

NEW PEOPLES BANKSHARES INC
Form 10-Q
August 14, 2018

UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

WASHINGTON, D.C. 20549

FORM 10-Q

Part I Quarterly Report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

For the quarterly period ended June 30, 2018

Part II Transition Report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

For the transition period from _____ to _____

Commission file number: 000-33411

NEW PEOPLES BANKSHARES, INC.

(Exact name of registrant as specified in its charter)

Virginia

(State or other jurisdiction of
incorporation or organization)

31-1804543

(I.R.S. Employer

Identification No.)

67 Commerce Drive

Honaker, Virginia

24260

(Address of principal executive offices) (Zip Code)

(Registrant's telephone number, including area code) **(276) 873-7000**

n/a

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes No

Edgar Filing: NEW PEOPLES BANKSHARES INC - Form 10-Q

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of “large accelerated filer,” “accelerated filer,” “smaller reporting company,” and “emerging growth company” in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer
Non-accelerated filer Smaller reporting company
Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

Indicate the number of shares outstanding of each of the issuer’s classes of common stock, as of the latest practicable date:

Class	Outstanding at August 11, 2018
Common Stock, \$2.00 par value	23,922,086

NEW PEOPLES BANKSHARES, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 NATURE OF OPERATIONS:

New Peoples Bankshares, Inc. (the “Company”) is a financial holding company whose principal activity is the ownership and management of a community bank, New Peoples Bank, Inc. (the “Bank”). The Bank was organized and incorporated under the laws of the Commonwealth of Virginia. As a state-chartered member bank, the Bank is subject to regulation by the Virginia Bureau of Financial Institutions, the Federal Deposit Insurance Corporation and the Federal Reserve Bank. The Bank provides general banking services to individuals, small and medium size businesses and the professional community of southwestern Virginia, southern West Virginia, and eastern Tennessee. Services include commercial and consumer loans along with traditional deposit products such as checking and savings accounts.

NOTE 2 ACCOUNTING PRINCIPLES:

These consolidated financial statements conform to U. S. generally accepted accounting principles and to general industry practices. In the opinion of management, the accompanying consolidated financial statements contain all adjustments (consisting of only normal recurring accruals) necessary to present fairly the Company’s financial position at June 30, 2018 and December 31, 2017, and the results of operations for the three and six-month periods ended June 30, 2018 and 2017. The notes included herein should be read in conjunction with the notes to the consolidated financial statements included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2017. The results of operations for interim periods are not necessarily indicative of the results of operations that may be expected for a full year or any future period.

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The determination of the adequacy of the allowance for loan losses and the determination of the deferred tax asset and related valuation allowance are based on estimates that are particularly susceptible to significant changes in the economic environment and market conditions.

NOTE 3 EARNINGS PER SHARE:

Basic earnings per share computations are based on the weighted average number of shares outstanding during each period. Dilutive earnings per share reflect the additional common shares that would have been outstanding if dilutive potential common shares had been issued. Potential common shares that may be issued related to outstanding common stock warrants are determined by the Treasury method. For the three and six months ended June 30, 2017, potential common shares of 880,136 were anti-dilutive and were not included in the calculation. There were no anti-dilutive potential common shares at June 30, 2018. Basic and diluted net income per common share calculations follow:

(Amounts in Thousands, Except Share and Per Share Data)	For the three months ended June 30,		For the six months ended June 30,	
	2018	2017	2018	2017
Net income (loss)	\$(49) \$2,577	\$31	\$2,692
Weighted average shares outstanding	23,922,086	23,355,503	23,922,086	23,355,198
Dilutive shares for warrants	—	—	—	—
Weighted average dilutive shares outstanding	23,922,086	23,355,503	23,922,086	23,355,198
Basic income (loss) per share	\$(0.00) \$0.11	\$0.00	\$0.12
Diluted income (loss) per share	\$(0.00) \$0.11	\$0.00	\$0.12

NOTE 4 CAPITAL:**Capital Requirements and Ratios**

The Bank is subject to various capital requirements administered by federal banking agencies. Failure to meet minimum capital requirements can initiate certain mandatory and, possibly, additional discretionary actions by regulators that, if undertaken, could have a direct material effect on the Bank's financial statements. Under capital adequacy guidelines and the regulatory framework for prompt corrective action, the Bank must meet specific capital guidelines that involve quantitative measures of assets, liabilities, and certain off-balance sheet items as calculated under regulatory accounting practices. The capital amounts and classification are also subject to qualitative judgments by the regulators about components, risk weightings, and other factors.

Quantitative measures established by regulation to ensure capital adequacy require the Bank to maintain minimum ratios of Tier 1 and total capital as a percentage of assets and off-balance sheet exposures, adjusted for risk weights ranging from 0% to 1250%. Tier 1 capital consists of common stockholders' equity, excluding the unrealized gain or loss on securities available-for-sale, minus certain intangible assets. Tier 2 capital consists of the allowance for loan losses subject to certain limitations. Total capital for purposes of computing the capital ratios consists of the sum of Tier 1 and Tier 2 capital. The Bank is also required to maintain capital at a minimum level based on quarterly average assets, which is known as the leverage ratio.

The Company meets eligibility criteria of a small bank holding company in accordance with the Federal Reserve Board's Small Bank Holding Company Policy Statement issued in February 2015, and is no longer obligated to report consolidated regulatory capital. The Bank's actual capital amounts and ratios are presented in the following table as of June 30, 2018 and December 31, 2017, respectively. These ratios comply with Federal Reserve rules to align with the Basel III Capital requirements effective January 1, 2015.

	Actual		Minimum Capital Requirement		Minimum to Be Well Capitalized Under Prompt Corrective Action Provisions	
(Dollars are in thousands)	Amount	Ratio	Amount	Ratio	Amount	Ratio
June 30, 2018:						
Total Capital to Risk Weighted Assets:						
New Peoples Bank, Inc.	69,208	14.69 %	\$37,699	8.0 %	\$47,124	10.0 %
Tier 1 Capital to Risk Weighted Assets:						
New Peoples Bank, Inc.	63,920	13.56 %	28,274	6.0 %	37,699	8.0 %
Tier 1 Capital to Average Assets:						

Edgar Filing: NEW PEOPLES BANKSHARES INC - Form 10-Q

New Peoples Bank, Inc. Common Equity Tier 1 Capital to Risk Weighted Assets:	63,920	9.51 %	26,895	4.0 %	33,619	5.0 %
New Peoples Bank, Inc.	63,920	13.56 %	21,206	4.5 %	30,631	6.5 %
December 31, 2017:						
Total Capital to Risk Weighted Assets:						
New Peoples Bank, Inc.	68,787	15.30 %	\$35,970	8.0 %	\$44,962	10.0 %
Tier 1 Capital to Risk Weighted Assets:						
New Peoples Bank, Inc.	63,160	14.05 %	26,977	6.0 %	35,970	8.0 %
Tier 1 Capital to Average Assets:						
New Peoples Bank, Inc. Common Equity Tier 1 Capital to Risk Weighted Assets:	63,160	9.56 %	26,422	4.0 %	33,028	5.0 %
New Peoples Bank, Inc.	63,160	14.05 %	20,233	4.5 %	29,225	6.5 %

As of June 30, 2018, the Bank was well capitalized under the regulatory framework for prompt corrective action. To be categorized as well capitalized, an institution must maintain minimum total risk-based, Tier 1 risk-based, Tier 1 leverage, and Common Equity Tier 1 ratios as set forth in the above tables. There were no subsequent conditions or events that management believes have changed the Bank's category.

