WORLD ENERGY SOLUTIONS

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

The information presented herein for the three months ended March 31, 2008, is unaudited.

(1) Organization:

Advanced 3D Ultrasound Services, Inc. was incorporated on September 23, 1997. Advanced 3D Ultrasound Services, Inc. merged with World Energy Solutions, Inc. (WESI) effective August 17, 2005. Advanced 3D Ultrasound Services, Inc. remained as the surviving entity as the legal acquirer, while WESI was the accounting acquirer.

On November 7, 2005, Advanced 3D Ultrasound Services, Inc. changed its name to World Energy Solutions, Inc.

On November 7, 2005, WESI merged with Professional Technical Systems, Inc. (PTS). WESI remained as the surviving entity as the legal acquirer, while PTS was the accounting acquirer.

On October 11, 2006, WESI acquired Pure Air Technologies, Inc. (PATI), a subsidiary of UTEK Corporation in a tax-free stock for stock exchange. The Company issued 100,000 shares of Series A convertible preferred stock to UTEK Corporation in exchange for 100% of the issued and outstanding shares of PATI, assignment of a world wide exclusive technology license, a sponsored research agreement and \$300,000 cash. The 100,000 shares of preferred stock plus \$202,500 of accrued dividends were converted into 8,437,500 shares of common stock on October 17, 2007.

On September 28, 2007, WESI acquired Hydrogen Safe Technologies, Inc. (HSTI) in a tax free stock for stock exchange. As consideration for the agreement, the Company issued 7,500,000 unregistered shares of common stock to UTEK Corporation in exchange for 100% of the issued and outstanding shares of HSTI, assignment of an exclusive technology license for the detection of hydrogen in vehicles, engines and / or water heaters using hydrogen and oxygen, prepaid consulting fees, related to a nine month consulting agreement, and \$450,000 cash.

The HSTI license agreement has 3% royalties due on net sales of the licensed product which can be netted against required minimum annual royalties. For the year 2008-2009, \$5,000 minimum royalties are due and payable January 31, 2010; for years 2009-2010, the minimum royalty is \$10,000; for years 2010-2011 the minimum royalty is \$15,000; after 2011 the minimum annual royalties are \$30,000. All minimum royalties are due and payable on January 31, of the following calendar year. The agreement can be terminated on thirty days notice if the company fails to pay any due and payable royalties and the license would revert back to the licensor and all royalties and payments would cease.

The purchase price of \$3,825,000 was based on the stock closing price on the date of acquisition. The resulting intangible asset of \$3,332,650 was analyzed and although the Company anticipates further development of the related technology, as of September 30, 2007, the technology had not yet been tested on the market nor had there been any related sales. Estimation of future sales could not be determined as the technology is not ready to be introduced into the market place and knowledge of when or if the Company can fully develop the technology is not known. In addition, consideration of other similar technology entering the market prior to the Company can not be determined.

Based on the above factors, the Company concluded that the capitalized value of the intangible could not be fully supported and therefore as of September 30, 2007, the Company deemed the intangible asset to be impaired and expensed it.

World Energy Solutions, Limited was created during 2007 to serve as a platform for marketing the Company's products and developments in the UK and all European Union countries, when the time is right. The entity does not have activity and has not been capitalized, and therefore, it is not consolidated.

(2) Basis of Presentation:

The accompanying financial statements of WESI (the Company) have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-QSB and Item 310 (b) of Regulation S-B. Accordingly, they do not include all the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal required adjustments) considered necessary for a fair presentation have been included.

WORLD ENERGY SOLUTIONS

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(continued)

(2) Basis of Presentation (continued):

The consolidated financial statements as of and for the three months ended March 31, 2008 include the accounts of Pure Air Technologies, Inc. (incorporated August 7, 2006) and Hydrogen Safe Technologies, Inc. (incorporated September 20, 2007). Significant intercompany balances and transactions have been eliminated in consolidation.

Operating results for the three month period ended March 31, 2008, are not necessarily indicative of the results that may be expected for the year ending December 31, 2008. For further information, refer to the financial statements and footnotes included in the Company's annual report of Form 10-KSB for the year ended December 31, 2007.

