Brand solutions include brand development, deployment and delivery (consisting of brand management, printing plates and cylinders, pre-media services and imaging services for consumer packaged goods and retail customers, merchandising display systems, and marketing and design services). Memorialization products consist primarily of bronze and granite memorials and other memorialization products, caskets and cremation equipment primarily for the cemetery and funeral home industries. Industrial technologies include marking and coding equipment and related consumables, industrial automation products and order fulfillment systems for identifying, tracking, picking and conveying consumer and industrial products.

Note 2. Basis of Presentation

The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles ("GAAP") for interim financial information for commercial and industrial companies and the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. The year-end consolidated balance sheet data was derived from audited financial statements, but does not include all disclosures required by GAAP. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for fair presentation have been included. Operating results for the six months ended March 31, 2017 are not necessarily indicative of the results that may be expected for the fiscal year ending September 30, 2017. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's Annual Report on Form 10-K for the year ended September 30, 2016. The consolidated financial statements include all domestic and foreign subsidiaries in which the Company maintains an ownership interest and has operating control. All intercompany accounts and transactions have been eliminated.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

New Accounting Pronouncements:

Issued

In February 2017, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2017-07, Compensation - Retirement Benefits (Topic 715), Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost, which provides new guidance intended to improve the disclosure requirements related to the service cost component of net benefit cost. This ASU is effective for the Company beginning in fiscal year 2019. The adoption of this ASU is not expected to have a material impact on the Company's consolidated financial statements.

In January 2017, the FASB issued ASU No. 2017-04, Intangibles - Goodwill and Other (Topic 350), Simplifying the Test for Goodwill Impairment, which provides new guidance intended to simplify the subsequent measurement of goodwill and removing Step 2 from the goodwill impairment process. This ASU is effective for the Company beginning in fiscal year 2021, and does allow for early adoption. The adoption of this ASU is not expected to have a material impact on the Company's consolidated financial statements.

In January 2017, the FASB issued ASU No. 2017-01, Business Combinations (Topic 805), Clarifying the Definition of a Business, which provides new guidance intended to make the definition of a business more operable and allow for more consistency in application. This ASU is effective for the Company beginning in interim periods starting in fiscal year 2019. The adoption of this ASU is not expected to have a material impact on the Company's consolidated financial statements.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited), Continued
(Dollar amounts in thousands, except per share data)

Note 2. Basis of Presentation (continued)

In December 2016, the FASB issued ASU No. 2016-20, Technical Corrections and Improvements to Topic 606, Revenue from Contracts with Customers. This ASU coincides with ASU 2014-09 and provides technical corrections and improvements to clarify guidance and correct unintended applications of the guidance. The Company is in the process of assessing the impact this ASU, along with ASU 2014-09, will have on its consolidated financial statements.

In August 2016, the FASB issued ASU No. 2016-15, Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments (a consensus of the Emerging Issues Task Force), which provides new guidance intended to clarify the presentation of certain cash flow items including debt prepayments, debt extinguishment costs, contingent considerations payments, and insurance proceeds, among other things. This ASU is effective for the Company beginning in interim periods starting in fiscal year 2019, and early adoption is permitted. The Company is in the process of assessing the impact this ASU will have on its consolidated financial statements.

In April and May 2016, the FASB issued ASU Nos. 2016-10, Revenue from Contracts with Customers (Topic 606): Identifying Performance Obligations and Licensing, and 2016-12, Revenue from Contracts with Customers (Topic 606): Narrow-Scope Improvements and Practical Expedients, respectively. Both of these ASUs coincide with ASU 2014-09 and provide additional guidance in the determination of performance obligations and implementation expedients. The Company is in the process of assessing the impact these ASUs, along with ASU 2014-09, will have on its consolidated financial statements.

In March 2016, the FASB issued ASU No. 2016-09, Compensation - Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting, which provides new guidance intended to simplify the accounting surrounding share-based compensation. This ASU is effective for the Company beginning in interim periods starting in fiscal year 2018. The Company is in the process of assessing the impact this ASU will have on its consolidated financial statements.

In March 2016, the FASB issued ASU No. 2016-08, Revenue from Contracts with Customers (Topic 606): Principal versus Agent Considerations (Reporting Revenue Gross versus Net), which coincides with ASU 2014-09 and provides additional guidance in the determination of principals versus agents. This ASU is effective for the Company beginning in interim periods starting in fiscal year 2019. The Company is in the process of assessing the impact this ASU, along with ASU 2014-09, will have on its consolidated financial statements.

In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842), which provides new guidance on how an entity should account for leases and recognize associated lease assets and liabilities. This ASU requires lessees to recognize assets and liabilities that arise from financing and operating leases on the Consolidated Balance Sheet. The implementation of this standard will require application of the new guidance at the beginning of the earliest comparative period presented, once adopted. This ASU is effective for the Company beginning in interim periods starting in fiscal year 2020, and does allow for early adoption. The Company is in the process of assessing the impact this ASU will have on its consolidated financial statements.

In January 2016, the FASB issued ASU No. 2016-01, Financial Instruments - Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities, which provides new guidance intended to improve the recognition, measurement, presentation and disclosure of financial instruments. This ASU is effective for the Company beginning in interim periods starting in fiscal year 2019. The adoption of this ASU is not expected to have a material impact on the Company's consolidated financial statements.

In July 2015, the FASB issued ASU No. 2015-11, Simplifying the Measurement of Inventory, which provides new guidance to simplify the measurement of inventory valuation at the lower of cost or net realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less reasonably predictable costs of completion, disposal, and transportation. The new inventory measurement requirements are effective for the Company's 2018 fiscal year, and will replace the current inventory valuation guidance that requires the use of a lower of cost or market framework. The adoption of this ASU is not expected to have a material impact on the Company's consolidated financial statements.

