INNSUITES HOSPITALITY TRUST AND SUBSIDIARIES

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

AS OF APRIL 30, 2015 AND JANUARY 31, 2015

AND FOR THE THREE MONTHS ENDED APRIL 30, 2015 AND 2014

1. NATURE OF OPERATIONS AND BASIS OF PRESENTATION

As of April 30, 2015, InnSuites Hospitality Trust (the “Trust”, “we” or “our”) owns interests directly in and through a partnership interest, five hotels with an aggregate of 843 suites in Arizona, southern California and New Mexico (the “Hotels”). The Hotels operate under the trade name “InnSuites Hotels.”

Full service hotels often contain upscale full-service facilities with a large volume of full service accommodations, on-site full service restaurant(s), and a variety of on-site amenities such as swimming pools, a health club, children’s activities, ballrooms and on-site conference facilities. Moderate or limited service hotels are small to medium-sized hotel establishments that offer a limited amount of on-site amenities. Most moderate or limited service establishments may still offer full service accommodations but lack leisure amenities such as an on-site restaurant or a swimming pool. We consider one of our Tucson, Arizona hotels and our hotel located in Albuquerque, New Mexico, to be moderate or limited service establishments. All of our other properties are full service hotels.

The Trust is the sole general partner of RRF Limited Partnership, a Delaware limited partnership (the “Partnership”), and owned a 72.11% interest in the Partnership as of April 30, 2015 and January 31, 2015. The Trust’s weighted average ownership for the three month period ended April 30, 2015 and 2014 was 72.11% and 72.04%, respectively. As of April 30, 2015, the Partnership owned 100% of one InnSuites® hotel located in Tucson, Arizona, owned a 51.01% interest in another InnSuites® hotel located in Tucson, Arizona, and a 51.65% interest in an InnSuites® hotel located in Ontario, California. As of April 30, 2015, the Trust owned a direct 65.94% interest in a Yuma, Arizona hotel property, and a direct 50.73% interest in an InnSuites® hotel located in Albuquerque, New Mexico.

Under certain management agreements, InnSuites Hotels, our subsidiary, manages the Hotels’ daily operations. The Trust also provides the use of the “InnSuites” trademark to the Hotels through wholly-owned InnSuites Hotels. All such expenses and reimbursements between the Trust, InnSuites Hotels and the Partnership have been eliminated in consolidation.

InnDependent Boutique Collection (“IBC Hotels” or “IBC Developments”), a wholly owned subsidiary of InnSuites Hospitality Trust, has a network of approximately 6,300 unrelated hotel properties and provides revenue generating services and cost savings solutions to independent boutique hotels subscribing to the IBC system. During the fiscal year ended January 31, 2014 IBC Hotels formed a marketing alliance with the Independent Lodging Industry Association (“ILIA”).

## PARTNERSHIP AGREEMENT

The Partnership Agreement of the Partnership provides for the issuance of two classes of Limited Partnership units, Class A and Class B. Class A and Class B Partnership units are identical in all respects, except that each Class A Partnership unit is convertible into one newly-issued Share of Beneficial Interest of the Trust at any time at the option of the particular limited partner. The Class B Partnership units may only become convertible, each into one newly-issued Share of Beneficial Interest of the Trust, with the approval of the Board of Trustees, in its sole discretion. On April 30, 2015 and January 31, 2015, 276,131 Class A Partnership units were issued and outstanding, representing 2.09% of the total Partnership units, respectively. Additionally, as of both April 30, 2015 and January 31, 2015, 3,407,938 Class B Partnership units were outstanding to James Wirth, the Trust’s Chairman and Chief Executive Officer, and Mr. Wirth’s affiliates. If all of the Class A and B Partnership units were converted on April 30, 2015, the limited partners in the Partnership would receive 3,684,069 Shares of Beneficial Interest of the Trust. As of April 30, 2015 and January 31, 2015, the Trust owns 9,527,448 general partner units in the Partnership, representing 72.11% of the total Partnership units.

## LIQUIDITY

Our principal source of cash to meet our cash requirements, including distributions to our shareholders, is our share of the Partnership’s cash flow, quarterly distributions from the Albuquerque, New Mexico and Yuma, Arizona properties and more recently, sales of non-controlling interests in certain of our Hotels. The Partnership’s principal source of cash flow is hotel operations for the one hotel property it owns and quarterly distributions from the Tucson, Arizona and Ontario, California properties. Our liquidity, including our ability to make distributions to our shareholders, will depend upon our ability and the Partnership’s ability to generate sufficient cash flow from hotel operations and sales of non-controlling interests to service our debt.

Hotel operations are significantly affected by occupancy and room rates at the Hotels. As of April 30, 2015, the Trust had \$99,902 drawn on our \$600,000 line of credit. Our credit line matures on June 23, 2015 and we are currently in discussions with the bank and anticipate a renewal of at least an additional year on this line of credit. As of June 1, 2015, the outstanding balance drawn on the line of credit was \$528,000.

As of April 30, 2015, the Trust had a related party Demand/Revolving Line of Credit/Promissory Note with an amount payable of \$107,000. The Demand/Revolving Line of Credit/Promissory Note has interest at 7.0% per annum and is interest only quarterly. The Demand/Revolving Line of Credit/Promissory Note has a maximum borrowing capacity to \$1,000,000, which is available to December 31, 2017. As of June 8, 2015, the outstanding net balance payable on the Demand/Revolving Line of Credit/Promissory Note was \$777,494.

With the expected continued availability of the \$600,000 bank line of credit, which management expects to timely renew, the availability of the \$1,000,000 related party Demand/Revolving Line of Credit/Promissory Note, and the refinance or extension of one of our mortgage note payables that is due on July 28, 2015, which management expects to occur, management believes that it will have enough cash on hand and financing available to meet all of our obligations as they become due for at least the next year. In addition, our management is analyzing other strategic options available to us, including the refinancing of another property or raising additional funds through additional non-controlling interest sales; however, such transactions may not be available on terms that are favorable to the Trust.

There can be no assurance that we will be successful in obtaining extensions, refinancing debt or raising additional or replacement funds, or that these funds may be available on terms that are favorable to us. If we are unable to raise additional or replacement funds, we may be required to sell certain of our assets to meet our liquidity needs, which may not be on terms that are favorable.

#### BASIS OF PRESENTATION

These unaudited condensed consolidated financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information related to the Trust's organization, significant accounting policies and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States ("GAAP") has been condensed or omitted. The accounting policies followed in the preparation of these unaudited condensed consolidated financial statements are consistent with those followed in the Trust's annual consolidated financial statements for the year ended January 31, 2015, as filed on Form 10-K. In the opinion of management, these unaudited condensed consolidated financial statements contain all material adjustments, consisting only of normal recurring adjustments, necessary to fairly state our financial position, results of operations and cash flows for the periods presented and the presentations and disclosures herein are adequate when read in conjunction with the Trust's Form 10-K for the year ended January 31, 2015.

