Notes to Consolidated Financial Statements (unaudited)

1. Accounting Policies

These unaudited condensed consolidated financial statements are prepared in accordance with the rules and regulations of the Securities and Exchange Commission (SEC) applicable to interim financial statements. While these statements reflect all normal recurring adjustments that are, in the opinion of management, necessary for fair presentation of the results of the interim period, they do not include all of the information and footnotes required by U.S. generally accepted accounting principles (U.S. GAAP) for complete financial statements. These condensed consolidated financial statements should be read in conjunction with the financial statement disclosures in our 2017 Form 10-K.

We use the same accounting policies in preparing quarterly and annual financial statements. Certain prior-year amounts have been reclassified to conform to the current year presentation. Note 2 provides information about our adoption of new accounting standards for revenue recognition, leases, and pensions. Unless otherwise noted, amounts presented within the Notes to Consolidated Financial Statements refer to our continuing operations.

We operate as a single segment that includes all of our continuing operations, which are designed to enable guests to purchase products seamlessly in stores or through our digital channels. Virtually all of our revenues are generated in the United States. The vast majority of our long-lived assets are located within the United States.

Due to the seasonal nature of our business, quarterly revenues, expenses, earnings, and cash flows are not necessarily indicative of the results that may be expected for the full year.

2. Accounting Standards Adopted

Revenue Recognition

We adopted Accounting Standards Update (ASU) No. 2014-09—Revenue from Contracts with Customers (Topic 606), as of February 4, 2018, using the full retrospective approach. The new standard did not materially affect our consolidated net earnings, financial position, or cash flows. The new standard resulted in minor changes to the timing of recognition of revenues for certain promotional gift card programs.

For the three and nine months ended October 28, 2017, we reclassified profit-sharing income under our credit card program agreement to Other Revenue from Selling, General and Administrative Expenses (SG&A). In addition, we reclassified certain advertising, rental, and other miscellaneous revenues, none of which was individually significant, from Sales and SG&A to Other Revenues.

Leases

We adopted ASU No. 2016-02—Leases (Topic 842), as of February 4, 2018, using the modified retrospective approach. The modified retrospective approach provides a method for recording existing leases at adoption and in comparative periods that approximates the results of a full retrospective approach. In addition, we elected the package of practical expedients permitted under the transition guidance within the new standard, which among other things, allowed us to carry forward the historical lease classification. We also elected the practical expedient related to land easements, allowing us to carry forward our accounting treatment for land easements on existing agreements.

In addition, we elected the hindsight practical expedient to determine the lease term for existing leases. Our election of the hindsight practical expedient resulted in the shortening of lease terms for certain existing leases and the useful lives of corresponding leasehold improvements. In our application of hindsight, we evaluated the performance of the

leased stores and the associated markets in relation to our overall real estate strategies, which resulted in the determination that most renewal options would not be reasonably certain in determining the expected lease term.

Adoption of the new standard resulted in the recording of additional net lease assets and lease liabilities of approximately \$1.3 billion and \$1.4 billion, respectively, as of February 4, 2018. The difference between the additional lease assets and lease liabilities, net of the deferred tax impact, was recorded as an adjustment to retained earnings. The standard did not materially impact our consolidated net earnings and had no impact on cash flows.

Pensions

In the first quarter of 2018, we adopted ASU No. 2017-07—Compensation – Retirement Benefits (Topic 715) using the full retrospective approach. The new standard requires employers to disaggregate and present separately the current service cost component from the other components of net benefit cost within the Consolidated Statement of Operations. For the three and nine months ended October 28, 2017, we reclassified \$(15) million and \$(44) million, respectively, of non-service cost components of net benefit cost to Net Other (Income) / Expense from SG&A on our Consolidated Statements of Operations.

3. Revenues

General merchandise sales represent the vast majority of our revenues. We also earn revenues from a variety of other sources, most notably credit card profit sharing income from our arrangement with TD Bank Group (TD).

During the first quarter of 2018, we reclassified certain income streams, including credit card profit sharing income, to Other Revenue on our Consolidated Statements of Operations and conformed prior periods. Note 2 provides additional information.