In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers: Topic 606. This ASU replaces nearly all existing U.S. GAAP guidance on revenue recognition. The standard prescribes a five-step model for recognizing revenue, the application of which will require significant judgment. The FASB issued ASU 2015-14 in August 2015 which resulted in a deferral of the original effective date of ASU 2014-09. This standard is effective for Matthews beginning October 1, 2018. The Company is in the process of assessing the impact the adoption of this ASU will have on its consolidated financial statements.

Note 2. Basis of Presentation (continued)

Adopted

In June 2014, the FASB issued ASU No. 2014-12, Compensation - Stock Compensation (Topic 718), which provides new guidance intended to clarify the diverse accounting treatment for certain share-based payments. Share-based payments with performance targets that could be achieved after the requisite service period should be treated as performance conditions under the existing guidance in ASC Topic 718. The adoption of this ASU in the first quarter ended December 31, 2016 had no impact on the Company's consolidated financial statements.

Note 3. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A three level fair value hierarchy is used to prioritize the inputs used in valuations, as defined below:

Level 1: Observable inputs that reflect unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2: Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3: Unobservable inputs for the asset or liability.

The fair values of the Company's assets and liabilities measured on a recurring basis are categorized as follows:

Note 5. Debt

The Company has a domestic credit facility with a syndicate of financial institutions that was amended in April 2016 and includes a \$900,000 senior secured revolving credit facility and a \$250,000 senior secured amortizing term loan. The term loan requires scheduled principal payments of 5.0% of the outstanding principal in year one, 7.5% in year two, and 10.0% in years three through five, payable in quarterly installments. The balance of the revolving credit facility and the term loan are due on the maturity date of April 26, 2021. Borrowings under both the revolving credit facility and the term loan bear interest at LIBOR plus a factor ranging from 0.75% to 2.00% (1.75% at March 31, 2017) based on the Company's leverage ratio. The leverage ratio is defined as net indebtedness divided by adjusted EBITDA (earnings before interest, taxes, depreciation and amortization). The Company is required to pay an annual commitment fee ranging from 0.15% to 0.25% (based on the Company's leverage ratio) of the unused portion of the revolving credit facility.

The domestic credit facility requires the Company to maintain certain leverage and interest coverage ratios. A portion of the facility (not to exceed \$35,000) is available for the issuance of trade and standby letters of credit. Outstanding borrowings on the revolving credit facility at March 31, 2017 and September 30, 2016 were \$645,000 and \$608,000, respectively. Outstanding borrowings on the term loan at March 31, 2017 and September 30, 2016 were \$240,245 and \$246,449, respectively. The weighted-average interest rate on outstanding borrowings for the domestic credit facility at March 31, 2017 and March 31, 2016 was 2.70% and 2.52%, respectively.

The following table presents information related to interest rate contracts entered into by the Company and designated as cash flow hedges:

	March 31, 2017	September 30, 2016		
Pay fixed swaps - notional amount	\$371,875	\$403,125		
Net unrealized gain (loss)	\$4,438	\$(5,834))	
Weighted-average maturity period (years)	3.6	3.9		
Weighted-average received rate	0.98	% 0.53	%	
Weighted-average pay rate	1.27	% 1.26	%	

The Company enters into interest rate swaps in order to achieve a mix of fixed and variable rate debt that it deems appropriate. The interest rate swaps have been designated as cash flow hedges of future variable interest payments, which are considered probable of occurring. Based on the Company's assessment, all of the critical terms of each of the hedges matched the underlying terms of the hedged debt and related forecasted interest payments, and as such, these hedges were considered highly effective.

The fair value of the interest rate swaps reflected an unrealized gain, net of unrealized losses, of \$4,438 (\$2,707 after tax) at March 31, 2017 and an unrealized loss, net of unrealized gains, of \$5,834 (\$3,559 after tax) at September 30, 2016. The net unrealized gain/loss is included in shareholders' equity as part of accumulated other comprehensive income ("AOCI"). Assuming market rates remain constant with the rates at March 31, 2017, a gain (net of tax) of approximately \$635 included in AOCI is expected to be recognized in earnings over the next twelve months.

In September 2014, a demand was filed by a customer seeking to draw upon a letter of credit issued by the Company of £8,570,000 (\$10,701 at March 31, 2017) with respect to a performance guarantee on a project in Saudi Arabia. Management assessed the customer's demand to be without merit and initiated an action with the court in the United Kingdom (the "Court"). Pursuant to this action, an order was issued by the Court in January 2015 requiring that, upon receipt by the customer, the funds were to be remitted by the customer to the Court pending resolution of the dispute between the parties. As a result, the Company made payment on the draw to the financial institution for the letter of credit and the funds were ultimately received by the customer. The customer did not remit the funds to the Court as ordered. On June 14, 2016, the Court ruled completely in favor of Matthews following a trial on the merits. However, as the customer has neither yet remitted the funds nor complied with the final, un-appealed orders of the Court, it is possible the resolution of this matter could have an unfavorable financial impact on Matthews' results of operations. As of March 31, 2017 and September 30, 2016, the Company has presented the funded letter of credit within other current assets on the Consolidated Balance Sheet.

As of March 31, 2017 and September 30, 2016, the fair value of the Company's long-term debt, including current maturities, approximated the carrying value included in the Consolidated Balance Sheet.

Note 6. Share-Based Payments

The Company maintains an equity incentive plan (the "2012 Equity Incentive Plan") that provides for grants of stock options, restricted shares, stock-based performance units and certain other types of stock-based awards. The Company also maintains an equity incentive plan (the "2007 Equity Incentive Plan") and a stock incentive plan (the "1992 Incentive Stock Plan") that previously provided for grants of stock options, restricted shares and certain other types of stock-based awards. Under the 2012 Equity Incentive Plan, which has a ten-year term, the maximum number of shares available for grants or awards is an aggregate of 2,500,000. There will be no further grants under the 2007 Equity Incentive Plan or the 1992 Incentive Stock Plan. At March 31, 2017, there were 589,238 shares reserved for

future issuance under the 2012 Equity Incentive Plan. All plans are administered by the Compensation Committee of the Board of Directors.

