Notes to Consolidated Financial Statements
(Amounts in millions, except otherwise indicated)

1.
The Group's business and general information

Cresud was founded in 1936 as a subsidiary of Credit Foncier, a Belgian company primarily engaged in providing rural and urban loans in Argentina and administering real estate holdings foreclosed by Credit Foncier. Credit Foncier was liquidated in 1959, and as part of such liquidation, the shares of Cresud were distributed to Credit Foncier's shareholders. From the 1960s through the end of the 1970s, the business of Cresud shifted exclusively to agricultural activities.

In 2002, Cresud acquired a 19.85% interest in IRSA, a real estate company related to certain shareholders of Cresud. In 2009, Cresud increased its ownership percentage in IRSA to 55.64% and IRSA became Cresud's direct principal subsidiary.

Cresud and its subsidiaries are collectively referred to hereinafter as the Group.

Main shareholders of the Company are jointly Inversiones Financieras del Sur S.A. and Agroinvestment S.A. Both entities are companies incorporated in Uruguay and belong to the same controlling group and ultimate beneficiary.

The Board of Directors has approved these Financial Statements for issuance on March 1, 2019.

As of December 31, 2018, the Group operates in two major lines of business: (i) agricultural business and (ii) urban properties and investments business, which is divided into two operations centers: (a) Operations Center in Argentina and (b) Operations Center in Israel. They are developed through several operating companies and the main ones are listed below:

- (i)
Corresponds to Group's associates, which are hence excluded from consolidation.
- (ii)
The comparative results are included in discontinued operations, due to the loss of control in June 2018 (see Note 4.(I) to the Annual Financial Statements).
- (iii)
Disclosed as financial assets held for sale.
- (iv)
Assets and liabilities are disclosed as held for sale and the results as discontinued operations.
- (v)
See Note 4 to the Annual Financial Statements for more information about the change within the Operations Center in Israel.

2.
Summary of significant accounting policies

2.1.
Basis of preparation

The CNV, in Title IV "Periodic Information Regime" - Chapter III "Rules relating to the presentation and valuation of financial statements" - Article 1, of its standards, has established the application of the Technical Resolution No. 26 (RT 26) of the FACPCE and its amendments, which adopt IFRS, issued by the IASB, for certain companies included in the public offering regime of Law No. 26,831, either because of its stock or its non-convertible notes, or that have requested authorization to be included in the aforementioned regime.

For the preparation of these financial statements, the Group has made use of the option provided by IAS 34, and has prepared them in condensed form. Therefore, these financial statements do not include all the information required in a complete set of annual financial statements and, consequently, their reading is recommended together with the annual financial statements as of June 30, 2018.

The management of the Group has prepared these financial statements in accordance with the accounting principles established by the CNV, which are based on the application of IFRS, in particular of IAS 34.

Additionally, the information required by the CNV indicated in article 1, Chapter III, Title IV of General Resolution N° 622/13 has been included. This information is included in a note to these financial statements.

IAS 29 "Financial Reporting in Hyperinflationary Economies" requires that the financial statements of an entity whose functional currency is one of a hyperinflationary economy be expressed in terms of the current unit of measurement at the closing date of the reporting period, regardless of whether they are based on the historical cost method or the current cost method. To do so, in general terms, the inflation produced from the date of acquisition or from the revaluation date, as applicable, must be calculated by non-monetary items. This requirement also includes the comparative information of the financial statements.

In order to conclude on whether an economy is categorized as high inflation in the terms of IAS 29, the standard details a series of factors to be considered, including the existence of an accumulated inflation rate in three years that is approximate or exceed 100%. Accumulated inflation in Argentina in three years is over 100%. It is for this reason that, in accordance with IAS 29, Argentina must be considered a country with high inflation economy starting July 1, 2018.

In addition, Law No. 27,468 (published in the Official Gazette on December 4, 2018), amended Section 10 of Law No. 23,928, as amended, and established that the derogation of all the laws or regulations imposing or authorizing price indexation, monetary restatement, cost variation or any other method for strengthening debts, taxes, prices or rates of goods, works or services, does not extend to financial statements, as to which the provisions of Section 62 in fine of the General Companies Law No. 19,550 (1984 revision), as amended, shall continue to apply. Moreover, the referred law repealed Decree No. 1269/2002 dated July 16, 2002, as amended, and delegated to the Argentine Executive Branch the power to establish, through its controlling agencies, the effective date of the referred provisions in connection with the financial statements filed with it. Therefore, under General Resolution 777/2018 (published in the Official Gazette on December 28, 2018) the Argentine Securities Commission (CNV) ordered that issuers subject to its supervision shall apply the inflation adjustment to reflect the financial statements in terms of the current measuring unit set forth in IAS 29 in their annual, interim and special financial statements closed on or after December 31, 2018.

Pursuant to IAS 29, the financial statements of an entity whose functional currency is that of a high inflationary economy should be reported in terms of the measuring unit current as of the date of the financial statements. All the amounts included in the statement of financial position which are not stated in terms of the measuring unit current as of the date of the financial statements should be restated applying the general price index. All items in the statement of income should be stated in terms of the measuring unit current as of the date of the financial statements, applying the changes in the general price index occurred from the date on which the revenues and expenses were originally recognized in the financial statements.

Adjustment for inflation in the initial balances has been calculated considering the indexes reported by the Argentine Federation of Professional Councils in Economic Sciences (FACPCE) based on the price indexes published by the Argentine Institute of Statistics and Census (INDEC).

The principal inflation adjustment procedures are the following:

- Monetary assets and liabilities that are recorded in the current currency as of the balance sheet's closing date are not restated because they are already stated in terms of the currency unit current as of the date of the financial statements.
- Non-monetary assets and liabilities are recorded at cost as of the balance sheet date, and equity components are restated applying the relevant adjustment ratios.
- All items in the statement of income are restated applying the relevant conversion factors.
- The effect of inflation in the Company's net monetary position is included in the statement of income under Financial results, nets, in the item "Inflation adjustment".
- Comparative figures have been adjusted for inflation following the procedure explained in the previous paragraphs.

Upon initially applying inflation adjustment, the equity accounts were restated as follows:

- Capital was restated as from the date of subscription or the date of the most recent inflation adjustment for accounting purposes, whichever is later. The resulting amount was included in the "Capital adjustment" account.
- The translation differences was restated to reflect the real terms.
- Other comprehensive income / (loss) was restated as from each accounting allocation.
- The other reserves in the statement of income were not restated as of the initial application date, i.e., June 30, 2016.

2.2

Accounting policies

The accounting policies applied in the presentation of these Financial Statements are consistent with those applied in the preparation of the Annual Financial Statements, as described in Note 2.2 to those Financial Statements except for what it's mentioned in Note 2.1 to the present Financial Statements.

As described in Note 2.2 to the Annual Financial Statements, the Group adopted IFRS 15 "Revenues from contracts with customers" and IFRS 9 "Financial instruments" in the present fiscal year using the cumulative effect approach, so that the cumulative impact of the adoption was recognized in the retained earnings at the beginning of the period, and the comparative figures have not been modified due to this adoption.

The main changes are the following:

IFRS 15: Revenues from contracts with customers

The standard introduces a new five-step model for recognizing revenue from contracts with customers:

- 1) Identifying the contract with the customer.
- 2)

Identifying separate performance obligations in the contract.

3)

Determining the transaction price.

4)

Allocating the transaction price to separate performance obligations.

5)

Recognizing revenue when the performance obligations are satisfied.

IFRS 9: Financial instruments

The new standard includes a new model of "expected credit loss" for receivables or other assets not measured at fair value. The new model presents a dual measurement approach for impairment: if the credit risk of a financial asset has not increased significantly since its initial recognition, an allowance for impairment will be recorded in the amount of expected credit losses resulting from the possible non-compliance events within a certain period. If the credit risk has increased significantly, in most cases the allowance will increase, and the amount of the expected losses should be recorded.