As sole general partner of the Partnership, the Trust exercises unilateral control over the Partnership, and the Trust owns all of the issued and outstanding classes of shares of InnSuites Hotels. Therefore, the financial statements of the Partnership and InnSuites Hotels are consolidated with the Trust, and all significant intercompany transactions and balances have been eliminated.

## SEASONALITY OF THE HOTEL BUSINESS

The Hotels' operations historically have been somewhat seasonal. The three southern Arizona hotels experience their highest occupancy in the first fiscal quarter and, to a lesser extent, the fourth fiscal quarter. The second fiscal quarter tends to be the lowest occupancy period at those three southern Arizona hotels. This seasonality pattern can be expected to cause fluctuations in the Trust's quarterly revenues. The two hotels located in California and New Mexico historically experience their most profitable periods during the second and third fiscal quarters (the summer season), providing some balance to the general seasonality of the Trust's hotel business.

The seasonal nature of the Trust's business increases its vulnerability to risks such as labor force shortages and cash flow issues. Further, if an adverse event such as an actual or threatened terrorist attack, international conflict, data breach, regional economic downturn or poor weather conditions should occur during the first or fourth fiscal quarters, the adverse impact to the Trust's revenues could likely be greater as a result of its southern Arizona seasonal business.

It is too early to determine what the seasonality of the IBC business segment is. The Trust does not anticipate much seasonality due to the diversification of the location of the IBC Hotels.

## RECENTLY ISSUED ACCOUNTING GUIDANCE

In August 2014, the FASB issued ASU No. 2014-15, "Presentation of Financial Statements – Going Concern (Subtopic 205-40) Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern" ("ASU 2014-15"). Under GAAP, continuation of a reporting entity as a going concern is presumed as the basis for preparing financial statements unless and until the entity's liquidation becomes imminent. Preparation of financial statements under this presumption is commonly referred to as the going concern basis of accounting. If and when an entity's liquidation becomes imminent, financial statements should be prepared under the Liquidation Basis of Accounting. Even if an entity's liquidation is not imminent, there may be conditions or events that raise substantial doubt about the entity's ability to continue as a going concern. In those situations, financial statements should continue to be prepared under the going concern basis of accounting, but the amendments in ASU 2014-15 require additional disclosure of information about the relevant conditions and events. The amendments in ASU 2014-15 are effective for annual periods ending after December 15, 2016, and for annual periods and interim periods thereafter. Early application is permitted. The Trust is currently evaluating the potential impact of the adoption of this guidance on its consolidated financial statements, but does not expect there to be a material impact at this time.

In June 2014, the FASB issued ASU No. 2014-12, “Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could Be Achieved after the Requisite Service Period” (“ASU 2014-12”). The amendments in ASU 2014-12 require that a performance target that affects vesting and that could be achieved after the requisite service period be treated as a performance condition. A reporting entity should apply existing guidance in Accounting Standards Codification Topic No. 718, “Compensation—Stock Compensation” (“ASC 718”), as it relates to awards with performance conditions that affect vesting to account for such awards. The amendments in ASU 2014-12 are effective for annual periods and interim periods within those annual periods beginning after December 15, 2015. Early adoption is permitted. Entities may apply the amendments in ASU 2014-12 either: (i) prospectively to all awards granted or modified after the effective date; or (ii) retrospectively to all awards with performance targets that are outstanding as of the beginning of the earliest annual period presented in the financial statements and to all new or modified awards thereafter. The Trust is currently evaluating the potential impact of the adoption of this guidance on its consolidated financial statements, but does not expect there to be a material impact at this time.

In May 2014, the FASB issued ASU No. 2014-09, “Revenue from Contracts with Customers (Topic 606)” (“ASU 2014-09”). The core principle of ASU 2014-09 is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. To achieve that core principle, ASU 2014-09 provides for the following steps: (i) identify the contract(s) with a customer; (ii) identify the performance obligations in the contract; (iii) determine the transaction price; (iv) allocate the transaction price to the performance obligations in the contract; and (v) recognize revenue when (or as) the entity satisfies a performance obligation. ASU 2014-09 supersedes the revenue recognition requirements in Accounting Standards Codification Topic No. 605, “Revenue Recognition,” most industry-specific guidance throughout the industry topics of the Accounting Standards Codification, and some cost guidance related to construction-type and production-type contracts. ASU 2014-09 is effective for public entities for annual periods and interim periods within those annual periods beginning after December 15, 2016. Early adoption is not permitted. Companies may use either a full retrospective or a modified retrospective approach to adopt ASU 2014-09. The Trust is currently evaluating the potential impact of the adoption of this guidance on its consolidated financial statements.

In February, 2015, the FASB issued ASU No. 2015-02, “Consolidation (Topic 810): Amendments to the Consolidation Analysis”. This will improve certain areas of consolidation guidance for reporting organizations that are required to evaluate whether to consolidate certain legal entities such as limited partnerships, limited liability corporations, and securitization structures. ASU 2015-02 simplifies and improves GAAP by: eliminating the presumption that a general partner should consolidate a limited partnership, eliminating the indefinite deferral of FASB Statement No. 167, thereby reducing the number of Variable Interest Entity (VIE) consolidation models from four to two (including the limited partnership consolidation model) and clarifying when fees paid to a decision maker should be a factor to include in the consolidation of VIEs. ASU 2015-02 will be effective for periods beginning after December 15, 2015. The Trust is currently evaluating the potential impact of the adoption of this guidance on its consolidated financial statements.

In April 2015, the FASB issued ASU No. 2015-03, “Simplifying the Presentation of Debt Issuance Costs”. The ASU changes the presentation of debt issuance costs in financial statements. Under the ASU, an entity presents such costs in the balance sheet as a direct deduction from the related debt liability rather than as an asset. Amortization of the

costs is reported as interest expense. The ASU specifies that “issue costs shall be reported in the balance sheet as a direct deduction from the face amount of the note” and that “amortization of debt issue costs shall also be reported as interest expense.” According to the ASU’s Basis for Conclusions, debt issuance costs incurred before the associated funding is received (i.e., the debt liability) should be reported on the balance sheet as deferred charges until that debt liability amount is recorded. For public business entities, the guidance in the ASU is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2015. For entities other than public business entities, the guidance is effective for fiscal years beginning after December 15, 2015, and interim periods beginning after December 15, 2016. Early adoption is allowed for all entities for financial statements that have not been previously issued. Entities would apply the new guidance retrospectively to all prior periods (i.e., the balance sheet for each period is adjusted). The Trust is currently evaluating the potential impact of the adoption of this guidance on its consolidated financial statements.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### USE OF ESTIMATES

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

The Trust's operations are affected by numerous factors, including the economy, competition in the hotel industry and the effect of the economy on the travel and hospitality industries. The Trust cannot predict if any of the above items will have a significant impact in the future, nor can it predict what impact, if any, the occurrence of these or other events might have on the Trust's operations and cash flows. Significant estimates and assumptions made by management include, but are not limited to, the estimated useful lives of long-lived assets and estimates of future cash flows used to test a long-lived asset for recoverability and the fair values of the long-lived assets.

