BLUE EARTH, INC.
(fka Genesis Fluid Solutions, Inc.)
Notes to Financial Statements
June 30, 2011

NOTE 1 - CONDENSED FINANCIAL STATEMENTS

The accompanying financial statements have been prepared by the Company without audit. In the opinion of management, all adjustments (which include only normal recurring adjustments) necessary to present fairly the financial position, results of operations, and cash flows at June 30, 2011, and for all periods presented herein, have been made.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. The results of operations for the periods ended June 30, 2011 and 2010 are not necessarily indicative of the operating results for the full year.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Inventory

Inventory is recorded at the lower of cost or market (net realizable value) using the average cost method. The inventory on hand as of June 30, 2011 consists of motors, controllers, miscellaneous refrigeration parts and raw gasket material at costs of \$386,453. An allowance for obsolete inventory has been recorded for \$25,000, resulting in net inventory of \$361,453. The Company does not have any work in progress.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Recent Accounting Pronouncements

The Company has evaluated recent accounting pronouncements and their adoption has not had or is not expected to have a material impact on the Company's financial position, or statements.

NOTE 3 - SIGNIFICANT EVENTS

Acquisition of Subsidiary

On December 30, 2010, Castrovilla Energy, Inc., a recently formed California subsidiary of Blue Earth, Inc. entered into agreements, subject to final Board approval, to acquire substantially all of the assets of Humitech of Northern California, LLC ("Humitech"), a California limited liability company and its related company, Castrovilla, Inc. Founded in 2004, Castrovilla based in Mountain View, California, had approximately \$3.4 million in audited revenues in 2010, which is more than twice its 2008. Castrovilla serves approximately 5,400 small commercial businesses in Northern California with its 25 employees. Castrovilla manufactures, sells and installs commercial

refrigerator and freezer gaskets and sells and installs motors and controls. Castrovilla's strategy is to sell lighting and HVAC bundled retrofits to its customer base.

Castrovilla participates in several ratepayer funded utility energy efficiency rebate programs, both through third-party programs and through its own small commercial business program, Keep Your Cool. In 2008, Castrovilla acquired the assets of Bay Area Refrigeration, a fully licensed commercial refrigeration contractor that has serviced the San Francisco Bay Area for nearly 30 years. Since 2009, Castrovilla has operated an online store to sell a variety of refrigeration products on both a wholesale and retail basis.

The purchase price for Humitech, under the Asset Purchase Agreement ("APA") was \$600,000. This consisted of the payment of \$150,000 of affiliated debt and the issuance of 267,857 shares of restricted Common Stock of Blue Earth, Inc. with an agreed upon value of \$450,000, or \$1.68 per share, the average closing price of the Company's Common Stock from September 1-23, 2010 when the terms of the transaction were agreed to. The Company also

assumed trade debt of approximately \$121,000. Humitech will remain an unaffiliated non-operating entity in order to pay its other liabilities with the proceeds of the shares received from the Company, as well as from an inter-company note in the amount of \$331,579 from Castrovilla, Inc.

On December 30, 2010, Castrovilla Energy, Inc. ("CEI"), a wholly-owned subsidiary of the Company's subsidiary, Blue Earth Energy Management Services, Inc. (BEEMS) entered into an Agreement and Plan of Merger (the "Plan") with Castrovilla, Inc. and the Stockholders of Castrovilla, Inc. with an Effective Date of January 1, 2011, subject to final Board approval which was obtained on January 18, 2011. CEI merged with and into Castrovilla, Inc. which is continuing its existence as a wholly-owned California subsidiary of BEEMS. The APA and the Plan have been filed as Exhibits 2.1 and 2.2, respectively, to the Current Report on Form 8-K for December 31, 2010, as amended.

Under the Plan, the Company issued an aggregate of 1,011,905 shares of its Common Stock valued at \$1.68 per share or \$1,700,000 to the stockholders of Castrovilla, Inc. in exchange for all of the outstanding capital stock of Castrovilla, Inc. All of the 1,279,762 shares issued in the Castrovilla Acquisition (collectively, the "Company Shares") are subject to Lock-up/Leak-out and Guaranty Agreements, as amended. The two Castrovilla, Inc. stockholders, John Pink, who continues as President of Castrovilla, Inc. and Adam Sweeney, together with Humitech (the "Stockholders") could not sell any of the Company Shares for a six-month period beginning on the Effective Date of the Plan of January 1, 2011 and ending on June 30, 2011. Thereafter and ending June 30, 2013, the three stockholders may sell up to 2,461 Company Shares per trading day in the aggregate until all Company Shares are sold (the "Lock-up Period"). The Company contingently guaranteed (the "Guaranty") to the Stockholders the net sales price of \$1.68 per share, provided the Stockholders are in compliance with the terms and conditions of the Lock-up Agreement and the hereinafter described performance criteria was are met.

