ROCKY MOUNTAIN CHOCOLATE FACTORY, INC. AND SUBSIDIARY

NOTES TO INTERIM (UNAUDITED) CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 – NATURE OF OPERATIONS AND BASIS OF PRESENTATION

Nature of Operations

The accompanying unaudited consolidated financial statements include the accounts of Rocky Mountain Chocolate Factory, Inc. (“RMCF”), its wholly-owned subsidiary, Aspen Leaf Yogurt, LLC (“ALY”) and its 40%-owned subsidiary, U-Swirl, Inc. (“U-Swirl”), of which RMCF has financial control (collectively, the “Company”). All intercompany balances and transactions have been eliminated in consolidation. As of August 31, 2014, RMCF held approximately 40% of U-Swirl’s outstanding common stock. Additionally, RMCF has the right to acquire approximately 24,520,000 shares of U-Swirl’s common stock through the conversion of outstanding debt owed by U-Swirl to RMCF. If RMCF exercised this conversion right, RMCF would hold approximately 72% of U-Swirl’s common stock. Certain directors of RMCF constitute a majority of the directors of U-Swirl. Pursuant to a voting agreement among RMCF, ALY and certain shareholders of U-Swirl, the parties agree to vote their shares such that certain designees of RMCF shall constitute a majority of U-Swirl’s board of directors so long as RMCF or its affiliates own greater than 10% of U-Swirl’s outstanding common stock.

RMCF is an international franchisor, confectionery manufacturer and retail operator in the United States, Canada, Japan, South Korea, and the United Arab Emirates. RMCF manufactures an extensive line of premium chocolate candies and other confectionery products.

ALY was a franchisor and retail operator of self-serve frozen yogurt retail units until the sale of substantially all of its assets in January 2013 to U-Swirl. As of January 2013, RMCF ceased to operate any company-owned Aspen Leaf Yogurt locations, or sell and support franchise locations.

On January 14, 2013, RMCF, through a newly formed wholly-owned subsidiary of RMCF (“Newco”), entered into an agreement to acquire substantially all of the franchise rights of YHI, Inc. and Yogurtini International, LLC (collectively, “Yogurtini”), which are the franchisors of self-serve frozen yogurt retail units branded as “Yogurtini.” In addition, on January 14, 2013, the Company entered into two agreements to sell all of its membership interests in Newco and substantially all of its assets in ALY to U-Swirl, a publicly traded company (OTCQB: SWRL), in exchange for a 60% controlling equity interest in U-Swirl. U-Swirl is in the business of offering consumers frozen

desserts such as yogurt and sorbet. U-Swirl launched a national chain of self-serve frozen yogurt cafés called U-Swirl Frozen Yogurt and are franchising this concept. U-Swirl operates cafés owned and operated by U-Swirl (“Company-owned”) and franchises to others the right to own and operate U-Swirl cafés. It also franchises and operates self-serve frozen yogurt cafes under the names “Yogurtini,” “CherryBerry,” “Josie’s Frozen Yogurt,” “Yogli Mogli Frozen Yogurt,” “Fuzzy Peach Frozen Yogurt,” and “Aspen Leaf Yogurt.”

On January 17, 2014, U-Swirl entered into an Asset Purchase Agreement with CherryBerry, a franchisor of self-serve frozen yogurt cafés branded as “CherryBerry,” pursuant to which U-Swirl purchased certain assets of CherryBerry used in its business of franchising frozen yogurt cafés, including all of its franchise rights and one company-owned café. The assets were acquired for approximately \$4.25 million in cash and 4 million shares of U-Swirl common stock. On January 17, 2014, U-Swirl also entered into an Asset Purchase Agreement with Yogli Mogli LLC, a franchisor of self-serve frozen yogurt cafés branded as “Yogli Mogli,” pursuant to which U-Swirl purchased certain assets of Yogli Mogli used in its business of franchising frozen yogurt cafés, including all of its franchise rights and four company-owned cafés. The assets were acquired for approximately \$2.15 million in cash and \$200,000 in shares of U-Swirl common stock. On February 20, 2014, U-Swirl entered into an Asset Purchase Agreement to acquire the business assets of Fuzzy Peach Franchising, LLC, including the acquisition of all intellectual property and worldwide franchise and license rights associated with 17 Fuzzy Peach Frozen Yogurt stores. The assets were acquired for \$481,000 in cash, plus an earn-out that could increase the purchase price by up to an additional \$349,000 in cash based upon royalty income generated by Fuzzy Peach stores in the twelve months following the acquisition.