## REVENUE RECOGNITION

Staff Accounting Bulletin ("SAB") No. 104, "Revenue Recognition" summarizes the SEC's views in applying GAAP to revenue recognition in financial statements. SAB No. 104 establishes the SEC's view that it is not appropriate to recognize revenue until all of the following criteria are met: persuasive evidence that an arrangement exists; delivery has occurred or services have been rendered; the seller's price to the buyer is fixed or determinable; and collectability is reasonably assured. Further, SAB No. 104 requires that both title and the risks and rewards of ownership be transferred to the buyer before revenue can be recognized. We believe that our revenue recognition policies as described below are in compliance with SAB No. 104.

Revenues are primarily derived from the following sources and are recognized as services are rendered and when collectability is reasonably assured. Amounts received in advance of revenue recognition are considered deferred liabilities.

Revenues primarily consist of room rentals, food and beverage sales, management and trademark fees and other miscellaneous revenues from our properties. Revenues are recorded when rooms are occupied and when food and beverage sales are delivered. Management and trademark fees from hotels include a monthly accounting fee and a percentage of hotel room revenues for managing the daily operations of the Hotels and the three hotels owned by affiliates of Mr. Wirth. IBC Development revenues are recognized after services are rendered by the IBC member hotel.

We are required to collect certain taxes and fees from customers on behalf of government agencies and remit these back to the applicable governmental agencies on a periodic basis. We have a legal obligation to act as a collection agent. We do not retain these taxes and fees and, therefore, they are not included in revenues. We record a liability when the amounts are collected and relieve the liability when payments are made to the applicable taxing authority or other appropriate governmental agency.

Based on our policy, we believe our revenues are recognized when persuasive evidence of an arrangement exists, delivery has occurred or services have been rendered, the seller's price to the buyer is fixed or determinable, and the

collectability of our revenues are reasonably assured.

#### INCOME PER SHARE

Basic and diluted income per Share of Beneficial Interest is computed based on the weighted-average number of Shares of Beneficial Interest and potentially dilutive securities outstanding during the period. Dilutive securities are limited to the Class A and Class B units of the Partnership, which are convertible into 3,684,069 Shares of the Beneficial Interest, as discussed in Note 1.

At the beginning of each period, the aggregate weighted-average of these Shares of Beneficial Interest for units of the Partnership would have been 3,684,069 and 3,693,972, respectively. These Shares of Beneficial Interest issuable upon conversion of the Class A and Class B Partnership units were anti-dilutive during the three month period ended April 30, 2015 and 2014. Therefore no reconciliation of basic and diluted income per share is presented.

#### SEGMENT REPORTING

During the fourth quarter of fiscal year 2015, the Trust determined that its operations are comprised of two reportable segments, a Hotel Operations & Corporate Overhead segment that has ownership interest in five hotel properties with an aggregate of 843 suites in Arizona, southern California and New Mexico, and the IBC Developments segment serving 6,300 unrelated hotel properties. The Trust has a concentration of assets in the southwest United States, and the southern Arizona market. Consistent with the change in reportable segments, the Trust revised its prior period financial information for the new segment structure. Historical financial information presented in this Form 10-Q reflects this change. On an overall basis, the Trust has elected to only put the costs directly attributable to the IBC Developments in that segment. Included in these costs are sales, marketing and technology development costs.

IBC Hotels was formed during the fiscal year ended January 31, 2014. Operating results became significant during the fiscal year ended January 31, 2015. IBC Hotels charges a 10% booking fee which, we believe, increases the independent hotel profits. Competitors of IBC Hotels can charge anywhere from a 30% to 50% booking fee. InnDependent InnCentives, IBC's loyalty program, allows hoteliers to benefit from guests who frequently stay at IBC independent hotels. We are planning significant expansion of IBC Hotels during the next couple of fiscal years as we concentrate our sales and marketing efforts towards consumers, but can provide no assurance that we will be successful.

The Chief Operating Decision Maker ("CODM"), the Trust's CEO, Mr. Wirth, does not see any value in allocating costs for items not directly attributable to the IBC Developments segment for several reasons. The first is that the Trust's base business is the Hotel Operations & Corporate Overhead segment, and the majority of the expenses of the Trust would continue even if the Trust was not in the reservation business. If the Trust were to allocate general expenses to the reservation business based on some allocation method (e.g. on sales), it would not improve the value of segment reporting, it would only serve to make the results of the Hotel Operations & Corporate Overhead segment look better and give investors a false sense of the profitability of the Hotel Operations & Corporate Overhead segment without the IBC Developments segment. The CODM wants to understand the true investment in the reservation business and that result is delivered by allocating only costs directly associated with the IBC Developments segment. By retaining the remainder of costs not associated with the IBC Developments segment in the Hotel Operations & Corporate Overhead segment, the Trust is able to compare the Hotel Operations & Corporate Overhead segment to historical figures where the bulk of the business was only that segment of operations to gauge relative efficiency of the Hotel Operations & Corporate Overhead segment as compared to historical norms.

The Trust has chosen to focus its hotel investments in the southwest region of the United States. The CODM does not review assets by geographical region therefore, no income statement or balance sheet information by geographical region is provided.

## STOCK OPTIONS

Effective February 5, 2015, the Board of Trustees of the Trust adopted the 2015 Equity Incentive Plan (“2015 Plan”), subject to shareholders approval, under which up to 1,600,000 Shares of Beneficial Interest of the Trust are authorized to be issued pursuant to grant of stock options, stock appreciation rights, restricted shares, restricted share units or other awards. The purpose of the 2015 Plan and the awards described below is to promote the interests of the Trust and its shareholders by providing certain employees and members of the Board of Trustees, who are largely responsible for the management and growth of the subsidiary of the Trust, IBC Hotels, LLC, with incentives and rewards to encourage them to continue in the service of the Trust.