In accordance with the new standard, in cases where a change in terms or exchange of financial liabilities is immaterial and does not lead, at the time of analysis, to the reduction of the previous liability and recognition of the new liability, the new cash flows must be discounted at the original effective interest rate, recording the impact of the difference between the present value of the financial liability that has the new terms and the present value of the original financial liability in net income.

Comparability of information

Balance items as of June 30, 2018 and December 31, 2017 presented in these Financial Statements for comparative purposes arise from the financial statements as of and for such period, restated in accordance with IAS 29. Certain items from prior periods have been reclassified for consistency purposes regarding the loss of control in Shufersal. See note 4.(1) to Annual Financial Statements.

2.4

Use of estimates

The preparation of Financial Statements at a certain date requires Management to make estimations and evaluations affecting the amount of assets and liabilities recorded and contingent assets and liabilities disclosed at such date, as well as income and expenses recorded during the period. Actual results might differ from the estimates and evaluations made at the date of preparation of these financial statements. In the preparation of these financial statements, the significant judgments made by Management in applying the Group's accounting policies and the main sources of uncertainty were the same as the ones applied by the Group in the preparation of the Annual Financial Statements described in Note 3 to those Financial Statements.

3.

Seasonal effects on operations

Agricultural business

Some of the Group's businesses are more affected by seasonal effects than others. The operations of the Group's agricultural business are subject to seasonal effects. The harvests and sale of grains in Argentina generally take place each year since March in the case of corn and soybean, since October in the case of wheat, and since December in the case of sunflower. In Brazil, the harvest and sale of soybean take place since February, and in the case of corn weather conditions make it possible to have two seasons, therefore the harvest take place between March and July. In Bolivia, weather conditions also make it possible to have two soybean, corn and sorghum seasons and, therefore, these crops are harvested in July and May, whereas wheat is harvested in August and September, respectively. In the case of sugarcane, harvest and sale take place between April and November of each year. Other segments of the agricultural business, such as beef cattle production tend to be more stable. However, beef cattle production is generally larger during the second quarter, when conditions are more favorable. As a result, there may be material fluctuations in the agricultural business results across quarters.

Urban properties and investments business

Operations Center in Argentina

The operations of the Group's shopping malls are subject to seasonal effects, which affect the level of sales recorded by lessees. During summer time in Argentina (January and February), the lessees of shopping malls experience the lowest sales levels in comparison with the winter holidays (July) and Christmas and year-end holidays celebrated in December, when they tend to record peaks of sales. Apparel stores generally change their collections during the spring and the fall, which impacts positively on shopping malls sales. Sale discounts at the end of each season also affect the business. As a consequence, for shopping mall operations, a higher level of business activity is expected in the period ranging between July and December, compared to the period between January and June.

Operations Center in Israel

The results of operations of telecommunications and tourism are usually affected by seasonality in summer months in Israel and by the Jewish New Year, given a higher consumption due to internal and external tourism.

4.

Acquisitions and disposals

Significant acquisitions and disposals for the six-month period ended December 31, 2018 are detailed below. Significant acquisitions and disposals for the fiscal year ended June 30, 2018, are detailed in Note 4 to the Annual Financial Statements.

Agricultural business

Sale of Jatobá

On June 13, 2018, the Group, through its subsidiary Brasilagro, entered into an agreement to sell a total area of 9,784 hectares (7,485 hectares of agricultural land) from Jatobá Establishment, a rural property located in the municipality of Jaborandi.

On July 31, 2018, the buyer made the payment of the first installment of 300,000 bags of soybeans, for an amount of Ps. 156, in accordance with the conditions set in the contract, obtaining the deed and enabling the accounting recognition of the income by the Group, for the value of 285 bags per useful hectare, equivalent to Ps. 916. The outstanding amount will be paid in six annual installments.

Sale of Alto Taquari

On November 21, 2018, the Group, through its subsidiary Brasilagro, entered into a sale agreement for 103 hectares of the Alto Taquari farmlands. The sale price is 1,100 bags of soybeans per useful hectare equivalent to Ps. 63.4. The buyer made the initial payment of 22,656 bags of soybeans equivalent to Ps. 14; and the balance will be paid in eight semi-annual installments. The result of the operation recognized in the current period was Ps. 51.

Urban properties and investments business

Operations Center Argentina

Dividend distribution

On October 29, 2018 the Shareholder's meeting of Cresud's subsidiary IRSA was held, whereby the distribution of a dividend in kind for an equivalent of Ps. 1,412 payables in shares of IRSA CP was resolved. For the distribution, the value of IRSA CP share was taken as of October 26, 2018, which was Ps. 220 per share. The number of shares distributed amounted to 6,418,182, of which Cresud has received 4,068,097. This transaction was accounted for as an equity transaction generating a decrease in the equity attributable to holders of the parent for Ps. 99, restated as of the date of these financial statements.

Operations Center Israel

Sale of a subsidiary of IDBT

On August 14, 2018, the Board of Directors of IDB Tourism approved its engagement in a memorandum of understanding for the sale of 50% of the issued share capital of a company which manages the incoming tourism operation which is held by Isair for a total consideration of NIS 26 million (approximately Ps. 260 as of the date of the transaction). This transaction does not change the intentions of selling the whole investment in IDBT, which the management of the company expects to complete before June 2019.

Sale of Clal shares

On August 30, 2018 continuing with the instructions given by the Commissioner of Capital Markets, Insurance and Savings of Israel, IDBD has sold 5% of its stake in Clal through a swap transaction in the same conditions that applied to the swap transactions performed in the preceding months of May and August 2017, January and May 2018 described in Note 4 to the Annual Consolidated Financial Statements. The consideration was set at an amount of approximately NIS 173 million (equivalent to approximately Ps. 1,766 as of the transaction date). After the completion of the transaction, IDBD's interest in Clal was reduced to 29.8% of its share capital.

Agreement to sell plot of land in USA

In August 2018, a subsidiary of IDBG signed an agreement to sell a plot of land next to the Tivoli project in Las Vegas for a consideration of US\$ 18 (approximately Ps. 739 as of the date of issuance of these financial statements).

Interest increase in DIC

On July 5, 2018 Tyrus acquired 2,062,000 of DIC's shares in the market for a total amount of NIS 20 (equivalent to Ps. 227 as of that date), which represent 1.35% of the Company's outstanding shares at such date. As a result of this transaction, the Group's equity interest has increased from 76.57% to 77.92%. This transaction was accounted for as an equity transaction generating an increase in the net equity attributable to the controlling shareholders by Ps. 7.

Sale of Shufersal shares

On November 27, 2018, DIC sold 7.5% of the total shares of Shufersal to institutional investors for a consideration of NIS 416 (approximately Ps. 4,166 as of the date of the transaction). After this transaction, the group holding went down to 26% approximately.

Sale of real estate

In October 2018, a subsidiary of Ispro signed an agreement for the sale of all of its rights in real estate area of approximately 29 dunams (equivalent to 1 hectare), in which there are 12,700 square meters in the northern industrial zone in Yavneh for NIS 86.

Increase in participation in PBC

In December 2018, DIC acquired an additional 3% of PBC in the market for NIS 55 (equivalent to Ps. 554 as of that date). This transaction was accounted for as an equity transaction generating an increase in the equity attributable to holders of the parent for Ps. 52, restated as of the date of these financial statements.

Repurchase of own shares by DIC

In December 2018, DIC's Board of Directors approved a plan to buy back DIC shares, for a period of one year, until December 2019 amounting up to NIS 120 (approximately Ps. 1,203 as of the date of these financial statements). Acquisition of securities shall be carried out in accordance with market opportunities, dates, prices and quantities, as determined by the management of DIC, in such a way that in any event, the public holdings shall be, at any time, at least 10.1% of the total issued share capital of DIC.