Under Basel III Capital requirements, a capital conservation buffer of 0.625% became effective beginning on January 1, 2016. The capital conservation buffer will be gradually increased through January 1, 2019 to 2.50%. Banks will be required to maintain levels that meet the required minimum plus the capital conservation buffer in order to make distributions, such as dividends, or discretionary bonus payments.

NOTE 5 INVESTMENT SECURITIES:

The amortized cost and estimated fair value of securities (all available-for-sale ("AFS")) are as follows:

(Dollars are in thousands)	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Approximate Fair Value
June 30, 2018				
U.S. Government Agencies	\$22,022	\$8	\$(444)	\$21,586
Taxable municipals	4,447	-	(170)	4,277
Corporate bonds	5,430	86	(138)	5,378
Mortgage backed securities	34,095	1	(1,342)	32,754
Total Securities AFS	\$65,994	\$95	\$(2,094)	\$63,995
December 31, 2017				
U.S. Government Agencies	\$23,986	\$79	\$(221)	\$23,844
Taxable municipals	4,466	9	(78)	4,397
Corporate bonds	5,437	168	(26)	5,579
Mortgage backed securities	37,950	3	(685)	37,268
Total Securities AFS	\$71,839	\$259	\$(1,010)	\$71,088

The following table details unrealized losses and related fair values in the available-for-sale portfolio. This information is aggregated by the length of time that individual securities have been in a continuous unrealized loss position as of June 30, 2018 and December 31, 2017.

	Less than 12 Months	12 Months or More	Total
	Fair Value	Unrealized	Fair Value
		Fair	Unrealized

Edgar Filing: NEW PEOPLES BANKSHARES INC - Form 10-Q

(Dollars are in thousands)		Losses	Value	Losses	Value	Losses
June 30, 2018						
U.S. Government Agencies	\$9,751	\$(132)	\$9,433	\$(312)	\$19,184	\$(444)
Taxable municipals	3,527	(120)	750	(50)	4,277	(170)
Corporate bonds	2,393	(138)	-	-	2,393	(138)
Mtg. backed securities	11,066	(359)	21,631	(983)	32,697	(1,342)
Total Securities AFS	\$26,737	\$(749)	\$31,814	\$(1,345)	\$58,551	\$(2,094)
December 31, 2017						
U.S. Government Agencies	\$7,840	\$(69)	\$7,189	\$(152)	\$15,029	\$(221)
Taxable municipals	2,403	(44)	767	(34)	3,170	(78)
Corporate bonds	1,507	(26)	-	-	1,507	(26)
Mtg. backed securities	14,720	(145)	21,500	(540)	36,220	(685)
Total Securities AFS	\$26,470	\$(284)	\$29,456	\$(726)	\$55,926	\$(1,010)

At June 30, 2018, there were nineteen U.S. Government Agency securities, two taxable municipal securities, and sixty-five mortgage backed securities that had been in a loss position for greater than twelve months. Management believes that all unrealized losses have resulted from temporary changes in the interest rates and current market conditions and not as a result of credit deterioration. Management does not intend to sell, and it is not likely that the Bank will be required to sell any of the securities referenced in the table above before recovery of their amortized cost.

Investment securities with a carrying value of \$10.0 million and \$11.0 million at June 30, 2018 and December 31, 2017, respectively, were pledged as collateral to secure public deposits and for other purposes required by law.

There were no sales of investment securities during the six months ended June 30, 2018 or June 30, 2017.

The amortized cost and fair value of investment securities at June 30, 2018, by contractual maturity, are shown in the following schedule. Expected maturities will differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties.

(Dollars are in thousands)				Weighted
<u>Securities Available-for-Sale</u>	Amortized	Fair		Average
	Cost	Value		Yield
Due in one year or less	\$1	\$1		-%
Due after one year through five years	3,932	3,816		1.93%
Due after five years through ten years	15,524	15,206		3.26%
Due after ten years	46,537	44,972		2.38%
Total	\$65,994	\$63,995		2.56%

The Bank, as a member of the Federal Reserve Bank and the Federal Home Loan Bank, is required to hold stock in each. The Bank also owns stock in CBB Financial Corp., which is a correspondent of the Bank. These equity securities are restricted from trading and are recorded at a cost of \$3.1 million and \$2.6 million as of June 30, 2018 and December 31, 2017, respectively.

NOTE 6 LOANS:

Loans receivable outstanding are summarized as follows:

(Dollars are in thousands)

Edgar Filing: NEW PEOPLES BANKSHARES INC - Form 10-Q

	June 30, 2018	December 31, 2017
Real estate secured:		
Commercial	\$ 138,849	\$ 127,688
Construction and land development	27,611	29,763
Residential 1-4 family	250,329	249,159
Multifamily	13,757	15,481
Farmland	22,203	22,998
Total real estate loans	452,749	445,089
Commercial	48,034	41,345
Agriculture	4,487	3,494
Consumer installment loans	21,475	22,411
All other loans	634	669
Total loans	\$ 527,379	\$ 513,008

Loans receivable on nonaccrual status are summarized as follows:

(Dollars are in thousands)	June 30, 2018	December 31, 2017
Real estate secured:		
Commercial	\$ 1,832	\$ 2,035
Construction and land development	196	470
Residential 1-4 family	3,265	2,991

The Company categorizes loans receivable into risk categories based on relevant information about the ability of borrowers to service their debt such as: current financial information, historical payment experience, credit documentation, public information, and current economic trends, among other factors. The Company analyzes loans individually by classifying the loans receivable as to credit risk. The Company uses the following definitions for risk ratings:

Pass - Loans in this category are considered to have a low likelihood of loss based on relevant information analyzed about the ability of the borrowers to service their debt and other factors.

Special Mention - Loans in this category are currently protected but are potentially weak, including adverse trends in borrower's operations, credit quality or financial strength. Those loans constitute an undue and unwarranted credit risk but not to the point of justifying a substandard classification. The credit risk may be relatively minor yet constitute an unwarranted risk in light of the circumstances. Special mention loans have potential weaknesses which may, if not checked or corrected, weaken the loan or inadequately protect the Company's credit position at some future date.

Substandard - A substandard loan is inadequately protected by the current sound net worth and paying capacity of the obligor or of the collateral pledged, if any. Loans classified as substandard must have a well-defined weakness or weaknesses that jeopardize the liquidation of the debt; they are characterized by the distinct possibility that the

institution will sustain some loss if the deficiencies are not corrected.

Doubtful - Loans classified doubtful have all the weaknesses inherent in loans classified as substandard, plus the added characteristic that the weaknesses make collection or liquidation in full on the basis of currently existing facts, conditions, and values highly questionable and improbable.

Based on the most recent analysis performed, the risk category of loans receivable was as follows:

As of June 30, 2018 (Dollars are in thousands)	Pass	Special Mention	Substandard	Total
Real estate secured:				
Commercial	\$ 134,536	\$ 2,023	\$ 2,290	\$ 138,849

In determining the amount of our allowance, we rely on an analysis of our loan portfolio, our experience and our evaluation of general economic conditions, as well as any regulatory input. If our assumptions prove to be incorrect, our current allowance may not be sufficient to cover future loan losses and we may experience significant increases to our provision.

