(X) QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended: April 4, 2015

OR

() TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number: 0-15386

CERNER CORPORATION

(Exact name of registrant as specified in its charter)

Delaware

(State or other jurisdiction of
incorporation or organization)

2800 Rockcreek Parkway

North Kansas City, MO

(Address of principal executive offices)

(816) 201-1024

(Registrant's telephone number, including area code)

43-1196944

(I.R.S. Employer Identification
Number)

64117

(Zip Code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer," and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

Indicate the number of shares outstanding of the issuer's classes of common stock, as of the latest practicable date.

CERNER CORPORATION AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

(1) Interim Statement Presentation

Basis of Presentation

The condensed consolidated financial statements included herein have been prepared by Cerner Corporation (Cerner, the Company, we, us or our) without audit, pursuant to the rules and regulations of the Securities and Exchange Commission (SEC). Certain information and footnote disclosures normally included in annual financial statements prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) have been condensed or omitted pursuant to such rules and regulations. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and the notes thereto included in our latest annual report on Form 10-K.

In management's opinion, the accompanying unaudited condensed consolidated financial statements include all adjustments (consisting of only normal recurring adjustments) necessary to present fairly the financial position and the results of operations and cash flows for the periods presented. Our interim results as presented in this Form 10-Q are not necessarily indicative of the operating results for the entire year.

The condensed consolidated financial statements were prepared using GAAP. These principles require us to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities and the reported amounts of revenues and expenses. Actual results could differ from those estimates.

Fiscal Period End

Our 2015 and 2014 first quarters ended on April 4, 2015 and March 29, 2014, respectively. All references to years in these notes to condensed consolidated financial statements represent the respective three months ended on such dates, unless otherwise noted.

Factors Impacting Comparability of Interim Financial Statements

On February 2, 2015, we acquired Siemens Health Services, as further described in Note (2). The addition of the Siemens Health Services business has a significant impact on the comparability of our condensed consolidated financial statements as of and for the three months ended April 4, 2015, in relation to the comparative periods presented herein.

Voluntary Separation Plan

In the first quarter of 2015, the Company adopted a voluntary separation plan ("VSP") for eligible associates. Generally, the VSP is available to U.S. associates who meet a minimum level of combined age and tenure, excluding, among others, our executive officers. Associates who elect to participate in the VSP will receive financial benefits commensurate with their tenure and position, along with vacation payout and medical benefits.

We account for voluntary separation benefits in accordance with the provisions of Accounting Standards Codification (ASC) Topic 712, Compensation-Nonretirement Postemployment Benefits. Voluntary separation benefits are recorded to expense when the associates irrevocably accept the offer and the amount of the termination liability is reasonably estimable. The irrevocable acceptance period for most associates electing to participate in the VSP ends in May 2015. We expect the resulting after-tax charge in the second quarter of 2015 to approximate \$32 million.

Recently Issued Accounting Pronouncements

Revenue Recognition. In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2014-09, Revenue from Contracts with Customers, which requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. ASU 2014-09 will replace most existing revenue recognition guidance in U.S. GAAP when it becomes effective. In April 2015, the FASB issued an exposure draft to propose a delay of the effective date for one year, which would make the effective date for the Company the first quarter of 2018. The standard permits the use of either the retrospective or cumulative effect transition method. At this time we have not selected a transition method. We are currently evaluating the effect that ASU 2014-09 will have on our consolidated financial statements and related disclosures.

Table of Contents

Debt Issuance Costs. In April 2015, the FASB issued ASU 2015-03, Interest - Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs, which requires that debt issuance costs be presented in the balance sheet as a direct deduction from the carrying value of the debt liability. ASU 2015-03 is effective for the Company in the first quarter of 2016, with early adoption permitted, and retrospective application required. The Company has chosen to adopt the standard early, effective in the first quarter of 2015. The adoption of ASU 2015-03 did not have a material impact on our condensed consolidated financial statements. Refer to Note (9) for further information regarding debt issuance costs.

(2) Business Acquisitions

Siemens Health Services

On February 2, 2015, we acquired substantially all of the assets, and assumed certain liabilities of Siemens Health Services, the health information technology business unit of Siemens AG, a stock corporation established under the laws of Germany. Siemens Health Services offers a portfolio of enterprise-level clinical and financial health care information technology solutions, as well as departmental, connectivity, population health, and care coordination solutions globally. Solutions are offered on the Soarian, Invision, and i.s.h.med platforms, among others. Siemens Health Services also offers a range of complementary services including support, hosting, managed services, implementation services, and strategic consulting.

We believe the acquisition enhances our organic growth opportunities as it provides us a larger base into which we can sell our combined portfolio of solutions and services. The acquisition also augments our non-U.S. footprint and growth opportunities, increases our scale for R&D investment, and adds over 5,000 highly-skilled associates that will enhance our capabilities. These factors, combined with the synergies and economies of scale expected from combining the operations of Cerner and Siemens Health Services, are the basis for acquisition and comprise the resulting goodwill recorded.

Consideration for the acquisition was \$1.37 billion of cash, consisting of the \$1.3 billion agreed upon price plus working capital adjustments. The purchase price is subject to certain post-closing adjustments for working capital and pension obligations, as specified in the Master Sale and Purchase Agreement dated August 5, 2014, as amended.

During the three months ended April 4, 2015, we incurred \$17 million of pre-tax costs in connection with our acquisition of Siemens Health Services, which are included in general and administrative expense in our condensed consolidated statements of operations.

The acquisition of Siemens Health Services is being treated as a purchase in accordance with Accounting Standards Codification (ASC) Topic 805, Business Combinations, which requires allocation of the purchase price to the estimated fair values of the assets acquired and liabilities assumed in the transaction. Our allocation of purchase price is based on management's judgment after evaluating several factors, including a preliminary valuation assessment. The allocation of purchase price is preliminary and subject to changes, which could be significant, as appraisals of tangible and intangible assets are finalized, working capital and pension obligation adjustments are agreed upon and finalized, and additional information becomes available.

Table of Contents

The preliminary allocation of purchase price is as follows:

| (in thousands) | Allocation Amount | Estimated Weighted Average Useful Life |
|--|----------------------|---|
| Receivables, net of allowances of \$33,674 | \$237,081 | |
| Other current assets | 51,453 | |
| Property and equipment | 153,226 | 20 years |
| Goodwill | 450,001 | |
| Intangible assets: | | |
| Customer relationships | 396,000 | 10 years |
| Existing technologies | 201,990 | 5 years |
| Trade names | 39,990 | 8 years |
| Total intangible assets | 637,980 | |
| Other non-current assets | 233 | |
| Accounts payable | (39,488 |) |
| Deferred revenue (current) | (89,531 |) |
| Other current liabilities | (14,011 |) |
| Deferred revenue (non-current) | (14,930 |) |
| Total purchase price | \$1,372,014 | |

The intangible assets in the table above are being amortized on a straight-line basis over their estimated useful lives, with such amortization included in general and administrative expense in our condensed consolidated statements of operations.

