

FULTON FINANCIAL CORP
Form 10-Q
August 04, 2017

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D. C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2017, or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File No. 0-10587

FULTON FINANCIAL CORPORATION

(Exact name of registrant as specified in its charter)

PENNSYLVANIA

(State or other jurisdiction of
incorporation or organization)

23-2195389

(I.R.S. Employer
Identification No.)

One Penn Square, P.O. Box 4887, Lancaster, Pennsylvania 17604

(Address of principal executive offices)

(Zip Code)

(717) 291-2411

(Registrant's telephone number, including area code)

Indicate by checkmark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by checkmark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by checkmark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer

Non-accelerated filer Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check

mark if the registrant has elected not to use the

extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by checkmark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

APPLICABLE ONLY TO CORPORATE ISSUERS: Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date:

Common Stock, \$2.50 Par Value –174,941,000 shares outstanding as of July 28, 2017.

FULTON FINANCIAL CORPORATION
 FORM 10-Q FOR THE THREE AND SIX MONTHS ENDED JUNE 30, 2017
 INDEX

Description	Page
PART I. FINANCIAL INFORMATION	
<u>Item 1. Financial Statements (Unaudited):</u>	
(a) <u>Consolidated Balance Sheets - June 30, 2017 and December 31, 2016</u>	<u>3</u>

FULTON FINANCIAL CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

NOTE 1 – Basis of Presentation

The accompanying unaudited consolidated financial statements of Fulton Financial Corporation (the "Corporation") have been prepared in conformity with U.S. generally accepted accounting principles ("U.S. GAAP") for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and notes required by U.S. GAAP for complete financial statements. The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the amounts of assets and liabilities as of the date of the financial statements as well as revenues and expenses during the period. Actual results could differ from those estimates. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. These consolidated financial statements should be read in conjunction with the audited consolidated financial statements and the notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2016. Operating results for the six months ended June 30, 2017 are not necessarily indicative of the results that may be expected for the year ending December 31, 2017. The Corporation evaluates subsequent events through the date of filing of this Form 10-Q with the Securities and Exchange Commission ("SEC").

Recently Issued Accounting Standards

In May 2014, the FASB issued ASC Update 2014-09, "Revenue from Contracts with Customers." This standards update establishes a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance, including industry-specific guidance. The core principle prescribed by this standards update is that an entity recognizes revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The standard applies to all contracts with customers, except those that are within the scope of other topics in the FASB ASC. The standard also requires significantly expanded disclosures about revenue recognition. During 2016, the FASB issued amendments to this standard (ASC Updates 2016-08, 2016-10, 2016-11 and 2016-12). These amendments provide further clarification to the standard. For public business entities, ASC Update 2014-09 is effective for interim and annual reporting periods beginning after December 15, 2017. Early application is not permitted. For the Corporation, this standards update is effective with its March 31, 2018 quarterly report on Form 10-Q. The Corporation is currently evaluating the impact of the adoption of ASC Update 2014-09 on its consolidated financial statements.

In January 2016, the FASB issued ASC Update 2016-01, "Financial Instruments - Overall: Recognition and Measurement of Financial Assets and Financial Liabilities." ASC Update 2016-01 provides guidance regarding the income statement impact of equity investments held by an entity and the recognition of changes in fair value of financial liabilities when the fair value option is elected. This standard will require equity investments to be measured at fair value, with changes recorded in net income. ASC Update 2016-01 is effective for public business entities' annual and interim reporting periods beginning after December 15, 2017, with earlier adoption permitted. The Corporation intends to adopt this standards update effective with its March 31, 2018 quarterly report on Form 10-Q and does not expect the adoption of ASC Update 2016-01 to have a material impact on its consolidated financial statements.

In February 2016, the FASB issued ASC Update 2016-02, "Leases." This standards update states that a lessee should recognize the assets and liabilities that arise from all leases with a term greater than 12 months. The core principle requires the lessee to recognize a liability to make lease payments and a "right-of-use" asset. The accounting applied

by the lessor is relatively unchanged. The standards update also requires expanded qualitative and quantitative disclosures. For public business entities, ASC Update 2016-02 is effective for interim and annual reporting periods beginning after December 15, 2018. ASC Update 2016-02 mandates a modified retrospective transition for all entities, which requires restatement of all comparative periods in the year of adoption. Early adoption is permitted. For the Corporation, this standards update is effective with its March 31, 2019 quarterly report on Form 10-Q. The Corporation is currently evaluating the impact of the adoption of ASC Update 2016-02 on its consolidated financial statements. The Corporation currently operates a number of branches that are leased, with the leases accounted for as operating leases that are not recognized on the consolidated balance sheet. Under ASC Update 2016-02, right-of-use assets and lease liabilities will need to be recognized on the consolidated balance sheet for these branches. The recognition of operating leases on the consolidated balance sheet is expected to be the most significant impact of the adoption of this standards update.

In June 2016, the FASB issued ASC Update 2016-13, "Financial Instruments - Credit Losses." The new impairment model prescribed by this standards update is a single impairment model for all financial assets (i.e., loans and investments). The recognition of credit losses would be based on an entity's current estimate of expected losses (referred to as the Current Expected Credit Loss

model, or "CECL"), as opposed to recognition of losses only when they are probable under current U.S. GAAP. ASC Update 2016-13 is effective for interim and annual reporting periods beginning after December 15, 2019. Early adoption is permitted. The Corporation intends to adopt this standards update effective with its March 31, 2020 quarterly report on Form 10-Q. The Corporation is currently evaluating the impact of the adoption of ASC Update 2016-13 on its consolidated financial statements.

In August 2016, the FASB issued ASC Update 2016-15, "Statement of Cash Flows - Classification of Certain Cash Receipts and Cash Payments." This standards update provides guidance regarding the presentation of certain cash receipts and cash payments in the statement of cash flows, addressing eight specific cash flow classification issues, in order to reduce existing diversity in practice. ASC Update 2016-15 is effective for interim and annual reporting periods beginning after December 15, 2017. Early adoption is permitted. The Corporation intends to adopt this standards update effective with its March 31, 2018 quarterly report on Form 10-Q and does not expect the adoption of ASC Update 2016-15 to have a material impact on its consolidated financial statements.

In November 2016, the FASB issued ASC Update 2016-18, "Statement of Cash Flows - Restricted Cash." This standards update provides guidance regarding the presentation of restricted cash in the statement of cash flows. The update requires companies to include amounts generally described as restricted cash and restricted cash equivalents, along with cash and cash equivalents, when reconciling the beginning-of-period and end-of-period total amounts shown on the statement of cash flows. It also requires an entity to disclose the nature of the restrictions on cash and cash equivalents. ASC Update 2016-18 is effective for interim and annual reporting periods beginning after December 15, 2017. Early adoption is permitted. The Corporation intends to adopt this standards update effective with its March 31, 2018 quarterly report on Form 10-Q and does not expect the adoption of ASC Update 2016-18 to have a material impact on its consolidated financial statements.

In January 2017, the FASB issued ASC Update 2017-04, "Intangibles - Goodwill and Other." This standards update eliminates Step 2 of the goodwill impairment test which measures the impairment amount. Identifying and measuring impairment will take place in a single quantitative step. In addition, no separate qualitative assessment for reporting units with zero or negative carrying amount is required. Entities must disclose the existence of these reporting units and the amount of goodwill allocated to them. This update should be applied on a prospective basis, and an entity is required to disclose the nature of and reason for the change in accounting principle upon transition. ASC Update 2017-04 is effective for annual or interim goodwill impairment tests in reporting periods beginning after December 15, 2019. Early adoption is permitted. The Corporation intends to adopt this standards update effective with its 2020 goodwill impairment test and does not expect the adoption of ASC Update 2017-04 to have a material impact on its consolidated financial statements.

In March 2017, the FASB issued ASC Update 2017-07, "Improving the Presentation of Net Periodic Pension Costs and Net Periodic Benefit Cost." This standards update requires a company to present service cost separately from the other components of net benefit cost. In addition, the update provides explicit guidance on how to present the service cost component and the other components of net benefit cost in the income statement and allow only the service cost component of net benefit cost to be eligible for capitalization. ASC Update 2017-07 is effective for annual or interim reporting periods beginning after December 15, 2017. Early adoption is permitted. The Corporation intends to adopt this standards update effective with its March 31, 2018 quarterly report on Form 10-Q and is currently evaluating the impact of the adoption of ASC Update 2017-07 on its consolidated financial statements.

In March 2017, the FASB issued ASC Update 2017-08, "Premium Amortization on Purchased Callable Debt Securities." This standards update requires that a company amortize the premium on callable debt securities to the earliest call date versus current U.S. GAAP which requires amortization over the contractual life of the securities. The amortization period for callable debt securities purchased at a discount would not be impacted by the new accounting standards update. This amendment is to be adopted on a modified retrospective basis with a cumulative effect

adjustment to retained earnings as of the beginning of the period of adoption. ASC Update 2017-08 is effective for annual or interim reporting periods beginning after December 15, 2018. Early adoption is permitted. The Corporation intends to adopt this standards update effective with its March 31, 2019 quarterly report on Form 10-Q and does not expect the adoption of ASC Update 2017-08 to have a material impact on its consolidated financial statements.

In May 2017, the FASB issued ASC Update 2017-09, "Scope of Modification Accounting." This standards update provides clarity and reduces both (1) diversity in practice and (2) cost and complexity, when applying the guidance in the stock compensation standard, to a change to the terms or conditions of a share-based payment award. ASC Update 2017-09 is effective for annual or interim reporting periods beginning after December 15, 2017. Early adoption is permitted. The Corporation intends to adopt this standards update effective with its March 31, 2018 quarterly report on Form 10-Q and does not expect the adoption of ASC Update 2017-09 to have a material impact on its consolidated financial statements.

Reclassifications

Certain amounts in the 2016 consolidated financial statements and notes have been reclassified to conform to the 2017 presentation.

NOTE 2 – Net Income Per Share

Basic net income per share is calculated as net income divided by the weighted average number of shares outstanding. Diluted net income per share is calculated as net income divided by the weighted average number of shares outstanding plus the incremental number of shares added as a result of converting common stock equivalents, calculated using the treasury stock method. The Corporation's common stock equivalents consist of outstanding stock options, restricted stock units ("RSUs") and performance-based restricted stock units ("PSUs"). PSUs are required to be included in weighted average shares outstanding if performance measures, as defined in each PSU award agreement, are met as of the end of the period.

A reconciliation of weighted average shares outstanding used to calculate basic net income per share and diluted net income per share follows:

	Three months ended June 30		Six months ended June 30	
	2017	2016	2017	2016
	(in thousands)			
Weighted average shares outstanding (basic)	174,597	173,394	174,375	173,363
Impact of common stock equivalents	935	924	1,179	1,004
Weighted average shares outstanding (diluted)	175,532	174,318	175,554	174,367

For the three and six months ended June 30, 2016, 802,000 and 844,000 stock options, respectively, were excluded from the diluted net income per share computation as their effect would have been anti-dilutive. There were no stock options excluded for the three and six months ended June 30, 2017.

NOTE 3 – Accumulated Other Comprehensive Income

The following table presents changes in other comprehensive income:

	Before-Tax Amount	Tax Effect	Net of Tax Amount
	(in thousands)		
Three months ended June 30, 2017			
Unrealized gain on securities	\$15,798	\$(5,530)	\$10,268
Reclassification adjustment for securities gains included in net income ⁽¹⁾	(1,436)	504	(932)
Amortization of net unrecognized pension and postretirement items ⁽³⁾	522	(181)	341
Total Other Comprehensive Income	\$14,884	\$(5,207)	\$9,677
Three months ended June 30, 2016			
Unrealized gain on securities	\$19,753	\$(6,914)	\$12,839

December 31, 2016				
U.S. Government sponsored agency securities	\$132	\$ 2	\$—	\$134
State and municipal securities	405,274	2,043	(15,676)	391,641
Corporate debt securities	112,016	1,978	(4,585)	109,409
Collateralized mortgage obligations	604,095	1,943	(12,178)	593,860
Residential mortgage-backed securities	1,328,192	6,546	(16,900)	1,317,838
Commercial mortgage-backed securities	25,100	—	(537)	24,563
Auction rate securities	107,215	—	(9,959)	97,256
Total debt securities	2,582,024	12,512	(59,835)	2,534,701
Equity securities	12,231	12,295	—	24,526
Total	\$2,594,255	\$ 24,807	\$(59,835)	\$2,559,227

Securities carried at \$1.7 billion and \$1.8 billion as of June 30, 2017 and December 31, 2016, respectively, were pledged as collateral to secure public and trust deposits and customer repurchase agreements.

Equity securities include common stocks of publicly traded financial institutions (estimated fair value of \$20.5 million at June 30, 2017 and \$23.5 million at December 31, 2016) and other equity investments (estimated fair value of \$1.0 million at both June 30, 2017 and December 31, 2016).

As of June 30, 2017, the financial institutions stock portfolio had a cost basis of \$9.7 million and an estimated fair value of \$20.5 million, including an investment in a single financial institution with a cost basis of \$4.3 million and an estimated fair value of \$8.8 million. The estimated fair value of this investment accounted for 42.9% of the estimated fair value of the Corporation's investments in the common stocks of publicly traded financial institutions. No other investment in a single financial institution in the financial institutions stock portfolio exceeded 10% of the portfolio's estimated fair value.

The amortized cost and estimated fair values of debt securities as of June 30, 2017, by contractual maturity, are shown in the following table. Actual maturities may differ from contractual maturities as certain investment securities are subject to call or prepayment with or without call or prepayment penalties.

	Amortized Cost	Estimated Fair Value
(in thousands)		
Due in one year or less	\$20,103	\$20,336
Due from one year to five years	27,967	28,335
Due from five years to ten years	111,883	113,050
Due after ten years	447,339	432,884
	607,292	594,605
Residential mortgage-backed securities	1,218,257	1,213,065
Commercial mortgage-backed securities	121,012	121,067
Collateralized mortgage obligations	546,847	538,507
Total debt securities	\$2,493,408	\$2,467,244

The following table presents information related to the gross realized gains and losses on the sales of equity and debt securities:

	Gross Realized Gains	Gross Realized Losses	Net Gains (Losses)
(in thousands)			
Three months ended June 30, 2017			
Equity securities	\$1,305	\$ —	\$ 1,305
Debt securities	145	(14)	131
Total	\$1,450	\$ (14)	\$ 1,436

Equity securities	\$737	\$ (10)	\$ 727
Debt securities	322	(26)	296
Total	\$1,059	\$ (36)	\$ 1,023

The cumulative balance of credit related other-than-temporary impairment charges, previously recognized as components of earnings, for debt securities held by the Corporation at June 30, 2017 and June 30, 2016 was \$10.0 million. There were no other-than-temporary impairment charges recognized for the three and six months ended June 30, 2017 and June 30, 2016.

The following table presents the gross unrealized losses and estimated fair values of investments, aggregated by investment category and length of time that individual securities have been in a continuous unrealized loss position, at June 30, 2017 and December 31, 2016:

	Less than 12 months		12 months or longer		Total

Residential mortgage-backed securities	1,112,947	(16,900)	—	—	1,112,947	(16,900)
Commercial mortgage-backed securities	24,563	(537)	—	—	24,563	(537)
Auction rate securities	—	—	97,256	(9,959)	97,256	(9,959)
Total debt securities	\$1,563,846	\$(37,122)	\$390,122	\$(22,713)	\$1,953,968	\$(59,835)

The change in fair value of these securities is attributable to changes in interest rates and not credit quality, and the Corporation does not have the intent to sell and does not believe it will more likely than not be required to sell any of these securities prior to a recovery of their fair value to amortized cost. Therefore, the Corporation does not consider these investments to be other-than-temporarily impaired as of June 30, 2017.

As of June 30, 2017, all of the auction rate securities (auction rate certificates, or "ARCs"), were rated above investment grade. All of the loans underlying the ARCs have principal payments which are guaranteed by the federal government. As of June 30, 2017, all ARCs were current and making scheduled interest payments, and based on management's evaluations, were not subject to any other-than-temporary impairment charges as of June 30, 2017. The Corporation does not have the intent to sell and does not believe it will more likely than not be required to sell any of these securities prior to a recovery of their fair value to amortized cost, which may be at maturity.

The majority of the Corporation's available for sale corporate debt securities are issued by financial institutions. The following table presents the amortized cost and estimated fair value of corporate debt securities:

	June 30, 2017		December 31, 2016	
	Amortized cost	Estimated fair value	Amortized cost	Estimated fair value
	(in thousands)			
Single-issuer trust preferred securities	\$43,795	\$42,478	\$43,746	\$39,829
Subordinated debt	29,069	29,697	46,231	46,723
Senior debt	12,035	12,407	18,037	18,433
Pooled trust preferred securities	—	422	—	422
Corporate debt securities issued by financial institutions	84,899	85,004	108,014	105,407
Other corporate debt securities	3,988	3,988	4,002	4,002
Available for sale corporate debt securities	\$88,887	\$88,992	\$112,016	\$109,409

Single-issuer trust preferred securities had an unrealized loss of \$1.3 million at June 30, 2017. Six of the 19 single-issuer trust preferred securities, with an amortized cost of \$11.6 million and an estimated fair value of \$10.9 million at June 30, 2017, were rated below investment grade by at least one ratings agency. All of the single-issuer trust preferred securities rated below investment grade were rated "BB" and "Ba". Two single-issuer trust preferred securities with an amortized cost of \$3.8 million and an estimated fair value of \$2.8 million at June 30, 2017 were not rated by any ratings agency.

Based on management's evaluations, no corporate debt securities were subject to any other-than-temporary impairment charges as of June 30, 2017. The Corporation does not have the intent to sell and does not believe it will more likely than not be required to sell any of these securities prior to a recovery of their fair value to amortized cost, which may be at maturity.