In December 2018, DIC acquired 2.1 million shares for a total amount of NIS 19 (approximately Ps. 200 as of that date). Additionally, in December 2018, minority shareholders of DIC exercised DIC Series 6 options for an amount of NIS 9 (approximately Ps. 100 as of that date).

As a result of the operations described above, the participation of Dolphin IL in DIC increased by 0.35%. The present transactions were accounted for as an equity transaction generating a decrease in the equity attributable to holders of the parent for Ps. 31, restated as of the date of these financial statements.

Increase in participation in Cellcom

In December 2018, Discount Investment exercised 1.5 million options (Series 1) of Cellcom held by it in the amount of NIS 31 million (approximately Ps. 302 as of that date). In addition, in December 2018, DIC purchased approximately 0.6 million shares of Cellcom at a cost of NIS 15 million (approximately Ps. 151 as of that date). As a result of the exercise of the options and the acquisition, the share of DIC in Cellcom increased by 0.7%. The present transactions were accounted for as an equity transaction generating a decrease in the equity attributable to holders of the parent for Ps. 93, restated as of the date of these financial statements.

Increase in participation in Elron

In November and December 2018 DIC acquired an additional 9.2% of Elron in the market for NIS 31 (equivalent to Ps. 311 as of that date). This transaction was accounted for as an equity transaction generating a decrease in the equity attributable to holders of the parent for Ps. 23, restated as of the date of these financial statements.

Financial risk management and fair value estimates

These Financial Statements do not include all the information and disclosures on financial risk management; therefore, they should be read along with Note 5 to the Annual Financial Statements. There have been no changes in risk management or risk management policies applied by the Group since year-end.

Since June 30, 2018 and up to the date of issuance of these Financial Statements, there have been no significant changes in business or economic circumstances affecting the fair value of the Group's assets or liabilities, except for what is mentioned in Note 6, (either measured at fair value or amortized cost). Furthermore, there have been no transfers between the different hierarchies used to assess the fair value of the Group's financial instruments.

Segment information

As explained in Note 6 to the Annual Consolidated Financial Statements, segment information is reported from the perspective of products and services: (i) agricultural business and (ii) urban properties and investment business. In addition, this last segment is reported divided from the geographic point of view in two Operations Centers to manage its global interests: Argentina and Israel. As from fiscal year 2018 the CODM reviews the operating income/loss of each business excluding the amounts related to management fees, being such amount reviewed at an aggregate level outside each business. Additionally, the CODM reviews certain corporate expenses associated with each business in an aggregate manner and separately from each of the segments, such expenses have been disclosed in the "Corporate" segment of each business and operation center. Also, as described in Note 4.(l) to the Annual Financial Statements, the Group lost control of Shufersal as of June 30, 2018 and has reclassified its results to discontinued operations. Segment information for the period ended December 31, 2017 has been recast for the purposes of comparability with the present period

Below is a summary of the Group's business units and a reconciliation between the operating income according to segment information and the operating income of the statement of income and other comprehensive income of the Group for the periods ended December 31, 2018 and 2017:

Metropolitan, a subsidiary of New Lipstick, has renegotiated its non-recourse debt with IRSA, which amounted to US\$ 113.1, and obtained a debt reduction of US\$ 20 by the lending bank, an extension to April 30, 2020 and an interest rate reduction from LIBOR + 4 b.p. to 2 b.p. upon payment of US\$ 40 in cash (US\$ 20 in September 2017 and US\$ 20 in October 2017), of which IRSA has contributed with US\$ 20. Following the renegotiation, Metropolitan's debt amounts to US\$ 53.1. Additionally, Metropolitan has exercised on January 16, 2019 the purchase option on part of the land where the property is built with a deposit the sum of US\$ 5.2 corresponding to 1% of the purchase price. Furthermore, Metropolitan has agreed to cause IRSA and other shareholders to furnish the bank, on or before February 1, 2020, with a payment guarantee with financial ratios acceptable to the Bank for the outstanding balance of the purchase price, or a letter of credit in relation to the loan balance then outstanding.

Puerto Retiro (joint venture)

At present, this 8.3 hectare plot of land, which is located in one of the most privileged areas of the city, near Catalinas, Puerto Madero and Retiro and is the only privately owned waterfront property facing directly to Río de la Plata, is affected by a zoning regulation defined as U.P. which prevents the property from being used for any purposes other than strictly port activities.

The Company was involved in a judicial bankruptcy action brought by the National Government, to which this Board of Directors is totally alien. Management and legal counsel of the Company believe that there are sufficient legal and

technical arguments to consider that the petition for extension of the bankruptcy case will be dismissed by the court. However, in view of the current status of the action, its result cannot be predicted.

Moreover, Tandanor filed a civil action against Puerto Retiro S.A. and the other defendants in the criminal case for violation of Section 174 (5) based on Section 173 (7) of the Criminal Code of Argentina. Such action seeks -on the basis of the nullity of the decree that approved the bidding process involving the Dársena Norte property- the restitution of the property and a reimbursement in favor of Tandanor for all such amounts it has allegedly lost as a result of a suspected fraudulent transaction involving the sale of the property. Puerto Retiro has presented the allegation on the merit of the evidence, highlighting that the current shareholders of Puerto Retiro did not participate in any of the suspected acts in the criminal case since they acquired the shares for consideration and in good faith several years after the facts told in the process. Likewise, it was emphasized that the company Puerto Retiro is foreign to the bidding / privatization carried out for the sale of Tandanor shares. The dictation of the sentence is expected.

On September 7, 2018, the Oral Federal Criminal Court No. 5 rendered a decision. According to the sentence read by the president of the Court, Puerto Retiro won the preliminary objection of limitation filed in the civil action. However, in the criminal case, where Puerto Retiro is not a party, it was ordered, among other issues, the confiscation (“decomiso”) of the property owned by Puerto Retiro known as Planta I. The grounds of the Court’s judgement will be read on November 11, 2018. From that moment, all the parties will be able to file the appeals. Although there are solid arguments to try to refute the disposed seizure, this can be affirmed with a greater degree of certainty after the publications of the fundamentals of the ruling, at this time only the resolute part of this ruling is known.

In the criminal action, the claimant reported the violation by Puerto Retiro of the injunction ordered by the criminal court consisting in an order to stay (“prohibición de innovar”) and not to contract with respect to the property disputed in the civil action. As a result of such report, the Oral Federal Court (Tribunal Oral Federal) No. 5 started interlocutory proceedings, and on June 8, 2017, it ordered and carried out the closing of the property that was subject to lease agreements with Los Cipreses S.A. and Flight Express S.A. with the aim of enforcing the referred order. As a result, the proceedings were forwarded to the Criminal Court for it to appoint the court that will investigate the alleged commission of the crime of contempt.

Faced with the evolution of the legal cases that affect it and based on the reports of its legal advisors, Puerto Retiro Management has decided to register an allowance equivalent to 100% of the book value of its investment property, without prejudice to reverse it when a favorable ruling is obtained in the interposed actions.

Biological assets with a production cycle of more than one year (that is, cattle) generated "Initial recognition and changes in fair value of biological assets" amounting to Ps. (149) and Ps. (226) for the six-month periods ended December 31, 2018 and for the fiscal year ended June 30, 2018, respectively; amounts of Ps. (91) and Ps. (159), was attributable to price changes, and amounts of Ps. (58) and Ps. (67), was attributable to physical changes, respectively.

During the six-month period ended December 31, 2018, there were transfers between the fair value hierarchies 1 and 3 of grain seeding (due to the degree of phenological growth of the crop) for Ps. 61. There were also no reclassifications between categories thereof.

The fair value less estimated point of sale costs of agricultural produce at the point of harvest (which have been harvested during the period) amount to Ps. 2,558 and Ps. 4,531 for the six-month period ended December 31, 2018

and the year ended June 30, 2018, respectively.

See information on valuation processes used by the entity in Note 13 to the Annual Financial Statements.

As of December 31, 2018 and June 30, 2018, the better and maximum use of biological assets shall not significantly differ from the current use.