The Board of Trustees of the Trust approved a Nonqualified Stock Option Agreement (“2015 Plan Agreement”) to be used for all stock option awards. The 2015 Plan Agreement provides the grantee a four-year option to purchase a set number of Shares of Beneficial Interest of the Trust at an exercise price of \$3.50 per share, exercisable to the extent the stock options vest and GAAP pre-tax profits of IBC Hotels, LLC are greater than or equal to performance objectives described in the 2015 Plan agreement. For purposes of the 2015 Plan Agreement, a “Tranche” is the number of Shares for which the Stock Option has vested on a particular vesting date. The 2015 Plan Agreement has the following vesting schedule:

Tranche	Shares for which the Stock Option is Vested	Vesting Date
A	1/3	5/17/2016
B	1/3	2nd anniversary of the Date of Grant
C	1/3	3rd anniversary of the Date of Grant

Stock options will become immediately vested in full if, prior to a vesting date (i) the grantee ceases to be employed by the Trust or its subsidiaries by reason of death or disability or (ii) a change of control occurs while the grantee is employed by the Trust or any of its subsidiaries. Vested tranches become exercisable as set forth below to the extent that the GAAP pre-tax profit of IBC Hotels LLC is greater than or equal to the performance objective for the applicable performance period as described below.

Performance Period (Fiscal Year Ending)	Performance Objective (GAAP pre-tax profit of IBC Hotels LLC)	Exercisable Tranche(s)
1/31/2016	\$ 60,000	A
1/31/2017	\$ 200,000	A and B
1/31/2018	\$ 400,000	A, B, and C

On February 5, 2015, the Board of Trustees of the Trust granted to Pamela Barnhill, President, Vice Chairperson of the Board of Trustees and Chief Operating Officer of the Trust and IBC Hotels Founder and President, pursuant to the 2015 Plan and 2015 Plan Agreement, an option to purchase of 1,000,000 Shares of Beneficial Interest of the Trust. On April 24, 2015, the Board of Trustees of the Trust granted to James Wirth, Chairman of the Board of Trustees and Chief Executive Officer of the Trust, Marc Berg, Executive Vice President and Trustee and Adam Remis, Chief Financial Officer of the Trust, pursuant to the Trust’s 2015 Plan and 2015 Plan Agreement, each an option for the purchase of 60,000 Shares of Beneficial Interest of the Trust. On April 24, 2015, the Board of Trustees of the Trust also granted to each of our Trustees who are expected to continue to serve on the Board of Trustees through the vesting period, each an option to purchase of 10,000 Shares of Beneficial Interest of the Trust as well as to key operational staff options for the purchase Shares of Beneficial Interest. The number of options granted to each key operational staff was based on InnSuites employment history and their direct IBC Hotels involvement. A total of 1,434,500 stock options were granted during the first quarter of fiscal year 2016. The options are subject to

shareholder approval. Consistent with ASC 718-10-55-10, compensation cost associated with issuance of these options has not been recognized as shareholder approval is not perfunctory.

InnSuites Hotels has entered into membership agreements with Best Western International, Inc. ("Best Western") with respect to four of the Hotels. In exchange for use of the Best Western name, trademark and reservation system, the participating Hotels pay fees to Best Western based on reservations received through the use of the Best Western reservation system and the number of available suites at the participating Hotels. The agreements with Best Western have no specific expiration terms and may be cancelled by either party. Best Western requires that the participating hotels meet certain requirements for room quality, and the Hotels are subject to removal from its reservation system if

these requirements are not met. The Hotels with third-party membership agreements received significant reservations through the Best Western reservation system. Under these arrangements, fees paid for membership fees and reservations were approximately \$83,000 and \$88,000 for the three months ended April 30, 2015 and 2014, respectively.

The nature of the operations of the Hotels exposes them to risks of claims and litigation in the normal course of their business. Although the outcome of these matters cannot be determined and is covered by insurance, management does not expect that the ultimate resolution of these matters will have a material adverse effect on the consolidated financial position, results of operations or liquidity of the Trust.

The Trust is involved from time to time in various other claims and legal actions arising in the ordinary course of business. In the opinion of management, the ultimate disposition of these matters will not have a material adverse effect on the Trust's consolidated financial position, results of operations or liquidity.

## 9. SEGMENT REPORTING

In the fourth quarter of fiscal year 2015, the Trust determined that its reportable segments are the Hotel Operations & Corporate Overhead and IBC Developments segments. Reportable segments are determined based on discrete financial information reviewed by the Trust's CODM. The Trust organizes and reviews operations based on products and services, and currently there are no operating segments that are aggregated. Consistent with the change in reportable segments, the Trust revised its prior period financial information for the new segment structure. Historical financial information presented in this Form 10-Q reflects this change.

All other terms of the agreement remain the same. Management anticipates refinancing this note on or about July 28, 2015, but can provide no assurance that it will be successful in doing so.

On April 24, 2015, the Trust and Partnership entered into a restructuring agreement with Rare Earth to allow for the sale of non-controlling interest units in Tucson Saint Mary's entity, which operates one of the Tucson, Arizona hotel properties, then wholly-owned by the Partnership which was filed as Exhibit 10.43 of the Registrant's Annual Report Form 10-K filed April 30, 2015. On May 30, 2015, the restructuring agreement was amended to clarify the requirement that the Trust's shareholders must approve the conversion rights.

## ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

### GENERAL

The following discussion should be read in conjunction with our unaudited condensed consolidated financial statements and notes thereto appearing elsewhere in this Form 10-Q and our Form 10-K for the fiscal year ended January 31, 2015.

Our principal source of cash to meet our cash requirements, including distributions to our shareholders, is our share of the Partnership's cash flow, quarterly distributions from the Albuquerque, New Mexico and Yuma, Arizona properties and more recently, sales of non-controlling interest in certain of our Hotels. The Partnership's principal source of revenue is hotel operations for the one hotel property it owns and quarterly distributions from the Tucson, Arizona and Ontario, California properties. Our liquidity, including our ability to make distributions to our shareholders, will depend upon our ability, and the Partnership's ability, to generate sufficient cash flow from hotel operations and to service our debt.

### CRITICAL ACCOUNTING POLICIES AND ESTIMATES

In our Annual Report on Form 10-K for the fiscal year ended January 31, 2015, we identified the critical accounting policies that affect our more significant estimates and assumptions used in preparing our condensed consolidated financial statements. We believe that the policies we follow for the valuation of our Hotel properties, which constitute the majority of our assets, are our most critical policies. Those policies include methods used to recognize and measure any identified impairment of our Hotel property assets. There have been no material changes to our critical accounting policies since January 31, 2015.

