ITEM 11. EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Overview

This Compensation Discussion and Analysis discusses our executive compensation policies and programs and the compensation decisions made in 2015 for our named executive officers who are generally defined under the SEC's proxy rules as each chief executive officer serving during the applicable fiscal year, each chief financial officer serving during the applicable fiscal year, the other three most highly compensated employees who were serving as executive officers at year-end and up to two additional individuals who would have been part of the three most highly compensated employees but for the fact that they were not serving as an executive officer at year-end. Our "named executive officers" are listed below.

- Julie Anne Smith, our President, Chief Executive Officer and director;
- Michael P. Smith, our Chief Financial Officer;
- David Happel, our Chief Commercial Officer;
- Krishna R. Polu, our Chief Medical Officer;
- Ashley C. Gould, our Senior Vice President, Governmental Affairs, Chief Legal and Compliance Officer and Secretary;
- Ted Daley, our former Chief Business Officer; and
- Frank Lanza, our former Executive Director – Controller.

On November 5, 2014, the Company appointed Frank Lanza, the Company's Executive Director – Controller, to serve as interim Principal Financial and Accounting Officer. Mr. Lanza ceased serving as interim Principal Financial and Accounting Officer effective January 12, 2015, following the appointment of Mr. Smith as the Company's new Chief Financial Officer. Mr. Daley resigned from his position as Chief Business Officer effective September 30, 2015. On April 15, 2016, Ms. Gould delivered notice of her resignation from her position as Senior Vice President, Governmental Affairs, Chief Legal and Compliance Officer and Secretary. Ms. Gould's last date of employment is May 13, 2016.

The Compensation Committee has overall responsibility for the compensation program for our executive officers. The Compensation Committee reviews, approves and oversees our compensation strategy, policies, plans and programs, including:

- (i) the review, development and approval of corporate and individual annual performance goals and the evaluation of performance relevant to the compensation of our Chief Executive Officer, the other executive officers and other senior management;
- (ii) the review, development and approval of the terms of employment or service agreements, including severance and change in control arrangements, of our Chief Executive Officer and the other executive officers;
- (iii) the review, development and approval of the compensation plans and programs advisable for the Company, including the type and amount of compensation to be paid or awarded to non-employee directors; and
- (iv) the administration of our equity compensation plans, 401(k) savings plan and other similar plans and programs.

In evaluating the compensation of our executive officers, the Compensation Committee retains the services of an independent compensation consultant. It also considers recommendations from our Chief Executive Officer and persons serving in managerial positions over a particular executive officer with respect to goals and compensation of executive officers. Our Compensation Committee assesses the information it receives in accordance with its business judgment. Our Chief Executive Officer is not present for the discussion of and approval of her compensation at the Compensation Committee or Board of Directors meetings.

We choose to pay the various elements of compensation discussed to attract, retain and motivate our executive talent, reward annual performance and provide incentive for the achievement of short-term, intermediate-term and long-term

strategic goals. The Compensation Committee's objectives are to:

- provide a total executive compensation program that is in-line with other companies in the pharmaceutical and biotechnology industries with which we compete for executive talent;
- place a significant portion of executive compensation at risk by linking cash incentive compensation to the achievement of pre-established corporate financial performance objectives and other key corporate objectives within the executive's area of responsibility, and by using equity incentives as a key component of our executive compensation program;

5

- provide long-term equity incentives that focuses our executives' efforts on building stockholder value by aligning their interests with those of our stockholders; and
 - promote stability, retention and motivation in our senior management team.

Our allocation between currently paid cash compensation and longer term equity compensation is intended to balance the requirement for adequate base compensation to attract, retain and motivate highly skilled personnel, while providing equity incentives to motivate our executives to achieve our long-term financial goals and maximize long-term value for our stockholders. We provide cash compensation in the form of base salary and annual cash bonuses to reward performance against pre-established written goals and objectives. We provide equity compensation in the form of stock options and restricted stock unit awards to foster retention and aligns the executives' interest with the long-term interests of our stockholders.

The Role of Stockholder Say-on-Pay Votes

We provide our stockholders with the opportunity to cast a non-binding advisory vote on the compensation of our named executive officers and on the frequency with which this vote should be conducted in future years. In May 2015, at our annual meeting of stockholders, based upon total shares voted, our stockholders approved our named executive officers' compensation with a 77.2% affirmative vote, which included 4,267,398 shares abstaining on the matter. We believe that a significant majority of the abstention vote was cast as a single vote and had a significant negative impact on the overall vote. Had abstentions been excluded from the calculation, the proposal would have received greater than 99.1% of votes cast in favor. Although the stockholder vote is non-binding, the Compensation Committee has considered the outcome of the vote when making its compensation decisions for named executive officers.

We will conduct future stockholder advisory votes on the compensation of our named executive officers once every year, until the next required stockholder advisory vote on the frequency of future stockholder advisory votes on the compensation of our named executive officers, which we will conduct at our 2017 Annual Meeting of Stockholders.

Approach for Determining Form and Amount of Compensation

Use of Compensation Consultant

The Compensation Committee works with an independent compensation consultant to assist the Compensation Committee in its duties, including providing advice regarding market trends relating to the form and amount of compensation. Compensia was engaged for 2015 as the compensation consultant for the Compensation Committee. The Compensation Committee has taken care to ensure that the advice provided by its external compensation consultant is objective and unbiased. Compensia performs no work for us other than its work providing executive, employee and director compensation consulting services to the Compensation Committee and reports directly to the Compensation Committee through its chairperson. In addition, on an annual basis, Compensia provides a certification to the Compensation Committee regarding its independence in the provision of services. The Compensation Committee has assessed the independence of Compensia and concluded that no conflict of interest exists that would prevent Compensia from providing independent and objective advice to the Compensation Committee. Compensia provides the Compensation Committee with third-party data and analyses, advice and expertise on competitive practices and trends and executive compensation plan design. During 2015, Compensia provided the Compensation Committee with:

- an evaluation of the current compensation program design and guidelines for the executive officers and assistance in structuring a compensation program that meets the objectives outlined by the Compensation Committee;
- a comprehensive review of qualified peer company candidates and previously selected peer group companies;
- a detailed review of each executive officer's compensation relative to market survey and peer group data;
- advice regarding market levels and trends relating to the form and amount of compensation; and

· a detailed review of non-employee director compensation levels and practices relative to peer group data.
Comparison to Market Practices

The Compensation Committee annually compares the levels and elements of compensation that we provide to our executive officers with the levels and elements of compensation provided to their counterparts in the biotechnology and specialty pharmaceutical industries and uses such comparison as a guideline in its review and determination of base salaries, annual performance incentive awards and long-term equity incentive compensation.