The fair value measurements of tangible and intangible assets and liabilities were based on significant inputs not observable in the market and thus represent Level 3 measurements within the fair value measurement hierarchy. Level 3 inputs included discount rates that we estimated would be used by a market participant in valuing these assets and liabilities, projections of revenues and cash flows, client attrition rates, royalty rates, and market comparables, among others.

Property and equipment was valued primarily using the sales comparison method, a form of the market approach, in which the value is derived by evaluating the market prices of assets with comparable features such as size, location, condition and age. Our analysis included multiple property categories, including land, buildings, and personal property, and included assumptions for market prices of comparable assets, and physical and economic obsolescence, among others.

Customer relationship intangible assets were valued using the excess earnings method, a form of the income approach, in which the value is derived by estimation of the after-tax cash flows specifically attributable to the customer relationships. Our analysis consisted of two customer categories, order backlog and existing customer relationships, and included assumptions for projections of revenues and expenses, contributory asset charges, discount rates, and a tax amortization benefit, among others.

Existing technology and trade name intangible assets were valued using the relief from royalty method, a form of the income approach, in which the value is derived by estimation of the after-tax royalty savings attributable to owning the assets. Assumptions in these analyses included projections of revenues, royalty rates representing costs avoided due to ownership of the assets, discount rates, and a tax amortization benefit.

Deferred revenue was valued using an income approach, in which the value was derived by estimation of the fulfillment cost, plus a normal profit margin (which excludes any selling margin), for performance obligations assumed in the acquisition. Assumptions included estimations of costs incurred to fulfill the obligations, profit margins a market participant would expect to receive, and a discount rate.

The goodwill of \$450 million was allocated among our Domestic and Global operating segments, as shown below, and is expected to be deductible for tax purposes.

7

Table of Contents

The changes in the carrying amounts of goodwill for the three months ended April 4, 2015 were as follows:

| (In thousands) | Domestic | Global | Total |
|--|-----------|----------|-----------|
| Beginning balance | \$311,170 | \$9,368 | \$320,538 |
| Goodwill recorded in connection with the Siemens Health Services acquisition | 397,708 | 52,293 | 450,001 |
| Foreign currency translation adjustment and other | — | (3,317) | (3,317) |
| Ending balance at April 4, 2015 | \$708,878 | \$58,344 | \$767,222 |

Our condensed consolidated statement of operations for the three months ended April 4, 2015 includes revenues of \$176 million attributable to the acquired business (now referred to as "Cerner Health Services") since the February 2, 2015 acquisition date. Disclosure of the earnings contribution from the Cerner Health Services business is not practicable, as we have already integrated operations in many areas.

The following table provides unaudited pro forma results of operations for the three months ended April 4, 2015 and March 29, 2014 as if the acquisition had been completed on the first day of our 2014 fiscal year.

| (In thousands, except per share data) | Three Months Ended | |
|---------------------------------------|--------------------|-------------|
| | 2015 | 2014 |
| Pro forma revenues | \$1,089,769 | \$1,065,800 |
| Pro forma net earnings | 114,333 | 99,089 |
| Pro forma diluted earnings per share | 0.33 | 0.28 |

These pro forma results are based on estimates and assumptions, which we believe are reasonable. They are not the results that would have been realized had we been a combined company during the periods presented, nor are they indicative of our consolidated results of operations in future periods. The pro forma results for the three months ended April 4, 2015 include pre-tax adjustments for amortization of intangible assets, fair value adjustments for deferred revenue, and the elimination of acquisition costs of \$7 million, \$6 million, and \$17 million, respectively. Pro forma results for the three months ended March 29, 2014 include pre-tax adjustments for amortization of intangible assets and fair value adjustments for deferred revenue of \$22 million and \$19 million, respectively.

Table of Contents

(3) Fair Value Measurements

We determine fair value measurements used in our consolidated financial statements based upon the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy distinguishes between (1) market participant assumptions developed based on market data obtained from independent sources (observable inputs) and (2) an entity's own assumptions about market participant assumptions developed based on the best information available in the circumstances (unobservable inputs). The fair value hierarchy consists of three broad levels, which gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 – Valuations based on quoted prices in active markets for identical assets or liabilities that the entity has the ability to access.

Level 2 – Valuations based on quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable data for substantially the full term of the assets or liabilities.

Level 3 – Valuations based on inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The following table details our financial assets measured and recorded at fair value on a recurring basis at April 4, 2015:

(In thousands)

| Description | Balance Sheet Classification | Fair Value Measurements Using | | |
|--------------------------------|------------------------------|-------------------------------|---------|---------|
| | | Level 1 | Level 2 | Level 3 |
| Money market funds | Cash equivalents | \$29,679 | \$— | \$— |
| Time deposits | Cash equivalents | — | 8,398 | — |
| Government and corporate bonds | Cash equivalents | — | 1,035 | — |
| Time deposits | Short-term investments | — | 27,246 | — |
| Commercial paper | Short-term investments | — | 2,599 | — |
| Government and corporate bonds | Short-term investments | — | 263,982 | — |
| Government and corporate bonds | Long-term investments | — | 191,969 | — |

The following table details our financial assets measured and recorded at fair value on a recurring basis at January 3, 2015:

(In thousands)

| Description | Balance Sheet Classification | Fair Value Measurements Using | | |
|--------------------------------|------------------------------|-------------------------------|---------|---------|
| | | Level 1 | Level 2 | Level 3 |
| Money market funds | Cash equivalents | \$189,137 | \$— | \$— |
| Time deposits | Cash equivalents | — | 9,989 | — |
| Commercial paper | Cash equivalents | — | 115,638 | — |
| Time deposits | Short-term investments | — | 52,829 | — |
| Commercial paper | Short-term investments | — | 435,544 | — |
| Government and corporate bonds | Short-term investments | — | 297,290 | — |

| | | | | |
|--------------------------------|-----------------------|---|---------|---|
| Government and corporate bonds | Long-term investments | — | 218,965 | — |
|--------------------------------|-----------------------|---|---------|---|

We estimate the fair value of our long-term, fixed rate debt using a Level 3 discounted cash flow analysis based on current borrowing rates for debt with similar maturities. We estimate the fair value of our long-term, variable rate debt using a Level 3 discounted cash flow analysis based on LIBOR rate forward curves. The fair value of our long-term debt, including current maturities, at April 4, 2015 and January 3, 2015 was approximately \$545 million and \$15 million, respectively. The carrying amount of such debt at April 4, 2015 and January 3, 2015 was \$514 million and \$14 million, respectively.

