2.3 Review of operating results

In the first quarter of 2013, the quantitative easing of major economies in the world stimulated the slow recovery of the global economy, the Chinese economy maintained steady growth at the beginning of the year, with a GDP growth rate of 7.7% over the same period of last year. On 26th March, the National Development and Reform Commission adjusted the pricing mechanism for oil products, to enable domestic oil products prices to closely reflect fluctuations of international crude oil prices.

In the first quarter, the Company gave more prominence to the quality and performance of development based on safe and stable operation and market orientation. Motivated by the strengthening of management and the innovation of science and technology, the Company managed to increase sales, optimized production and operation. In the first quarter, the Company realized an operating profit of RMB 27.569 billion, with an increase of 26.41% over the same period of last year, and net profit attributable to equity shareholders of the Company was RMB 16.677 billion, with an increase of 24.40% over the same period of last year.

Exploration & Production Segment: The Company strengthened oilfield exploration and development, increased the production of crude oil and natural gas. In exploration, new progress was made in the mature blocks in East China (such as Jiyang trough, etc.), Tarim Basin, and Ordos Basin. In development, initial progress was made in certain key projects for crude oil development and production capacity construction, initial effect was achieved in the comprehensive harnessing work in old areas; key natural gas production projects in Yuanba and Western Sichuan are on schedule. In the first quarter, the Company's crude oil and natural gas production increased steadily, crude oil production was 82.17 million barrels, with a growth of 0.78% over the same period of last year, and natural gas production was 163.20 billion cubic feet, with a growth of 13.98% over the same period of last year. The realized price of oil was 98.83 USD/barrel, 6.85% lower than a year ago, while the realized price of natural gas was 5.86 USD/thousand cubic feet, 3.90% higher than last year. In the first quarter, the exploration and production segment realized an operating profit of RMB 16.23 billion, with a decrease of 16.99% over the same period of last year.

Refining Segment: Taking market as the orientation, economic benefit as the center, cost reduction as the emphasis, technical innovation and intensive management as the means, refineries were operated at high load with production of more high value-added products. Major economic indicators improved significantly, light products yield reached 76.44%. In the first quarter, the Company processed 58.6923 million tonnes of crude oil, with a growth of 5.92% over the same period of last year; oil products output was 35.2953 million tonnes, with a growth of 7.39% over the same period of last year. The refining segment realized a turn-around in profitability with an operating profit of RMB 2.204 billion.

Marketing and Distribution Segment: In the market of slower demand growth for oil products and stronger competition, the Company brought into play its advantages of systematic management, marketing network and brand value, to innovate the commercial mode of non-fuel business. In the first quarter, the Company's domestic sales volume of oil products reached 38.917 million tonnes, with a growth of 1.70% over the same period of last year, among which, the retail sales volume reached 26.641 million tonnes, with a growth of 1.74% over the same period of last year. In the first quarter, the marketing and distribution segment realized an operating profit of RMB 9.126 billion, with a decrease of 11.20% over the same period of last year.

Chemicals Segment: The first quarter of 2013 experienced a difficult market environment for chemicals with high feedstock price, sluggish demand and declining product prices. The Company upheld market-oriented and benefit-centered principle, steadily pushed forward integrated business operation, maintained the safe and stable operation of chemical plants, optimized feedstock mix and product slate, accelerated the transformation of chemical business from production type to marketing type. In the first quarter, ethylene output was 2.442 million tonnes, with a decrease of 0.53% over the same period of last year; the outputs of synthetic resin, synthetic rubber and synthetic fiber were 3.3948 million tonnes, 247.5 thousand tonnes and 351.6 thousand tonnes respectively. In the first quarter, chemical segment realized an operating profit of RMB 164 million, with a decrease of 87.47% over the same period of last year.

iii implementation of the Re-organization Agreement (for definition, please refer to prospectus in relation to the offering of H shares);

- iv granting licenses for intellectual property rights;
- v avoiding the competition with the Company;
- vi abandonment of business competition and conflict of interests with Sinopec Corp.