NOTE 8 TROUBLED DEBT RESTRUCTURINGS:

At June 30, 2018 there were 5.8 million in loans that are classified as troubled debt restructurings compared to \$6.9 million at December 31, 2017. The following table presents information related to loans modified as troubled debt restructurings during the six and three months ended June 30, 2018 and 2017.

Total		\$	\$	1	\$443	\$443

During the six and three months ended June 30, 2018, the Company modified no loans for for which the modification was considered to be a troubled debt restructuring.

During the six and three months ended June 30, 2017, the Company modified the terms of one loan for which the modification was considered to be a troubled debt restructuring. The interest rate was not modified on this loan; however, the payment terms and maturity date were changed.

No loans modified as troubled debt restructurings defaulted during the three or six months ended June 30, 2018 or 2017. Generally, a troubled debt restructuring is considered to be in default once it becomes 90 days or more past due following a modification.

In determination of the allowance for loan losses, management considers troubled debt restructurings and subsequent defaults in these restructurings in its estimate. The Company evaluates all troubled debt restructurings for possible further impairment. As a result, the allowance may be increased, adjustments may be made in the allocation of the allowance, or charge-offs may be taken to further writedown the carrying value of the loan.

NOTE 9 OTHER REAL ESTATE OWNED:

The following table summarizes the activity in other real estate owned for the six months ended June 30, 2018 and the year ended December 31, 2017:

(Dollars are in thousands)	June 30, 2018	December 31, 2017
Balance, beginning of period	\$6,859	\$ 10,655

Deferred gain from sales	—	45
Losses from sales	(111)	(64)
Balance, end of period	\$6,574	\$ 6,859

NOTE 10 FAIR VALUES:

The financial reporting standard, “Fair Value Measurements and Disclosures” provides a framework for measuring fair value under generally accepted accounting principles and requires disclosures about the fair value of assets and liabilities recognized in the balance sheet in periods subsequent to initial recognition, whether the measurements are made on a recurring basis (for example, available-for-sale investment securities) or on a nonrecurring basis (for example, impaired loans and other real estate acquired through foreclosure).

Fair value is the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Fair Value Measurements and Disclosures also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1: Quoted prices in active markets for identical assets or liabilities. Level 1 assets and liabilities include debt and equity securities and derivative contracts that are traded in an exchange market, as well as U. S. Treasury, other U. S. Government and agency mortgage-backed debt securities that are highly liquid and are actively traded in over-the-counter markets.

Level 2: Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities. Level 2 assets and liabilities include debt securities with quoted prices that are traded less frequently than exchange-traded instruments and derivative contracts whose value is determined using a pricing model with inputs that are observable in the market or can be derived principally from or corroborated by observable market data. This category generally includes certain derivative contracts and impaired loans.

Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets and liabilities. Level 3 assets and liabilities include financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation. For example, this category generally includes certain private equity investments, retained residual interests in securitizations, residential mortgage servicing rights, and highly structured or long-term derivative contracts.

Investment Securities Available-for-Sale – Investment securities available-for-sale are recorded at fair value on a recurring basis. Fair value measurement is based upon quoted prices if available. If quoted prices are not available, fair value is measured using independent pricing models or other model-based valuation techniques such as the present value of future cash flows, adjusted for the security's credit rating, prepayment assumptions and other factors such as credit loss assumptions. Level 1 securities include those traded on an active exchange such as the New York Stock Exchange, or by dealers or brokers in active over-the counter markets. Level 2 securities include mortgage backed securities issued by government sponsored entities, municipal bonds and corporate debt securities. Securities classified as Level 3 include asset-backed securities in less liquid markets.

Assets measured at fair value on a recurring basis are as follows. There were no liabilities measured at fair value on a recurring basis.

(Dollars are in thousands)	Quoted market price in active markets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)

Total	\$ —	\$ 71,088	\$ —

Loans - The Company does not record loans at fair value on a recurring basis. Real estate serves as collateral on a substantial majority of the Company's loans. When a loan is considered impaired a specific reserve may be established. Loans which are deemed to be impaired and require a reserve are primarily valued on a non-recurring basis at the fair values of the underlying real estate collateral. Such fair values are obtained using independent appraisals, which management evaluates and determines whether or not the fair value of the collateral is further impaired below the appraised value and there is no observable market price, or whether or not an appraised value does not include estimated costs of disposition. The Company records impaired loans as nonrecurring Level 3 assets.

Other Real Estate Owned – Other real estate owned (“OREO”) is adjusted to fair value upon transfer of the loans to OREO. OREO is carried at the lower of the carrying value or fair value. Fair value is based upon independent observable market prices or appraised values of the collateral with a third party less an estimate of disposition costs, which the Company considers to be level 2 inputs. When the appraised value is not available or management determines the fair value of the collateral to be further impaired below the appraised value and there is no observable market price, the Company records OREO as nonrecurring Level 3.

Assets measured at fair value on a non-recurring basis are as follows (for purpose of this table the impaired loans are shown net of the related allowance). There were no liabilities measured at fair value on a non-recurring basis.

(Dollars are in thousands)	Quoted market price in active markets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
June 30, 2018			
Other real estate owned	—	—	\$ 6,574
Impaired loans	—	—	9,098
Total	—	—	\$ 15,672
December 31, 2017			
Other real estate owned	—	—	\$ 6,859
Impaired loans	—	—	11,394
Total	—	—	\$ 18,253

For Level 3 assets measured at fair value on a recurring or non-recurring basis as of June 30, 2018 and December 31, 2017, the significant unobservable inputs used in the fair value measurements were as follows:

(Dollars in thousands)	Fair Value at June 30, 2018	Valuation Technique	Significant Unobservable Inputs	General Range of Significant Unobservable Input Values
Impaired Loans	\$9,098	Appraised Value/Discounted \$ Cash Flows/Market Value of Note	Discounts to reflect current market conditions, ultimate collectability, and estimated costs to sell	0 – 18%
Other Real Estate Owned	\$6,574	Appraised Value/Comparable \$ Sales/Other Estimates from Independent Sources	Discounts to reflect current market conditions and estimated costs to sell	0 – 18%

Fair Value of Financial Instruments

Fair value information about financial instruments, whether or not recognized in the balance sheet, for which it is practical to estimate the value is based upon the characteristics of the instruments and relevant market information. Financial instruments include cash, evidence of ownership in an entity, or contracts that convey or impose on an entity that contractual right or obligation to either receive or deliver cash for another financial instrument.

The information used to determine fair value is highly subjective and judgmental in nature and, therefore, the results may not be precise. Subjective factors include, among other things, estimates of cash flows, risk characteristics, credit quality, and interest rates, all of which are subject to change. Since the fair value is estimated as of the balance sheet date, the amounts that will actually be realized or paid upon settlement or maturity on these various instruments could be significantly different.

The tables below present the carrying amount, fair value, and placement in the fair value hierarchy of the Company's financial instruments. This table excludes financial instruments for which the carrying amount approximates fair value. The carrying value of cash and due from banks, federal funds sold, interest-bearing deposits with banks, deposits with no stated maturities, and accrued interest approximates fair value.

