When used in this Form 10-Q or future filings by First Federal of Northern Michigan Bancorp, Inc. (the “Company”) with the Securities and Exchange Commission (“SEC”), in the Company’s press releases or other public or stockholder communications, or in oral statements made with the approval of an authorized executive officer, the words or phrases “would be,” “will allow,” “intends to,” “will likely result,” “are expected to,” “will continue,” “is anticipated,” “estimate,” “pro” similar expressions are intended to identify “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995.

The Company wishes to caution readers not to place undue reliance on any such forward-looking statements, which speak only as of the date made, and to advise readers that various factors, including regional and national economic conditions, changes in levels of market interest rates, credit and other risks of lending and investment activities and competitive and regulatory factors, could affect the Company's financial performance and could cause the Company's actual results for future periods to differ materially from those anticipated or projected.

The Company does not undertake, and specifically disclaims any obligation, to update any forward-looking statements to reflect occurrences or unanticipated events or circumstances after the date of such statements.

FIRST FEDERAL OF NORTHERN MICHIGAN BANCORP, INC.

AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 1 — BASIS OF FINANCIAL STATEMENT PRESENTATION

The accompanying unaudited condensed consolidated interim financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America and with the instructions to Form 10-Q. Accordingly, certain information and disclosures required by accounting principles generally accepted in the United States of America for complete financial statements are not included herein. The interim financial statements should be read in conjunction with the financial statements of First Federal of Northern Michigan Bancorp, Inc. and Subsidiaries and the notes thereto included in the Company's annual report on Form 10-K for the year ended December 31, 2014.

All adjustments, consisting only of normal recurring adjustments, which in the opinion of management are necessary for a fair presentation of financial position, results of operations and cash flows, have been made. The results of operations for the three and six months ended June 30, 2015 are not necessarily indicative of the results that may be expected for the year ending December 31, 2015.

Note 2 — PRINCIPLES OF CONSOLIDATION

The consolidated financial statements include the accounts of First Federal of Northern Michigan Bancorp, Inc., its wholly owned subsidiary First Federal of Northern Michigan (the "Bank"), and the Bank's wholly owned subsidiaries, Financial Services & Mortgage Corporation ("FSMC") and FFNM Financial Services, Inc. FSMC invested in real estate, which includes leasing, selling, developing, and maintaining real estate properties. FSMC was dissolved in the first quarter of 2015 since all real estate properties were sold in 2011. The main activity of FFNM Financial Services, Inc. is to collect commission from the sale of non-insured investment products resulting from investment advisory services offered in our branch network. All significant intercompany balances and transactions have been eliminated in the consolidation.

Note 3 — BUSINESS COMBINATIONS

As of August 8, 2014 (“Merger Date”), the Company completed its merger with Alpena Banking Corporation and its wholly owned subsidiary Bank of Alpena (“Alpena”). Alpena had one branch office and \$102.9 million in assets as of August 8, 2014. The results of operations due to the merger have been included in the Company’s results since the Merger Date. The merger was effected by the issuance of shares of the Company’s common stock to Alpena Banking Corporation shareholders. Each share of Alpena’s common stock was converted into the right to receive 1.549 shares of the Company’s common stock, with cash paid in lieu of fractional shares. The conversion of Alpena’s shares resulted in the issuance of 842,965 shares of the Company’s common stock.

The merger transaction was recorded using the acquisition method of accounting and accordingly, assets acquired, liabilities assumed and consideration exchanged were recorded at estimated fair values on the Merger Date. The following table provides the purchase price calculation as of the Merger Date and the identifiable assets acquired and liabilities assumed at their estimated fair values. These fair value measurements are provisional based on third-party valuations that are currently under review and are subject to refinement for up to one year after the Merger Date based on additional information that may be obtained by us that existed on the Merger Date.

Purchase Price:

(000's omitted)

First Federal of Northern Michigan Bancorp, Inc. common stock issued for Alpena Banking Corporation common shares	843
Price per share, based on First Federal of Northern Michigan Bancorp, Inc. closing price on August 8, 2014	\$5.59
Total purchase price	\$4,712

Preliminary Statement of Net Assets Acquired at Fair Value:

Assets			
Cash and cash equivalents	\$41,650		
Securities	24,008		
Loans	33,051		
Premises and Equipment	1,667		
Core Deposit Intangible	1,392		
Deferred Tax Asset	337		
Other Assets	467		
Total Assets	\$102,572		
Liabilities			
Deposits	95,787		
Other Liabilities	91		
Total Liabilities	\$95,878		
Net Identifiable Assets Acquired		\$6,694	
Bargain Purchase Gain		\$(1,982)	

The following table provides the pro forma information for the results of operations for the three and six months ended June 30, 2015 and 2014, as if the merger had occurred on January 1 of each year. These adjustments reflect the impact of certain purchase accounting fair value measurements, primarily on the loan and deposit portfolios of Bank of Alpena. These pro forma results are presented for illustrative purposes only and are not intended to represent or be indicative of the actual results of operations of the combined banking organizations that would have been achieved had the merger occurred at the beginning of each period presented, nor are they intended to represent or be indicative of future results of the Company.

For the Three Months Ended		For the Six Months Ended	
June 30,		June 30,	
2015	2014	2015	2014

Net interest income	\$ 2,347	\$ 2,953	\$ 4,663	\$ 5,848
Non-interest income	487	632	981	1,232
Non-interest expense	2,499	3,069	4,931	6,089
Net income	380	476	735	897
Net income per basic and diluted share	0.10	0.17	0.20	0.31
Weighted average shares outstanding	3,727	2,884	3,727	2,884

In most instances, determining the fair value of the acquired assets and assumed liabilities required the Company to estimate the cash flows expected to result from those assets and liabilities and to discount those cash flows at appropriate rates of interest. The most significant of those determinations related to the valuation of acquired loans. For such loans, the excess cash flows expected at merger over the estimated fair value is recognized as interest income over the remaining lives of the loans. The difference between contractually required payments at merger and the cash flows expected to be collected at merger reflects the impact of estimated credit losses and other factors, such as prepayments. In accordance with the applicable accounting guidance for business combinations, there was no carry-over of Alpena's previously established allowance for loan losses.