NOTE 5 – Loans and Allowance for Credit Losses

Loans, Net of Unearned Income

Loans, net of unearned income are summarized as follows:

	June 30, 2017	December 31, 2016
	(in thousands)	
Real-estate - commercial mortgage	\$6,262,008	\$6,018,582
Commercial - industrial, financial and agricultural	4,245,849	4,087,486
Real-estate - residential mortgage	1,784,712	1,601,994
Real-estate - home equity	1,579,739	1,625,115
Real-estate - construction	938,900	843,649
Consumer	283,156	291,470
Leasing and other	269,787	246,704
Overdrafts	4,435	3,662
Loans, gross of unearned income	15,368,586	14,718,662
Unearned income	(21,969)	(19,390)
Loans, net of unearned income	\$15,346,617	\$14,699,272

Allowance for Credit Losses

The allowance for credit losses consists of the allowance for loan losses and the reserve for unfunded lending commitments. The allowance for loan losses represents management's estimate of incurred losses in the loan portfolio as of the balance sheet date and is recorded as a reduction to loans. The reserve for unfunded lending commitments represents management's estimate of incurred losses in its unfunded loan commitments and is recorded in other liabilities on the consolidated balance sheets. The allowance for credit losses is increased by charges to expense, through the provision for credit losses, and decreased by charge-offs, net of recoveries.

The Corporation's allowance for credit losses includes: (1) specific allowances allocated to loans evaluated for impairment under FASB ASC Section 310-10-35; and (2) allowances calculated for pools of loans measured for impairment under FASB ASC Subtopic 450-20.

The Corporation segments its loan portfolio by general loan type, or "portfolio segments," as presented in the table under the heading, "Loans, Net of Unearned Income," above. Certain portfolio segments are further disaggregated and evaluated collectively for impairment based on "class segments," which are largely based on the type of collateral underlying each loan. Commercial loans include both secured and unsecured loans. Construction loan class segments include loans secured by commercial real estate, loans to commercial borrowers secured by residential real estate and loans to individuals secured by residential real estate. Consumer loan class segments include direct consumer

installment loans and indirect vehicle loans.

The following table presents the components of the allowance for credit losses:

	June 30, 2017	December 31, 2016
	(in thousands)	
Allowance for loan losses	\$ 172,342	\$ 168,679
Reserve for unfunded lending commitments	2,656	2,646
Allowance for credit losses	\$ 174,998	\$ 171,325

The following table presents the activity in the allowance for credit losses:

	Three months ended June 30		Six months ended June 30	
	2017	2016	2017	2016
	(in thousands)			
Balance at beginning of period	\$ 172,647	\$ 166,065	\$ 171,325	\$ 171,412
Loans charged off	(8,715)	(10,746)	(18,122)	(21,901)
Recoveries of loans previously charged off	4,366	7,278	10,295	11,556
Net loans charged off	(4,349)	(3,468)	(7,827)	(10,345)
Provision for credit losses	6,700	2,511	11,500	4,041
Balance at end of period	\$ 174,998	\$ 165,108	\$ 174,998	\$ 165,108

The Corporation has historically maintained an unallocated allowance for credit losses for factors and conditions that exist at the balance sheet date, but are not specifically identifiable, and to recognize the inherent imprecision in estimating and measuring loss exposure. During the second quarter of 2017, enhancements were made to allow for the impact of these factors and conditions to be quantified in the allowance allocation process. Accordingly, an unallocated allowance for credit losses is no longer necessary.

The following table presents the activity in the allowance for loan losses by portfolio segment:

	Real Estate Commercial Mortgage	Commercial- Industrial, Financial and Agricultural	Real Estate Home Equity	Real Estate Residential Mortgage	Real Estate - Construction	Consumer	Leasing, other and overdrafts	Unallocated	Total

Impaired Loans

A loan is considered to be impaired if it is probable that all amounts will not be collected according to the contractual terms of the loan agreement. Impaired loans consist of all loans on non-accrual status and accruing troubled debt restructurings ("TDRs"). An allowance for loan losses is established for an impaired loan if its carrying value exceeds its estimated fair value. Impaired loans to borrowers with total outstanding commitments greater than or equal to \$1.0 million are evaluated individually for impairment. Impaired loans to borrowers with total outstanding commitments less than \$1.0 million are pooled and measured for impairment collectively.

All loans individually evaluated for impairment under FASB ASC Section 310-10-35 are measured for losses on a quarterly basis. As of June 30, 2017 and December 31, 2016, substantially all of the Corporation's individually evaluated impaired loans with total outstanding balances greater than or equal to \$1.0 million were measured based on the estimated fair value of each loan's collateral. Collateral could be in the form of real estate, in the case of impaired commercial mortgages and construction loans, or business assets, such as accounts receivable or inventory, in the case of commercial and industrial loans. Commercial and industrial loans may also be secured by real property.

As of June 30, 2017 and 2016, approximately 87% and 89%, respectively, of impaired loans with principal balances greater than or equal to \$1.0 million, whose primary collateral is real estate, were measured at estimated fair value of the collateral using state certified third-party appraisals that had been updated in the preceding 12 months.

When updated appraisals are not obtained for loans evaluated for impairment under FASB ASC Section 310-10-35 that are secured by real estate, fair values are estimated based on the original appraisal values, as long as the original appraisal indicated an acceptable loan-to-value position and, in the opinion of the Corporation's internal credit administration staff, there has not been a significant deterioration in the collateral value since the original appraisal was performed. Original appraisals are typically used only when the estimated collateral value, as adjusted for the age of the appraisal, results in a current loan-to-value ratio that is lower than the Corporation's loan-to-value requirements for new loans, generally less than 70%.

The following table presents total impaired loans by class segment:

As of June 30, 2017 and December 31, 2016, there were \$71.7 million and \$60.5 million, respectively, of impaired loans that did not have a related allowance for loan loss. The estimated fair values of the collateral securing these loans exceeded their carrying amount, or they were previously charged down to realizable collateral values. Accordingly, no specific valuation allowance was considered to be necessary.

The following table presents average impaired loans by class segment:

(1) All impaired loans, excluding accruing TDRs, were non-accrual loans. Interest income recognized for the three and six months ended June 30, 2017 and 2016 represents amounts earned on accruing TDRs.

Credit Quality Indicators and Non-performing Assets

The following is a summary of the Corporation's internal risk rating categories:

• **Pass:** These loans do not currently pose undue credit risk and can range from the highest to average quality, depending on the degree of potential risk.

• **Special Mention:** These loans constitute an undue and unwarranted credit risk, but not to a point of justifying a classification of substandard. Loans in this category are currently acceptable, but are nevertheless potentially weak.

• **Substandard or Lower:** These loans are inadequately protected by current sound worth and paying capacity of the borrower. There exists a well-defined weakness or weaknesses that jeopardize the normal repayment of the debt.

The following table presents internal credit risk ratings for the indicated loan class segments:

	Pass		Special Mention		Substandard or Lower		Total	
	June 30, 2017	December 31, 2016	June 30, 2017	December 31, 2016	June 30, 2017	December 31, 2016	June 30, 2017	December 31, 2016
	(dollars in thousands)							
Real estate - commercial mortgage	\$6,004,958	\$5,763,122	\$119,534	\$132,484	\$137,516	\$122,976	\$6,262,008	\$6,018,582

Commercial - unsecured	134,455	145,922	6,264	4,481	2,545	3,531	143,264	153,934
Total commercial - industrial, financial and agricultural	3,948,319	3,832,074	125,383	133,354	172,147	122,058	4,245,849	4,087,486
Construction - commercial residential	131,115	113,570	9,789	15,447	16,387	13,172	157,291	142,189
Construction - commercial	718,702	635,963	4,727	3,412	5,220	5,115	728,649	644,490
Total construction (excluding Construction - other)	849,817	749,533	14,516	18,859	21,607	18,287	885,940	786,679
	\$10,803,094	\$10,344,729	\$259,433	\$284,697	\$331,270	\$263,321	\$11,393,797	\$10,892,747
% of Total	94.8	% 95.0	% 2.3	% 2.6	% 2.9	% 2.4	% 100.0	% 100.0

The risk rating process allows management to identify credits that potentially carry more risk in a timely manner and to allocate resources to managing troubled accounts. The Corporation believes that internal risk ratings are the most relevant credit quality indicator for the class segments presented above. The migration of loans through the various internal risk rating categories is a significant component of the allowance for credit loss methodology, which bases the probability of default on this migration. Assigning risk ratings involves judgment. The Corporation's loan review officers provide an independent assessment of risk rating accuracy. Ratings may be changed based on the ongoing monitoring procedures performed by loan officers or credit administration staff, or if specific loan review activities identify a deterioration or an improvement in the loan.

The Corporation does not assign internal risk ratings to smaller balance, homogeneous loans, such as home equity, residential mortgage, construction loans to individuals secured by residential real estate, consumer and lease receivables. For these loans, the most relevant credit quality indicator is delinquency status. The migration of loans through the various delinquency status categories is a significant component of the allowance for credit losses methodology for those loans, which bases the probability of default on this migration.

The following table presents a summary of performing, delinquent and non-performing loans for the indicated loan class segments:

NOTE 6 – Mortgage Servicing Rights

The following table summarizes the changes in mortgage servicing rights ("MSRs"), which are included in other assets on the consolidated balance sheets:

	Three months ended June 30		Six months ended June 30	
	2017	2016	2017	2016
	(in thousands)			
Amortized cost:				
Balance at beginning of period	\$38,543	\$40,195	\$38,822	\$40,944
Originations of mortgage servicing rights	1,203	1,508	2,386	2,428
Amortization	(1,566)	(1,829)	(3,028)	(3,498)
Balance at end of period	\$38,180	\$39,874	\$38,180	\$39,874
Valuation allowance:				
Balance at beginning of period	\$(1,291)	\$—	\$(1,291)	\$—
(Additions) reductions to valuation allowance	1,291	(1,721)	1,291	(1,721)
Balance at end of period	\$—	\$(1,721)	\$—	\$(1,721)
Net MSRs at end of period	\$38,180	\$38,153	\$38,180	\$38,153

MSRs represent the economic value of existing contractual rights to service mortgage loans that have been sold. Accordingly, actual and expected prepayments of the underlying mortgage loans can impact the value of MSRs. The Corporation accounts for MSRs at the lower of amortized cost or fair value.

The fair value of MSRs is estimated by discounting the estimated cash flows from servicing income, net of expense, over the expected life of the underlying loans at a discount rate commensurate with the risk associated with these assets. Expected life is based on the contractual terms of the loans, as adjusted for prepayment projections. Based on its fair value analysis, the Corporation determined that a reduction to the valuation allowance of \$1.3 million was appropriate for the three and six months ended June 30, 2017. An addition to the valuation allowance of \$1.7 million was determined to be necessary for the three and six months ended June 30, 2016. Additions and reductions to the valuation allowance are recorded as decreases and increases, respectively, to "mortgage banking income" on the consolidated statements of income.

NOTE 7 – Stock-Based Compensation

The Corporation grants equity awards to employees, consisting of stock options, restricted stock, RSUs and PSUs under its Amended and Restated Equity and Cash Incentive Compensation Plan ("Employee Equity Plan"). In addition, employees may purchase stock under the Corporation's Employee Stock Purchase Plan. The fair value of equity awards granted to employees is recognized as compensation expense over the period during which employees are required to provide service in exchange for such awards. Compensation expense for PSUs is also recognized over the period during which employees are required to provide service in exchange for such awards, however, compensation expense may vary based on the expectations for actual performance relative to defined performance measures.

The Corporation also grants equity awards to non-employee members of its board of directors under the 2011 Directors' Equity Participation Plan ("Directors' Plan"). Under the Directors' Plan, the Corporation can grant equity awards to non-employee holding company and subsidiary bank directors in the form of stock options, restricted stock or common stock.

Equity awards issued under the Employee Equity Plan are generally granted annually and become fully vested over or after a three-year vesting period. The vesting period for non-performance-based awards represents the period during which employees are required to provide service in exchange for such awards. Equity awards under the Directors' Plan generally vest immediately upon grant. Certain events, as defined in the Employee Equity Plan and the Directors' Plan, result in the acceleration of the vesting of equity awards.

The following table presents compensation (benefit) expense and the related tax benefits for equity awards recognized in the consolidated statements of income:

	Three months ended June 30		Six months ended June 30	
	2017	2016	2017	2016
	(in thousands)			
Stock-based compensation expense	\$1,035	\$1,820	\$1,769	\$3,256
Tax benefit	(1,940)	(642)	(2,684)	(1,075)
Stock-based compensation expense, net of tax benefit	\$(905)	\$1,178	\$(915)	\$2,181

For the three and six months ended June 30, 2017, the tax benefit exceeded the stock-based compensation expense as a result of excess tax benefits arising from corporate stock price levels, stock option exercises and vesting restricted stock, RSUs and PSUs during these periods, which were recorded as reductions to income tax expense as required under ASU 2016-09.

Stock option fair values are estimated through the use of the Black-Scholes valuation methodology as of the date of grant. Stock options carry terms of up to ten years. Fair values for restricted stock, RSUs and a majority of PSUs are based on the trading price of the Corporation's stock on the date of grant and earn dividends or dividend equivalents during the vesting period, which are forfeitable if the awards do not vest. The fair value of certain PSUs are estimated through the use of the Monte Carlo valuation methodology as of the date of grant.

As of June 30, 2017, the Employee Equity Plan had 10.7 million shares reserved for future grants through 2023, and the Directors' Plan had approximately 360,000 shares reserved for future grants through 2021. On May 1, 2017, the Corporation granted approximately 284,000 PSUs and 140,000 RSUs under the Employee Equity Plan. On June 1, 2017, the Corporation granted approximately 11,000 shares of common stock to its directors for a total expense of \$193,000 recognized in other expense.

NOTE 8 – Employee Benefit Plans

The net periodic benefit cost for the Corporation's Defined Benefit Pension Plan ("Pension Plan") consisted of the following components:

	Three months ended June 30		Six months ended June 30	
	2017	2016	2017	2016
	(in thousands)			
Service cost ⁽¹⁾	\$—	\$194	\$—	\$344
Interest cost	830	879	1,660	1,760
Expected return on plan assets	(451)	(433)	(902)	(1,159)
Net amortization and deferral	663	428	1,326	1,210
Net periodic benefit cost	\$1,042	\$1,068	\$2,084	\$2,155

(1) The Pension Plan was curtailed effective January 1, 2008. Service cost was related to administrative costs associated with the plan and was not due to the accrual of additional participant benefits.

The net periodic benefit of the Corporation's Postretirement Benefits Plan ("Postretirement Plan") consisted of the following components:

	Three months ended June 30		Six months ended June 30	
	2017	2016	2017	2016

Edgar Filing: FULTON FINANCIAL CORP - Form 10-Q

	(in thousands)			
Interest cost	\$17	\$5	\$34	\$43
Expected return on plan assets	—	(1)	—	(1)
Net accretion and deferral	(141)	(210)	(282)	(275)
Net periodic benefit	\$(124)	\$(206)	\$(248)	\$(233)

27

The Corporation recognizes the funded status of its Pension Plan and Postretirement Plan on the consolidated balance sheets and recognizes the change in that funded status through other comprehensive income.

NOTE 9 – Derivative Financial Instruments

The Corporation manages its exposure to certain interest rate and foreign currency risks through the use of derivatives. None of the Corporation's outstanding derivative contracts are designated as hedges, and none are entered into for speculative purposes. Derivative instruments are carried at fair value, with changes in fair values recognized in earnings as components of non-interest income and non-interest expense on the consolidated statements of income.

Derivative contracts create counterparty credit risk with both the Corporation's customers and with institutional derivative counterparties. The Corporation manages counterparty credit risk through its credit approval processes, monitoring procedures and obtaining adequate collateral, when the Corporation determines it is appropriate to do so and in accordance with counterparty contracts.

Mortgage Banking Derivatives

In connection with its mortgage banking activities, the Corporation enters into commitments to originate certain fixed-rate residential mortgage loans for customers, also referred to as interest rate locks. In addition, the Corporation enters into forward commitments for the future sales or purchases of mortgage-backed securities to or from third-party counterparties to hedge the effect of changes in interest rates on the values of both the interest rate locks and mortgage loans held for sale. Forward sales commitments may also be in the form of commitments to sell individual mortgage loans at a fixed price at a future date. The amount necessary to settle each interest rate lock is based on the price that secondary market investors would pay for loans with similar characteristics, including interest rate and term, as of the date fair value is measured. Gross derivative assets and liabilities are recorded in other assets and other liabilities, respectively, on the consolidated balance sheets, and changes in fair values during the period are recorded in mortgage banking income on the consolidated statements of income.

Interest Rate Swaps

The Corporation enters into interest rate swaps with certain qualifying commercial loan customers to meet their interest rate risk management needs. The Corporation simultaneously enters into interest rate swaps with dealer counterparties, with identical notional amounts and terms. The net result of these interest rate swaps is that the customer pays a fixed rate of interest and the Corporation receives a floating rate. These interest rate swaps are derivative financial instruments and the gross fair values are recorded in other assets and other liabilities on the consolidated balance sheets, with changes in fair values during the period recorded in other non-interest expense on the consolidated statements of income. Fulton Bank, N.A. ("Fulton Bank"), the Corporation's largest banking subsidiary, exceeded \$10 billion in total assets as of December 31, 2016 and was required to clear all eligible interest rate swap contracts with a central counterparty, effective January 1, 2017. As a result, Fulton Bank became subject to the regulations of the Commodity Futures Trading Commission ("CFTC").

Foreign Exchange Contracts

The Corporation enters into foreign exchange contracts to accommodate the needs of its customers. Foreign exchange contracts are commitments to buy or sell foreign currency on a future date at a contractual price. The Corporation offsets its foreign exchange contract exposure with customers by entering into contracts with third-party correspondent financial institutions to mitigate its exposure to fluctuations in foreign currency exchange rates. The Corporation also holds certain amounts of foreign currency with international correspondent banks. The Corporation's policy limits the total net foreign currency open positions, which includes all outstanding contracts and foreign

account balances, to \$500,000. Gross fair values are recorded in other assets and other liabilities on the consolidated balance sheets, with changes in fair values during the period recorded within other service charges and fees on the consolidated statements of income.