The fair value of financial assets and liabilities at their amortized cost does not differ significantly from their book value, except for borrowings (Note 20). The fair value of payables approximates their respective carrying amounts because, due to their short-term nature, the effect of discounting is not considered significant. Fair values are based on discounted cash flows (Level 3).

The valuation models used by the Group for the measurement of Level 2 and Level 3 instruments are no different from those used as of June 30, 2018.

As of December 31, 2018, there have been no changes to the economic or business circumstances affecting the fair value of the financial assets and liabilities of the Group.

Equity

Cresud's Shareholder's meeting

On October 29, 2018, the Shareholders' Meeting of Cresud was held, which approved, among other things: (i) to allocate the profit for the fiscal year ended June 30, 2018, which showed a profit of Ps. 4,983, to the integration of a special reserve that may be allocated to the distribution of future dividends, to the development of projects and businesses aligned with the business plan of the Company or for the cancellation of liabilities, delegating to the board of Directors the implementation of the actions necessary for the application of the funds to any of said destinations; (ii) allocate the unallocated results in the amount of Ps. 9,646 to the constitution of a special reserve that may be destined for future dividends, to the development of projects and businesses aligned with the business plan of the Company or for the cancellation of liabilities; (iii) the distribution of treasury shares for up to the sum of 20,656,215 shares, allocating (a) the amount of 93,020 shares to the incentive plan for employees of the Company and (b) the amount of 20,563,195 to the shareholders in proportion to their stake; and (ii) amend articles of the corporate statute numbers eighth (related to the issuance of shares), eleventh (referred to Negotiable Obligations) and twenty-second (related to the Audit Committee), to adapt it to the new legal provisions.

Distribution of treasury shares

In accordance with the resolutions Shareholders' Meeting held on October 9, 2018 and the provisions of the Board of Directors of Cresud on the same day, the distribution of treasury stock of the Company duly acquired by a company took place on November 12, 2018. The number of shares distributed was 20,656,215, which constitutes

0.04294551131 shares per ordinary share and 0.4294551131 per ADS, and a percentage of 4.171713807% of the capital of Ps. 502 and 4.294551131% of the net capital which exclude treasury shares of Ps. 481.

Buyback plan of Cresud shares

The Board of Directors of Cresud approved the buyback plan and established the terms and conditions for the acquisition of treasury shares, under the terms of Article 64 of Law No. 26,831 and the rules of the CNV, for up to a maximum amount of Ps. 300 million and up to 10% of the share capital in the form of ordinary shares or ADSs, up to a daily limit of up to 25% of the average volume of shares in both markets, during the previous 90 business days, and at a price comprised between a minimum of Ps. 1 per share and up to a maximum of US \$ 15.50 per ADS and up to a maximum value in pesos equivalent to the maximum price per ADS divided by 10 and multiplied by the exchange rate of the Banco de la Nación Argentina at every purchase date. Additionally, the length of the buyback plan was set, up to 90 days, beginning the day following the date of publication of the information in the Daily Bulletin of the Buenos Aires Stock Exchange.

During the six-month period ended December 31, 2018, the Company acquired 249,215 ordinary shares (VN \$ 1 per share) for a total of Ps. 11 and 240,487 ADS (representing 2,404,870 ordinary shares) for a total of US\$ 2.8 (equivalent to Ps. 107). As of the date of issuance of these financial statements, no deadline has been established for the use of the shares acquired.

CNV General Ruling N° 629/14 – Storage of documentation

On August 14, 2014, the CNV issued General Ruling N° 629 whereby it introduced amendments to rules related to storage and conservation of corporate books, accounting books and commercial documentation. In this sense, it should be noted that the Group has entrusted the storage of certain non-sensitive and old information to the following providers:

Documentation storage provider	Location
--------------------------------	----------

Edgar Filing: CRESUD INC - Form 6-K

Bank S.A.	Gral. Rivas 401, Avellaneda, Province of Buenos Aires Ruta Panamericana Km 37,5, Garín, Province of Buenos Aires Av. Fleming 2190, Munro, Province of Buenos Aires Carlos Pellegrini 1401, Avellaneda, Province of Buenos Aires

Other relevant events of the period

Class action

Based on the resolution adopted by the New York Court in the class action filed against IRSA Inversiones y Representaciones S.A. and the Company that was dismissed by a resolution adopted by said Court on September 10, 2018, the plaintiffs of the Company filed a motion recognizing that, based on the provisions of the Court in the aforementioned resolution, the action for dismissal could eventually be dismissed. class initiated against Cresud, reserving the right to appeal to them.

The Company maintains that the allegations are unfounded and will continue to make a firm defense. See Note 20 to the Annual Financial Statements.

DIC class action

On October 3, 2018 it was sent an action and a motion to approve that action as a class action (jointly – the "Motion"), which had been filed with the District Court of Tel Aviv Yafo (the "Court") against the Group; against Mr. Eduardo Elsztain, the controlling person of the Company (the "Controlling Person"), who serves as chairman of the Company's board of directors; against directors serving in the Group who have an interest in the Controlling Person; and against additional directors and officers serving in the Company (all jointly – the "Respondents"), in connection with the exit of the Company's share, on February 1, 2018, from the TA 90 and TA 125 indices, whereon it had been traded on the Tel Aviv Stock Exchange Ltd. up to that date (the "Indices"), by an applicant alleging to have held the Group's shares prior to February 1, 2018 and thereafter (the "Applicant").

In the Motion, the Court is requested, inter alia, to approve the action as a class action and to charge the Respondents with compensating the members of the group according to the damage caused them. The estimated amount is approximately NIS 17.6 million.

The Company believes that it acted lawfully and as required in all that pertains to the subject of the Motion, and accordingly, after having preliminarily reviewed the Group's Motion, feels that it is unfounded.

IDBD class action

On October 3, 2018, an action and a motion to approve a class action had been filed with the District Court in Tel Aviv Yafo (jointly – the "Motion"). The Motion had been filed, against the IDBD, against Dolphin IL, against Mr. Eduardo Elsztain and against the Official Receiver, and in it, the court was requested to hold that the Transaction was not in compliance with the provisions of the Centralization Law, to appoint a trustee over DIC's shares owned by the respondents and to order the payment of monetary damages to the public shareholders in DIC for the alleged preservation of the pyramidal structure in IDBD, at a scope of between NIS 58 and 73 million.

The bulk of the Applicant's allegations is that the Group continues to be the Controlling Person in DIC (potentially and effectively) even after the completion of the sale of DIC shares to DIL as described in Note 4 in the annual financial statements (the "transaction") and that the controlling person of the IDBD (in his capacity as chairman of the board of directors and controlling person of DIC as well) had a personal interest separate from the personal interest of the minority shareholders in DIC, in the manner of implementation of the Centralization Law's provisions, and that he and the Group breached the duty of good faith and the duty of decency toward DIC, and additionally the controlling person of IDBD breached his duty of trust and duty of care toward DIC, this being, allegedly, due to the fact that the

decision regarding the preferred alternative for complying with the Centralization Law's Provisions was not brought before DIC's general meeting. The Applicant further alleges deprivation of the minority shareholders in DIC.

Having preliminarily reviewed the Motion, the Management feels that it is unfounded and that it will not change the fact that after the making of the Transaction, IDBD complies with the provisions of the Centralization Law, all as set forth in the Company's reports.

Subsequent events

Partial sale of Clal

On January 2, 2019 continuing with the instructions given by the Commissioner of Capital Markets, Insurance and Savings of Israel, IDBD has sold 4.5% of its stake in Clal through a swap transaction in the same conditions that applied to the swap transactions performed in the preceding months of May and August 2017, January, May and August 2018 described in Note 4 to the Annual Consolidated Financial Statements. The consideration was set at an amount of approximately NIS 127 million (equivalent to approximately Ps. 1,270 as of the transaction date). After the completion of the transaction, IDBD's interest in Clal was reduced to 25.3% of its share capital.

