Item 2.01 Completion of Acquisition or Disposition of Assets.

On June 20, 2013, Preferred Apartment Communities, Inc. (the "Company") filed a Current Report on Form 8-K dated June 14, 2013 with regard to entering into a Purchase and Sale Agreement (the "Purchase Agreement") between Trail Creek Apartments, LLC ("Purchaser"), a wholly owned subsidiary of Preferred Apartment Communities Operating Partnership, L.P. ("PAC-OP"), and Oxford Hampton Partners LLC for the purchase of a fee-simple interest in a 96-unit multifamily townhome community located in Hampton, Virginia ("Trail II"). The Company is the general partner of, and owner of an approximate 98% interest in, PAC-OP. The Company amended the Original 8-K on July 12, 2013 (the "First Amended 8-K") to provide the required financial information related to its acquisition of Trail II. The Company hereby amends the Current Report on Form 8-K/A filed on July 12, 2013, reporting events on and after June 14, 2013, to provide second quarter 2013 pro forma financial information.

UNAUDITED PRO FORMA CONSOLIDATED FINANCIAL STATEMENTS

The following unaudited pro forma consolidated financial statements have been prepared to provide pro forma information with regards to certain real estate acquisitions and financing transactions, as applicable.

The accompanying Unaudited Pro Forma Consolidated Statements of Operations of the Company are presented for the twelve months ended December 31, 2012 and the six months ended June 30, 2013 (the "Pro Forma Periods"), and include certain pro forma adjustments to illustrate the estimated effect of the Company's acquisitions and transactions as described in Note 1 as if they had occurred as of January 1, 2012. No pro forma Consolidated Balance Sheet is presented because the effects of the transactions are reflected in the consolidated historical financial statements included in the Company's Quarterly Report on Form 10-Q for the period ended June 30, 2013.

This pro forma consolidated financial information is presented for informational purposes only and does not purport to be indicative of the Company's financial results as if the transactions reflected herein had occurred on the date or been in effect during the period indicated. This pro forma consolidated financial information should not be viewed as indicative of the Company's financial results in the future and should be read in conjunction with the Company's financial statements as filed on Form 10-K for the year ended December 31, 2012 and on Form 10-Q for the interim period ended June 30, 2013.

Preferred Apartment Communities, Inc.
Notes to Unaudited Pro Forma Consolidated Financial Statements

1. Basis of Presentation

Preferred Apartment Communities, Inc., or the Company, was formed as a Maryland corporation on September 18, 2009, and has elected to be taxed as a real estate investment trust, or REIT, under the Internal Revenue Code of 1986, as amended (the "Code") effective with its tax year ended December 31, 2011. The Company was formed primarily to acquire and operate multifamily properties in select targeted markets throughout the United States. As part of its business strategy, the Company may enter into forward purchase contracts or purchase options for to-be-built multifamily communities and may make mezzanine loans, provide deposit arrangements, or provide performance assurances, as may be necessary or appropriate, in connection with the construction of multifamily communities and other properties. As a secondary strategy, the Company also may acquire or originate senior mortgage loans, subordinate loans or mezzanine debt secured by interests in multifamily properties, membership or partnership interests in multifamily properties and other multifamily related assets and invest not more than 10% of its total assets in other real estate related investments, as determined by its manager as appropriate for the Company. The Company is externally managed and advised by Preferred Apartment Advisors, LLC, or its Manager, a Delaware limited liability company and related party.

On January 17, 2013, the Company issued 40,000 shares of its Series B Convertible Preferred Stock, or Series B Preferred Stock, at a purchase price of \$1,000 per share through a private placement transaction. The net proceeds totaled approximately \$37.6 million after commissions. On May 9, 2013, the Series B Preferred Stock was automatically converted into shares of Common Stock at a conversion price of \$7.00 per common share and resulted in the issuance of 5,714,274 shares of Common Stock. The Series B Preferred Stock paid dividends at the same rate as those declared on our Common Stock, on an as-converted basis and these pro forma financial statements do not reflect the conversion into Common Stock.

On January 23, 2013, the Company acquired three multifamily communities from the Williams Multifamily Acquisition Fund, LP, a Delaware limited partnership, or MFA: McNeil Ranch, a 192 unit community in Austin, Texas, for approximately \$21.0 million; Lake Cameron, a 328 unit community in Raleigh, North Carolina, for approximately \$30.5 million; and Ashford Park, a 408 unit community in Atlanta, Georgia for approximately \$39.6 million. These three communities are referred to collectively as the Acquired MFA Properties.

On June 25, 2013, the Company acquired the 96 units which comprise the second phase of the Trail Creek multifamily community in Hampton, Virginia, or Trail II, which, combined with the first phase of the Trail Creek community contain a total of 300 units. In conjunction with the closing of the sale of the property, Oxford Hampton Partners LLC, or Hampton Partners, the seller of the Trail II property and also the borrower of the \$6.0 million Trail II mezzanine loan held by the Company, settled the principal balance, accrued interest, and the accrued exit fee due under the terms of the mezzanine loan of approximately \$283,000. The sum of the principal balance and the accrued exit fee was added to the consideration for the purchase of Trail II, which ultimately totaled approximately \$18.1 million. On the same day, the Company repaid the variable rate mortgage due on the Trail Creek property from April 2011 of approximately \$15.3 million and obtained a seven year, 4.22% fixed rate mortgage in the amount of approximately \$28.1 million, which is secured by the combined phases of the Trail Creek community.