Table of Contents

(4) Available-for-sale Investments

Available-for-sale investments at April 4, 2015 were as follows:

| (In thousands) | Adjusted Cost | Gross Unrealized Gains | Gross Unrealized Losses | Fair Value |
|--------------------------------------|---------------|------------------------|-------------------------|------------|
| Cash equivalents: | | | | |
| Money market funds | \$29,679 | \$— | \$— | \$29,679 |
| Time deposits | 8,398 | — | — | 8,398 |
| Government and corporate bonds | 1,035 | — | — | 1,035 |
| Total cash equivalents | 39,112 | — | — | 39,112 |
| Short-term investments: | | | | |
| Time deposits | 27,246 | — | — | 27,246 |
| Commercial paper | 2,600 | — | (1) | 2,599 |

| Total available-for-sale investments | \$1,319,899 | \$ 96 | \$ (603) | \$1,319,392 |

We sold available-for-sale investments for proceeds of \$55 million during the three months ended March 29, 2014, resulting in insignificant gains.

Table of Contents

(5) Receivables

A summary of net receivables is as follows:

| (In thousands) | April 4, 2015 | January 3, 2015 |
|---------------------------------------|------------------|--------------------|
| Gross accounts receivable | \$948,057 | \$641,160 |
| Less: Allowance for doubtful accounts | 53,934 | 25,531 |
| Accounts receivable, net of allowance | 894,123 | 615,629 |
| Current portion of lease receivables | 46,448 | 57,149 |
| Total receivables, net | \$940,571 | \$672,778 |

During the second quarter of 2008, Fujitsu Services Limited's (Fujitsu) contract as the prime contractor in the National Health Service (NHS) initiative to automate clinical processes and digitize medical records in the Southern region of England was terminated by the NHS. This had the effect of automatically terminating our subcontract for the project. We continue to be in dispute with Fujitsu regarding Fujitsu's obligation to pay the amounts comprised of accounts receivable and contracts receivable related to that subcontract, and we are working with Fujitsu to resolve these issues based on processes provided for in the contract. Part of that process requires final resolution of disputes between Fujitsu and the NHS regarding the contract termination. As of April 4, 2015, it remains unlikely that our matter with Fujitsu will be resolved in the next 12 months. Therefore, these receivables have been classified as long-term and represent less than the majority of other long-term assets at April 4, 2015 and January 3, 2015. While the ultimate collectability of the receivables pursuant to this process is uncertain, we believe that we have valid and equitable grounds for recovery of such amounts and that collection of recorded amounts is probable. Nevertheless, it is reasonably possible that our estimates regarding collectability of such amounts might materially change in the near term, considering that we do not have complete knowledge of the status of the proceedings between Fujitsu and NHS and their effect on our claim.

During the first three months of 2015 and 2014, we received total client cash collections of \$981 million and \$868 million, respectively.

(6) Income Taxes

We determine the tax provision for interim periods using an estimate of our annual effective tax rate, adjusted for discrete items, if any, that are taken into account in the relevant period. Each quarter we update our estimate of the annual effective tax rate, and if our estimated tax rate changes, we make a cumulative adjustment.

Our effective tax rate was 33.6% and 34.0% for the first three months of 2015 and 2014, respectively. This slight decrease in the effective tax rate in 2015 results from the favorability of net discrete items recorded in the first quarter of 2015 as compared to the first quarter of 2014.

Table of Contents

(7) Earnings Per Share

A reconciliation of the numerators and the denominators of the basic and diluted per share computations are as follows:

| (In thousands, except per share data) | Three Months Ended | | | 2014 | | |
|---|--------------------|---------------|-----------|-------------|---------------|-----------|
| | 2015 | | | 2014 | | |
| | Earnings | Shares | Per-Share | Earnings | Shares | Per-Share |
| | (Numerator) | (Denominator) | Amount | (Numerator) | (Denominator) | Amount |
| Basic earnings per share: | | | | | | |
| Income available to common shareholders | \$ 110,934 | 343,216 | \$0.32 | \$ 119,526 | 343,701 | \$0.35 |
| Effect of dilutive securities: | | | | | | |
| Stock options and non-vested shares | — | 8,443 | | — | 8,529 | |
| Diluted earnings per share: | | | | | | |
| Income available to common shareholders including assumed conversions | \$ 110,934 | 351,659 | \$0.32 | \$ 119,526 | 352,230 | \$0.34 |

For the three months ended April 4, 2015 and March 29, 2014, options to purchase 1.0 million and 3.7 million shares of common stock at per share prices ranging from \$51.97 to \$70.98 and \$41.08 to \$60.37, respectively, were outstanding but were not included in the computation of diluted earnings per share because they were anti-dilutive.

(8) Share-Based Compensation

Stock Options

Options activity for the three months ended April 4, 2015 was as follows:

| (In thousands, except per share data) | Number of Shares | Weighted-Average Exercise Price | Aggregate Intrinsic Value | Weighted-Average Remaining Contractual Term (Yrs) |
|---------------------------------------|------------------|---------------------------------|---------------------------|---|
| Outstanding at beginning of year | 24,629 | \$27.00 | | |
| Granted | 658 | 70.15 | | |
| Exercised | (1,815) | 13.85 | | |
| Forfeited and expired | (51) | 43.81 | | |
| Outstanding as of April 4, 2015 | 23,421 | 29.20 | \$ 1,020,443 | 6.14 |
| Exercisable as of April 4, 2015 | 13,117 | \$ 15.37 | \$ 752,922 | 4.64 |

The weighted-average assumptions used to estimate the fair value, under the Black-Scholes-Merton pricing model, of stock options granted during the three months ended April 4, 2015 were as follows:

| | | |
|-------------------------|---------|---|
| Expected volatility (%) | 26.4 | % |
| Expected term (yrs) | 7 | |
| Risk-free rate (%) | 1.7 | % |
| Fair value per option | \$21.72 | |

As of April 4, 2015, there was \$140 million of total unrecognized compensation cost related to stock options granted under all plans. That cost is expected to be recognized over a weighted-average period of 3.30 years.

Table of Contents

Non-vested Shares

Non-vested share activity for the three months ended April 4, 2015 was as follows:

| (In thousands, except per share data) | Number of Shares | Weighted-Average Grant Date Fair Value |
|---------------------------------------|------------------|--|
| Outstanding at beginning of year | 506 | \$ 46.21 |
| Granted | 156 | 70.64 |
| Vested | (11) | 42.75 |
| Forfeited | (32) | 31.94 |
| Outstanding as of April 4, 2015 | 619 | \$ 53.22 |

As of April 4, 2015, there was \$19 million of total unrecognized compensation cost related to non-vested share awards granted under all plans. That cost is expected to be recognized over a weighted-average period of 1.95 years.