The Company’s revenues are currently derived from three principal sources: sales to franchisees and others of chocolates and other confectionery products manufactured by RMCF; the collection of initial franchise fees, royalty and marketing fees from franchisees’ sales; and sales at Company-owned stores of chocolates, frozen yogurt, and other confectionery products.

The following table summarizes the number of stores operating under RMCF and its subsidiaries at August 31, 2014:

#### New Accounting Pronouncements

In May 2014, FASB issued ASU No. 2014-09, “*Revenue from Contracts with Customers*,” which supersedes the revenue recognition requirements in “*Revenue Recognition (Topic 605)*,” and requires entities to recognize revenue in a way that depicts the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled to in exchange for those goods or services. ASU 2014-09 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016, and is to be applied retrospectively, with early application not permitted. The Company is currently evaluating the new standard.

## NOTE 2 - EARNINGS PER SHARE

Basic earnings per share is calculated using the weighted-average number of common shares outstanding. Diluted earnings per share reflects the potential dilution that could occur from common stock issuable through stock options and restricted stock units. For the three months ended August 31, 2014, there were 12,936 stock options excluded from the computation of earnings per share, compared with no stock options excluded from the computation of earnings per share for the three months ended August 31, 2013 because their effect would have been anti-dilutive. For the six months ended August 31, 2014 and 2013, 12,936 and 50,831 stock options, respectively, were excluded from the computation of earnings per share because their effect would have been anti-dilutive. Restricted stock units become dilutive within the period granted and remain dilutive until the units vest and are issued as common stock.

### Overview

We are a product-based international franchisor, confectionery manufacturer and retail operator. Our revenues and profitability are derived principally from our franchised/licensed system of retail stores that feature chocolate, frozen yogurt, and other confectionery products. We also sell our candy in selected locations outside our system of retail stores and license the use of our brand with certain consumer products. We own and operate fourteen retail units as a laboratory to test marketing, design and operational initiatives.

The most important factors in continued growth in our earnings are ongoing unit growth, increased same-store sales and increased same-store pounds purchased from the factory. Historically, unit growth has more than offset decreases in same-store sales and same-store pounds purchased.

Our ability to successfully achieve expansion of our Rocky Mountain Chocolate Factory and frozen yogurt franchise systems depends on many factors not within our control, including the availability of suitable sites for new store establishment, the availability of adequate financing options and the availability of qualified franchisees to support such expansion.

Efforts to reverse the decline in same-store pounds purchased from the factory by franchised stores and to increase total factory sales depend on many factors, including new store openings, same-store sales, and the receptivity of our franchise system to our product introductions and promotional programs.