Additionally, on January 2, 2019 the swap transaction was completed with respect to 555,788 shares of Clal, which constitute 1% of the issued capital of Clal. It is hereby clarified that the terms of the swap transaction will remain in effect with respect to the balance of shares of Clal which are the subject of the swap transaction, which constitute approximately 29% of the issued capital of Clal as of the date of these financial statements.

DIC buyback plan

As indicated in Note 4 to these financial statements, DIC Board of Directors approved a plan to buy back DIC shares. During January and February of 2019 DIC acquired 10.1 million additional shares for a total amount of NIS 96 (approximately Ps. 969 as of the date of these financial statements), and the market holding after these repurchases amounted to 15.92 %.

Sale of Tarshop

On February 14, 2019, the Group sold its entire stake in Tarshop to BHSA. With this acquisition BHSA. will become the holder of 100% of the capital of said company. The price of the operation was established at USD 0.1, which have already been received.

The parties agreed that the seller will be entitled to a variable compensation, if the buyer, in a period not exceeding 2 years, sell all or part of the participation to a third party.

The result transcended to third parties for this transaction was approximately Ps. 66.

Payment of management fee

On January 10, 2019, the deferred fees for the 2012-2016 period and the accrued fees from 2017 to June 2018 corresponding to the management agreement signed with CAMSA for the total amount of \$ 1,130 were paid. The payment was made approximately one third in cash, one third with shares of IRSA and one third with shares of IRSA CP, both owned by the Company. The aforementioned payment was approved by the Board of Directors of the Company and the Audit Committee.

REVIEW REPORT ON THE UNAUDITED CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

To the Shareholders, President and Directors of
Cresud Sociedad Anónima, Comercial, Inmobiliaria, Financiera y Agropecuaria
Legal address: Moreno 877 – 23° floor
Autonomous City Buenos Aires
Tax Code No. 30-50930070-0

Introduction

We have reviewed the unaudited condensed interim consolidated financial statements of Cresud Sociedad Anónima, Comercial, Inmobiliaria, Financiera y Agropecuaria, and its subsidiaries (hereinafter “the Company”) which included the unaudited condensed interim consolidated statements of financial position as of December 31, 2018, and the unaudited condensed interim consolidated statement of comprehensive income for the six and three-month period ended December 31, 2018 and the unaudited condensed interim consolidated statement of changes in shareholders’ equity and the unaudited condensed interim consolidated statement of cash flows for the six-month period ended December 31, 2018 and selected explanatory notes.

The balances and other information corresponding to the fiscal year ended June 30, 2018 and the interim periods within that fiscal year are an integral part of these financial statements and, therefore, they should be considered in relation to those financial statements.

Management responsibility

The Board of Directors of the Company is responsible for the preparation and presentation of these unaudited condensed interim consolidated financial statements in accordance with the International Financial Reporting Standards, adopted by the Argentine Federation of Professional Councils in Economic Sciences (FACPCE) as professional accounting standards and added by the National Securities Commission (CNV) to its regulations as approved by the International Accounting Standard Board (IASB) and, for this reason, is responsible for the preparation and presentation of the unaudited condensed interim consolidated financial statements mentioned in first paragraph according to the International Accounting Standard No. 34 "Interim Financial Reporting" (IAS 34).

REVIEW REPORT ON THE UNAUDITED CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

Scope of our review

Our review was limited to the application of the procedures established in the International Standard on Review Engagements ISRE 2410 "Review of interim financial information performed by the independent auditor of the entity", which was adopted as a review standard in Argentina in Technical Resolution No. 33 of the FACPCE as approved by the International Auditing and Assurance Standards Board (IAASB). A review of interim financial information consists of making inquiries of persons responsible for the preparation of the information included in the unaudited condensed interim consolidated financial statements, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion on the consolidated statement of financial position, the consolidated statement of comprehensive income and consolidated statement of cash flow of the Company.

Conclusion

Nothing came to our attention as a result of our review that caused us to believe that these unaudited condensed interim consolidated financial statements above mentioned in the introductory paragraph of this report have not been prepared in all material respects in accordance with the regulations of the International Accounting Standard No. 34.

Cresud Sociedad Anónima,
Comercial, Inmobiliaria, Financiera y Agropecuaria

1.
General information

Cresud Sociedad Anónima, Comercial, Inmobiliaria, Financiera y Agropecuaria (“Cresud” or the “Company”) was founded in 1936 as a subsidiary of Credit Foncier, a Belgian company primarily engaged in providing rural and urban loans in Argentina and administering real estate holdings foreclosed by Credit Foncier. Credit Foncier was liquidated in 1959, and as part of such liquidation, the shares of Cresud were distributed to Credit Foncier’s shareholders. From the 1960s through the end of the 1970s, the business of Cresud shifted exclusively to agricultural activities.

Cresud is a company organized and domiciled in the Republic of Argentina. The address of its registered office is Moreno 877, 23rd Floor, Buenos Aires, Argentina.

These Unaudited Condensed Interim Separate Financial Statements have been approved for issue by the Board of Directors on March 1, 2019.

2.
Basis of preparation of the Unaudited Condensed Interim Separate Financial Statements

2.1.
Basis of preparation

The National Securities Commission (CNV), in Title IV "Periodic Information Regime" - Chapter III "Rules relating to the presentation and valuation of financial statements" - Article 1, of its standards, has established the application of the Technical Resolution No. 26 (RT 26) of the FACPCE and its amendments, which adopt FRS, issued by the IASB, for certain companies included in the public offering regime of Law No. 26,831, either because of its stock or its non-convertible notes, or that have requested authorization to be included in the aforementioned regime.

For the preparation of these solo financial statements, the Company has use the option provided in IAS 34, and has prepared them in condensed form. Therefore, these financial statements do not include all the information required in a complete set of annual financial statements and, consequently, their reading is recommended together with the annual financial statements as of June 30, 2018.

In view of what has been mentioned in the preceding paragraphs, the management of the Company has prepared these financial statements in accordance with the accounting principles established by the CNV, which is based on the application of IFRS, in particular of IAS 34, with the only exception to the application of IAS 29 (which determines the mandatory restatement of financial statements), excluded by the CNV from its accounting framework.

Additionally, the information required by the CNV indicated in article 1, Chapter III, Title IV of RG N ° 622/13 has been included. This information is included in a note to these solo financial statements.

IAS 29 "Financial Reporting in Hyperinflationary Economies" requires that the financial statements of an entity whose functional currency is one of a hyperinflationary economy be expressed in terms of the current unit of measurement at the closing date of the reporting period, regardless of whether they are based on the historical cost method or the current cost method. To do so, in general terms, the inflation produced from the date of acquisition or from the revaluation date, as applicable, must be calculated in the non-monetary items. This requirement also includes the comparative information of the financial statements.

In order to conclude on whether an economy is categorized as high inflation in the terms of IAS 29, the standard details a series of factors to be considered, including the existence of an accumulated inflation rate in three years that is Approximate or exceed 100%. Accumulated inflation in three years is over 100%. It is for this reason that, in accordance with IAS 29, the Argentine economy must be considered as high inflation starting July 1, 2018.

In addition, Law No. 27,468 (published in the Official Gazette on December 4, 2018), amended Section 10 of Law No. 23,928, as amended, and established that the derogation of all the laws or regulations imposing or authorizing price indexation, monetary restatement, cost variation or any other method for strengthening debts, taxes, prices or rates of goods, works or services, does not extend to financial statements, as to which the provisions of Section 62 in fine of the General Companies Law No. 19,550 (1984 revision), as amended, shall continue to apply. Moreover, the referred law repealed Decree No. 1269/2002 dated July 16, 2002, as amended, and delegated to the Argentine Executive Branch the power to establish, through its controlling agencies, the effective date of the referred provisions in connection with the financial statements filed with it. Therefore, under General Resolution 777/2018 (published in the Official Gazette on December 28, 2018) the Argentine Securities Commission (CNV) ordered that issuers subject to its supervision shall apply the inflation adjustment to reflect the financial statements in terms of the current measuring unit set forth in IAS 29 in their annual, interim and special financial statements closed on or after December 31, 2018.