The option price for each stock option granted under any of the plans may not be less than the fair market value of the Company's Class A Common Stock on the date of grant. As of March 31, 2017, there were no stock options outstanding.

Note 6. Share-Based Payments (continued)

With respect to outstanding restricted share grants, for grants made prior to fiscal 2013, generally one-half of the shares vested on the third anniversary of the grant, with the remaining one-half of the shares vesting in one-third increments upon attainment of pre-defined levels of appreciation in the market value of the Company's Class A Common Stock. Additionally, restricted shares cannot vest until the first anniversary of the grant date. Unvested restricted shares generally expire on the earlier of three or five years from the date of grant, upon employment termination, or within specified time limits following voluntary employment termination (with the consent of the Company), retirement or death. The Company issues restricted shares from treasury shares.

As of March 31, 2017, the total unrecognized compensation cost related to unvested restricted stock was \$12,339 and is expected to be recognized over a weighted average period of 1.6 years.

The transactions for shares under options for the six months ended March 31, 2017 were as follows:

Note 6. Share-Based Payments (continued)

The transactions for non-vested options for the six-months ended March 31, 2017 were as follows:

	Shares	Weighted-average grant-date fair value
Non-vested at September 30, 2016	77,400	\$ 12.29

Non-vested at March 31, 2017	—	\$ —

The fair value of each restricted stock grant is estimated on the date of grant using a binomial lattice valuation model. The following table indicates the assumptions used in estimating the fair value of restricted stock granted during the six-month periods ended March 31, 2017 and 2016.

	Six Months Ended March 31,	
	2017	2016
Expected volatility	20.2%	20.7%
Dividend yield	1.1 %	1.0 %
Average risk-free interest rate	1.7 %	1.7 %
Average expected term (years)	2.1	2.1

The risk-free interest rate is based on United States Treasury yields at the date of grant. The dividend yield is based on the most recent dividend payment and average stock price over the 12 months prior to the grant date. Expected volatilities are based on the historical volatility of the Company's stock price. The expected term for grants in the years ended September 30, 2016, 2015 and 2014 represents an estimate of the average period of time for restricted shares to vest. The option characteristics for each grant are considered separately for valuation purposes.

The Company maintains the 1994 Director Fee Plan and the Amended and Restated 2014 Director Fee Plan (collectively, the "Director Fee Plans"). There will be no further fees or share-based awards granted under the 1994 Director Fee Plan. Under the Amended and Restated 2014 Director Fee Plan, non-employee directors (except for the Chairman of the Board) each receive, as an annual retainer fee for fiscal 2017, either cash or shares of the Company's Class A Common Stock with a value equal to \$75. The annual retainer fee for fiscal 2017 paid to a non-employee Chairman of the Board is \$175. Where the annual retainer fee is provided in shares, each director may elect to be paid these shares on a current basis or have such shares credited to a deferred stock account as phantom stock, with such shares to be paid to the director subsequent to leaving the Board. The value of deferred shares is recorded in other liabilities. A total of 22,942 shares had been deferred under the Director Fee Plans as of March 31, 2017. Additionally, non-employee directors each receive an annual stock-based grant (non-statutory stock options, stock appreciation rights and/or restricted shares) with a value of \$125 for fiscal 2017. A total of 22,300 stock options have been granted under the Director Fee Plans. At March 31, 2017, there were no options outstanding. Additionally, 161,724 shares of restricted stock have been granted under the Director Fee Plans, 58,574 of which were issued under the Amended and Restated 2014 Director Fee Plan. 25,157 share of restricted stock are unvested at March 31, 2017. A total of 150,000 shares have been authorized to be issued under the Amended and Restated 2014 Director Fee Plan.

Note 8. Pension and Other Postretirement Benefit Plans (continued)

On September 30, 2016, the Company changed the method used to estimate the service and interest components of net periodic benefit cost for its pensions. Historically, the Company estimated these service and interest cost components utilizing a single weighted-average discount rate derived from the yield curve used to measure the benefit obligation at the beginning of the period. Matthews has elected to utilize a full yield curve approach in the estimation of these components by applying the specific spot rates along the yield curve used in the determination of the benefit obligation to the relevant projected cash flows. This change is being made to provide a more precise measurement of service and interest costs by improving the correlation between projected benefit cash flows to the corresponding spot yield curve rates. This change does not affect the measurement of the total benefit obligations. The Company has accounted for this change as a change in accounting estimate that is inseparable from a change in accounting principle and accordingly, is recognizing its effects prospectively beginning in fiscal 2017. The impact of this change was not material for the three and six months ended March 31, 2017.

Benefit payments under the Company's principal retirement plan are made from plan assets, while benefit payments under the postretirement benefit plan are made from the Company's operating funds. Under IRS regulations, the Company is required to make contributions of approximately \$5,109 to its principal retirement plan in fiscal year 2017.

Contributions made and anticipated for fiscal year 2017 are as follows:

Contributions	Pension	Other Postretirement
Contributions during the six months ended March 31, 2017:		
Principal retirement plan	\$ —	\$ —
Supplemental retirement plan	362	—
Other postretirement plan	—	456

Note 10. Income Taxes

Income tax provisions for the Company's interim periods are based on the effective income tax rate expected to be applicable for the full year. The Company's effective tax rate for the six months ended March 31, 2017 was 28.9%, compared to 29.1% for the six months ended March 31, 2016. The difference between the Company's fiscal 2017 second quarter effective tax rate and the Federal statutory rate of 35.0% primarily reflected lower foreign income taxes, offset by the impact of state taxes.

The Company had unrecognized tax benefits (excluding penalties and interest) of \$13,410 and \$13,820 on March 31, 2017 and September 30, 2016, respectively. The amount of unrecognized tax benefits that, if recognized, would impact the effective tax rate were \$6,253 and \$6,663 at March 31, 2017 and September 30, 2016, respectively.