The following table presents total compensation expense recognized with respect to stock options, non-vested shares and our associate stock purchase plan:

| (In thousands) | Three Months Ended | |
|--|--------------------|----------|
| | 2015 | 2014 |
| Stock option and non-vested share compensation expense | \$15,161 | \$13,649 |
| Associate stock purchase plan expense | 1,388 | 1,283 |
| Amounts capitalized in software development costs, net of amortization | (92) | (164) |
| Amounts charged against earnings, before income tax benefit | \$16,457 | \$14,768 |
| Amount of related income tax benefit recognized in earnings | \$5,533 | \$5,184 |

Table of Contents

(9) Long-Term Debt and Capital Lease Obligations

The following is a summary of indebtedness outstanding:

| (In thousands) | April 4, 2015 | January 3, 2015 |
|--|------------------|--------------------|
| Note agreement, 5.54% | \$13,853 | \$14,233 |
| Senior Notes | 500,000 | — |
| Capital lease obligations | 113,106 | 116,095 |
| Debt and capital lease obligations | 626,959 | 130,328 |
| Less: debt issuance costs | (792) | — |
| Debt and capital lease obligations, net | 626,167 | 130,328 |
| Less: current portion | (61,828) | (67,460) |
| Long-term debt and capital lease obligations | \$564,339 | \$62,868 |

In January 2015, we issued \$500 million aggregate principal amount of unsecured Senior Notes ("Notes"), pursuant to a Master Note Purchase Agreement dated December 4, 2014. The issuance consisted of \$225 million of 3.18% Series 2015-A Notes due February 15, 2022, \$200 million of 3.58% Series 2015-B Notes due February 14, 2025, and \$75 million in floating rate Series 2015-C Notes due February 15, 2022. Interest is payable semiannually on February 15th and August 15th in each year, commencing on August 15, 2015 for the Series 2015-A Notes and Series 2015-B Notes. The Series 2015-C Notes will accrue interest at a floating rate equal to the Adjusted LIBOR Rate (as defined in the Master Note Purchase Agreement), payable quarterly on February 15th, May 15th, August 15th and November 15th in each year, commencing on May 15, 2015. As of April 4, 2015, the interest rate was 1.26% for the current interest period based on the three-month floating LIBOR rate. The debt issuance costs in the table above relate to the issuance of these Notes. The Master Note Purchase Agreement contains certain leverage and interest coverage ratio covenants and provides certain restrictions on our ability to borrow, incur liens, sell assets, and other customary terms. Proceeds from the Notes are available for general corporate purposes.

As of April 4, 2015, we were in compliance with all debt covenants.

(10) Hedging Activities

The following table represents the fair value of our net investment hedge included within the condensed consolidated balance sheets:

| (in thousands) | Balance Sheet Classification | Fair Value | |
|----------------------------|------------------------------|------------------|--------------------|
| | | April 4, 2015 | January 3, 2015 |
| Derivatives Designated | | | |
| Total net investment hedge | Short-term liabilities | \$13,853 | \$14,233 |

The following table represents the related unrealized gain or loss, net of related income tax effects, on the net investment hedge recognized in comprehensive income:

| (In thousands) | Net Unrealized Gain (Loss) |
|----------------|-------------------------------|
| | |

| Derivatives Designated Balance Sheet Classification | | For the Three Months Ended | |
|---|------------------------|----------------------------|----------|
| | | 2015 | 2014 |
| Net investment hedge | Short-term liabilities | \$220 | \$(91) |
| Net investment hedge | Long-term liabilities | — | (91) |
| Total net investment hedge | | \$220 | \$(182) |

Table of Contents

(11) Contingencies

We accrue estimates for resolution of any legal and other contingencies when losses are probable and estimable, in accordance with ASC 450, Contingencies.

The terms of our software license agreements with our clients generally provide for a limited indemnification of such clients against losses, expenses and liabilities arising from third party claims based on alleged infringement by our solutions of an intellectual property right of such third party. The terms of such indemnification often limit the scope of and remedies for such indemnification obligations and generally include a right to replace or modify an infringing solution. To date, we have not had to reimburse any of our clients for any losses related to these indemnification provisions pertaining to third party intellectual property infringement claims. For several reasons, including the lack of prior indemnification claims and the lack of a monetary liability limit for certain infringement cases under the terms of the corresponding agreements with our clients, we cannot determine the maximum amount of potential future payments, if any, related to such indemnification provisions.

In addition to commitments and obligations in the ordinary course of business, we are subject to various legal proceedings and claims, including for example, employment disputes and litigation alleging solution defects, personal injury, intellectual property infringement, violations of law and breaches of contract and warranties. Many of these proceedings are at preliminary stages and many seek an indeterminate amount of damages.

No less than quarterly, we review the status of each significant matter and assess our potential financial exposure. We accrue a liability for an estimated loss if the potential loss from any legal proceeding or claim is considered probable and the amount can be reasonably estimated. Significant judgment is required in both the determination of probability and the determination as to whether the amount of an exposure is reasonably estimable, and accruals are based only on the information available to our management at the time the judgment is made. Furthermore, the outcome of legal proceedings is inherently uncertain, and we may incur substantial defense costs and expenses defending any of these matters. Should any one or a combination of more than one of these proceedings be successful, or should we determine to settle any or a combination of these matters, we may be required to pay substantial sums, become subject to the entry of an injunction or be forced to change the manner in which we operate our business, which could have a material adverse impact on our financial position or results of operations.

RLIS, Inc., a non-practicing entity, filed a complaint in the Southern District of Texas against the Company alleging that certain of the Company's electronic medical record solutions infringe two patents owned by the plaintiff. At trial, Plaintiff requested damages between \$35 million and \$38 million. Plaintiff also sought attorneys' fees, costs, and an ongoing royalty. A jury trial was conducted from January 5, 2015, to January 16, 2015. The jury rendered a verdict that all remaining patent claims asserted against the Company were invalid and not infringed by the Company. The Company continues to dispute the Plaintiff's claims and will vigorously defend itself if the Plaintiff appeals. In the opinion of our management, if the Plaintiff were to appeal, there is a reasonable possibility that we could incur losses with respect to this matter but we are unable to estimate a range of any such possible losses at this time, and we do not believe a loss is probable. Our management will continue to evaluate the potential exposure related to this matter in future periods.

(12) Segment Reporting

We have two operating segments, Domestic and Global. Revenues are derived primarily from the sale of clinical, financial and administrative information systems and solutions. The cost of revenues includes the cost of third party consulting services, computer hardware, devices and sublicensed software purchased from manufacturers for delivery to clients. It also includes the cost of hardware maintenance and sublicensed software support subcontracted to the manufacturers. Operating expenses incurred by the geographic business segments consist of sales and client service

expenses including salaries of sales and client service personnel, expenses associated with our managed services business, marketing expenses, communications expenses and unreimbursed travel expenses. “Other” includes expenses that have not been allocated to the operating segments, such as software development, general and administrative expenses, acquisition costs and related adjustments, share-based compensation expense, and certain amortization and depreciation. Performance of the segments is assessed at the operating earnings level by our chief operating decision maker, who is our Chief Executive Officer. Items such as interest, income taxes, capital expenditures and total assets are managed at the consolidated level and thus are not included in our operating segment disclosures. Accounting policies for each of the reportable segments are the same as those used on a consolidated basis.