Net loss per common share is computed in accordance with the requirements of Statement of Financial Accounting Standards No. 128 (SFAS 128). SFAS 128 requires net loss per share information to be computed using a simple weighted average of common shares outstanding during the periods presented.

(3) Inventory:

Inventory consists of the following at March 31, 2008, as compared to year-end 2007:

	December 31,	
	2008	2007
Raw materials	\$ 53,166	\$ 50,133
Finished goods	13,859	21,019
Purchased finished goods	29,226	29,365

	96,251	100,517
Less allowance for obsolescence	13,057	13,056
	\$ 83,194	\$ 87,461

(4) Stock transactions and agreements:

The Company has commenced an offering of its common stock pursuant to and in reliance upon the exemption from registration provided by Securities and Exchange Commission Regulation S, promulgated under the Securities Act of 1933, as amended. The Company seeks to sell up to twenty million (20,000,000) shares of its restricted common stock (the Shares) in the Regulation S offering (the Offering). The Shares are available for sale only to third parties who are not U.S. persons (as defined in Rule 902 of Regulation S).

The Company has engaged three separate entities to serve as its distribution managers for the Offering. The Company and the distribution managers have engaged two separate entities to serve as the escrow agent. The escrow agent will hold funds paid by buyers and disburse Company stock certificates to buyers who qualify as non-U.S. persons in a Regulation S placement and whose offers to purchase Shares are accepted by the Company.

The shares sold will be offered on the lower of the closing bid price for WESI stock as quoted on the NASDAQ Bulletin Board on the date prior to the trade date or the closing price of said shares minus an original offering discount of 15%. The Company will receive 27% of the proceeds from each accepted offer and the balance will be paid to the Distribution Manager (72%) and the Escrow Agent (1%). The agreements terminate on December 31, 2008 unless extended in writing by both parties. The agreements may also be terminated at any time with 21 days written notice by the Company.

During the three months ended March 31, 2008, the Company issued a total of 1,719,299 shares of common stock in connection with the Regulation S stock offering resulting in proceeds of \$104,421 to the Company. The proceeds are net of \$381,633 of stock offering costs.

In the same three month period, the Company issued 1,140,000 shares of common stock for \$146,000 cash.

WORLD ENERGY SOLUTIONS

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(continued)

(4) Stock transactions and agreements (continued):

On January 8, 2008, the Company donated 100,000 shares of stock to an organization. The stock was valued at the stock closing price on the date of the donation which was \$0.228 resulting in a total expense of \$22,800.

The Company recorded \$8,000 of contributed capital and related consulting expense to Hydrogen Safe Technologies, Inc. during the three months ended March 31, 2008.

During the year ended December 31, 2007 the Company issued 3,112,600 shares of common stock for \$778,170 cash. A total of 428,000 common shares were issued for services totaling \$323,825.

The Company issued 650,000 stock options to a director of the Company for consulting services valued at approximately \$182,836 and two significant shareholders contributed capital to the Company in the form of 1,210,000 shares of common stock, which were used as incentive to certain consultants and employees. This contributed capital was valued as an expense to the Company in the year ended December 31, 2007 in the amount of \$355,600.

Additionally as of December 31, 2007, the Company issued a total of 7,500,000 common shares in exchange for 100% of the issued and outstanding shares of Hydrogen Safe Technologies, Inc. (HSTI). A total of 100,000 convertible preferred shares which had been issued during the year ended December 31, 2006 for the acquisition of 100% of the issued and outstanding shares of Pure Air Technologies, Inc. (PATI), and the related accrued dividends were converted during 2007 into a total of 8,437,500 common shares.

In July 2007, the Company cancelled a total of 2,799,551 common shares pursuant to litigation with certain consultants whose services had previously been paid in common shares. The Company had sought to recover damages and obtain cancellation of shares of its common stock which had been issued for service that had not been fully rendered.

(5) Related party activities:

The Company leases their corporate office facility from their Chief Operation Officer and Director. The lease expires in October, 2009 and was executed at monthly rates and terms reflecting current market rates.