Merchandise sales – We record almost all retail store revenues at the point of sale. Digital channel originated sales may include shipping revenue and are recorded upon delivery to the guest or upon guest pickup at the store. Total revenues do not include sales tax because we are a pass-through conduit for collecting and remitting sales taxes. Generally, guests may return national brand merchandise within 90 days of purchase and owned and exclusive brands within one year of purchase. Sales are recognized net of expected returns, which we estimate using historical return patterns and our expectation of future returns. As of November 3, 2018, February 3, 2018, and October 28, 2017, the accrual for estimated returns was \$125 million, \$110 million, and \$127 million, respectively. We have not historically had material adjustments to our returns estimates.

Under certain vendor arrangements the purchase and sale of inventory is virtually simultaneous. We record revenue and related costs gross for the vast majority of these arrangements, with approximately 5 percent of consolidated sales made under such arrangements. We concluded that we are the principal in these transactions for a number of reasons, most notably because we 1) control the overall economics of the transactions, including setting the sales price and realizing the majority of cash flows from the sale, 2) control the relationship with the customer, and 3) are responsible for fulfilling the promise to provide goods to the customer.

Revenue from Target gift card sales is recognized upon gift card redemption, which is typically within one year of issuance. Our gift cards do not expire. Based on historical redemption rates, a small and relatively stable percentage of gift cards will never be redeemed, referred to as "breakage." Estimated breakage revenue is recognized over time in proportion to actual gift card redemptions.

(a) Net of estimated breakage.

Guests receive a 5 percent discount on virtually all purchases and receive free shipping at Target.com when they use their Target-branded credit or debit card (REDcards). The 5 percent discount is included as a sales reduction in our Consolidated Statements of Operations and was \$224 million and \$663 million for the three and nine months ended November 3, 2018, respectively, and \$215 million and \$639 million for the three and nine months ended October 28, 2017, respectively.

Credit card profit sharing – We receive payments under a credit card program agreement with TD. Under the agreement, we receive a percentage of the profits generated by the Target Credit Card and Target MasterCard receivables in exchange for performing account servicing and primary marketing functions. TD underwrites, funds, and owns Target Credit Card and Target MasterCard receivables, controls risk management policies, and oversees regulatory compliance.

4. Fair Value Measurements

5. Property and Equipment

We review long-lived assets for impairment when events or changes in circumstances—such as a decision to relocate or close a store or distribution center, discontinue projects, or make significant software changes—indicate that the asset's carrying value may not be recoverable. We recognized no impairment losses during the three months ended November 3, 2018, and \$85 million of impairment losses during the nine months ended November 3, 2018, primarily resulting from planned store closures. We recognized impairment losses of \$1 million and \$89 million during the three and nine months ended October 28, 2017, respectively, primarily resulting from planned or completed store closures and supply chain changes. The impairments are recorded in Selling, General and Administrative Expenses on the Consolidated Statements of Operations.

6. Commercial Paper and Long-Term Debt

During the three and nine months ended November 3, 2018, we issued no new long-term debt and did not repurchase existing long-term debt before its maturity.

In October 2017, we issued unsecured fixed rate debt of \$750 million at 3.9 percent that matures in November 2047. During the three months ended October 28, 2017, we repurchased \$344 million of debt before its maturity at a market value of \$463 million. We recognized a loss on early retirement of approximately \$123 million, which was recorded in Net Interest Expense in our Consolidated Statements of Operations.

We obtain short-term financing from time to time under our commercial paper program. For the three and nine months ended November 3, 2018, the maximum amount outstanding was \$490 million and \$658 million, respectively, and the average daily amount outstanding was \$35 million and \$54 million, respectively, at a weighted average annual interest rate of 2.2 percent and 1.9 percent, respectively. As of November 3, 2018, \$490 million was outstanding and is classified within Current Portion of Long-Term Debt and Other Borrowings on our Consolidated Statement of Financial Position. No balances were outstanding at any time during the nine months ended October 28, 2017.

7. Derivative Financial Instruments

Our derivative instruments primarily consist of interest rate swaps, which we use to mitigate interest rate risk. As a result of our use of derivative instruments, we have counterparty credit exposure to large global financial institutions. We monitor this concentration of counterparty credit risk on an ongoing basis. Note 4 provides the fair value and classification of these instruments.

During the nine months ended November 3, 2018, we entered into two interest rate swaps, each with a notional amount of \$250 million, under which we pay a variable rate and receive a fixed rate. We designated these swaps as fair value hedges. With the addition of these swaps, as of November 3, 2018, four interest rate swaps with notional amounts totaling \$1,500 million were designated as fair value hedges. As of October 28, 2017, two interest rate swaps with notional amounts totaling \$1,000 million were designated as fair value hedges. No ineffectiveness was recognized during the three and nine months ended November 3, 2018 or October 28, 2017.

