BLUE CALYPSO, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

MARCH 31, 2014

(unaudited)

NOTE 1 NATURE OF OPERATIONS AND BASIS OF PRESENTATION

Blue Calypso, Inc., a Delaware corporation (the "Company"), is engaged in the development, licensing and enforcement of technology and intellectual property focused on digital word-of-mouth marketing and advertising. In January 2014, the Company transitioned from a development stage enterprise to an operating company. Prior to 2014, the Company's primary activities since inception, were the design and development of its products, negotiating strategic alliances and other agreements, and raising capital.

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial information. Accordingly, they do not include all of the information and disclosures required by GAAP for annual financial statements. In the opinion of management, such statements include all adjustments (consisting only of normal recurring items) which are considered necessary for a fair presentation of the condensed consolidated financial statements of the Company as of March 31, 2014 and for the three months ended March 31, 2014 and 2013. The results of operations for the three months ended March 31, 2014 are not necessarily indicative of the operating results for the full year ending December 31, 2014, or any other period. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and related disclosures of the Company as of December 31, 2013 and for the year then ended, which were filed with the Securities and Exchange Commission on Form 10-K on March 31, 2014.

NOTE 2 GOING CONCERN AND MANAGEMENT'S LIQUIDITY PLANS

As of March 31, 2014, the Company had cash and cash equivalents of \$1,679,915 and working capital of \$1,186,118. During the three months ended March 31, 2014, the Company used net cash in operating activities of \$630,540. The Company has incurred net losses since inception. These conditions raise substantial doubt about the Company's ability to continue as a going concern.

During the three months ended March 31, 2014, the Company received \$1,024,558 in cash proceeds from the exercise of warrants. The Company believes that its current cash on hand will be sufficient to fund its projected operating requirements through the fourth quarter of 2014.

The Company's primary source of operating funds since inception has been cash proceeds from the issuance of common shares and preferred shares to its initial investors, proceeds from the issuance of convertible secured debentures and the sale of common stock and debentures in private placements. The Company intends to raise additional capital through private debt and equity investors, but there can be no assurance that these funds will be available on terms acceptable to the Company, or will be sufficient to enable the Company to fully complete its development activities or sustain operations. If the Company is unable to raise sufficient additional funds, it will have

to develop and implement a plan to further extend payables, reduce overhead, or scale back its current business plan until sufficient additional capital is raised to support further operations. There can be no assurance that such a plan will be successful.

Accordingly, the accompanying condensed consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America, which contemplate continuation of the Company as a going concern and the realization of assets and satisfaction of liabilities in the normal course of business. The carrying amounts of assets and liabilities presented in the financial statements do not necessarily purport to represent realizable or settlement values. The condensed consolidated financial statements do not include any adjustment that might result from the outcome of this uncertainty.

BLUE CALYPSO, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

MARCH 31, 2014

(unaudited)

NOTE 3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation

The accompanying condensed consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries. All significant intercompany accounts and transactions have been eliminated in consolidation.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Significant estimates include the recoverability and useful lives of long-lived assets, the fair value of the Company's stock, stock-based compensation, fair values relating to warrant and other derivative liabilities, debt discounts and the valuation allowance related to deferred tax assets. Actual results may differ from these estimates.

Concentrations of Credit Risk

The Company's financial instruments that are exposed to a concentration of credit risk are cash and accounts receivable.

As of March 31, 2014, two customers represented 65% and 16% of the Company's accounts receivable. As of December 31, 2013, two customers represented 49% and 24% of the Company's accounts receivable.

During the three months ended March 31, 2014, two customers represented 71% and 13% of total revenue.

Net Income (Loss) per Share

The Company computes basic net income (loss) per share by dividing net income (loss) per share available to common stockholders by the weighted average number of common shares outstanding for the period and excludes the effects of any potentially dilutive securities. Diluted earnings per share, if presented, would include the dilution that would occur upon the exercise or conversion of all potentially dilutive securities into common stock using the treasury stock and/or if converted methods as applicable. The computation of basic and diluted loss per share as of March 31, 2014 and 2013 excludes potentially dilutive securities when their inclusion would be anti-dilutive, or if their exercise prices were greater than the average market price of the common stock during the period.

Potentially dilutive securities excluded from the computation of basic and diluted net income (loss) per share are as follows:

BLUE CALYPSO, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

MARCH 31, 2014

(unaudited)

Recent Accounting Pronouncements

There are various updates recently issued, most of which represented technical corrections to the accounting literature or application to specific industries and are not expected to have a material impact on the Company's financial position, results of operations or cash flows.

Reclassifications

Certain amounts in the prior period condensed consolidated financial statements have been reclassified for comparison purposes to conform to the presentation of the current period condensed consolidated financial statements. These reclassifications had no effect on the previously reported net income.