The Company has a month to month consulting agreement for investor services with a Director of the Company. As of March 31, 2008, the company has an accrued liability of \$18,000 for these services.

As of March 31, 2008, the Company has two loan payables to the President of the Company totaling \$54,848. Both loans accrue interest at 9%. Interest expense as of March 31, 2008, includes \$1,383 related to these loans of which \$861 has been paid as of March 31, 2008.

(6) Consulting & Employment Agreements:

During the quarter ended March 31, 2008, the Company entered into an employment agreement with their Chief Operating Officer. The agreement provides a base salary of \$10,000 per month and other Company benefits as defined within the Company's employee handbook. The agreement does not have an expiration date.

The Company entered into a two year consulting agreement on April 7, 2008 for consulting services to be rendered in the area of design, manufacturing, sales marketing and distribution of surge protection. As compensation, the consultant is to be paid \$65,000 annually as base compensation and various defined levels of commission percentages will be paid based on the type of sales generated. The consultant will be reimbursed for any approved job related expenses and will report directly to the Chief Operation Officer.

WORLD ENERGY SOLUTIONS

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(continued)

(7) Income taxes:

The provision for federal and state income taxes for the three month period ended March 31, 2008 and 2007 are as follows:

	March 31, 2008	March 31, 2007
Current	\$ -	\$ -
Deferred	-	-
Total Provision for Income Taxes	\$ -	\$ -

As of March 31, 2008, the Company has available unused consolidated income tax net operating loss (NOL) carryforwards for federal purposes of approximately \$16 million that may be used against future taxable income and if not utilized, will expire by the end of 2025.

Deferred income taxes reflect the net tax effects of the temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. Significant components of the Company's deferred tax assets and liabilities are as follows:

Deferred tax assets:	
Net operating loss carry forwards	\$ 6,181,763
Other	18,537
Total deferred tax assets	\$ 6,200,300

Deferred tax liabilities:

Book basis of property and equipment in excess of tax basis

Edgar Filing: WORLD ENERGY SOLUTIONS, INC. - Form 10QSB

	\$	20,400
Total deferred tax liabilities	\$	20,400
Net deferred tax asset before valuation allowance	\$	6,179,900
Valuation allowance		(6,179,900)
Net deferred tax asset	\$	-

The Company has recorded a 100% valuation allowance against the net deferred tax asset at March 31, 2008 due to the uncertainty of its ultimate realization. As time passes, management will be able to better assess the amount of tax benefit it will realize from using the net deferred tax asset resulting from the loss carry forwards.

The change in the valuation allowance is as follows:

March 31, 2008	\$	6,179,900
December 31, 2007		5,977,600
Change in valuation allowance	\$	202,300

Income taxes for the three month periods ended March 31, 2008 and 2007 differ from the amounts computed by applying the effective income tax rate of 34.0% to income (loss) before income taxes as a result of the following:

	March 31, 2008	March 31, 2007
Expected provision (benefit)	\$ (183,549)	\$ (316,998)
Effect of:		
State income taxes net of federal benefits	(18,646)	(33,383)
Non-deductible (income) expense	8,903	4,317
Other, net	(9,008)	(15,321)
Change in valuation allowances	202,300	361,385
	\$ -	\$ -

WORLD ENERGY SOLUTIONS

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(continued)

(8) Commitment and Contingencies:

Going concern:

As reflected in the Statement of Operations, the Company has had recurring losses and negative cash flows from operations. These factors are an indication that that the Company may not be able to continue as a going concern. To continue as a going concern, the Company will need to raise additional capital, borrow funds, or generate more revenues from current product sales and new product sales associated with the business plan implementation. If current cash flow is not sufficient to cover planned operations, management believes it can raise additional capital from private placements, borrow funds from its officers, and delay certain expenditures to continue as a going concern during the next year.

(9) Recent Accounting Pronouncements

In September 2006, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards (SFAS) No. 157, Fair Value Measurements. SFAS No. 157 clarifies the principle that fair value should be based on the assumptions market participants would use when pricing an asset or liability and establishes a fair value hierarchy that prioritizes the information used to develop those assumptions. Under the standard, fair value measurements would be separately disclosed by level within the fair value hierarchy. SFAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years, with early adoption permitted. The Company does not expect the adoption of SFAS No. 157 to materially impact its financial statements.