We recorded expense of \$1 million and \$2 million during the three and nine months ended November 3, 2018, and income of \$2 million and \$8 million during the three and nine months ended October 28, 2017, respectively, within Net Interest Expense on our Consolidated Statements of Operations related to periodic payments, valuation adjustments, and amortization of gains or losses on our interest rate swaps.

8. Leases

We lease certain retail stores, warehouses, distribution centers, office space, land, and equipment. Leases with an initial term of 12 months or less are not recorded on the balance sheet; we recognize lease expense for these leases on a straight-line basis over the lease term.

Most leases include one or more options to renew, with renewal terms that can extend the lease term from one to 50 years or more. The exercise of lease renewal options is at our sole discretion. Certain leases also include options to purchase the leased property. The depreciable life of assets and leasehold improvements are limited by the expected lease term, unless there is a transfer of title or purchase option reasonably certain of exercise.

Certain of our lease agreements include rental payments based on a percentage of retail sales over contractual levels and others include rental payments adjusted periodically for inflation. Our lease agreements do not contain any material residual value guarantees or material restrictive covenants.

We rent or sublease certain real estate to third parties. Our sublease portfolio consists mainly of operating leases with CVS Pharmacy Inc. for space within our stores.

Edgar Filing: TARGET CORP - Form 10-Q

For the three and nine months ended November 3, 2018, our income tax rate was 13.6 percent and 19.9 percent, respectively, compared with 22.2 percent and 30.5 percent for the three and nine months ended October 28, 2017, respectively. For the three and nine months ended November 3, 2018, the effective tax rate reflects benefits of the Tax Cuts and Jobs Act (the Tax Act), including the lower federal statutory rate of 21 percent and measurement period adjustments recorded during the third quarter, and to a lesser extent, discrete tax benefits. For the three and nine months ended October 28, 2017, the effective tax rate reflects

a federal statutory rate of 35 percent offset by prior-period discrete tax benefits of \$55 million and \$56 million, respectively, primarily related to our global sourcing operations.

In 2017, we recorded provisional amounts for certain income tax effects of the Tax Act for which the accounting under ASC Topic 740, Income Taxes, was incomplete but a reasonable estimate could be determined. During the third quarter of 2018, we recorded adjustments to previously-recorded provisional amounts related to the Tax Act, resulting in a \$39 million tax benefit, primarily related to the remeasurement of deferred tax assets and liabilities. During the fourth quarter, we will complete our Tax Act accounting. We do not expect any material adjustments.

Beginning with the first quarter of 2018, we are subject to a new tax on global intangible low-taxed income that is imposed on foreign earnings. We have made an accounting election to record this tax as a period cost and thus have not adjusted any of the deferred tax assets or liabilities of our foreign subsidiaries for the new tax. Impacts of this new tax were immaterial and are included in our provision for income taxes for the three and nine months ended November 3, 2018.

Note: Activity related to the third quarter 2018 and 2017 accelerated share repurchases (ASRs) described below is omitted because the transactions were not fully settled as of November 3, 2018 and October 28, 2017, respectively.

During the third quarter of 2018, we entered into an ASR to repurchase \$325 to \$450 million of our common stock under the existing \$5 billion share repurchase program. Under the agreement, we paid \$450 million and received an initial delivery of 3.5 million shares, which were retired, resulting in a \$287 million reduction to Retained Earnings. As of November 3, 2018, \$163 million is included in the Consolidated Statement of Financial Position as a reduction to Additional Paid-in Capital.

During the third quarter of 2017, we entered into an ASR to repurchase \$150 to \$250 million of our common stock under the existing \$5 billion share repurchase program. Under the agreement, we paid \$250 million and received an initial delivery of 2.5 million shares, which were retired. Upon settlement in the fourth quarter of 2017, we received an additional 0.3 million shares, which were retired, and \$89 million for the remaining amount not settled in shares. In total, we repurchased 2.8 million shares under the ASR for a total cash investment of \$161 million (\$57.78 per share). Within the Consolidated Statements of Cash Flows, we reclassified \$139 million related to the initial share delivery from the ASR entered into during the third quarter 2017 from Repurchase of Stock to Accelerated Share Repurchase Pending Final Settlement to conform to the current year presentation.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Executive Summary

Third quarter 2018 includes the following notable items:

- GAAP earnings per share from continuing operations were \$1.16.
- Adjusted earnings per share from continuing operations were \$1.09.
- Sales increased 5.7 percent.
- Comparable sales increased 5.1 percent, driven by a 5.3 percent increase in traffic.
- Comparable store sales grew 3.2 percent.
- Digital channel sales increased 49 percent, contributing 1.9 percentage points to comparable sales.