The Company classifies interest and penalties on tax uncertainties as a component of the provision for income taxes. Total penalties and interest accrued were \$2,168 and \$2,088 at March 31, 2017 and September 30, 2016, respectively. These accruals may potentially be applicable in the event of an unfavorable outcome of uncertain tax positions.

The Company is currently under examination in several tax jurisdictions and remains subject to examination until the statute of limitations expires for those tax jurisdictions. As of March 31, 2017, the tax years that remain subject to examination by major jurisdiction generally are:

United States – Federal	2013 and forward
United States – State	2012 and forward
Canada	2013 and forward

Note 14. Subsequent Events

On April 28, 2017, subsequent to the end of the second fiscal quarter, the Company received communication that it should expect to receive the full extent of its insurance coverage (\$10,000) related to the previously disclosed theft of funds by an employee.

On April 4, 2017, subsequent to the end of the second fiscal quarter, the Company entered into a two-year \$115,000 accounts receivable securitization facility (the "Securitization Facility") with certain financial institutions. Under the Securitization Facility, the Company and certain of its domestic subsidiaries sell, on a continuous basis without recourse, their trade receivables to Matthews Receivables Funding Corporation, LLC ("Matthews RFC"), a wholly-owned bankruptcy-remote subsidiary of the Company. Matthews RFC in turn assigns a collateral interest in these receivables to certain financial institutions, and then may borrow funds under the Securitization Facility. The Securitization Facility does not qualify for sale treatment. Accordingly, the trade receivables and related debt obligations will remain on the Company's Consolidated Balance Sheet. Borrowings under the Securitization Facility bear interest at LIBOR plus 0.75%. The Company is required to pay an annual commitment fee ranging from 0.25% to 0.35% (based on the unused amount of the facility) of the unused portion of the Securitization Facility.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations
CAUTIONARY STATEMENT:

The following discussion should be read in conjunction with the consolidated financial statements of Matthews International Corporation ("Matthews" or the "Company") and related notes thereto included in this Quarterly Report on Form 10-Q and the Company's Annual Report on Form 10-K for the fiscal year ended September 30, 2016. Any forward-looking statements contained herein are included pursuant to the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements involve known and unknown risks and uncertainties that may cause the Company's actual results in future periods to be materially different from management's expectations. Although the Company believes that the expectations reflected in such forward-looking statements are reasonable, no assurance can be given that such expectations will prove correct. Factors that could cause the Company's results to differ materially from the results discussed in such forward-looking statements principally include changes in domestic or international economic conditions, changes in foreign currency exchange rates, changes in the cost of materials used in the manufacture of the Company's products, changes in mortality and cremation rates, changes in product demand or pricing as a result of consolidation in the industries in which the Company operates, changes in product demand or pricing as a result of domestic or international competitive pressures, unknown risks in connection with the Company's acquisitions, cybersecurity concerns, effectiveness of the Company's internal controls, compliance with domestic and foreign laws and regulations, technological factors beyond the Company's control, and other factors described in Item 1A - "Risk Factors" in this Form 10-Q and Item 1A - "Risk Factors" in the Company's Form 10-K for the fiscal year ended September 30, 2016. In addition, although the Company does not have any customers that would be considered individually significant to consolidated sales, changes in the distribution of the Company's products or the potential loss of one or more of the Company's larger customers are also considered risk factors.

RESULTS OF OPERATIONS:

The following table sets forth the sales and operating profit for the Company's three reporting segments for the three and six-month periods ended March 31, 2017 and 2016.

	Three Months Ended March 31,		Six Months Ended March 31,

Memorialization	162,108	157,376	307,730	304,987
Industrial Technologies	28,688	25,416	56,263	53,746
	\$380,916	\$367,176	\$729,914	\$721,408
Operating profit:				
SGK Brand Solutions	\$4,361	\$5,500	\$8,551	\$8,255
Memorialization	22,938	19,470	37,305	27,159
Industrial Technologies	(471)	1,465	35	3,059
	\$26,828	\$26,435	\$45,891	\$38,473

Sales for the six months ended March 31, 2017 were \$729.9 million, compared to \$721.4 million for the six months ended March 31, 2016. The increase in fiscal 2017 sales principally reflected the benefits from recently completed acquisitions (see "Acquisitions" below), partially offset by the unfavorable impact of changes in foreign currencies against the U.S. dollar of \$10.8 million compared to a year ago.

In the SGK Brand Solutions segment, sales for the first six months of fiscal 2017 were \$365.9 million, compared to \$362.7 million for the first six months of fiscal 2016. The increase in sales resulted from higher sales of merchandising display projects, sales growth in the U.K. and Asia Pacific markets, and the completion of three acquisitions during the second quarter of fiscal 2017. These sales increases were partially offset by slower brand market conditions in the U.S. and Europe, and the unfavorable impact of changes in foreign currency values against the U.S. dollar of approximately \$9.9 million. Memorialization segment sales for the first six months of fiscal 2017 were \$307.7 million, compared to \$305.0 million for the first six months of fiscal 2016. The sales increase reflected higher sales of cemetery memorial products and cremation equipment, partially offset by lower unit sales of caskets. Industrial Technologies segment sales were \$56.3 million for the first six months of fiscal 2017, compared to \$53.7 million for the first six months of fiscal 2016. The increase reflected higher sales of marking products and the favorable impact of recently completed acquisitions, partially offset by lower sales of fulfillment systems and the unfavorable impact of changes in foreign currency values against the U.S. dollar of approximately \$545,000.