In January 2013, we, through a newly formed wholly-owned subsidiary of the Company (“Newco”), entered into an agreement to acquire substantially all of the assets of YHI, Inc. and Yogurtini International, LLC (collectively, “Yogurtini”), which are the franchisors of self-serve frozen yogurt retail units branded as “Yogurtini.” In addition, in January 2013, we entered into two agreements to sell all of our membership interests in Newco and substantially all of our assets in Aspen Leaf Yogurt, LLC to U-Swirl, Inc. (“U-Swirl”), a publicly traded company (OTCQB: SWRL), in exchange for a 60% controlling equity interest in U-Swirl. Upon completion of these transactions, we ceased to operate any Company-owned Aspen Leaf Yogurt locations or sell and support franchise locations. U-Swirl is in the business of offering consumers frozen desserts such as yogurt and sorbet. U-Swirl launched a national chain of self-serve frozen yogurt cafés called U-Swirl Frozen Yogurt and is franchising this concept. U-Swirl has built and operates cafés owned and operated by U-Swirl and franchises to others the right to own and operate U-Swirl cafés. In January 2014 and February 2014, U-Swirl acquired the franchise systems of self-serve frozen yogurt retail units branded as “CherryBerry,” “Yogli Mogli Frozen Yogurt” and “Fuzzy Peach Frozen Yogurt.” U-Swirl also operates self-serve frozen yogurt retail units branded as “Josie’s Frozen Yogurt.” As of August 31, 2014, we own approximately 40% of U-Swirl’s outstanding common stock, and the results of U-Swirl are consolidated in our results. We believe that the acquisition of a controlling interest in U-Swirl will provide us with the ability to reverse operating losses incurred by the development and operation of Aspen Leaf Yogurt, LLC and provide an opportunity to continue to expand our presence in the self-serve frozen yogurt industry. Our ability to execute on this strategy is dependant upon continued expansion of the franchise network of U-Swirl and the success of their franchisees.

## Results of Operations

### Three Months Ended August 31, 2014 Compared to the Three Months Ended August 31, 2013

Basic earnings per share decreased 17.6% from \$.17 in the three months ended August 31, 2013 to \$.14 in the three months ended August 31, 2014. Revenues increased 9.2% from \$8.7 million in the three months ended August 31, 2013 to \$9.5 million in the three months ended August 31, 2014. Operating income decreased 10.2% from \$1.59 million in the three months ended August 31, 2013 to \$1.43 million in the three months ended August 31, 2014. Net income decreased 14.6% from \$1,028,000 in the three months ended August 31, 2013 to \$877,000 in the three months ended August 31, 2014. The increase in revenues was primarily the result of an increase in royalty and marketing fees resulting from the U-Swirl acquisition of franchise rights in the prior fiscal year. This increase was offset by an increase in restructuring costs and the impairment of certain long-lived assets.

Revenues	Three Months Ended		\$	%

Total	\$9,457.5	\$8,663.1	\$794.4	9.2%

#### Factory Sales

The decrease in factory sales for the three months ended August 31, 2014 versus the three months ended August 31, 2013 was primarily due to a 4.3% decrease in same-store pounds purchased by our network of domestic franchised stores, partially offset by an increase in shipments of product to customers outside our network of franchise retail locations. Same store sales at domestic Rocky Mountain Chocolate Factory locations increased 2.6% in the three months ended August 31, 2014, compared with the three months ended August 31, 2013.

#### Retail Sales

The increase in retail sales was primarily due to increased performance of Company-owned locations acquired or commencing operation during the prior fiscal year, offset by the closure or sale of certain under-performing locations.

Same store sales at Company-owned stores decreased 1.0% in the three months ended August 31, 2014 compared to the three months ended August 31, 2013.

#### Royalties, Marketing Fees and Franchise Fees

The increase in royalties and marketing fees from the three months ended August 31, 2013 to the three months ended August 31, 2014 resulted from a 71.8% increase in domestic franchise stores in operation from the three months ended August 31, 2013 compared to the three months ended August 31, 2014, primarily as a result of U-Swirl's acquisition of CherryBerry, Yogli Mogli and Fuzzy Peach franchise systems in January 2014 and February 2014 and the associated increase in franchise revenues due to such acquisitions. This increase was partially offset by a decrease in the number of domestic Rocky Mountain Chocolate Factory franchises in operation. The average number of domestic Rocky Mountain Chocolate Factory franchise stores in operation decreased from 225 in the three months ended August 31, 2013 to 212 during the three months ended August 31, 2014. Franchise fee revenues increased as a result of the sale of three U-Swirl Company-owned cafés to a franchisee and the associated franchise fees recognized.