The acquired loans were divided into loans with evidence of credit quality deterioration, which are accounted for under ASC 310-30 ("acquired impaired"), and loans that do not meet the criteria, which are accounted for under ASC 310-20 ("acquired non-impaired"). In addition, the loans are further categorized into different pools based primarily on the type and purpose of the loan.

	Acquired Impaired	Acquired Non-Impaired	Acquired Total
Real estate loans:			
Residential mortgages	\$397	\$ 6,992	\$7,389

Total	\$745	\$746

At June 30, 2015 and December 31, 2014, securities with a carrying value and fair value of \$29.9 million and \$35.0 million, respectively, were pledged to secure certain deposit accounts, FHLB advances and our line of credit at the Federal Reserve.

For the six months ended June 30, 2015 there were 2 bonds sold with a carrying value of \$1.8 million at a gain of \$1,000 and there were no sales recorded for the six months ended June 30, 2014.

The following is a summary of securities that had unrealized losses at June 30, 2015 and December 31, 2014. The information is presented for securities that have been in an unrealized loss position for less than 12 months and for more than 12 months. At June 30, 2015 there were 52 securities with unrealized losses totaling \$297,000 and at December 31, 2014, the Company held 72 securities with unrealized losses totaling \$303,000.

The unrealized losses on the securities held in the portfolio are not considered other than temporary and have not been recognized into income. This decision is based on the Company's ability and intent to hold any potentially impaired security until maturity. The performance of the security is based on the contractual terms of the agreement, the extent of the impairment and the financial condition and credit quality of the issuer. The decline in market value is considered temporary and a result of changes in interest rates and other market variables.

Note 5 — LOANS

The following table sets forth the composition of our loan portfolio by loan type at the dates indicated.

	At June 30, 2015	At December 31, 2014

The Bank uses an eight tier risk rating system to grade its commercial loans. The grade of a loan may change during the life of the loans. The risk ratings are described as follows:

Risk Grade 1 (Excellent) - Prime loans based on liquid collateral, with adequate margin or supported by strong financial statements. Probability of serious financial deterioration is unlikely. High liquidity, minimum risk, strong ratios, and low handling costs are common to these loans. This classification also includes all loans secured by certificates of deposit or cash equivalents.

Risk Grade 2 (Good) - Desirable loans of somewhat less stature than Grade 1, but with strong financial statements. Probability of serious financial deterioration is unlikely. These loans possess a sound repayment source (and/or a secondary source). These loans represent less than the normal degree of risk associated with the type of financing contemplated.

Risk Grade 3 (Satisfactory) - Satisfactory loans of average risk – may have some minor deficiency or vulnerability to changing economic conditions, but still fully collectible. There may be some minor weakness but with offsetting features or other support readily available. These loans present a normal degree of risk associated with the type of financing. Actual and projected indicators and market conditions provide satisfactory assurance that the credit shall perform in accordance with agreed terms.

Risk Grade 4 (Acceptable) - Loans considered satisfactory, but which are of slightly “below average” credit risk due to financial weaknesses or uncertainty. The loans warrant a somewhat higher than average level of monitoring to insure that weaknesses do not advance. The level of risk is considered acceptable and within normal underwriting guidelines, so long as the loan is given the proper level of management supervision.

Risk Grade 4.5 (Monitored) - Loans are considered “below average” and monitored more closely due to some credit deficiency that poses additional risk but is not considered adverse to the point of being a “classified” credit. Possible reasons for additional monitoring may include characteristics such as temporary negative debt service coverage due to weak economic conditions, borrower may have experienced recent losses from operations, declining equity and/or increasing leverage, or marginal liquidity that may affect long-term sustainability. Loans of this grade have a higher degree of risk and warrant close monitoring to insure against further deterioration. In any tables presented subsequently, Risk Grade 4.5 credits are included with Risk Grade 4 credits.

Risk Grade 5 (Other Assets Especially Mentioned) (OAEM) - Loans which possess some credit deficiency or potential weakness, which deserve close attention, but which do not yet warrant substandard classification. Such loans pose unwarranted financial risk that, if not corrected, could weaken the loan and increase risk in the future.

Risk Grade 6 (Substandard) - Loans are “substandard” whose full, final collectability does not appear to be a matter of serious doubt, but which nevertheless portray some form of well defined weakness that requires close supervision by Bank management. The noted weaknesses involve more than normal banking risk. One or more of the following characteristics may be exhibited in loans classified Substandard: (1) Loans possess a defined credit weakness and the likelihood that the loan shall be paid from the primary source of repayment is uncertain; (2) Loans are not adequately protected by the current net worth and/or paying capacity of the obligor; (3) primary source of repayment is gone, and the Bank is forced to rely on a secondary source of repayment such as collateral liquidation or guarantees; (4) distinct possibility that the Bank shall sustain some loss if deficiencies are not corrected; (5) unusual courses of action are needed to maintain a high probability of repayment; (6) the borrower is not generating enough cash flow to repay loan principal, however, continues to make interest payments; (7) the Bank is forced into a subordinated or unsecured position due to flaws in documentation; (8) loans have been restructured so that payment schedules, terms, and collateral represent concessions to the borrower when compared to normal loan terms; (9) the Bank is contemplating foreclosure or legal action due to the apparent deterioration in the loan; or (10) there is a significant deterioration in the market conditions and the borrower is highly vulnerable to these conditions.