Subsequent Events

The Company evaluates events that have occurred after the balance sheet date but before the financial statements are issued. Based upon the evaluation, the Company did not identify any recognized or non-recognized subsequent events that would have required adjustment or disclosure in the condensed consolidated financial statements, except as disclosed.

NOTE 4 STOCKHOLDERS EQUITY

On January 9, 2014, the Company entered into agreements with the holder of certain of its outstanding warrants originally issued in private placement transactions in September 2011 and April 2012. Pursuant to such agreements, which are more fully described below, the Company agreed to extend the period during which the warrants are exercisable at a reduced exercise price.

On January 9, 2014, the Company entered into Amendment No. 4 to the warrants that were originally issued in September 2011. Pursuant to Amendment No. 4, the exercise price of the warrants was reduced to \$0.05 per share until March 10, 2014.

On January 9, 2014, the Company entered into Amendment No. 3 to the warrant that was originally issued in April 19, 2012. Pursuant to Amendment No. 3, the exercise price of the warrants was reduced to \$0.05 per share until March 10, 2014.

On January 10, 2014, holders of such warrants exercised an aggregate of 11,200,000 warrants to purchase common stock at the reduced exercise price of \$0.05 per share resulting in \$560,000 in cash proceeds. In connection with the warrant exercise, the Company incurred a non-cash interest expense due to warrant modification of \$241,176 when the inducement offer was accepted during the three months ended March 31, 2014.

On March 10, 2014, the holder of such warrants exercised an aggregate of 9,291,164 warrants to purchase common stock at the reduced exercise price of \$0.05 per share resulting in \$464,558 in cash proceeds. As of March 31, 2014,

the shares of common stock were not issued. Such shares were issued in April 2014, but were included in the calculation of net loss per share for the three months ended March 31, 2014. In connection with the warrant exercise, the Company incurred a non-cash interest expense due to warrant modification of \$205,749 when the inducement offer was accepted during the three months ended March 31, 2014.

Options

Option valuation models require the input of highly subjective assumptions. The fair value of stock-based payment awards was estimated using the Black-Scholes option model with a volatility figure derived from an index of historical stock prices of comparable entities until sufficient data exists to estimate the volatility using the Company's own historical stock prices. Management determined this assumption to be a more accurate indicator of value. The Company accounts for the expected life of options in accordance with the simplified method which enables the use of the simplified method for plain vanilla share options as defined in Staff Accounting Bulletin No. 107. The risk-free interest rate was determined from the implied yields of U.S. Treasury zero-coupon bonds with a remaining life consistent with the expected term of the options. The fair value of stock-based payment awards during the three months ended March 31, 2014 was estimated using the Black-Scholes pricing model.

In addition, the Company is required to estimate the expected forfeiture rate and only recognize expense for those shares expected to vest. In estimating the Company's forfeiture rate, the Company analyzed its historical forfeiture rate, the remaining lives of unvested options, and the number of vested options as a percentage of total options outstanding. If the Company's actual forfeiture rate is materially different from its estimate, or if the Company reevaluates the forfeiture rate in the future, the stock-based compensation expense could be significantly different from what the Company has recorded in the current period.

BLUE CALYPSO, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

MARCH 31, 2014

(unaudited)

The Company estimated forfeitures related to option grants at a weighted average annual rate of 0% per year, as the Company does not yet have adequate historical data, for options granted during the three months ended March 31, 2014 and 2013.

The following assumptions were used in determining the fair value of employee and vesting non-employee options:

	March 31, 2014	March 31, 2013
Risk-free interest rate	2.65%-2.73%	0.77%-0.86%
Dividend yield	0%	0%
Stock price volatility	78.9%-79.2%	20%-37%
Expected life	8-10 years	5.75 years
Weighted average grant date fair value	\$0.11	\$0.11

On March 14, 2014, the Compensation Committee of the Board of Directors approved an equity bonus for the Company's Chief Executive Officer consisting of stock options with a fair value of \$800,000. The total bonus awarded was \$1,140,000 of which \$85,000 will be paid in cash and \$1,055,000 will be paid in stock options valued using the Black Scholes method. Accordingly, the Company granted options to purchase 9,232,745 shares of common stock to the Chief Executive Officer effective March 14, 2014 exercisable at \$0.14 per share for ten years, vesting over a term of three years.

The following table summarizes the stock option activity for the three months ended March 31, 2014:

	Shares	Weighte-Average Exercise Price	Weighte-Average Remaining Contractual Term	Aggregate Intrinsic Value
Outstanding at January 1, 2014	13,877,573	\$ 0.19	8.4	\$ -

BLUE CALYPSO, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

MARCH 31, 2014

(unaudited)

The following table presents information related to employee stock options at March 31, 2014:

Options Outstanding		Options Exercisable	
		Weighted	
		Average	
		Remaining	
Exercise	Number of	Life	Exercisable
Price	Options	In Years	Options
\$ 0.00-0.10	7,049,043	8.0	7,049,043
0.11-0.25	14,791,275	9.6	1,856,179
0.26-0.50	750,000	8.2	750,000
0.51 - 0.90	520,000	8.3	273,334
	23,110,318	9.1	9,928,556

As of March 31, 2014, stock-based compensation of \$1,418,265 remains unamortized and is expected to be amortized over the weighted average remaining period of 2 years.

