SECTION 8 - OTHER EVENTS

Item 8.01. Other Events

Occidental Petroleum Corporation announced on February 8, 2005 that its fourth quarter net income was \$77 million higher (\$0.19 per share) than the \$665 million (\$1.67 per share) the company disclosed on January 24, 2005. The improvement in income is due to an increase in the carrying value of Occidental's investment in Lyondell Chemical Company because of an increase in Lyondell's book value resulting from its November 30, 2004 acquisition of Millennium Chemical Company. There is no cash effect to this non-core earnings item.

Lyondell acquired Millennium Chemical Company by issuing additional shares of Lyondell common stock. Under current accounting rules (SEC Staff Accounting Bulletin No. 51), Occidental is required to record its share of the increase in Lyondell's net equity resulting from this issuance. The effect of this is an increase of \$121 million in the carrying value of Occidental's investment in Lyondell and an increase in Occidental's net income of \$77 million after-tax (\$0.19 per share). At the time Occidental issued its earnings press release on January 24, Lyondell had not announced its fourth quarter and total-year 2004 results, and a year-end balance sheet was not available until Lyondell released its results on February 3, 2005. In its earnings press release, Occidental stated that earnings from an equity investment were based on a preliminary estimate of their earnings. Also, in its conference call regarding fourth quarter results, Occidental commented that Lyondell had not yet reported its results.

Occidental owns 41 million shares of Lyondell common stock. As a result of the Millennium acquisition, Occidental's ownership percentage of Lyondell has decreased from approximately 22 percent to 17 percent.