The levels and elements of total compensation that we provide are compared to market data that includes, where available for a particular executive role, compensation information for all of the companies in our peer group as well as industry-specific published

Edgar Filing: Raptor Pharmaceutical Corp - Form 10-K/A

survey data from Aon Radford Life Sciences survey custom peer cut, which is intended to include a majority of our peer companies. The survey data and the peer group data are complementary to one another. The survey data provides supplementary compensation data where sufficient peer group data is not available for a particular executive position.

In determining peer companies, the Compensation Committee considers similar companies within the biotechnology and specialty pharmaceuticals industries with revenues between approximately 0.25X to 4X the Company's last four quarter revenues; a market capitalization between approximately 0.3X to 3X the Company's market capitalization and having a Phase III or commercial (marketed) product. The Compensation Committee also considers whether a company has an orphan drug product with an orphan drug designation in the United States or Europe and other factors with comparative business relevance.

The peer group approved in December 2014 for use during much of 2015 consisted of the following companies:

Aegerion Pharmaceuticals	Dyax	PTC Therapeutics
AMAG Pharmaceutic	Exelixis	Sarepta Therapeutics
Amicus Therapeutics	Halozyme Therapeutics	Sucampo Pharmaceuticals
Arena Pharmaceuticals	Hyperion Therapeutics	Vanda Pharmaceuticals
Avanir Pharmaceuticals	Ironwood Pharmaceuticals	VIVUS
Bluebird Bio	Momenta Pharmaceuticals	XenoPort
Depomed	Portola Pharmaceuticals	

These peer companies were generally appropriate from a strategic/stage of development and market capitalization perspective. At the time of the peer review in December 2014, our market capitalization (as of December 24, 2014) was between the 25th percentile and the median of the peer group and our revenues (for the last four completed quarters) were between the median and the 75th percentile of the peer group.

In November 2015, on the recommendation of Compensia, the Compensation Committee revised our peer group to remove companies that had been acquired or that were no longer appropriate based on the above defined criteria and add others that were more appropriate. The peer group approved in November 2015 consisted of the following companies:

Aegerion Pharmaceuticals	Halozyme Therapeutics	Momenta Pharmaceuticals
Amicus Therapeutics	ImmunoGen	PTC THERAPEUTICS
ARIAD Pharmaceuticals	Infinity Pharmaceuticals	Retrophin
Corcept Therapeutics	Insmed	Sarepta Therapeutics

CTI BIOPHARMA	Ironwood Pharmaceuticals Ultragenyx Pharmaceutical
Exelixis	Keryx Biopharmaceuticals Vanda Pharmaceuticals

These peer companies were generally appropriate from a strategic/stage of development, market capitalization and revenue perspective. At the time of the peer review in November 2015, our market capitalization (based on the 30-day average market capitalization as of September 30, 2015) approximated the 25th percentile of the peer group market capitalization and our revenues (for the last four completed quarters) was between the median and the 75th percentile of the peer group. Each of our named executive officers' 2015 base salary was below the median for his or her position among our peer companies, and target total direct compensation for Ms. Smith and Mr. Happel, our continuing named executive officers who did not receive new hire grants, approximated the median.

The Role of Our Chief Executive Officer

While the Compensation Committee has overall responsibility for establishing the elements, level and administration of our executive compensation programs, our Chief Executive Officer routinely participates in this process. Our Chief Executive Officer conducts in-depth performance reviews of each of the other executive officers and provides a summary of this review to the Compensation Committee. Our Chief Executive Officer also makes recommendations to the Compensation Committee regarding adjustments to these executive officers' base salaries, target bonus opportunities and equity awards based on their performance and market considerations. Our Chief Executive Officer's recommendations are one of several important factors considered by the Compensation Committee in making its executive compensation determinations. The Chief Executive Officer also provides a self-

assessment to the Compensation Committee for its consideration. However, the Chief Executive Officer is not present in the review or approval of her compensation at the Compensation Committee meetings. As part of the process of evaluating our Chief Executive Officer's compensation, the Chair of the Compensation Committee and the Chair of the Board conducted a full performance evaluation that included interviews with each of the members of the Board and individual discussions with the executive management team.

Elements of Compensation

Elements of compensation for our executives generally include:

- base salary (typically subject to review and potential adjustment annually based on inflation factors, industry competitive salary levels, our ability to pay, and performance on corporate and individual goals);
- annual performance bonuses which are paid in cash and are based primarily on performance against pre-established written goals for corporate and individual performance factors;
- equity compensation (which beginning in 2015 includes a mix of stock option and restricted stock unit ("RSUs") awards, each with multiple year vesting requirements);
- 401(k) Plan Company matching contributions;
- health, disability and life insurance; and
- severance and change in control payments and benefits.

Base Salary

At hire, base salaries are set for our executive officers based on the scope of each executive's responsibilities, as well as his or her qualifications, breadth of experience, performance record in similar situations, depth and breadth of appropriate functional expertise and close match with position requirements. Competitive market compensation paid by similar companies in our industry for individuals with similar responsibilities is also considered.