The stock-based compensation expense related to option grants was \$75,717 and \$41,506 during the three months ended March 31, 2014 and 2013, respectively.

Restricted Stock

The following table summarizes the restricted stock activity for the three months ended March 31, 2014:

Restricted shares issued as of January 1, 2014	13,456,667
Granted	-
Forfeited	-
Total Restricted Shares Issued at March 31, 2014	13,456,667
Vested at March 31, 2014	(7,924,027)
Unvested restricted shares as of March 31, 2014	5,532,640

Stock based compensation expense related to restricted stock grants was \$438,010 and \$436,194 for the three months ended March 31, 2014 and 2013, respectively. As of March 31, 2014, the stock-based compensation relating to restricted stock of \$2,039,206 remains unamortized and is expected to be amortized over the remaining period of approximately 1.25 years.

requesting institution of Covered Business Method Review of all asserted claims. On December 19, 2013 and January 17, 2014, the PTAB issued decisions instituting review on all but four of the asserted claims. On January 14, 2014, the Company and all defendants filed a joint motion to stay the district court litigation. The Court granted the motion and stayed the case on January 16, 2014 pending a decision by the PTAB. Trial on the Covered Business Method Reviews at the PTAB is set for September 5, 2014. On February 3, 2014, Groupon filed a petition to the U.S. Court of Appeals for the Federal Circuit for mandamus on the District Court's denial of its motion to transfer. The Federal Circuit on April 23, 2014 denied Groupon Inc.'s bid to transfer our suit from Texas to Illinois, finding that the lower court judge correctly denied Groupon, Inc.'s earlier transfer request.

As part of the Company's August 2013 settlement with Living Social, the Company's attorney is entitled to additional compensation for the value of certain non-monetary arrangements. As of March 31, 2014, the payment of such compensation is not probable or measurable.

In the normal course of business the Company may be involved in legal proceedings, claims and assessments arising in the ordinary course of business. Such matters are subject to many uncertainties, and outcomes are not predictable with assurance. Legal fees for such matters are expensed as incurred and we accrue for adverse outcomes as they become probable and estimable.

NOTE 6 SUBSEQUENT EVENTS

In April 2014, the Company issued at aggregate of 497,982 shares of common stock to consultants for services rendered. In addition, the Company issued 320,000 shares of common stock in connection with exercise of non-employee options at an exercise price of \$0.0679 per share.

In April 2014, the Company issued 1,090,487 common shares to the Company's Chief Executive Officer, the vested portion of previously issued restricted stock units. See Note 4 above.

In April 2014, the Company awarded an aggregate of 1,730,000 of stock options to certain employees and one contractor. The stock options have exercise prices from \$0.12 to \$0.13 per share, will vest over a three year period, and have an approximate fair value of \$170,000.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Cautionary Statement Regarding Forward-Looking Statements

This report contains "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). All statements other than statements of historical facts included or incorporated by reference in this quarterly report on Form 10-Q, including without limitation, statements regarding our future financial position, business strategy, budgets, projected revenues, projected costs and plans and objective of management for future operations, are forward-looking statements. In addition, forward-looking statements generally can be identified by the use of forward-looking terminology such as "may," "will," "expects," "intends," "plans," "projects," "estimates," "anticipates," or "believes" or the negative thereof or any variation thereon or similar terminology or expressions.

We have based these forward-looking statements on our current expectations and projections about future events. These forward-looking statements are not guarantees and are subject to known and unknown risks, uncertainties and assumptions about us that may cause our actual results, levels of activity, performance or achievements to be

materially different from any future results, levels of activity, performance or achievements expressed or implied by such forward-looking statements. Important factors that could cause actual results to differ materially from our expectations include, but are not limited to:

- our ability to raise additional capital;
- the absence of any operating history or revenue;
- our ability to attract and retain qualified personnel;
- market acceptance of our platform;
- our limited experience in a relatively new industry;
- regulatory and competitive developments;
- intense competition with larger companies;
- general economic conditions
- failure to adequately protect our intellectual property;
- technological obsolescence of our products and services;
- technical problems with our products and services;
- loss or retirement of key executives, and
- other factors set forth under the caption **Risk Factors** in the Company's Annual Report on Form 10-K for the year ended December 31, 2013 filed with the Securities and Exchange Commission.

All subsequent written and oral forward-looking statements attributable to us, or persons acting on our behalf, are expressly qualified in their entirety by the foregoing. Except as required by law, we assume no duty to update or revise our forward-looking statements.

