Zurich, March 21, 2012 The Board of Directors of Credit Suisse Group AG today announced its proposals for the Annual General Meeting of April 27, 2012. The agenda includes proposals for the election of Iris Bohnet and Jean-Daniel Gerber to the Board of Directors. The Board of Directors also proposes to increase authorized capital in order to cover the issuance and delivery of a maximum of 50 million new registered shares to shareholders under the proposed scrip dividend. The Board of Directors further proposes to create conversion capital with a maximum of 200 million shares in order to be able to issue further loss absorbing capital instruments under the Swiss “too big to fail” legislation.

Edgar Filing: CREDIT SUISSE AG - Form 6-K

For the Annual General Meeting of April 27, 2012 the Board of Directors of Credit Suisse Group AG proposes that Iris Bohnet and Jean-Daniel Gerber be elected as new members to the Board of Directors for a term of three years. Iris Bohnet, a Swiss citizen, is Academic Dean and Professor of Public Policy at the Harvard Kennedy School. Jean-Daniel Gerber, a Swiss citizen, was Director of the Swiss State Secretariat for Economic Affairs (SECO) between 2004 and 2011.

Proposed for re-election are the following five Board members, whose terms of office expire on the date of the 2012 Annual General Meeting:

Walter B. Kielholz (member of the Board since 1999; member of the Chairman's and Governance Committee; member of the Compensation Committee) for a term of two years

Andreas N. Koopmann (member of the Board since 2009; member of the Risk Committee) for a term of three years

Richard E. Thornburgh (member of the Board since 2006; Chairman of the Risk Committee; member of the Chairman's and Governance Committee; member of the Audit Committee) for a term of three years

John Tiner (member of the Board since 2009; Chairman of the Audit Committee; member of the Chairman's and Governance Committee; member of the Risk Committee) for a term of three years

Urs Rohner (member of the Board since 2009; Chairman of the Board of Directors since the Annual General Meeting 2011 and Chairman of the Chairman's and Governance Committee) for a term of three years

Distribution out of reserves from capital contributions*

As previously announced, the Board of Directors proposes for the financial year 2011 the distribution of CHF 0.75 per share out of reserves from capital contributions in the form of either a scrip dividend, a cash distribution or a combination thereof. This allows Credit Suisse Group AG to pay a distribution to its shareholders while retaining regulatory capital. Credit Suisse Group AG shareholders will be entitled to elect to either receive new shares, subject to any legal restrictions applicable in their home jurisdiction, or to receive a cash distribution in the amount of CHF 0.75 per registered share. Should no election be made, the distribution will be paid out entirely in cash.

The distribution is scheduled for May 23, 2012.

With respect to the receipt of new shares, the Board of Directors proposes a subscription ratio which will be determined based on the average of the opening and closing prices from April 30, 2012, to May 7, 2012, of the shares of Credit Suisse Group AG listed on the SIX Swiss Exchange. The issue price of the new shares will be determined by this average with a discount of approximately 8%, less the distribution of CHF 0.75 per registered share. The exact issue price will be determined by the Board of Directors on May 7, 2012 (after the exchange closes) and published on May 8, 2012 (before the exchange opens).

The election period during which eligible shareholders can make their election on how to receive their distribution will take place from May 9, 2012 through May 18, 2012 (17:00 CEST).

Further information with respect to the scrip dividend may be found in the "Shareholder Information – Summary Document" which can be accessed at: www.credit-suisse.com/agm

Increase of authorized capital

The Board of Directors proposes to increase authorized capital in relation to the proposed distribution in the form of either a scrip dividend or a cash distribution. The new shares to be issued in relation to shareholders electing to receive shares in lieu of a cash distribution shall be issued out of authorized capital. The Board of Directors estimates that a maximum of 50 million new registered shares will be required in the event that all shareholders elect to receive shares.

The Board of Directors therefore proposes that the authorized capital be increased from a maximum of CHF 4 million (equivalent to 100 million shares) to a maximum of CHF 6 million (equivalent to 150 million shares), out of which 50

million new registered shares are reserved exclusively for the issuance and delivery to shareholders under the scrip dividend.

Creation of conversion capital

The Board of Directors proposes the creation of conversion capital in relation to the Swiss “too big to fail” legislation which became effective on March 1, 2012. This legislation contains measures aimed at considerably strengthening the loss-absorbing capital base for banks beyond the requirements set out under the Basel III framework. In anticipation of these regulatory changes, Credit Suisse Group AG has adopted a responsive and consistent capital strategy over recent years. It significantly increased its regulatory capital, with a Tier 1 ratio under Basel II of 18.1% as of the end of 2011, up from 11.1% as of the end of 2007.

Credit Suisse Group AG already secured the high-triggering contingent capital required by the “too big to fail” legislation in the form of Buffer Capital Notes. In addition, Credit Suisse Group AG is required to build up a progressive capital component of loss absorbing capital instruments in the amount of up to 6% of total risk weighted assets.

For this purpose, the revised Swiss Banking Act provides the corporate capital framework by introducing conversion capital as a new kind of capital for banks. Conversion capital may only be used for regulatory purposes and for the issuance of financial market instruments with conversion features such as contingent convertible bonds (CoCos). Conversion capital has the advantage that the issuance is exempt from the stamp duty tax under Swiss law. The Board of Directors therefore proposes that conversion capital be created in a maximum amount of CHF 8 million (equivalent to a maximum of 200 million shares).