During the first quarter of 2018, the Company adopted Accounting Standard Update ("ASU") 2016-01, "Recognition and Measurement of Financial Assets and Liabilities." The amendments included within this standard, which are applied prospectively, require the Company to use an exit price notion to estimate fair value of financial instruments measured at amortized cost on the balance sheet. Prior to adopting the amendments included in the standard, the Company was allowed to measure fair value under an entry price notion. The entry price notion previously applied by the Company used a discounted cash flows technique to calculate the present value of expected future cash flows for a financial instrument. The exit price notion uses the same approach, but also incorporates other factors, such as enhanced credit risk, illiquidity risk and market factors that sometimes exist in exit prices in dislocated markets.

As of December 31, 2017, the fair value of the Company's loan portfolio includes a credit risk assumption in the determination of the fair value of its loans. This credit risk assumption is intended to approximate the fair value that a market participant would realize in a hypothetical orderly transaction. The Company's loan portfolio is initially fair valued using a segmented approach. The Company divides its loan portfolio into the following categories: variable rate loans, impaired loans and all other loans. The results are then adjusted to account for credit risk as described above. For variable-rate loans that reprice frequently and have no significant change in credit risk, fair values approximate carrying values. Fair values for impaired loans are estimated using discounted cash flow models or based on the fair value of the underlying collateral. For other loans, fair values are estimated using discounted cash flow models, using current market interest rates offered for loans with similar terms to borrowers of similar credit quality. The values derived from the discounted cash flow approach for each of the above portfolios are then further discounted to incorporate credit risk. The methods utilized to estimate the fair value of loans do not necessarily represent an exit price as of December 31, 2017.

As of June 30, 2018, the technique used by the Company to estimate the exit price of the loan portfolio consists of similar procedures to those used as of December 31, 2017, but with added emphasis on both illiquidity risk and credit risk not captured by the previously applied entry price notion. The fair value of the Company's loan portfolio has always included a credit risk assumption in the determination of the fair value of its loans. This credit risk assumption is intended to approximate the fair value that a market participant would realize in a hypothetical orderly transaction. After adjusting the segmented portfolio, under the new guidance, a further credit risk discount must be applied

through the use of a discounted cash flow model to compensate for illiquidity risk, based on certain assumptions included within the discounted cash flow model, primarily the use of discount rates that better capture inherent credit risk over the lifetime of a loan. This consideration of enhanced credit risk provides an estimated exit price for the Company's loan portfolio. For variable-rate loans that reprice frequently and have no significant change in credit risk, fair values approximate carrying values. Fair values for impaired loans are estimated using discounted cash flow models or based on the fair value of the underlying collateral.

The remaining financial instruments were valued based on the present value of estimated future cash flows, discounted at various rates in effect for similar instruments.

NOTE 11 SALE AND LEASEBACK TRANSACTIONS:

On May 31, 2017, the Bank sold four of its properties, one each located in Abingdon, Bristol, Gate City and Castlewood, Virginia to a nonaffiliated third party for a total purchase price of \$6.2 million. After selling expenses of \$192 thousand, the net proceeds on the transactions were \$6.0 million. The sales prices for the properties were based on outside appraisals obtained by the Bank. The Bank provided \$4.9 million of financing to the purchaser for a term of 10 years for this transaction.

In connection with the sale of the four properties, on May 31, 2017, the Bank entered into commercial lease agreements with the purchaser for the properties (the “Leases”), which will allow the Bank to continue to service customers from these locations. The Leases, which commenced on June 1, 2017, provide the Bank with use of the properties for an initial term of fifteen years. Base rent payments for years one through five of the Leases are

approximately \$417 thousand a year. The base rent payments will increase by 8% for years 6 through 10 of the Leases and then by another 8% for years eleven through fifteen of the Leases. The Bank has the option to renew the Leases five times and each renewal would be for a term of five years. The base rent for the renewals would be negotiated at the time the renewal option is exercised by the Bank. While the cash lease payments are currently \$417 thousand a year, the Company is required to straight-line the expense over the initial term of fifteen years. As a result, the annual lease expense will be approximately \$451 thousand. The weighted average remaining life of the leases is 13.92 years.

In anticipation of this transaction the Company adopted ASU No. 2016-02 Leases (Topic 842) early. This ASU revised certain aspects of recognition, measurement, presentation, and disclosure of leasing transactions. As a result of this transaction the Company recognized initial right-to-use assets – operating leases of approximately \$5.3 million, along with corresponding lease liabilities of approximately \$5.3 million. The \$5.3 million was determined by calculating the present value of the annual cash lease payments using a discount rate of 3.25%. The 3.25% discount rate was determined to be our fifteen year incremental borrowing rate as of May 31, 2017.

As a result of the sale and the determination that the corresponding leases were operating leases, the Company also recognized a gain in 2017 of \$2.6 million on the sale and leaseback transactions.

NOTE 12 NONINTEREST EXPENSES:

Other operating expenses, included as part of noninterest expenses, consisted of the following for the periods presented:

(Dollars are in thousands)	For the three months ended		For the six months ended	
	June 30, 2018	2017	June 30, 2018	2017
Advertising	\$114	\$97	\$261	\$206
ATM network expense	450	428	842	831
Legal and professional fees	406	327	773	625
Loan related expenses	130	149	330	333
Printing and supplies	66	30	202	54
FDIC insurance premiums	84	110	181	212
Other real estate owned, net	113	753	360	1,053
Other	827	546	1,340	1,043
Total other operating expenses	\$2,190	\$2,440	\$4,289	\$4,357

NOTE 13 SUBSEQUENT EVENTS:

Subsequent events are events or transactions that occur after the balance sheet date but before financial statements are issued. Recognized subsequent events are events or transactions that provide additional evidence about conditions that existed at the date of the balance sheet, including the estimates inherent in the process of preparing financial statements. Non-recognized subsequent events are events that provide evidence about conditions that did not exist at the date of the balance sheet but arose after that date. Management has reviewed events occurring through the date the financial statements were available to be issued and no subsequent events occurred requiring accrual or disclosure.

NOTE 14 RECENT ACCOUNTING DEVELOPMENTS:

The following is a summary of recent authoritative announcements:

In May 2014, the Financial Accounting Standards Board (“FASB”) issued guidance to change the recognition of revenue from contracts with customers. The core principle of the new guidance is that an entity should recognize revenue to reflect the transfer of goods and services to customers in an amount equal to the consideration the entity

receives or expects to receive. The guidance became effective January 1, 2018. The amendment does not apply to revenue associated with financial instruments, such as loans and investment securities available for sale, and therefore had no material effect on our consolidated financial statements.

In January 2016, the FASB amended the Financial Instruments topic of the Accounting Standards Codification (“ASC”), to address certain aspects of recognition, measurement, presentation, and disclosure of financial instruments. The amendments became effective on January 1, 2018 and did not have a material effect on the financial statements. As discussed in Note 10, the Company measured the fair value of its loan portfolio using an exit price notion as of June 30, 2018.

In February 2016, the FASB amended the Leases topic of the ASC to revise certain aspects of recognition, measurement, presentation, and disclosure of leasing transactions. The amendments will be effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. As discussed in Note 11, the Company early adopted ASU No. 2016-02 Leases (Topic 842).