### HOTEL PROPERTIES

Our long-term strategic plan is to obtain the full benefit of our real estate equity and to migrate our focus from a hotel owner to a hospitality service company by expanding our trademark license, management, reservation, and advertising services, through IBC Hotels, a wholly-owned subsidiary of the Trust. As of April 30, 2015, IBC Hotels provided services to approximately 6,300 hotels. During the fiscal year ending January 31, 2014, IBC Hotels formed a marketing alliance with ILIA.

We are planning significant expansion of IBC Hotels during the next couple of fiscal years as we concentrate our sales and marketing efforts towards consumers. We anticipate the IBC Hotels sales and marketing efforts to increase our revenues and decrease our consolidated net loss over the next couple of fiscal years. For each reservation, IBC Hotels receives a 10% transactional fee plus reimbursement of our credit card processing fees associated with the reservation. We cannot provide any assurance that our plans will be successful or in line with our expectations.

This plan is similar to strategies followed by internationally diversified hotel industry leaders, which over the last several years have reduced real estate holdings and concentrated on hospitality services. We began our long-term corporate strategy when we relinquished our REIT income tax status in January 2004, which had previously prevented us from providing management services to hotels. In June 2004, we acquired our trademark license and management agreements and began providing management, trademark and reservations services to our Hotels.

We expect to use proceeds from the sale of the Hotels, if any, as needed to support hospitality service operations as cash flow from current operations, primarily the rental of hotel rooms, declines with the sale of the Hotels.

The table below lists the Hotel properties, their respective carrying and mortgage value and the listed asking price for the hotel properties.

<b>Hotel Property</b>	<b>Book Value</b>	<b>Mortgage Balance</b>	<b>Listed Asking Price</b>
Albuquerque	\$1,230,778	\$-	\$6,900,000
Ontario	5,696,707	5,534,851	14,900,000
Tucson Oracle	6,450,357	3,419,585	11,200,000
Tucson St. Mary's	7,354,093	4,811,569	10,900,000
Yuma	5,032,985	5,185,130	12,500,000
	\$25,764,920	\$18,951,135	\$56,400,000

The listed asking price is the amount at which we would sell each of the Hotels and is based on the original listed selling price adjusted to reflect recent hotel sales in the Hotels' areas of operation and current earnings of each of the Hotels. The listed asking price is not based on appraisals of the properties.

COMPLIANCE WITH CONTINUED LISTING STANDARDS OF NYSE MKT

The history of our compliance with the continued listing standards of the NYSE MKT is described in our Form 10-K Annual Report filed on April 30, 2015 under “Item 7 Management Discussion and Analysis of Financial Condition and Results of Operations”.

On September 19, 2014, the NYSE MKT notified the Trust that it is not in compliance with Section 1003(a)(i) of the NYSE MKT Company Guide since it reported Stockholders’ Equity of less than \$2.0 million at July 31, 2014 and has incurred losses in two of its three fiscal years ended January 31, 2014. The NYSE has accepted Trusts’ equity expansion compliance plan and has granted the Trust an extension of time until December 29, 2015 to comply with Sections 1003(a)(i), 1003(a)(ii) and 1003(a)(iii) of the NYSE MKT Company Guide.

The Trust will continue to be subject to periodic reviews by the NYSE MKT’s staff during this period. Failure to make progress consistent with the Plan or regain compliance with all continued listing standards of the NYSE MKT by the end of the plan period could result in the Trust being delisted from the NYSE MKT.

#### NON-GAAP FINANCIAL MEASURES

The following non-GAAP presentations of earnings before interest taxes depreciation and amortization (“EBITDA”) and funds from operations (“FFO”) are made to assist our investors in evaluating our operating performance.

Adjusted EBITDA is defined as earnings before minority interest, interest expense, amortization of loan costs, interest income, income taxes, depreciation and amortization, and non-controlling interests in the Trust. We present Adjusted EBITDA because we believe these measurements (a) more accurately reflect the ongoing performance of our hotel assets and other investments, (b) provide more useful information to investors as indicators of our ability to meet our future debt payment and working capital requirements, and (c) provide an overall evaluation of our financial condition. Adjusted EBITDA as calculated by us may not be comparable to Adjusted EBITDA reported by other companies that do not define Adjusted EBITDA exactly as we define the term. Adjusted EBITDA does not represent cash generated from operating activities determined in accordance with GAAP and should not be considered as an alternative to (a) GAAP net income or loss as an indication of our financial performance or (b) GAAP cash flows from operating activities as a measure of our liquidity.

A reconciliation of Adjusted EBITDA to net income attributable to controlling interests for the three months ended April 30, 2015 and 2014 follows:

	<b>Three Months Ended</b>	
	<b>April 30,</b>	
	<b>2015</b>	<b>2014</b>
Net income attributable to controlling interests	\$206,532	\$60,675
Add back:		
Depreciation	456,269	444,041
Interest expense	265,330	185,189
Non-controlling interest	200,623	223,362
Taxes	41,570	30,740
Less:		
Interest income	(4 )	(2,356 )
<b>ADJUSTED EBITDA</b>	<b>\$1,170,320</b>	<b>\$941,651</b>

FFO is calculated on the basis defined by the National Association of Real Estate Investment Trusts (“NAREIT”), which is net income (loss) attributable to common shareholders, computed in accordance with GAAP, excluding gains or losses on sales of properties, asset impairment adjustments, and extraordinary items as defined by GAAP, plus depreciation and amortization of real estate assets, and after adjustments for unconsolidated joint ventures and non-controlling interests in the operating partnership. NAREIT developed FFO as a relative measure of performance of an equity REIT to recognize that income-producing real estate historically has not depreciated on the basis determined by GAAP. The Trust is an unincorporated Ohio real estate investment trust; however, the Trust is not a real estate investment trust for federal taxation purposes. Management uses this measurement to compare itself to REITs with similar depreciable assets. We consider FFO to be an appropriate measure of our ongoing normalized operating performance. We compute FFO in accordance with our interpretation of standards established by NAREIT, which may not be comparable to FFO reported by other companies that either do not define the term in accordance with the current NAREIT definition or interpret the NAREIT definition differently than us. FFO does not represent cash generated from operating activities as determined by GAAP and should not be considered as an alternative to (a) GAAP net income or loss as an indication of our financial performance or (b) GAAP cash flows from operating activities as a measure of our liquidity, nor is it indicative of funds available to satisfy our cash needs, including our ability to make cash distributions. However, to facilitate a clear understanding of our historical operating results, we believe that FFO should be considered along with our net income or loss and cash flows reported in the consolidated financial statements.