Gross profit for the six months ended March 31, 2017 was \$265.7 million, compared to \$264.3 million for the same period a year ago. Consolidated gross profit as a percent of sales was 36.4% and 36.6% for the first six months of fiscal 2017 and fiscal 2016, respectively. The increase in gross profit reflected the impact of higher sales, the benefits of productivity initiatives, and realization of acquisition synergies, partially offset by unfavorable changes in foreign currency values against the U.S. dollar. Fiscal 2017 gross profit also included an expense of \$1.8 million for the write-off of inventory step-up value related to the current year acquisitions. Fiscal 2016 gross profit included an expense of approximately \$4.0 million for the partial write-off of inventory step-up value related to the acquisition of Aurora Products Group, LLC ("Aurora") in August 2015.

Selling and administrative expenses for the six months ended March 31, 2017 were \$219.8 million, compared to \$225.9 million for the first six months of fiscal 2016. Consolidated selling and administrative expenses, as a percent of sales, were 30.1% for the six months ended March 31, 2017, compared to 31.3% for the same period last year. The decrease in selling and administrative expenses reflected the benefits from cost-reduction initiatives, including acquisition integration synergies. The decrease in fiscal 2017 selling and administrative expenses was partially offset by \$3.3 million of incremental stock-based compensation expense that was recognized in the first fiscal quarter of the current year as a result of required accounting treatment for retirement-eligible employees. In addition, fiscal 2017 selling and administrative expenses included an increase of \$752,000 in intangible asset amortization related to recently completed acquisitions. Selling and administrative expenses also included acquisition integration and related systems-integration costs, and other charges totaling \$16.1 million in fiscal 2017, compared to \$18.9 million in fiscal 2016.

Operating profit for the six months ended March 31, 2017 was \$45.9 million, compared to \$38.5 million for the six months ended March 31, 2016. The SGK Brand Solutions segment operating profit for the first six months of fiscal 2017 was \$8.6 million, compared to \$8.3 million for the same period a year ago. The increase in segment operating profit reflected the impact of recent acquisitions, partially offset by the unfavorable impact of changes in foreign currencies against the U.S. dollar of approximately \$829,000. Additionally, fiscal 2017 operating profit for the SGK Brand Solutions segment included acquisition integration costs and other charges totaling \$13.1 million, compared to \$14.9 million in fiscal 2016. Fiscal 2017 segment operating profit also included an increase of \$752,000 in intangible asset amortization related to recently completed acquisitions. Memorialization segment operating profit for the first six months of fiscal 2017 was \$37.3 million, compared to \$27.2 million for the first six months of fiscal 2016. The increase in segment operating profit reflected higher cemetery memorial and cremation equipment sales, and the

benefits of acquisition synergies and other productivity initiatives, partially offset by the impact of lower casket sales. Fiscal 2017 operating profit for the Memorialization segment also included acquisition integration costs and other charges totaling \$4.7 million, compared to \$7.9 million in fiscal 2016. Operating profit for the Industrial Technologies segment for the six months ended March 31, 2017 was \$35,000, compared to \$3.1 million for the same period a year ago, primarily reflecting lower sales (excluding acquisitions), lower margins on fulfillment sales, and acquisition and systems integration costs of \$444,000 in fiscal 2017.

25

Investment income was \$1.1 million for the six months ended March 31, 2017, compared to \$936,000 for the six months ended March 31, 2016. The increase reflected higher rates of return on investments held in trust for certain of the Company's benefit plans. Interest expense for the first six months of fiscal 2017 was \$12.8 million, compared to \$11.9 million for the same period last year. The increase in interest expense primarily reflected higher average interest rates in the current fiscal year and an increase in average borrowing levels. Other income and deductions, net, for the six months ended March 31, 2017 represented a decrease in pre-tax income of \$708,000, compared to a decrease in pre-tax income of \$1.1 million for the same period last year. Other income and deductions generally include banking-related fees and the impact of currency gains and losses on certain intercompany debt and foreign denominated cash balances.

The Company's effective tax rate for the six months ended March 31, 2017 was 28.9%, compared to 29.1% for the first six months of fiscal 2016, and 30.5% for the fiscal 2016 full year. The difference between the Company's effective tax rate and the Federal statutory rate of 35.0% primarily reflected lower foreign income taxes, offset by the impact of state taxes.

Net losses attributable to noncontrolling interests was \$166,000 for the six months ended March 31, 2017, compared to \$202,000 for the same period a year ago. The net losses attributable to noncontrolling interests primarily reflected losses in less than wholly-owned Memorialization and Industrial Technologies businesses.

LIQUIDITY AND CAPITAL RESOURCES:

Net cash provided by operating activities was \$44.3 million for the first six months of fiscal 2017, compared to \$51.9 million for the first six months of fiscal 2016. Operating cash flow for both periods reflected net income adjusted for depreciation, amortization, stock-based compensation expense and non-cash pension expense. Net changes in working capital items, which reflected decreases in accounts receivable, increases in inventory and changes in other accounts, resulted in a use of working capital of approximately \$5.1 million in fiscal 2017. Net changes in working capital items, which reflected decreases in accounts receivable, inventory and accounts payable, resulted in a use of working capital of approximately \$6.6 million in fiscal 2016.

Cash used in investing activities was \$104.9 million for the six months ended March 31, 2017, compared to \$28.9 million for the six months ended March 31, 2016. Investing activities for the first six months of fiscal 2017 primarily reflected capital expenditures of \$13.3 million, and acquisition payments (net of cash acquired or received from sellers) totaling \$92.6 million. Investing activities for the first six months of fiscal 2016 primarily reflected capital expenditures of \$23.9 million, and acquisition payments (net of cash acquired or received from sellers) of \$6.1 million.

Capital expenditures reflected reinvestment in the Company's business segments and were made primarily for the purchase of new production machinery, equipment, software and systems, and facilities designed to improve product quality, increase manufacturing efficiency, lower production costs and meet regulatory requirements. Capital expenditures for the last three fiscal years were primarily financed through operating cash. Capital spending for property, plant and equipment has averaged \$39.7 million for the last three fiscal years. Capital spending for fiscal 2017 is currently expected to be approximately \$45.0 million. The Company expects to generate sufficient cash from operations to fund all anticipated capital spending projects.