Business Overview

We develop and deliver advocacy marketing and analytics solutions and services for the business-to-consumer (B2C) marketplace leveraging mobile, social media, gamification and our intellectual property portfolio. We have developed a patented technology platform that enables brands to leverage customer and employee relationships to increase brand loyalty and drive revenue. We generate revenue from consulting fees, licensing and/or enforcement of such patented technologies. Our intellectual property portfolio consists of five patents and seven pending patent applications that cover methods and systems for communicating advertisements and electronic offers between mobile and desktop communication devices. All of the patents and patent applications that cover the core of our business, *i.e.*, a **System and method for peer-to-peer advertising between mobile communication devices**, have been developed internally by our Founder and Chief Technology Officer, Andrew Levi, and our Director of Innovation, Bradley Bauer, and assigned to our wholly owned subsidiary, Blue Calypso, LLC. In September 2013, we acquired proprietary mobile gamification technology and subsequently applied for two additional patents based upon the enhancement and integration of this technology into our platform.

Our proprietary technology platform enables businesses to leverage word-of-mouth marketing through the delivery of advertising campaigns, content and promotions across multiple social media channels using multiple device types. Our technology facilitates the connection of brands to consumers and enables them to customize and share brand content across the most popular social media channels. Our platform then tracks performance, monitors engagement and includes robust, real-time analytics that provide acute insight regarding the adoption, performance and return on investment of our client's promotions. Our technology is designed to help clients spread their marketing messages, acquire new customers, increase awareness and drive product sales. For example, campaigns facilitated through our platform can encourage consumers to learn more about our client's products, watch promotional videos about particular products or click to buy products. Our platform can also assist in increasing Likes on Facebook, Followers on Twitter and encourage consumers to join our client's email list, newsletter or blogs. All of this is accomplished by encouraging advocates of a company to interact, personalize and share messages with their friends via social media channels such as Facebook, Twitter, and LinkedIn. Our clients are able to thank advocates for sharing, including offering incentives, coupons and other perks to consumer advocates who share the message. Our technology platform creates multiple opportunities for companies to interact with their most vocal brand advocates (influencers) and reward them for their loyalty.

Over the last five years, the world has seen social media, mobile technologies and digital advertising evolve dramatically and actually converge. Through this technological evolution, a sociological shift has occurred in how influential digital media can be when promoted within one's social circles, friend-to-friend. We believe that people will actively endorse products with which they have a strong emotional connection or brand loyalty. When they do, these endorsements reach groups of like-minded individuals, as people generally associate with others of like mind. Social communities such as Facebook, Twitter, LinkedIn, Google+ and various blogs incorporate and build on this common idea. Our platform goes a step further, leveraging mobile and social technologies and rewarding the advocates for their loyalty and performance. We believe that we have created a platform that solves advertisers' desire for targeted and personal messaging as well as mobile subscribers' desire for content relevance in advertising.

Today large companies are becoming their own social media networks, disseminating content to their millions of advocates through email addresses, Facebook fans, Twitter followers, etc. These social media channels and mobile delivery capabilities have created a significant opportunity for companies to leverage their marketing assets by having their fans tell their friends about a company or product thus increasing adoption/conversion, reducing their media expenses and increasing their return on investment.

Through mobile and social media, everyone has their own unique and significant audience. According to Facebook, the average user has 130 friends; Twitter states the average user has 300 followers; and on average an individual has 25 unique frequent contacts they communicate with weekly via text messages or mobile calls. Active participation in LinkedIn, Google+, Tumblr and/or a personal blog can further extend one's direct social reach significantly. With our platform, advertiser content is not bound by any single app, social media community, website, carrier or device. Once the message is shared by an advocate, it can be accessed via texts, Twitter tweets, LinkedIn or Facebook posts. As a result, our individual advocates have the capability to immediately reach hundreds or even thousands of people through their direct personal and digital social relationships.

As a by-product of campaign delivery and recipient interaction, we deliver real-time analytics and business intelligence capabilities, which provide advertisers the ability to see how campaigns are deployed, where they are getting the most traction, and which are seeing the most activity. The platform also allows advertisers to assess the conversational response to their messages which enables them to adjust their campaigns based on performance.

Recent Developments

General

On January 9, 2014, the Company entered into agreements with the holder of certain of its outstanding warrants originally issued in private placement transactions in September 2011 and April 2012. Pursuant to such agreements, which are more fully described below, the Company agreed to extend the period during which the warrants are exercisable at a reduced exercise price.

On January 9, 2014, the Company entered into Amendment No. 4 to the warrants that were originally issued in September 2011. Pursuant to Amendment No. 4, the exercise price of the warrants was reduced to \$0.05 per share until March 10, 2014.