The following table presents a summary of the notional amounts and fair values of derivative financial instruments:

	June 30, 2017		December 31, 2016	
	Notional Amount	Asset (Liability) Fair Value	Notional Amount	Asset (Liability) Fair Value

Net fair value gains (losses) on derivative financial instruments	\$3,022	\$(381)	\$3,645	\$(160)

Fair Value Option

U.S. GAAP permits entities to measure many financial instruments and certain other items at fair value and requires certain disclosures for amounts for which the fair value option is applied. The Corporation has elected to measure mortgage loans held

29

for sale at fair value to more accurately reflect the financial results of its mortgage banking activities in its consolidated financial statements. Derivative financial instruments related to these activities are also recorded at fair value, as noted above. The Corporation determines fair value for its mortgage loans held for sale based on the price that secondary market investors would pay for loans with similar characteristics, including interest rate and term, as of the date fair value is measured. Changes in fair values during the period are recorded as components of mortgage banking income on the consolidated statements of income. Interest income earned on mortgage loans held for sale is classified in interest income on the consolidated statements of income.

The following table presents a summary of the Corporation's mortgage loans held for sale:

	June 30, December 31,	
	2017	2016
	(in thousands)	
Cost	\$32,810	\$ 28,708
Fair value	33,364	28,697

During the three months ended June 30, 2017 and 2016, the Corporation recorded gains related to changes in fair values of mortgage loans held for sale of \$26,000 and \$634,000, respectively. During the six months ended June 30, 2017 and 2016, the Corporation recorded gains related to changes in fair values of mortgage loans held for sale of \$565,000 and \$864,000, respectively.

Balance Sheet Offsetting

Certain financial assets and liabilities may be eligible for offset on the consolidated balance sheets because they are subject to master netting arrangements or similar agreements. The Corporation elects to not offset certain assets and liabilities subject to such arrangements on the consolidated financial statements.

The Corporation is a party to interest rate swap transactions with financial institution counterparties and customers, disclosed in detail above. Under these agreements, the Corporation has the right to net-settle multiple contracts with the same counterparty in the event of default on, or termination of, any one contract. Cash collateral is posted by the party with a net liability position in accordance with contract thresholds and can be used to settle the fair value of the interest rate swap agreements in the event of default. Collateral is posted daily through a clearing agent for changes in the fair value of centrally cleared derivatives with negative fair values. As a result, the total fair values of interest rate swap derivative assets and derivative liabilities recognized on the consolidated balance sheet are not equal and offsetting.

The Corporation is also a party to foreign currency exchange contracts with financial institution counterparties, under which the Corporation has the right to net-settle multiple contracts with the same counterparty in the event of default on, or termination of, any one contract. As with interest rate swap contracts, collateral is posted by the party with a net liability position in accordance with contract thresholds and can be used to settle the fair value of the foreign currency exchange contracts in the event of default.

The Corporation also enters into agreements with customers in which it sells securities subject to an obligation to repurchase the same or similar securities, referred to as repurchase agreements. Under these agreements, the Corporation may transfer legal control over the assets but still maintain effective control through agreements that both entitle and obligate the Corporation to repurchase the assets. Therefore, repurchase agreements are reported as secured borrowings, classified in short-term borrowings on the consolidated balance sheets, while the securities underlying the repurchase agreements remain classified with investment securities on the consolidated balance sheets. The Corporation has no intention of setting off these amounts. Therefore, these repurchase agreements are not eligible for offset.

The following table presents the Corporation's financial instruments that are eligible for offset, and the effects of offsetting, on the consolidated balance sheets:

	Gross Amounts Recognized on the Consolidated Balance Sheets	Gross Amounts Offset on the Consolidated Financial Instruments	Not Offset Cash Collateral	Net Amount
(in thousands)				
June 30, 2017				
Interest rate swap derivative assets	\$48,269	\$(14,372)	\$—	\$33,897
Foreign exchange derivative assets with correspondent banks	407	(283)	—	124
Total	\$48,676	\$(14,655)	\$—	\$34,021
Interest rate swap derivative liabilities	\$43,105	\$(14,372)	\$(18,320)	\$10,413
Foreign exchange derivative liabilities with correspondent banks	283	(283)	—	—
Total	\$43,388	\$(14,655)	\$(18,320)	\$10,413
December 31, 2016				
Interest rate swap derivative assets	\$41,395	\$(15,117)	\$—	\$26,278
Foreign exchange derivative assets with correspondent banks	241	(241)	—	—
Total	\$41,636	\$(15,358)	\$—	\$26,278
Interest rate swap derivative liabilities	\$41,395	\$(15,117)	\$(4,010)	\$22,268
Foreign exchange derivative liabilities with correspondent banks	447	(241)	(206)	—
Total	\$41,842	\$(15,358)	\$(4,216)	\$22,268

For derivative assets, amounts represent any derivative liability fair values that could be offset in the event of (1) counterparty or customer default. For derivative liabilities, amounts represent any derivative asset fair values that could be offset in the event of counterparty or customer default.

(2) Amounts represent collateral received from the counterparty or posted by the Corporation.

NOTE 10 – Commitments and Contingencies

Commitments

The Corporation is a party to financial instruments with off-balance sheet risk in the normal course of business to meet the financing needs of its customers.

Those financial instruments include commitments to extend credit and letters of credit, which involve, to varying degrees, elements of credit risk and interest rate risk in excess of the amounts recognized on the Corporation's consolidated balance sheets. Exposure to credit loss in the event of nonperformance by the other party to the financial instrument for commitments to extend credit and letters of credit is represented by the outstanding amount of those instruments.

The outstanding amounts of commitments to extend credit and letters of credit were as follows:

	June 30, 2017	December 31, 2016
	(in thousands)	
Commitments to extend credit	\$6,382,314	\$ 6,075,567
Standby letters of credit	349,953	356,359
Commercial letters of credit	41,501	38,901

The Corporation records a reserve for unfunded lending commitments, which represents management's estimate of losses associated with unused commitments to extend credit. See Note 5, "Loans and Allowance for Credit Losses," for additional details.

Residential Lending

Residential mortgages originated and sold by the Corporation consist primarily of conforming, prime loans sold to government sponsored agencies, such as the Federal National Mortgage Association ("Fannie Mae") and the Federal Home Loan Mortgage Corporation ("Freddie Mac"). The Corporation also sells certain prime loans it originates to non-government sponsored agency investors.

The Corporation provides customary representations and warranties to government sponsored entities and investors that specify, among other things, that the loans have been underwritten to the standards established by the government sponsored entity or investor. The Corporation may be required to repurchase a loan, or reimburse the government sponsored entity or investor for a credit loss incurred on a loan, if it is determined that the representations and warranties have not been met. Such repurchases or reimbursements generally result from an underwriting or documentation deficiency. As of both June 30, 2017 and December 31, 2016, total outstanding repurchase requests totaled approximately \$543,000.

From 2000 to 2011, the Corporation sold loans to the Federal Home Loan Bank of Pittsburgh under its Mortgage Partnership Finance Program ("MPF Program"). The Corporation provided a "credit enhancement" for residential mortgage loans sold under the MPF Program whereby it would assume credit losses in excess of a defined "First Loss Account," or "FLA" balance, up to specified amounts. The FLA is funded by the Federal Home Loan Bank of Pittsburgh based on a percentage of the outstanding principal balance of loans sold. As of June 30, 2017, the unpaid principal balance of loans sold under the MPF Program was approximately \$94 million. As of June 30, 2017 and December 31, 2016, the reserve for estimated credit losses related to loans sold under the MPF Program was \$1.6 million and \$1.7 million, respectively. Required reserves are calculated based on delinquency status and estimated loss rates established through the Corporation's existing allowance for credit losses methodology for residential mortgage loans.

As of June 30, 2017 and December 31, 2016, the total reserve for losses on residential mortgage loans sold was \$2.4 million and \$2.5 million, respectively, including both reserves for credit losses under the MPF Program and reserves for representation and warranty exposures. Management believes that the reserves recorded as of June 30, 2017 are adequate. However, declines in collateral values, the identification of additional loans to be repurchased, or a deterioration in the credit quality of loans sold under the MPF Program could necessitate additional reserves, established through charges to earnings, in the future.

Legal Proceedings

The Corporation and its subsidiaries are involved in various legal proceedings in the ordinary course of business of the Corporation. The Corporation periodically evaluates the possible impact of pending litigation matters based on, among other factors, the advice of counsel, available insurance coverage and recorded liabilities and reserves for probable legal liabilities and costs. In addition, from time to time, the Corporation is the subject of investigations or other forms of regulatory or governmental inquiry covering a range of possible issues and, in some cases, these may be part of similar reviews of the specified activities of other industry participants. These inquiries could lead to administrative, civil or criminal proceedings, and could possibly result in fines, penalties, restitution or the need to alter the Corporation's business practices, and cause the Corporation to incur additional costs. The Corporation's practice is to cooperate fully with regulatory and governmental investigations.

As of the date of this report, the Corporation believes that any liabilities, individually or in the aggregate, which may result from the final outcomes of pending proceedings will not have a material adverse effect on the financial condition of the Corporation. However, legal proceedings are often unpredictable, and it is possible that the ultimate resolution of any such matters, if unfavorable, may be material to the Corporation's results of operations for any

particular period, depending, in part, upon the size of the loss or liability imposed and the operating results for the applicable period.

BSA/AML Enforcement Orders

The Corporation and each of its bank subsidiaries are subject to regulatory enforcement orders issued during 2014 and 2015 by their respective federal and state bank regulatory agencies relating to identified deficiencies in the Corporation's centralized Bank Secrecy Act and anti-money laundering compliance program (the "BSA/AML Compliance Program"), which was designed to comply with the requirements of the Bank Secrecy Act, the USA Patriot Act of 2001 and related anti-money laundering regulations (collectively, the "BSA/AML Requirements"). The regulatory enforcement orders, which are in the form of consent orders or orders to cease and desist issued upon consent ("Consent Orders"), generally require, among other things, that the Corporation and its bank subsidiaries undertake a number of required actions to strengthen and enhance the BSA/AML Compliance Program, and, in some cases, conduct retrospective reviews of past account activity and transactions, as well as certain reports filed in accordance with the BSA/AML Requirements, to determine whether suspicious activity and certain transactions in currency were properly identified and reported in accordance with the BSA/AML Requirements. The Corporation and its bank subsidiaries have

implemented numerous enhancements to the BSA/AML Compliance Program, completed the retrospective reviews required under the Consent Orders, and continue to strengthen and refine the BSA/AML Compliance Program to achieve a sustainable program in accordance with the BSA/AML Requirements. In addition to requiring strengthening and enhancement of the BSA/AML Compliance Program, while the Consent Orders remain in effect, the Corporation is subject to certain restrictions on expansion activities of the Corporation and its bank subsidiaries. Further, any failure to comply with the requirements of any of the Consent Orders involving the Corporation or its bank subsidiaries could result in further enforcement actions, the imposition of material restrictions on the activities of the Corporation or its bank subsidiaries, or the assessment of fines or penalties.

Fair Lending Investigation

During the second quarter of 2015, Fulton Bank, N.A., the Corporation's largest bank subsidiary, received a letter from the U.S. Department of Justice (the "Department") indicating that the Department had initiated an investigation regarding potential violations of fair lending laws (specifically, the Equal Credit Opportunity Act and the Fair Housing Act) by Fulton Bank, N.A. in certain geographies. Fulton Bank, N.A. has been and is cooperating with the Department and responding to the Department's requests for information. During the third quarter of 2016, the Department informed the Corporation, Fulton Bank, N.A., and three of the Corporation's other bank subsidiaries, Fulton Bank of New Jersey, The Columbia Bank and Lafayette Ambassador Bank, that the Department was expanding its investigation of potential lending discrimination on the basis of race and national origin to encompass additional geographies that were not included in the initial letter from the Department. In addition to requesting information concerning the lending activities of these bank subsidiaries, the Department also requested information concerning the Corporation and the residential mortgage lending activities conducted under the Fulton Mortgage Company brand, the trade name used by all of the Corporation's bank subsidiaries for residential mortgage lending. The investigation relates to lending activities during the period January 1, 2009 to the present. The Corporation and the identified bank subsidiaries are cooperating with the Department and responding to the Department's requests for information. The Corporation and its bank subsidiaries are not able at this time to determine the terms on which this investigation will be resolved or the timing of such resolution, or to reliably estimate the amounts of any settlement, fines or other penalties or the cost of any other remedial actions, if enforcement action is taken. In addition, should the investigation result in an enforcement action against the Corporation or its bank subsidiaries, or a settlement with the Department, the ability of the Corporation and its bank subsidiaries to engage in certain expansion or other activities may be restricted.

Agostino, et al. Litigation

Fulton Bank, N.A. (the "Bank"), the Corporation's largest bank subsidiary, and two unrelated, third-party defendants, Ameriprise Financial Services, Inc. ("Ameriprise") and Riverview Bank ("Riverview"), have been named as defendants in a lawsuit brought on behalf of a group of 67 plaintiffs filed on March 31, 2016, in the Court of Common Pleas for Dauphin County, Pennsylvania (Agostino, et al. v. Ameriprise Financial Services, Inc., et al., No. 2016-CV-2048-CV). The plaintiffs in this action, who are individuals, trustees of certain irrevocable trusts, or the executors of the estates of deceased individuals, were clients of Jeffrey M. Mottern, a now-deceased attorney, who is alleged to have operated a fraud scheme over a period of years through the sale of fictitious high-yield investments or by otherwise misappropriating funds entrusted to Mr. Mottern. Mr. Mottern is alleged to have used the proceeds of these activities to engage in speculative securities trading through defendant Ameriprise, which caused significant losses, and for Mr. Mottern's personal expenses. The allegations against the Bank relate to a commercial checking account at the Bank maintained by Mr. Mottern in connection with Mr. Mottern's law practice. The lawsuit alleges that the Bank is liable to the plaintiffs for failing to properly monitor Mr. Mottern's checking account and detect Mr. Mottern's fraudulent activity, and specifically alleges that the Bank aided and abetted Mr. Mottern's: (1) fraud; (2) breach of fiduciary duty; (3) violations of the Pennsylvania Unfair Trade Practices and Consumer Protection Law; and (4) conversion. Similar claims have been asserted against Ameriprise and Riverview, which allegedly maintained a

personal brokerage account and a trust account for client or other third-party funds, respectively, for Mr. Mottern. The lawsuit seeks damages from the defendants, including the Bank, alleged to be in excess of \$11.3 million, treble damages and attorneys' fees with respect to alleged violations of the Pennsylvania Unfair Trade Practices and Consumer Protection Law, punitive damages, plus interest and costs. On April 29, 2016, the Bank filed a Notice of Removal to remove this lawsuit to the United States District Court for the Middle District of Pennsylvania. On May 31, 2016, the plaintiffs filed a motion to remand the lawsuit to the Court of Common Pleas for Dauphin County, Pennsylvania. On October 24, 2016, the District Court granted the plaintiffs' motion and the lawsuit was remanded back to the Court of Common Pleas for Dauphin County. All defendants subsequently filed preliminary objections to the Complaint, including objections that, if granted, would result in dismissal of the case. On May 26, 2017, the Court of Common Pleas for Dauphin County denied all substantive preliminary objections filed by the Bank. On June 23, 2017, the Bank filed its Combined Motion for Partial Reconsideration of the Court's May 26, 2017 Order and Application for Amendment of the Order to Set Forth Expressly the Statement in Pa.C.S. s. 702(b) (the "Motion"). The Bank also filed its Answer and New Matter (the "Answer") on June 23, 2017. The Plaintiffs subsequently responded to the Motion and the Answer, and the case has now entered the discovery phase.

NOTE 11 – Fair Value Measurements

FASB ASC Topic 820 establishes a fair value hierarchy for the inputs to valuation techniques used to measure assets and liabilities at fair value using the following three categories (from highest to lowest priority):

Level 1 – Inputs that represent quoted prices for identical instruments in active markets.

Level 2 – Inputs that represent quoted prices for similar instruments in active markets, or quoted prices for identical instruments in non-active markets. Also includes valuation techniques whose inputs are derived principally from observable market data other than quoted prices, such as interest rates or other market-corroborated means.

Level 3 – Inputs that are largely unobservable, as little or no market data exists for the instrument being valued.

The Corporation has categorized all assets and liabilities measured at fair value on both a recurring and nonrecurring basis into the above three levels.

The following tables present summaries of the Corporation's assets and liabilities measured at fair value on a recurring basis and reported on the consolidated balance sheets:

	June 30, 2017			
	Level 1	Level 2	Level 3	Total
	(in thousands)			
Mortgage loans held for sale	\$—	\$33,364	\$—	\$33,364
Available for sale investment securities:				
Equity securities	21,455	—	—	21,455
U.S. Government sponsored agency securities	—	6,054	—	6,054
State and municipal securities	—	401,636	—	401,636
Corporate debt securities	—	85,795	3,197	88,992
Collateralized mortgage obligations	—	538,507	—	538,507
Residential mortgage-backed securities	—	1,213,065	—	1,213,065
Commercial mortgage-backed securities	—	121,067	—	121,067
Auction rate securities	—	—	97,923	97,923
Total available for sale investment securities	21,455	2,366,124	101,120	2,488,699
Other assets	18,533	49,717	—	68,250
Total assets	\$39,988	\$2,449,205	\$101,120	\$2,590,313
Other liabilities	\$18,438	\$43,338	\$—	\$61,776
	December 31, 2016			
	Level 1	Level 2	Level 3	Total
	(in thousands)			
Mortgage loans held for sale	\$—	\$28,697	\$—	\$28,697
Available for sale investment securities:				
Equity securities	24,526	—	—	24,526
U.S. Government sponsored agency securities	—	134	—	134
State and municipal securities	—	391,641	—	391,641
Corporate debt securities	—	106,537	2,872	109,409
Collateralized mortgage obligations	—	593,860	—	593,860
Residential mortgage-backed securities	—	1,317,838	—	1,317,838
Commercial mortgage-backed securities	—	24,563	—	24,563
Auction rate securities	—	—	97,256	97,256
Total available for sale investment securities	24,526	2,434,573	100,128	2,559,227
Other assets	17,111	44,481	—	61,592
Total assets	\$41,637	\$2,507,751	\$100,128	\$2,649,516
Other liabilities	\$17,032	\$41,734	\$—	\$58,766

The valuation techniques used to measure fair value for the items in the preceding tables are as follows:

Mortgage loans held for sale – This category consists of mortgage loans held for sale that the Corporation has elected to measure at fair value. Fair values as of June 30, 2017 and December 31, 2016 were measured based on the price that secondary market investors were offering for loans with similar characteristics. See Note 9, "Derivative Financial Instruments" for details related to the Corporation's election to measure assets and liabilities at fair value.