Grade 7 (Doubtful) - Loans have all the weaknesses of those classified Substandard. Additionally, however, these weaknesses make collection or liquidation in full, based on existing conditions, improbable. Loans in this category are typically not performing in conformance with established terms and conditions. Full repayment is considered “Doubtful”, but extent of loss is not currently determinable.

Risk Grade 8 (Loss) - Loans are considered uncollectible and of such little value, that continuing to carry them as an asset on the Bank’s financial statements is not feasible.

The following table presents the risk category of commercial loans by class of loans based on the most recent analysis performed and the contractual aging as of June 30, 2015 and December 31, 2014:

The key features of the Company's loan modifications are determined on a loan-by-loan basis. Generally, our restructurings have related to interest rate reductions and loan term extensions. In the past the Company has granted reductions in interest rates, payment extensions and short-term payment forbearances as a means to maximize collectability of troubled credits. The Company has not forgiven principal to date, although this would be considered if necessary to ensure the long-term collectability of the loan. The Company's loan modifications are typically short-term in nature, although the Company would consider a long-term modification to ensure the long-term collectability of the credit. In general, a borrower must make at least six consecutive timely payments before the Company would consider a return of a restructured loan to accruing status in accordance with Federal Deposit Insurance Corporation guidelines regarding restoration of credits to accrual status.

The Bank has classified approximately \$3.2 million of its impaired loans as troubled debt restructurings as of June 30, 2015. There were no commitments to extend credit to borrowers with loans classified as troubled debt restructurings as of June 30, 2015 and December 31, 2014.

For the majority of the Bank's impaired loans, the Bank will apply the market value of collateral methodology. However, the Bank may also utilize a measurement incorporating the present value of expected future cash flows discounted at the loan's effective rate of interest. To determine observable market price, collateral asset values securing an impaired loan are periodically evaluated. Maximum time of re-evaluation is every 12 months. In this process, third party evaluations are obtained and heavily relied upon. Until such time that updated evaluations are received, the Bank

may discount the collateral value used.

The Bank uses the following guidelines as stated in policy to determine when to realize a charge-off, whether a partial or full loan balance. A charge down in whole or in part is realized when unsecured consumer loans, credit card credits and overdraft lines of credit reach 90 days delinquency. At 120 days delinquency, secured consumer loans are charged down to the value of collateral, if repossession of the collateral is assured and/or in the process of repossession. Consumer mortgage loan deficiencies are charged down upon the sale of the collateral or sooner upon the recognition of collateral deficiency.

Commercial credits are charged down at 90 days delinquency, unless an established and approved work-out plan is in place or litigation of the credit will likely result in recovery of the loan balance. Upon notification of bankruptcy, unsecured debt is charged off. Additional charge-offs may be realized as further unsecured positions are recognized.

The following table presents loans individually evaluated for impairment by class of loans as of June 30, 2015 and December 31, 2014:

Note 6 — DIVIDENDS

We are dependent primarily upon the Bank for our earnings and funds to pay dividends on our common stock. The payment of dividends also is subject to legal and regulatory restrictions. Any payment of dividends in the future will depend, in large part, on the Bank's earnings, capital requirements, financial condition and other factors considered by our Board of Directors.

Note 7 — STOCK-BASED COMPENSATION

Effective January 1, 2006, the Company adopted FASB ASC 718-10 "Shareholder Based Payments", which requires that the grant-date fair value of awarded stock options be expensed over the requisite service period. The Company's 1996 Stock Option Plan (the "1996 Plan"), which was approved by shareholders, permits the grant of share options to its employees for up to 127,491 shares of common stock (adjusted for the exchange ratio applied in the Company's 2005 stock offering and related second-step conversion). The Company's 2006 Stock-Based Incentive Plan (the "2006 Plan"), which was approved by the shareholders on May 17, 2006, permits the award of up to 242,740 shares of common stock of which the maximum number to be granted as Stock Options is 173,386 and the maximum that can be granted as Restricted Stock Awards is 69,354. Option awards are granted with an exercise price equal to the market price of the Company's stock at the date of grant; those option awards generally vest based on five years of continual service and have ten year contractual terms. Certain options provide for accelerated vesting if there is a change in control (as defined in the Plans).

During the three and six months ended June 30, 2015 no shares were awarded under either the 1996 Plan or the 2006 Plan. Shares issued under the plans and exercised pursuant to the exercise of the stock options awarded under the plans may be either authorized but unissued shares or reacquired shares held by the Company as treasury stock.

Stock Options - A summary of option activity under the Plans during the six months ended June 30, 2015 is presented below:

Options	Shares	Weighted-Average Exercise Price	Weighted-Average Remaining Contractual Term (Years)	Aggregate Intrinsic Value
Outstanding at January 1, 2015	136,030	\$ 9.54	1.4	\$ 0
Granted	0	N/A		
Exercised	0	N/A		
Forfeited or expired	(8,650)	\$ 9.52		
Oustanding at June 30, 2015	127,380	\$ 9.54	0.9	\$ 0
Options Exercisable at June 30, 2015	127,380	\$ 9.54	0.9	\$ 0

The aggregate intrinsic value of outstanding options shown in the table above represents the total pretax intrinsic value (i.e. the difference between the Company's closing stock price of \$6.39 on June 30, 2015 and the exercise price times the number of shares) that would have been received by the option holder had all option holders exercised their options on June 30, 2015. This amount changes based on the fair market value of the stock.

As of June 30, 2015 the Company had no unrecognized compensation cost related to nonvested options under the Plan. There were no shares which vested during the quarter ended June 30, 2015. In addition, there were no non-vested options as of June 30, 2015.