On January 9, 2014, the Company entered into Amendment No. 3 to the warrant that was originally issued in April 19, 2012. Pursuant to Amendment No. 3, the exercise price of the warrants was reduced to \$0.05 per share until March 10, 2014.

On January 10, 2014, holders of such warrants exercised an aggregate of 11,200,000 warrants to purchase common stock at the reduced exercise price of \$0.05 per share resulting in \$560,000 in cash proceeds. In connection with the warrant exercise, the Company incurred a non-cash interest expense due to warrant modification of \$241,176 when the inducement offer was accepted during the three months ended March 31, 2014.

On March 10, 2014, the holder of such warrants exercised an aggregate of 9,291,164 warrants to purchase common stock at the reduced exercise price of \$0.05 per share resulting in \$464,558 in cash proceeds. As of March 31, 2014, the shares of common stock were not issued. Such shares were issued in April 2014, but were included in the calculation of net loss per share for the three months ended March 31, 2014. In connection with the warrant exercise, the Company incurred a non-cash interest expense due to warrant modification of \$205,749 when the inducement offer was accepted during the three months ended March 31, 2014.

Litigation

On July 31, 2012, the Company filed suit against Groupon, Inc. in the Eastern District of Texas in Civil Action No. 6:12-cv-00486. The Company filed additional suits against Izea, Inc. on October 17, 2012; Yelp, Inc. on October 17, 2012; and Foursquare Labs, Inc. on October 31, 2012 in Civil Action Nos. 6:12-cv-786, 6:12-cv-788, 6:12-cv-837, respectively. Each of these cases alleges that the defendants infringe U.S. Patent Nos. 7,664,516 entitled "Method and System for Peer-to-Peer Advertising Between Mobile Communication Devices" and 8,155,679 entitled "System and Method for Peer-to-Peer Advertising Between Mobile Communication Devices." The Company subsequently added U.S. Patent Nos. 8,438,055, 8,452,646, and 8,457,670 to the cases, alleging each defendant infringed the newly added patents. Each of the defendants have answered, denying infringement and claiming that the asserted patents are invalid. Groupon, Yelp, and Foursquare filed counterclaims for declaratory judgment that the asserted patents are invalid and not infringed. Yelp filed an additional counterclaim for declaratory judgment that the asserted patents are unenforceable. The Court subsequently consolidated the actions for at least pre-trial purposes. Groupon filed a motion to transfer the case against it to the U.S. District Court for the Northern District of Illinois, which the Court denied on September 27, 2013.

Between July 19, 2013 and October 3, 2013, Groupon filed petitions with the Patent Trial & Appeals Board (PTAB) requesting institution of Covered Business Method Review of all asserted claims. On December 19, 2013 and January 17, 2014, the PTAB issued decisions instituting review on all but four of the asserted claims. On January 14, 2014, the Company and all defendants filed a joint motion to stay the district court litigation. The Court granted the motion and stayed the case on January 16, 2014 pending a decision by the PTAB. Trial on the Covered Business Method Reviews at the PTAB is set for September 5, 2014. On February 3, 2014, Groupon filed a petition to the U.S. Court of Appeals

for the Federal Circuit for mandamus on the district court's denial of its motion to transfer. The Federal Circuit on April 23, 2014 denied Groupon Inc.'s bid to transfer our suit from Texas to Illinois, finding that the lower court judge correctly denied Groupon, Inc.'s earlier transfer request.

Critical Accounting Policies

Development Stage Company

We reviewed our status as a Development Stage Company and determined that the Company no longer meets the requirements as defined by Accounting Standards Codification (ASC) 915, Development Stage Entities. In January 2014, the Company transitioned from a development stage enterprise to an operating company. Prior to 2014, the Company's primary activities since inception, have been the design and development of its products, negotiating strategic alliances and other agreements, and raising capital. As a consequence, beginning with this report, the Company will no longer provide inception to date results.

Principles of Consolidation and Basis of Presentation

The condensed consolidated financial statements are stated in U.S. dollars and include the accounts of Blue Calypso, Inc. and its wholly-owned subsidiaries. All intercompany balances and transactions have been eliminated in consolidation. The condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Significant estimates include the recoverability and useful lives of long-lived assets, the fair value of the Company's stock, stock-based compensation, fair values relating to warrant and other derivative liabilities, debt discounts and the valuation allowance related to deferred tax assets. Actual results may differ from these estimates.

Revenue Recognition

Revenue is recognized when persuasive evidence of an arrangement exists, delivery of the product or service has occurred, all obligations have been performed pursuant to the terms of the agreement, the sales price is fixed or determinable, and collectability is reasonably assured. Revenue includes fees received from customers for advertising and marketing services. In each case, revenue is recognized when services are performed or licenses are granted to customers.

Revenue from the licensing of the Company's intellectual property and settlements reached from legal enforcement of the Company's patent rights is recognized when the arrangement with the licensee has been signed and the license has been delivered and made effective, provided license fees are fixed or determinable and collectability is reasonably assured. The fair value of licenses achieved by ordinary business negotiations is recognized as revenue.