A reconciliation of FFO to net income attributable to controlling interests for the three months ended April 30, 2015 and 2014 follows:

**Three Months  
Ended April 30,**

	<b>2015</b>	<b>2014</b>
Net income attributable to controlling interest	\$206,532	\$60,675
Add back:		
Depreciation	456,269	444,041
Non-controlling interest	200,623	223,362
FFO	\$863,424	\$728,078

## RESULTS OF OPERATIONS

Our expenses consist primarily of property taxes, insurance, corporate overhead, interest on mortgage debt, professional fees, depreciation of the Hotels and hotel operating expenses. Hotel operating expenses consist primarily of payroll, guest and maintenance supplies, marketing and utilities expenses. Under the terms of its Partnership Agreement, the Partnership is required to reimburse us for all such expenses. Accordingly, management believes that a review of the historical performance of the operations of the Hotels, particularly with respect to occupancy, which is calculated as rooms sold divided by total rooms available, average daily rate (“ADR”), calculated as total room revenue divided by number of rooms sold, and revenue per available room (“REVPAR”), calculated as total room revenue divided by number of rooms available, is appropriate for understanding revenue from the Hotels. In the first three months of fiscal year 2016, occupancy decreased 0.86% to 73.18% from 74.04% in the first three months of the prior fiscal year. ADR increased by \$4.27, or 5.66%, to \$79.70 during the first three months of fiscal year 2016 from \$75.43 in the first three months of fiscal year 2015. The decreased occupancy and the increased ADR resulted in an increase in REVPAR of \$2.47, or 4.43%, to \$58.32 in the first three months of fiscal year 2016 from \$55.85 in the first three months of fiscal year 2015. Due to slowly improving economic and travel industry conditions, we were able to increase our rates to offset slightly reduced occupancy rates.

The following table shows certain historical financial and other information for the periods indicated:

	<b>For the Three Months Ended April 30,</b>	
	<b>2015</b>	<b>2014</b>
Occupancy	73.18%	74.04%
Average Daily Rate (ADR)	\$79.70	\$75.43
Revenue Per Available Room (REVPAR)	\$58.32	\$55.85

No assurance can be given that occupancy, ADR and REVPAR will not increase or decrease as a result of changes in national or local economic or hospitality industry conditions or other factors.

Revenue:

Hotel Operations & Corporate Overhead Segment

For the three months ended April 30, 2015, we had total revenue of approximately \$4,922,000 compared to approximately \$4,716,000 for the three months ended April 30, 2014, an increase of approximately \$206,000. With an improved economy, especially in the Yuma, Arizona and Ontario, California markets, we realized an overall 4.4% increase in room revenues during the first quarter of fiscal year 2016 as room revenues were approximately \$4,376,000 for the first three months of fiscal year 2016 as compared to approximately \$4,191,000 during the first three months of fiscal year 2015. Food and beverage revenue was approximately \$413,000 for the first three months of fiscal year 2016 as compared to approximately \$394,000 for the first three months of fiscal year 2015, an increase of approximately \$19,000. During the remainder of fiscal year 2016, we expect improvements in occupancy, modest improvements in rates and steady food and beverage revenues. We also realized a 4.4% increase in management and trademark fee revenues during the first three months of fiscal year 2016 as management and trademark revenues were approximately \$86,000 during the first three months of fiscal year 2016 as compared to approximately \$82,000 during first three months of fiscal year 2015. Management and trademark fee revenues increased during fiscal year 2016 as a result of increased revenues in the three hotels owned by Mr. Wirth. During the remainder of fiscal year 2016, we expect management and trademark fee revenues to decrease as Mr. Wirth sold one of his hotels, which will put significant pressure on our Management and Trademark Fee revenues as management and trademark revenues are primarily collected from Mr. Wirth's three hotels.

IBC Developments Segment

For the three months ended April 30, 2015, we had total revenue of approximately \$114,000 compared to approximately \$10,000 for the three months ended April 30, 2014, an increase of approximately \$104,000. We anticipate strong growth in this segment over the next several fiscal years but can provide no assurances regarding such growth.

Expenses:

Hotel Operations & Corporate Overhead Segment

Total operating expenses of approximately \$4,222,000 for the three months ended April 30, 2015 reflect an increase of approximately \$21,000 compared to total operating expenses of approximately \$4,201,000 for the three months

ended April 30, 2014. The increase was primarily due to an increase in operating expenses at the hotel properties for our rooms and food and beverage expenses.

Room expenses, consisting of salaries and related employment taxes for property management, front office, housekeeping personnel, reservation fees and room supplies, were approximately \$1,168,000 for the three months ended April 30, 2015 compared to approximately \$1,058,000 for the three months ended April 30, 2014 for approximately a \$110,000, or 10.4%, increase in costs. Management elected to deep clean and repair the hotel property rooms as occupancy decreased, which, we believe, should increase the marketability of our properties.

Food and beverage expenses included food and beverage costs, personnel and miscellaneous costs to provide banquet events. For the fiscal quarter ended April 30, 2015, food and beverage expenses were approximately \$302,000 as compared to approximately \$266,000 for the fiscal quarter ended April 30, 2014, an increase of approximately \$36,000, or 13.5%. The increase during the first fiscal quarter of 2016 as compared to the first fiscal quarter of 2015 corresponded with the increase in food and beverage revenues over the same period.

Telecommunications expense, consisting of telephone and Internet costs, were relatively flat for the fiscal quarter ended April 30, 2015 at approximately \$7,500 as compared to the fiscal quarter ended April 30, 2014 at approximately \$7,800. Management anticipates this will be consistent for the fiscal year 2016.

General and administrative expenses include overhead charges for management, accounting, shareholder and legal services. General and administrative expenses of approximately \$866,000 for the three months ended April 30, 2015 decreased approximately \$81,000 from approximately \$947,000 for the three months ended April 30, 2014 primarily due to decrease in overhead and closer monitoring of spending.

Sales and marketing expense increased approximately \$41,000, or 15.0%, to approximately \$315,000 for the three months ended April 30, 2015 from approximately \$274,000 for the three months ended April 30, 2014. The increase was due to additional use of online booking agencies.

Repairs and maintenance expense slightly decreased by approximately \$17,000 from approximately \$362,000 reported for the three months ended April 30, 2014 compared with approximately \$345,000 for the three months ended April 30, 2015. We continue to focus on maintaining our properties and completing ongoing repairs and maintenance initiatives to ensure that the hotel product exceeds our guests' expectation.

Hospitality expense decreased by approximately \$17,000, or 6.1%, from \$277,000 for the three months ended April 30, 2014 to approximately \$260,000 for the three months ended April 30, 2015. The decrease was primarily due to the decrease in occupancy during that same period.

