NEWS RELEASE

INDEPENDENCE HOLDING COMPANY ANNOUNCES

2011 FIRST-QUARTER RESULTS

Stamford, Connecticut, May 12, 2011. Independence Holding Company (NYSE: IHC) today reported 2011 first-quarter. This press release contains both GAAP and non-GAAP financial information for which reconciliations can be found at the end of this release.

Financial Results

Net income per share from continuing operations attributable to IHC was \$.21 per share, diluted, or \$3,184,000, for the three months ended March 31, 2011 compared to \$1.05 per share, diluted, or \$16,161,000, for the three months ended March 31, 2010. As a result of acquiring a controlling interest in American Independence Corp. (AMIC) in March 2010, IHC recorded a gain of \$16,733,000, net of \$11,097,000 of taxes, (\$1.09 per share) on its investment in AMIC in the first quarter of 2010.

Revenues decreased 10% to \$104,319,000 for the three months ended March 31, 2011 compared to revenues for the three months ended March 31, 2010 of \$116,350,000.

IHC reported operating income¹ per share of \$.23 per share, diluted, or \$3,509,000, for the three months ended March 31, 2011, compared to \$.02 per share, diluted, or \$230,000, for the three months ended March 31, 2010.

Chief Executive Officer's Comments

Roy Thung, Chief Executive Officer, commented, "The Company's financial condition remains very strong as our book value per share remained relatively steady at \$15.11 per share at March 31, 2011 as compared to \$15.14 at December 31, 2010, and stockholders' equity at March 31, 2011 reached \$239 million.

Mr. Thung continued, "The Company increased its overall retention in our fully insured line and is very pleased with the improved combined ratio in this segment. We are also gratified that, as of May 1, 2011, we have consolidated our owned MGUs into one functional unit that we have branded as IHC Risk Solutions (IHCRS). This consolidation significantly enhances our operational efficiencies, allows us to be more focused on our underwriting results and combines the regional knowledge of our owned MGUs in order to deliver medical stop-loss on a direct basis. We experienced an increase in the combined ratio in our medical stop-loss segment arising from prior year development in our loss ratio and an increase in our expense ratio due to larger profit sharing on one program. We believe that medical stop-loss business written in 2011 will be quite profitable due to: (i) the underwriting and sales discipline resulting from the consolidation of IHCRS; (ii) the 20% average rate increases achieved by IHCRS on January renewal business; (iii) reduction in run-out from poorly performing non-owned programs that have been cancelled; and (iv) a hardening of the market. In addition we will retain more risk on our business as a result of our increased capital base, which will increase our net retained premiums and our future profits starting next year. IHC continues to experience reduced investment income due to low yields (4.4% for the first quarter of 2011) and the low duration of our portfolio. We are pleased to report that our overall portfolio continues to be in an unrealized gain position and is rated, on average, AA.

Non-GAAP Financial Measures

The Company provides non-GAAP financial measures to complement its consolidated financial statements presented in accordance with GAAP: (i) Operating income is income from continuing operations net of income or losses attributable to non-controlling interests and excluding net realized gains or losses, other-than-temporary impairment losses and gain on bargain purchase, net of applicable income taxes; and (ii) Operating income per share is operating income (loss) on a per share basis. These non-GAAP financial measures are intended to supplement the user's overall understanding of the Company's current financial performance and its prospects for the future. Specifically, the Company believes the non-GAAP results provide useful information to both management and investors by excluding realized gains or losses, net of taxes, that, when excluded from the GAAP results, may provide additional understanding of the Company's core operating results or business performance. However, these non-GAAP financial measures are not intended to supersede or replace the Company's GAAP results. A reconciliation of the non-GAAP results to the GAAP results is provided in the "Reconciliation of GAAP Income from Continuing Operations to Non-GAAP Income from Continuing Operations" schedule below.

Footnotes

¹ Operating income is a non-GAAP measure representing income from continuing operations net of (income) losses attributable to non-controlling interests and excluding net realized investment gains (losses), other-than-temporary impairment losses and gain on bargain purchase of AMIC, net of applicable income tax. The Company believes that

the presentation of operating income may offer a better understanding of the core operating results of the Company. A reconciliation of income from continuing operations to operating income is included in this press release.

² IHC applied business acquisition accounting and consolidated the financial results of AMIC as of March 5, 2010, resulting in a consolidated statement of income which consolidates approximately one month of AMIC results and reflects the equity method of accounting for the first two months of 2010.