Available for sale investment securities – Included in this asset category are both equity and debt securities. Level 2 available for sale debt securities are valued by a third-party pricing service commonly used in the banking industry. The pricing service uses pricing models that vary based on asset class and incorporate available market information, including quoted prices of investment securities with similar characteristics. Because many fixed income securities do not trade on a daily basis, pricing models use available information, as applicable, through processes such as benchmark yield curves, benchmarking of like securities, sector groupings, and matrix pricing.

Standard market inputs include: benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers and reference data, including market research publications. For certain security types, additional inputs may be used, or some of the standard market inputs may not be applicable.

Management tests the values provided by the pricing service by obtaining securities prices from an alternative third-party source and comparing the results. This test is done for at least 80% of the securities valued by the pricing service. Generally, differences by security in excess of 5% are researched to reconcile the difference.

Equity securities – Equity securities consist of common stocks of financial institutions (\$20.5 million at June 30, 2017 and \$23.5 million at December 31, 2016) and other equity investments (\$1.0 million at June 30, 2017 and December 31, 2016). These Level 1 investments are measured at fair value based on quoted prices for identical securities in active markets.

U.S. Government securities/U.S. Government sponsored agency securities/State and municipal securities/Collateralized mortgage obligations/Residential mortgage-backed securities/Commercial mortgage-backed securities – These debt securities are classified as Level 2 investments. Fair values are determined by a third-party pricing service, as detailed above.

Corporate debt securities – This category consists of subordinated debt issued by financial institutions (\$42.1 million at June 30, 2017 and \$65.2 million at December 31, 2016), single-issuer trust preferred securities issued by financial institutions (\$42.5 million at June 30, 2017 and \$39.8 million at December 31, 2016), pooled trust preferred securities issued by financial institutions (\$422,000 at both June 30, 2017 and December 31, 2016) and other corporate debt issued by non-financial institutions (\$4.0 million at both June 30, 2017 and December 31, 2016).

Level 2 investments include the Corporation's holdings of subordinated debt, other corporate debt issued by non-financial institutions and \$39.7 million and \$37.3 million of single-issuer trust preferred securities held at June 30, 2017 and December 31, 2016, respectively. The fair values for these corporate debt securities are determined by a third-party pricing service, as detailed above.

Level 3 investments include the Corporation's investments in pooled trust preferred securities (\$422,000 at both June 30, 2017 and December 31, 2016) and certain single-issuer trust preferred securities (\$2.8 million at June 30, 2017 and \$2.5 million at December 31, 2016). The fair values of these securities were determined based on quotes provided by third-party brokers who determined fair values based predominantly on internal valuation models which were not indicative prices or binding offers. The Corporation's third-party pricing service cannot derive fair values for these securities primarily due to inactive markets for similar investments. Level 3 values are tested by management primarily through trend analysis, by comparing current values to those reported at the end of the preceding calendar quarter, and determining if they are reasonable based on price and spread movements for this asset class.

Auction rate securities – Due to their illiquidity, ARCs are classified as Level 3 investments and are valued through the use of an expected cash flows model prepared by a third-party valuation expert. The assumptions used in preparing the expected cash flows model include estimates for coupon rates, time to maturity and market rates of return. The most significant unobservable input to the expected cash flows model is an assumed return to market liquidity sometime in the next five years. If the assumed return to market liquidity was lengthened beyond the next five years, this would result in a decrease in the fair value of these ARCs. The Corporation believes that the trusts underlying the

ARCs will self-liquidate as student loans are repaid. Level 3 fair values

35

are tested by management through the performance of a trend analysis of the market price and discount rate. Changes in the price and discount rates are compared to changes in market data, including bond ratings, parity ratios, balances and delinquency levels.

Other assets – Included in this category are the following:

Level 1 assets include mutual funds that are held in trust for employee deferred compensation plans (\$17.8 million at June 30, 2017 and \$16.4 million at December 31, 2016) and the fair value of foreign currency exchange contracts (\$716,000 at June 30, 2017 and \$745,000 at December 31, 2016). The mutual funds and foreign exchange prices used to measure these items at fair value are based on quoted prices for identical instruments in active markets.

Level 2 assets include the fair value of mortgage banking derivatives in the form of interest rate locks and forward commitments with secondary market investors (\$1.4 million at June 30, 2017 and \$3.1 million at December 31, 2016) and the fair value of interest rate swaps (\$48.3 million at June 30, 2017 and \$41.4 million at December 31, 2016). The fair values of the Corporation's interest rate locks, forward commitments and interest rate swaps represent the amounts that would be required to settle the derivative financial instruments at the balance sheet date. See Note 9, "Derivative Financial Instruments," for additional information.

Other liabilities – Included in this category are the following:

Level 1 liabilities include employee deferred compensation liabilities which represent amounts due to employees under deferred compensation plans (\$17.8 million at June 30, 2017 and \$16.4 million at December 31, 2016) and the fair value of foreign currency exchange contracts (\$626,000 at June 30, 2017 and \$668,000 at December 31, 2016). The fair value of these liabilities are determined in the same manner as the related assets, as described under the heading "Other assets" above.

Level 2 liabilities include the fair value of mortgage banking derivatives in the form of interest rate locks and forward commitments with secondary market investors (\$233,000 at June 30, 2017 and \$339,000 at December 31, 2016) and the fair value of interest rate swaps (\$43.1 million at June 30, 2017 and \$41.4 million at December 31, 2016). The fair values of these liabilities are determined in the same manner as the related assets, as described under the heading "Other assets" above.

The following table presents the changes in the Corporation's available for sale investment securities measured at fair value on a recurring basis using unobservable inputs (Level 3):

	Three months ended June 30, 2017		
	Pooled	Single-issuer	
	Trust	Preferred	ARC
	Securities	Securities	
	(in thousands)		
Balance at March 31, 2017	\$422	\$ 2,750	\$97,439
Unrealized adjustment to fair value ⁽¹⁾	—	22	386
Discount accretion ⁽²⁾	—	3	98
Balance at June 30, 2017	\$422	\$ 2,775	\$97,923

	Three months ended June 30, 2016		
Balance at March 31, 2016	\$706	\$ 2,400	\$97,326
Unrealized adjustment to fair value ⁽¹⁾	—	22	482
Discount accretion ⁽²⁾	—	3	78
Balance at June 30, 2016	\$706	\$ 2,425	\$97,886

	Six months ended June 30, 2017		
	Pooled	Single-issuer	
	Trust	Preferred	ARC
	Securities	Securities	
	(in thousands)		
Balance at December 31, 2016	\$422	\$ 2,450	\$97,256
Unrealized adjustment to fair value ⁽¹⁾	—	319	472
Discount accretion ⁽²⁾	—	6	195
Balance at June 30, 2017	\$422	\$ 2,775	\$97,923

	Six months ended June 30, 2016		
Balance at December 31, 2015	\$706	\$ 2,630	\$98,059
Unrealized adjustment to fair value ⁽¹⁾	—	(211) (350)
Discount accretion ⁽²⁾	—	6	177
Balance at June 30, 2016	\$706	\$ 2,425	\$97,886

Pooled trust preferred securities, single-issuer trust preferred securities and ARCs are classified as available for sale investment securities; as such, the unrealized adjustment to fair value was recorded as an unrealized holding gain (loss) and included as a component of "available for sale investment securities" on the consolidated balance sheets.

(2) Included as a component of "net interest income" on the consolidated statements of income.

Certain financial assets are not measured at fair value on an ongoing basis, but are subject to fair value measurement in certain circumstances, such as upon their acquisition or when there is evidence of impairment. The following table presents the Corporation's financial assets measured at fair value on a nonrecurring basis and reported on the Corporation's consolidated balance sheets:

	June 30, 2017			
	Level 1	Level 2	Level 3	Total
	(in thousands)			
Net loans	\$-	\$-	—\$ 144,256	\$ 144,256
Other financial assets	—	—	49,613	49,613
Total assets	\$-	\$-	—\$ 193,869	\$ 193,869
	December 31, 2016			
	Level 1	Level 2	Level 3	Total
	(in thousands)			
Net loans	\$-	\$-	—\$ 132,576	\$ 132,576
Other financial assets	—	—	50,347	50,347
Total assets	\$-	\$-	—\$ 182,923	\$ 182,923

The valuation techniques used to measure fair value for the items in the table above are as follows:

Net loans – This category consists of loans that were measured for impairment under FASB ASC Section 310-10-35 and have been classified as Level 3 assets. The amount shown is the balance of impaired loans, net of the related allowance for loan losses. See Note 5, "Loans and Allowance for Credit Losses," for additional details.

Other financial assets – This category includes OREO (\$11.4 million at June 30, 2017 and \$12.8 million at December 31, 2016) and MSR's (\$38.2 million at June 30, 2017 and \$37.5 million at December 31, 2016), both classified as Level 3 assets.

Fair values for OREO were based on estimated selling prices less estimated selling costs for similar assets in active markets.

MSR's are initially recorded at fair value upon the sale of residential mortgage loans to secondary market investors. MSR's are amortized as a reduction to servicing income over the estimated lives of the underlying loans. MSR's are stratified and evaluated for impairment by comparing each stratum's carrying amount to its estimated fair value. Fair values are determined at the end of each quarter through a discounted cash flows valuation performed by a third-party valuation expert. Significant inputs to the valuation included expected net servicing income, the discount rate and the expected life of the underlying loans. Expected life is based on the contractual terms of the loans, as adjusted for prepayment projections. The weighted average annual constant prepayment rate and the weighted average discount rate used in the June 30, 2017 valuation were 11.8% and 9.5%, respectively. Management tests the reasonableness of the significant inputs to the third-party valuation in comparison to market data.

As required by FASB ASC Section 825-10-50, the following table details the book values and estimated fair values of the Corporation's financial instruments as of June 30, 2017 and December 31, 2016. In addition, a general description of the methods and assumptions used to estimate such fair values is also provided.

	June 30, 2017		December 31, 2016	
	Book Value	Estimated Fair Value	Book Value	Estimated Fair Value
	(in thousands)			
FINANCIAL ASSETS				
Cash and due from banks	\$94,938	\$94,938	\$118,763	\$118,763
Interest-bearing deposits with other banks	322,514	322,514	233,763	233,763
Federal Reserve Bank and Federal Home Loan Bank stock	70,328	70,328	57,489	57,489
Loans held for sale ⁽¹⁾	62,354	62,354	28,697	28,697
Available for sale investment securities ⁽¹⁾	2,488,699	2,488,699	2,559,227	2,559,227
Net Loans ⁽¹⁾	15,174,275	15,007,961	14,530,593	14,387,454
Accrued interest receivable	47,603	47,603	46,294	46,294
Other financial assets ⁽¹⁾	212,773	212,773	206,132	206,132
FINANCIAL LIABILITIES				
Demand and savings deposits	\$12,610,951	\$12,610,951	\$12,259,622	\$12,259,622
Time deposits	2,746,410	2,758,807	2,753,242	2,769,757
Short-term borrowings	694,859	694,859	541,317	541,317
Accrued interest payable	7,804	7,804	9,632	9,632
Other financial liabilities ⁽¹⁾	252,537	252,537	216,080	216,080
Federal Home Loan Bank advances and other long-term debt	1,037,961	1,035,711	929,403	928,167

These financial instruments, or certain financial instruments in these categories, are measured at fair value on the (1) Corporation's consolidated balance sheets. Descriptions of the fair value determinations for these financial instruments are disclosed above.

Fair values of financial instruments are significantly affected by the assumptions used, principally the timing of future cash flows and discount rates. Because assumptions are inherently subjective in nature, the estimated fair values cannot be substantiated by comparison to independent market quotes and, in many cases, the estimated fair values could not necessarily be realized in an immediate sale or settlement of the instrument. The aggregate fair value amounts presented do not necessarily represent management's estimate of the underlying value of the Corporation. For short-term financial instruments, defined as those with remaining maturities of 90 days or less, and excluding those recorded at fair value on the Corporation's consolidated balance sheets, book value was considered to be a reasonable estimate of fair value.

The following instruments are predominantly short-term:

Assets	Liabilities
Cash and due from banks	Demand and savings deposits
Interest-bearing deposits with other banks	Short-term borrowings
Accrued interest receivable	Accrued interest payable

Federal Reserve Bank and Federal Home Loan Bank ("FHLB") stock represent restricted investments and are carried at cost on the consolidated balance sheets.

Fair values for loans and time deposits were estimated by discounting future cash flows using the current rates at which similar loans would be made to borrowers and similar deposits would be issued to customers for the same remaining maturities. Fair values estimated in this manner do not fully incorporate an exit price approach to fair value, as defined in FASB ASC Topic 820.

Loans held for sale includes \$28.9 million of student loans as of June 30, 2017, carried at the lower of cost or fair value. In June 2017, the Corporation determined to sell this portfolio and began discussions with a potential purchaser of this portfolio, and reclassified these loans from consumer loans to loans held for sale. Fair value is based on the price per the preliminary offer from the potential purchaser. As such, a loss of \$440,000 was recorded in the second quarter of 2017 and included in "other expense" on the consolidated statements of income.

The fair values of FHLB advances and long-term debt were estimated by discounting the remaining contractual cash flows using a rate at which the Corporation could issue debt with similar remaining maturities as of the balance sheet date. These borrowings would be categorized in Level 2 liabilities under FASB ASC Topic 820.

NOTE 12 – Long-Term Debt

In March 2017, the Corporation issued \$125.0 million of senior notes, with a fixed rate of 3.60% and an effective rate of 3.95%, that mature in 2022. A portion of the net proceeds from this issuance were used to repay \$100.0 million of 10-year subordinated notes, which matured on May 1, 2017 and carried a fixed rate of 5.75% and an effective rate of 5.96%.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Management's Discussion and Analysis of Financial Condition and Results of Operations ("Management's Discussion") relates to Fulton Financial Corporation (the "Corporation"), a financial holding company registered under the Bank Holding Company Act of 1956 and incorporated under the laws of the Commonwealth of Pennsylvania in 1982, and its wholly owned subsidiaries. Management's Discussion should be read in conjunction with the consolidated financial statements and notes presented in this report.

FORWARD-LOOKING STATEMENTS

The Corporation has made, and may continue to make, certain forward-looking statements with respect to its financial condition and results of operations. Do not unduly rely on forward-looking statements. Forward-looking statements can be identified by the use of words such as "may," "should," "will," "could," "estimates," "predicts," "potential," "continue," "anticipates," "believes," "plans," "expects," "future," "intends" and similar expressions which are intended to identify forward-looking statements.

These forward-looking statements are not guarantees of future performance and are subject to risks and uncertainties, some of which are beyond the Corporation's control and ability to predict, that could cause actual results to differ materially from those expressed in the forward-looking statements. The Corporation undertakes no obligation, other than as required by law, to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. Many factors could affect future financial results including, without limitation:

- the impact of adverse conditions in the economy and capital markets on the performance of the Corporation's loan portfolio and demand for the Corporation's products and services;
- increases in non-performing assets, which may require the Corporation to increase the allowance for credit losses, charge off loans and incur elevated collection and carrying costs related to such non-performing assets;
- investment securities gains and losses, including other-than-temporary declines in the value of securities which may result in charges to earnings;
- the effects of market interest rates, and the relative balances of interest rate-sensitive assets to interest rate-sensitive liabilities, on net interest margin and net interest income;
- the effects of changes in interest rates on demand for the Corporation's products and services;
- the effects of changes in interest rates or disruptions in liquidity markets on the Corporation's sources of funding;
- the Corporation's ability to manage liquidity, both at the holding company level and at its bank subsidiaries;
- the impact of increased regulatory scrutiny of the banking industry;
- the effects of the increasing amounts of time and expense associated with regulatory compliance and risk management;
- the potential for negative consequences from regulatory violations and investigations, including potential supervisory actions and the assessment of fines and penalties;
- the additional time, expense and investment required to comply with, and the restrictions on potential growth and investment activities resulting from, the existing enforcement orders applicable to the Corporation and its bank subsidiaries by federal and state bank regulatory agencies requiring improvement in compliance functions and other remedial actions, or any future enforcement orders;
- the Corporation's ability to manage the uncertainty associated with the delay in implementing many of the regulations mandated by the Dodd-Frank Act;
- the effects of, and uncertainty surrounding, potential changes in legislation, regulation and government policy as a result of the recent change in federal administration;
- the effects of negative publicity on the Corporation's reputation;
- the effects of adverse outcomes in litigation and governmental or administrative proceedings;

- the potential to incur losses in connection with repurchase and indemnification payments related to sold loans;
- the Corporation's ability to successfully transform its business model;
- the Corporation's ability to achieve its growth plans;
- the effects of competition on deposit rates and growth, loan rates and growth and net interest margin;
- the Corporation's ability to manage the level of non-interest expenses, including salaries and employee benefits expenses, operating risk losses and goodwill impairment;
- the effects of changes in accounting policies, standards, and interpretations on the Corporation's consolidated balance sheets and consolidated statements of income;
- the impact of operational risks, including the risk of human error, inadequate or failed internal processes and systems, computer and telecommunications systems failures, faulty or incomplete data and an inadequate risk management framework;

- the impact of failures of third parties upon which the Corporation relies to perform in accordance with contractual arrangements;
- the failure or circumvention of the Corporation's system of internal controls;
- the loss of, or failure to safeguard, confidential or proprietary information;
- the Corporation's failure to identify and to address cyber-security risks;
- the Corporation's ability to keep pace with technological changes;
- the Corporation's ability to attract and retain talented personnel;
- capital and liquidity strategies, including the Corporation's ability to comply with applicable capital and liquidity requirements, and the Corporation's ability to generate capital internally or raise capital on favorable terms;
- the Corporation's reliance on its subsidiaries for substantially all of its revenues and its ability to pay dividends or other distributions; and
- the effects of any downgrade in the Corporation's credit ratings on its borrowing costs or access to capital markets.