Utility expenses increased approximately \$14,000 from approximately \$304,000 reported for the three months ended April 30, 2014 compared with approximately \$318,000 for the three months ended April 30, 2015. Increased utility costs occurred in our Tucson St. Mary's property due to leaks.

Hotel property depreciation expense remained relatively flat at approximately \$449,000 for the three months April 30, 2015 as compared to approximately \$444,000 for the three months ended April 30, 2014.

Real estate and personal property taxes, insurance and ground rent expense decreased by approximately \$64,000, or 26.0%, from approximately \$246,000 for the three months ended April 30, 2014 to approximately \$182,000 for the three months ended April 30, 2015 as last fiscal year we purchased the land under one of our Tucson, Arizona properties, which no longer required us to pay for a land lease.

Interest expenses were approximately \$265,000 for the three months ended April 30, 2015, an increase of approximately \$80,000 from the interest expenses for the three months ended April 30, 2014 of approximately \$185,000. We continue to work with our lenders to refinance the property loans. The increase was primarily due to a change in the calculation of interest expense relating to the restructuring of the Ontario, California mortgage note payable, coupled with the increased use of our American Express note payables and our related party lines of credit offset by a decrease in our Albuquerque, New Mexico note payable payoff.

Income tax provision was approximately \$42,000 for the three months ended April 30, 2015, an increase of approximately \$11,000 from the three months of the prior fiscal year of approximately \$31,000. Increase in the tax provision is primarily due to the increased sales of ownership interests in our properties during our first quarter of fiscal year 2016 as compared to the first quarter of fiscal year 2015. Sales of ownership interests in our properties for tax purposes are considered income but under generally accepted accounting principles ("GAAP"), they are considered an increase in the Trusts' equity.

#### IBC Developments Segment

Total expenses, which are comprised primarily of general and administrative and sales and marketing expense of approximately \$100,000 for the three months ended April 30, 2015, reflect an increase of approximately \$73,000, as compared to total expenses of approximately \$27,000 for the three months ended April 30, 2014. During the fiscal quarter ending April 30, 2015, we expanded our sales and marketing efforts by creating several marketing alliances and focused our resources on the development of technology to meet independent guest and hotelier needs. Specifically, we expanded our hotel booking engine capabilities, website and hotel guest rewards program.

Net Income before income taxes:

We had a consolidated net income before income taxes of approximately \$449,000 for the three months ended April 30, 2015, compared to approximately \$315,000 for the three months ended April 30, 2014. After deducting income tax provision of approximately \$42,000 for the three months ended April 30, 2015, we had a consolidated net income of approximately \$407,000 after deducting income tax provision of approximately \$31,000 for the three months ended April 30, 2014, we had a consolidated net income of approximately \$284,000, an increase in consolidated net income of approximately \$123,000 or 43.3%. Basic and diluted net income per share was \$0.02 and \$0.01 for the three months ended April 30, 2015 and 2014, respectively.

## LIQUIDITY AND CAPITAL RESOURCES

Our principal source of cash to meet our cash requirements, including distributions to our shareholders, is our share of the Partnership's cash flow, quarterly distributions from the Albuquerque, New Mexico and Yuma, Arizona properties and more recently, sales of non-controlling interest in certain of our Hotels. The Partnership's principal source of revenue is hotel operations for the one hotel property it owns and quarterly distributions from the Tucson, Arizona and Ontario, California properties. Our liquidity, including our ability to make distributions to our shareholders, will depend upon our ability, and the Partnership's ability, to generate sufficient cash flow from hotel operations and to service our debt.

Hotel operations are significantly affected by occupancy and room rates at the Hotels. We anticipate occupancy and ADR will be improved in the coming year; capital improvements are expected to be similar from the prior year. As of April 30, 2015, the Trust had \$99,902 drawn on its bank line of credit. Our credit line matures on June 23, 2015 and we are currently in discussions with the bank and anticipate a renewal of at least an additional year on this line of credit. As of June 1, 2015, the outstanding balance on the line of credit was approximately \$528,000.

With the expected continued availability of the \$600,000 bank line of credit which management expects to timely renew, the availability of the \$1,000,000 related party Demand/Revolving Line of Credit/Promissory Note, and the refinance or extension of one of our mortgage note payables that is due on July 28, 2015, which management expects to occur, management believes that it will have enough cash on hand to meet all of our financial obligations as they become due for at least the next year. Management is actively discussing with the bank an extension of the line of credit. In addition, our management is analyzing other strategic options available to us, including the refinancing of another property or raising additional funds through additional non-controlling interest sales; however, such transactions may not be available on terms that are favorable to the Trust.

There can be no assurance that we will be successful in obtaining extensions, refinancing debt or raising additional or replacement funds, or that these funds may be available on terms that are favorable to us. If we are unable to raise additional or replacement funds, we may be required to sell certain of our assets to meet our liquidity needs, which may not be on terms that are favorable.

We anticipate a moderate improvement in the weak overall economic situation that negatively affected results in fiscal year 2015, which could result in higher revenues and operating margins in 2016. We expect the major challenge for the remaining nine months of fiscal year 2016 to be the continuation of strong competition for corporate leisure group and government business in the markets in which we operate, which may affect our ability to increase room rates while maintaining market share.

Net cash provided by operating activities totaled approximately \$692,000 and \$867,000 for the three months ended April 30, 2015 and April 30, 2014, respectively. Refer to the discussion below for the change in the net cash used in operating activities.

Consolidated net income was approximately \$407,000 and \$284,000 for the three months ended April 30, 2015 and 2014, respectively. Explanation of the differences in consolidated net income for the three months ended April 30, 2015 and 2014 are explained above in the results of operations of the Trust.

Changes in the adjustments to reconcile net income to net cash provided by operating activities for the three months ended April 30, 2015 and 2014, respectively, consist primarily of amortization of debt discounts and deferred financing fees due to refinancing of our hotel properties during the three months ended April 30, 2015 and changes in assets and liabilities. Changes in assets and liabilities for accounts receivable, prepaid expenses and other assets and accounts payable and accrued expenses were in total approximately (\$238,000) and \$121,000 for the three months ended April 30, 2015 and 2014, respectively. This significant decrease in changes in assets and liabilities for the three months ended April 30, 2015 compared to the three months ended April 30, 2014 offset the increased consolidated net income for the three months ended April 30, 2015 compared to the consolidated net income for the three months ended April 30, 2014.