As described in Note 2 to the Consolidated Financial Statements, certain prior-year amounts have been adjusted to reflect the impact of adopting Accounting Standards Update (ASU) No. 2014-09—Revenue from Contracts with Customers (Topic 606), ASU No. 2016-02—Leases (Topic 842), and ASU No. 2017-07—Compensation – Retirement Benefits (Topic 715) and adjusted throughout this document to conform to the current year presentation.

Sales were \$17,590 million for the three months ended November 3, 2018, an increase of \$943 million or 5.7 percent from the same period in the prior year. Operating cash flow provided by continuing operations was \$3,614 million for the nine months ended November 3, 2018, a decrease of \$806 million, or 18.2 percent, from \$4,420 million for the nine months ended October 28, 2017. Refer to the Operating Cash Flows discussion within the Liquidity and Capital Resources section of MD&A on page 27 for additional information.

Note: Amounts may not foot due to rounding. Adjusted diluted earnings per share from continuing operations (Adjusted EPS), a non-GAAP metric, excludes the impact of certain items. Management believes that Adjusted EPS is useful in providing period-to-period comparisons of the results of our continuing operations. A reconciliation of non-GAAP financial measures to GAAP measures is provided on page 24.

(a) Lease standard adoption resulted in a \$0.01 reduction in GAAP diluted earnings per share from continuing operations (GAAP EPS) for the nine months ended October 28, 2017, and in Adjusted EPS for both the three and nine months ended October 28, 2017, and less than \$0.01 in GAAP EPS for the three months ended October 28, 2017.

For the trailing twelve months ended November 3, 2018, after-tax return on invested capital from continuing operations (ROIC) was 15.8 percent, compared with 13.4 percent for the trailing twelve months ended October 28, 2017. (Note, the adoption of the lease standard reduced ROIC by approximately 0.5 percentage points for all periods presented.) Excluding the discrete impacts of the Tax Cuts and Jobs Act (Tax Act), ROIC was 13.9 percent for the trailing twelve months ended November 3, 2018. The calculation of ROIC is provided on page 26.

Note: Gross margin rate is calculated as gross margin (sales less cost of sales) divided by sales. All other rates are calculated by dividing the applicable amount by total revenue.

Sales

Sales include all merchandise sales, net of expected returns, and gift card breakage. Comparable sales is a measure that highlights the performance of our stores and digital channels by measuring the change in sales for a period over the comparable, prior-year period of equivalent length. Comparable sales include all sales, except sales from stores open less than 13 months, digital acquisitions we have owned less than 13 months, stores that have been closed, and digital acquisitions that we no longer operate. Comparable sales measures vary across the retail industry. As a result, our comparable sales calculation is not necessarily comparable to similarly titled measures reported by other companies. Digital channel sales include all sales initiated through mobile applications and our websites. Digital channel sales may be fulfilled through our stores, our distribution centers, our vendors, or other delivery options, including store pick-up or drive-up and delivery via our wholly-owned subsidiary, Shipt.

The increase in sales during the three and nine months ended November 3, 2018, is due to a comparable sales increase of 5.1 percent and 4.9 percent, respectively, and the contribution from new stores.

Note 3 to the Consolidated Financial Statements provides sales by product category. The collective interaction of a broad array of macroeconomic, competitive, and consumer behavioral factors, as well as sales mix, and transfer of sales to new stores makes further analysis of sales metrics infeasible.

We monitor the percentage of purchases that are paid for using REDcards (REDcard Penetration) because our internal analysis has indicated that a meaningful portion of the incremental purchases on REDcards are also incremental sales for Target. Guests receive a 5 percent discount on virtually all purchases when they use a REDcard at Target.

Note: Amounts may not foot due to rounding. In Q1 2018, we refined our calculation of REDcard penetration. The prior period amount has been updated to conform with the current period methodology, resulting in an increase of 0.2 percentage points to the Total REDcard Penetration for both the three and nine months ended October 28, 2017.

