4. CREDIT FACILITY

On May 12, 2010, the Company entered into a secured credit facility ("Credit Agreement") with JPMorgan Chase Bank, N.A. ("Lender"). The Credit Agreement provided for an \$8,000,000 revolving secured credit facility with interest rates either ranging from 0.0% to 0.75% over the Lender's most recently publicly announced prime rate or 2.0% to 3.0% over LIBOR, depending on the Company's leverage ratio. The Company pays a fee of 0.3% to 0.45% for unused amounts committed in the credit facility. On July 23, 2014, the Credit Agreement was amended to reduce the facility to \$5,000,000, subject to a borrowing base calculation as defined in the Credit Agreement, and to amend certain financial covenants. On July 29, 2015, the Credit Agreement was amended to extend the expiration to July 31, 2016, and to amend certain financial covenants. In addition to the revolving loans, the Credit Agreement also provides that the Company may, from time to time, request the Lender to issue letters of credit for the benefit of the Company of up to a sublimit of \$2,000,000 and subject to certain other limitations. The loan may be used only for general corporate purposes of the Company.

The Credit Agreement contains certain affirmative, negative and financial covenants customary for financings of this type. The negative covenants include restrictions on other indebtedness, liens, fundamental changes, certain investments, asset sales, sale and leaseback transactions and transactions with affiliates, among other restrictions. The financial covenants include minimum EBITDA and minimum tangible net worth requirements. The Company and the Lender also entered into the Pledge and Security Agreement dated May 12, 2010, under which the Company granted the Lender a security interest in substantially all of the Company's assets in connection with the Company's obligations under the Credit Agreement. The Company is currently in compliance with all covenants related to the Credit Facility. As of December 31, 2015, there were no outstanding borrowings on the facility. There were no outstanding borrowings as of June 30, 2015.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

The Company markets a complete line of high-fidelity headphones, wireless Bluetooth® speakers, computer headsets, telecommunications headsets, active noise canceling headphones, wireless headphones and compact disc recordings of American Symphony Orchestras on the Koss Classics label. The Company operates as one business segment.

Results of Operations Summary

Net sales for the quarter ended December 31, 2015 increased 2.7%, to \$7,229,341, compared to the same quarter last year. For the six months ended December 31, 2015, net sales were \$12,760,603 compared to \$12,509,636 for the same period last year for an increase of 2.0%. Increased sales in certain export markets and one domestic retailer were the primary causes of this improvement.

Gross profit as a percent of sales increased to 36.8% for the three months ended December 31, 2015, compared to 34.2% for the three months ended December 31, 2014, but decreased from 34.0% to 33.8% for the six months ended December 31, 2014 and 2015, respectively. These fluctuations were primarily due to the change in the mix of business by customer and sales channels.

Selling, general and administrative spending was lower primarily due to reduced headcount and lower stock-based compensation expense.

2015 Results Compared with 2014

(comments refer to both the three and six month periods unless otherwise stated)

Net sales increased for the three months ended December 31, 2015 by \$189,191, or 2.7%, as sales in certain export markets improved.

Net sales in the domestic market were lower due to loss of sales through a drug store chain and lower sales through an online retailer. These reductions were partially offset by increased sales at a mass retailer and the addition of new customers. Increased sales at the mass retailer were primarily due to the introduction of an additional item in its stores in May 2015.

Export net sales have increased with a resurgence of sales at two major distributors as well as the addition of a new Asian distributor. The Scandinavian distributor has increased sales volumes as a result of adding our newer models and developing more retail locations. In the Czech Republic, sales have increased as the distributor restocked inventory. Sales to Asia have

Index

increased considerably as the new distributor builds the inventory to support the market. These increases were partially offset by reduced sales to Russia and Ukraine. The distributor in Russia has reduced volumes while struggling with a challenging economy. In the Ukraine, sales remain low as a result of the conflict and poor economy.

Gross profit increased to 36.8% for the three months ended December 31, 2015, compared to 34.2% for the three months ended December 31, 2014. This increase is due to mix of sales into more profitable sales channels as well as improved margin generated by the new products.

For the six months ended December 31, 2015 and 2014, gross profit was 33.8% and 34.0% respectively.

Selling, general and administrative expenses were lower than last year driven by reduced headcount and a reduced expense for stock-based compensation. The reduction in headcount is related to the retirement of the former Chairman which reduced expenses by approximately \$48,000 and \$87,000 for the three and six month periods. Stock-based compensation was lower by approximately \$27,000 and \$73,000 for the three and six month periods.