Shortly after the end of each fiscal year, the Compensation Committee conducts an annual review of base salaries and the overall compensation package as a basis for any adjustments. Annual adjustments, if any, are typically made effective retroactive to the first day of the new fiscal year. The basis for base salary adjustments may include merit increases in the competitive marketplace, adjustments to move individuals toward a competitive salary range for similar positions, increased duties and responsibilities, and sustained superior performance against goals and in special assignments. Adjustments may be made during the fiscal year for promotions, for sustained superior performance in new or special challenges or circumstances, and similar reasons (mid-year adjustments generally require unusual or exceptional circumstances).

Effective January 1, 2015, in connection with Ms. Smith's promotion from President and CEO Designate to Chief Executive Officer and as reflected in the terms of her amended and restated employment agreement entered into on July 7, 2014, Ms. Smith's annual base salary was increased 22.2% to reflect her increased duties and responsibilities in connection with her new role. .

In 2015, we hired Mr. Smith as our Chief Financial Officer, Dr. Polu, M.D., as our Chief Medical Officer and Ms. Gould, as our Senior Vice President, General Counsel and Corporate Governance and Secretary. In connection with their hires, the Compensation Committee approved that Mr. Smith would receive an annual base salary of \$350,000, Dr. Polu would receive an annual base salary of \$385,000 and Ms. Gould would receive an annual base salary of \$390,000. Each of their base salaries were negotiated in connection with their new employment and were based upon the scope of each executive's responsibilities, as well as their qualifications, breadth of experience, past performance records in similar situations, depth and breadth of appropriate functional expertise and close match with position requirements.

For 2015, we also approved modest base increases of between 0.6%-2.6% for Messrs. Happel and Daley to provide a competitive merit/cost of living adjustment. Mr. Lanza did not receive a salary increase for 2015. The 2015 base

salary increases for the named executive officers were as follows:

Name	Percentage	2015
	Increase	Annual Base Salary
Julie Anne Smith	22.2	% \$550,000
David Happel	0.6	377,344
Ted Daley	2.6	314,675

Annual Incentive Cash Bonus

All of our executive officers are eligible for annual cash incentive bonuses pursuant to their employment agreements, as amended from time to time. Mr. Lanza, who resigned in November 2015, and was Interim Principal Financial Officer from November 5, 2014 through January 11, 2015 did not have an employment agreement with us and while employed with us was eligible for an annual cash incentive bonus on the same basis as all other non-executive Company employees.

Each year our Compensation Committee adopts an annual performance plan. Annual performance goals are determined and documented in writing at the beginning of each fiscal year for the Company as a whole (corporate goals) and for each executive officer (individual goals). The Compensation Committee reviews the proposed goals and recommends approval to the Board of Directors. Should there be a meaningful change in our situation, environment, or operating strategy, goals may be modified or new, more appropriate goals may be instituted upon the recommendation of our Compensation Committee and approval by our Board of Directors. For fiscal year 2015, the cash incentive program covered the 12 month period from January 1, 2015 through December 31, 2015. During 2015 the Board of Directors did not approve any modifications to or amended objectives compared to those set in the first quarter of 2015.

Performance against our corporate goals and the executive officer's individual goals is considered by our Compensation Committee in evaluating performance and as a significant contributing factor in determining all aspects of the compensation of our executives. Performance against goals is the primary factor in determining annual cash incentive bonuses. Our Chief Executive Officer's cash incentive payout is based exclusively on the achievement of corporate goals. For 2015, the Compensation Committee increased the component of the other named executive officers' bonuses tied to corporate goals from 70% to 80%, reducing the component tied to individual goals from 30% to 20%. This change was made to put additional weight on and highlight the importance of achievement of the company-wide corporate goals.

Goals are weighted based on importance. When taken as a whole, goals are intended to be challenging goals that will have a meaningful impact on stockholder value, either immediately or as preparatory steps required for future achievements.

The achievement scores are designed to be measurable and quantifiable. After evaluation of performance, achievement scores may be awarded which recognize partial performance of a goal or to recognize exceptional performance due to unanticipated challenges or superior performance.

Annual cash incentive bonus awards for employees at each organizational level in the Company are set as a target percentage of the employees' annual base salaries. Each executive officer's bonus award and the company-wide bonus pool are approved by our Board of Directors or Compensation Committee. Final payout determinations include subjective and quantitative assessments of performance, and can be modified based on multiple factors including our available financial resources, our overall performance and other factors. Bonuses are pro-rated for the time of service within the year. An employee must still be in active service at the time the bonus is paid out to be eligible to receive an annual incentive bonus, unless otherwise approved.

Awards can vary up to 125% of the target percentage based on assessment of achievement above the targeted levels, of meaningful additional goals or sustained superior performance in the conduct of duties and responsibilities in the employee's position.

The annual target bonus opportunities for our named executive officers expressed as a percentage of their base salaries for 2015 were as follows: Ms. Smith, 60%; Messrs. Smith and Happel, Dr. Polu and Ms. Gould 40%; and Mr. Daley, 35%. The bonuses for Mr. Smith, Dr. Polu and Ms. Gould were pro-rated to reflect their employment commencement dates in 2015. Mr. Lanza separated from the Company in November 2015 and was not eligible for a bonus for

2015. Pursuant to Mr. Daley's transition and separation agreement, he was entitled to a bonus for 2015 based on actual achievement of the performance goals in the discretion of the Compensation Committee, pro-rated to reflect his separation from the Company effective September 30, 2015.

Corporate Goals

Our corporate goals for the period January 1, 2015 through December 31, 2015 were as follows:

- 1) Achieve worldwide net revenue of \$87.5M (weighted 30%, achieved 115%);
- 2) Finish year with at least \$150M in cash (weighted 10%, achieved 100%);
- 3) Gain agreement with regulators on the Huntington's Disease marketing authorization application (weighted 15%, achieved 75%);
- 4) Gain agreement with regulators on the NASH Phase 3 program (weighted 15%, achieved 0%);
- 5) Diversify portfolio (weighted 20%, achieved 100%); and
- 6) Continue building and growing operational capabilities (weighted 10%, achieved 120%).