Cash provided by financing activities for the six months ended March 31, 2017 was \$50.5 million, primarily reflecting proceeds, net of repayments, on long-term debt of \$70.5 million, treasury stock purchases of \$9.2 million, and dividends of \$10.8 million to the Company's shareholders. Cash used in financing activities for the six months ended March 31, 2016 was \$36.1 million, primarily reflecting repayments, net of proceeds, on long-term debt of \$15.9

million, proceeds from stock option exercises of \$1.8 million, treasury stock purchases of \$8.2 million, dividends of \$9.6 million to the Company's shareholders, and noncontrolling interest payments of \$4.2 million.

The Company has a domestic credit facility with a syndicate of financial institutions that was amended in April 2016 and includes a \$900.0 million senior secured revolving credit facility and a \$250.0 million senior secured amortizing term loan. The term loan requires scheduled principal payments of 5.0% of the outstanding principal in year one, 7.5% in year two, and 10.0% in years three through five, payable in quarterly installments. The balance of the revolving credit facility and the term loan are due on the maturity date of April 26, 2021. Borrowings under both the revolving credit facility and the term loan bear interest at LIBOR plus a factor ranging from 0.75% to 2.00% (1.75% at March 31, 2017) based on the Company's leverage ratio. The leverage ratio is defined as net indebtedness divided by adjusted EBITDA (earnings before interest, taxes, depreciation and amortization). The Company is required to pay an annual commitment fee ranging from 0.15% to 0.25% (based on the Company's leverage ratio) of the unused portion of the revolving credit facility.

The domestic credit facility requires the Company to maintain certain leverage and interest coverage ratios. A portion of the facility (not to exceed \$35.0 million) is available for the issuance of trade and standby letters of credit. Outstanding borrowings on the revolving credit facility at March 31, 2017 and September 30, 2016 were \$645.0 million and \$608.0 million, respectively. Outstanding borrowings on the term loan at March 31, 2017 and September 30, 2016 were \$240.2 million and \$246.4 million, respectively. The weighted-average interest rate on outstanding borrowings for the domestic credit facility at March 31, 2017 and March 31, 2016 was 2.70% and 2.52%, respectively.

The following table presents information related to interest rate contracts entered into by the Company and designated as cash flow hedges (dollar amounts in thousands):

	March 31, 2017	September 30, 2016		
Pay fixed swaps - notional amount	\$371,875	\$403,125		
Net unrealized gain (loss)	\$4,438	\$(5,834))	
Weighted-average maturity period (years)	3.6	3.9		
Weighted-average received rate	0.98	% 0.53	%	
Weighted-average pay rate	1.27	% 1.26	%	

The Company enters into interest rate swaps in order to achieve a mix of fixed and variable rate debt that it deems appropriate. The interest rate swaps have been designated as cash flow hedges of future variable interest payments, which are considered probable of occurring. Based on the Company's assessment, all of the critical terms of each of the hedges matched the underlying terms of the hedged debt and related forecasted interest payments, and as such, these hedges were considered highly effective.

The fair value of the interest rate swaps reflected an unrealized gain, net of unrealized losses, of \$4.4 million (\$2.7 million after tax) at March 31, 2017 and an unrealized loss, net of unrealized gains, of \$5.8 million (\$3.6 million after tax) at September 30, 2016. The net unrealized gain/loss is included in shareholders' equity as part of accumulated other comprehensive income ("AOCI"). Assuming market rates remain constant with the rates at March 31, 2017, a gain (net of tax) of approximately \$635,000 included in AOCI is expected to be recognized in earnings over the next twelve months.

The Company, through certain of its European subsidiaries, has a credit facility with a European bank. The maximum amount of borrowing available under this facility is €35.0 million (\$37.4 million). Outstanding borrowings under the credit facility totaled €26.3 million (\$28.1 million) at March 31, 2017. There were no outstanding borrowings under the credit facility at September 30, 2016. The weighted-average interest rate on outstanding borrowings under this facility at March 31, 2017 and 2016 was 1.75%.

The Company, through its German subsidiary, Saueressig GmbH & Co. KG ("Saueressig"), has several loans with various European banks. Outstanding borrowings under these loans totaled €36,000 (\$38,800) and €255,000 (\$286,000) at March 31, 2017 and September 30, 2016, respectively. The weighted-average interest rate on outstanding borrowings of Saueressig at March 31, 2017 and 2016 was 4.50% and 4.16%, respectively.

The Company, through its German subsidiary, Wetzel GmbH ("Wetzel"), has several loans with various European banks. Outstanding borrowings under these loans totaled €584,100 (\$623,900) and €830,220 (\$931,000) at March 31, 2017 and September 30, 2016, respectively. In November 2016, the Company's German subsidiary, Matthews Europe GmbH & Co. KG, issued €15.0 million (\$16.0 million at March 31, 2017) of senior unsecured notes with European banks. The notes are guaranteed by

Matthews International Corporation and mature in November 2019. A portion of the notes (€5.0 million) have a fixed interest rate of 1.4%, and the remainder bear interest at Euro LIBOR plus 1.4%. The weighted-average interest rate on the notes at March 31, 2017 was 1.40%.

The Company, through its Italian subsidiary, Matthews International S.p.A., has several loans with various Italian banks. Outstanding borrowings on these loans totaled €2.4 million (\$2.5 million) and €3.2 million (\$3.5 million) at March 31, 2017 and September 30, 2016, respectively. Matthews International S.p.A. also has multiple lines of credit totaling €11.3 million (\$12.1 million) with the same Italian banks. Outstanding borrowings on these lines were €6.1 million (\$6.5 million) and €5.2 million (\$5.8 million) at March 31, 2017 and September 30, 2016, respectively. The weighted-average interest rate on outstanding Matthews International S.p.A. borrowings at March 31, 2017 and 2016 was 2.31% and 3.47%, respectively.