The amount of consideration received upon any settlement or judgment is allocated to each element of the settlement based on the fair value of each element. Elements related to licensing agreements, royalty revenues, net of contingent legal fees, are recognized as revenue in the consolidated statement of operations. Elements that are not related to license agreements and royalty revenue in nature will be reflected as a separate line item within the other income section of the consolidated statements of operations. Elements provided in either settlement agreements or judgments

include: the value of a license, legal release, and interest. When settlements or judgments are achieved at discounts to the fair value of a license, the Company allocates the full settlement or judgment, excluding specifically named elements as mentioned above, to the value of the license agreement or royalty revenue under the residual method. Legal release as part of a settlement agreement is recognized as a separate line item in the consolidated statements of operations when value can be allocated to the legal release. When the Company reaches a settlement with a defendant, no value is allocated to the legal release since the existence of a settlement removes legal standing to bring a claim of infringement and without a legal claim, the legal release has no economic value. The element that is applicable to interest income will be recorded as a separate line item in other income. The Company does not assume future performance obligations in its license arrangements.

16

The Company also has revenue from information technology consulting services. Revenue is recognized in the periods that satisfactory performance of services is delivered to customers. Revenue is recognized when persuasive evidence of an arrangement exists, delivery of the service has occurred, all obligations have been performed pursuant to the terms of the agreement, the sales price is fixed or determinable, and collectability is reasonably assured.

Cost of Revenue

Cost of revenue includes technical service costs directly associated with initiating and supporting a customer social media program, technical service costs directly associated with providing IT consulting and legal fees directly related to the settlement of intellectual property claims that result in licensing and royalty revenue.

Intangible Assets

The Company capitalizes certain software development costs as well as purchased software upon achieving technological feasibility of the related products. Software development costs incurred and software purchased prior to achieving technological feasibility are charged to engineering and product development expense as incurred. Commencing upon initial product release, capitalized costs are amortized to cost of software licenses using the straight-line method over the estimated life of the product (which approximates the ratio that current gross revenues for a product bear to the total of current and anticipated future gross revenues for that product), which is generally up to five years.

Impairment of Long-Lived Assets

The Company reviews the carrying value of intangibles and other long-lived assets for impairment at least annually or whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of long-lived assets is measured by comparing the carrying amount of the asset or asset group to the undiscounted cash flows that the asset or asset group is expected to generate. If the undiscounted cash flows of such assets are less than the carrying amount, the impairment to be recognized is measured by the amount by which the carrying amount of the property, if any, exceeds its fair market value. No impairment was deemed to exist as of March 31, 2014. The Company re-evaluates its amortizable intangibles at least quarterly to identify any triggering events. As described above, if triggering events require us to undertake an impairment review in the future, it is not possible at this time to determine whether it would be necessary to record a charge or if such charge would be material.

Fair Value Measurements

We have adopted ASC Topic 820, Fair Value Measurements and Disclosures, which defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements. ASC 820 establishes a hierarchy for inputs used in measuring fair value that maximizes the use

of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. Level 3 inputs are unobservable inputs for the asset or liability.

Stock-Based Compensation

The Company measures the cost of services received in exchange for an award of equity instruments based on the fair value of the award. For employees and directors, the fair value of the award is measured on the grant date and for non-employees, the fair value of the award is generally re-measured on vesting dates and interim financial reporting dates until the service period is complete. The fair value amount is then recognized over the period during which services are required to be provided in exchange for the award, usually the vesting period. Stock-based compensation expense is recorded by the Company in the same expense classifications in the consolidated statements of operations, as if such amounts were paid in cash.

Results of Operations

Comparison of Three Months Ended March 31, 2014 and 2013

Net Loss. For the three months ended March 31, 2014, we had a net loss of \$1,745,361, as compared to net income of \$6,797,894 for the three months ended March 31, 2013. The prior year period had a gain related to the changes in fair value of derivative liabilities of \$8,216,218. General and administrative expenses increased by \$149,225. This was attributed to a bonus accrued to the Company's Chief Executive Officer totaling \$85,000. Selling and marketing expenses increased by \$37,560 in comparison to the year ago period as we have added additional staffing in this area. Interest expense increased by \$211,400. The current year included \$446,925 of interest expense associated with modification of warrants during the three months ended March 31, 2014.

Revenue. Revenue for the three months ended March 31, 2014 increased to \$164,215, as compared to \$10,000 in revenues for the same period in 2013. The Company's expansion of product offerings, particularly Blue Calypso Labs during the second half of 2013 resulted in higher sales in three months ended March 31, 2014. During the three months ended March 31, 2014, two customers represented 71% and 13% of total revenue.