9

The combined achievement of the weighted goals resulted in an overall corporate goal achievement of 87.8%.

Our Chief Executive Officer's performance and any incentive payout is based directly on the achievement of corporate goals. Individual (personal) goals are proposed by each other executive officer and reviewed by our Chief Executive Officer. The goals are reviewed and approved by our Compensation Committee.

For the period beginning January 1, 2015 through December 31, 2015, a significant percentage of each executive officer's individual goals was directly based on the achievement of our corporate goals. The remaining percentage was based on achievement of individual goals within the executive's areas of responsibility.

As discussed above, Ms. Smith's individual goals consisted 100% of the corporate goals. Mr. Smith's individual goals included establishing a quarterly portfolio planning/forecasting system and strategic plan, establishment of additional financial reporting and controls and remediation of the material weakness, providing financial support to business initiatives, executing on IP strategy, securing funding and analyst coverage, and building organizational talent; Mr. Happel's individual goals included achievement of our global revenue target and regional revenue targets, expansion of PROCYSBI, establishing cross-functional quarterly portfolio reviews, and building organizational talent; Dr. Polu's individual goals included building organizational talent, executing the RP103 pipeline development programs, supporting the PROCYSBI development program and education on cystinosis and building the pipeline; Ms. Gould's individual goals included implementing a contract management system, supporting the QUINSAIR transaction, establishing a government affairs function and clinical development program support; and Mr. Daley's individual goals included acquiring/in-licensing certain assets, securing intellectual property, achieving certain operational goals and building organizational talent. Mr. Lanza was not eligible for a 2015 bonus. Corporate and individual goals were weighted based upon importance to and impact on the Company.

Fiscal Year 2015 Goal Achievements for our Executive Officers

Ms. Smith's annual target incentive bonus was equal to 60% of her base salary (the base salary target percentage). As discussed above, corporate program goals accounted for 100% of Ms. Smith's annual incentive bonus, while individual goals accounted for 0%. Based on the corporate achievement score of 87.8%, the Compensation Committee approved an annual incentive bonus of \$290,000.

Mr. Smith's annual target incentive bonus was equal to 40% of his base salary (the base salary target percentage). Corporate program goals accounted for 80% of Mr. Smith's annual incentive bonus, while individual goals accounted for the remaining 20%. Based on the corporate achievement score of 87.8% and Mr. Smith's individual performance score of 110%, the Compensation Committee approved a pro-rated annual incentive bonus of \$135,000.

Dr. Polu's annual target incentive bonus was equal to 40% of his base salary (the base salary target percentage). Corporate program goals accounted for 80% of Dr. Polu's annual incentive bonus, while individual goals accounted for the remaining 20%. Based on the corporate achievement score of 87.8% and Dr. Polu's individual performance score of 103%, the Compensation Committee approved a pro-rated annual incentive bonus of \$150,000.

Mr. Happel's annual target incentive bonus was equal to 40% of his base salary (the base salary target percentage). Corporate program goals accounted for 80% of Mr. Happel's annual incentive bonus, while individual goals accounted for the remaining 20%. Based on the corporate achievement score of 87.8% and Mr. Happel's individual performance score of 119 %, the Compensation Committee approved an annual incentive bonus of \$140,000 and a bonus of \$75,000 in recognition of his outstanding contributions to the QUINSAIR acquisition.

Ms. Gould's annual target incentive bonus was equal to 40% of her base salary (the base salary target percentage) and pro-rated to reflect her 5.5 months of service in 2015. Corporate program goals accounted for 80% of Ms. Gould's annual incentive bonus, while individual performance goals accounted for the remaining 20%. Based on the corporate

achievement score of 87.8%, and Ms. Gould's individual performance score of 98%, the Compensation Committee approved a pro-rated annual incentive bonus of \$70,000.

Mr. Daley's annual target incentive bonus was equal to 35% of his base salary (the base salary target percentage) and pro-rated to reflect his separation from the Company effective September 30, 2015. Corporate program goals accounted for 80% of Mr. Daley's annual incentive bonus, while individual goals accounted for the remaining 20%. Based on the corporate achievement score of 87.8% and Mr. Daley's individual performance score of 83.0 %, the Compensation Committee approved a pro-rated annual incentive bonus of \$70,327.

Discretionary Bonuses

The Compensation Committee did not grant any discretionary bonuses to the named executive officers during fiscal year 2015, other than a sign-on bonus of \$75,000 to Dr. Polu which was negotiated in connection with his commencement of employment and the

recognition bonus to Mr. Happel described above. If Dr. Polu discontinues employment with the Company for any reason within 18 months of his start date, he is required to repay the sign-on bonus.

Equity Incentive Awards

We believe that equity awards provided to our executive officers (and all members of our team) create a strong link to our long-term financial, operational and equity market performance, create an ownership culture and closely align the financial interests of our executive officers with the financial interests of our stockholders. Because of the direct relationship between the value of an equity award and the future market price of our common stock, we believe that granting equity awards is the best method of motivating our executive officers to manage in a manner that is consistent with our stockholders' and our Company's interests. In addition, we believe that the four-year vesting requirement of our equity awards promotes executive officer (and staff) retention and motivation because this requirement provides an opportunity to increase the value of the awards over time.

In determining the size of the equity awards granted to our executive officers, our Compensation Committee considers: our corporate performance; the applicable executive officer's performance; comparative competitive levels of equity compensation for peer companies; the vesting of such awards; the number of shares available under the Raptor Pharmaceutical Corp. 2010 Stock Incentive Plan, as amended (the "2010 Plan") and projected future needs to support future staff growth and potential future equity compensation for existing staff; the recommendations of management; and external data sources which support comparative competitive analyses.

With respect to newly hired executives, our practice is to include equity compensation (based on stock options and RSUs) as an integral part of the compensation package for inclusion in the executive's employment agreement. The compensation package, including the stock option and RSU grants, are approved by the Compensation Committee.