The Financial Accounting Standards Board issued Statement of Financial Accounting Standards (SFAS) No. 159, The Fair Value Option for Financial Assets and Financial Liabilities , in February, 2007. SFAS 159 permits entities to choose to measure many financial instruments and certain other items at fair value. A business entity shall report unrealized gains and losses on items for which the fair value option has been elected in earnings (or another

performance indicator if the business entity does not report earnings) at each subsequent reporting date. A not for profit organization shall report unrealized gains and losses in its statement of activities or similar statement. This guidance is effective for fiscal years beginning after November 15, 2007, provided the entity also elects to apply the provisions of SFAS Statement No. 157, Fair Value Measures . Early adoption is permitted as of the beginning of a fiscal year that begins on or before November 15, 2007. The Company is currently assessing the possible impact of the adoption of this Statement, but does not anticipate it to materially impact the financial statements.

The Financial Accounting Standards Board issued EITF 07-03, Accounting for Nonrefundable Advance Payments for Goods or Services Received for Use in Future Research and Development Activities effective for fiscal years beginning after December 15, 2007, and interim periods within those fiscal years. Earlier application is not permitted. The guidance states that nonrefundable advance payments for goods or services that will be used or rendered for future research and development activities should be deferred and capitalized. Such amounts should be recognized as an expense as the related goods are delivered or the related services are performed. If the goods or services are not expected to be delivered or rendered, then the capitalized advance payment should be charged to expense. Since early application is not permitted, the

Company will assess the impact to the application of this guidance during the period in which it becomes effective, which for the Company will be in the year beginning January 2008.

Item 2. Management's Discussion and Analysis or Plan of Operation.

Management's Discussion and Analysis of Financial Condition and Results of Operations

Introduction

World Energy Solutions, Inc. (referred to as the Company, WESI, New WESI, or in the first person notations of we, us, and our) began operations in 1984 under the corporate name of Professional Technical Systems, Inc. (PTS). PTS merged with WESI in November 2005 (the November 2005 Merger) with WESI being the legal acquirer but PTS being the accounting acquirer.

In August 2005, a Florida corporation named World Energy Solutions, Inc. (Old WESI) merged with Advanced 3D Ultrasound, Inc. (ADVU) with ADVU being the legal acquirer but Old WESI being the accounting acquirer (the August 2005 Merger). ADVU was the surviving entity of the August 2005 Merger and subsequently changed its name to WESI.

ADVU, Old WESI, and New WESI, prior to merging with PTS, had no revenues and minimal assets and activity. PTS has been the operating manufacturer before and after the merger.

WESI manufactures and sells transient voltage surge suppressors and related products and commercial and residential energy-saving equipment and applications to distributors and customers throughout the United States. Although this activity is expected to continue, the Company plans to implement a new business model to market a multi-product package to commercial, industrial and residential facilities in order to lower their overall cost of electric, gas and water of these facilities. The Company plans to market its package both by direct sales as well as a Shared Revenue Program (SRP) where the Company pays for the entire installation cost of the product package in return for payments of a percentage of the savings realized by the facilities using the product package. This new business model is expected to increase revenues and profits for the Company. The Company also intends to aggressively develop and market its H2O technology and its pure air technology.

Liquidity and Capital Resources

Our cash decreased to a cash overdraft as of March 31, 2008 compared to \$43,112 as of December 31, 2007. This decrease is due mostly to timing issues related to funds received for equity financing.

The cash used in operating activities for the three months ended March 31, 2008 was greater than the cash used in 2007 by approximately \$270,000. Gross profit from sales decreased between the years. General and administrative expenses and consulting expenses decreased approximately \$427,600. Decreases in equity based consulting expenses during the three months ended March 31, 2008 contributed to the decrease in expenses between the years.