Net cash used by investing was approximately \$477,000 and \$467,000 for the three months ended April 30, 2015 and 2014, respectively. This flat use of net cash used in investing activities during the first three months of fiscal year 2015 was due to our significant increase in improvements and additions to hotel properties and additional capital expenditures beyond our 4% reserve for refurbishments and replacements that were set aside as described below, offset by the use of restricted cash. As of April 30, 2014, we used all of the restricted cash held at the financial institutions who hold our first trustee mortgages. Net lending on advances to affiliates – related parties coupled with collections on advances to affiliates – related parties didn't significantly impact the net cash used in investing activities.

Net cash used in financing activities totaled approximately \$396,000 and \$260,000 for the three months ended April 30, 2015 and 2014, respectively. The increase of approximately \$136,000 was primarily due to the net increase of payments and borrowings on mortgage notes payable, notes payable to banks, line of credit – related party, note receivable related party and proceeds from sales of non-controlling ownership interest in subsidiaries, distributions to non-controlling interest holders and repurchase of treasury stock.

Proceeds from sales of non-controlling ownership interests in subsidiaries decreased by approximately \$666,000 as sales of non-controlling ownership interest was approximately \$621,000 for the three months ended April 30, 2015 and approximately \$1,287,000 for the three months ended April 30, 2014. During the three months ended April 30, 2015, we primarily sold additional non-controlling interest in Yuma property only while during the three months ended April 30, 2014, we sold additional interest in multiple subsidiaries.

Since sales of non-controlling ownership interest in subsidiaries are aggregative, an increase in distributions to non-controlling interest holders is expected. Distributions to non-controlling interest holders for the three months ended April 30, 2015 were approximately \$238,000 as compared to approximately \$149,000 for the three months ended April 30, 2014. These distributions decrease net cash provided by financing activities.

We repurchased additional treasury stock of approximately \$38,000 during the three months ended April 30, 2015 compared with approximately \$61,000 for the three months ended April 30, 2014. Additional purchases of treasury stock decrease net cash provided by financing activities.

We continue to contribute to a Capital Expenditures Fund (the "Fund") an amount equal to 4% of the InnSuites Hotels' revenues from operation of the Hotels. The Fund is restricted by the mortgage lender for one of our properties. As of April 30, 2015, there were no monies held in these accounts reported on our Consolidated Balance Sheet as "Restricted Cash." The Fund is intended to be used for capital improvements to the Hotels and refurbishment and replacement of furniture, fixtures and equipment. During the three months ended April 30, 2015 and 2014, the Hotels and Corporate office spent approximately \$479,000 and \$538,000, respectively, for capital expenditures. We consider the majority of these improvements to be revenue producing. Therefore, these amounts are capitalized and depreciated over their estimated useful lives. For fiscal year 2016 capital expenditures, we plan on spending approximately the same amount as we did during fiscal year 2015. Repairs and maintenance were charged to expense as incurred and approximated \$345,000 and \$362,000 for three months ending April 30, 2015 and 2014, respectively.

We have minimum debt payments of approximately \$7,049,000 and approximately \$525,000 due during fiscal years 2016 and 2017, respectively. Minimum debt payments due during fiscal year 2016 include approximately \$5,288,000 of mortgage notes payable and approximately \$100,000 drawn on our line of credit due as of April 30, 2015. We are actively working with our lenders and expect that we will be able to either extend or refinance our mortgage note payables and extend our line of credit.

We have a \$600,000 line of credit that bears interest at the prime rate plus 1.0% per annum with a 6.0% rate floor, has no financial covenants and matures on June 23, 2015. The line is secured by a junior security interest in the Yuma, Arizona property and our trade receivables. Mr. Wirth is a guarantor on the line of credit. On April 30, 2015, the Trust had drawn \$99,902 under the line of credit. The largest outstanding balance on the line of credit during the first three months of fiscal year 2016 was \$600,000.

In addition to our line of credit as of April 30, 2015, we had mortgage notes payable of approximately \$19,024,000 outstanding with respect to the Hotels, approximately \$326,000 in gross short term secured promissory notes with a credit card merchant processor, approximately \$858,000 in an unsecured demand/revolving line of credit/promissory note, approximately \$400,000 in an unsecured promissory note to a unrelated party, and approximately \$107,000 of secured promissory notes outstanding to unrelated third parties arising from the Shares of Beneficial Interest and Partnership unit repurchases.

We may seek to negotiate additional credit facilities or issue debt instruments. Any debt incurred or issued by us may be secured or unsecured, long-term, medium-term or short-term, bear interest at a fixed or variable rate and be subject to such other terms as we consider prudent.

#### OFF-BALANCE SHEET ARRANGEMENTS

Other than lease commitments and legal contingencies incurred in the normal course of business, we do not have any off-balance sheet financing arrangements or liabilities. We do not have any majority-owned or controlled subsidiaries that are not included in our consolidated financial statements.

#### SEASONALITY

The Hotels' operations historically have been somewhat seasonal. The three southern Arizona hotels experience their highest occupancy in the first fiscal quarter and, to a lesser extent, the fourth fiscal quarter. The second fiscal quarter tends to be the lowest occupancy period at the three southern Arizona hotels. This seasonality pattern can be expected to cause fluctuations in the Trust's quarterly revenues. The two hotels located in California and New Mexico historically experience their most profitable periods during the second and third fiscal quarters (the summer season), providing some balance to the general seasonality of the Trust's hotel business.

The seasonal nature of the Trust's business increases its vulnerability to risks such as labor force shortages and cash flow issues. Further, if an adverse event such as an actual or threatened terrorist attack, international conflict, data breach, regional economic downturn or poor weather conditions should occur during the first or fourth fiscal quarters, the adverse impact to the Trust's revenues could likely be greater as a result of its southern Arizona seasonal business.

It is too early to determine what the seasonality of the IBC business segment is. The Trust does not anticipate much seasonality do to the diversification of the location of the IBC Hotels.

### ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Not required for smaller reporting companies.

### ITEM 4. CONTROLS AND PROCEDURES

## **Evaluation of Disclosure Controls and Procedures**

As of the end of the period covered by this report, we conducted an evaluation under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures. The term “disclosure controls and procedures,” as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the “Exchange Act”), means controls and other procedures of a company that are designed to ensure that information required to be disclosed by the company in the reports it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC’s rules and forms. Based on this evaluation, our principal executive officer and our principal financial officer concluded that our disclosure controls and procedures were effective as of April 30, 2015.

Our management, including our principal executive officer and principal financial officer, does not expect that our disclosure controls and procedures or our internal controls will prevent all error or fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints and the benefits of controls must be considered relative to their costs. Due to the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, have been detected.

## **Changes in Internal Control over Financial Reporting**

There were no changes in our internal control over financial reporting during our most recently completed fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