RESULTS OF OPERATIONS

Overview

Fulton Financial Corporation is a financial holding company comprised of six wholly owned bank subsidiaries which provide a full range of retail and commercial financial services through locations in Pennsylvania, Delaware, Maryland, New Jersey and Virginia and eight wholly owned non-bank subsidiaries. The Corporation generates the majority of its revenue through net interest income, or the difference between interest earned on loans, investments and other interest-earning assets, and interest paid on deposits and borrowings. Growth in net interest income is dependent upon balance sheet growth and maintaining or increasing the net interest margin, which is net interest income (fully taxable-equivalent, or "FTE") as a percentage of average interest-earning assets. The Corporation also generates revenue through fees earned on the various services and products offered to its customers and through gains on sales of assets, such as loans, investments, or properties. Offsetting these revenue sources are provisions for credit losses on loans, non-interest expenses and income taxes.

The following table presents a summary of the Corporation's earnings and selected performance ratios:

	As of or for the Three months ended June 30		As of or for the Six months ended June 30		
	2017	2016	2017	2016	
Net income (in thousands)	\$45,467	\$39,750	\$88,847	\$78,007

Ratio represents a financial measure derived by methods other than U.S. Generally Accepted Accounting Principles ("U.S. GAAP"). See reconciliation of this non-U.S. GAAP financial measure to the most comparable U.S. GAAP measure under the heading, "Supplemental Reporting of Non-U.S. GAAP Based Financial Measures" at the end of this "Overview" section.

⁽¹⁾ Presented on an FTE basis, using a 35% federal tax rate and statutory interest expense disallowances. See also the "Net Interest Income" section of Management's Discussion.

Net income for the three and six months ended June 30, 2017 increased \$5.7 million, or 14.4%, and \$10.8 million, or 13.9%, respectively, compared to the same periods in 2016. The increases were mainly due to higher net interest income and non-interest income, partially offset by increases in the provision for credit losses and non-interest expenses.

The following is a summary of financial highlights for the three and six months ended June 30, 2017:

FTE Net Interest Income and Net Interest Margin - For the three and six months ended June 30, 2017, FTE net interest income increased \$13.5 million, or 10.1%, and \$22.7 million, or 8.5%, in comparison to the same periods in 2016. These increases were

driven by growth in interest-earning assets and 9 and 6 basis points increases in the net interest margin during the three and six months ended June 30, 2017, respectively.

Average interest-earning assets increased \$1.2 billion, or 7.0%, in the second quarter of 2017 in comparison to the same period in 2016, mainly due to a \$1.2 billion, or 8.3%, increase in average loans and a \$48.7 million, or 2.0%, increase in average investment securities, partially offset by a \$32.5 million, or 9.1%, decrease in average other interest-earning assets. Average interest-bearing liabilities increased \$747.9 million, or 6.4%, primarily due to a \$413.1 million, or 4.0%, increase in average interest-bearing deposits, a \$229.4 million, or 56.8%, increase in average short-term borrowings and a \$105.3 million, or 10.9%, increase in average Federal Home Loan Bank ("FHLB") advances and long-term debt. Additional funding to support the increase in average interest-earning assets was provided by a \$309.9 million, or 7.6%, increase in average noninterest-bearing deposits.

During the first six months of 2017, average interest-earning assets increased \$1.1 billion, or 6.7%, in comparison to the same period in 2016, mainly due to a \$1.1 billion, or 7.8%, increase in average loans and a \$77.6 million, or 3.2%, increase in average investment securities, partially offset by a \$39.3 million, or 11.0%, decrease in average other interest-earning assets. Average interest-bearing liabilities increased \$696.6 million, or 6.0%, primarily due to a \$379.8 million, or 3.7%, increase in average interest-bearing deposits, a \$248.0 million, or 58.4%, increase in average short-term borrowings and a \$68.8 million, or 7.2%, increase in average FHLB advances and long-term debt. Additional funding to support the increase in average interest-earning assets was provided by a \$322.1 million, or 8.0%, increase in average noninterest-bearing deposits.

Long-term Debt - In March 2017, the Corporation issued \$125.0 million of senior notes, with a fixed rate of 3.60% and an effective rate of 3.95%, that mature in 2022. A portion of the net proceeds from this issuance were used on May 1, 2017 to repay \$100.0 million of 10-year subordinated notes, which matured and carried a fixed rate of 5.75% and an effective rate of 5.96%.

Loan Growth - The \$1.2 billion and \$1.1 billion growth in average loans for the second quarter and the first six months of 2017, respectively, in comparison to the same periods in 2016, was primarily recognized in the commercial mortgage, residential mortgage and commercial loan portfolios. The growth occurred across all geographic markets, but was predominately attributable to the Pennsylvania and Maryland markets.

Asset Quality - The Corporation recorded a \$6.7 million provision for credit losses for the three months ended June 30, 2017, compared to a \$2.5 million provision for the same period in 2016. For the six months ended June 30, 2017, the Corporation recorded an \$11.5 million provision for credit losses compared to a \$4.0 million provision for the same period in 2016. The increases in provision for credit losses in 2017 were largely due to growth in the loan portfolio, with generally stable credit metrics.

Annualized net charge-offs to average loans outstanding were 0.11% for the second quarter of 2017, compared to 0.10% for the second quarter of 2016. For the first six months of 2017, annualized net charge-offs to average loans outstanding improved to 0.10%, compared to 0.15% for the same period of 2016.

Non-performing assets increased \$7.5 million, or 5.4%, as of June 30, 2017 compared to June 30, 2016. However, as a percent of total assets, non-performing assets remained fairly consistent at 0.75% and 0.76%, respectively, as of those dates. The total delinquency rate improved to 1.20% as of June 30, 2017, from 1.30% as of June 30, 2016.

Non-interest Income - For the three and six months ended June 30, 2017, non-interest income, excluding investment securities gains, increased \$4.9 million, or 10.6%, and \$8.3 million, or 9.3%, in comparison to the same periods in 2016, respectively. The increases were primarily driven by higher commercial loan interest rate swap fees, investment management and trust services income and mortgage banking income. Mortgage servicing income increased \$3.4

million during the first half of 2017 compared to the same period in 2016 as a result of a \$1.3 million reduction to the mortgage servicing rights ("MSRs") valuation allowance during the second quarter of 2017, which was originally established in June 2016 through an impairment charge of \$1.7 million. Excluding the impact of the MSR valuation allowance adjustments, mortgage servicing income increased \$346,000, or 13.6%.

Investment securities gains for the three and six months ended June 30, 2017 were \$1.4 million and \$2.5 million, respectively, as compared to \$76,000 and \$1.0 million for the same periods in 2016, respectively.

Non-interest Expense - For the three and six months ended June 30, 2017, non-interest expense increased \$11.1 million, or 9.1%, and \$12.9 million, or 5.3%, respectively, in comparison to the same periods of 2016. The increases were primarily driven by higher salaries and employee benefits, amortization of certain tax credit investments, other outside services and software expenses, partially offset by decreases in data processing expense and FDIC insurance expense. Amortization of certain new tax credit investments was classified in non-interest expense rather than income tax expense in 2017. There was no impact on net income as a result of the different classifications of the amortization for these new tax credit investments as the increases in non-interest expense were offset by decreases in income tax expense.

Supplemental Reporting of Non-U.S. GAAP Based Financial Measures

This Quarterly Report on Form 10-Q contains supplemental financial information, as detailed below, which has been derived by methods other than U.S. GAAP. The Corporation has presented these non-U.S. GAAP financial measures because it believes that these measures provide useful and comparative information to assess trends in the Corporation's results of operations. Presentation of these non-U.S. GAAP financial measures is consistent with how the Corporation evaluates its performance internally, and these non-U.S. GAAP financial measures are frequently used by securities analysts, investors and other interested parties in the evaluation of companies in the Corporation's industry. Management believes that these non-U.S. GAAP financial measures, in addition to U.S. GAAP measures, are also useful to investors to evaluate the Corporation's results. Investors should recognize that the Corporation's presentation of these non-U.S. GAAP financial measures might not be comparable to similarly-titled measures of other companies. These non-U.S. GAAP financial measures should not be considered a substitute for U.S. GAAP basis measures, and the Corporation strongly encourages a review of its consolidated financial statements in their entirety. Following are reconciliations of these non-U.S. GAAP financial measures to the most directly comparable U.S. GAAP measure as of and for the three and six months ended June 30:

	As of or for the Three months ended June 30		As of or for the Six months ended June 30

Efficiency ratio	65.3	% 67.6	% 64.8	% 68.0	%

Amortization expense for tax credit investments that are considered to be qualified affordable housing investments under applicable accounting guidance is included in income taxes. Amortization expense for other tax credit investments that are not considered to be affordable housing investments is included in non-interest expense. If amortization expense for all tax credit investments were recorded in income taxes, the effective tax rate for the quarter ended June 30, 2017 would have been 21.2% vs 16.6%.

⁽²⁾ Presented on an FTE basis, using a 35% federal tax rate and statutory interest expense disallowances. See also the "Net Interest Income" section of Management's Discussion.

Quarter Ended June 30, 2017 compared to the Quarter Ended June 30, 2016

Net Interest Income

FTE net interest income increased \$13.5 million, to \$147.3 million, in the second quarter of 2017, from \$133.9 million in the second quarter of 2016. The increase was due to a \$1.2 billion, or 7.0%, increase in interest-earning assets and a 9 basis points, or 2.8%, increase in net interest margin, to 3.29%, for the second quarter of 2017 compared to 3.20% for the second quarter of 2016. The following table provides a comparative average balance sheet and net interest income analysis for those periods. Interest income and yields are presented on an FTE basis, using a 35% federal tax rate and statutory interest expense disallowances. The discussion following this table is based on these FTE amounts.

FHLB advances and other long-term debt	949	(1,778)	(829)
Total interest expense	\$1,014	\$911	\$1,925

Note: Changes which are partially attributable to both volume and rate are allocated to the volume and rate components presented above based on the percentage of direct changes that are attributable to each component.

As summarized above, the increase in average interest-earning assets, primarily loans, since the second quarter of 2016 resulted in a \$12.9 million increase in FTE interest income. The 9 basis points increase in the yield on average interest-earning assets resulted in a \$2.5 million increase in FTE interest income. The yield on the loan portfolio increased 7 basis points, or 1.8%, from the second quarter of 2016, the result of federal funds rate increases that occurred in December 2016 and March 2017, which primarily impacted variable rate loans and adjustable rate loans that repriced in the first half of 2017.

Average loans and average FTE yields, by type, are summarized in the following table:

	Three months ended June 30				Increase (Decrease) in	
	2017		2016		Balance	%
	Balance	Yield	Balance	Yield	\$	%
	(dollars in thousands)					
Real estate – commercial mortgage	\$6,163,844	4.00%	\$5,557,680	4.00%	\$606,164	10.9%
Commercial – industrial, financial and agricultural	4,221,025	4.00	4,080,524	3.81	140,501	3.4
Real estate – residential mortgage	1,707,929	3.77	1,399,851	3.78	308,078	22.0
Real estate – home equity	1,587,680	4.33	1,656,140	4.10	(68,460)	(4.1)
Real estate – construction	897,321	3.98	820,881	3.81	76,440	9.3
Consumer	300,966	5.03	272,293	5.37	28,673	10.5
Leasing, other and overdrafts	248,440	5.04	178,655	6.22	69,785	39.1
Total	\$15,127,205	4.05%	\$13,966,024	3.98%	\$1,161,181	8.3 %

Average loans increased \$1.2 billion, or 8.3%, compared to the second quarter of 2016. The increase was driven largely by growth in the commercial mortgage and residential mortgage portfolios, as well as the commercial loan portfolio. The \$606.2 million, or 10.9%, increase in commercial mortgages occurred in both owner-occupied and investment property types and was realized in all geographic markets, but predominately in the Pennsylvania, Maryland and Delaware markets. The \$308.1 million, or 22.0%, increase in residential mortgages was also experienced across all geographic markets, with the most significant increases occurring in the Maryland, Virginia and Pennsylvania markets. This growth was primarily the result of a strategic decision to retain certain

mortgage loans. The \$140.5 million, or 3.4%, increase in commercial loans was spread across a broad range of industries and concentrated in the Pennsylvania market.

Average total interest-bearing liabilities increased \$747.9 million, or 6.4%, compared to the second quarter of 2016. Interest expense increased \$1.9 million, or 9.4%, to \$22.3 million in the second quarter of 2017. Average deposits and average interest rates, by type, are summarized in the following table:

	Three months ended June 30				Increase (Decrease) in Balance	
	2017		2016		\$	%
	Balance	Rate	Balance	Rate		
	(dollars in thousands)					
Noninterest-bearing demand	\$4,387,517	— %	\$4,077,642	— %	\$309,875	7.6 %
Interest-bearing demand	3,690,059	0.30	3,454,031	0.18	236,028	6.8
Savings and money market accounts	4,315,495	0.25	3,989,988	0.19	325,507	8.2
Total demand and savings	12,393,071	0.18	11,521,661	0.12	871,410	7.6
Time deposits	2,696,033	1.10	2,844,434	1.06	(148,401)	(5.2)
Total deposits	\$15,089,104	0.34 %	\$14,366,095	0.30 %	\$723,009	5.0 %

The \$871.4 million, or 7.6%, increase in total demand and savings accounts was primarily due to a \$487.4 million, or 9.0%, increase in personal account balances, a \$308.3 million, or 7.4%, increase in business account balances and a \$65.7 million, or 3.5%, increase in municipal account balances. The average cost of total deposits increased 4 basis points to 0.34% in the second quarter of 2017 compared, to 0.30% in the second quarter of 2016.

Average borrowings and interest rates, by type, are summarized in the following table:

	Three months ended June 30				Increase in Balance	
	2017		2016		\$	%
	Balance	Rate	Balance	Rate		
	(dollars in thousands)					
Short-term borrowings:						
Customer repurchase agreements and short-term promissory notes	\$277,211	0.09 %	\$258,130	0.09 %	\$19,081	7.4 %
Federal funds purchased	242,375	1.03	138,012	0.43	104,363	75.6
Short-term FHLB advances ⁽¹⁾	113,516	0.99	7,527	0.45	105,989	N/M
Total short-term borrowings	633,102	0.61	403,669	0.21	229,433	56.8
Long-term debt:						
FHLB advances	652,192	2.27	603,700	3.17	48,492	8.0
Other long-term debt	418,653	4.56	361,826	5.01	56,827	15.7
Total long-term debt	1,070,845	3.16	965,526	3.86	105,319	10.9
Total borrowings	\$1,703,947	2.22 %	\$1,369,195	2.78 %	\$334,752	24.4 %

N/M - Not meaningful

(1) Represents FHLB advances with an original maturity term of less than one year.

Average total short-term borrowings increased \$229.4 million, or 56.8%, as a result of average loan growth out-pacing the increase in average deposits.

Average long-term debt increased \$105.3 million, or 10.9%, due mainly to the \$125 million of senior notes issued in March 2017, partially offset by the repayment of \$100.0 million of 10-year subordinated notes, which matured on May 1, 2017. The 70 basis point, or 18.1%, decrease in the average rate on long-term debt was primarily a result of \$200 million of FHLB advances that were refinanced in December of 2016, which reduced the weighted average rate

on these advances from 4.03% to 2.40%.

Provision for Credit Losses

The provision for credit losses was \$6.7 million for the second quarter of 2017, an increase of \$4.2 million from the second quarter of 2016, driven mainly by loan growth and the impact of normal changes in the risk characteristics of the loan portfolio.

47

The provision for credit losses is recognized as an expense in the consolidated statements of income and is the amount necessary to adjust the allowance for credit losses to its appropriate balance, as determined through the Corporation's allowance methodology. The Corporation determines the appropriate level of the allowance for credit losses based on many quantitative and qualitative factors, including, but not limited to: the size and composition of the loan portfolio, changes in risk ratings, changes in collateral values, delinquency levels, historical losses and economic conditions. See the "Financial Condition" section of Management's Discussion under the heading "Provision and Allowance for Credit Losses" for details related to the Corporation's provision and allowance for credit losses.

Non-Interest Income

The following table presents the components of non-interest income:

	Three months ended June 30		Increase (Decrease)		
	2017	2016	\$	%	
	(dollars in thousands)				
Other service charges and fees:					
Merchant fees	\$4,531	\$4,252	\$ 279	6.6	%

N/M - Not meaningful

Excluding investment securities gains, non-interest income increased \$4.9 million, or 10.6%. Other service charges and fees increased \$1.4 million, or 10.5%, mainly due to a \$1.0 million increase in commercial loan interest rate swap fees, driven by loan growth and a favorable interest rate environment.

Investment management and trust services income increased \$885,000, or 7.9%, with growth in both trust commissions and brokerage income, due to overall market performance and an increase in assets under management. Gains on sales of mortgage loans decreased \$952,000, or 21.4%, compared to the same period in 2016, as both volumes and pricing spreads decreased. Mortgage servicing income increased \$3.2 million compared to the second quarter of 2016. The second quarter of 2017 included a \$1.3 million reduction to the MSR's valuation allowance, which was originally established in June 2016 through an impairment charge of \$1.7 million. Excluding the impact of

the MSR valuation allowance adjustments, mortgage servicing income increased \$196,000, or 16.9%. Investment securities gains increased \$1.4 million from the second quarter of 2016. See Note 4, "Investment Securities," in the Notes to Consolidated Financial Statements for additional details.

