**PROPOSAL 4\* - ELECT EACH DIRECTOR ANNUALLY**

**Shareholder Proposal and Shareholder's Supporting Statement**

RESOLVED, that shareholders of Surge Components, Inc. urge the Board of Directors to take all necessary steps (other than any steps that must be taken by shareholders) to eliminate the classification of the Board of Directors and to require that all directors elected at or after the annual meeting held in 2017 be elected on an annual basis. Implementation of this proposal should not prevent any director elected prior to the annual meeting held in 2017 from completing the respective term for which such director was elected.

**Supporting Statement**

This resolution was submitted by Brad Rexroad, a longtime shareholder.

The resolution urges the board of directors to facilitate a declassification of the board. Such a change would enable shareholders to express their views on the performance of each and every director at each annual meeting. Having directors stand for elections annually makes directors more accountable to shareholders, and could thereby contribute to improving performance and increasing firm value.

Currently the board is divided into three classes. Each class serves staggered three-year terms. Because of this structure, the shareholders may only vote for one-third of the directors each year.

According to data from FactSet Research Systems, during the period January 1, 2012 to June 30, 2013:

- More than 90 S&P 500 companies brought management proposals to declassify their boards to a vote at annual meetings;

- More than 50 precatory declassification proposals passed at annual meetings of S&P 500 companies; and
- The average percentage of votes cast in favor of shareholder proposals to declassify the boards of S&P 500 companies exceeded 75%.

The significant shareholder support for proposals to declassify boards is consistent with empirical studies reporting that classified boards could be associated with lower firm valuation and/or worse corporate decision-making. Studies report that:

- Classified boards are associated with lower firm valuation (Bebchuk and Cohen, 2005; confirmed by Faleye (2007) and Frakes (2007));
- Takeover targets with classified boards are associated with lower gains to shareholders (Bebchuk, Coates, and Subramanian, 2002);
- Firms with classified boards are more likely to be associated with value-decreasing acquisition decisions (Masulis, Wang, and Xie, 2007); and
- Classified boards are associated with lower sensitivity of compensation to performance and lower sensitivity of CEO turnover to firm performance (Faleye, 2007).

Although one study (Bates, Becher and Lemmon, 2008) reports that classified boards are associated with higher takeover premiums, this study also reports that classified boards are associated with a lower likelihood of an acquisition and that classified boards are associated with lower firm valuation.

Please vote for this proposal to make directors more accountable to shareholders.