Gross Margin Rate

For the three and nine months ended November 3, 2018, our gross margin rate was 28.7 percent and 29.6 percent, respectively, compared with 29.6 percent and 30.0 percent in the comparable periods last year. For both periods, the decrease was primarily due to increased digital fulfillment costs as well as increased supply chain expenses primarily driven by the size and timing of holiday-related inventory receipts compared with last year, partially offset by the benefit of merchandising strategies including cost savings initiatives and efforts to improve pricing and promotions.

Selling, General, and Administrative Expense Rate

For the three and nine months ended November 3, 2018, our SG&A expense rate was 22.1 percent and 21.7 percent, respectively, compared with 22.1 percent and 21.5 percent in the comparable periods last year, reflecting higher wages in 2018, offset by cost savings for the three month period.

Depreciation and Amortization Expense Rate

For the three and nine months ended November 3, 2018, our depreciation and amortization (exclusive of depreciation included in cost of sales) expense rate was 3.0 percent and 3.1 percent, respectively, compared with 3.4 percent and 3.3 percent in the comparable periods last year. For the three-month period, the rate decrease was due to higher sales and lower accelerated depreciation compared to the prior year. For the nine month period, the rate impact of higher 2018 sales was partially offset by higher depreciation expense due to increased investment in store assets.

Other Performance Factors

Net Interest Expense

Net interest expense from continuing operations was \$115 million and \$352 million for the three and nine months ended November 3, 2018, respectively, and \$251 million and \$521 million for the three and nine months ended October 28, 2017, respectively. The decrease is primarily due to a loss on early retirement of debt of \$123 million for the three and nine months ended October 28, 2017, included in net interest expense, and a lower average net portfolio rate during the three and nine months ended November 3, 2018, as compared with the prior year periods.

Provision for Income Taxes

Our effective income tax rate from continuing operations for the three and nine months ended November 3, 2018, was 13.6 percent and 19.9 percent, respectively, compared with 22.2 percent and 30.5 percent for the comparable periods last year.

For the three and nine months ended November 3, 2018, the effective rate reflects benefits from the Tax Act which include the lower federal statutory rate of 21 percent and \$39 million of additional tax benefit from adjustments to previously-recorded provisional amounts, and to a lesser extent, rate benefits from our global sourcing operations.

For the three and nine months ended October 28, 2017, the effective rate reflects the higher 35 percent federal corporate tax rate and rate benefits related to our global sourcing operations, including discrete benefits related to prior periods.

Reconciliation of Non-GAAP Financial Measures to GAAP Measures

To provide additional transparency, we have disclosed non-GAAP adjusted diluted earnings per share from continuing operations (Adjusted EPS). This metric excludes certain items presented below. We believe this information is useful in providing period-to-period comparisons of the results of our continuing operations. This measure is not in accordance with, or an alternative for, generally accepted accounting principles in the United States (GAAP). The most comparable GAAP measure is diluted earnings per share from continuing operations. Adjusted EPS should not be considered in isolation or as a substitution for analysis of our results as reported under GAAP. Other companies may calculate Adjusted EPS differently, limiting the usefulness of the measure for comparisons with other companies.

Lease standard adoption resulted in a \$0.01 reduction in GAAP EPS for the nine months ended October 28, 2017, ^(a) and in Adjusted EPS for both the three and nine months ended October 28, 2017, and less than \$0.01 in GAAP EPS for the three months ended October 28, 2017. Refer to Note 2 to the Consolidated Financial Statements.

^(b) Represents measurement period adjustments to previously-recorded provisional amounts related to the Tax Act.

^(c) Represents income from income tax matters not related to current period operations.

Earnings from continuing operations before interest expense and income taxes (EBIT) and earnings before interest expense, income taxes, depreciation and amortization (EBITDA) are non-GAAP financial measures which we believe provide meaningful information about our operational efficiency compared to our competitors by excluding the impact of differences in tax jurisdictions and structures, debt levels, and for EBITDA, capital investment. These measures are not in accordance with, or an alternative for, GAAP. The most comparable GAAP measure is net earnings from continuing operations. EBIT and EBITDA should not be considered in isolation or as a substitution for analysis of our results as reported under GAAP. Other companies may calculate EBIT and EBITDA differently, limiting the usefulness of the measure for comparisons with other companies.

(b) Represents total depreciation and amortization, including amounts classified within Depreciation and Amortization and within Cost of Sales on our Consolidated Statements of Operations.