In March 2016, the FASB amended the Revenue from Contracts with Customers topic of the ASC to clarify the implementation guidance on principal versus agent considerations and address how an entity should assess whether it is the principal or the agent in contracts that include three or more parties. The guidance became effective January 1, 2018. The Company completed an assessment of revenue streams and a review of related contracts potentially affected by the ASU and, based on this assessment, the Company concluded that the ASU did not materially change the method in which the Company currently recognizes revenue for these revenue streams. As such, a cumulative effect adjustment to opening retained earnings was not deemed necessary.

In June 2016, the FASB issued guidance to change the accounting for credit losses and modify the impairment model for certain debt securities. The amendments will be effective for the Company for reporting periods beginning after December 15, 2019. Early adoption is permitted for all organizations for periods beginning after December 15, 2018. The Company is currently evaluating the effect that implementation of the new standard will have on its financial position, results of operations, and cash flows.

In December 2016, the FASB issued technical corrections and improvements to the Revenue from Contracts with Customers Topic. These corrections make a limited number of revisions to several pieces of the revenue recognition standard issued in 2014. The amendment became effective on January 1, 2018 and did not have a material effect on the financial statements.

In January 2017, the FASB updated the Accounting Changes and Error Corrections and the Investments—Equity Method and Joint Ventures Topics of the ASC. The ASU incorporates into the ASC recent SEC guidance about disclosing, under SEC SAB Topic 11.M, the effect on financial statements of adopting the revenue, leases, and credit losses standards. The ASU was effective upon issuance. The Company is currently evaluating the impact on additional disclosure requirements as each of the standards is adopted, however it does not expect these amendments to have a material effect on its financial position, results of operations or cash flows.

In February 2017, the FASB amended the Other Income Topic of the ASC to clarify the scope of the guidance on nonfinancial asset derecognition as well as the accounting for partial sales of nonfinancial assets. The amendments conform the derecognition guidance on nonfinancial assets with the model for transactions in the new revenue standard. The amendment became effective on January 1, 2018 and did not have a material effect on the financial statements.

In September 2017, the FASB updated the Revenue from Contracts with Customers and the Leases Topics of the ASC. The amendments incorporate into the ASC recent SEC guidance about certain public business entities (PBEs) electing to use the non-PBE effective dates solely to adopt the FASB's new standards on revenue and leases. The amendments were effective upon issuance. The Company is currently in the process of evaluating the impact of adoption of this guidance, however it does not expect these amendments to have a material effect on its financial statements.

In November 2017, the FASB updated the Income Statement and Revenue from Contracts with Customers Topics of the ASC. The amendments incorporate into the ASC recent SEC guidance related to revenue recognition. The amendments were effective upon issuance and did not have a material effect on the financial statements.

In February 2018, the FASB Issued (ASU 2018-02), Income Statement (Topic 220): Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income, which requires Companies to reclassify the stranded effects

in other comprehensive income to retained earnings as a result of the change in the tax rates under the Tax Cuts and Jobs Act. The Company has opted to early adopt this pronouncement by retrospective application to each period (or periods) in which the effect of the change in the tax rate under the Tax Cuts and Jobs Act is recognized. The impact of the reclassification from other comprehensive income to retained earnings was \$98 thousand as of December 31, 2017.

In February 2018, the FASB amended the Financial Instruments Topic of the ASC. The amendments clarify certain aspects of the guidance issued in ASU 2016-01. The amendments will be effective for the third quarter of 2018 subsequent to adopting the amendments in ASU 2016-01. All entities may early adopt these amendments for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years, as long as they have adopted ASU 2016-01. The Company does not expect these amendments to have a material effect on its financial statements.

In March 2018, the FASB updated the Debt Securities and the Regulated Operations Topics of the ASC. The amendments incorporate into the ASC recent SEC guidance which was issued in order to make the relevant interpretive guidance consistent with current authoritative accounting and auditing guidance and SEC rules and regulations. The amendments were effective upon issuance. The Company does not expect these amendments to have a material effect on its financial statements.

In March 2018, the FASB updated the Income Taxes Topic of the ASC. The amendments incorporate into the ASC recent SEC guidance related to the income tax accounting implications of the Tax Cuts and Jobs Act. The amendments were effective upon issuance. The Company does not expect these amendments to have a material effect on its financial statements.

In May 2018, the FASB amended the Financial Services—Depository and Lending Topic of the ASC to remove outdated guidance related to Circular 202. The amendments were effective upon issuance and did not have a material effect on the financial statements.

Other accounting standards that have been issued or proposed by the FASB or other standards-setting bodies are not expected to have a material impact on the Company's financial position, results of operations or cash flows.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Caution About Forward Looking Statements

We make forward looking statements in this quarterly report that are subject to risks and uncertainties. These forward looking statements include statements regarding our profitability, liquidity, allowance for loan losses, interest rate sensitivity, market risk, business strategy, and financial and other goals. The words "believes," "expects," "may," "will," "should," "projects," "contemplates," "anticipates," "forecasts," "intends," or other similar words or terms are intended to identify forward looking statements.

Certain information contained in this discussion may include "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended and Section 21E of the Securities Exchange Act of 1934, as amended. These forward-looking statements contain the Company's expectations, plans, future financial performance, and other statements that are not historical facts. These forward-looking statements are generally identified by phrases such as "the Company expects," "the Company believes" or words of similar importance. Such forward-looking statements involve known and unknown risks including, but not limited to, changes in general economic and business conditions, interest rate fluctuations, competition within and from outside the banking industry, new products and services in the banking industry, risk inherent in making loans such as repayment risks and fluctuating collateral values, problems with technology utilized by the Company, changing trends in customer profiles and changes in laws and regulations applicable to the Company. Although the Company believes that its expectations with respect to the forward-looking statements are based upon reasonable assumptions within the bounds of its knowledge of its business and operations, there can be no assurance that actual results, performance or achievements of the Company will not differ materially from any future results, performance or achievements expressed or implied by such forward-looking statements.

Because of these uncertainties, our actual future results may be materially different from the results indicated by these forward looking statements. In addition, our past results of operations do not necessarily indicate our future results.

Critical Accounting Policies

For discussion of our significant accounting policies see our Annual Report on Form 10-K for the year ended December 31, 2017. Certain critical accounting policies affect the more significant judgments and estimates used in the preparation of our financial statements. Our most critical accounting policies relate to our provision for loan losses and the calculation of our deferred tax asset and related valuation allowance.

The provision for loan losses reflects the estimated losses resulting from the inability of our customers to make required payments. If the financial condition of our borrowers were to further deteriorate, resulting in an impairment of their ability to make payments, our estimates would be updated, and additional provisions could be required.

Our deferred income tax assets and liabilities are determined using the liability (or balance sheet) method. Under this method, the net deferred tax asset or liability is determined based on the tax effects of the temporary differences between the book and tax bases of the various balance sheet assets and liabilities and gives current recognition to changes in tax rates and laws. If all or a portion of the net deferred tax asset is determined to be unlikely to be realized in the foreseeable future, a valuation allowance is established to reduce the net deferred tax asset to the amount that is more likely than not to be realized. For further discussion of the deferred tax asset and valuation allowance, we refer you to the section on “Deferred Tax Asset and Income Taxes” below.