Cresud Sociedad Anónima,
Comercial, Inmobiliaria, Financiera y Agropecuaria

Pursuant to IAS 29, the financial statements of an entity whose functional currency is that of a high inflationary economy should be reported in terms of the measuring unit current as of the date of the financial statements. All the amounts included in the statement of financial position which are not stated in terms of the measuring unit current as of the date of the financial statements should be restated applying the general price index. All items in the statement of income should be stated in terms of the measuring unit current as of the date of the financial statements, applying the changes in the general price index occurred from the date on which the revenues and expenses were originally recognized in the financial statements.

Adjustment for inflation in the initial balances has been calculated considering the indexes reported by the Argentine Federation of Professional Councils in Economic Sciences (FACPCE) based on the price indexes published by the Argentine Institute of Statistics and Census (INDEC).

The principal inflation adjustment procedures are the following:

- Monetary assets and liabilities that are recorded in the current currency as of the balance sheet's closing date are not restated because they are already stated in terms of the currency unit current as of the date of the financial statements.
- Non-monetary assets and liabilities are recorded at cost as of the balance sheet date, and equity components are restated applying the relevant adjustment ratios.
- All items in the statement of income are restated applying the relevant conversion factors.
- The effect of inflation in the Company's net monetary position is included in the statement of income under Financial results, net, in the item "Income / (loss) from exposure to changes in the currency's purchasing power".
- Comparative figures have been adjusted for inflation following the procedure explained in the previous paragraphs.

Upon initially applying inflation adjustment, the equity accounts were restated as follows:

- Capital was restated as from the date of subscription or the date of the most recent inflation adjustment for accounting purposes, whichever is later.
- The resulting amount was included in the "Capital adjustment" account.
- The conversion difference was restated in real terms (as applicable).
- Other comprehensive income / (loss) was restated as from each accounting allocation.
- The other reserves in the statement of income were not restated as of the initial application date, i.e., June 30, 2016.

2.2.

Accounting policies

The accounting policies applied in the preparation of these Unaudited Condensed Interim Financial Statements are consistent with those applied in the Annual Consolidated Financial Statements as of June 30, 2018.

As described in Note 2.2 to the Annual Consolidated Financial Statements, the Company, mainly through its subsidiaries, adopted IFRS 15 "Revenues from contracts with customers" and IFRS 9 "Financial instruments" in the present fiscal year using the modified retrospective approach, so that the cumulative impact of the adoption was recognized in the retained earnings at the beginning, and the comparative figures have not been modified due to this adoption.

Cresud Sociedad Anónima,
Comercial, Inmobiliaria, Financiera y Agropecuaria

The main changes are the following:

IFRS 15: Revenues from contracts with customers

The standard introduces a new five-step model for recognizing revenue from contracts with customers:

1. Identifying the contract with the customer.
2. Identifying separate performance obligations in the contract.
3. Determining the transaction price.
4. Allocating the transaction price to separate performance obligations.
5. Recognizing revenue when the performance obligations are satisfied.

IFRS 9: Financial instruments

The new standard includes a new model of "expected credit loss" for receivables or other assets not measured at fair value. The new model presents a dual measurement approach for impairment: if the credit risk of a financial asset has not increased significantly since its initial recognition, an allowance for impairment will be recorded in the amount of expected credit losses resulting from the possible non-compliance events within a certain period. If the credit risk has increased significantly, in most cases the allowance will increase and the amount of the expected losses should be recorded.

In accordance with the new standard, in cases where a change in terms or exchange of financial liabilities is immaterial and does not lead, at the time of analysis, to the reduction of the previous liability and recognition of the new liability, the new cash flows must be discounted at the original effective interest rate, recording the impact of the difference between the present value of the financial liability that has the new terms and the present value of the original financial liability in net income.

2.3. Comparative information

The balances as of June 30, 2018 and December 31, 2017, which are disclosed for comparative purposes, arise from the financial statements at such dates restated in accordance with IAS 29.

2.4. Use of estimates

The preparation of financial statements at a certain date requires the Management to make estimations and evaluations affecting the amount of assets and liabilities recorded and contingent assets and liabilities disclosed at such date, as well as income and expenses recorded during the period. Future results might differ from the estimates and evaluations made at the date of preparation of these Unaudited Condensed Interim Separate Financial Statements.

In the preparation of these Unaudited Condensed Interim Separate Financial Statements, the significant judgments made by Management in applying the Company's accounting policies and the main sources of uncertainty were the same applied by the Company in the preparation of the Separate Financial Statements for the fiscal year ended June 30, 2018, described in Note 3 to them.

3.
Seasonal effects on operations

The operations of the Company are also subject to seasonal effects. The harvests and sale of grains (corn, soybean and sunflower) generally take place between January and September every year. Wheat is generally harvested between November and February every year. However, milk production is generally larger during the second quarter, when conditions are more favorable. As a result, there may be material fluctuations in the agricultural business results each quarter.

4.
Acquisitions and disposals

See summary of acquisitions and additional disposals of the Company for the six-month period ended December 31, 2018 in Note 4 to Unaudited Condensed Interim Consolidated Financial Statements.

5.
Financial risk management and fair value estimates

5.1. Financial risk

The Company's activities are exposed to several financial risks, market risk (including exchange rate risk, interest rate risk and price risk), credit risk, liquidity risk and capital risk.

The Unaudited Condensed Interim Separate Financial Statements do not include all the information and disclosures of the risk management, so they should be read together with the Annual Separate Financial Statements as of June 30, 2018. There have been no significant changes in the risk management or risk management policies applied by the Company since the fiscal year.

5.2. Fair value estimates

Since June 30, 2018, to the balance sheet date, there have been no significant changes in business or economic circumstances affecting the fair value of the Company's financial assets, liabilities or biological assets (either measured at fair value or amortized cost). Nor there have been transfers between the several hierarchies used in estimating the fair value of the Company's financial instruments, or reclassifications among their respective categories.

The fair value of current trade and other receivables approximate their respective carrying amounts because, due to their short-term nature, as the impact of discounting is not considered significant. Fair values are based on discounted cash flows (Level 2 of fair value hierarchy).

Cresud Sociedad Anónima,
Comercial, Inmobiliaria, Financiera y Agropecuaria

The carrying amounts of the Company's trade and other receivables denominated in foreign currencies are detailed in Note 27.

Trade receivables are generally presented in the statement of financial position net of allowances for doubtful receivables. Impairment policies and procedures by type of receivables are discussed in detail in Note 2.17 to the Consolidated Financial Statements as of June 30, 2018.

Movements on the Company's allowance for doubtful accounts are as follows:

	12.31.18	06.30.18
Beginning of the period / year	11	15
Charges	(1)	1
Result from exposure to changes in the purchasing power of the currency	(1)	(5)
End of the period / year	9	11

The addition and release of allowance for doubtful accounts have been included in "Selling expenses" in the Unaudited Condensed Interim Separate Statement of Income and Other Comprehensive Income (Note 21). Amounts charged to the provision account are generally written off when there is no expectation of recovering additional cash.