We have also disclosed after-tax ROIC, which is a ratio based on GAAP information. We believe this metric is useful in assessing the effectiveness of our capital allocation over time. Other companies may calculate ROIC differently, limiting the usefulness of the measure for comparisons with other companies.

Analysis of Financial Condition

Liquidity and Capital Resources

Our cash and cash equivalents balance was \$825 million at November 3, 2018, compared with \$2,725 million for the same period in 2017. Our investment policy is designed to preserve principal and liquidity of our short-term investments. This policy allows investments in large money market funds or in highly rated direct short-term instruments that mature in 60 days or less. We also place dollar limits on our investments in individual funds or instruments.

Capital Allocation

We follow a disciplined and balanced approach to capital allocation based on the following priorities, ranked in order of importance: first, we fully invest in opportunities to profitably grow our business, create sustainable long-term value, and maintain our current operations and assets; second, we maintain a competitive quarterly dividend and seek to grow it annually; and finally, we return any excess cash to shareholders by repurchasing shares within the limits of our credit rating goals.

Operating Cash Flows

Operating cash flow provided by continuing operations was \$3,614 million for the nine months ended November 3, 2018, compared with \$4,420 million for the same period in 2017. The operating cash flow decrease is primarily due to a larger increase in inventory, partially offset by an increase in accounts payable during the nine months ended November 3, 2018, compared to the same period last year.

Inventory

Inventory was \$12,393 million as of November 3, 2018, compared with \$8,597 million and \$10,517 million at February 3, 2018, and October 28, 2017, respectively. Inventory increased to support current and expected sales, including market share opportunities in toys and baby-related merchandise. In addition, inventory levels were impacted by the timing of receipts and our efforts to improve in-stock levels.

Dividends

We paid dividends totaling \$337 million (\$0.64 per share) and \$1,001 million (\$1.88 per share) for the three and nine months ended November 3, 2018, respectively, and \$339 million (\$0.62 per share) and \$1,001 million (\$1.82 per share) for the three and nine months ended October 28, 2017, respectively, a per share increase of 3.2 percent and 3.3 percent, respectively. We declared dividends totaling \$338 million (\$0.64 per share) in third quarter 2018, a per share increase of 3.2 percent over the \$341 million (\$0.62 per share) of declared dividends during the third quarter of 2017. We have paid dividends every quarter since our 1967 initial public offering, and it is our intent to continue to do so in the future.

Share Repurchase

We returned \$526 million and \$1,451 million to shareholders through share repurchase during the three and nine months ended November 3, 2018. See Part II, Item 2 of this Quarterly Report on Form 10-Q and Note 10 to the Consolidated Financial Statements for more information.

Financing

Our financing strategy is to ensure liquidity and access to capital markets, to maintain a balanced spectrum of debt maturities, and to manage our net exposure to floating interest rate volatility. Within these parameters, we seek to minimize our borrowing costs. Our ability to access the long-term debt and commercial paper markets has provided us with ample sources of liquidity. Our continued access to these markets depends on multiple factors, including the condition of debt capital markets, our operating performance, and maintaining strong credit ratings. As of November 3, 2018, our credit ratings were as follows:

Credit Ratings	Moody's	Standard and Poor's	Fitch
Long-term debt	A2	A	A-
Commercial paper P-1		A-1	F2

If our credit ratings were lowered, our ability to access the debt markets, our cost of funds, and other terms for new debt issuances could be adversely impacted. Each of the credit rating agencies reviews its rating periodically and there is no guarantee our current credit ratings will remain the same as described above.

We have additional liquidity through a committed \$2.5 billion revolving credit facility obtained through a group of banks. In October 2018, we extended this credit facility by one year to October 2023. No balances were outstanding at any time during 2018 or 2017.

Most of our long-term debt obligations contain covenants related to secured debt levels. In addition to a secured debt level covenant, our credit facility also contains a debt leverage covenant. We are, and expect to remain, in compliance with these covenants. Additionally, as of November 3, 2018, no notes or debentures contained provisions requiring acceleration of payment upon a credit rating downgrade, except that certain outstanding notes allow the note holders to put the notes to us if within a matter of months of each other we experience both (i) a change in control; and (ii) our long-term credit ratings are either reduced and the resulting rating is noninvestment grade, or our long-term credit ratings are placed on watch for possible reduction and those ratings are subsequently reduced and the resulting rating is noninvestment grade.

