#### Merger Integration Activities Update

Many of you have inquired about the status of the merger during the past weeks since we last reported on the legislative activities in Maryland and the pending rate increase for Baltimore Gas and Electric customers.

In April, we said that we felt that the agreement reached by the Maryland Governor and BGE was a step toward keeping the merger on track with our original timeframe of closing by the end of the year. The situation in Maryland is still very much in flux and has been further complicated by litigation over the pending rate increase for BGE customers.

Our integration teams have been actively moving forward with preparations for Day One, and I am pleased with how well the teams have worked together and the progress they have made to date. Although we have made significant headway and our respective teams are working well together, given the political uncertainty in Maryland, we have instructed all integration teams to put merger integration activities temporarily on hold. Our teams, however, continue to work hard to advance all state and federal regulatory merger approval activities, as well as the filing of our merger proxy.

While we still believe strongly in the proposed merits of our merger, we are disappointed in the ongoing political controversy in Maryland. While we remain hopeful that a reasonable compromise can emerge and that our merger with Constellation Energy can move forward, we think the prudent thing to do is put our integration efforts temporarily on hold while the political issues are being resolved.

We will continue to closely monitor the situation in Maryland and keep you updated as events unfold. I appreciate your ongoing efforts and contributions to making FPL Group the outstanding company that it is.