We do not believe our working capital is sufficient to implement the full spectrum of our planned, new energy-saving business model. Operations in 2008 and most of 2007 have been funded in large part through the sale of common stock and such funding will need to continue in order to allow us to implement our new business model. The Company has been successful in acquiring certain services through consulting agreements that are funded in large part through the issuance of common stock as noted above. However, the Company currently is offering its stock through a private placement memorandum. The Company plans to raise additional capital through the sale of common stock. The proceeds from the sale will be used to fund research and development consulting and professional fees, new job installs, other expenses and for working capital.

In October 2006, the Company acquired all of the outstanding shares of Pure Air Technologies, Inc. (PATI) from UTEK Corporation, a consultant of the Company. Previously PATI licensed certain technology from the University of Florida. PATI agreed to pay future patent costs related to the technology and to pay future royalties based on sales of products incorporating the technology. PATI also entered into a sponsored research agreement with the University through the payment of \$231,000. The Company issued UTEK 100,000 of its convertible preferred stock in exchange for all of the outstanding shares of PATI, assignment of the technology license and the sponsored research agreement and \$300,000 cash. The Company believes any future costs related to the PATI technology can be funded through operations.

The terms of the Preferred Stock provided that after one year from the date it was issued it is convertible into shares of the Company's common stock at the election of UTEK. The conversion terms of the Agreement provide that the Preferred stock is convertible into the number of shares of the Company's common stock having a value of \$4,050,000 (the agreed value of the PATI technology), based upon the previous ten (10) day average closing bid price on the date of conversion. The Preferred Stock bears interest at the rate of five percent (5%) per annum, compounded quarterly, based on the \$4,050,000 agreed value of the PATI technology. On October 16, 2007 UTEK exercised its right to convert the Preferred Stock and consequently, the Company issued 8,437,500 shares of its restricted common stock to UTEK.

Pure Air Technologies, Inc. holds a worldwide exclusive license for a technology, developed by researchers at the University of Florida designed to help eliminate hazardous organic chemicals and microorganisms from indoor environments. The technology generates ozone within a building's heating, ventilating and air conditioning system, eliminating organic pollutants and microorganisms, and then converts the ozone to O₂ and water vapor.

On September 28, 2007, WESI acquired Hydrogen Safe Technologies, Inc. (HSTI) in a tax free stock for stock exchange. As consideration for the agreement, the Company issued 7,500,000 unregistered shares of common stock to UTEK Corporation in exchange for 100% of the issued and outstanding shares of HSTI, assignment of an exclusive technology license for the detection of hydrogen in vehicles, engines and / or water heaters using hydrogen and oxygen, prepaid consulting fees, related to a nine month consulting agreement, and \$450,000 cash.

The HSTI license agreement has 3% royalties due on net sales of the licensed product which can be netted against required minimum annual royalties. For the year 2008-2009, \$5,000 minimum royalties are due and payable January 31, 2010; for years 2009-2010, the minimum royalty is \$10,000; for years 2010-2011 the minimum royalty is \$15,000; after 2011 the minimum annual royalties are \$30,000. All minimum royalties are due and payable on January 31, of the following calendar year. The agreement can be terminated on thirty days notice if the Company fails to pay any due and payable royalties and the license would revert back to the licensor and all royalties and payments would cease.

Results of Operations and Critical Accounting Policies and Estimates

The results of operations are based on preparation of financial statements in conformity with accounting principles generally accepted in the United States. The preparation of financial statements requires management to select accounting policies for critical accounting areas as well as estimates and assumptions that affect the amounts reported in the financial statements. The Company's accounting policies are more fully described in Note 1 to Notes of Financial Statements found in the Company's annual financial statements filed with Form 10-KSB. We have identified

the following accounting policy and related judgment as critical to understanding the results of our operations.

Valuation Allowance on Deferred Tax Assets

SFAS No. 109, *Accounting for Income Taxes* requires that deferred tax assets be evaluated for future realization and reduced by a valuation allowance to the extent we believe a portion will not be realized. We consider many factors when assessing the likelihood of future realization of our deferred tax assets including our recent cumulative earnings experience, expectations of future taxable income, the carry-forward periods available to us for tax reporting purposes and other relevant factors. At December 31, 2007, our net deferred tax assets are \$5,994,500, comprised principally of net operating loss carry forwards (NOLs). Classification of deferred tax assets between current and long-term categories is based on the expected timing of realization, and the valuation allowance is allocated on a prorate basis.