We believe our sources of liquidity will continue to be adequate to maintain operations, finance anticipated expansion and strategic initiatives, fund debt maturities, pay dividends, and execute purchases under our share repurchase program for the foreseeable future. We continue to anticipate ample access to commercial paper and long-term financing.

Contractual Obligations and Commitments

As of the date of this report, other than changes related to adoption of the new lease accounting standard as described in Note 2 to the Consolidated Financial Statements, there were no material changes to our contractual obligations and commitments outside the ordinary course of business since February 3, 2018, as reported in our 2017 Form 10-K.

New Accounting Pronouncements

Refer to Note 2 to the Consolidated Financial Statements for a description of accounting standards adopted related to revenue recognition, leases, and pensions. We do not expect that any other recently issued accounting pronouncements will have a material effect on our financial statements.

Forward-Looking Statements

This report contains forward-looking statements, which are based on our current assumptions and expectations. These statements are typically accompanied by the words “expect,” “may,” “could,” “believe,” “would,” “might,” “anticipates,” or similar words. The principal forward-looking statements in this report include: our financial performance, statements regarding the adequacy of and costs associated with our sources of liquidity, the funding of debt maturities, the continued execution of our share repurchase program, our expected capital expenditures and new lease commitments, the impact of changes in the expected effective income tax rate on net income, including those resulting from the Tax Act, the expected compliance with debt covenants, the expected impact of new accounting pronouncements, our intentions regarding future dividends, the expected return on plan assets, the expected outcome of, and adequacy of our reserves for, claims, litigation and the resolution of tax matters, the expected impact of changes in information technology systems, and changes in our assumptions and expectations.

All such forward-looking statements are intended to enjoy the protection of the safe harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995, as amended. Although we believe there is a reasonable basis for the forward-looking statements, our actual results could be materially different. The most important factors which could cause our actual results to differ from our forward-looking statements are set forth on our description of risk factors in Item 1A of our Form 10-K for the fiscal year ended February 3, 2018, which should be read in conjunction with the forward-looking statements in this report. Forward-looking statements speak only as of the date they are made, and we do not undertake any obligation to update any forward-looking statement.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There have been no material changes in our primary risk exposures or management of market risks from those disclosed in our Form 10-K for the fiscal year ended February 3, 2018.

Item 4. Controls and Procedures

Changes in Internal Control Over Financial Reporting

During the most recently completed fiscal quarter, the following change to our information technology systems materially affected, or is reasonably likely to materially affect, our internal control over financial reporting:

- We are in the process of a broad migration of many mainframe-based systems and middleware products to a modern platform, including systems supporting inventory and supply chain-related transactions.

During the most recently completed fiscal quarter, no other change in our internal control over financial reporting materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Evaluation of Disclosure Controls and Procedures

As of the end of the period covered by this quarterly report, we conducted an evaluation, under supervision and with the participation of management, including the chief executive officer and chief financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Rules 13a-15 and 15d-15 of the Securities Exchange Act of 1934, as amended (Exchange Act). Based upon that evaluation, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures are effective at the reasonable assurance level. Disclosure controls and procedures are defined by Rules 13a-15(e) and 15d-15(e) of the Exchange Act as controls and other procedures that are designed to ensure that information required to be disclosed by us in reports filed with the Securities and Exchange Commission (SEC) under the Exchange Act is recorded, processed,

summarized, and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in reports filed under the Exchange Act is accumulated and communicated to our management, including our principal executive and principal financial officers, or persons performing similar functions, as appropriate, to allow timely decisions regarding required disclosure.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

No response is required under Item 103 of Regulation S-K, nor have there been any material developments for any previously reported legal proceedings.

Item 1A. Risk Factors

There have been no material changes to the risk factors described in our Annual Report on Form 10-K for the fiscal year ended February 3, 2018.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On September 20, 2016, our Board of Directors authorized a new \$5 billion share repurchase program. We began repurchasing shares under this new authorization during the fourth quarter of 2016. There is no stated expiration for the share repurchase program. Under the program, we have repurchased 40.3 million shares of common stock through November 3, 2018, at an average price of \$67.99, for a total investment of \$2.7 billion, excluding the October 2018 ASR because the transaction was not fully settled as of November 3, 2018. The table below presents information with respect to Target common stock purchases made during the three months ended November 3, 2018, by Target or any "affiliated purchaser" of Target, as defined in Rule 10b-18(a)(3) under the Exchange Act.