Cost of Revenue. Cost of revenue for the three months ended March 31, 2014 increased to \$73,747 in comparison to \$4,323 for the same period in 2013. The largest contributor to this increase was cost of revenue associated with Blue Calypso Labs for the three months ended March 31, 2014.

Sales and Marketing. For the three months ended March 31, 2014, sales and marketing expenses increased by \$37,560 to \$163,517 as compared to the same period in 2013. The increase resulted primarily from an increase in sales staff. Sales and marketing expenses include compensation and benefit expenses as well as travel, entertainment and advertising expense directly attributable to the sales and marketing function.

General and Administrative. For the three months ended March 31, 2014, general and administrative expenses were \$1,072,376 as compared to \$923,151 for the three months ended March 31, 2013. Included in the current year was the cash bonus to the Company's Chief Executive Officer of \$85,000. Expenses also included legal and professional expenses related to statutory filing process and patent legal activities. General and administrative expenses primarily consisted of contract labor, outside services and professional fees.

Depreciation and Amortization. Depreciation and amortization expenses relate primarily to the amortization of capitalized software development. The increase of \$15,186 for the three months ended March 31, 2014 to \$83,415 was due primarily to investment in capitalized software development in 2013.

Interest Expense. Interest expense was \$518,064 for the three months ended March 31, 2014 in comparison to \$306,664 for the three months ended March 31, 2013. The current period interest expense related to \$15,000 interest expense on the outstanding \$600,000 notes payable. Amortization of beneficial conversion features on notes payable decreased to \$55,948 for the period ended March 31, 2014 in comparison to \$277,285 for the three month period ending March 31, 2013. During the three months ended March 31, 2014 the Company recorded interest expense related to the modification of warrants to induce conversion. The three months ended March 31, 2013 included \$245,000 of amortization of beneficial conversion feature for the loan from Aztec Systems, Inc. while the current period amortization of beneficial conversion relates to the \$600,000 in aggregate outstanding notes payable at March 31, 2014.

Cash Flows

Comparison of Three Months Ended March 31, 2014 and 2013

Cash used in operating activities during the three months ended March 31, 2014 was \$630,540 as compared to \$302,903 for the three months ended March 31, 2013. The change was due to a decrease in accrued expenses and accounts payable of \$171,184 and an increase in accounts receivable of \$156,108.

Cash used in investing activities during the three months ended March 31, 2014 was \$8,985, as compared to \$58,338 for the three months ended March 31, 2013. This was attributed to the Company's programming resources being directed to supporting revenue generating activities.

During the three months ended March 31, 2014, cash provided by financing was \$1,024,558, as compared to \$237,036 for the same period in 2013. During the current quarter, net cash of \$1,024,558 was received from the exercise of warrants. During the quarter ended March 31, 2013, cash from financing activities included \$200,000 that was provided from our private placement of debentures.

Liquidity and Capital Resources

As of March 31, 2014, the Company had cash and cash equivalents of \$1,679,915 and working capital of \$1,186,118. During the three months ended March 31, 2014, the Company used net cash in operating activities of \$630,540. The Company has incurred net losses since inception. These conditions raise substantial doubt about the Company's ability to continue as a going concern.

During the three months ended March 31, 2014, the Company received \$1,024,558 in cash proceeds from the exercise of warrants. The Company believes that its current cash on hand will be sufficient to fund its projected operating requirements through the fourth quarter of 2014.

The Company's primary source of operating funds since inception has been cash proceeds from the sale of equity and debt securities. The Company intends to raise additional capital through private placement of equity and/or debt securities, but there can be no assurance that these funds will be available on terms acceptable to the Company, or will be sufficient to enable the Company to fully complete its development activities or sustain operations. If the Company is unable to raise sufficient additional funds, it will have to develop and implement a plan to further extend payables, reduce overhead, or scale back its current business plan until sufficient additional capital is raised to support further operations. There can be no assurance that such a plan will be successful.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Not applicable.

ITEM 4. CONTROLS AND PROCEDURES.

Evaluation of Disclosure Controls and Procedures.

As previously disclosed in Item 9A of our Form 10-K for the year ended December 31, 2013, management concluded that there were material weaknesses in internal control over financial reporting related to insufficient experience to account for and disclose complex transactions under US GAAP and a limited segregation of duties within our accounting and financial reporting functions due to the small number of employees assigned to positions that involve the processing of financial information. During the three months ended March 31, 2014, remedial actions have been implemented to address this weakness. We have devoted significant effort and resources to remediation and improvement of our internal control over financial reporting. While we had processes in place to identify and apply developments in accounting standards, we enhanced these processes to better evaluate our research of the nuances of complex accounting standards and engaged a third party financial reporting consultant to assist the Company in its financial reporting compliance. Our third party consultant is a technical accounting professional, who assists us in the interpretation and application of new and complex accounting guidance. Management will continue to review and make necessary changes to the overall design of our internal control environment.

