Item 2.02. Results of Operations and Financial Condition.

On April 29, 2015, Brunswick Corporation (“Brunswick”) announced its financial results for the first quarter of 2015. The news release issued by Brunswick announcing its first quarter 2015 earnings is incorporated herein by reference and is included as Exhibit 99.1 to this Current Report on Form 8-K.

In the news release, Brunswick uses non-GAAP financial measures. For purposes of SEC Regulation G, a “non-GAAP financial measure” is a numerical measure of a registrant’s historical or future financial performance, financial position or cash flows that excludes amounts, or is subject to adjustments that have the effect of excluding amounts, that are included in the most directly comparable measure calculated and presented in accordance with GAAP in the statements of operations, balance sheets or statements of cash flows of the issuer; or includes amounts, or is subject to adjustments that have the effect of including amounts, that are excluded from the most directly comparable measure so calculated and presented. Operating and statistical measures and certain ratios and other statistical measures are not non-GAAP financial measures. GAAP refers to generally accepted accounting principles in the United States.

Brunswick has used certain of the financial measures that are included in the news release for several years, both in presenting its results to shareholders and the investment community and in its internal evaluation and management of its businesses. Brunswick’s management believes that these measures (including those that are non-GAAP financial measures) and the information they provide are useful to investors because they permit investors to view Brunswick’s performance using the same tools that Brunswick uses and to better evaluate Brunswick’s ongoing business performance. Brunswick’s management believes that the non-GAAP financial measure “free cash flow” is useful to investors because it is an indication of cash flow that may be available to fund investments in future growth initiatives. Brunswick defines free cash flow as cash flow from operating and investing activities (excluding cash provided by or used for acquisitions, investments, reductions in or transfers to restricted cash and purchases or sales/maturities of marketable securities) and the effect of exchange rate changes on cash and cash equivalents. The measure “diluted earnings per common share from continuing operations, as adjusted” is believed to be useful to investors because it represents a measure of Brunswick’s earnings, without the impact of pension settlement charges for lump sum payouts, restructuring, exit and impairment charges, loss on early extinguishment of debt, special tax items and the results of discontinued operations. Brunswick defines diluted earnings per common share from continuing operations, as adjusted, as diluted earnings (loss) per common share from continuing operations, excluding the earnings per share impact of pension settlement charges for lump sum payouts, restructuring, exit and impairment charges, loss on early extinguishment of debt, special tax items and the results of discontinued operations.

Percentage changes in net sales expressed in constant currency are presented excluding the impact from changes in currency exchange rates. To present this information, first quarter 2015 net sales transacted in currencies other than US dollars are translated to US dollars using first quarter 2014 exchange rates, computed by taking the average exchange rates in effect during the comparative period. The difference between the current period and prior period net sales using the consistent exchange rates reflects the changes in the underlying business trends, excluding the impact of translation arising from foreign currency exchange rate fluctuations.

The information in this report and the exhibit attached hereto shall not be deemed “filed” for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, or otherwise subject to the liabilities of that Section, nor shall it be deemed incorporated by reference into any filing under the Securities Act of 1933, as amended, except as expressly set forth by specific reference in such filing.

Item 9.01. Financial Statements and Exhibits.

(d) Exhibits:

Exhibit No. Description of Exhibit

99.1 News Release, dated April 29, 2015, of Brunswick Corporation, announcing its first quarter 2015 earnings.

---

SIGNATURE