Stock Options. Stock options have an exercise price equal to the fair market value of our common stock on the day prior to grant, typically vest over a four-year period and expire ten years after the date of grant. Historically, options vested as to 6/48th of the shares on the six month anniversary of the vesting commencement date with the remaining shares vesting ratably each month thereafter subject to continued employment or service. Beginning in 2016, options vest as to 1/48th of the shares each month over the four-year period subject to continued employment or service. .

Restricted Stock and Restricted Stock Units. Our 2010 Plan authorizes us to grant restricted stock and RSUs in addition to stock options. In January 2015, after reviewing market data including peer group analysis, the Compensation Committee recommended, and in February 2015 the Board of Directors approved, using RSUs as a component in our 2015 equity compensation with (i) a 70% options / 30% RSU value mix for employees at the level of vice-president or above and for our directors and (ii) a 60% options / 40% RSUs value mix for our remaining employees. This design is intended to provide immediate stockholder alignment and provide for added retention incentive. Beginning in 2015, RSUs were awarded as part of new hire grants and annual refresher grants. Our 2015 RSUs awarded to employees vest in four equal annual installments on each anniversary of the date of grant, subject to continued service.

Equity Compensation Award

In February 2015, we approved the following awards of refresher stock options and RSUs to our named executive officers (other than our Chief Executive Officer). The annual refresher grant values were intended to approximate the market 50th percentile. All options granted to our named executive officers are intended to be incentive stock options as defined under Section 422 of the Code, to the extent possible. The stock options and RSUs were weighted 70% options / 30% RSUs in value based mix for Messrs. Happel and Daley. Mr. Lanza was not an executive officer at that time and awards provided to him and other non-executive employees were based on a ratio of 60% options/40% RSUs.

Name	February 2015		February 2015
	Grant Value (1)	Stock Option Grants	RSU Grants
David Happel	\$ 109,177 (2)	19,583	5,229
Ted Daley	240,286	43,100	11,500
Frank Lanza	105,169	18,864	(3) 7,797 (3)

(1) With respect to Messrs. Happel and Daley's awards, the grant values were converted into a number of shares based on the 70% options/30% RSUs mix converted on a value basis using the 30 trading-day average closing price of our common stock ending on January 23, 2015, the date of the Compensation Committee's approval of the equity grant values. Mr. Lanza's option grant value was converted into a number of shares based on the 60% options/40% RSUs mix on a value basis using the 30 day trading

11

day average closing price of our common stock ending on February 10, 2015, the date employee refresher stock option grants were approved by the Equity Incentive Committee.

(2) Mr. Happel's award value was pro-rated to reflect 2.5 months of service, as he commenced employment in October 2014.

(3) Mr. Lanza forfeited his RSU award upon his resignation from the Company in November 2015 and 81% of his option grant.

In connection with her promotion to Chief Executive Officer in January 2015, Ms. Smith received options to purchase 350,000 shares of our common stock, which represented her annual equity grant for 2015 and was negotiated as part of her amended and restated employment agreement. Ms. Smith did not receive any RSU awards in 2015. Subject to Ms. Smith's continued service with the Company, the options vest over a four-year period with 6/48th vesting six months after the vesting commencement date and the remainder vesting ratably each month thereafter based upon continued employment or service. The Compensation Committee reviewed the awards made by the peer companies and the market 50th percentile in determining the award amount and determined that the award approximated the market median of annual grants to peer chief executive officers. In connection with their commencement of employment, each of Messrs. Smith and Polu was granted options to purchase 165,000 shares of our common stock in January 2015 and as such were not eligible to participate in the February annual refresher grant. In connection with the commencement of her employment, in July 2015, Ms. Gould was granted an option to purchase 115,500 shares of our common stock and 33,252 RSUs.

Perquisites and Welfare and Health Benefits

Broad-based benefit plans are an integral component of competitive executive compensation packages. Our benefits include a 401(k) savings plan with a Company matching contribution (when such matching is financially viable), healthcare benefits such as medical, dental, and vision plans, and disability and life insurance benefits which are provided to our executives at the same level at which they are provided to all employees. We have no perquisite benefits, and do not provide any deferred compensation programs or supplemental pensions to any executives. At its discretion, our Compensation Committee may revise, amend or add to the executive's benefits if it deems it advisable.

Other than as disclosed below, during our fiscal year ended December 31, 2015, our executives did not receive any perquisites and were not entitled to benefits that are not otherwise available to all of our employees. In connection with Ms. Smith's promotion in 2014, we agreed to reimburse her for reasonable relocation expenses, not to exceed in the aggregate \$100,000 plus tax gross ups on such expenses, and provided that if her employment with the Company terminates, other than in connection with a "constructive termination" or "termination without cause" (each, as defined in her employment agreement), she will promptly reimburse the Company for (i) the full payment, if such termination occurs prior to the first anniversary of the effective date of her employment and (ii) 50% of the payment, if such termination occurs following the first anniversary but prior to the second anniversary of the effective date of her employment.

During the fiscal year ended December 31, 2015, we did not provide pension arrangements, post-retirement health coverage or similar benefits for our executives or employees.

Separation Benefits

Our named executive officers are entitled to certain severance and change in control payments and benefits pursuant to the terms of their employment agreements which are described below under "Executive Payments upon Termination." In connection with Ms. Smith's promotion to Chief Executive Officer, Ms. Smith's severance protection in the event of a "termination without cause" or "constructive termination" (as each such term is defined in her amended and restated employment agreement) within 12 months following a change in control, was increased to twice her base salary and target bonus. Ms. Smith's COBRA reimbursement period in the event of a termination without cause or constructive termination within 12 months following a change in control was also increased to 24 months following her promotion to Chief Executive Officer on January 1, 2015.