Adjusted gross margin and factory adjusted gross margin are non-GAAP measures. Adjusted gross margin is equal to the sum of our factory adjusted gross margin plus our retail gross margin calculated in accordance with GAAP. Factory adjusted gross margin is equal to factory gross margin minus depreciation and amortization expense. We believe adjusted gross margin and factory adjusted gross margin are helpful in understanding our past performance as a supplement to gross margin, factory gross margin and other performance measures calculated in conformity with GAAP. We believe that adjusted gross margin and factory adjusted gross margin are useful to investors because they provide a measure of operating performance and our ability to generate cash that is unaffected by non-cash accounting measures. Additionally, we use adjusted gross margin and factory adjusted gross margin rather than gross margin and factory gross margin to make incremental pricing decisions. Adjusted gross margin and factory adjusted gross margin have limitations as analytical tools because they exclude the impact of depreciation and amortization expense and you should not consider it in isolation or as a substitute for any measure reported under GAAP. Our use of capital assets makes depreciation and amortization expense a necessary element of our costs and our ability to generate income. Due to these limitations, we use adjusted gross margin and factory adjusted gross margin as measures of performance only in conjunction with GAAP measures of performance such as gross margin and factory gross margin. The following table provides a reconciliation of factory adjusted gross margin to factory gross margin, the most comparable performance measure under GAAP:

(\$'s in thousands)	Three Months Ended August 31,	
	2014	2013
Factory adjusted gross margin	\$1,561.2	\$1,718.7
Less: Depreciation and Amortization	100.8	72.5
Factory GAAP gross margin	\$1,460.4	\$1,646.2

## Cost of Sales

Factory margins decreased 310 basis points in the three months ended August 31, 2014 compared to the three months ended August 31, 2013 due primarily to increased costs of certain raw materials and a decline in manufacturing efficiencies associated with 2.2% lower production volume. The decrease in Company-owned store margin is due primarily to the increase in U-Swirl units in operation during the previously year and associated lower margins at U-Swirl units during the three months ended August 31, 2014.

## Franchise Costs

Franchise costs were unchanged in the three months ended August 31, 2014 compared to the three months ended August 31, 2013 due primarily to an increase in franchise costs associated with supporting the additional U-Swirl franchise units acquired through business acquisitions in the prior year, offset by a reduction in franchise-related professional fees. As a percentage of total royalty and marketing fees and franchise fee revenue, franchise costs decreased to 18.7% in the three months ended August 31, 2014 from 26.3% in the three months ended August 31, 2013. This decrease is primarily a result of higher franchise and royalty revenues during the three months ended August 31, 2014.

### Sales and Marketing

The increase in sales and marketing costs for the three months ended August 31, 2014 compared to the three months ended August 31, 2013 is primarily due to an increase in marketing costs associated with the increased U-Swirl franchise locations from the prior year.

### General and Administrative

The decrease in general and administrative costs for the three months ended August 31, 2014 compared to the three months ended August 31, 2013 is due primarily to lower professional fees, mostly offset by the consolidation of U-Swirl general and administrative costs. For the three months ended August 31, 2014, approximately \$440,000 of U-Swirl general and administrative costs were consolidated within our results, compared with \$310,000 in the three months ended August 31, 2013. As a percentage of total revenues, general and administrative expenses decreased to 12.4% in the three months ended August 31, 2014 compared to 13.9% in the three months ended August 31, 2013.

### Retail Operating Expenses

The decrease in retail operating expense was primarily due to a decrease in the average number of Company-owned stores in operation. The average number of Company-owned stores in operation decreased from 19 during the three months ended August 31, 2013 to 16 units in the three months ended August 31, 2014. Retail operating expenses, as a percentage of retail sales, decreased from 50.0% in the three months ended August 31, 2013 to 49.1% in the three months ended August 31, 2014. This decrease is primarily the result of the change in units in operation from the prior year.

### Depreciation and Amortization

Depreciation and amortization of \$365,000 in the three months ended August 31, 2014 increased 54.7% from \$236,000 incurred in the three months ended August 31, 2013. This increase was the result of additional factory assets in service and an increase in amortization related to intangible assets acquired in the prior fiscal year.