Overview and Highlights

The Company had net income for the six months ended June 30, 2018 of \$31 thousand, or basic net income per share of \$0.00, as compared to the six months ending June 30, 2017 whereby the Company had net income of \$2.7 million, or \$0.12 basic net income per share.

The Company had a net loss for the quarter ended June 30, 2018 of \$49 thousand, or basic net loss per share of \$0.00, as compared to a net income of \$2.6 million, or basic net income per share of \$0.11, for the quarter ended June 30, 2017. Net income for the six months and the quarter ended June 30, 2017 was significantly impacted by the \$2.6 million gain recognized on the sale and leaseback transactions the Company completed during the second quarter of 2017.

Total assets increased \$18.4 million from \$666.7 million at December 31, 2017 to \$685.1 million at June 30, 2018.

Highlights as of and for the six and three-month periods include:

- Total assets increased \$18.4 million;
- Interest-bearing deposits with banks increased \$13.0 million;
- Net loans increased \$15.3 million;
- Past due loans decreased \$4.4 million and substandard loans decreased \$2.5 million;
- Total deposits increased \$9.0 million;
- Borrowed funds increased \$11.4 million;
- Interest income increased \$1.3 million for the six months and \$414 thousand for the quarter;
- Gain on sale and leaseback transactions of \$2.6 million in 2017 did not recur;
- Salaries and employee benefits increased \$592 thousand for the six months and \$329 thousand for the quarter;
- For the six-month period, the annualized net interest margin was 4.01% and the annualized net spread was 3.79%;
- For the quarter, the annualized net interest margin was 3.92% and the annualized net spread was 3.69%.

Comparison of the Six Months ended June 30, 2018 to June 30, 2017

Net interest income for the six months ended June 30, 2018 was \$12.1 million, which was an increase of \$901 thousand, or 8.08% when compared to the same period in 2017. Loan interest income for the first six months of 2018 increased \$1.1 million, or 9.69%, from \$11.8 million as of June 30, 2017 to \$12.9 million as of June 30, 2018. The increase was primarily attributed to increased average loans. The annualized yield earned on interest-earning assets was 4.64% for the first six months of 2018 compared to 4.48% for the first six months of 2017.

Interest expense increased \$390 thousand, or 25.79%, from \$1.5 million for the first six months of 2017 to \$1.9 million for the same period in 2018 as a result of increases in our interest rates on time deposits. The annualized cost of funds for the six months ended June 30, 2018 was 0.85% compared to 0.69% for the six months ended June 30, 2017.

A provision for loan losses of \$126 thousand was recognized during the first six months of 2018. No provision was considered necessary for the first half of 2017. Provisions are recognized to maintain the allowance for loan losses at a level that we deem appropriate to absorb any potential future losses and known impairments within the loan portfolio whether or not the losses are actually ever realized.

Noninterest income decreased \$2.5 million to \$3.6 million for the six months ended June 30, 2018 from \$6.1 million in 2017. In the second quarter of 2017, the Bank sold four properties to a nonaffiliated third party and then entered into commercial lease agreements with the purchaser for the same properties. As a result of the sale and the determination that the corresponding leases were operating leases, under the newly adopted provisions of ASU 2016 -

02, the Company recognized a gain in the second quarter of 2017 of \$2.6 million which did not recur in 2018.

Due to increased efforts to expand our financial services operation, insurance and investment fees increased \$147 thousand for the six months ended June 30, 2018 compared to the six months ended June 30, 2017. In addition, service charges and fees increased \$77 thousand during the same comparative six month period due to card network and overdraft protection fees.

Noninterest expense increased \$933 thousand, or 6.39%, for the first six months of 2018 from \$14.6 million as of June 30, 2017 to \$15.5 million as of June 30, 2018. Increases in salaries and employee benefits, occupancy and equipment, and data processing and telecommunications were offset by a decrease to other real estate owned expenses. For the six months ended June 30, 2018, salaries and employee benefits increased \$592 thousand, or 8.81%, to \$7.3 million as compared to \$6.7 million for the same period in 2017 as the Bank continues to hire and retain seasoned professionals. Occupancy and equipment expenses increased \$292 thousand from \$2.3 million for the first six months of 2017 to \$2.6 million for the first six months of 2018. Other real estate owned expenses decreased \$693 thousand to \$360 thousand for the first six months of 2018 as compared to \$1.1 million for the same period in 2017. The higher volume of sales resulted in larger writedowns taken in 2017 primarily due to price reductions and auctions. Proceeds from sales of OREO for the first six months of 2017 were \$4.0 million compared to \$1.3 million for the first six months of 2018.

Our efficiency ratio, a non-GAAP measure which is defined as noninterest expense divided by the sum of net interest income plus noninterest income, was 99.08% for the first six months of 2018 as compared to 84.50% for the same period in 2017. Included in this calculation are the other real estate owned write-downs and the gain resulting from the sale-leaseback transaction which significantly impact the ratio.

Comparison of the Three Months ended June 30, 2018 to June 30, 2017

In the second quarter of 2018, our net interest margin was 3.92%, as compared to 4.03% for the same period in 2017, a decline of 11 basis points. The Company's primary source of income, net interest income, increased \$188 thousand, or 3.25%, to \$6.0 million for the second quarter of 2018 from \$5.8 million for the same period in 2017. Loan interest income increased \$347 thousand, or 5.67%, from \$6.1 million for the second quarter of 2017 to \$6.5 million for the second quarter of 2018. Interest expense increased \$226 thousand, or 28.68%, from \$788 thousand for the quarter ended June 30, 2017 to \$1.0 million for the same quarter of 2018 as a result of higher volume and increased interest rates

No provision for loan losses was recorded during the second quarter of 2017 as compared to a provision of \$63 thousand for the second quarter of 2018.

Noninterest income for the second quarter of 2018 was \$1.9 million, a decrease of \$2.5 million when compared to \$4.4 million for the same period in 2017. In the second quarter of 2017, the Bank recognized a gain of \$2.6 million on sale and leaseback transactions completed during the quarter. This gain did not recur in 2018. Insurance and investment fees increased \$125 thousand for the period and service charges and fees increased \$51 thousand.

Noninterest expense increased \$272 thousand, or 3.57%, to \$7.9 million for the second quarter 2018 as compared to \$7.6 million for the second quarter of 2017. Salaries and employee benefits increased \$329 thousand, occupancy and equipment expenses increased \$127 thousand, and data processing and telecommunications increased \$66 thousand compared to the same period in the prior year. Other real estate owned expenses decreased \$640 thousand to \$113 thousand for the second quarter of 2018 from \$753 thousand for the same period in 2017. OREO sales in the second quarter of 2017 resulted in higher writedowns when compared to the second quarter of 2018. In addition, a writedown totaling \$220 thousand of previously capitalized costs advanced for insurance and other collection related charges was recorded during the second quarter of 2018.

Our efficiency ratio, a non-GAAP measure, was 100.57% for the second quarter of 2018 as compared to 74.74% for the same period in 2017. Included in this calculation are the other real estate owned write-downs and the gain resulting from the sale-leaseback transaction which significantly impact the ratio.