In February 2016, the Compensation Committee approved a new form of Change in Control Severance Agreement between the Company and each of its current executive officers holding a title of senior vice president or higher, including each of Messrs. Smith, Polu and Happel and Ms. Gould (prior to her resignation), but excluding Ms. Smith. Pursuant to the terms of this agreement, in the event an executive is terminated without cause or constructively terminated during the 18 month period following a change in control of the Company, the executive is entitled to receive a cash severance payment equal to 18 months base salary and his or her target annual bonus. In addition, the executive's unvested equity awards automatically become vested and the executive will be entitled to 18 months COBRA coverage, each as more fully described under "Executive Payments upon Termination."

In connection with Mr. Daley's separation from the Company in September 2015 and in consideration of his execution of a release of any claims in favor of the Company, on July 15, 2015, the Company entered into a transition and separation agreement with Mr. Daley pursuant to which he continued to serve as Chief Business Officer and provide transition services to the Company through September 30, 2015. Consistent with the terms of Mr. Daley's transition and separation agreement, Mr. Daley received: (i) severance

consisting of continued base salary for 12 months following his separation date; and (ii) premium payments under COBRA for up to 12 months following his separation date. In addition, as described above, he received a bonus for 2015 based on actual performance for the year, pro-rated through September 30, 2015. Following his separation, Mr. Daley continued to serve the Company as an independent contractor through December 31, 2015 and provided services to the Company on an as-requested basis at an hourly rate of \$250, which totaled \$3,000. Mr. Daley's stock options and RSUs continued to vest while he provided consulting services to the Company, and his vested stock options as of December 31, 2015 will remain exercisable until the earlier of 12 months from September 30, 2015, or the original expiration date of each option.

Following Ms. Gould's separation, she will continue to provide consulting services to the Company as an independent contractor. Ms. Gould's outstanding equity awards will continue to vest while she provides consulting services to the Company.

Section 401(k) Plan

We maintain a qualified retirement plan pursuant to Code Sections 401(a) and 401(k) covering substantially all employees, subject to certain minimum age and service requirements, herein referred to as our "401(k) Plan." Our 401(k) Plan allows employees to make voluntary pre-tax contributions. The assets of the 401(k) Plan are held in trust for participants and are distributed upon the retirement, disability, death or other termination of employment of the participant. Employees who participate in our 401(k) Plan may contribute to their 401(k) account up to the maximum amount that varies annually in accordance with the Code. We also make available to 401(k) Plan participants the ability to direct the investment of their 401(k) accounts in a well-balanced spectrum of various investment funds.

At our discretion, we provide for a Company matching contribution to the 401(k) Plan in the amount of 100% of the first 3% of salary that an employee defers and 50% of the next 2% of salary that an employee defers, in compliance with the Internal Revenue Service's safe harbor rules.

Executive Payments Upon Termination

We have entered into employment agreements with our executive officers that provide for certain severance and other benefits in the event of certain terminations of employment. As described above under "Compensation Discussion and Analysis – Separation Benefits," in February 2016, our Compensation Committee also approved a new form of Change in Control Severance Agreement between the Company and our current executive officers holding a title of senior vice president or higher, including each of Messrs. Smith, Polu and Happel and Ms. Gould, but excluding Ms. Smith, which supersedes the terms of each of those executive officers' existing employment agreements with the Company in the event of certain terminations of employment in connection with a change in control transaction of the Company. These arrangements are designed to retain executives and provide continuity of management in the event of a change in control.

Under Ms. Smith's amended and restated executive employment agreement, if her employment is constructively terminated or terminated by us without cause other than during the 12 months following a Change in Control (as defined in her employment agreement), she will be entitled to receive (i) continued payment of base salary for 12 months after such termination; (ii) payment or reimbursement of health plan coverage under COBRA for up to 12 months; (iii) continued exercisability of all of her vested options or stock appreciation rights with respect to our common stock until the first anniversary of the termination of her employment; and (iv) a lump sum payment equal to the average annual cash bonus she received with respect to the two years preceding the year of termination or, if two annual bonus payment dates have not occurred, the annual bonus she received with respect to the year preceding the year of termination. If Ms. Smith is terminated without cause or is constructively terminated by us within the 12 months following a Change in Control (as defined in her employment agreement), Ms. Smith will be entitled to receive (i) twice the sum of her base salary and target annual cash bonus and (ii) payment or reimbursement of health plan coverage under COBRA for up to 24 months. In addition, each outstanding equity award held by Ms. Smith shall automatically become vested and exercisable until the earlier of the original expiration date of such equity award or the second anniversary of her termination. Each of the foregoing payments and benefits is subject to Ms. Smith's execution of a general release of claims that becomes effective and irrevocable within 60 days following termination.

If Ms. Smith is terminated as the result of death or permanent disability, Ms. Smith will be entitled to (i) continued payment of her base salary for six months and (ii) payment or reimbursement of health plan coverage under COBRA for up to six months.

Under the executive employment agreements of each of Messrs. Happel and Smith, Dr. Polu and Ms. Gould (prior to her resignation), if such executive's employment is constructively terminated or terminated by us without cause other than during the 12 months following a Change in Control (as defined in the executive's employment agreement), the executive is entitled to receive (i) continued payment of base salary for 12 months after such termination; (ii) payment or reimbursement of health plan coverage under COBRA for up to 12 months; and (iii) continued exercisability of all vested options or stock appreciation rights with respect to our common stock until the earlier of (A) the original expiration date of such equity award or (B) the first anniversary of the termination of the executive's employment. Each of the foregoing payments and benefits is subject to the executive's execution of a general release of claims becoming effective and irrevocable within 60 days following termination. If the executive were to be terminated as the result of death or disability, the executive would be entitled to receive (i) the continued payment of his or her base salary for three months and (ii) payment or reimbursement of health plan coverage under COBRA for up to three months.