### Other Income

Net interest expense was \$46,800 in the three months ended August 31, 2014 compared to net interest income of \$15,300 realized in the three months ended August 31, 2013. This change was the result of interest expense associated with a promissory note entered into in January 2014 to fund business acquisitions.

#### Income Tax Expense

Our effective income tax rate for the three months ended August 31, 2014 was 32.8%, compared to 31.8% for the three months ended August 31, 2013. The increase of 1.0% was primarily the result of the consolidation of the U-Swirl net operating income. During the three months ended August 31, 2014 and August 31, 2013 there was no income tax expense recognized on U-Swirl income. U-Swirl has significant net operating loss carryovers. In accordance with Section 382 of the Internal Revenue Code, deductibility of U-Swirl's U.S. net operating loss carryovers may be subject to annual limitation in the event of a change in control. We have performed a preliminary evaluation as to whether a change in control has taken place, and have concluded that there was a change of control with respect to the net operating losses of U-Swirl when the Company acquired a 60% ownership interest in January 2013. Our effective income tax rate may increase in future periods, or for the full year as a result of estimates related to the income tax liability arising from the income before income taxes of U-Swirl.

#### **Six Months Ended August 31, 2014 Compared to the Six Months Ended August 31, 2013**

Basic earnings per share decreased 27.8% from \$.36 for the six months ended August 31, 2013 to \$.26 for the six months ended August 31, 2014. Revenues increased 5.0% to \$19.8 million for the six months ended August 31, 2014 compared to \$18.8 million in the six months ended August 31, 2013. Operating income decreased 18.6% from \$3.4 million in the six months ended August 31, 2013 to \$2.8 million in the six months ended August 31, 2014. Net income decreased 28.0% from \$2.2 million in the six months ended August 31, 2013 to \$1.6 million in the six months ended August 31, 2014. The increase in revenues, operating income and net income was due primarily to income from operations related to our frozen yogurt business, compared with an operating loss in our frozen yogurt business in the same period of the prior year.

Total	\$19,779.7	\$18,841.0	\$938.7	5.0	%

### Factory Sales

The decrease in factory sales for the six months ended August 31, 2014 versus the six months ended August 31, 2013 was primarily due to a 3.6% decrease in same-store pounds purchased by our network of franchised stores, a 5.8% decrease in the average number of domestic Rocky Mountain Chocolate Factory franchised stores in operation and a 1.4% decrease in shipments of product to customers outside our network of franchised retail stores.

### Retail Sales

The increase in retail sales was primarily due to increased performance of Company-owned locations acquired or commencing operation during the prior fiscal year, offset by the closure or sale of certain under-performing locations. Same store sales at all Company-owned stores and cafés decreased 1.2% in the six months ended August 31, 2014 compared to the six months ended August 31, 2013.

### Royalties, Marketing Fees and Franchise Fees

The increase in royalties and marketing fees from the six months ended August 31, 2013 to the six months ended August 31, 2014 resulted from a 62.1% increase in domestic franchise stores in operation from the six months ended August 31, 2013 compared to the six months ended August 31, 2014, primarily as a result of U-Swirl's acquisition of CherryBerry, Yogli Mogli and Fuzzy Peach franchise systems in January 2014 and February 2014 and the associated increase in franchise revenues due to such acquisitions. This increase was partially offset by a decrease in the number of domestic Rocky Mountain Chocolate Factory franchises in operation. The average number of domestic Rocky Mountain Chocolate Factory franchise stores in operation decreased from 225 in the six months ended August 31, 2013 to 212 during the six months ended August 31, 2014. Franchise fee revenues decreased as a result of the license fees associated with the license agreements for the development and franchising of Rocky Mountain Chocolate Factory stores in South Korea and the Kingdom of Saudi Arabia being recognized in the six months ended August 31,

2013 and no international license fees being recognized in the six months ended August 31, 2014.