We have reflected a valuation allowance of 100%, which resulted in an income tax benefit of zero. The range of possible judgments relating to the valuation of our deferred tax asset is very wide. If we had concluded that the weight of available evidence supported a decision that substantially all of our deferred tax assets may be realized, we would have a substantial income tax benefit in our statement of operations. Significant judgment is required in making this assessment, and it is very difficult to predict when, if ever, our assessment may conclude our deferred tax assets is realizable.

2008 Compared to 2007

Total product sales for the three months ended March 31, 2008 were \$85,794 compared to 2007 sales of \$99,409 for the three months then ended. Gross profit on sales was approximately 29% compared to 38% for the respective three months. The decrease during the three months ended March 31, 2008 is attributable to a slight increase in material costs.

Our general and administrative expenses for the three months ended March 31, 2008 decreased to \$454,523 from \$882,156 for the three months ended March 31, 2007. The decrease as of March 31, 2008 is mostly related to a decrease in equity based consulting expense.

We expect significant increases in future consulting, salary and research and development expenses as a result of the implementation of our new business model.

Forward Looking Statements.

This Quarterly Report on Form 10-QSB of World Energy Solutions, Inc. for the three month period ended March 31, 2008 contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, which are intended to be covered by the safe harbors created thereby. To the extent that such statements are not recitations of historical fact, such statements constitute forward-looking statements which, by definition, involve risks and uncertainties. In particular, statements under the Sections; Management's Discussion and Analysis of Financial Condition and Results of Operations contain forward-looking statements. Where, in any forward-looking statement, the Company expresses an expectation or belief as to future results or events, such expectation or belief is expressed in good faith and believed to have a reasonable basis, but there can be no assurance that the statement of expectation or belief will result or be achieved or accomplished.

The following are factors that could cause actual results or events to differ materially from those anticipated, and include but are not limited to: general economic, financial and business conditions; changes in and compliance with governmental regulations; changes in tax laws; and the costs and effects of legal proceedings.

You should not rely on forward-looking statements in this quarterly report. This quarterly report contains forward-looking statements that involve risks and uncertainties. We use words such as anticipates, believes, plans,

expects, future, intends, and similar expressions to identify these forward-looking statements. Prospective investors should not place undue reliance on these forward-looking statements, which apply only as of the date of this quarterly report. Our actual results could differ materially from those anticipated in these forward-looking statements for many reasons, including the risks faced by World Energy Solutions, Inc. For example, a few of the uncertainties that could affect the accuracy of forward-looking statements include:

(a)

an abrupt economic change resulting in an unexpected downturn in demand;

(b)

governmental restrictions or excessive taxes on our products;

(c)

over-abundance of companies supplying energy conserving products and services;

(d)

economic resources to support the retail promotion of new products and services;

(e)

expansion plans, access to potential clients, and advances in technology; and

(f)

lack of working capital that could hinder the promotion and distribution of products and services to a broader based business and retail population.

Item 3. Controls and Procedures.

Item 3A(T). Controls and Procedures.

The management of the Company is responsible for establishing and maintaining adequate internal control over financial reporting. The Company's internal control over financial reporting is a process designed under the supervision of the Company's Chief Executive Officer and Chief Financial Officer to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the Company's financial statements for external purposes in accordance with U.S. generally accepted accounting principles.

As of December 31, 2007, under the supervision and with the participation of our management, we conducted an evaluation of the effectiveness of the design and operations of our disclosure controls and procedures, as defined in

Rules

14

13a-15(e) and 15d-15(e) promulgated under the Securities Exchange Act of 1934 and based on the criteria for effective internal control described in *Internal Control – Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this evaluation, management concluded that our financial disclosure controls and procedures were not effective so as to timely identify, correct and disclose information required to be included in our Securities and Exchange Commission (SEC) reports due to the Company's limited internal resources and lack of ability to have multiple levels of transaction review. Through the use of external consultants and the review process, management believes that the financial statements and other information presented herewith are materially correct.