Balance Sheet

Total assets increased \$18.4 million, or 2.76%, to \$685.1 million at June 30, 2018 from \$666.7 million at December 31, 2017. Increases to total loans and interest bearing deposits in other banks of \$14.4 million and \$13.0 million were funded by principal paydowns of investments, increased noninterest-bearing deposits, and funds advanced from the Federal Home Loan Bank. We anticipate that total assets will continue to increase due to our plan to conservatively

and prudently grow the loan portfolio.

Total investments decreased \$7.1 million, or 9.98%, to \$64.0 million at June 30, 2018 from \$71.1 million at December 31, 2017 as a result of principal paydowns. There were no sales of investments during the six months ended June 30, 2018 and 2017.

Total loans increased 2.80% to \$527.4 million at June 30, 2018 as compared to \$513.0 million at December 31, 2017. We believe the focus on developing new and existing lending relationships should continue the pace of increasing total loans as experienced in the first six months of 2018, subject to the economy and heightened competition in our markets.

Total deposits increased \$9.0 million, or 1.55%, from \$582.5 million at December 31, 2017 to \$591.6 million at June 30, 2018. Noninterest-bearing demand deposits increased 8.35%, or \$12.9 million, from \$154.6 million at December 31, 2017 to \$167.5 million at June 30, 2018. We experienced a decrease of \$3.9 million, or 0.91%, in interest-bearing deposits during the first six months of 2018. Due to competitive pressures, rising interest rates, and our need for funding, we expect to see an uptick on the interest we pay on time deposits in 2018. Overall, we continue to maintain core deposits through attractive consumer and commercial deposit products and strong ties with our customer base and communities.

Borrowed funds consist of advances from the Federal Home Loan Bank and Trust Preferred Securities. Advances from the Federal Home Loan Bank increased \$11.4 million from December 31, 2017 to June 30, 2018. The advances were used to support loan demand, maintain balance sheet liquidity and to support the withdrawal of short-term funds that were deposited and withdrawn, during the quarter, by a single customer.

The following table presents the FHLB advances:

(Dollars in thousands)	Maturity Date	Rate	June 30, 2018	December 31, 2017
Principal Reducing Credit	5/16/2018	4.10%	\$-	\$208
Principal Reducing Credit	5/21/2018	4.05%	-	350
Daily Rate Credit	6/19/2019	2.16%	12,000	-
Fixed Rate Hybrid	6/28/2019	0.99%	2,000	2,000
Fixed Rate Hybrid	6/30/2021	1.34%	5,000	5,000
Total			\$19,000	\$7,558

Total equity at June 30, 2018 was \$50.0 million, a slight decrease from \$51.0 million at December 31, 2017. Net income of \$31 thousand was offset by a \$985 thousand increase in other comprehensive loss as a result of increases in net unrealized losses in the investment portfolio during the six months ended June 30, 2018.

Asset Quality

We continue to make progress in reducing the levels of non-performing assets. Though asset quality is improving, the level of nonperforming assets remains elevated as we continue to work through foreclosed properties that are held over from the Great Recession and nonaccrual loans.

Nonperforming loans decreased \$1.1 million during the first six months of 2018. In the second quarter of 2018, the Bank sold four nonperforming loans for \$1.5 million, after reducing them to fair value by a charge to allowance for loans losses of \$365 thousand. The ratio of nonperforming loans to total loans at June 30, 2018 was 1.22% compared to 1.47% at December 31, 2017.

The ratio of nonperforming assets to total assets was 1.90% at June 30, 2018 as compared to 2.16% at December 31, 2017. Nonperforming assets, which include nonaccrual loans, other real estate owned and past due loans greater than 90 days still accruing interest, were \$13.0 million and \$14.4 million at June 30, 2018 and December 31, 2017, respectively. The makeup of these assets is primarily loans secured by commercial real estate, residential mortgages, and farmland as well as other real estate owned properties. We continue undertaking extensive and more aggressive measures to work through problem credits and liquidate foreclosed properties in an effort to accelerate a reduction of nonperforming assets. Our goal is to reduce the nonperforming assets being mindful of the impact to earnings and capital; however, we may recognize some losses and reductions in the allowance for loan loss as we expedite the resolution of these problem assets.

Nonperforming assets consisted of the following:

	June 30, 2018	December 31, 2017		
Nonaccrual loans	\$6,442	\$7,564		
Loans past due more than 90 days, still accruing	—	—		
Nonperforming loans	6,442	7,564		
Other real estate owned	6,574	6,859		
Nonperforming assets	\$13,016	\$14,423		
Nonperforming loans/Total loans at period end	1.22	%	1.47	%
Nonperforming assets/Total assets at period end	1.90	%	2.16	%

There were no loans past due more than 90 days still accruing interest at June 30, 2018 or December 31, 2017. Loans rated substandard were \$9.4 million at June 30, 2018, a decrease of \$2.5 million from \$11.9 million at December 31, 2017. Total past due loans decreased from \$10.0 million at December 31, 2017, to \$5.6 million at June 30, 2018.

Other real estate owned decreased \$285 thousand, or 4.16%, to \$6.6 million at June 30, 2018 from \$6.9 million at December 31, 2017. All properties are available for sale by commercial and residential realtors under the direction of our Special Assets division. During the first six months of 2018, we acquired \$1.3 million in other real estate owned as a result of settlement of foreclosed loans, which was offset by sales of \$1.3 million of our properties with losses of \$111 thousand realized as a result of the sales. In an effort to reduce our level of foreclosed properties, we have made pricing adjustments on some older properties. We expect to continue these efforts during 2018 which could result in additional losses, while reducing future carrying costs. We do have lease agreements on certain OREO properties which are generating rental income at market rates. Rental income on OREO properties was \$109 thousand for the first six months of 2018 compared to \$125 thousand for the first six months of 2017.

Our allowance for loan losses at June 30, 2018 was \$5.3 million, or 1.00% of total loans as compared to \$6.2 million, or 1.21% of total loans at December 31, 2017. Impaired loans decreased \$3.2 million, or 25.68%, to \$9.4 million with an estimated related allowance of \$296 thousand for potential losses at June 30, 2018 as compared to \$12.6 million in impaired loans with an estimated related allowance of \$1.2 million at the end of 2017. The decrease in impaired loans was due in part to the sale of loans discussed previously, combined with payoffs or significant repayments of \$743 thousand along with several accounts totaling \$607 thousand being transferred to Other Real Estate owned. A provision of \$126 thousand was recognized for the six months ended June 30, 2018. No provision for loan losses was recorded during first six months of 2017. In the first six months of 2018, net charge-offs were \$1.0 million, or 0.20% of average loans, as compared to net recoveries of \$235 thousand, or 0.10% of average loans for the same period of 2017. The allowance for loan losses is being maintained at a level that we deem appropriate to absorb any potential future losses and known impairments within the loan portfolio whether or not the losses are actually ever realized. We continue to adjust the allowance for loan loss model to best reflect the risks in the portfolio and the improvements made in our internal policies and procedures; however, future provisions may be deemed necessary.