The effective income tax rate for the six months ended December 31, 2015 was 39.6% which is comprised of the U.S. federal statutory rate of 34% and the effect of state income taxes. It is anticipated that the effective income tax rate will be approximately 38-40% for the year ended June 30, 2016.

Non-GAAP Financial Measures

The Company's management uses the non-GAAP measurement of earnings before interest, taxes, depreciation and amortization ("EBITDA") to track performance from operations. EBITDA as calculated below is one of the amended covenants in the Company's credit agreement with JPMorgan Chase Bank, N.A. This measurement excludes unusual and non-recurring expenses and recoveries related to the unauthorized transactions, as previously reported. The following table reconciles net income for the periods presented (GAAP financial measure) to non-GAAP EBITDA from operations.

Total cash provided by (used in):	2015	2014	
Operating activities	\$1,520,188	\$(693,407	)

Net increase (decrease) in cash and cash equivalents	\$1,131,145	\$(1,148,257	)

Operating Activities

In the six months ended December 31, 2015, the Company received cash in advance payments of approximately \$1,020,000 for shipments to be made in the quarter ended March 31, 2016.

In the six months ended December 31, 2014, the Company paid approximately \$1,300,000 for returned product received in the year ended June 30, 2014, as the customer did not buy sufficient new products to offset these returns. This was partially offset by receipt of a federal income tax refund of approximately \$900,000.

Investing Activities

Cash used in investing activities was lower for the six months ended December 31, 2015 as the Company had decreased expenditures for tooling related to products, which was partially offset by an increase in expenses for leasehold improvements. The Company anticipates it will incur total expenditures of approximately \$500,000 to \$600,000 for tooling, leasehold improvements and capital expenditures during the fiscal year ending June 30, 2016. The Company expects to generate sufficient cash flow through operations or through the use of its credit facility to fund these expenditures.

Financing Activities

As of December 31, 2015, the Company had no outstanding borrowings on its bank line of credit facility.

There were no purchases of common stock in 2015 or 2014 under the stock repurchase program. No stock options were exercised in 2015 or 2014.

Liquidity

The Company's capital expenditures are primarily for tooling. In addition, it has interest payments on its borrowings when it uses its line of credit facility. The Company did not declare a dividend for the quarter ended December 31, 2015. The Company believes that cash generated from operations, together with cash reserves and borrowings available under its credit facility, provide it with adequate liquidity to meet operating requirements, debt service requirements and planned capital expenditures for the next twelve months and thereafter for the foreseeable future. The Company regularly evaluates new product offerings, inventory levels and capital expenditures to ensure that it is effectively allocating resources in line with current market conditions.

Credit Facility

On May 12, 2010, the Company entered into a secured credit facility (“Credit Agreement”) with JPMorgan Chase Bank, N.A. (“Lender”). The Credit Agreement provided for an \$8,000,000 revolving secured credit facility and letters of credit for the benefit of the Company of up to a sublimit of \$2,000,000. On July 23, 2014, the Credit Agreement was amended to lower the revolving credit line to \$5,000,000 and to amend certain financial covenants. The Company and the Lender also entered into a Pledge and Security Agreement dated May 12, 2010 under which the Company granted the Lender a security interest in substantially all of the Company’s assets in connection with the Company’s obligations under the Credit Agreement. On July 29, 2015, the Credit Agreement was amended to extend the expiration to July 31, 2016, and to amend certain financial covenants. The Company is currently in compliance with all covenants related to the Credit Facility. As of December 31, 2015, there were no outstanding borrowings on the facility. There were no outstanding borrowings as of June 30, 2015.

Off-Balance Sheet Arrangements

The Company has no off-balance sheet arrangements other than the lease for the facility in Milwaukee, Wisconsin. The Company leases the facility from Koss Holdings, LLC, which is wholly-owned by the former Chairman. On May 15, 2012, the lease was renewed for a period of five years, ending June 30, 2018, and is being accounted for as an operating lease. The lease extension maintained the rent at a fixed rate of \$380,000 per year. The Company is responsible for all property maintenance, insurance, taxes and other normal expenses related to ownership. The facility is in good repair and, in the opinion of management, is suitable and adequate for the Company’s business purposes.