Adjusted gross margin and factory adjusted gross margin are non-GAAP measures. Adjusted gross margin is equal to the sum of our factory adjusted gross margin plus our retail gross margin calculated in accordance with GAAP. Factory adjusted gross margin is equal to factory gross margin minus depreciation and amortization expense. We believe adjusted gross margin and factory adjusted gross margin are helpful in understanding our past performance as a supplement to gross margin, factory gross margin and other performance measures calculated in conformity with GAAP. We believe that adjusted gross margin and factory adjusted gross margin are useful to investors because they provide a measure of operating performance and our ability to generate cash that is unaffected by non-cash accounting measures. Additionally, we use adjusted gross margin and factory adjusted gross margin rather than gross margin and factory gross margin to make incremental pricing decisions. Adjusted gross margin and factory adjusted gross margin have limitations as analytical tools because they exclude the impact of depreciation and amortization expense and you should not consider it in isolation or as a substitute for any measure reported under GAAP. Our use of capital assets makes depreciation and amortization expense a necessary element of our costs and our ability to generate income. Due to these limitations, we use adjusted gross margin and factory adjusted gross margin as measures of performance only in conjunction with GAAP measures of performance such as gross margin and factory gross margin. The following table provides a reconciliation of factory adjusted gross margin to factory gross margin, the most comparable performance measure under GAAP:

(\$'s in thousands)	Six Months Ended	
	2014	2013
Factory adjusted gross margin	\$3,250.2	\$3,626.9

#### Costs and Expenses

#### Cost of Sales

Factory margins decreased 220 basis points in the six months ended August 31, 2014 compared to the six months ended August 31, 2013 due primarily to a decline in manufacturing efficiencies associated with 8.3% lower production volume in the six months ended August 31, 2014 compared to the six months ended August 31, 2013.

Company-owned store margins were unchanged in the six months ended August 31, 2014 compared to the six months ended August 31, 2013.

#### Franchise Costs

The increase in franchise costs in the six months ended August 31, 2014 versus the three months ended August 31, 2013 is due primarily to an increase in franchise costs associated with supporting the additional U-Swirl franchise units acquired through business acquisitions in the prior year. As a percentage of total royalty and marketing fees and franchise fee revenue, franchise costs decreased to 20.3% in the six months ended August 31, 2014 from 25.1% in the six months ended August 31, 2013. This decrease as a percentage of royalty, marketing and franchise fees is primarily a result of higher franchise and royalty revenues.

#### Sales and Marketing

The increase in sales and marketing costs for the six months ended August 31, 2014 compared to the six months ended August 31, 2013 is primarily due to an increase in marketing costs associated with U-Swirl franchise locations.

#### General and Administrative

The increase in general and administrative costs for the six months ended August 31, 2014 compared to the six months ended August 31, 2013 is due primarily to the consolidation of U-Swirl's general and administrative costs and an increase in compensation related expenses. For the six months ended August 31, 2014, approximately \$988,000 of U-Swirl general and administrative costs were consolidated within our results, compared with \$716,000 in the six months ended August 31, 2013. As a percentage of total revenues, general and administrative expenses decreased to 13.1% in the six months ended August 31, 2014 compared to 13.2% in the same period of the prior year.

### Retail Operating Expenses

The increase in retail operating expenses for the six months ended August 31, 2014 compared to the six months ended August 31, 2013 was due primarily to changes in units in operation, resulting from the acquisition of six Company-owned locations in the prior year. This increase was offset by the closure of five underperforming locations in the prior year and the sale of four Company-owned locations in the six months ended August 31, 2014. Retail operating expenses, as a percentage of retail sales, increased from 47.2% in the six months ended August 31, 2013 to 50.9% in the six months ended August 31, 2014.

### Depreciation and Amortization

Depreciation and amortization of \$740,000 in the six months ended August 31, 2014 increased 56.8% from \$472,000 incurred in the six months ended August 31, 2013 due to additional depreciable assets in service. This increase was the result of additional factory assets in service and an increase in amortization related to intangible assets acquired in the prior fiscal year.

### Other Income

Net interest expense was \$95,600 in the six months ended August 31, 2014 compared to net interest income of \$27,000 realized in the six months ended August 31, 2013. This change was the result of an increase in outstanding debt from a promissory note entered into in January 2014 to fund business acquisitions.