In connection with our acquisition of the Cerner Health Services business, we commenced an evaluation of our methodology for allocating operating expenses to our reportable segments. Effective for our first quarter of 2015, certain expenses historically reported in “Other” have been allocated to the geographic segments. This new allocation reflects the manner in

Table of Contents

which the business is now managed, subsequent to the acquisition. While this reporting change did not impact our consolidated results, the segment data has been recast to be consistent for all periods presented.

The following table presents a summary of our operating segments and other expense for the three months ended April 4, 2015 and March 29, 2014:

| (In thousands) | Domestic | Global | Other | Total |
|--------------------------------|-----------|-----------|-------------|-----------|
| Three Months Ended 2015 | | | | |
| Revenues | \$870,507 | \$125,582 | \$— | \$996,089 |
| Cost of revenues | 142,717 | 25,943 | — | 168,660 |
| Operating expenses | 361,086 | 50,571 | 248,860 | 660,517 |
| Total costs and expenses | 503,803 | 76,514 | 248,860 | 829,177 |
| Operating earnings (loss) | \$366,704 | \$49,068 | \$(248,860) | \$166,912 |
| (In thousands) | Domestic | Global | Other | Total |
| Three Months Ended 2014 | | | | |
| Revenues | \$697,704 | \$87,057 | \$— | \$784,761 |
| Cost of revenues | 115,345 | 13,754 | — | 129,099 |
| Operating expenses | 273,990 | 45,069 | 158,600 | 477,659 |
| Total costs and expenses | 389,335 | 58,823 | 158,600 | 606,758 |
| Operating earnings (loss) | \$308,369 | \$28,234 | \$(158,600) | \$178,003 |

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following Management Discussion and Analysis (MD&A) is intended to help the reader understand the results of operations and financial condition of Cerner Corporation (Cerner, the Company, we, us or our). This MD&A is provided as a supplement to, and should be read in conjunction with, our financial statements and the accompanying notes to the financial statements (Notes) found above.

Our 2015 and 2014 first quarters ended on April 4, 2015 and March 29, 2014, respectively. All references to years in this MD&A represent the respective three months ended on such dates, unless otherwise noted.

Except for the historical information and discussions contained herein, statements contained in this quarterly report on Form 10-Q may constitute "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities and Exchange Act of 1934, as amended (the Exchange Act). Forward-looking statements are based on the current beliefs, expectations and assumptions of Cerner's management with respect to future events and are subject to a number of significant risks and uncertainties. It is important to note that Cerner's performance, and actual results, financial condition or business could differ materially from those expressed in such forward-looking statements. These statements can often be identified by the use of forward-looking terminology, such as "could," "should," "will," "intends," "continue," "believe," "may," "expect," "anticipate," "goal," "forecast," "plan," or "estimate" or the negative of these words, variations thereof or similar expressions. These statements involve a number of risks, uncertainties and other factors that could cause actual results to differ materially, including without limitation: the possibility of product-related liabilities; potential claims for system errors and warranties; the possibility of interruption at our data centers or client support facilities; our proprietary technology may be subject to claims for infringement or misappropriation of intellectual property rights of others, or may be infringed or misappropriated by others; material adverse resolution of legal proceedings; risks associated with our non-U.S. operations; risks associated with our ability to effectively hedge exposure to fluctuations in foreign currency exchange rates; the potential for tax legislation initiatives that could adversely affect our tax position and/or challenges to our tax positions in the United States and non-U.S. countries; risks associated with our recruitment and retention of key personnel; risks related to our dependence on third party suppliers; risks inherent with business acquisitions and combinations and the integration thereof, such as difficulties and operational and financial risks associated with integrating Cerner and the Siemens Health Services business acquired from Siemens AG (the "Acquisition"); risks related to disruption of management time from ongoing business operations due to the integration of the business acquired in the Acquisition; failure to realize the synergies and other benefits expected from the Acquisition; risk that the assets and business acquired in the Acquisition may not continue to be commercially successful; the effect of the Acquisition on the ability of Cerner to retain customers and retain and hire key personnel and maintain relationships with key suppliers; litigation, claims or post-closing disputes relating to the Acquisition or the acquired assets and business; the potential for losses resulting from asset impairment charges; risks associated with volatility and disruption resulting from global economic conditions; managing growth in the new markets in which we offer solutions, health care devices and services; incurring significant additional expenses relating to the integration of the Siemens Health Services business into Cerner; compliance with restrictive covenants in our debt agreements, which may restrict our flexibility to operate our business; changing political, economic, regulatory and judicial influences; government regulation; significant competition and market changes; variations in our quarterly operating results; potential inconsistencies in our sales forecasts compared to actual sales; volatility in the trading price of our common stock and the timing and volume of market activity; our directors' authority to issue preferred stock and the anti-takeover provisions in our corporate governance documents; and, other risks, uncertainties and factors discussed elsewhere in this Form 10-Q, in our other filings with the Securities and Exchange Commission, including those under the caption "Risk Factors" in our latest annual report on Form 10-K, or in materials incorporated herein or therein by reference. Forward-looking statements are not guarantees of future performance or results. The reader should not place undue reliance on forward-looking statements since the statements speak only as of the date they are made. We undertake no obligation to update or revise forward-looking statements to reflect changed assumptions, the occurrence

of unanticipated events or changes in future operating results, financial condition or business over time.

Management Overview

Our revenues are primarily derived by selling, implementing and supporting software solutions, clinical content, hardware, devices and services that give health care providers secure access to clinical, administrative and financial data in real or near-real time, helping them improve quality, safety and efficiency in the delivery of health care.

Our fundamental strategic focus is the creation of organic growth by investing in research and development (R&D) to create solutions and services for the health care industry. This strategy has driven strong growth over the long-term, as reflected in five- and ten-year compound annual revenue growth rates of 14% or more. This growth has also created an important

Table of Contents

strategic footprint in health care, with Cerner® solutions in more than 18,000 facilities worldwide, including hospitals, physician practices, laboratories, ambulatory centers, behavioral health centers, cardiac facilities, radiology clinics, surgery centers, extended care facilities, retail pharmacies, and employer sites. Selling additional solutions back into this client base is an important element of our future revenue growth. We are also focused on driving growth through market share expansion by strategically aligning with health care providers that have not yet selected a supplier and by displacing competitors in health care settings that are looking to replace their current supplier.

We expect to drive growth through solutions and services that reflect our ongoing ability to innovate and expand our reach into health care. Examples of these include our CareAware® health care device architecture and devices, Cerner ITWorksSM services, revenue cycle solutions and services, and population health solutions and services. Finally, we believe there is significant opportunity for growth outside of the United States, with many non-U.S. markets focused on health care information technology as part of their strategy to improve the quality and lower the cost of health care.

Beyond our strategy for driving revenue growth, we are also focused on earnings growth. Similar to our history of growing revenue, our net earnings have increased at compound annual rates of 20% or more over the most recent five- and ten-year periods. We expect to drive continued earnings growth through ongoing revenue growth coupled with margin expansion, which we expect to achieve through efficiencies in our implementation and operational processes and by leveraging R&D investments and controlling general and administrative expenses.