If, in the fiscal year ended December 31, 2015, any of such executives were terminated without cause or constructively terminated by us within the 12 months following a Change in Control (as defined in such executive's employment agreement), under the terms of such executive employment agreements, the executive would have been entitled to receive a lump sum payment equal to

the sum of 12 months of his or her base salary and his or her target annual bonus; and (ii) payment or reimbursement of health plan coverage under COBRA for up to 12 months. In addition, each outstanding equity award held by the executive would have automatically become vested and exercisable until the earlier of the original expiration date of such equity award or the second anniversary of the executive's termination. As discussed above, beginning in the fiscal year ended December 31, 2016, pursuant to the terms of the Change in Control Severance Agreement approved by the Compensation Committee and entered into between the Company and each such executive, in the event such executive is terminated without cause or is constructively terminated during the 18 month period following a change in control, the executive is entitled to receive a cash severance payment equal to 18 months base salary plus his or her target annual bonus. In addition, the executive's unvested equity awards automatically become vested and the executive will be entitled to 18 months COBRA coverage. Each of the foregoing payments and benefits would be subject to the executive's execution of a general release of claims becoming effective and irrevocable within 60 days following termination.

In addition, pursuant to the terms of the existing Raptor Pharmaceutical Corp. 2010 Stock Incentive Plan (the "Plan"), in the event of a Change in Control of the Company (as defined in the Plan), 50% of the unvested equity awards of all Plan participants, including awards to our executive officers, automatically become vested. In the case in which a Change in Control occurred under the Plan as of December 31, 2015 that did not constitute a qualifying termination under the terms of our executives' employment agreements, the value of the acceleration of Ms. Gould's unvested equity awards on such Change in Control would have been \$86,455 and the value of Mr. Happel's accelerated awards would have been \$13,596.

Year Ended December 31, 2015

The following tables quantify the amounts that we would have owed each of our named executive officers upon each of the termination triggers discussed above under "Executive Payments Upon Termination," assuming a termination date of December 31, 2015; except that in the case of Mr. Daley, amounts described are the actual payments made in connection with his termination.

In February 2015, each non-employee member of our Board of Directors (other than Dr. Gemayel and Mr. Lapointe who were appointed to the Board of Directors in January 2015), received an equity grant consisting of 6,332 stock options and 1,674 restricted stock units (“RSUs”) which vested on the 2015 annual stockholder meeting date. The exercise price for the stock options was \$9.36. This stub period grant was intended to align the timing of director equity grants with the Company’s annual meeting of stockholders. In connection with their new appointments to our Board of Directors, in January 2015, Dr. Gemayel and Mr. Lapointe each received stock options to purchase 40,000 shares of our common stock, vesting at the rate of 1/12th at each quarterly anniversary of their date of appointment to the Board. The exercise price of the options was \$9.98. In addition, the Board approved that each non-employee director of the Board who continued to serve as a non-employee director immediately following the next annual meeting of stockholders in May 2015, excluding Dr. Gemayel and Mr. Lapointe, would be granted 18,996 stock options and 5,021 RSUs. The stock options vest in four equal quarterly installments with the final installment vesting no later than immediately prior to the 2016 annual meeting of stockholders. The exercise price of the options was \$11.55. The RSUs will vest in full on the first anniversary of the date of grant. The vesting of both grants is subject to the non-employee director continuing in service through the vesting date. In April 2016, the Board approved that each non-employee director who is elected at the 2016 annual meeting of stockholders to serve until the 2017 annual meeting of stockholders will be granted 18,996 stock options and 5,021 RSUs. The stock options vest in four equal quarterly installments with the final installment vesting no later than immediately prior to the 2017 annual meeting of stockholders. The RSUs will vest in full on the first anniversary of the date of grant. In addition, in April 2016, the Board approved a pro-rated annual grant award of 7,915 options and 2,092 RSUs to each of Dr. Gemayel and Mr. Lapointe, in order to align their grant cycles with that of other continuing Board members. The pro-rated awards to Dr. Gemayel and Mr. Lapointe will vest no later than immediately prior to the 2016 annual meeting date. The exercise price for Dr. Gemayel and Mr. Lapointe's options was \$5.22. In each case, the exercise price of the stock options granted to our directors reflects the closing price of our common stock on the date immediately prior to the date of grant.

Compensation Committee Interlocks and Insider Participation

No member of our Compensation Committee has served as one of our officers or employees at any time. None of our executive officers serves, or has served during the last fiscal year, as a member of the compensation committee or a member of the board of directors of any other company that has an executive officer serving as a member of our Compensation Committee or our Board of Directors.

Compensation Risks

We believe that risks arising from our compensation policies and practices for our employees are not reasonably likely to have a material adverse effect on the Company. In addition, the Compensation Committee believes that the mix and design of the elements of executive compensation do not encourage management to assume excessive risks.

The Compensation Committee reviewed the elements of executive compensation to determine whether any portion of executive compensation encouraged excessive risk taking, including the following:

- significant weighting towards long-term equity compensation (with multiple year vesting schedules and long expiration terms) discourages short-term risk taking;
- for key decision-making officers, base salary makes up a significant majority of cash compensation even with full achievement of annual incentive (cash) awards; and
- annual incentive (cash) awards are tied to multiple, varying goals such that no single goal determines a large percentage of compensation.

As a pharmaceutical product development company with industry standard long development timelines, prior to our U.S. drug approval in April 2013, we did not face the same level of short-term risks that could affect compensation for employees as compared to other companies in rapidly changing markets. The short-term risks in the capital markets faced by us were largely tied to the approval of and related market exclusivity actions for our product by the FDA and were not under the direct control of our management.

With our U.S. drug approved in April 2013, as a company with an ultra-orphan product in the critical phase of market launch, this risk has increased due to the short term focus of the capital markets on the performance of our emerging product in the pharmaceutical marketplace. This potentially affects both our employees' short-term cash and long-term equity compensation. We believe this risk is mitigated by the factors discussed above. Furthermore, compensation decisions include subjective considerations, which moderate the influence of formulaic or objective factors which may encourage excessive risk taking.

Compensation Committee Report

The Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K of the SEC's rules and regulations with management and, based on such review and discussions, the Compensation Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in our Annual Report on Form 10-K and proxy statement for the 2016 annual meeting of stockholders.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS AND DIRECTOR INDEPENDENCE

Transactions with Related Persons

Our Audit Committee approves and oversees any transaction between the Company and any related person (as defined in Item 404 of Regulation S-K) on an ongoing basis and maintains policies and procedures for the Audit Committee's approval of related party transactions.