Non-Interest Expense

The following table presents the components of non-interest expense:

	Three months ended		Increase (Decrease)	
	June 30			
	2017	2016	\$	%
	(dollars in thousands)			
Salaries and employee benefits	\$74,496	\$70,029	\$4,467	6.4 %
Net occupancy expense	12,316	11,811	505	4.3
Other outside services	7,708	5,508	2,200	39.9
Data processing	4,619	5,476	(857)	(15.7)
Software	4,435	3,953	482	12.2
Amortization of tax credit investments	3,151	—	3,151	N/M
Equipment expense	3,034	2,872	162	5.6
Professional fees	2,931	3,353	(422)	(12.6)
FDIC insurance expense	2,366	2,960	(594)	(20.1)
Marketing	2,234	1,916	318	16.6
Other	15,405	13,759	1,646	12.0
Total	\$132,695	\$121,637	\$11,058	9.1 %

N/M - Not meaningful

The increase in salaries and employee benefits expense was driven entirely by salaries, reflecting normal merit increases and an increase in staffing levels. Average full-time equivalent employees increased 2.1% to 3,564 in 2017, as compared to 3,492 in 2016.

Other outside services increased \$2.2 million, or 39.9%, largely due to pre-bank consolidation efforts and the timing of expenses for various engagements.

In 2017, amortization expense on certain new tax credit investments was classified in non-interest expense, rather than income tax expense, as further discussed under income taxes below.

Software expense increased \$482,000, or 12.2%, largely due to investments in technology solutions. Data processing expense decreased \$857,000, or 15.7%, due to benefits from renegotiated contracts. The \$422,000, or 12.6%, decrease in professional fees was driven by lower legal expenses. FDIC insurance expense decreased \$594,000, or 20.1%, as the assessment rates for banks decreased when the Deposit Insurance Fund (DIF) exceeded 1.15% of the deposit base in 2016. Marketing expense increased \$318,000, or 16.6%, compared to the second quarter of 2016, due to an increase in the number of marketing promotions.

Other expenses increased \$1.6 million due mainly to a \$440,000 loss on the planned sale of the student loan portfolio and higher state taxes resulting from legislated increases in the Pennsylvania bank shares tax rate, and certain sales tax liabilities.

Income Taxes

Income tax expense for the second quarter of 2017 was \$9.1 million, a \$2.1 million, or 18.7%, decrease from \$11.2 million for the second quarter of 2016.

The Corporation's effective tax rate was 16.6% in the second quarter of 2017, as compared to 21.9% in the second quarter of 2016. The effective tax rate is generally lower than the federal statutory rate of 35% due to tax-exempt interest income earned on loans, investments in tax-free municipal securities, credits earned from community development investments in partnerships that generate tax credits under various federal programs and excess tax benefits realized on stock-based compensation. In 2017, amortization of certain new tax credit investments was

included in non-interest expense, rather than as a component of income tax expense. If the amortization had been included as a component of income tax expense, the effective tax rate for the second quarter would have been 21.2%. In addition, in the second quarter of 2017, the Corporation realized \$1.6 million of excess tax benefits mainly related to vesting employee stock awards.

Six Months Ended June 30, 2017 compared to the Six Months Ended June 30, 2016

Net Interest Income

FTE net interest income increased \$22.7 million, to \$290.6 million, in the first six months of 2017, from \$267.9 million in the same period of 2016. The increase was due to a \$1.1 billion, or 6.7%, increase in interest-earning assets and a 6 basis points, or 1.9%, increase in net interest margin, to 3.28%, for the first six months of 2017 compared to 3.22% for the same period of 2016. The following table provides a comparative average balance sheet and net interest income analysis for those periods. Interest income and yields are presented on an FTE basis, using a 35% federal tax rate and statutory interest expense disallowances. The discussion following this table is based on these FTE amounts.

(3) Balances include amortized historical cost for available for sale securities; the related unrealized holding gains (losses) are included in other assets.

The following table summarizes the changes in FTE interest income and interest expense resulting from changes in average balances (volume) and changes in rates for the six months ended June 30, 2017 in comparison to the same period of 2016:

	2017 vs. 2016		
	Increase (Decrease) due to change in		
	Volume	Rate	Net
	(in thousands)		
Interest income on:			
Loans, net of unearned income	\$21,020	\$2,067	\$23,087
Taxable investment securities	54	171	225
Tax-exempt investment securities	2,559	(490)	2,069
Equity securities	(89)	10	(79)
Loans held for sale	41	28	69
Other interest-earning assets	(203)	85	(118)
Total interest income	\$23,382	\$1,871	\$25,253
Interest expense on:			
Demand deposits	\$223	\$1,775	\$1,998
Savings deposits	287	944	1,231
Time deposits	(758)	600	(158)
Short-term borrowings	398	946	1,344
FHLB advances and other long-term debt	1,245	(3,084)	(1,839)
Total interest expense	\$1,395	\$1,181	\$2,576

Note: Changes which are partially attributable to both volume and rate are allocated to the volume and rate components presented above based on the percentage of direct changes that are attributable to each component.

As summarized above, the increase in average interest-earning assets, primarily loans, in comparison to the first six months of 2016 resulted in a \$23.4 million increase in FTE interest income. The 6 basis points increase in the yield on average interest-earning assets resulted in a \$1.9 million increase in FTE interest income. The yield on the loan portfolio increased 3 basis points, or 0.8%, from the same period of 2016, the result of federal funds rate increases that occurred in December 2016 and March 2017, which impacted variable rate loans and adjustable rate loans that repriced in the first half of 2017.

Average loans and average FTE yields, by type, are summarized in the following table:

	Six months ended June 30				Increase (Decrease)	
	2017		2016		in Balance	
	Balance	Yield	Balance	Yield	\$	%
	(dollars in thousands)					
Real estate – commercial mortgage	\$6,101,836	3.99%	\$5,522,550	4.02%	\$579,286	10.5%
Commercial – industrial, financial and agricultural	4,213,094	3.95	4,087,897	3.80	125,197	3.1
Real estate – residential mortgage	1,672,994	3.77	1,390,631	3.78	282,363	20.3
Real estate – home equity	1,600,394	4.26	1,665,086	4.10	(64,692)	(3.9)
Real estate – construction	869,299	3.98	806,448	3.81	62,851	7.8
Consumer	292,704	5.14	267,794	5.44	24,910	9.3
Leasing, other and overdrafts	242,808	5.06	169,316	6.81	73,492	43.4
Total	\$14,993,129	4.02%	\$13,909,722	3.99%	\$1,083,407	7.8 %

Average loans increased \$1.1 billion, or 7.8%, compared to the first six months of 2016. The increase was driven largely by growth in the commercial mortgage and residential mortgage portfolios, as well as the commercial loan,

construction and leasing portfolios. The \$579.3 million, or 10.5%, increase in commercial mortgages occurred in both owner-occupied and investment property types and was realized in all geographic markets, but predominantly in the Pennsylvania, Maryland and Delaware markets. The \$282.4 million, or 20.3%, increase in residential mortgages was also experienced across all geographic markets, with the most significant increases occurring in the Maryland and Virginia markets. This growth has been primarily the result of a strategic decision to

retain certain mortgage loans. The \$125.2 million, or 3.1%, increase in commercial loans was spread across a broad range of industries and concentrated in the Pennsylvania market.

Average total interest-bearing liabilities for the first six months of 2017 increased \$696.6 million, or 6.0%, compared to the same period of 2016. Interest expense increased \$2.6 million, or 6.3%, to \$43.2 million in the first half of 2017.

Average deposits and average interest rates, by type, are summarized in the following table:

	Six months ended June 30				Increase (Decrease) in Balance	
	2017		2016		\$	%
	Balance	Rate	Balance	Rate		
	(dollars in thousands)					
Noninterest-bearing demand	\$4,344,859	— %	\$4,022,764	— %	\$322,095	8.0 %
Interest-bearing demand	3,670,603	0.28	3,446,193	0.18	224,410	6.5
Savings	4,255,190	0.23	3,961,405	0.19	293,785	7.4
Total demand and savings	12,270,652	0.16	11,430,362	0.12	840,290	7.4
Time deposits	2,717,624	1.09	2,856,044	1.05	(138,420)	(4.8)
Total deposits	\$14,988,276	0.33 %	\$14,286,406	0.30 %	\$701,870	4.9 %

The \$840.3 million, or 7.4%, increase in total demand and savings accounts was primarily due to a \$478.6 million, or 8.9%, increase in personal account balances, a \$291.3 million, or 7.1%, increase in business account balances and a \$55.7 million, or 3.1%, increase in municipal account balances. The average cost of total deposits increased 3 basis points to 0.33% in the first half of 2017, compared to 0.30% in the same period in 2016.

Average borrowings and interest rates, by type, are summarized in the following table:

	Six months ended June 30				Increase (Decrease) in Balance	
	2017		2016		\$	%
	Balance	Rate	Balance	Rate		
	(dollars in thousands)					
Short-term borrowings:						
Customer repurchase agreements	\$199,945	0.10 %	\$176,001	0.11 %	\$23,944	13.6 %
Customer short-term promissory notes	78,348	0.05	75,774	0.04	2,574	3.4
Total short-term customer funding	278,293	0.08	251,775	0.09	26,518	10.5
Federal funds purchased	275,116	0.87	160,991	0.42	114,125	70.9
Short-term FHLB advances ⁽¹⁾	119,171	0.87	11,769	0.46	107,402	N/M
Total short-term borrowings	672,580	0.54	424,535	0.23	248,045	58.4
Long-term debt:						
FHLB advances	629,141	2.31	600,026	3.18	29,115	4.9
Other long-term debt	401,526	4.73	361,844	5.00	39,682	11.0
Total long-term debt	1,030,667	3.25	961,870	3.87	68,797	7.2
Total borrowings	\$1,703,247	2.18 %	\$1,386,405	2.75 %	\$316,842	22.9 %

N/M - Not meaningful

(1) Represents FHLB advances with an original maturity term of less than one year.

Average total short-term borrowings increased \$248.0 million, or 58.4%, as a result of loan growth out-pacing the increase in deposits. The increase in average short-term borrowings contributed \$398,000 of additional interest expense while the rate on average short-term borrowings increased 31 basis points, contributing an additional \$946,000 to interest expense.

Average long-term debt increased \$68.8 million, or 7.2%, primarily as a result of the \$125 million of senior notes issued in March 2017, partially offset by the repayment of \$100.0 million of 10-year subordinated notes, which matured on May 1, 2017. The 62 basis point, or 16.0%, decrease in the average rate on long-term debt was primarily a result of \$200 million of FHLB advances that were refinanced in December of 2016, which reduced the weighted average rate on these advances from 4.03% to 2.40%.

Provision for Credit Losses

The provision for credit losses was \$11.5 million for the first six months of 2017, an increase of \$7.5 million from the same period of 2016, driven mainly by loan growth and the impact of normal changes in the risk characteristics of the loan portfolio.

The provision for credit losses is recognized as an expense in the consolidated statements of income and is the amount necessary to adjust the allowance for credit losses to its appropriate balance, as determined through the Corporation's allowance methodology. The Corporation determines the appropriate level of the allowance for credit losses based on many quantitative and qualitative factors, including, but not limited to: the size and composition of the loan portfolio, changes in risk ratings, changes in collateral values, delinquency levels, historical losses and economic conditions. See the "Financial Condition" section of Management's Discussion under the heading "Provision and Allowance for Credit Losses" for details related to the Corporation's allowance and provision for credit losses.

Non-Interest Income

The following table presents the components of non-interest income:

	Six months ended		Increase	
	June 30		(Decrease)	
	2017	2016	\$	%
	(dollars in thousands)			
Other service charges and fees:				
Merchant fees	\$8,138	\$7,935	\$203	2.6 %
Commercial loan interest rate swap fees	6,826	4,193	2,633	62.8
Debit card income	5,549	5,230	319	6.1
Letter of credit fees	2,309	2,308	1	—
Other	3,957	4,067	(110)	(2.7)
Total other service charges and fees	26,779	23,733	3,046	12.8
Service charges on deposit accounts:				
Overdraft fees	11,117	10,656	461	4.3
Cash management fees	7,151	7,046	105	1.5
Other	7,046	7,752	(706)	(9.1)
Total service charges on deposit accounts	25,314	25,454	(140)	(0.6)
Investment management and trust services	23,940	22,235	1,705	7.7
Mortgage banking income:				
Gains on sales of mortgage loans	6,562	7,110	(548)	(7.7)
Mortgage servicing income	4,175	817	3,358	N/M
Total mortgage banking income	10,737	7,927	2,810	35.4
Credit card income	5,314	5,020	294	5.9
Other income	4,418	3,882	536	13.8
Total, excluding investment securities gains, net	96,502	88,251	8,251	9.3
Investment securities gains, net	2,542	1,023	1,519	148.5
Total	\$99,044	\$89,274	\$9,770	10.9 %
N/M - Not meaningful				

Excluding investment securities gains, non-interest income increased \$8.3 million, or 9.3%. Other service charges and fees increased \$3.0 million, or 12.8%, mainly due to a \$2.6 million increase in commercial loan interest rate swap fees, driven by loan growth and a favorable interest rate environment.

The \$460,000, or 4.3%, increase in overdraft fee income during the six months ended June 30, 2017 in comparison to the same period during 2016 consisted of a \$315,000 increase in fees assessed on personal accounts and a \$145,000 increase in fees assessed on commercial accounts, due to higher volumes. Other service charges on deposit accounts decreased \$705,000, or 9.1%, resulting from changes in customer behavior and the loss of a significant processing customer.

Investment management and trust services income increased \$1.7 million, or 7.7%, with growth in both trust and brokerage income, due to overall market performance and an increase in assets under management.

Gains on sales of mortgage loans decreased \$548,000, or 7.7%, compared to the same period in 2016, as volumes decreased while pricing spreads remained flat. Mortgage servicing income increased \$3.4 million compared to the same period in 2016. 2017 included a \$1.3 million reduction to the MSR's valuation allowance, which was originally established in June 2016 through an impairment charge of \$1.7 million. Excluding the impact of the MSR valuation allowance adjustments, mortgage servicing income increased \$346,000, or 13.6%.

Gains on sales of investment securities increased \$1.5 million compared to the first six months of 2016. See Note 4, "Investment Securities," in the Notes to Consolidated Financial Statements for additional details.

Non-Interest Expense

The following table presents the components of non-interest expense:

	Six months ended		Increase		
	June 30		(Decrease)		
	2017	2016	\$	%	
	(dollars in thousands)				
Salaries and employee benefits	\$143,732	\$139,401	\$4,331	3.1	%
Net occupancy expense	24,979	24,031	948	3.9	
Other outside services	13,254	11,564	1,690	14.6	
Data processing	8,905	10,876	(1,971)	(18.1)	
Software	9,128	7,874	1,254	15.9	
Equipment expense	6,393	6,243	150	2.4	
Professional fees	5,668	5,686	(18)	(0.3)

Marketing	4,220	3,540	680	19.2	
Amortization of tax credit investments	4,149	—	4,149	N/M	
Other	30,118	26,926	3,192	11.9	
Total	\$254,970	\$242,050	\$12,920	5.3	%

N/M - Not meaningful

The \$4.3 million, or 3.1%, increase in salaries and employee benefits during the six months ended June 30, 2017 in comparison to the same period during 2016 primarily resulted from a \$4.7 million, or 4.0%, increase in salaries, resulting from normal merit increases and an increase in staffing levels. Average full-time equivalent employees increased 2.0% to 3,548 as compared to 3,480 in 2016.

Other outside services increased \$1.7 million, or 14.6%, largely due to pre-bank consolidation efforts and the timing of expenses for various engagements.

Software expense increased \$1.3 million, or 15.9%, largely due to investments in technology solutions. Data processing expense decreased \$2.0 million, or 18.1%, due to benefits from renegotiated contracts.

FDIC insurance expense decreased \$1.5 million, or 25.1%, as the assessment rates for banks decreased when the DIF exceeded 1.15% of the deposit base in 2016.

Marketing expense increased \$680,000, or 19.2%, compared to the first six months of 2016, due to an increase in the number of marketing promotions. In 2017, many of these promotions were related to deposit generation.

In 2017, amortization expense on certain new tax credit investments is being recognized in non-interest expense, rather than income taxes.

Income Taxes

Income tax expense for the first six months of 2017 was \$22.9 million, a \$277,000, or 1.2%, decrease from \$23.1 million in 2016.

The Corporation's effective tax rate was 20.5% in the first six months of 2017, as compared to 22.9% in the first six months of

2016. The effective tax rate is generally lower than the federal statutory rate of 35% due to tax-exempt interest income earned on loans, investments in tax-free municipal securities, credits earned from investments in partnerships that generate tax credits under various federal programs and excess tax benefits realized on stock-based compensation. In 2017, amortization of certain new tax credit investments was recorded in non-interest expense, rather than as a component of income tax expense. If the amortization had been included as a component of income tax expense, the effective tax rate for the first six months of 2017 would have been 23.3%. In addition, in 2017, the Corporation realized \$2.1 million of excess tax benefits mainly related to vesting employee stock awards.

FINANCIAL CONDITION

The table below presents condensed consolidated ending balance sheets.

	June 30, 2017	December 31, 2016	Increase (Decrease)	
			\$	%
(dollars in thousands)				
Assets				
Cash and due from banks	\$94,938	\$ 118,763	\$(23,825)	(20.1)%
Other interest-earning assets	392,842	291,252	101,590	34.9
Loans held for sale	62,354	28,697	33,657	117.3
Investment securities	2,488,699	2,559,227	(70,528)	(2.8)
Loans, net of allowance	15,174,275	14,530,593	643,682	4.4
Premises and equipment	217,558	217,806	(248)	(0.1)
Goodwill and intangible assets	531,556	531,556	—	—
Other assets	685,213	666,353	18,860	2.8
Total Assets	\$19,647,435	\$18,944,247	\$703,188	3.7 %
Liabilities and Shareholders' Equity				
Deposits	\$15,357,361	\$15,012,864	\$344,497	2.3 %
Short-term borrowings	694,859	541,317	153,542	28.4
Long-term debt	1,037,961	929,403	108,558	11.7
Other liabilities	365,484	339,548	25,936	7.6
Total Liabilities	17,455,665	16,823,132	632,533	3.8
Total Shareholders' Equity	2,191,770	2,121,115	70,655	3.3
Total Liabilities and Shareholders' Equity	\$19,647,435	\$18,944,247	\$703,188	3.7 %

Other Interest-earning Assets

Other interest-earning assets increased \$101.6 million, or 34.9%, during the first six months of 2017 as a result of higher balances on deposit with the Federal Reserve Bank, primarily due to a temporary increase in item clearing balances.