Restricted Stock Awards – As of June 30, 2015 all restricted stock awards have vested; therefore the Company had no unrecognized compensation costs under the 2006 Plan. There were 5,304 shares available for future stock award grants as of June 30, 2015.

Note 8 — COMMITMENTS TO EXTEND CREDIT

The Company is a party to credit-related financial instruments with off-balance sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments include commitments to extend credit, stand-by letters of credit, and commercial lines of credit. Such commitments involve, to varying degrees, elements of credit and interest rate risk in excess of the amounts recognized in the consolidated balance sheet. The Company's exposure to credit loss is represented by the contracted amount of these commitments. The Company follows the same credit policies in making commitments as it does for on-balance sheet instruments.

At June 30, 2015, the Company had outstanding commitments to originate loans of \$28.4 million. These commitments included the following:

	As of June 30, 2015 (in thousands)
Commitments to grant loans	\$ 11,955
Unfunded commitments under lines of credit	16,264
Commercial and standby letters of credit	134

Note 9 — FAIR VALUE MEASUREMENTS

The fair value of financial assets and liabilities recorded at fair value is categorized in three levels. The valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. These levels are as follows:

Level 1 — Valuations based on quoted prices in active markets, such as the New York Stock Exchange. Valuations are obtained from readily available pricing sources for market transactions involving identical assets or liabilities.

Level 2 — Valuations of assets and liabilities traded in less active dealer or broker markets. Valuations include quoted prices for similar assets and liabilities traded in the same market; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations whose inputs are observable or whose significant value drivers are observable. Valuations may be obtained from, or corroborated by, third-party pricing services.

Level 3 — Assets and liabilities with valuations that include methodologies and assumptions that may not be readily observable, including option pricing models, discounted cash flow models, yield curves and similar techniques. Level 3 valuations incorporate certain assumptions and projections in determining the fair value assigned to such assets or liabilities, but in all cases are corroborated by external data, which may include third-party pricing services.

The following table presents information about the Company's assets and liabilities measured at fair value on a recurring basis as of June 30, 2015 and December 31, 2014, and the valuation techniques used by the Company to determine those fair values.

Assets and Liabilities Measured at Fair Value on a Recurring Basis at June 30, 2015

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Balance at June 30, 2015
(dollars in thousands)				
Assets				
Investment securities- available-for-sale:				
US Treasury securities and obligations of U.S. government corporations and agencies	\$1,282	\$ 32,035	\$ —	\$33,317
Municipal obligations	—	26,347	1,535	27,882
Corporate bonds & other obligations	—	1,519	—	1,519

Edgar Filing: First Federal of Northern Michigan Bancorp, Inc. - Form 10-Q

Mortgage-backed securities	—	62,860	—	62,860
Equity securities	6	—	—	6
Total investment securities - available-for-sale	\$1,288	\$ 122,761	\$ 1,535	\$125,584

Assets and Liabilities Measured at Fair Value on a Recurring Basis at December 31, 2014

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Fair Value as of December 31, 2014
Assets				
Investment securities - available-for-sale:				
U.S. Treasury securities and obligations of U.S. government corporations and agencies	\$—	\$ 31,222	\$ —	\$31,222
Municipal obligations	—	20,842	2,292	23,134
Corporate bonds & other obligations	—	1,561	—	1,561
Mortgage-backed securities	—	64,046	—	64,046
Equity securities	5	—	—	5
Total investment securities - available-for-sale	\$5	\$ 117,671	\$ 2,292	\$119,968

Fair value measurements of U.S. Government agencies and mortgage backed securities use pricing models that vary and may consider various assumptions, including time value, yield curves, volatility factors, prepayment speeds, default rates, loss severity, current market and contractual prices for the underlying financial instruments, as well as other relevant economic measures.

There were no transfers between Levels 1 and 2 of the fair value hierarchy from December 31, 2014 to June 30, 2015. For the available for sale securities, the Company obtains fair value measurements from an independent third-party service.

The Company has assets that, under certain conditions, are subject to measurement at fair value on a nonrecurring basis. At June 30, 2015 and December 31, 2014, such assets consist primarily of impaired loans and other real estate owned. The Company has estimated the fair values of these assets using Level 3 inputs, specifically discounted cash flow projections.

Assets Measured at Fair Value on a Nonrecurring Basis at June 30, 2015

Total assets at fair value on a non-recurring basis				\$ 396

The following methods and assumptions were used by the Company in estimating fair value disclosures for financial instruments:

Cash and Cash Equivalents - The carrying amounts of cash and short-term instruments approximate fair values.

Investment Securities - Fair value for the Bank's investment securities was determined using the market value in active markets, where available. When not available, fair values are estimated using the fair value hierarchy. In the fair value hierarchy, Level 2 fair values are determined using observable inputs other than Level 1 market prices, such as quoted prices for similar assets. Level 3 values are determined using unobservable inputs, such as discounted cash flow projections.

Loans Receivable - For variable-rate loans that reprice frequently and with no significant change in credit risk, fair values are based on carrying values. Fair values for certain mortgage loans (e.g., one- to four-family residential), credit card loans, and other consumer loans are based on quoted market prices of similar loans sold in conjunction with securitization transactions, adjusted for differences in loan characteristics. Fair values for other loans (e.g., commercial real estate and investment property mortgage loans, commercial, and industrial loans) are estimated using discounted cash flow analyses, using interest rates currently being offered for loans with similar terms to borrowers of similar credit quality. Fair values for nonperforming loans are estimated using discounted cash flow analyses or underlying collateral values, where applicable.

Loans Held For Sale - Fair values of mortgage loans held for sale are based on commitments on hand from investors or prevailing market prices.

Federal Home Loan Bank Stock - The carrying value of Federal Home Loan Bank stock approximates fair value based on the redemption provisions of the Federal Home Loan Bank.