In September 2014, a demand was filed by a customer seeking to draw upon a letter of credit issued by the Company of £8.6 million (\$10.7 million at March 31, 2017) with respect to a performance guarantee on a project in Saudi Arabia. Management assessed the customer's demand to be without merit and initiated an action with the court in the United Kingdom (the "Court"). Pursuant to this action, an order was issued by the Court in January 2015 requiring that, upon receipt by the customer, the funds were to be remitted by the customer to the Court pending resolution of the dispute between the parties. As a result, the Company made payment on the draw to the financial institution for the letter of credit and the funds were ultimately received by the customer. The customer did not remit the funds to the Court as ordered. On June 14, 2016, the Court ruled completely in favor of Matthews following a trial on the merits. However, as the customer has neither yet remitted the funds nor complied with the final, un-appealed orders of the Court, it is possible the resolution of this matter could have an unfavorable financial impact on Matthews' results of operations. As of March 31, 2017 and September 30, 2016, the Company has presented the funded letter of credit within other current assets on the Consolidated Balance Sheet.

The Company has a stock repurchase program. Under the current authorization, the Company's Board of Directors has authorized the repurchase of a total of 5,000,000 shares of Matthews' common stock under the program, of which 1,893,423 shares remain available for repurchase as of March 31, 2017. The buy-back program is designed to increase shareholder value, enlarge the Company's holdings of its common stock, and add to earnings per share. Repurchased shares may be retained in treasury, utilized for acquisitions, or reissued to employees or other purchasers, subject to the restrictions set forth in the Company's Restated Articles of Incorporation.

Consolidated working capital of the Company was \$305.4 million at March 31, 2017, compared to \$314.8 million at September 30, 2016. Cash and cash equivalents were \$43.6 million at March 31, 2017, compared to \$55.7 million at September 30, 2016. The Company's current ratio was 2.1 and 2.2 at March 31, 2017 and September 30, 2016, respectively.

ENVIRONMENTAL MATTERS:

The Company's operations are subject to various federal, state and local laws and regulations relating to the protection of the environment. These laws and regulations impose limitations on the discharge of materials into the environment and require the Company to obtain and operate in compliance with conditions of permits and other government authorizations. As such, the Company has developed environmental, health, and safety policies and procedures that include the proper handling, storage and disposal of hazardous materials.

The Company is party to various environmental matters. These include obligations to investigate and mitigate the effects on the environment of the disposal of certain materials at various operating and non-operating sites. The Company is currently performing environmental assessments and remediation at these sites, as appropriate.

At March 31, 2017, an accrual of approximately \$3.5 million had been recorded for environmental remediation (of which \$1.0 million was classified in other current liabilities), representing management's best estimate of the probable and reasonably estimable costs of the Company's known remediation obligations. The accrual does not consider the effects of inflation and anticipated expenditures are not discounted to their present value. Changes in the accrued environmental remediation obligation from the prior fiscal year reflect payments charged against the accrual.

While final resolution of these contingencies could result in costs different than current accruals, management believes the ultimate outcome will not have a significant effect on the Company's consolidated results of operations or financial position.

On November 30, 2016, the Company acquired Guidance Automation Limited ("Guidance") for £7.8 million (\$9.7 million) (net of cash acquired). Guidance provides technological solutions for autonomous warehouse vehicles and is included in the Company's Industrial Technologies segment. The preliminary purchase price allocation related to the Guidance acquisition is not finalized as of March 31, 2017, and is subject to change as the Company obtains additional information related to working capital items, fixed assets, intangible assets, and other assets and liabilities.

On February 1, 2016, the Company acquired certain net assets of Digital Designs, Inc. ("DDI") for \$8.8 million (net of cash acquired and holdback amount). DDI is a manufacturer and seller of ink jet printing systems and is included in the Company's Industrial Technologies segment. The Company finalized the allocation of purchase price related to the DDI acquisition in the second quarter of fiscal 2017, resulting in an immaterial adjustment to certain working capital accounts.

SUBSEQUENT EVENTS:

On April 28, 2017, subsequent to the end of the second fiscal quarter, the Company received communication that it should expect to receive the full extent of its insurance coverage (\$10.0 million) related to the previously disclosed theft of funds by an employee.

On April 4, 2017, subsequent to the end of the second fiscal quarter, the Company entered into a two-year \$115.0 million accounts receivable securitization facility (the "Securitization Facility") with certain financial institutions. Under the Securitization Facility, the Company and certain of its domestic subsidiaries sell, on a continuous basis without recourse, their trade receivables to Matthews Receivables Funding Corporation, LLC ("Matthews RFC"), a wholly-owned bankruptcy-remote subsidiary of the Company. Matthews RFC in turn assigns a collateral interest in these receivables to certain financial institutions, and then may borrow funds under the Securitization Facility. The Securitization Facility does not qualify for sale treatment. Accordingly, the trade receivables and related debt obligations will remain on the Company's Consolidated Balance Sheet. Borrowings under the Securitization Facility bear interest at LIBOR plus 0.75%. The Company is required to pay an annual commitment fee ranging from 0.25% to 0.35% (based on the unused amount of the facility) of the unused portion of the Securitization Facility.

FORWARD-LOOKING INFORMATION:

Matthews has a three-pronged strategy to attain annual growth in earnings per share. This strategy consists of the following: internal growth (which includes organic growth, cost structure and productivity improvements, new product development and the expansion into new markets with existing products), acquisitions and share repurchases under the Company's stock repurchase program (see "Liquidity and Capital Resources").

With respect to the remainder of fiscal 2017, the Company expects to continue to devote a significant level of effort to the integrations of recent acquisitions including, Aurora and Schawk, Inc. ("Schawk"). Due to the size of these acquisitions and the projected synergy benefits from integration, these efforts are anticipated to continue for an extended period of time. The costs associated with these integrations will impact the Company's operating results for fiscal 2017. Consistent with its practice, the Company plans to identify these costs on a quarterly basis as incurred.