The Pro Forma Consolidated Statements of Operations include five columns. The first column labeled "PAC REIT Historical" represents the actual results of operations for the year ended December 31, 2012 and the six months ended June 30, 2013 and include the results of the Acquired MFA Properties beginning with the acquisition date through June 30, 2013. The second column, entitled "Acquired MFA Properties" represents the actual revenues and expenses of those properties for the year ended December 31, 2012 and for the period of January 1, 2013, until the date of acquisition on January 23, 2013. The third column, entitled "Acquired Trail II" represents the actual revenues and expenses of the Trail II property for the year ended December 31, 2012 and for the period of January 1, 2013, through

June 30, 2013. The "Other" column represents the pro forma adjustments required to reflect the acquired properties as described in note 2.

The results presented on Pro Forma Consolidated Statements of Operations assume the acquisitions of Trail II and the Acquired MFA Properties all closed on January 1, 2012 and present pro forma operating results for the twelve months ended December 31, 2012 and the six months ended June 30, 2013. The Trail II community commenced business operations effective with the receipt of a certificate of occupancy on the first building in that phase and the signing of

the first leases by residents in March 2012. These pro forma financial statements should not be considered indicative of future results.

2. Adjustments to Unaudited Pro Forma Consolidated Statements of Operations

The adjustments to the Unaudited Pro Forma Consolidated Statement of Operations for the year ended December 31, 2012 are as follows:

(AA) Included in the Company's allocation of the MFA Acquired Properties' purchase prices to the fair values of assets and liabilities acquired were the values of below market leases, which totaled \$277,195. These liabilities were amortized in full into income during the pro forma twelve month period ended December 31, 2012. There were no such liabilities identified during the purchase price allocation related to the acquisition of Trail II.

(BB) Since the acquisition of Trail II is assumed to have occurred on January 1, 2012 on these Unaudited Pro Forma Consolidated Statements of Operations, the historical interest revenue related to the Trail II mezzanine loan earned during 2012 has been reversed.

(CC) Effective with the purchase of the MFA Acquired Properties and Trail II by the Company, the property management fee was increased from 3% of monthly gross rental income to 4% of monthly gross rental income, as stipulated in the Management Agreement. The pro forma adjustment reflects this additional cost burden on the MFA Acquired Properties' operations. During 2012, the Trail II property was still under construction, with the first building completed in March and the final building in August. During this period, the property was charged a management fee of 3% of revenues with a minimum charge of \$20 per unit per month. Since these combined charges were in excess of 4% of monthly gross rental income for the twelve months ended December 31, 2012, no pro forma adjustment was made.

(DD) Reflected in the pro forma adjustment is the Company's estimate of the depreciation and amortization charges that would have been recorded by the Company. The pro forma adjustment assumes a straight-line depreciation method using a 30 year life for MFA Acquired Properties' buildings, 40 year life for Trail II buildings, five to ten years for acquired building improvements and furniture fixtures and equipment, and for acquired intangible assets, approximately six months and seven months for the MFA Acquired Properties and Trail II, respectively, based upon the average remaining lease terms for acquired leases in place. The values of customer relationship intangible assets are amortized over the estimated remaining useful lives, which are estimated as the average remaining lease term plus the average estimated renewal period.

(EE) The estimated asset management fee is based on 0.5% of the total value of the Company's assets based on their adjusted cost before reduction for depreciation, amortization, impairment charges and cumulative acquisition costs charged to expense in accordance with GAAP (adjusted cost will include the purchase price, acquisition expenses, capital expenditures and other customarily capitalized costs).

(FF) Reflected in the pro forma adjustment is the Company's estimate of interest expense incurred on the debt financings used to acquire (i) the MFA Acquired Properties, based upon the actual fixed 3.13% interest rate that was negotiated when the loans closed on January 23, 2013, and (ii) Trail II, based upon the actual fixed 4.22% interest rate that was negotiated when the loan financing both phases closed on June 25, 2013. The interest rates negotiated result in a combined annual interest expense of approximately \$3.2 million. Included in this amount is annual amortization expense of loan origination costs of approximately \$71 thousand for the new Trail financing and approximately \$126 thousand for the MFA Acquired Properties. Aggregate loan origination costs were approximately \$1.4 million for the financings of the Trail II and the MFA Acquired Properties. The pro forma adjustment assumes a straight-line

amortization method, which approximates the effective yield method, assuming a 7 year term on the debt financings.