CNV General Ruling N° 629/14 – Storage of documentation

On August 14, 2014, the CNV issued General Ruling N° 629 whereby it introduced amendments to rules related to storage and conservation of corporate books, accounting books and commercial documentation. In this sense, it should

be noted that the Company has entrusted the storage of certain non-sensitive and old information to the following providers:

Documentation storage provider	Location
Bank S.A.	Ruta Panamericana Km 37,5, Garín, Province of Buenos Aires Av. Fleming 2190, Munro, Province of Buenos Aires Carlos Pellegrini 1401, Avellaneda, Province of Buenos Aires
Iron Mountain Argentina S.A.	Av. Amancio Alcorta 2482, Autonomous City of Buenos Aires Pedro de Mendoza 2143, Autonomous City of Buenos Aires Saraza 6135, Autonomous City of Buenos Aires Azara 1245, Autonomous City of Buenos Aires Polígono industrial Spegazzini, Autopista Ezeiza Km 45, Cañuelas, Province of Buenos Aires Cañada de Gomez 3825, Autonomous City of Buenos Aires

It is further noted that a detailed list of all documentation held in custody by providers, as well as documentation required in section 5 a.3) of section I, Chapter V, Title II of the RULES (N.T. 2013 as amended) are available at the registered office.

On February 5, 2014 there was a widely known fire in Iron Mountain's warehouse, which is a supplier of the Company and where Company's documentation was being kept. Based on the internal review carried out by the Company, duly reported to CNV on February 12, 2014, the information kept at the Iron Mountain premises that were on fire do not appear to be sensitive or capable of affecting normal operations.

Introduction

We have reviewed the unaudited condensed interim separate financial statements of Cresud Sociedad Anónima, Comercial, Inmobiliaria, Financiera y Agropecuaria (hereinafter “the Company”) which included the unaudited condensed interim separate statements of financial position as of December 31, 2018, and the unaudited condensed interim separate statements of comprehensive income for the six-month period ended December 31, 2018 and the unaudited condensed interim separate statements of changes in shareholders’ equity and the unaudited condensed interim separate statements of cash flows for the six-month period ended December 31, 2018 and selected explanatory notes.

The balances and other information corresponding to the fiscal year ended June 30, 2018 and the interim periods within that fiscal year are an integral part of these financial statements and, therefore, they should be considered in relation to those financial statements.

Management responsibility

The Board of Directors of the Company is responsible for the preparation and presentation of these unaudited condensed interim separate financial statements in accordance with the International Financial Reporting Standards (IFRS) adopted by the Argentine Federation of Professional Councils in Economic Sciences (FACPCE) as professional accounting standards and added by the National Securities Commission (CNV) to its regulations, as approved by the International Accounting Standard Board (IASB) and, for this reason, is responsible for the preparation and presentation of the unaudited condensed interim separate financial statements above mentioned in the introductory paragraph according to the International Accounting Standard No 34 "Interim Financial Reporting" (IAS 34).

REVIEW REPORT ON THE UNAUDITED CONDENSED
INTERIM SEPARATE FINANCIAL STATEMENTS (Continued)

Scope of our review

Our review was limited to the application of the procedures established in the International Standard on Review Engagements ISRE 2410 "Review of interim financial information performed by the independent auditor of the entity", which was adopted as a review standard in Argentina in Technical Resolution No. 33 of the FACPCE as approved by the International Auditing and Assurance Standards Board (IAASB). A review of interim financial information consists of making inquiries of persons responsible for the preparation of the information included in the unaudited condensed interim separate financial statements, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion on the separate statement of financial position, the separate statement of comprehensive income and separate statement of cash flow of the Company.

Conclusion

Nothing came to our attention as a result of our review that caused us to believe that these unaudited condensed interim separate financial statements above mentioned in the introductory paragraph of this report have not been prepared in all material respects in accordance with International Accounting Standard 34.

Summary as of December 31, 2018

I. Brief comment on the Company's activities during the period, including references to significant events occurred after the end of the period.

Financial Statements adjusted for inflation

IAS 29 "Financial Reporting in Hyperinflationary Economies" requires that the financial statements of an entity whose functional currency is one of a hyperinflationary economy be expressed in terms of the current unit of measurement at the closing date of the reporting period, regardless of whether they are based on the historical cost method or the current cost method. To do so, in general terms, the inflation produced from the date of acquisition or from the revaluation date, as applicable, must be calculated by non-monetary items. This requirement also includes the comparative information of the financial statements.

In order to conclude on whether an economy is categorized as high inflation in the terms of IAS 29, the standard details a series of factors to be considered, including the existence of an accumulated inflation rate in three years that is approximate or exceed 100%. Accumulated inflation in Argentina in three years is over 100%. It is for this reason that, in accordance with IAS 29, Argentina must be considered a country with high inflation economy starting July 1, 2018.

In addition, Law No. 27,468 (published in the Official Gazette on December 4, 2018), amended Section 10 of Law No. 23,928, as amended, and established that the derogation of all the laws or regulations imposing or authorizing price indexation, monetary restatement, cost variation or any other method for strengthening debts, taxes, prices or rates of goods, works or services, does not extend to financial statements, as to which the provisions of Section 62 in fine of the General Companies Law No. 19,550 (1984 revision), as amended, shall continue to apply. Moreover, the referred law repealed Decree No. 1269/2002 dated July 16, 2002, as amended, and delegated to the Argentine Executive Branch the power to establish, through its controlling agencies, the effective date of the referred provisions in connection with the financial statements filed with it. Therefore, under General Resolution 777/2018 (published in the Official Gazette on December 28, 2018) the Argentine Securities Commission (CNV) ordered that issuers subject to its supervision shall apply the inflation adjustment to reflect the financial statements in terms of the current measuring unit set forth in IAS 29 in their annual, interim and special financial statements closed on or after December 31, 2018.

Pursuant to IAS 29, the financial statements of an entity whose functional currency is that of a high inflationary economy should be reported in terms of the measuring unit current as of the date of the financial statements. All the amounts included in the statement of financial position which are not stated in terms of the measuring unit current as of the date of the financial statements should be restated applying the general price index. All items in the statement of income should be stated in terms of the measuring unit current as of the date of the financial statements, applying the changes in the general price index occurred from the date on which the revenues and expenses were originally recognized in the financial statements.

Adjustment for inflation in the initial balances has been calculated considering the indexes reported by the Argentine Federation of Professional Councils in Economic Sciences (FACPCE) based on the price indexes published by the

Argentine Institute of Statistics and Census (INDEC).

The principal inflation adjustment procedures are the following:

- Monetary assets and liabilities that are recorded in the current currency as of the balance sheet's closing date are not restated because they are already stated in terms of the currency unit current as of the date of the financial statements.

- Non-monetary assets and liabilities are recorded at cost as of the balance sheet date, and equity components are restated applying the relevant adjustment ratios.

- All items in the statement of income are restated applying the relevant conversion factors.

- The effect of inflation in the Company's net monetary position is included in the statement of income under Financial results, net, in the item "Inflation adjustment".

- Comparative figures have been adjusted for inflation following the procedure explained in the previous paragraphs.

Cresud Sociedad Anónima, Comercial, Inmobiliaria, Financiera y Agropecuaria
Summary as of December 31, 2018

Upon initially applying inflation adjustment, the equity accounts were restated as follows:

-

Capital was restated as from the date of subscription or the date of the most recent inflation adjustment for accounting purposes, whichever is later. The resulting amount was included in the "Capital adjustment" account.

-

The translation difference was recast to reflect the real terms.

-

Other comprehensive income / (loss) was restated as from each accounting allocation.

-

The other reserves in the statement of income were not restated as of the initial application date, i.e., June 30, 2016.

The net result showed a loss of ARS 5,620 million for the first semester of 2019 compared to the same period of fiscal year 2018, mainly due to a loss from changes in the fair value of the investment properties of our subsidiary IRSA in Argentina.

Agricultural Business

Period Summary

The 2019 season is developing in Argentina under a mild “El Niño” pattern. Given the best productive conditions and the most competitive exchange rate, we plan to increase the planted area to 258,700 hectares, mainly in leased farms in the region.

As concerns sale of farms, in the second quarter of fiscal year 2019 ours subsidiary Brasilagro has consummated the sale of a fraction of 103 hectares of “Alto Taquarí” farm, located in Mato Grosso State, for an amount of BRL 8.0 million (BRL/ha 77,670). It should be noticed that during the first quarter of 2019 it has been consummated the sale of a fraction of 9,784 hectares of its "Jatobá" farm, located in Jaborandi, Bahía State, Brazil for BRL 177.8 million (BRL / ha 18,172).

