddy's Home, Paranormal Activity: The Ghost Dimension and The Big Short, while the prior year quarter included Interstellar. Domestic theatrical revenues decreased 51% and international theatrical revenues decreased 33%. Foreign exchange had an 8-percentage point unfavorable impact on international theatrical revenues.

Home Entertainment

Worldwide home entertainment revenues decreased \$77 million, or 24%, to \$239 million in the quarter, primarily reflecting carryover revenues from Transformers: Age of Extinction in the prior year quarter. Significant titles in the current quarter included Mission: Impossible - Rogue Nation and Terminator: Genisys, while the prior year quarter included Teenage Mutant Ninja Turtles. Domestic home entertainment revenues decreased 18% and international home entertainment revenues decreased 32%. Foreign exchange had a 7-percentage point unfavorable impact on international home entertainment revenues.

License Fees

License fees increased \$48 million, or 25%, to \$237 million in the quarter, primarily driven by the licensing of certain titles in subscription video-on-demand and television.

Expenses

Total expenses decreased \$22 million, or 3%, to \$758 million in the quarter, principally driven by savings in SG&A expenses.

Operating

Operating expenses decreased \$5 million, or 1%, to \$663 million in the quarter. Distribution and other costs, principally print and advertising expenses, decreased \$30 million, or 9%, principally driven by home entertainment distribution costs for Transformers: Age of Extinction in the prior year quarter. Film costs increased \$25 million, or 8%, reflecting higher participations and residuals.

Selling, General and Administrative

SG&A expenses decreased \$17 million, or 17%, to \$82 million in the quarter, primarily driven by lower employee costs.

Adjusted Operating Loss

Adjusted operating loss was \$146 million for the quarter ended December 31, 2015 compared with \$60 million for the quarter ended December 31, 2014. The decline of \$86 million in operating results reflects the timing and mix of current quarter releases, as well as lower contributions from films in release in the post-theatrical distribution windows. The generation of an operating loss reflects the recognition of print and advertising expenses incurred in the period, generally before and throughout the theatrical release of a film, while revenues for the respective films are recognized as earned through its theatrical exhibition and subsequent distribution windows.

Factors Affecting Comparability

The Consolidated Financial Statements as of and for the quarters ended December 31, 2015 and 2014 reflect our results of operations, financial position and cash flows reported in accordance with GAAP. Results for the aforementioned periods, as discussed in the section entitled "Overview", have been affected by certain items identified

as affecting comparability. Accordingly, when applicable, we use adjusted measures to evaluate our actual operating performance.

Discrete tax expense	—	—	23	0.05
Adjusted results	\$959	\$ 814	\$ 538	\$1.29

Discrete tax expense: The net discrete tax expense in the quarters ended December 31, 2015 and 2014 is principally related to a reduction in qualified production activity tax benefits as a result of retroactively reenacted legislation.

Loss on pension settlement: The pre-tax non-cash charge of \$24 million in the quarter ended December 31, 2014 was driven by the settlement of pension benefits of certain participants of our funded pension plan.

Our effective tax rate was 32.8% in the quarter ended December 31, 2015 and 32.3% in the quarter ended December 31, 2014, excluding the impact of the discrete tax expense and loss on pension settlement. Discrete tax expense contributed 2.9 percentage points to the effective tax rate, which reconciles to the reported effective tax rate of 35.7% in the quarter ended December 31, 2015. Discrete tax expense, taken together with the impact of the pension settlement loss, contributed 2.8 percentage points to the effective tax rate, which reconciles to the reported effective tax rate of 35.1% in the quarter ended December 31, 2014.

LIQUIDITY AND CAPITAL RESOURCES

Liquidity

Sources and Uses of Cash

Our primary source of liquidity is cash provided through the operations of our businesses. We have access to external financing sources such as our \$2.5 billion five-year revolving credit facility and the capital markets. Our principal uses of cash from operations include the creation of new programming and film content, acquisitions of third-party content, and interest and income tax payments. We also use cash for discretionary share repurchases under our stock repurchase program, as deemed appropriate, as well as quarterly cash dividends, capital expenditures and acquisitions of businesses.

We believe that our cash flows from operating activities together with our credit facility provide us with adequate resources to fund our anticipated ongoing cash requirements. We anticipate that future debt maturities will be funded with cash and cash equivalents, cash flows from operating activities and future access to capital markets, including our credit facility. Share repurchases under the program are expected to be funded through a combination of debt and cash generated by operations, as deemed appropriate.

We may continue to access external financing from time to time depending on our cash requirements, assessments of current and anticipated market conditions and after-tax cost of capital. Our access to capital markets can be impacted by factors outside our control, including economic conditions; however, we believe that our strong cash flows and balance sheet, our credit facility and our credit rating will provide us with adequate access to funding given our expected cash needs. Any new borrowing cost would be affected by market conditions and short and long-term debt ratings assigned by independent rating agencies, and there can be no assurance that we will be able to access capital markets on terms and conditions that will be favorable to us.

Cash Flows

Cash and cash equivalents were \$327 million as of December 31, 2015, a decrease of \$179 million compared with September 30, 2015.

Operating Activities

Cash used in operating activities was \$126 million for the quarter ended December 31, 2015, compared with cash provided by operating activities of \$56 million for the quarter ended December 31, 2014, primarily reflecting unfavorable working capital requirements and the impact from lower earnings in the current quarter.

Investing Activities

Cash used in investing activities was \$56 million and \$35 million for the quarters ended December 31, 2015 and 2014, respectively.

Financing Activities

Cash provided by financing activities was \$10 million for the quarter ended December 31, 2015, primarily driven by \$290 million of commercial paper borrowings, partially offset by dividend payments of \$159 million and the settlement of share repurchases totaling \$100 million.

Cash provided by financing activities was \$193 million for the quarter ended December 31, 2014, primarily driven by proceeds of \$990 million from the issuance of senior notes and debentures and proceeds of \$104 million from the exercise of stock options, partially offset by the settlement of share repurchases of \$754 million and dividend payments totaling \$137 million.

Capital Resources

Capital Structure and Debt

Total debt was \$12.567 billion as of December 31, 2015, an increase of \$282 million from \$12.285 billion at September 30, 2015.

Credit Facility

At December 31, 2015, there were no amounts outstanding under our credit facility. The credit facility is used for general corporate purposes and to support commercial paper outstanding. The amount of unused capacity under the credit facility, after deducting commercial paper outstanding of \$290 million with a weighted average maturity of 21 days and weighted average interest rate of 1.16%, was \$2.2 billion as of December 31, 2015. The credit facility has one principal financial covenant that requires our interest coverage for the most recent four consecutive fiscal quarters to be at least 3.0x, which we met as of December 31, 2015.

Stock Repurchase Program

During the quarter ended December 31, 2015, we repurchased 2.1 million shares of Class B common stock for an aggregate purchase price of \$100 million, leaving \$4.9 billion of remaining capacity under our program.