(GG) The terms of the Series B Preferred Stock include an option of conversion to Common Stock, conditional upon approval by the current holders of Common Stock, which occurred on May 9, 2013. From the date of issue until conversion, holders of the Series B Preferred Stock are entitled to dividends on a pro rata basis at the

F-5

Preferred Apartment Communities, Inc.
Notes to Unaudited Pro Forma Consolidated Financial Statements

same rate as dividends declared on the Company's Common Stock, calculated on an as-converted basis. For pro forma purposes, the Series B Preferred Stock was assumed to have been issued on January 1, 2012 to finance the acquisition of the MFA Acquired Properties. The Pro Forma Statement of Operations does not assume conversion to Common Stock during the twelve-month period ended December 31, 2012. The adjustment presented for dividends to preferred stockholders is calculated based upon the per-share Common Stock dividends actually declared during 2012, on 5,714,274 as-converted shares.

The adjustments to the Unaudited Pro Forma Consolidated Statement of Operations for the six-month period ended June 30, 2013 are as follows:

(AA) Since the acquisitions of the MFA Acquired Properties and Trail II are assumed to have been acquired on January 1, 2012 on these Unaudited Pro Forma Consolidated Statements of Operations, the historical interest income related to the Trail II mezzanine loan earned in the first six months of 2013 was reversed.

(BB) Effective with the purchase of the MFA Acquired Properties and Trail II by the Company, the property management fee was increased from 3% of monthly gross rental income to 4% of monthly gross rental income, as stipulated in the Management Agreement. The pro forma adjustments reflect this additional cost burden on the properties' operations.

(CC) Reflected in the pro forma adjustment is (i) the Company's estimate of the depreciation charges that would have been incurred by the MFA Acquired Properties for the period of January 1, 2013 through January 22, 2013, (ii) the removal of historical amortization expense related to acquired intangible assets for the MFA Acquired Properties and for Trail II that were fully amortized on a pro forma basis during 2012, and (iii) the Company's estimate of the depreciation charges that would have been incurred by the Trail II property for the period of January 1, 2013 through June 30, 2013.

(DD) The acquisition cost adjustment is made in order to remove the actual acquisition costs related to the property acquisitions reflected in the historical financial statements, since they are nonrecurring costs of the specific acquisitions.

(EE) The estimated asset management fee is based on 0.5% of the total value of the Company's assets based on their adjusted cost before reduction for depreciation, amortization, impairment charges and cumulative acquisition costs charged to expense in accordance with GAAP (adjusted cost will include the purchase price, acquisition expenses, capital expenditures and other customarily capitalized costs). In calculating the estimated asset management fee, the Company used the total assets from the June 30, 2013 pro forma balance sheet, as adjusted, plus the pro forma acquisition costs incurred on the MFA Acquired Properties and the Trail II property. In addition, a similar adjustment is included for general and administrative expense fees, recorded as 2% of gross revenues of the MFA Acquired Properties for the portion of 2013 preceding the acquisition date and 2% of the gross revenues of Trail II for the six months ended June 30, 2013.

(FF) Reflected in the pro forma adjustment is the Company's estimate of interest expense on the debt financings for the MFA Acquired Properties, based upon the actual fixed 3.13% interest rate that was negotiated when the loans closed on January 24, 2013, for the period of January 1, 2013 through January 22, 2013 and pro forma interest expense on the combined Trail property, based upon the actual fixed 4.22% interest rate that was negotiated when the loan financing both phases closed on June 25, 2013. The interest expense adjustments also include amortization of associated debt issuance costs. Aggregate loan issuance costs for the MFA Acquired Properties and the Trail II property totaled approximately \$1.4 million. In addition, the Company recorded a loss on the early extinguishment of mortgage debt it assumed with the acquisition of Trail II and subsequently refinanced. Since the Company assumes

for pro forma purposes that the refinancing on the combined Trail properties was to have occurred on January 1, 2012, an adjustment was made to eliminate the historical loss for pro forma purposes.

(GG) On January 3, 2013, the 106,988 outstanding Class B Units for 2012 became fully vested and earned and automatically converted to Class A Units of the Operating Partnership. As Class A Units, they became entitled to pro-rata distributions of profit and allocations of loss as non-controlling interests of the Operating Partnership. The

F-6

Preferred Apartment Communities, Inc.

Notes to Unaudited Pro Forma Consolidated Financial Statements

weighted-average percentage of ownership by the non-controlling interests was approximately 1.69% for the six-month period ended June 30, 2013. This adjustment reflects the pro-rata adjustment to the amount of net income (loss) attributable to the non-controlling interests.

(HH) This adjustment represents an accrual of dividends payable on the Series B Preferred Stock, at the same rate and frequency as Common Stock dividends and on an as-converted basis, for the period of January 1, 2013 through January 22, 2013. For pro forma purposes, the Series B Preferred Stock was assumed to have been issued on January 1, 2012 to finance the acquisition of the MFA Acquired Properties, and remained outstanding until its conversion to Common Stock, which occurred on May 16, 2013. The adjustment presented for dividends to preferred stockholders is calculated based upon the per-share Common Stock dividends actually declared, on 5,714,274 as-converted shares.