Deposit Liabilities - The fair values disclosed for demand deposits (e.g., interest and noninterest checking, savings, and certain types of money market accounts) are, by definition, equal to the amount payable on demand at the reporting date (i.e., their carrying amounts). The carrying amounts of variable-rate, fixed-term money market accounts and certificates of deposit approximate their fair values at the reporting date. Fair values for fixed-rate certificates of deposit are estimated using a discounted cash flow calculation that applies interest rates currently being offered on certificates to a schedule of aggregated expected monthly maturities on time deposits.

Federal Home Loan Bank Advances - The estimated fair value of the fixed and variable rate Federal Home Loan Bank advances are estimated by discounting the related cash flows using the rates currently available for similarly structured borrowings with similar maturities.

Accrued Interest - The carrying amounts of accrued interest approximate fair value.

The estimated fair values and related carrying or notional amounts of the Company's financial instruments are as follows:

June 30, 2015	Carrying Value	Level 1	Level 2	Level 3	Total Estimated Fair Value
	(in thousands)

**FIRST FEDERAL OF NORTHERN MICHIGAN BANCORP, INC.
AND SUBSIDIARIES**

PART - FINANCIAL INFORMATION

**ITEM 2 - MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

The following discussion compares the consolidated financial condition of the Company at June 30, 2015 and December 31, 2014, and the results of operations for the three- and six-month periods ended June 30, 2015 and 2014. This discussion should be read in conjunction with the interim financial statements and footnotes included herein.

OVERVIEW

The Company operates as a community-oriented financial institution that accepts deposits from the general public in the communities surrounding its eight full-service banking centers. The deposited funds, together with funds generated from operations and borrowings, are used by the Company to originate loans. The Company's principal lending activity is the origination of mortgage loans for the purchase or refinancing of one-to-four family residential properties. The Company also originates commercial and multi-family real estate loans, construction loans, commercial loans, automobile loans, home equity loans and lines of credit, and a variety of other consumer loans.

For the quarter ended June 30, 2015, the Company reported net income of \$380,000, or \$0.10 per basic and diluted share, compared to \$94,000, or \$0.03 per basic and diluted share, for the quarter ended June 30 2014, an increase of \$286,000. Net income was \$735,000, or \$0.20 per basic and diluted share, for the six months ended June 30, 2015 as compared to \$316,000, or \$0.11 per share, for the same period ended June 30, 2014.

Total assets increased \$109,000, or less than 1%, to \$326.0 million as of June 30, 2015 from \$325.9 million as of December 31, 2014. Cash and cash equivalents decreased \$6.1 million while investment securities available for sale increased \$5.6 million and net loans receivable increased \$2.0 million during this time period. Total deposits decreased \$755,000 from December 31, 2014 to June 30, 2015 while Federal Home Loan Bank advances increased \$332,000.

CRITICAL ACCOUNTING POLICIES

As of June 30, 2015, there have been no changes in the critical accounting policies as disclosed in the Company's Form 10-K for the year ended December 31, 2014. The Company's critical accounting policies are described in the Management's Discussion and Analysis and financial sections of its 2014 Annual Report. Management believes its critical accounting policies relate to the Company's allowance for loan losses, real estate owned, mortgage servicing rights, valuation of deferred tax assets and impairment of intangible assets.

COMPARISON OF FINANCIAL CONDITION AT JUNE 30, 2015 AND DECEMBER 31, 2014

ASSETS: Total assets increased \$109,000, or less than 1%, to \$326.0 million at June 30, 2015 from \$325.9 million at December 31, 2014. Investment securities available for sale increased \$5.6 million, or 4.7%, as a result of year to date purchases totaling \$22.3 million. Net loans receivable increased \$2.0 million, or 1.2%, to \$165.6 million at June 30, 2015 from \$163.6 million at December 31, 2014. The increase in net loans was attributable primarily to an increase in our mortgage loan portfolio as a result of retaining high-quality 10- and 15-year fixed rate and 7-year adjustable rate mortgages for the six-month period ended June 30, 2015.

LIABILITIES: Deposits decreased \$755,000 to \$270.0 million at June 30, 2015 from \$270.7 million at December 31, 2014. We experienced decreases of \$1.1 million in our traditional certificates of deposit, \$806,000 in our liquid certificates of deposit (from which customers can take a penalty-free withdrawal with seven days advance written notice), and \$4.0 million in money market accounts and NOW demand deposit accounts during the six-month period. Partially offsetting these decreases was an increase of \$709,000 in statement savings and \$4.4 million in non-interest bearing accounts. Total FHLB advances increased \$332,000 to \$23.2 million at June 30, 2015 from \$22.9 million at December 31, 2014.

EQUITY: Stockholders' equity increased \$533,000 to \$31.1 million at June 30, 2015 from \$30.5 million at December 31, 2014. The increase was due primarily to net income of \$735,000 offset by a decrease of \$53,000, net of tax in the unrealized gain on available-for-sale securities and \$149,000 for dividends.

RESULTS OF OPERATIONS

Three Months Ended June 30, 2015 Compared to Three Months Ended June 30, 2014

General: Net income increased \$286,000 to \$380,000 for the three months ended June 30, 2015 from \$94,000 for the same period ended June 30, 2014.

Interest Income: Interest income increased to \$2.7 million for the three months ended June 30, 2015 from \$2.0 million for the year earlier period, due mainly to an increase of \$109.0 million in the average balance of interest-earning assets. The yield on our mortgage loans declined to 4.48% for the three months ended June 30, 2015 from 4.68% for same period in 2014, while the yield on non-mortgage loans increased to 5.29% for the three months ended June 30, 2015 compared to 5.19% for the three-month period ended June 30, 2014. The yield decline experienced on the mortgage loan portfolio is a result of continued low interest rates on loan products period over period.