Loans Held for Sale

The \$33.7 million, or 117.3%, increase in loans held for sale during the first six months of 2017, was mostly due to the reclassification of the student loan portfolio, totaling \$28.9 million, from consumer loans. In June 2017, the Corporation determined to sell this portfolio and began discussions with a potential purchaser of this portfolio. The sale is expected to be completed in the third quarter of 2017.

Investment Securities

The following table presents the carrying amount of investment securities:

	June 30, 2017	December 31, 2016	Increase (Decrease)	
			\$	%
	(dollars in thousands)			
U.S. Government sponsored agency securities	\$6,054	\$134	\$5,920	N/M
State and municipal securities	401,636	391,641	9,995	2.6
Corporate debt securities	88,992	109,409	(20,417)	(18.7)
Collateralized mortgage obligations	538,507	593,860	(55,353)	(9.3)
Residential mortgage-backed securities	1,213,065	1,317,838	(104,773)	(8.0)
Commercial mortgage-backed securities	121,067	24,563	96,504	N/M
Auction rate securities	97,923	97,256	667	0.7
Total debt securities	2,467,244	2,534,701	(67,457)	(2.7)
Equity securities	21,455	24,526	(3,071)	(12.5)
Total	\$2,488,699	\$2,559,227	\$(70,528)	(2.8)%

N/M - Not meaningful

Corporate debt securities decreased \$20.4 million, or 18.7%, due to calls and maturities of certain holdings. Collateralized mortgage obligations decreased \$55.4 million, or 9.3%, as the Corporation reduced its holdings in lower-coupon investments due to volatility in market pricing. Residential mortgage-backed securities decreased \$104.8 million, or 8.0%. Cash flows from both collateralized mortgage obligations and residential mortgage-backed securities were used to partially fund loan growth or were reinvested in commercial mortgage-backed securities to diversify the portfolio.

Loans, net of Unearned Income

The following table presents ending balances of loans outstanding, net of unearned income:

	June 30, 2017	December 31, 2016	Increase (Decrease)	
			\$	%
	(dollars in thousands)			
Real estate – commercial mortgage	\$6,262,008	\$6,018,582	\$243,426	4.0 %
Commercial – industrial, financial and agricultural	4,245,849	4,087,486	158,363	3.9
Real estate – residential mortgage	1,784,712	1,601,994	182,718	11.4
Real estate – home equity	1,579,739	1,625,115	(45,376)	(2.8)
Real estate – construction	938,900	843,649	95,251	11.3
Consumer	283,156	291,470	(8,314)	(2.9)
Leasing, other and overdrafts	252,253	230,976	21,277	9.2
Loans, net of unearned income	\$15,346,617	\$14,699,272	\$647,345	4.4 %

Loans, net of unearned income, increased \$647.3 million, or 4.4%, in comparison to December 31, 2016. In general, this growth resulted from improved business activity and customer sentiment, as well as the addition of commercial relationship managers in 2016. Increases were realized across all of the Corporation's geographic markets. Commercial mortgage loans increased \$243.4 million, or 4.0%, in comparison to December 31, 2016, with the growth occurring primarily in the Pennsylvania (\$133.0 million, or 4.2%), Maryland (\$63.9 million, or 10.3%) and New

Jersey (\$38.7 million, or 2.7%) markets. Residential mortgage loans increased \$182.7 million, or 11.4%, compared to December 31, 2016, with the growth occurring primarily in the Maryland (\$72.8 million, or 24.6%), Virginia (\$59.0 million, or 19.1%) and Pennsylvania (\$30.0 million, or 4.4%) markets.

Commercial loans increased \$158.4 million, or 3.9%, in comparison to December 31, 2016, with the growth occurring primarily in the Pennsylvania (\$164.8 million, or 5.5%) and New Jersey (\$10.4 million, or 2.0%) markets.

Construction loans increased \$95.3 million, or 11.3%, in comparison to December 31, 2016, with the growth occurring primarily in the Pennsylvania (\$46.1

million, or 9.4%), Maryland (\$27.6 million, or 29.7%) and Delaware (\$14.2 million, or 26.4%) markets. Leasing, other and overdrafts increased compared to December 31, 2016 as a result of a \$21.6 million increase in the leasing portfolio.

Construction loans include loans to commercial borrowers secured by commercial real estate, loans to commercial borrowers secured by residential real estate, and other construction loans, which represent loans to individuals secured by residential real estate. The following table presents outstanding construction loans and their delinquency rates by these class segments:

	June 30, 2017			December 31, 2016		
	Balance	Delinquency Rate (1)	% of Total	Balance	Delinquency Rate (1)	% of Total
	(dollars in thousands)					
Commercial	\$728,649	0.1 %	77.6 %	\$644,490	0.2 %	76.4 %
Commercial - residential	157,291	9.7	16.8	142,189	6.0	16.9
Other	52,960	2.1	5.6	56,970	1.9	6.7
Total Real estate - construction	\$938,900	1.8 %	100.0 %	\$843,649	1.3 %	100.0 %

(1) Represents all accruing loans 30 days or more past due and non-accrual loans as a percentage of total loans in each class segment.

The Corporation does not have a significant concentration of credit risk with any single borrower, industry or geographical location. Approximately \$7.2 billion, or 46.9%, of the loan portfolio was in commercial mortgage and construction loans as of June 30, 2017. The Corporation's maximum total lending commitment to an individual borrowing relationship was \$50.0 million as of June 30, 2017. In addition to its policy of limiting the maximum total lending commitment to any individual borrowing relationship to \$50.0 million, the Corporation has established lower total lending limits for certain types of lending commitments, and lower total lending limits based on the Corporation's internal risk rating of an individual borrowing relationship at the time the lending commitment is approved. As of June 30, 2017, the Corporation had 137 individual borrowing relationships with total borrowing commitments between \$20.0 million and \$50.0 million.

The following table summarizes the industry concentrations within the commercial loan portfolio:

	June 30, 2017		December 31, 2016	
	%	%	%	%
Services	22.2 %	21.8 %		
Retail	16.0	15.1		
Health care	10.2	10.5		
Manufacturing	9.0	9.2		
Construction ⁽¹⁾	8.4	9.0		
Wholesale	7.1	7.0		
Real estate ⁽²⁾	6.6	6.7		
Agriculture	4.7	5.0		
Arts and entertainment	2.5	2.6		
Transportation	2.4	2.3		
Financial services	2.2	2.1		
Other	8.7	8.7		
Total	100.0 %	100.0 %		

(1) Includes commercial loans to borrowers engaged in the construction industry.

(2) Includes commercial loans to borrowers engaged in the business of: renting, leasing or managing real estate for others; selling and/or buying real estate for others; and appraising real estate.

Commercial loans and commercial mortgage loans also include shared national credits, which are participations in loans or loan commitments of at least \$20.0 million that are shared by three or more banks. Below is a summary of the Corporation's outstanding purchased shared national credits:

	June 30, 2017	December 31, 2016
	(in thousands)	
Commercial - industrial, financial and agricultural	\$ 166,500	\$ 155,353
Real estate - commercial mortgage	96,076	81,573
Total	\$ 262,576	\$ 236,926

Total shared national credits increased \$25.7 million, or 10.8%, in comparison to December 31, 2016 as a result of both new relationships and growth in existing relationships. The Corporation's shared national credits are to borrowers located in its geographical markets, and are subject to normal lending activities consistent with the Corporation's underwriting policies. None of the shared national credits were past due as of June 30, 2017 or December 31, 2016.

Provision and Allowance for Credit Losses

The Corporation has historically maintained an unallocated allowance for loan losses for factors and conditions that exist at the balance sheet date, but are not specifically identifiable, and to recognize the inherent imprecision in estimating and measuring loss exposure. During the second quarter of 2017, enhancements were made to allow for the impact of these factors and conditions to be quantified in the allowance allocation process. Accordingly, an unallocated allowance for loan losses is no longer necessary.

The following table presents the activity in the allowance for credit losses:

	Three months ended June 30		Six months ended June 30		
	2017	2016	2017	2016	
	(dollars in thousands)				
Average balance of loans, net of unearned income	\$ 15,127,205	\$ 13,966,024	\$ 14,993,129	\$ 13,909,722	
Balance of allowance for credit losses at beginning of period	\$ 172,647	\$ 166,065	\$ 171,325	\$ 171,412	
Loans charged off:

Leasing, other and overdrafts	249	108	386	189	
Total recoveries	4,366	7,278	10,295	11,556	
Net loans charged off	4,349	3,468	7,827	10,345	
Provision for credit losses	6,700	2,511	11,500	4,041	
Balance of allowance for credit losses at end of period	\$ 174,998	\$ 165,108	\$ 174,998	\$ 165,108	
Net charge-offs to average loans (annualized)	0.11	% 0.10	% 0.10	% 0.15	%

The following table presents the components of the allowance for credit losses:

	June 30, 2017	December 31, 2016
	(dollars in thousands)	
Allowance for loan losses	\$ 172,342	\$ 168,679
Reserve for unfunded lending commitments	2,656	2,646
Allowance for credit losses	\$ 174,998	\$ 171,325

Allowance for credit losses to loans outstanding 1.14 % 1.17 %

The provision for credit losses for the three months ended June 30, 2017 was \$6.7 million, an increase of \$4.2 million in comparison to the same period in 2016. For the six months ended June 30, 2017, the provision for credit losses was \$11.5 million, an increase of \$7.5 million in comparison to the first six months of 2016. The increases in the provision for credit losses largely reflected loan growth.

Net charge-offs increased \$881,000, to \$4.3 million for the second quarter of 2017, compared to \$3.5 million for the second quarter of 2016, as a result of a \$2.9 million decrease in recoveries which was partially offset by a \$2.0 million decrease in gross charge-offs comparing the same two periods. Of the \$4.3 million of net charge-offs recorded in the second quarter of 2017, the majority

were for loans originated in Pennsylvania (\$4.9 million) and Maryland (\$73,000), partially offset by net recoveries in New Jersey, Virginia and Delaware.

For the first six months of 2017, net charge-offs decreased \$2.5 million, to \$7.8 million compared to \$10.3 million for the same period of 2016 as a result of a \$3.8 million decrease in gross charge-offs and an \$1.3 million decrease in recoveries comparing the same two periods. Of the \$7.8 million of net charge-offs recorded in the first six months of 2017, the majority were for loans originated in Pennsylvania (\$7.5 million) and New Jersey (\$566,000), partially offset by net recoveries in Virginia, Maryland and Delaware.

The following table summarizes non-performing assets as of the indicated dates:

	June 30, 2017	June 30, 2016	December 31, 2016	
	(dollars in thousands)			
Non-accrual loans	\$122,600	\$111,742	\$120,133	
Loans 90 days or more past due and still accruing	13,143	15,992	11,505	
Total non-performing loans	135,743	127,734	131,638	
Other real estate owned (OREO)	11,432	11,918	12,815	
Total non-performing assets	\$147,175	\$139,652	\$144,453	
Non-accrual loans to total loans	0.80	% 0.79	% 0.82	%
Non-performing assets to total assets	0.75	% 0.76	% 0.76	%
Allowance for credit losses to non-performing loans	128.92	% 129.26	% 130.15	%

The following table presents loans whose terms have been modified under troubled debt restructurings ("TDRs"), by type, as of the indicated dates:

	June 30, 2017	June 30, 2016	December 31, 2016
	(in thousands)		
Real-estate - residential mortgage	\$26,368	\$27,324	\$27,617
Real-estate - commercial mortgage	13,772	17,808	15,957
Real estate - home equity	12,031	7,173	8,594
Commercial	8,086	5,756	6,627
Construction	1,475	3,086	726
Consumer	33	18	39
Total accruing TDRs	61,765	61,165	59,560
Non-accrual TDRs ⁽¹⁾	29,373	24,887	27,850
Total TDRs	\$91,138	\$86,052	\$87,410

(1) Included with non-accrual loans in the preceding table.

TDRs modified during the first six months of 2017 and still outstanding as of June 30, 2017 totaled \$13.2 million. During the first six months of 2017, \$6.3 million of TDRs that were modified in the previous 12 months had a payment default, which the Corporation defines as a single missed scheduled payment, subsequent to modification.

The following table presents the changes in non-accrual loans for the three and six months ended June 30, 2017:

	Commercial - Industrial, - Financial and Agricultural (in thousands)	Real Estate Commercial Mortgage	Real Estate Construction	Real Estate - Residential Mortgage	Real Estate - Home Equity	Consumer Leasing	Other	Total
Three months ended June 30, 2017								
Balance of non-accrual loans at March 31, 2017	\$40,818	\$35,803	\$13,485	\$17,807	\$9,351	\$—	\$—	\$117,264

Transfers to OREO	(3)	(1,083)	(149)	(993)	(964)	—	—	(3,192)
Balance of non-accrual loans at June 30, 2017	\$48,087	\$32,267	\$15,586	\$16,940	\$9,720	\$—	\$—	\$122,600

Non-accrual loans increased \$10.9 million, or 9.7%, and \$2.5 million, or 2.1%, in comparison to June 30, 2016 and December 31, 2016, respectively.

The following table summarizes non-performing loans, by type, as of the indicated dates:

	June 30, 2017	June 30, 2016	December 31, 2016
	(in thousands)		
Commercial – industrial, financial and agricultural	\$51,320	\$38,902	\$43,460
Real estate – commercial mortgage	32,576	35,704	39,319
Real estate – residential mortgage	21,846	25,030	23,655
Real estate – construction	16,564	11,879	9,842
Real estate – home equity	11,887	14,173	13,154
Consumer	1,269	1,888	1,891
Leasing	281	158	317
Total non-performing loans	\$135,743	\$127,734	\$131,638

Non-performing loans increased \$8.0 million, or 6.3%, and \$4.1 million, or 3.1%, in comparison to June 30, 2016 and December 31, 2016, respectively. Non-performing loans to total loans was 0.88% in comparison to 0.90% at both June 30, 2016 and December 31, 2016.

The following table summarizes the Corporation's OREO, by property type, as of the indicated dates:

	June 30, 2017	June 30, 2016	December 31, 2016
	(in thousands)		
Residential properties	\$5,035	\$6,098	\$ 7,655
Commercial properties	3,670	3,686	2,651
Undeveloped land	2,727	2,134	2,509
Total OREO	\$11,432	\$11,918	\$ 12,815

The ability to identify potential problem loans in a timely manner is important to maintaining an adequate allowance for credit losses. For commercial loans, commercial mortgages and construction loans to commercial borrowers, an internal risk rating process is used to monitor credit quality. The evaluation of credit risk for residential mortgages, home equity loans, construction loans to individuals, consumer loans and lease receivables is based on payment history, through the monitoring of delinquency levels and trends. For a description of the Corporation's risk ratings, see Note 5, "Loans and Allowance for Credit Losses," in the Notes to Consolidated Financial Statements.

Total internally risk rated loans were \$11.4 billion and \$10.9 billion as of June 30, 2017 and December 31, 2016, respectively. The following table presents internal risk ratings for commercial loans, commercial mortgages and construction loans to commercial borrowers with internal risk ratings of Special Mention (considered criticized loans) or Substandard or lower (considered classified loans), by class segment:

	Special Mention		Increase (Decrease)		Substandard or lower		Increase (Decrease)		Total Criticized and Classified Loans	
	June 30, 2017	December 31, 2016	\$	%	June 30, 2017	December 31, 2016	\$	%	June 30, 2017	December 2016
	(dollars in thousands)

Total dollars (in thousands)	\$49,532	\$135,743	\$185,275	\$55,744	\$127,734	\$183,478	\$55,149	\$131,638	\$186,787	

(1) Includes non-accrual loans.

Management believes that the allowance for credit losses of \$175.0 million as of June 30, 2017 is sufficient to cover incurred losses in the loan and lease portfolio and unfunded lending commitments as of that date and is appropriate based on U.S. GAAP.

Deposits and Borrowings

The following table presents ending deposits, by type, as of the dates indicated:

	June 30, 2017	December 31, 2016	Increase (Decrease)	
			\$	%
(dollars in thousands)				
Noninterest-bearing demand	\$4,574,619	\$4,376,137	\$198,482	4.5 %
Interest-bearing demand	3,650,204	3,703,712	(53,508)	(1.4)
Savings and money market accounts	4,386,128	4,179,773	206,355	4.9
Total demand and savings	12,610,951	12,259,622	351,329	2.9
Time deposits	2,746,410	2,753,242	(6,832)	(0.2)
Total deposits	\$15,357,361	\$15,012,864	\$344,497	2.3 %

Noninterest-bearing demand deposits increased \$198.5 million, or 4.5%, primarily as a result of increases in business account balances of \$187.6 million, or 5.7%, and personal account balances of \$36.1 million, or 4.1%, partially offset by a decrease in municipal account balances of \$30.0 million, or 19.8%.

Interest-bearing demand accounts decreased \$53.5 million, due to a \$79.5 million, or 6.1%, seasonal decrease in municipal account balances, which was partially offset by a \$24.2 million, or 1.2%, increase in personal account balances.

The \$206.4 million, or 4.9%, increase in savings and money market account balances was primarily due to a \$265.9 million, or 9.5%, increase in personal account balances, partially offset by a \$64.9 million, or 11.3%, seasonal decrease in municipal account balances.