A number of shares equal in value to fifty percent (50%) of the profits, if any, from the sale of shares above \$3.36 per share during the Lock-up Period will be returned to the Company. Any deficit from sales below \$1.68 per share shall be paid (i) 50% in cash, and (ii) the remaining 50% in either cash or shares of Common Stock of the Company provided certain Earnings before Interest, Taxes, Depreciation and Amortization (EBITDA) performance criteria are achieved as discussed in the next paragraph (at their then current fair market value, or any combination thereof, at the sole discretion of the party making the payment).

In the event that Castrovilla Inc.'s EBITDA during the Lock-up Period is less than the budgeted amount of \$361,000 for the first six months after the Effective Date and \$722,000 of EBITDA per year for each of the fiscal years ending December 31, 2012 and 2013, the \$1.68 per share guaranteed price shall be decreased by the same percentage decrease that EBITDA is below the projected \$722,000 of EBITDA. All of such calculations will be in accordance with GAAP and derived from the Company's reviewed financial statements for the first three fiscal quarters of the year and the audited financials for the fourth quarter of the year. If EBITDA is zero or negative, then no Guaranty is in effect for the next quarter and the number of the Company's Shares which could have been sold during such three-month period will not be covered by a Guaranty in the future. Accordingly, for the six months ended June 30, 2011, the Company's EBITDA was approximately \$35,373 and therefore there is no guarantee in effect for the quarter ended September 30, 2011 unless the Selling Shareholders sell shares at less than \$0.16 per share. The share price Guaranteed is determined by multiplying the percentage of actual EBITDA in this case 9.8%, by the Guaranteed

Price/Share of \$1.68 or \$0.16 per share as the adjusted Guaranteed Price/Share in effect for the quarter ending September 30, 2011.

BLUE EARTH, INC.
(fka Genesis Fluid Solutions, Inc.)
Notes to Financial Statements
June 30, 2011

NOTE 3 – SIGNIFICANT EVENTS (CONTINUED)

The targeted EBITDA for the 12-month period from July 1, 2011 to June 30, 2012 is \$722,000, or \$180,500 per quarter (the quarterly rate of \$180,500 is a constant for each quarter through to the end of the Lock-up/Guarantee period). Therefore, for the nine-months ended September 30, 2011, the Targeted EBITDA will be \$361,000 plus \$180,500 or \$541,000; and for the 12-months ended December 31, 2011, would be \$722,000. The targeted EBITDA for each subsequent 12 month period shall be \$722,000, which shall be compared to the actual performance for the most recent 12 month reporting period as illustrated above and multiplied times \$1.68 to arrive at the guaranteed share price, if any. These targeted amounts may be reduced if a majority of the Board of Directors agree on budget changes which require an acceleration of expenses thereby affecting a current year's budgeted EBITDA. No adjustment in the targeted amounts for guarantee purposes has been made and none is contemplated at this time. The Company does not anticipate any guaranty prior to April of 2012, due to the decision to expand Castrovilla's operations into several new states.

In addition, under the Plan, the Company paid \$50,000 to an unaffiliated third party for an existing obligation of Castrovilla, Inc.

The above described Castrovilla Acquisition was completed on January 19, 2011, with an effective date of January 1, 2011. Pursuant to the terms and conditions of the Plan described above, Castrovilla Energy, Inc., a wholly-owned subsidiary of the Company, was merged with and into Castrovilla, Inc., the Surviving Corporation, on January 21, 2011

The table below presents, on a retroactive basis the condensed consolidated statements of operations for the periods presented. In the above referenced acquisition Castrovilla was not considered the predecessor for accounting purposes. The proforma condensed consolidated statements of operations are presented below for comparative purposes and to provide additional information and disclosure to the reader.

Company Overview

Blue Earth, Inc. is engaged in the clean tech industry in general with a focus on the rapidly growing, multi-billion dollar energy efficiency sector. Our industry classifications are as follows: Sector, Services; Industry-Diversified Services; and Subindustry-Management Services.

Blue Earth is engaged in a mergers and acquisition strategy to acquire, license, develop, market, install and monitor clean-tech related, innovative technologies and energy management systems. These technologies are designed to enable customers to reduce their energy consumption, lower their generating and maintenance costs and realize environmental benefits. The targeted technologies typically include various measures designed for a specific customer or facility in our target market of small commercial businesses and residences to improve the efficiency of building systems, such as heating, ventilation, air conditioning, lighting and refrigeration. Management also intends to accelerate introduction of the acquired technology/products by offering and installing them through energy management service companies, which have an established base of customers at the local, state, regional and national levels. In order to accelerate product introduction, management expects to enter into varying types of agreements with these energy management service companies, including acquisition agreements and/or joint venture agreements, as may be appropriate, for each company and geographic territory.

Effective January 1, 2011, Blue Earth acquired Castrovilla, Inc. based in Mountain View California which manufactures, sells and installs commercial refrigeration and freezer gaskets and sells and installs motors and controls to approximately 5,400 small commercial businesses.

On May 16, 2011, Blue Earth obtained the exclusive private label license (the "License") and manufacturing rights to an innovative and patented lighting controls technology from Switch Genie LLC and James F. Loughrey.