Our management, with the participation of the Chief Executive Officer and the Chief Financial Officer (the principal executive and principal financial officer, respectively) evaluated the effectiveness of the design and operation of its disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) as of the end of the period covered by this Quarterly Report on Form 10-Q. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. In addition, the design of disclosure controls and procedures must reflect the fact that there are resource constraints and that management is required to apply its judgment in evaluating the benefits of possible controls and procedures relative to their costs. Management believes that the controls implemented during the period are sufficient, however, they have concluded that such controls have not been in place for a sufficient period of time in order to conclude that the identified material weakness described above have been fully remediated. Therefore, based on this evaluation, the Chief Executive Officer and Chief Financial Officer (the principal executive and principal financial officer, respectively) have concluded that as of March 31, 2014, our disclosure controls were not effective.

Changes in Internal Control over Financial Reporting

Except as described above, there were no changes in our internal control over financial reporting during the three months ended March 31, 2014 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

On July 31, 2012, the Company filed suit against Groupon, Inc. in the Eastern District of Texas in Civil Action No. 6:12-cv-00486. The Company filed additional suits against Izea, Inc. on October 17, 2012; Yelp, Inc. on October 17,

2012; and Foursquare Labs, Inc. on October 31, 2012 in Civil Action Nos. 6:12-cv-786, 6:12-cv-788, 6:12-cv-837, respectively. Each of these cases alleges that the defendants infringe U.S. Patent Nos. 7,664,516 entitled "Method and System for Peer-to-Peer Advertising Between Mobile Communication Devices" and 8,155,679 entitled "System and Method for Peer-to-Peer Advertising Between Mobile Communication Devices." The Company subsequently added U.S. Patent Nos. 8,438,055, 8,452,646, and 8,457,670 to the cases, alleging each defendant infringed the newly added patents. Each of the defendants have answered, denying infringement and claiming that the asserted patents are invalid. Groupon, Yelp, and Foursquare filed counterclaims for declaratory judgment that the asserted patents are invalid and not infringed. Yelp filed an additional counterclaim for declaratory judgment that the asserted patents are unenforceable. The Court subsequently consolidated the actions for at least pre-trial purposes. Groupon filed a motion to transfer the case against it to the U.S. District Court for the Northern District of Illinois, which the Court denied on September 27, 2013.

Between July 19, 2013 and October 3, 2013, Groupon filed petitions with the Patent Trial & Appeals Board (PTAB) requesting institution of Covered Business Method Review of all asserted claims. On December 19, 2013 and January 17, 2014, the PTAB issued decisions instituting review on all but four of the asserted claims. On January 14, 2014, the Company and all defendants filed a joint motion to stay the district court litigation. The Court granted the motion and stayed the case on January 16, 2014 pending a decision by the PTAB. Trial on the Covered Business Method Reviews at the PTAB is set for September 5, 2014. On February 3, 2014, Groupon filed a petition to the U.S. Court of Appeals for the Federal Circuit for mandamus on the district court's denial of its motion to transfer. On April 23, 2014, the court denied Groupon's bid to transfer our suit from Texas to Illinois, finding that the lower court judge correctly denied Groupon's earlier transfer request.

The court dockets for each case, including the parties' briefs are publicly available on the Public Access to Court Electronic Records website, or PACER, www.pacer.gov, which is operated by the Administrative Office of the U.S. Courts.

Other than as noted above, the Company is not a party to any pending legal proceeding nor is its property the subject of any pending legal proceeding that is not in the ordinary course of business or otherwise material to the financial condition of its business. Further, to the knowledge of management, no director or executive officer is party to any action in which any has an interest adverse to us.

ITEM 1A. RISK FACTORS

Not required

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

During the three months ended March 31, 2014, the Company granted options to purchase an aggregate of 9,232,745 shares of common stock to the Company Chief Executive Officer. The options have a term of ten years and have exercise price of \$0.14 per share.

During April 2014, the Company issued an aggregate of 497,982 shares of Common Stock as payment for professional services.

The foregoing securities were sold to a limited number of accredited investors, without registration under the Securities Act of 1933, as amended (the "Securities Act"), in reliance upon an exemption from registration provided by Section 4(2) under the Securities Act and/or Rule 506 of Regulation D promulgated thereunder. The securities may not be transferred or sold absent registration under the Securities Act or the availability of an applicable exemption therefrom.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

ITEM 5. OTHER INFORMATION

None.

ITEM 6. EXHIBITS AND REPORTS ON FORM 8-K. Copies of the following documents are included as exhibits to this report pursuant to Item 601 of Regulation S-K.

Exhibit Number	Description
2.1	Agreement and Plan of Merger and Reorganization, dated as of September 1, 2011, by and among Blue Calypso, Inc., Blue Calypso Acquisition Corp., and Blue Calypso Holdings, Inc.