The following table presents ending short-term borrowings and long-term debt by type, as of the dates indicated:

	June 30, 2017	December 31, 2016	Increase (Decrease)	
			\$	%
(dollars in thousands)				
Short-term borrowings:				
Customer repurchase agreements	\$ 174,224	\$ 195,734	\$(21,510)	(11.0)%
Customer short-term promissory notes	74,366	67,013	7,353	11.0
Total short-term customer funding	248,590	262,747	(14,157)	(5.4)
Federal funds purchased	206,269	278,570	(72,301)	(26.0)
Short-term FHLB advances ⁽¹⁾	240,000	—	240,000	N/M
Total short-term borrowings	694,859	541,317	153,542	28.4
Long-term debt:				
FHLB advances	652,177	567,240	84,937	15.0
Other long-term debt	385,784	362,163	23,621	6.5
Total long-term debt	1,037,961	929,403	108,558	11.7
Total borrowings	\$ 1,732,820	\$ 1,470,720	\$ 262,100	17.8 %

N/M - Not meaningful

(1) Represents FHLB advances with an original maturity term of less than one year.

Total borrowings increased \$262.1 million, or 17.8%, as a result of a \$153.5 million, or 28.4%, increase in short-term borrowings and a \$108.6 million, or 11.7%, increase in long-term debt. These increases were primarily the result of additional short-term and long-term FHLB advances used to help fund loan growth as deposit growth lagged. The increase in other long-term debt was primarily the result of the issuance of \$125.0 million of senior notes in March 2017, offset by the repayment of the \$100.0 million of 10-year subordinated notes, which matured on May 1, 2017, as discussed in the "Results of Operations."

Shareholders' Equity

Total shareholders' equity increased \$70.7 million, or 3.3%, during the first six months of 2017. The increase was due primarily to \$88.8 million of net income, \$4.9 million of stock issued and a \$13.6 million increase in other comprehensive income, partially offset by \$38.4 million of common stock dividends.

In November 2016, the Corporation's board of directors approved an extension, through December 31, 2017, to a share repurchase program pursuant to which the Corporation is authorized to repurchase up to \$50.0 million of its outstanding shares of common stock, or approximately 2.3% of its outstanding shares. Repurchased shares may be added to treasury stock, at cost. As permitted by securities laws and other legal requirements and subject to market conditions and other factors, purchases may be made from time to time in open market or privately negotiated transactions, including without limitation, through accelerated share repurchase transactions. The share repurchase program may be discontinued at any time. As of June 30, 2017, 1.5 million shares were repurchased under this program for a total cost of \$18.5 million, or \$12.48 per share. Up to an additional \$31.5 million of the Corporation's common stock may be repurchased under this program through December 31, 2017.

Regulatory Capital

The Corporation and its subsidiary banks are subject to regulatory capital requirements administered by various banking regulators. Failure to meet minimum capital requirements could result in certain actions by regulators that could have a material effect on the Corporation's financial statements. In July 2013, the Federal Reserve Board

approved final rules (the "U.S. Basel III Capital Rules") establishing a new comprehensive capital framework for U.S. banking organizations and implementing the Basel Committee on Banking Supervision's December 2010 framework for strengthening international capital standards. The U.S. Basel III Capital Rules substantially revise the risk-based capital requirements applicable to bank holding companies and depository institutions.

The minimum regulatory capital requirements established by the U.S. Basel III Capital Rules became effective for the Corporation on January 1, 2015, and will be fully phased in on January 1, 2019.

The U.S. Basel III Capital Rules require the Corporation and its bank subsidiaries to:

• Meet a minimum Common Equity Tier 1 capital ratio of 4.50% of risk-weighted assets and a Tier 1 capital ratio of 6.00% of risk-weighted assets;

• Continue to require a minimum Total capital ratio of 8.00% of risk-weighted assets and a minimum Tier 1 leverage capital ratio of 4.00% of average assets; and

• Comply with a revised definition of capital to improve the ability of regulatory capital instruments to absorb losses.

• Certain non-qualifying capital instruments, including cumulative preferred stock and trust preferred securities ("TruPS"), have been phased out as a component of Tier 1 capital for institutions of the Corporation's size.

When fully phased in on January 1, 2019, the Corporation and its bank subsidiaries will also be required to maintain a "capital conservation buffer" of 2.50% above the minimum risk-based capital requirements, which must be maintained to avoid restrictions on capital distributions and certain discretionary bonus payments.

The U.S. Basel III Capital Rules use a standardized approach for risk weightings that expands the risk-weightings for assets and off-balance sheet exposures from the previous 0%, 20%, 50% and 100% categories to a much larger and more risk-sensitive number of categories, depending on the nature of the assets and off-balance sheet exposures and resulting in higher risk weights for a variety of asset categories.

As of June 30, 2017, the Corporation and each of its bank subsidiaries met the minimum requirements of the U.S. Basel III Capital Rules, and each of the Corporation's bank subsidiaries' capital ratios exceeded the amounts required to be considered "well capitalized" as defined in the regulations. As of June 30, 2017, the Corporation's capital levels also met the fully-phased in minimum capital requirements, including the capital conservation buffers, as prescribed in the U.S. Basel III Capital Rules.

The following table summarizes the Corporation's capital ratios in comparison to regulatory requirements:

	June 30, 2017	December 31, 2016		Regulatory Minimum for Capital Adequacy		Fully Phased-in, with Capital Conservation Buffers	
Total Capital (to Risk-Weighted Assets)	12.9 %	13.2 %	%	8.0 %	%	10.5 %	%
Tier I Capital (to Risk-Weighted Assets)	10.2 %	10.4 %	%	6.0 %	%	8.5 %	%
Common Equity Tier I (to Risk-Weighted Assets)	10.2 %	10.4 %	%	4.5 %	%	7.0 %	%
Tier I Capital (to Average Assets)	9.1 %	9.0 %	%	4.0 %	%	4.0 %	%

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Market risk is the exposure to economic loss that arises from changes in the values of certain financial instruments. The types of market risk exposures generally faced by financial institutions include interest rate risk, equity market price risk, debt security market price risk, foreign currency price risk and commodity price risk. Due to the nature of its operations, foreign currency price risk and commodity price risk are not significant to the Corporation.

Interest Rate Risk, Asset/Liability Management and Liquidity

Interest rate risk creates exposure in two primary areas. First, changes in rates have an impact on the Corporation's liquidity position and could affect its ability to meet obligations and continue to grow. Second, movements in interest rates can create fluctuations in the Corporation's net interest income and changes in the economic value of its equity.

The Corporation employs various management techniques to minimize its exposure to interest rate risk. An Asset/Liability Management Committee ("ALCO") is responsible for reviewing the interest rate sensitivity and liquidity positions of the Corporation, approving asset and liability management policies, and overseeing the formulation and implementation of strategies regarding balance sheet positions.

The Corporation uses two complementary methods to measure and manage interest rate risk. They are simulation of net interest income and estimates of economic value of equity. Using these measurements in tandem provides a reasonably comprehensive summary of the magnitude of the Corporation's interest rate risk, level of risk as time evolves, and exposure to changes in interest rates.

Simulation of net interest income is performed for the next 12-month period. A variety of interest rate scenarios are used to measure the effects of sudden and gradual movements upward and downward in the yield curve. These results are compared to the results obtained in a flat or unchanged interest rate scenario. Simulation of net interest income is used primarily to measure the Corporation's short-term earnings exposure to rate movements. The Corporation's policy limits the potential exposure of net interest income, in a non-parallel instantaneous shock, to 10% of the base case net interest income for a 100 basis point shock in interest rates, 15% for a 200 basis point shock and 20% for a 300 basis point shock. A "shock" is an immediate upward or downward movement of interest rates. The shocks do not take into account changes in customer behavior that could result in changes to mix and/or volumes in the balance sheet, nor do they take into account the potential effects of competition on the pricing of deposits and loans over the forward 12-month period.

Contractual maturities and repricing opportunities of loans are incorporated in the simulation model as are prepayment assumptions, maturity data and call options in the investment portfolio. Assumptions based on past experience are incorporated into the model for non-maturity deposit accounts. The assumptions used are inherently uncertain and, as a result, the model cannot precisely measure future net interest income or precisely predict the impact of fluctuations in market interest rates on net interest income. Actual results will differ from the model's simulated results due to timing, amount and frequency of interest rate changes as well as changes in market conditions and the application and timing of various management strategies.

The following table summarizes the expected impact of abrupt interest rate changes on net interest income as of June 30, 2017 (due to the current level of interest rates, the 200 and 300 basis point downward shock scenarios are not shown):

Rate Shock (1)	Annual change in net interest income	% Change in net interest income
+300 bp	+ \$102.5 million	16.5%
+200 bp	+ \$70.1 million	11.3%

+100 bp	+ \$35.6 million	5.7%
-100 bp	- \$52.3 million	- 8.4%

(1) These results include the effect of implicit and explicit interest rate floors that limit further reduction in interest rates.

Economic value of equity estimates the discounted present value of asset and liability cash flows. Discount rates are based upon market prices for like assets and liabilities. Abrupt changes or "shocks" in interest rates, both upward and downward, are used to determine the comparative effect of such interest rate movements relative to the unchanged environment. This measurement tool is used primarily to evaluate the longer-term repricing risks and options in the Corporation's balance sheet. The Corporation's policy limits the economic value of equity that may be at risk, in a non-parallel instantaneous shock, to 10% of the base case economic value of equity for a 100 basis point shock in interest rates, 20% for a 200 basis point shock and 30% for a 300 basis

point shock. As of June 30, 2017, the Corporation was within economic value of equity policy limits for every 100 basis point shock.

Interest Rate Swaps

The Corporation enters into interest rate swaps with certain qualifying commercial loan customers to meet their interest rate risk management needs. The Corporation simultaneously enters into interest rate swaps with dealer counterparties, with identical notional amounts and terms. The net result of these interest rate swaps is that the customer pays a fixed rate of interest and the Corporation receives a floating rate. These interest rate swaps are derivative financial instruments that are recorded at their fair value in other assets and liabilities on the consolidated balance sheets. Changes in fair value during the period are recorded in other non-interest expense on the consolidated statements of income.

Liquidity

The Corporation must maintain a sufficient level of liquid assets to meet the cash needs of its customers, who, as depositors, may want to withdraw funds or who, as borrowers, need credit availability. Liquidity is provided on a continuous basis through scheduled and unscheduled principal and interest payments on investments and outstanding loans and through the availability of deposits and borrowings. The Corporation also maintains secondary sources that provide liquidity on a secured and unsecured basis to meet short-term and long-term needs. In addition, the Corporation has filed a shelf registration statement with the Securities and Exchange Commission under which the Corporation may, from time to time subject to then current market conditions, offer various types of debt and equity securities.

The Corporation maintains liquidity sources in the form of demand and savings deposits, time deposits, repurchase agreements and short-term promissory notes. The Corporation can access additional liquidity from these sources, if necessary, by increasing the rates of interest paid on those accounts and borrowings. The positive impact to liquidity resulting from paying higher interest rates could have a detrimental impact on the net interest margin and net income if rates on interest-earning assets do not experience a proportionate increase. Borrowing availability with the FHLB and the Federal Reserve Bank, along with federal funds lines at various correspondent banks, provides the Corporation with additional liquidity.

Each of the Corporation's subsidiary banks is a member of the FHLB and has access to FHLB overnight and term credit facilities. As of June 30, 2017, the Corporation had \$892.2 million of advances outstanding from the FHLB with an additional borrowing capacity of approximately \$3.0 billion under these facilities. Advances from the FHLB are secured by qualifying commercial real estate and residential mortgage loans, investments and other assets.

As of June 30, 2017, the Corporation had aggregate availability under federal funds lines of \$932.0 million with \$206.3 million borrowed against that amount. A combination of commercial real estate loans, commercial loans and securities are pledged to the Federal Reserve Bank of Philadelphia to provide access to Federal Reserve Bank Discount Window borrowings. As of June 30, 2017, the Corporation had \$933.1 million of collateralized borrowing availability at the Discount Window, and no outstanding borrowings.

Liquidity must also be managed at the Fulton Financial Corporation parent company level. For safety and soundness reasons, banking regulations limit the amount of cash that can be transferred from subsidiary banks to the parent company in the form of loans and dividends. Generally, these limitations are based on the subsidiary banks' regulatory capital levels and their net income. Management continues to monitor the liquidity and capital needs of the parent company and will implement appropriate strategies, as necessary, to remain adequately capitalized and to meet its cash needs.

The Corporation's sources and uses of funds were discussed in general terms in the "Net Interest Income" section of Management's Discussion and Analysis. The consolidated statements of cash flows provide additional information. The Corporation's operating activities during the first six months of 2017 generated \$75.0 million of cash, mainly due to net income. Cash used in investing activities was \$673.3 million, mainly due to net increases in loans and short-term investments. Net cash provided by financing activities was \$574.5 million due mainly to increases in deposits, long-term debt and short-term borrowings.

Equity Market Price Risk

Equity market price risk is the risk that changes in the values of equity investments could have a material impact on the financial position or results of operations of the Corporation. As of June 30, 2017, equity investments consisted of \$20.5 million of common stocks of publicly traded financial institutions and \$1.0 million of other equity investments.

The equity investments most susceptible to equity market price risk are the financial institutions stocks, which had a cost basis of approximately \$9.7 million and an estimated fair value of \$20.5 million at June 30, 2017, including an investment in a single financial institution with a cost basis of \$4.3 million and an estimated fair value of \$8.8 million. The fair value of this investment accounted for 42.9% of the fair value of the common stocks of publicly traded financial institutions. No other investment in a single financial institution in the financial institutions stock portfolio exceeded 10% of the portfolio's fair value. In total, net unrealized gains in this portfolio were approximately \$10.8 million as of June 30, 2017.

Management continuously monitors the fair value of its equity investments and evaluates current market conditions and operating results of the issuers. Periodic sale and purchase decisions are made based on this monitoring process. None of the Corporation's equity securities are classified as trading.

In addition to its equity portfolio, investment management and trust services income may be impacted by fluctuations in the equity markets. A portion of this revenue is based on the value of the underlying investment portfolios, many of which include equity investments. If the values of those investment portfolios decrease, whether due to factors influencing U.S. or international securities markets in general or otherwise, the Corporation's revenue would be negatively impacted. In addition, the Corporation's ability to sell its brokerage services in the future will be dependent, in part, upon consumers' level of confidence in financial markets.

Debt Security Market Price Risk

Debt security market price risk is the risk that changes in the values of debt securities, unrelated to interest rate changes, could have a material impact on the financial position or results of operations of the Corporation. The Corporation's debt security investments consist primarily of U.S. government sponsored agency issued mortgage-backed securities and collateralized mortgage obligations, state and municipal securities, U.S. government debt securities, auction rate securities and corporate debt securities. All of the Corporation's investments in commercial and residential mortgage-backed securities and collateralized mortgage obligations have principal payments that are guaranteed by U.S. government sponsored agencies.

State and Municipal Securities

As of June 30, 2017, the Corporation owned \$401.6 million of municipal securities issued by various states or municipalities. Downward pressure on local tax revenues of issuers could have an adverse impact on the underlying credit quality of issuers. The Corporation evaluates existing and potential holdings primarily based on the creditworthiness of the issuing state or municipality and then, to a lesser extent, on any underlying credit enhancement. State or municipal securities can be supported by the general obligation of the issuing state or municipality, allowing the securities to be repaid by any means available to the issuing municipality. As of June 30, 2017, approximately 98% of state or municipal securities were supported by the general obligation of corresponding states or municipalities. Approximately 60% of these securities were school district issuances, which are also supported by the states of the issuing municipalities.

Auction Rate Securities

As of June 30, 2017, the Corporation's investments in auction rate certificates ("ARCs"), a type of auction rate security, had a cost basis of \$107.4 million and a fair value of \$97.9 million.

As of June 30, 2017, the fair values of the ARCs currently in the portfolio were derived using significant unobservable inputs based on an expected cash flows model which produced fair values that were materially different from those that would be expected from settlement of these investments in the current market. The expected cash flows model

produced fair values which assumed a return to market liquidity sometime in the next five years. The Corporation believes that the trusts underlying the ARCs will self-liquidate as student loans are repaid.

The credit quality of the underlying debt associated with the ARCs is also a factor in the determination of their estimated fair value. As of June 30, 2017, all of the ARCs were rated above investment grade. All of the loans underlying the ARCs have principal payments that are guaranteed by the federal government. At June 30, 2017, all ARCs were current and making scheduled interest payments.

Corporate Debt Securities

The Corporation holds corporate debt securities in the form of pooled trust preferred securities, single-issuer trust preferred securities, subordinated debt and senior debt issued by financial institutions. As of June 30, 2017, these securities had an amortized cost of \$88.9 million and an estimated fair value of \$89.0 million.

See "Note 4 - Investment Securities," in the Notes to Consolidated Financial Statements for further discussion related to the Corporation's other-than-temporary impairment evaluations for debt securities, and see "Note 11 - Fair Value Measurements," in the Notes to Consolidated Financial Statements for further discussion related to the fair values of debt securities.

Item 4. Controls and Procedures

The Corporation carried out an evaluation, under the supervision and with the participation of the Corporation's management, including the Corporation's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Corporation's disclosure controls and procedures pursuant to Rule 13a-15, promulgated under the Securities Exchange Act of 1934 (the "Exchange Act"). Based upon that evaluation, the Corporation's Chief Executive Officer and Chief Financial Officer concluded that, as of the end of the period covered by this quarterly report, the Corporation's disclosure controls and procedures are effective. Disclosure controls and procedures are controls and procedures that are designed to ensure that information required to be disclosed in Corporation reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.

There have been no changes in the Corporation's internal control over financial reporting during the fiscal quarter covered by this quarterly report that have materially affected, or are reasonably likely to materially affect, the Corporation's internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings

The information presented in the "Legal Proceedings" section of Note 10 "Commitment and Contingencies" of the Notes to Consolidated Financial Statements is incorporated herein by reference.

Item 1A. Risk Factors

There have been no material changes to the risk factors previously disclosed in Part I, Item 1A of the Corporation's Annual Report on Form 10-K for the year ended December 31, 2016.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

(a) None.

(b) None.

(c) There were no purchases of equity securities by the issuer or any affiliated purchasers during the three months ended June 30, 2017.

Item 6. Exhibits

See Exhibit Index for a list of the exhibits required by Item 601 of Regulation S-K and filed as part of this report.

FULTON FINANCIAL CORPORATION AND SUBSIDIARIES
SIGNATURES