The Company's management, including its Chief Executive Officer and Chief Financial Officer, does not expect that its disclosure controls and procedures, or its internal controls will prevent all error and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefit of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected.

This Quarterly Report does not include an attestation report of the Company's independent registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the Company's independent registered public accounting firm pursuant to temporary rules of the SEC that permit the Company to provide only management's report in this Quarterly Report.

This Quarterly Report shall not be deemed to be filed for purposes of Section 18 of the Securities Exchange Act of 1934, or otherwise subject to the liabilities of that section, and is not incorporated by reference into any filing of the Company, whether made before or after the date hereof, regardless of any general incorporation language in such filing.

(b) Changes in Internal Controls.

There have been no changes in the Company's internal control over financial reporting during the period ended March 31, 2008 that have materially affected, or are reasonably likely to materially affect, the Company's internal controls over financial reporting.

Part II. Other Information

Item 1. Legal Proceedings.

None.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

During the three month period ending March 31, 2008, the Company issued unregistered shares of its common stock as set forth in the table below.

Date	Name	Total Dollar Amount	Price per Share	Total Number of Shares
1/22/08	Robert Bloch	\$21,000	\$0.15	140,000
1/23/08	Flavis Lazenby	\$15,000	\$0.15	100,000
1/24/08	Jerry Little	\$ 5,000	\$0.10	50,000
1/25/08	Joseph & Linda Chumbley	\$ 20,000	\$0.10	200,000
2/11/08	Gilbert & Christina Himes	\$25,000	\$0.10	250,000
2/13/08	Wayne Huepenbecker	\$15,000	\$0.15	100,000
2/13/08	Jan Haukos	\$15,000	\$0.15	100,000
2/13/08	Kathleen Beckus	\$15,000	\$0.15	100,000
2/18/08	Robert Bloch	\$15,000	\$0.15	100,000

All sales of shares of common stock identified in the table above were made pursuant to Section 4(2) of the 1933 Act. The proceeds of the sale of these securities are to provide operating capital and development costs.

In addition to the shares of common stock identified above, the Company has commenced an offering of its common stock pursuant to and in reliance upon the exemption from registration provided by Securities and Exchange Commission Regulation S, promulgated under the Securities Act of 1933, as amended. During the period covered by this report, the Company has sold 1,719,299 shares of its common stock in offshore transactions to twenty-four (24) non-U.S. persons as such terms are defined and/or contemplated in Securities and Exchange Commission Regulation S. The Company seeks to sell up to twenty million (20,000,000) shares of its restricted common stock (the Shares) in the Regulation S offering (the Offering). The Shares are available for sale only to third parties who are not U.S. persons (as defined in Rule 902 of Regulation S).

The Company has engaged three separate entities to serve as its distribution managers for the Offering. The Company and the distribution managers have engaged two separate entities to serve as the escrow agent. The escrow agent will hold funds paid by buyers and disburse Company stock certificates to buyers who qualify as non-U.S. persons in a Regulation S placement and whose offers to purchase Shares are accepted by the Company.

The shares sold will be offered on the lower of the closing bid price for WESI stock as quoted on the NASDAQ Bulletin Board on the date prior to the trade date or the closing price of said shares minus an original offering discount of 15%. The Company will receive 27% of the proceeds from each accepted offer and the balance will be paid to the Distribution Manager (72%) and the Escrow Agent (1%). The agreements terminate on December 31, 2008 unless extended in writing by both parties. The agreements may also be terminated at any time with 21 days written notice by the Company.

During the three months ended March 31, 2008, the Company issued a total of 1,719,299 shares of common stock in connection with the Regulation S stock offering resulting in proceeds of \$104,421 to the Company. The proceeds are net of \$381,633 of stock offering costs.

During the three months ended March 31, 2008, the Company issued a total of 1,719,299 shares of common stock in connection with the Regulation S stock offering, resulting in net proceeds of \$104,421 to the Company.

Item 3. Defaults Upon Senior Securities

NONE

Item 4. Submission of Matters to a Vote of Security Holders.

The Company is incorporating by reference herein the information set forth in its Information Statement Pursuant to Section 14(c) of the Securities and Exchange Act of 1934, as previously furnished to shareholders.