We are also focused on continuing to deliver strong levels of cash flow, which we expect to accomplish by continuing to grow earnings and prudently managing capital expenditures.

Siemens Health Services

On February 2, 2015, we acquired substantially all of the assets, and assumed certain liabilities of Siemens Health Services, as further described in Note (2) of the notes to condensed consolidated financial statements. The acquired business (now referred to as "Cerner Health Services") offers a portfolio of enterprise-level clinical and financial health care information technology solutions, as well as departmental, connectivity, population health, and care coordination solutions globally. Solutions are offered on the Soarian, Invision, and i.s.h.med platforms, among others. Cerner Health Services also offers a range of complementary services including support, hosting, managed services, implementation services, and strategic consulting.

We believe the acquisition enhances our organic growth opportunities as it provides us a larger base into which we can sell our combined portfolio of solutions and services. The acquisition also augments our non-U.S. footprint and growth opportunities, increases our scale for R&D investment, and adds over 5,000 highly-skilled associates that will enhance our capabilities.

The addition of this business has a significant impact on the comparability of our condensed consolidated financial statements as of and for the three months ended April 4, 2015, in relation to the comparative periods presented herein.

Results Overview

The Company delivered strong levels of bookings, revenues, and operating cash flow in the first quarter of 2015.

New business bookings revenue, which reflects the value of executed contracts for software, hardware, professional services and managed services, was \$1.2 billion in the first quarter of 2015, which is an increase of 32% compared to \$910 million in the first quarter of 2014.

Revenues for the first quarter of 2015 increased 27% to \$996 million compared to \$785 million in the first quarter of 2014. First quarter 2015 revenues include \$176 million attributable to the acquired Cerner Health Services business.

The remaining year-over-year increase in revenue reflects ongoing demand for Cerner's core solutions and services driven by our clients' needs to keep up with regulatory requirements, increased contributions from Cerner ITWorks and Cerner revenue cycle solutions and services, and attaining new clients.

First quarter 2015 net earnings decreased 7% to \$111 million compared to \$120 million in the first quarter of 2014. Diluted earnings per share decreased 6% to \$0.32 compared to \$0.34 in the first quarter of 2014. Disclosure of the earnings contribution from the Cerner Health Services business is not practicable, as we have already integrated operations in many areas. The

Table of Contents

overall decrease in net earnings and diluted earnings per share was primarily a result of elevated operating expenses associated with the acquisition and integration of the Cerner Health Services business, as discussed further below.

First quarter 2015 and 2014 net earnings and diluted earnings per share reflect the impact of stock-based compensation expense. The effect of these expenses reduced the first quarter 2015 net earnings and diluted earnings per share by \$11 million and \$0.03, respectively, and the first quarter 2014 net earnings and diluted earnings per share by \$10 million and \$0.03, respectively.

First quarter 2015 net earnings and diluted earnings per share also reflect the impact of amortization of acquired intangibles and acquisition costs and related adjustments (includes acquisition and employee separation costs) associated with our acquisition and integration of the Cerner Health Services business. Amortization of acquired intangibles reduced net earnings and diluted earnings per share by \$10 million and \$0.03, respectively. Acquisition costs and related adjustments reduced net earnings and diluted earnings per share by \$17 million and \$0.05, respectively.

We had cash collections of receivables of \$981 million in the first quarter of 2015 compared to \$868 million in the first quarter of 2014. Days sales outstanding was 79 days for the first quarter of 2015 compared to 66 days for both the first and fourth quarters of 2014. Operating cash flows for the first quarter of 2015 were \$214 million compared to \$156 million in the first quarter of 2014.

Table of Contents

Results of Operations

Three Months Ended April 4, 2015 Compared to Three Months Ended March 29, 2014

The following table presents a summary of the operating information for the first quarters of 2015 and 2014:

| (In thousands) | 2015 | % of Revenue | 2014 | % of Revenue | % Change |
|---------------------------------|------------------|-----------------|------------------|-----------------|--------------|

Revenues & Backlog

Revenues increased 27% to \$996 million in the first quarter of 2015, as compared to \$785 million in the first quarter of 2014.

- System sales, which include revenues from the sale of licensed software (including perpetual license sales and software as a service), technology resale (hardware, devices, and sublicensed software), deployment period licensed software upgrade rights, installation fees, transaction processing and subscriptions, increased 26% to \$260 million in the first quarter of 2015 from \$207 million for the same period in 2014. The increase in system sales was primarily driven by contributions from the Cerner Health Services business.

Support and maintenance revenues increased 31% to \$229 million in the first quarter of 2015 compared to \$175 million during the same period in 2014. This increase was primarily attributable to contributions from the Cerner Health Services business.

Services revenue, which includes professional services, excluding installation, and managed services, increased 28% to \$490 million in the first quarter of 2015 from \$382 million for the same period in 2014. This increase was primarily driven by contributions from the Cerner Health Services business.

Revenue backlog, which reflects contracted revenue that has not yet been recognized as revenue, increased 41% to \$13.0 billion in the first quarter of 2015 compared to \$9.2 billion for the same period in 2014. This increase was driven by growth in new business bookings during the past four quarters, including continued strong levels of managed services, Cerner ITWorks and Cerner revenue cycle services bookings that typically have longer contract terms, coupled with contributions from the Cerner Health Services business.

Table of Contents

Costs of Revenue

Cost of revenues as a percentage of total revenues was 17% in the first quarter of 2015, compared to 16% in the same period of 2014. The higher cost of revenues as a percent of revenue was driven by a higher mix of technology resale, which carries a higher cost of revenue, combined with a higher amount of third party resources being utilized for support and services. Cerner Health Services uses a higher mix of third party resources, in particular for global operations.

Cost of revenues includes the cost of reimbursed travel expense, sales commissions, third party consulting services and subscription content and computer hardware, devices and sublicensed software purchased from manufacturers for delivery to clients. It also includes the cost of hardware maintenance and sublicensed software support subcontracted to the manufacturers. Such costs, as a percent of revenues, typically have varied as the mix of revenue (software, hardware, devices, maintenance, support, services and reimbursed travel) carrying different margin rates changes from period to period. Cost of revenues does not include the costs of our client service personnel who are responsible for delivering our service offerings. Such costs are included in sales and client service expense.

Operating Expenses

Total operating expenses increased 38% to \$661 million in the first quarter of 2015, compared with \$478 million in the first quarter of 2014.

Sales and client service expenses as a percent of total revenues were 42% in each of the first quarters of 2015 and 2014. These expenses increased 27% to \$420 million in the first quarter of 2015, from \$331 million in the same period of 2014. Sales and client service expenses include salaries and benefits of sales, marketing, support, and services personnel, depreciation and other expenses associated with our managed services business, communications expenses, unreimbursed travel expenses, expense for share-based payments, and trade show and advertising costs. The increase was driven by services growth and the addition of the Cerner Health Services business.