### Income Tax Expense

Our effective income tax rate for the six months ended August 31, 2014 was 30.4%, compared to 31.8% for the six months ended August 31, 2013. The decrease of 1.4% was primarily the result of the consolidation of the U-Swirl, Inc. net operating income and associated provision for income taxes. U-Swirl, Inc. has significant net operating loss carryovers and no income tax expense was recognized in the six months ended August 31, 2014 or August 31, 2013. In accordance with Section 382 of the Internal Revenue Code, deductibility of U-Swirl, Inc.'s U.S. net operating loss carryovers may be subject to annual limitation in the event of a change in control. We have performed a preliminary evaluation as to whether a change in control has taken place, and have concluded that there was a change of control with respect to the net operating losses of U-Swirl, Inc. when the Company acquired its 60% ownership interest in January 2013. Our effective income tax rate may increase in future periods, or for the full year as a result of estimates related to the income tax liability arising from the income before income taxes of U-Swirl, Inc.

## Liquidity and Capital Resources

As of August 31, 2014, working capital was \$11.2 million, compared with \$9.0 million as of February 28, 2014, an increase of \$2.2 million. The change in working capital was due primarily to operating results less the payment of dividends, an increase in notes receivable and the purchase of equipment.

Cash and cash equivalent balances increased \$2.54 million from \$5.86 million as of February 28, 2014 to \$8.40 million as of August 31, 2014 as a result of cash flow generated by operating activities. Our current ratio was 2.4 to 1 at August 31, 2014 in comparison with 2.1 to 1 at February 28, 2014. We monitor current and anticipated future levels of cash and cash equivalents in relation to anticipated operating, financing and investing requirements.

We have a \$5.0 million (no amount was outstanding as of August 31, 2014) working capital line of credit collateralized by substantially all of our assets with the exception of our retail store assets. Additionally, the line of credit is subject to various financial ratio and leverage covenants. As of August 31, 2014, we were in compliance with all such covenants. The line is subject to renewal on July 31, 2015.

The Company's current long-term debt is comprised of a promissory note used to finance the Company's business acquisitions (unpaid balance as of August 31, 2014 was \$6.4 million. The note allows the Company to borrow up to a maximum of \$7.0 million to finance business acquisitions and bears interest at an annual rate of 3.75%. Additionally, the promissory note is subject to various financial ratio and leverage covenants. As of August 31, 2014, we were in compliance with all such covenants.

We believe cash flows generated by operating activities and available financing will be sufficient to fund our operations at least through the end of fiscal 2015.

### **Stock Repurchase Plan Authorizations**

We continue to evaluate options to maximize the returns on our cash and maintain an appropriate capital structure, including, among other alternatives, repurchases of our common stock. In July 2015, our Board of Directors authorized the repurchase up to \$3.0 million of our common stock. The number, price, structure and timing of the repurchases, if any, will be at our sole discretion and future repurchases will be evaluated by us depending on market conditions, liquidity needs and other factors. Share repurchases may be made in the open market, block trades or in privately negotiated transactions. The repurchase authorization does not have an expiration date and does not oblige us to acquire any particular amount of our common stock. The Board of Directors may suspend, modify or terminate the repurchase program at any time without prior notice.

Between July 15, 2014 and July 31, 2014, we repurchased 55,000 shares under the repurchase plan at an average price of \$12.58 per share. As of August 31, 2014, approximately \$2,308,000 remains available under the repurchase plan for further stock repurchases.

### **Off-Balance Sheet Arrangements**

As of August 31, 2014, we had no off-balance sheet arrangements or obligations.

### **Impact of Inflation**

Inflationary factors such as increases in the costs of ingredients and labor directly affect our operations. Most of our leases provide for cost-of-living adjustments and require us to pay taxes, insurance and maintenance expenses, all of which are subject to inflation. Additionally, our future lease costs for new facilities may include potentially escalating costs of real estate and construction. There is no assurance that we will be able to pass on increased costs to our customers.