Segment Income – Agricultural Business

D)
Land Development, Transformation and Sales

We periodically sell properties that have reached a considerable appraisal to reinvest in new farms with higher appreciation potential. We analyze the possibility of selling based on a number of factors, including the expected

future yield of the farmland for continued agricultural and livestock exploitation, the availability of other investment opportunities and cyclical factors that have a bearing on the global values of farmlands.

During the first six-months of fiscal year 2019, our subsidiary Brasilagro has sold dos fractions of farms. In the first quarter, it has sold a fraction of 9,784 hectares of its "Jatobá" farm, located in Jaborandi, Bahía State, Brazil for BRL 177.8 million (BRL / ha 18.172). The farm was valued in books at BRL 18.0 million and the internal rate of return in dollars reached 7.05%. In the second quarter of the fiscal year, Brasilagro has consummated the sale of a fraction of 103 hectares of its "Alto Taquari" farm, located in Mato Grosso State for BRL 8.0 million (BRL / ha 77,670). The farm was valued in books at BRL 1.2 million and the internal rate of return in dollars reached 17.2%.

In relation to the fraction of Jatobá sold in IQ19, this farm was considered as investment property in IQ18 since it was leased to third parties. The sale of the farm made in IQ19 had no impact on results since it has already been recognized at fair value. Adjusted EBITDA, which excludes changes in fair value of investment properties and includes the fair value realized from the sale, reflected that result and reached ARS 930 million for the six-month period of FY19.

The result of the Grains activity increased ARS 303 million, from ARS 13 million gain during the first semester of 2018 to ARS 316 million gain during the same quarter of 2019, mainly as a result of:

Edgar Filing: CRESUD INC - Form 6-K

Cresud Sociedad Anónima, Comercial, Inmobiliaria, Financiera y Agropecuaria
Summary as of December 31, 2018

A positive variation in the production result of ARS 309.6 million originated mainly by the expected early soybean production in Brazil (BRL 16.4 million), an improvement in wheat dollar prices, boosted by the increase in the exchange rate and higher yields in Argentina, as well as a significant improvement in the yields of winter soybeans in Bolivia.

A positive variation from the result of commodity derivatives, net from income from sales, of ARS 45.8 million from:

Higher operated volumes in soybean and corn derivatives, as well as the impact of the exchange rate depreciation in Argentina.

Higher operated volume in soybean derivatives and better prices in Brazil.

The effects mentioned above were offset by a negative variation in the holding result of ARS 52.0 million, mainly due to the drop in soybean and peanut prices in Argentina compared to the prices of the beginning of this period, while in the previous period, prices were higher

The result of the Sugarcane activity decreased ARS 48 million, from a ARS 363 million gain in the first semester of the fiscal year 2018 to ARS 315 million gain in the first semester of 2019. This is mainly due to lower production results from Brazil as a result of an increase in production costs for cultural and irrigation work in "São José" field, as well as higher costs of cutting, hauling and transport as a result of the increase in fuels in said country, and an increase in administrative expenses allocated to the activity, offset by a gain in the sale result generated by higher prices due to an improvement in the quality of the sugarcane produced.

The result of the Cattle activity decreased by ARS 15 million: from a loss of ARS 159 million in the first semester of fiscal year 2018 to a loss of ARS 174 million in the same period of 2019, as a result of a negative variation in income for sale in Argentina, due to a greater number of cattle heads commercialized in the previous period, offset by a reduction in the general and administrative expenses allocated to the activity in Argentina.

The result of the activity increased by ARS 9 million, going from a profit of ARS 2 million in the first semester of FY 2018 to a profit of ARS 11 million in the same period of FY 2019 mostly due to a growth in hectares leased to third parties, accompanied by an increase in the prices of contracts agreed in soybean bags, along with the collection of an additional amount for productivity on extraordinary yields, partially offset by an increase in general and administrative expenses allocated to the activity.

III) Other Segments

We include within "Others" the results coming from our Agroindustrial activity, developed in our refrigeration plant in La Pampa and our investment in FyO.

The result of the "Others" segment increased by ARS 281 million, going from a loss of ARS 83 million for the first semester fiscal year 2018 to a gain of ARS 198 million for the same period of 2019. This is due to a profit of ARS 260.8 million from FyO due to higher grain and supplies operated volumes and the effect of devaluation, and a lower loss recorded in the meatpacking facility as a result of the positive impact of the exchange rate depreciation in Argentina on its total sales, mainly in foreign markets due to the entry into new markets such as Russia and the profits for export refunds.

EBITDA Reconciliation

In this summary report we present EBITDA and Adjusted EBITDA. We define EBITDA as profit for the period excluding: (i) result of discontinued operations, (ii) income tax expense, (iii) financial results, net iv) results from participation in associates and joint ventures; and (v) depreciation and amortization. We define Adjusted EBITDA as EBITDA minus net profit from changes in the fair value of investment properties, not realized.

EBITDA and Adjusted EBITDA are non-IFRS financial measures that do not have standardized meanings prescribed by IFRS. We present EBITDA and adjusted EBITDA because we believe they provide investors supplemental measures of our financial performance that may facilitate period-to-period comparisons on a consistent basis. Our management also uses EBITDA and Adjusted EBITDA from time to time, among other measures, for internal planning and performance measurement purposes. EBITDA and Adjusted EBITDA should not be construed as an alternative to profit from operations, as an indicator of operating performance or as an alternative to cash flow provided by operating activities, in each case, as determined in accordance with IFRS. EBITDA and Adjusted EBITDA, as calculated by us, may not be comparable to similarly titled measures reported by other companies. The table below presents a reconciliation of profit for the relevant period to EBITDA and Adjusted EBITDA for the periods indicated:

For the six-month period ended December 31 (in ARS million)

Cresud Sociedad Anónima, Comercial, Inmobiliaria, Financiera y Agropecuaria
Summary as of December 31, 2018

Prospects for fiscal year

The 2019 Campaign is developing in Argentina under the climatic characteristics of a neutral “el niño” phenomenon, with precipitations level above the average. We expect an increase in the country’s agricultural production greater than 30%, mainly driven by Soybean and Corn. Regarding the markets, in the case of oilseeds, the price trend will be influenced by the development of the trade conflict between China and the US, Should this dispute continue, we would see lower prices in the US and firmer prices in South America due to China's demand orientation towards this origin, while, if resolved, we would see a positive reaction from the Chicago quotes at the expense of the FOB premiums from South America. For cereals, the decline in production in the countries of Europe and Eastern Europe provide support to prices, providing good prospects for their prices.

Given the new agricultural scenario, with more competitive exchange rates in Argentina and Brazil, Cresud plans to plant more than 258,000 hectares in the region and to produce more than 800,000 tons, a historical record. Likewise, the Company is strongly complementing its activity in its own farms with farms leased to third parties in Argentina, Brazil and Bolivia.

Regarding livestock activity, we will focus on improving productivity by minimizing the impact of increased costs due to the economic situation, working efficiently to achieve the highest possible operating margins. We will continue concentrating our cattle production in our own farms, mainly in the Northwest of the country and hoping to continue appreciating the cattle price.

Regarding the transformation and farmland sales, we hope to get the permits to increase the area under development since we have a large area of land reserves in the region with agricultural and / or livestock potential while we will continue to sell the farms that have reached their maximum level of appreciation.

In relation to our urban properties and investments segment, the diversification in real estate assets of our subsidiary IRSA, in Argentina and abroad, including the United States and Israel, protects us from the exchange rate volatility of the last months. We trust in the value of our investment in IRSA and we expect good results for FY 2019.

We believe that companies like Cresud, with many years of experience and great knowledge of the sector, will have excellent opportunities to take advantage in the market, especially considering that our main job is to produce food for a world population that grows and demands it.