Software development expenses as a percent of revenue were 13% in the first quarter of 2015, compared to 12% in the same period of 2014. Expenditures for software development reflect ongoing development and enhancement of the Cerner Millennium and HealthIntent platforms, with a focus on supporting key initiatives to enhance physician experience, revenue cycle and population health solutions. The first quarter of 2015 also includes expenditures related to Cerner Health Services solutions. A summary of our total software development expense in the first quarters of 2015 and 2014 is as follows:

| (In thousands) | Three Months Ended | |
|---|--------------------|---------------|
| | 2015 | 2014 |
| Software development costs | \$ 161,249 | \$ 110,988 |
| Capitalized software costs | (62,524) | (43,984) |
| Capitalized costs related to share-based payments | (543) | (560) |
| Amortization of capitalized software costs | 29,089 | 25,101 |
| Total software development expense | \$ 127,271 | \$ 91,545 |

General and administrative expenses as a percent of total revenues were 11% in the first quarter of 2015, compared to 7% in the same period of 2014. These expenses increased 105% to \$113 million in the first quarter of 2015, from \$55 million for the same period in 2014. General and administrative expenses include salaries and benefits for corporate, financial and administrative staffs, utilities, communications expenses, professional fees, depreciation, amortization of intangible assets, transaction gains or losses on foreign currency, expense for share-based payments, acquisition costs and related adjustments. The increase in general and administrative expenses as a percent of total revenues was primarily driven by expenses associated with the acquisition and integration of the Cerner Health Services business. Specifically, the first quarter of 2015 includes amortization of acquired intangibles and acquisition costs and related adjustments (includes acquisition and employee separation costs) of \$15 million and \$25 million, respectively. We expect acquisition costs and related adjustments to decline in future periods, however amortization of acquired

intangibles is expected to continue. Refer to Note (2) of the notes to condensed consolidated financial statements for further detail regarding intangible assets recorded in connection with our acquisition of the Cerner Health Services business.

Table of Contents

Non-Operating Items

Our effective tax rate was 33.6% for the first quarter of 2015 and 34.0% for the first quarter of 2014. This slight decrease in the effective tax rate in 2015 results from the favorability of net discrete items recorded in the first quarter of 2015 as compared to the first quarter of 2014.

Other income was \$3 million in the first quarter of 2014 and less than \$1 million in the first quarter of 2015. The decline is primarily due to increased interest expense as a result of the issuance of Notes in January 2015.

Operations by Segment

We have two operating segments: Domestic and Global. The Domestic segment includes revenue contributions and expenditures associated with business activity in the United States. The Global segment includes revenue contributions and expenditures linked to business activity in Aruba, Australia, Austria, Belgium, Brazil, Canada, Cayman Islands, Chile, Denmark, Egypt, England, Finland, France, Germany, Guam, India, Ireland, Israel, Luxembourg, Malaysia, Mexico, Netherlands, Norway, Portugal, Qatar, Romania, Saudi Arabia, Singapore, Slovakia, Spain, Sweden, Switzerland and the United Arab Emirates. Refer to Note (12) of the notes to condensed consolidated financial statements for further information regarding our reportable segments.

The following table presents a summary of operating segment information for the first quarters of 2015 and 2014:

| (In thousands) | 2015 | % of Revenue | 2014 | % of Revenue | % Change |
|---------------------------------|------------|--------------|------------|--------------|----------|
| Domestic Segment Revenues | \$870,507 | 100% | \$697,704 | 100% | 25% |
| Costs of revenue | 142,717 | 16% | 115,345 | 17% | 24% |
| Operating expenses | 361,086 | 41% | 273,990 | 39% | 32% |
| Total costs and expenses | 503,803 | 58% | 389,335 | 56% | 29% |
| Domestic operating earnings | 366,704 | 42% | 308,369 | 44% | 19% |
| Global Segment Revenues | 125,582 | 100% | 87,057 | 100% | 44% |
| Costs of revenue | 25,943 | 21% | 13,754 | 16% | 89% |
| Operating expenses | 50,571 | 40% | 45,069 | 52% | 12% |
| Total costs and expenses | 76,514 | 61% | 58,823 | 68% | 30% |
| Global operating earnings | 49,068 | 39% | 28,234 | 32% | 74% |
| Other, net | (248,860) | | (158,600) | | 57% |
| Consolidated operating earnings | \$166,912 | | \$178,003 | | (6)% |

Domestic Segment

Revenues increased 25% to \$871 million in the first quarter of 2015 from \$698 million in the same period of 2014. The increase was primarily driven by contributions from the Cerner Health Services business.

Cost of revenues was 16% of revenues in the first quarter of 2015, compared to 17% of revenues in the same period of 2014. This relationship was consistent across the periods, with a difference of only 30 basis points.

Operating expenses were 41% of revenues in the first quarter of 2015, compared to 39% in the same period of 2014. The increase as a percent of revenues was primarily driven by addition of the Cerner Health Services business.

Global Segment

Revenues increased 44% to \$126 million in the first quarter of 2015 from \$87 million in the same period of 2014. The increase was primarily driven by contributions from the Cerner Health Services business.

Table of Contents

Cost of revenues was 21% of revenues in the first quarter of 2015, compared to 16% of revenues in the same period of 2014. The higher cost of revenues in 2015 was primarily driven by a higher amount of third party resources utilized for support and services. Cerner Health Services uses a higher mix of third party resources in its operations.

Operating expenses were 40% of revenues in the first quarter of 2015, compared to 52% of revenues in the same period of 2014. The lower operating expenses as a percent of revenue in 2015 was primarily driven by a higher amount of third party resources utilized for support and services, discussed above.

Other, net

Operating results not attributed to an operating segment include expenses such as software development, general and administrative expenses, acquisition costs and related adjustments, share-based compensation expense, and certain amortization and depreciation. These expenses increased 57% to \$249 million in the first quarter of 2015 from \$159 million in the same period of 2014. The increase is primarily due to the addition of corporate and development personnel from our acquisition of the Cerner Health Services business. Additionally, the first quarter of 2015 includes amortization of acquired intangibles and acquisition costs and related adjustments (includes acquisition and employee separation costs) of \$15 million and \$25 million, respectively.

Liquidity and Capital Resources

Our liquidity is influenced by many factors, including the amount and timing of our revenues, our cash collections from our clients and the amount we invest in software development, acquisitions and capital expenditures.

Our principal sources of liquidity are our cash and cash equivalents, which primarily consist of money market funds and time deposits with original maturities of less than 90 days, and short-term investments. At April 4, 2015, we had cash and cash equivalents of \$390 million and short-term investments of \$294 million, as compared to cash and cash equivalents of \$635 million and short-term investments of \$786 million at January 3, 2015. We utilized a large amount of cash and investments to fund our acquisition of the Cerner Health Services business in February 2015. The non-U.S. subsidiaries for which we have elected to indefinitely reinvest earnings outside of the U.S. held approximately 23% of our aggregate cash, cash equivalents and short-term investments at April 4, 2015. As part of our current business strategy, we plan to indefinitely reinvest the earnings of these foreign operations; however, should the earnings of these foreign operations be repatriated, we would accrue and pay tax on such earnings, which may be material.