The details of the above-mentioned commitments were included in the prospectus in relation to the offering of A shares of Sinopec Corp., which was published in China Securities Journal, Shanghai

China Petroleum & Chemical Corporation

First Quarterly Report for 2013

Securities News and Securities Times on 22 June 2001;

vii On 27 October 2010, Sinopec Corp. disclosed through a public announcement that, considering the major refining business of China Petrochemical Corporation has been injected into Sinopec Corp., China Petrochemical Corporation undertook to dispose of its minor remaining refining business within 5 years to eliminate the competition with Sinopec Corp. in terms of the refining business.

viii On 15 March 2012, Sinopec Corp. disclosed in an announcement that, China Petrochemical Corporation undertakes to take Sinopec Corp. as the sole platform of its ultimate integration among the businesses such as exploration and production of oil and gas, oil refining, chemicals and sale of petroleum products. China Petrochemical Corporation will dispose its minor remaining chemicals business within the next five years in order to avoid the competition with Sinopec Corp. in this respect. Given that China Petrochemical Corporation engages in the same or similar businesses as Sinopec Corp. with regard to the exploration and production of oil and natural gas overseas, after a thorough analysis from political and economic perspectives, Sinopec Corp. may propose to acquire the overseas oil and gas assets owned by China Petrochemical Corporation (the "Assets") when appropriate (the "Proposed Acquisitions"). China Petrochemical Corporation undertakes to transfer the Assets to Sinopec Corp., provided that the Proposed Acquisitions comply with the applicable laws and regulations, contractual obligations and other procedural requirements at the time of the respective Proposed Acquisitions.

During the reporting period, Sinopec Corp. was not aware of any breach of the above-mentioned major commitments by the aforesaid shareholder.

(2) As at the date of this quarterly report, Sinopec Corp. has no commitments with regard to results, assets injection or assets restructure which have not been fulfilled yet, nor did Sinopec Corp. make any earnings prediction for such assets or projects.

3.4 Caution and explanation as to the anticipated loss of accumulated net profits from the beginning of the year to the end of the next reporting period or significant changes over the same period of last year

applicable not applicable

3.5 Implementation of Cash Dividend in the Reporting Period

Authorized at the 6th Meeting of the Fifth Session of Board of Directors of Sinopec Corp. on 22 March 2013, the proposed final cash dividend is RMB 0.20 (tax inclusive) per share for 2012, combining with the interim cash dividend of RMB 0.10 (tax inclusive) per share paid in 2012, the total cash dividend for the year of 2012 will be RMB 0.30 (tax inclusive) per share. And based on the total number of shares of the Company on the Record Date, 2 bonus issue of shares from retained earnings and 1 bonus issue of share from capital reserve will be distributed for every 10 existing shares held by all shareholders.

The proposed profit distribution plan will be submitted to the annual general meeting for the year 2012, the first A shareholders class meeting for the year 2013, and the first H shareholders class meeting for the year 2013 for approval. The final cash dividend and the bonus shares will be distributed on Tuesday, 25 June 2013 to the

shareholders whose names appear on the register of members of Sinopec Corp. on Tuesday, 18 June 2013 after close of trading. For the holders of H shares, the register of members of the Company will be closed from Wednesday, 12 June 2013 to Tuesday, 18 June 2013 (both days inclusive). In order to qualify for the final dividend and relevant bonus shares, the shareholders of H shares must lodge all share certificates accompanied by the transfer documents with the Company's H share registrar, Hong Kong Registrars Limited (address: shops 1712-1716 on 17th Floor, Hopewell Centre, 183 Queen's Road East, Wan Chai, Hong Kong) before 4:30 p.m. on Tuesday, 11 June 2013 for registration.

C.) Differences between Financial Statements prepared in accordance with the accounting policies complying with ASBE and IFRS (unaudited)

Other than the differences in the classifications of certain financial statements captions and the accounting for the items described below, there are no material differences between the Group's financial statements prepared in accordance with accounting policies complying with ASBE and IFRS. The reconciliation presented below is included as supplemental information, is not required as part of the basic financial statements and does not include differences related to classification, display or disclosure. Such information has not been subject to independent audit or review. The major differences are:

(i) Government Grants

Under ASBE, grants from the government are credited to capital reserve if required by relevant governmental regulations. Under IFRS, government grants relating to the purchase of fixed assets are recognized as deferred income and are transferred to the income statement over the useful life of these assets.

(ii) Safety Production Fund

Under ASBE, safety production fund should be recognized in profit or loss with a corresponding change in reserve according to PRC regulations. Such reserve is reduced for expenses incurred for safety production purposes or, when safety production related fixed assets are purchased, is reduced by the purchased cost with a corresponding increase in the accumulated depreciation. Such fixed assets are not depreciated thereafter. Under IFRS, expense is recognized in profit or loss when incurred, and fixed assets are depreciated with applicable methods.

Effects of major differences between the net profit under ASBE and the profit for the period under IFRS are analysed as follows:

	Note	For three-month period ended 31 March	
		2013 RMB millions	2012 RMB millions
Net profit under ASBE		16,831	14,104
Adjustments:			
Government grants	(i)	27	23
Safety production fund	(ii)	834	586
Profit for the period under IFRS		17,692	14,713