On May 31, 2011, Blue Earth entered into a binding letter of agreement to acquire Xnergy, Inc., a Carlsbad, California based energy services company. Xnergy provides a broad range of comprehensive energy solutions including specialized mechanical engineering, the design, construction and implementation of energy savings projects, energy conservation, energy infrastructure outsourcing, power generation and energy supply and risk management as well as

comprehensive maintenance and service programs.

As of August 31, 2010, the Company sold its wholly-owned subsidiary Genesis Fluid Solutions, Ltd. (GFS) to certain buyers including its former Chairman and interim CEO Michael Hodges as defined by the Stock Purchase Agreement.

Operating Expenses

General and Administrative Expenses

Liquidity and Capital Resources

Net cash used in continuing operations during the six months ended June 30, 2011 totaled \$1,723,207 and resulted primarily from the operating expenses associated with the parent company related to carrying out our business plan. In addition to a net loss of \$1,302,765, the Company incurred an increase in accounts receivables of \$504,398, and inventory \$235,826 and prepaid expenses and deposits \$751,144 that was partially offered by common stock and options issued for services expensed at \$863,963.

Net cash used in investing activities during the six months ended June 30, 2011 totaled \$231,927 and resulted from \$100,000 for the purchase of the Switch Genie license and \$131,927 for the purchase of property and equipment.

Net cash provided by financing activities during the six months ended June 30, 2011 totaled \$310,324 and resulted from \$404,333 of cash in the new subsidiary offset by payments on notes payable of \$94,009.

At June 30, 2011, we had working capital of \$1,860,462 including \$2,255,286 in cash and cash equivalents compared with working capital of \$2,612,637 at December 31, 2010. We anticipate our revenue generating activities to continue and even increase as we seek and make acquisitions. Our consolidated financial statements were prepared assuming that we would continue as a going concern irrespective of our recurring losses, accumulated deficits and negative cash flows from operations. Our ability to continue as a going concern is subject to our ability to generate profits and/or obtain necessary funding from outside sources, including by the sale of our securities, or obtaining loans from lenders, where possible. Our continued net operating losses increase the difficulty of our meeting these goals, and our efforts to continue as a going concern may not prove successful. Nonetheless, the Company expects that it has sufficient cash and borrowing capacity to meet its working capital needs for at least the next 12 months.

Historically, we have financed our working capital and capital expenditure requirements primarily from the sales of our equity securities. We may seek additional equity and/or debt financing in order to implement our business plan. We completed a private placement, commencing October 30, 2009 through December 29, 2009, whereby we received net proceeds of \$5,909,750, which we believe will fund our operations at least through June 2012. We do not have any lines of credit or borrowing facilities to meet our cash needs. As a result, we may not be able to continue as a going concern, without further financing, following June 2012. It is reasonably possible that we will not be able to obtain sufficient financing to continue operations. Furthermore, any additional equity or convertible debt financing will be dilutive to existing shareholders and may involve preferential rights over common shareholders. Debt financing, with or without equity conversion features, may involve restrictive covenants.

Related Party Transactions

No related party transactions had a material impact on our operating results for the six months ended June 30, 2011.

New Accounting Pronouncements

See Note 2 to our unaudited condensed consolidated financial statements for a discussion of recently issued accounting pronouncements.

Critical Accounting Estimates

Management's discussion and analysis of financial condition and results of operations is based upon our unaudited condensed consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these unaudited condensed consolidated financial statements requires us to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, and expenses, and related disclosure of contingent assets and liabilities. On an ongoing basis, we evaluate our estimates and assumptions, including, but not limited to valuation of accounts receivable and allowance for doubtful accounts, those related to the estimates of depreciable lives and valuation of property and equipment, valuation of derivatives, valuation of payroll tax contingencies, valuation of share-based payments, and the valuation allowance on deferred tax assets.

Off-Balance Sheet Arrangements

Since our inception, except for standard operating leases, we have not engaged in any off-balance sheet arrangements, including the use of structured finance, special purpose entities or variable interest entities.

ITEM 4. CONTROLS AND PROCEDURES.

Evaluation of Disclosure Controls and Procedures. Under the supervision and with the participation of our management, including our Chief Executive Officer and Principal Financial Officer, we evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act")) as of the end of the period covered by this report. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Exchange Act is accumulated and communicated to the issuer's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow time decisions regarding required disclosure. Based upon that evaluation, our Chief Executive Officer and Principal Financial Officer concluded that our disclosure controls and procedures as of the end of the period covered by this report were effective in ensuring that material information we are required to disclose in reports that we file under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. A controls system cannot provide absolute assurance, however, that the objectives of the controls system are met, and no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within a company have been detected.

Changes in Internal Control Over Financial Reporting. During the most recent quarter ended June 30, 2011, there has been no change in our internal control over financial reporting (as defined in Rule 13a-15(f) and 15d-15(f) under the Exchange Act)) that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