CRITICAL ACCOUNTING POLICIES:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Therefore, the determination of estimates requires the exercise of judgment based on various assumptions and other factors such as historical experience, economic conditions, and in some cases, actuarial techniques. Actual results may differ from those estimates. A discussion of market risks affecting the Company can be found in Item 7A - "Quantitative and Qualitative Disclosures about Market Risk" in the Company's Annual Report on Form 10-K for the fiscal year ended September 30, 2016.

A summary of the Company's significant accounting policies are included in the Notes to Consolidated Financial Statements and in the critical accounting policies in Management's Discussion and Analysis included in the Company's Annual Report on Form 10-K for the year ended September 30, 2016. Management believes that the application of these policies on a consistent basis enables the Company to provide useful and reliable financial information about the company's operating results and financial condition.

Benefit payments under the Company's principal retirement plan are made from plan assets, while benefit payments under the supplemental retirement plan and postretirement benefit plan are funded from the Company's operating cash. The Company is required to make contributions of approximately \$5.1 million to its principal retirement plan in fiscal 2017. During the six months ended March 31, 2017, contributions of \$362,000 and \$456,000 were made under the supplemental retirement plan and postretirement plan, respectively. The Company currently anticipates contributing an additional \$5.1 million, \$398,000 and \$692,000 under the principal retirement plan, the supplemental retirement plan and postretirement plan, respectively, for the remainder of fiscal 2017.

Unrecognized tax benefits are positions taken, or expected to be taken, on an income tax return that may result in additional payments to tax authorities. If a tax authority agrees with the tax position taken, or expected to be taken, or the applicable statute of limitations expires, then additional payments will not be necessary. As of March 31, 2017, the Company had unrecognized tax benefits, excluding penalties and interest, of approximately \$13.4 million. The timing of potential future payments related to the unrecognized tax benefits is not presently determinable. The Company believes that its current liquidity sources, combined with its operating cash flow and borrowing capacity, will be sufficient to meet its capital needs for the foreseeable future.

In December 2016, the FASB issued ASU No. 2016-20, Technical Corrections and Improvements to Topic 606, Revenue from Contracts with Customers. This ASU coincides with ASU 2014-09 and provides technical corrections and improvements to clarify guidance and correct unintended applications of the guidance. The Company is in the process of assessing the impact this ASU, along with ASU 2014-09, will have on its consolidated financial statements.

In August 2016, the FASB issued ASU No. 2016-15, Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments (a consensus of the Emerging Issues Task Force), which provides new guidance intended to clarify the presentation of certain cash flow items including debt prepayments, debt extinguishment costs,

contingent considerations payments, and insurance proceeds, among other things. This ASU is effective for the Company beginning in interim periods starting in fiscal year 2019, and early adoption is permitted. The Company is in the process of assessing the impact this ASU will have on its consolidated financial statements.

In April and May 2016, the FASB issued ASU Nos. 2016-10, Revenue from Contracts with Customers (Topic 606): Identifying Performance Obligations and Licensing, and 2016-12, Revenue from Contracts with Customers (Topic 606): Narrow-Scope Improvements and Practical Expedients, respectively. Both of these ASUs coincide with ASU 2014-09 and provide additional guidance in the determination of performance obligations and implementation expedients. The Company is in the process of assessing the impact these ASUs, along with ASU 2014-09, will have on its consolidated financial statements.

In March 2016, the FASB issued ASU No. 2016-09, Compensation - Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting, which provides new guidance intended to simplify the accounting surrounding share-based compensation. In July 2015, the FASB issued ASU No. 2015-11, Simplifying the Measurement of Inventory, which provides new guidance to simplify the measurement of inventory valuation at the lower of cost or net realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less reasonably predictable costs of completion, disposal, and transportation. The new inventory measurement requirements are effective for the Company's 2018 fiscal year, and will replace the current inventory valuation guidance that requires the use of a lower of cost or market framework. The adoption of this ASU is not expected to have a material impact on the Company's consolidated financial statements.

The Company is in the process of assessing the impact the adoption of this ASU will have on its consolidated financial statements.

Adopted

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There have been no material changes in the Company's market risk during the three and six months ended March 31, 2017. For additional information see Item 7A - "Quantitative and Qualitative Disclosures About Market Risk" in the Company's Annual Report on Form 10-K for the fiscal year ended September 30, 2016.

Item 4. Controls and Procedures:

The Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) are designed to provide reasonable assurance that information required to be disclosed in our reports filed under that Act (the "Exchange Act"), such as this Quarterly Report on Form 10-Q, is recorded, processed, summarized and reported within the time periods specified in the rules of the Securities and Exchange Commission. These disclosure controls and procedures also are designed to provide reasonable assurance that such information is accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosures.

Management, under the supervision and with the participation of our Chief Executive Officer and the Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures in effect as of March 31, 2017. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that, as of March 31, 2017, the Company's disclosure controls and procedures were effective to provide reasonable assurance that material information is accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, and that such information is recorded, summarized and properly reported within the appropriate time period, relating to the Company and its consolidated subsidiaries, required to be included in the Exchange Act reports, including this Quarterly Report on Form 10-Q.

The Company is in the process of implementing a global operating and financial reporting information technology system, SAP, as part of a multi-year plan to integrate and upgrade its systems and processes. As the phased implementation of this system occurs, certain changes will be made to the Company's processes and procedures which, in turn, result in changes to its internal control over financial reporting. While the Company expects to strengthen its internal financial controls by automating certain manual processes and standardizing business processes and reporting across its global organization, management will continue to evaluate and monitor its internal controls as processes and procedures in each of the affected areas evolve.

Other than changes with respect to the SAP implementation described above, there have been no changes in the Company's internal controls over financial reporting that occurred during the fiscal quarter ended March 31, 2017 that have materially affected, or are reasonably likely to materially affect, the Company's internal controls over financial reporting.