Depreciation expense is based on the historical cost to us of our fixed assets, and is therefore potentially less than it would be if it were based on current replacement cost. While property and equipment acquired in prior years will ultimately have to be replaced at higher prices, it is expected that replacement will be a gradual process over many years.

## Seasonality

We are subject to seasonal fluctuations in sales, which cause fluctuations in quarterly results of operations. Historically, the strongest sales of our confectionary products have occurred during the Christmas holiday through Mother's Day. We believe the strongest sales of frozen yogurt products will occur during the summer months. In addition, quarterly results have been, and in the future are likely to be, affected by the timing of new store openings and sales of franchises. Because of the seasonality of our business and the impact of new store openings and sales of franchises, results for any quarter are not necessarily indicative of results that may be achieved in other quarters or for a full fiscal year.

## Item 3. Quantitative and Qualitative Disclosures About Market Risk

We do not engage in commodity futures trading or hedging activities and do not enter into derivative financial instrument transactions for trading or other speculative purposes. We also do not engage in transactions in foreign currencies or in interest rate swap transactions that could expose us to market risk. However, we are exposed to some commodity price and interest rate risks.

We frequently enter into purchase contracts of between six to eighteen months for chocolate and certain nuts. These contracts permit us to purchase the specified commodity at a fixed price on an as-needed basis during the term of the contract. Because prices for these products may fluctuate, we may benefit if prices rise during the terms of these contracts, but we may be required to pay above-market prices if prices fall and we are unable to renegotiate the terms of the contract. As of August 31, 2014, based on future contractual obligations for ingredients, we estimate that a 10.0% change in the prices of contracted ingredients would result in a \$24,000 favorable or unfavorable price benefit or cost, respectively, resulting from our contracts.

We have a \$5.0 million bank line of credit that bears interest at a variable rate. As of August 31, 2014, no amount was outstanding under the line of credit. We do not believe that we are exposed to any material interest rate risk related to this credit facility.

We have a \$7.0 million promissory note interest at a fixed rate of 3.75% annually. As of August 31, 2014, \$6.4 million was outstanding under the note. We do not believe that we are exposed to any material interest rate risk related to this financing facility.

## **Item 4. Controls and Procedures**

### **Evaluation of Disclosure Controls and Procedures**

We maintain disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the “Exchange Act”)) that are designed to ensure that material information relating to us is made known to the officers who certify as to our financial reports and to other members of senior management and the Board of Directors. These disclosure controls and procedures are designed to ensure that information required to be disclosed in our reports that are filed or submitted under the Exchange Act, are recorded, processed, summarized, and reported within the time periods specified in the SEC’s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Exchange Act is accumulated and communicated to our management, including our principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures as defined in Rule 13a-15(e) and Rule 15d-15(e) promulgated under the Exchange Act. Based upon this evaluation as of August 31, 2014, our management has concluded that those disclosure controls and procedures are effective.

### **Changes in Internal Control over Financial Reporting**

During the six months ended August 31, 2014, we began providing support services to U-Swirl related to information technology and financial reporting services. Through the offering of these services, we believe we have enhanced our internal control over financial reporting and improved the consistency of internal controls throughout our consolidated financial reporting. Except for the activities described above, there were no changes in our internal control over financial reporting that occurred during the quarter ended August 31, 2014 that have materially affected, or are reasonably likely to materially affect, the Company’s internal control over financial reporting.

## **PART II. OTHER INFORMATION**

### **Item 1. Legal Proceedings**

We are not currently involved in any material legal proceedings other than routine litigation incidental to our business.

**Item 1A. Risk Factors**

In addition to the other information set forth in this Quarterly Report on Form 10-Q, you should carefully consider the factors discussed in Part 1, “Item 1A. Risk Factors” in our Annual Report on Form 10-K for the fiscal year ended February 28, 2013. There have been no material changes in our risk factors from those disclosed in our Annual Report on Form 10-K for the fiscal year ended February 28, 2014.