Interest Expense: Interest expense increased to \$308,000 for the three months ended June 30, 2015 from \$259,000 for the three months ended June 30, 2014. The increase in interest expense was due primarily to an increase of \$72.4 million in the average balances of our interest-bearing liabilities. While the average balances increased we made the strategic decision to not be a market leader in certificate of deposit rates in the current rate environment. As a result, the average cost of certificates of deposit decreased to 0.95% for the three months ended June 30, 2015 from 0.98% for the three months ended June 30, 2014. The cost of our FHLB advances increased 17 basis points to 1.26% for the three months ended June 30, 2015 from 1.09% for the three months ended June 30, 2014 due primarily to rising market interest rates on new advances.

The following table sets forth information regarding the changes in interest income and interest expense of the Bank during the periods indicated.

	Quarter ended June 30, 2015 Compared to Quarter ended June 30, 2014 Increase (Decrease) Due to:		
	Volume	Rate	Total
	(in thousands)		
Interest-earning assets:			
Loans receivable	\$355	\$(13)	\$342
Investment securities	317	(34)	\$283
Other investments	28	(23)	\$5
Total interest-earning assets	700	(70)	630
Interest-bearing liabilities:			
Savings Deposits	—	—	—
Money Market/NOW accounts	28	(1)	27
Certificates of Deposit	25	(5)	20
Deposits	53	(6)	47
Borrowed funds	(8)	10	2
Total interest-bearing liabilities	45	4	49
Change in net interest income	\$655	\$(74)	\$581

Net Interest Income: Net interest income increased \$581,000 to \$2.3 million for the three months ended June 30, 2015 as compared to \$1.8 million for the three-months ended June 30, 2014. While net interest income has increased, the yield on interest earning assets has declined 60 basis points to 3.42% at June 30, 2015 from 4.02% at June 30, 2014. In addition, the cost of average interest-bearing liabilities decreased to 0.53% from 0.62% for the three-month periods ended June 30, 2015 and 2014, respectively. The net interest margin decreased to 3.02% for the three months ended June 30, 2015 from 3.50% for same period in 2014.

Provision for Loan Losses: The allowance for loan losses is established through a provision for loan losses charged to earnings. Loan losses are charged against the allowance when management believes the uncollectibility of a loan balance is confirmed. Subsequent recoveries, if any, are credited to the allowance.

The allowance for loan losses is evaluated on a regular basis by management and is based upon management's periodic review of the collectability of the loans in light of historical experience, the nature and volume of the loan portfolio, adverse situations that may affect the borrower's ability to repay, estimated value of any underlying collateral and prevailing economic conditions. This evaluation is inherently subjective, as it requires estimates that are susceptible to significant revision as more information becomes available.

The provision for loan losses for the three months ended June 30, 2015 resulted in income of \$45,000 compared to no provision for the same period in 2014. During the quarter ended June 30, 2015, we had net recoveries of \$88,000 compared to net recoveries of \$29,000 during the quarter ended June 30, 2014, due in large part due to the decrease in the number of loans in foreclosure. The direct effect of the decrease in net charge-offs quarter over quarter and reduced general reserve factors resulted in recovery of provision expense for the period ended June 30, 2015. The provision was based on management's review of the components of the overall loan portfolio, the status of non-performing loans and various subjective factors.

Non-Interest Income: Non-interest income increased \$143,000 to \$487,000 for the three months ended June 30, 2015 from \$344,000 for the three months ended June 30, 2014. In 2015, we experienced increases of \$48,000 in service charge income and \$53,000 other income primarily related to insurance and brokerage commission income period over period. In addition, we experienced increases of \$21,000 in mortgage banking activities and \$20,000 in other income related to gain on sale of bank owned properties.

Non-Interest Expense: Non-interest expense increased \$483,000 to \$2.5 million for the three months ended June 30, 2015 compared to \$2.0 million for the three months ended June 30, 2014. Most notably, compensation and benefits increased \$397,000. In addition, for the three month period in 2015 amortization of intangible assets increased \$51,000 while we experienced a decrease of \$28,000 in professional services during the same period.

Income Taxes: The Company did not record federal income tax expense for the three months ended June 30, 2015 and 2014 due to the net operating loss carry forward that offsets any current tax liability.

Six Months Ended June 30, 2015 Compared to Six Months Ended June 30, 2014

General: Net income increased \$419,000 to \$735,000 for the six months ended June 30, 2015 from \$316,000 for the same period ended June 30, 2014.

Interest Income: Interest income increased \$1.2 million to \$5.3 million for the six-month period ended June 30, 2015 from \$4.1 million for the same period in 2014. This increase was primarily attributable to an increase of \$113.4 million in the average balance of our interest-bearing assets for the six months ended June 30, 2015. While the average balances have increased, we experienced a 32 basis point decrease in the yield on our mortgage portfolio to 4.46% for the six-month period ended June 30, 2015 from 4.78% for the same period in 2014, due mainly to lower market interest rates period over period.

Interest Expense: Interest expense for the six months ended June 30, 2015 increased to \$609,000 from \$508,000 for the six months ended June 30, 2014. The increase in interest expense for the 2015 period was due primarily to an increase in the average balance of our interest-bearing liabilities of \$72.8 million.

While the average balances increased, the average cost of our deposit products decreased 9 basis points to 0.45% for the six months ended June 30, 2015 from 0.54% for the six months ended June 30, 2014, as higher costing deposits matured and either left the Bank or were re-priced at lower rates. The cost of our FHLB advances increased 15 basis points to 1.23% for the six months ended June 30, 2015 from 1.08% for the six months ended June 30, 2014 due primarily to rising market interest rates and match funding of longer termed assets with borrowings period over period.

The following table sets forth information regarding the changes in interest income and interest expense of the Bank during the periods indicated.