Raptor's policy on related party transactions is covered in the company's code of conduct policy. Pursuant to the direction in our Code of Conduct and Business Ethics, authorization from the Audit Committee is required for a director or an officer or their affiliates to enter into a related party transaction or similar transaction which could result in a conflict of interest. Conflicts of interest are prohibited unless specifically authorized in accordance with the Code of Conduct and Business Ethics. Our Audit Committee is responsible for reviewing, reporting and the approval or ratification of each related party transaction. The Audit Committee is responsible for determining if a related party transaction is in the best interest of the Company. The scope of related party transactions or other relationships includes those that would be required to be disclosed in the Proxy Statement as a related party transaction pursuant to applicable NASDAQ or SEC rules.

In general, these transactions and relationships are defined as those involving a direct or indirect material interest of any of our executive officers, directors, nominees for director and 5% stockholders, as well as specified members of the family or households of these individuals or stockholders, including entities in which the related party has a material interest, indebtedness, guarantees of indebtedness or employment by us of a related person, where we or any of our affiliates have participated in the transaction (either as a direct party or by arranging the transaction) and the transactions or series of transactions involves more than \$120,000.

Our general practice is that we may not enter into a related party transaction unless our Corporate Counsel has specifically confirmed in writing that no further reviews are necessary, or that all requisite corporate approvals have been obtained. Our practice excludes transactions, among others, involving compensation of our executive officers or directors that the Board or our Compensation Committee has expressly approved. Indemnification agreements between the Company and our executive officers and directors are outside the scope of related party transactions processes. In the ordinary course of business, our officers occasionally utilize their personal credit cards or cash to pay for expenses on behalf of the Company and the Company reimburses the officers within 30 days.

Since January 1, 2015, there has not been nor is there currently proposed any transaction or series of similar transactions to which we were or are to be a party in which the amount involved exceeds \$120,000 and in which any of our directors, executive officers, nominees for director, persons who we know hold more than 5% of our common stock, or any member of the immediate family of any of the foregoing persons had or will have a direct or indirect material interest other than compensation agreements and other arrangements which are described elsewhere in this proxy statement.

Independence of Our Board of Directors and Current Membership

The current members of our Board of Directors are Raymond W. (Bill) Anderson, Suzanne L. Bruhn, Ph.D., Richard Franklin, M.D., Ph.D., Georges Gemayel, Ph.D., Llew Keltner, M.D., Ph.D., Gregg Lapointe, Julie Anne Smith and Christopher M. Starr, Ph.D. Our Board of Directors has determined that each member of our Board of Directors is independent (as independence is currently defined in Rule 5605(a)(2) of the NASDAQ listing standards), except for Ms. Smith and Dr. Starr. Our Board of Directors has also determined that each member of our Audit Committee, Compensation Committee and Corporate Governance and Nominating Committee is independent as defined by the SEC and NASDAQ rules.

ITEM 14. PRINCIPAL ACCOUNTING FEES AND SERVICES

Changes in Independent Registered Public Accounting Firm

In connection with the matters discussed in Item 5 of Part II of the Company's Quarterly Report on Form 10-Q for the quarterly period ended September 30, 2013, the Audit Committee conducted a competitive process to select a firm to replace Burr Pilger Mayer, Inc. ("BPM") and to serve as the Company's independent registered public accounting firm for the year ending December 31, 2013 and to re-audit the four-month transition period ended December 31, 2012. Upon the conclusion of such process, the Audit Committee approved the engagement of Grant Thornton to replace BPM as the Company's independent registered public accounting firm and, on January 22, 2014, the Audit Committee engaged Grant Thornton as the Company's independent registered public accounting firm.

None of BPM's reports on the Company's consolidated financial statements for the four-month transition period ended December 31, 2012 and for the fiscal years ended August 31, 2012 and 2011 or BPM's audit reports on the effectiveness of internal control over financial reporting for such periods contained an adverse opinion or disclaimer of opinion, and were not qualified or modified as to uncertainty, audit scope or accounting principles, except that the reports for each of the foregoing periods include an

explanatory paragraph regarding uncertainty about the Company's ability to continue as a going concern. During the four-month transition period ended December 31, 2012 and for the fiscal years ended August 31, 2012 and 2011 and through January 15, 2014, there were no disagreements (as referred to in Item 304(a)(1)(iv) of Regulation S-K and the related instructions to Item 304 of Regulation S-K) with BPM on any matter of accounting principles or practices, financial statement disclosure or auditing scope or procedure, which disagreements, if not resolved to the satisfaction of BPM, would have caused it to make reference to the subject matter of the disagreements in its reports on the Company's consolidated financial statements. During the four-month transition period ended December 31, 2012 and for the fiscal years ended August 31, 2012 and 2011 and through January 15, 2014, there were no reportable events (as referred to in Item 304(a)(1)(v) of Regulation S-K).

At the Company's request, BPM provided a letter addressed to the U.S. Securities and Exchange Commission stating that it agrees with the above disclosures. A copy of BPM's letter, dated January 22, 2014, is attached as Exhibit 16.1 to our Current Report on Form 8-K filed with the Securities and Exchange Commission on January 22, 2014 and is incorporated herein by reference.

During the four-month transition period ended December 31, 2012 and for the fiscal years ended August 31, 2012 and 2011, and through January 22, 2014, neither the Company nor anyone on its behalf had consulted with Grant Thornton regarding either (i) the application of accounting principles to a specified transaction, either completed or proposed, or the type of audit opinion that might be rendered on the Company's consolidated financial statements; or (ii) any matter that was the subject of a disagreement (as referred to in Item 304(a)(1)(iv) of Regulation S-K and the related instructions to Item 304 of Regulation S-K) or a reportable event (as referred to in Item 304(a)(1)(v) of Regulation S-K).