(Dollars in thousands)	June 30, 2018	December 31, 2017	
Specific allowance	\$296	\$1,246	
General allowance	4,992	4,950	
Total allowance	\$5,288	\$6,196	
Impaired loans	\$9,394	\$12,640	
Other loans	517,985	500,368	
Total loans	\$527,379	\$513,008	
Total allowance/Total loans	1.00	% 1.21	%
General allowance/Other loans	0.96	% 0.99	%

Deferred Tax Asset and Income Taxes

Due to timing differences between book and tax treatment of several income and expense items, a net deferred tax asset of \$5.8 million and \$5.5 million existed at June 30, 2018 and December 31, 2017, respectively. Our income tax expense was computed at the revised corporate income tax rate of 21% of taxable income for 2018 due to the

enactment of the Tax Cuts and Jobs Act (“TCJA”) which became law on December 22, 2017. Income tax expense was previously calculated at 34% of taxable income. We do not have significant nontaxable income or nondeductible expenses.

Capital Resources

Total stockholders’ equity at June 30, 2018 was \$50.0 million compared to \$51.0 million at December 31, 2017, a decrease of \$954 thousand. The decrease includes increased unrealized losses related to the available-for-sale portfolio, net of tax, of \$985 thousand offset by net income of \$31 thousand for the six-month period.

The Company meets eligibility criteria of a small bank holding company in accordance with the Federal Reserve Board’s Small Bank Holding Company Policy Statement issued in February 2015, and is no longer obligated to report consolidated regulatory capital. The Bank continues to be subject to various capital requirements administered by banking agencies.

The Bank's capital ratios are as follows:

	Well-Capitalized Regulatory Threshold		June 30, 2018		December 31, 2017	
Tier 1 leverage	5.00	%	9.51	%	9.56	%
Common equity Tier 1	6.50	%	13.56	%	14.05	%
Tier 1 risk-based capital	8.00	%	13.56	%	14.05	%
Total risk-based capital	10.00	%	14.69	%	15.30	%

At June 30, 2018, the Bank remains well capitalized under the regulatory framework for prompt corrective action. The ratios mentioned above for the Bank comply with the Federal Reserve rules to align with the Basel III Capital requirements effective January 1, 2015. As a result of these new rules the Company and Bank are now subject to a Common Equity Tier 1 ratio set out above.

The tangible book value per common share was \$2.09 at June 30, 2018 compared to \$2.13 at December 31, 2017. Other key performance indicators are as follows:

	June 30, 2018	June 30, 2017
Return on average assets ¹	0.01%	0.84%
Return on average equity ¹	0.13%	11.43%
Average equity to average assets	7.30%	7.58%

¹ Annualized

Total assets increased during the first six months of 2018 and we anticipate asset levels to increase in the future due to an emphasis on growing the loan portfolio and the core deposit base of the Bank. Under current economic conditions, we believe it is prudent to continue to increase capital to support planned asset growth while being able to absorb potential losses that may occur if asset quality deteriorates further. Based upon projections, we believe our current capital levels will be sufficient to support the Bank's planned asset growth.

No cash dividends have been paid historically and we do not anticipate paying a cash dividend in the foreseeable future as the Company continues to have a retained deficit. Earnings will continue to be retained to build capital and position the Company to pay a dividend to its shareholders as soon as practicable.

Liquidity

We closely monitor our liquidity and our liquid assets in the form of cash, due from banks, federal funds sold, and unpledged available for sale investments. Collectively, those balances were \$97.5 million at June 30, 2018, an increase from \$92.8 million at December 31, 2017. A surplus of short-term assets are maintained at levels management deems adequate to meet potential liquidity needs during 2018.

At June 30, 2018, all of our investments are classified as available-for-sale. These investments provide an additional source of liquidity in the amount of \$54.0 million, which is net of the \$10.0 million of securities pledged as collateral. Investment securities available for sale serve as a source of liquidity while yielding a higher return versus other short-term investment options, such as federal funds sold and overnight deposits with the Federal Reserve Bank.

Our loan to deposit ratio was 89.15% at June 30, 2018 and 88.06% at December 31, 2017.

Available third-party sources of liquidity at June 30, 2018 include the following: a line of credit with the Federal Home Loan Bank of Atlanta, access to brokered certificates of deposit markets and internet certificates of deposit, and the discount window at the Federal Reserve Bank of Richmond. We also had the ability to borrow \$20.0 million in unsecured federal funds.

The Bank has a line of credit with the FHLB. Advances outstanding at June 30, 2018 were \$19.0 million and the line also secures letters of credit totaling \$17.0 million. Unused availability at June 30, 2018 was \$131.7 million. The line is secured by a blanket lien on our residential real estate loans which amounted to \$141.9 million at June 30, 2018.

We have access to the brokered deposits market. Currently we have \$2.8 million in brokered term time deposits opened in 2009 with an original maturity of ten years at a cost of 4.10%. We also have deposits through the Certificate of Deposit Registry Service ("CDARS"). At June 30, 2018 we had \$2.0 million in CDARS one way time deposits and \$10.9 million in CDARS two way time deposits.

We are a member of an internet certificate of deposit network whereby we may purchase funds from other financial institutions at auction. We may invest funds through this network as well. Currently, we only intend to use this source of liquidity in a liquidity crisis event.

The Bank has access to additional liquidity through the Federal Reserve Bank discount window for overnight funding needs. We may collateralize this line with investment securities and loans at our discretion; however, we do not anticipate using this funding source except as a last resort.

With the on-balance sheet liquidity and other external sources of funding, we believe the Bank has adequate liquidity and capital resources to meet our requirements and needs for the foreseeable future. However, liquidity can be further affected by a number of factors such as counterparty willingness or ability to extend credit, regulatory actions and customer preferences, etc., some of which are beyond our control.

The bank holding company has approximately \$800 thousand in cash on deposit at the Bank as of June 30, 2018. These funds will be used to pay operating expenses, trust preferred interest payments, and provide additional capital injections to the Bank, if needed. The Company is making quarterly interest payments on the trust preferred securities.

During the capital raise in 2012, common stock warrants were issued to investors. The warrants were immediately exercisable through December 2017. There were no outstanding warrants at June 30, 2018.

Off Balance Sheet Items and Contractual Obligations

There have been no material changes during the quarter ended June 30, 2018 to the off-balance sheet items and the contractual obligations disclosed in our annual report on Form 10-K for the fiscal year ended December 31, 2017.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Not Applicable.

Item 4. Controls and Procedures

We have carried out an evaluation, under the supervision and with the participation of our management, including our President and Chief Executive Officer (our “CEO”) and our Executive Vice President and Chief Financial Officer (our “CFO”), of the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the “Exchange Act”)) as of the end of the period covered by this report. Based upon that evaluation, our CEO and CFO concluded that our disclosure controls and procedures were operating effectively in providing reasonable assurance that (a) the information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission’s rules and forms, and (b) such information is accumulated and communicated to our management, including our CEO and CFO, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There were no changes in the Company’s internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) during the quarter ended June 30, 2018 that have materially affected or are reasonably likely to materially affect the Company’s internal control over financial reporting.

Part II Other Information

Item 1. Legal Proceedings

In the course of operations, we may become a party to legal proceedings.

There are no pending or threatened legal proceedings to which the Company or any of its subsidiaries is a party or to which the property of the Company or any of its subsidiaries is subject that, in the opinion of management, may materially impact the financial condition of the Company.

Item 1A. Risk Factors

Not Applicable.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not Applicable.

Item 5. Other Information

None.

Item 6. Exhibits

See Index of Exhibits.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