	Six Months ended June 30, 2015 Compared to Six Months ended June 30, 2014 Increase (Decrease) Due to:		
	Volume	Rate	Total
	(in thousands)		
Interest-earning assets:

Total interest-bearing liabilities	93	8	101
Change in net interest income	\$1,325	\$(224)	\$1,101

Net Interest Income: Net interest income increased \$1.1 million to \$4.7 million for the six-month period ended June 30, 2015 compared to \$3.6 million for the same period in 2014. For the six months ended June 30, 2015, average

interest-earning assets increased \$113.4 million, or 56.9%, when compared to the same period in 2014. Average interest-bearing liabilities increased \$72.8 million, or 51.1%, to \$215.4 million for the six months ended June 30, 2015 from \$142.6 million for the six months ended June 30, 2014. The yield on average interest-earning assets decreased to 3.39% for the six month period ended June 30, 2015 from 4.10% for the same period in 2014 while the cost of average interest-bearing liabilities decreased to 0.53% from 0.62% for the six-month periods ended June 30, 2015 and 2014, respectively. The net interest margin decreased to 3.00% for the six-month period ended June 30, 2015 from 3.59% for same period in 2014.

Delinquent Loans and Nonperforming Assets. Nonperforming assets decreased \$209,000 to \$4.3 million at June 30, 2015 from \$4.5 million at December 31, 2014 due in large part to a net reduction of \$155,000 in loans placed in non-accrual status and the sale of four Bank owned properties during the six-month period ended June 30, 2015.

The ratio of nonperforming loans to total loans was 0.84% and 1.00% at June 30, 2015 and December 31, 2014, respectively. As a percentage of total assets, nonperforming assets decreased to 1.31% at June 30, 2015 from 1.37% at December 31, 2014. The Company experienced an increase in the classified asset ratio to 34.04% as of June 30, 2015 from 22.98% as of December 31, 2014; the increase is attributed to an increase of \$4.1 million to substandard commercial loans during the six months ended June 30, 2015.

	June 30, 2015	December 31, 2014
	(Dollars in thousands)	
Total non-accrual loans	\$1,224	\$1,338
Accrual loans delinquent 90 days or more:		
One- to four-family residential	129	312
Other real estate loans	51	—
Construction	—	—
Purchased Out-of-State	—	—
Commerical	—	—
Consumer & other	6	3
Total accrual loans delinquent 90 days or more	\$186	\$315
Total nonperforming loans (1)	1,410	1,653
Total real estate owned-residential mortgages (2)	527	356
Total real estate owned-Commercial (2)	352	391
Total Purchased Mortgage Out-of-Statel (2)	1,216	1,216
Total real estate owned-Consumer & other repossessed assets (2)	762	860
Total nonperforming assets	\$4,267	\$4,476
Total nonperforming loans to loans receivable	0.84 %	1.00 %
Total nonperforming assets to total assets	1.31 %	1.37 %

(1) All of the Bank's loans delinquent more than 90 days are classified as nonperforming.

Represents the net book value of property acquired by the Bank through foreclosure or deed in lieu of foreclosure.

(2) Upon acquisition, this property is recorded at the lower of its fair market value or the principal balance of the related loan.

Provision for Loan Losses: For the six-month period ended June 30, 2015, the provision for loan loss resulted in income of \$22,000 as compared to provision of \$16,000 for the period ended June 30, 2014. Our provision for loan losses is based on a twelve-quarter rolling average of actual net charge-offs adjusted for various environmental factors for each pool of loans in our portfolio. During the six-month period ended June 30, 2015, we experienced net recoveries of \$88,000, as the number of loans in foreclosure has declined period over period. As a result of the decline in net-charge offs period over period the general reserve factors applied to each loan pool in our portfolio decreased. The provision was based on management's review of the components of the overall loan portfolio, the status of non-performing loans and various subjective factors.

The following table sets forth the details of our loan portfolio at the dates indicated:

	Portfolio	Delinquent Loans Over 90 Days	Non-Accrual Loans
	Balance		
	(Dollars in thousands)		
June 30, 2015

Allowance for loan losses	(1,429)	—	(130)
Total loans, net	\$163,647	\$ 315	\$ 1,206

Non-Interest Income: Non-interest income increased to \$981,000 for the six months ended June 30, 2015 from \$681,000 for the six months ended June 30, 2014, mainly due to an \$85,000 increase in service charge income and \$63,000 increase in insurance and brokerage commission income year over year. In addition, we experienced increases of \$26,000 in mortgage banking income and \$116,000 in other income related to gain on sale of bank owned properties.

Non-Interest Expense. Non-interest expense increased to \$4.9 million for the six months ended June 30, 2015 from \$3.9 million for the six months ended June 30, 2014. The increase was primarily due to increases of \$707,000 in compensation and benefits, \$92,000 in occupancy expenses and \$81,000 in amortization of intangible expense. These increases were partially offset by a decrease of \$47,000 in professional services related to merger costs incurred during the six months ended June 30, 2014.

Income Taxes: The Company did not record federal income tax expense for the six months ended June 30, 2015 and 2014 due to the net operating loss carry forward that offsets any current tax liability. A valuation allowance of \$2.8 million remains on our deferred tax asset as of June 30, 2015.

The Company will continue to evaluate the future benefits from these carryforwards and at such time as it becomes “more likely than not” that they would be utilized prior to expiration, the Company will recognize the additional benefits as an adjustment to the valuation allowance. The net operating loss carryforwards expire twenty years from the date they originated. These carryforwards, if not utilized, will fully expire in the year 2033.

LIQUIDITY

The Company's current liquidity position is more than adequate to fund expected asset growth. The Company's primary sources of funds are deposits, FHLB advances, proceeds from principal and interest payments, prepayments on loans and mortgage-backed and investment securities and sale of long-term fixed-rate mortgages into the secondary market. While maturities and scheduled amortization of loans and mortgage-backed securities are a predictable source of funds, deposit flows, mortgage prepayments and sale of mortgage loans into the secondary market are greatly influenced by general interest rates, economic conditions and competition.

Liquidity represents the amount of an institution's assets that can be quickly and easily converted into cash without significant loss. The most liquid assets are cash, short-term U.S. Government securities, U.S. Government agency securities and certificates of deposit. The Company is required to maintain sufficient levels of liquidity as defined by OCC regulations. This requirement may be varied at the direction of the OCC. Regulations currently in effect require that the Bank must maintain sufficient liquidity to ensure its safe and sound operation. The Company's objective for liquidity is to maintain liquid assets equal to at least 20% of total deposits and Federal Home Loan Bank advances due in one year or less. Liquidity as of June 30, 2015 was \$146.1 million, or 63.2%, compared to \$146.5 million, or 62.9%, at December 31, 2014. The levels of these assets are dependent on the Company's operating, financing, lending and investing activities during any given period. The liquidity calculated by the Company includes additional borrowing capacity available with the FHLB. This borrowing capacity is based on pledged collateral.

The Company retains for its portfolio certain originated residential mortgage loans (primarily adjustable rate and shorter term fixed rate mortgage loans) and generally sells the remainder. The Bank will from time to time participate in or originate commercial real estate loans, including real estate development loans. During the six month period ended June 30, 2015, the Company originated \$17.6 million in residential mortgage loans, of which \$9.5 million were retained in portfolio while the remainder were sold or are being held for sale. This compares to \$9.5 million in originations during the first six months of 2014 of which \$4.0 million were retained in portfolio. The Company also originated \$10.1 million of commercial loans and \$1.5 million of consumer loans in the first six months of 2015 compared to \$8.0 million of commercial loans and \$1.3 million of consumer loans for the same period in 2014. Of total loans receivable, excluding loans held for sale, mortgage loans comprised 44.8% and 47.1%, commercial loans 48.8% and 45.9% and consumer loans 6.4% and 7.0% at June 30, 2015 and June 30, 2014, respectively.

Deposits are a primary source of funds for use in lending and for other general business purposes. At June 30, 2015 deposits funded 82.8% of the Company's total assets compared to 83.1% at December 31, 2014. Certificates of deposit scheduled to mature in less than one year at June 30, 2015 totaled \$35.9 million. Management believes that a significant portion of such deposits will remain with the Bank. The Bank monitors the deposit rates offered by competition in the area and sets rates that take into account the prevailing market conditions along with the Bank's liquidity position. Moreover, management believes that growth in assets is not expected to require significant in-flows of liquidity. As such, the Bank does not expect to be a market leader in rates paid for liabilities, although we may from time to time offer higher rates than our competitors, as liquidity needs dictate.

Borrowings may be used to compensate for seasonal or other reductions in normal sources of funds or for deposit outflows at more than projected levels. Borrowings may also be used on a longer-term basis to support increased lending or investment activities. At June 30, 2015 the Company had \$23.2 million in FHLB advances and had sufficient available collateral to obtain an additional \$31.8 million. FHLB borrowings as a percentage of total assets were 7.1% at June 30, 2015 as compared to 7.0% at December 31, 2014.

CAPITAL RESOURCES

Stockholders' equity at June 30, 2015 was \$31.1 million, or 9.5% of total assets, compared to \$30.5 million, or 9.4% of total assets, at December 31, 2014 (See "Consolidated Statement of Changes in Stockholders' Equity"). The Bank is subject to certain capital-to-assets levels in accordance with federal regulations. The Bank was considered "well capitalized" under all capital requirements set forth by the OCC as of June 30, 2015. The following table summarizes the Bank's actual capital with the regulatory capital requirements and with requirements to be "Well Capitalized" under prompt corrective action provisions, as of June 30, 2015:

	Actual Amount	Ratio	Regulatory Minimum Amount	Ratio	Minimum to be Well Capitalized Amount	Ratio
	(Dollars in Thousands)					
Tier 1 (Core) capital (to adjusted assets)	\$29,235	9.02 %	\$14,588	4.50 %	\$21,072	6.50 %
Total risk-based capital (to risk-weighted assets)	\$30,723	17.62 %	\$13,948	8.00 %	\$17,435	10.00 %
Tier 1 risk-based capital (to risk weighted assets)	\$29,235	16.77 %	\$10,461	6.00 %	\$13,948	8.00 %
Tangible Capital (to tangible assets)	\$29,235	9.02 %	\$6,484	2.00 %	\$6,484	2.00 %

ITEM 3 - QUALITATIVE AND QUANTITATIVE DISCLOSURES ABOUT MARKET RISK.

Not applicable to smaller reporting companies.

ITEM 4 - CONTROLS AND PROCEDURES

Under the supervision and with the participation of our management, including the Company's Chief Executive Officer and VP – Director of Financial Reporting & Accounting, the Company evaluated the effectiveness of the design and operation of its disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934) as of the end of the period covered by this report. Based upon that evaluation, the Chief Executive Officer and VP - Director of Financial Reporting & Accounting concluded that, as of the end of the period covered by this report, the Company's disclosure controls and procedures were effective to ensure that information required to be disclosed in the reports the Company files or submits under the Securities Exchange Act of 1934 (1) is recorded, processed, summarized and reported, within the time periods specified by the SEC's rules and forms, and (2) is accumulated and communicated to the Company's management, including its principal executive and principal financial officers, as appropriate, to allow timely decisions regarding required disclosure.

There has been no change in the Company's internal control over the financial reporting during the quarter ended June 30, 2015 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.