Additionally, we maintain a \$100 million multi-year revolving credit facility, which expires in February 2017. The facility provides an unsecured revolving line of credit for working capital purposes, along with a letter of credit facility. As of April 4, 2015, we had no outstanding borrowings under this agreement; however, we had \$18 million of outstanding letters of credit, which reduced our available borrowing capacity to \$82 million.

We believe that our present cash position, together with cash generated from operations, short-term investments and, if necessary, our available line of credit, will be sufficient to meet anticipated cash requirements during 2015.

The following table summarizes our cash flows in the first three months of 2015 and 2014:

| (In thousands) | Three Months Ended | |
|--|--------------------|-----------|
| | 2015 | 2014 |
| Cash flows from operating activities | \$214,247 | \$155,787 |
| Cash flows from investing activities | (1,005,812) | (137,585) |
| Cash flows from financing activities | 553,184 | (1,717) |
| Effect of exchange rate changes on cash | (6,487) | 1,066 |
| Total change in cash and cash equivalents | (244,868) | 17,551 |
| Cash and cash equivalents at beginning of period | 635,203 | 202,377 |

| | | |
|--|-----------|-----------|
| Cash and cash equivalents at end of period | \$390,335 | \$219,928 |
| Free cash flow (non-GAAP) | \$68,916 | \$41,582 |

Table of Contents

Cash from Operating Activities

| (In thousands) | Three Months Ended | |
|--|--------------------|------------|
| | 2015 | 2014 |
| Cash collections from clients | \$981,202 | \$867,657 |
| Cash paid to employees and suppliers and other | (762,506) | (628,484) |
| Cash paid for interest | (983) | (1,024) |
| Cash paid for taxes, net of refunds | (3,466) | (82,362) |
| Total cash from operations | \$214,247 | \$155,787 |

Cash flow from operations increased \$58 million in the first three months of 2015 when compared to the same period of 2014 due to an increase in cash impacting earnings, along with a reduction in cash used to fund working capital requirements. Disclosure of the operating cash flow contribution from the Cerner Health Services business is not practicable, as we have already integrated operations in many areas. During the first three months of 2015 and 2014, we received total client cash collections of \$981 million and \$868 million, respectively. Days sales outstanding was 79 days in the first quarter of 2015, compared to 66 days for both the first and fourth quarters of 2014. Revenues provided under support and maintenance agreements represent recurring cash flows. We expect these revenues to continue to grow as the base of our installed systems grows.

In the first quarter of 2015, the Company adopted a voluntary separation plan ("VSP") for eligible associates, as further described in Note (1) of the notes to condensed consolidated financial statements. We expect cash outflows associated with the VSP to primarily occur in the second quarter of 2015.

Cash from Investing Activities

| (In thousands) | Three Months Ended | |
|---|--------------------|-------------|
| | 2015 | 2014 |
| Capital purchases | \$(82,264) | \$(69,661) |
| Capitalized software development costs | (63,067) | (44,544) |
| Purchases of investments, net of sales and maturities | 514,829 | (20,079) |
| Purchases of other intangibles | (3,296) | (3,301) |
| Acquisition of businesses | (1,372,014) | — |
| Total cash flows from investing activities | \$(1,005,812) | \$(137,585) |

Cash flows from investing activities consists primarily of capital spending, short-term investment, and acquisition activities.

Our capital spending in 2015 is driven by capitalized equipment purchases primarily to support growth in our CernerWorks managed services business, investments in a cloud infrastructure to support cloud-based solutions, building and improvement purchases to support our facilities requirements and capitalized spending to support our ongoing software development initiatives. Capital spending in 2015 is expected to remain higher than 2014 comparable periods, as we continue our current capital and software development initiatives, fund equipment purchases and software development initiatives associated with our Cerner Health Services business, and fund construction on our Trails Campus (office space development located in Kansas City, Missouri).

Short-term investment activity historically consists of the investment of cash generated by our business in excess of what is necessary to fund operations. The increase in net cash from investments in the first quarter of 2015, compared to the same period in 2014 is due to the use of proceeds from investment maturities to partially fund our acquisition of the Cerner Health Services business in February 2015. We expect subsequent periods in 2015 to reflect net purchases of investments, as we expect strong levels of cash flow.

On February 2, 2015 we acquired the Cerner Health Services business, as discussed above. Consideration for the acquisition was \$1.37 billion of cash, consisting of the \$1.3 billion agreed upon price plus working capital adjustments. We used a combination of cash on hand and proceeds from the maturities of investments to fund the acquisition. Refer to Note (2) of the notes to condensed consolidated financial statements for further information regarding the acquisition.

Table of Contents

Cash from Financing Activities

| (In thousands) | Three Months Ended | |
|--|--------------------|------------|
| | 2015 | 2014 |
| Long-term debt issuance | \$ 500,000 | \$— |
| Repayment of long-term debt and capital lease obligations | — | (66) |
| Cash from option exercises (including excess tax benefits) | 53,976 | 22,481 |
| Treasury stock purchases | — | (75,026) |
| Cash grants | — | 48,000 |
| Other, net | (792) | 2,894 |
| Total cash flows from financing activities | \$553,184 | \$(1,717) |

In January 2015, we issued \$500 million in aggregate principal amount of Senior Notes. Proceeds from the Senior Notes are available for general corporate purposes. Refer to Note (9) of the notes to consolidated financial statements for additional information regarding the Senior Notes. We do not expect to issue additional long-term debt for the remainder of 2015.

Cash inflows from stock option exercises are dependent on a number of factors, including the price of our common stock, grant activity under our stock option and equity plans, and overall market volatility. We expect cash inflows from stock option exercises to continue throughout 2015 based on the number of exercisable options as of April 4, 2015 and our current stock price.

During the three months ended March 29, 2014, we repurchased 1.3 million shares of our common stock for total consideration of \$75 million. As of April 4, 2015, \$100 million remains available under the repurchase program authorized by our Board of Directors. We may continue to repurchase shares under this program in 2015, which will be dependent on a number of factors, including the price of our common stock.

In January 2014 we received \$48 million of cash grants from the Kansas Department of Commerce for project costs in connection with the construction of our Continuous Campus (owned office space in Kansas City, Kansas, which houses associates who manage and support our clients' IT systems).

Free Cash Flow

| (In thousands) | Three Months Ended | |
|---|--------------------|-----------|
| | 2015 | 2014 |
| Cash flows from operating activities (GAAP) | \$214,247 | \$155,787 |
| Capital purchases | (82,264) | (69,661) |
| Capitalized software development costs | (63,067) | (44,544) |
| Free cash flow (non-GAAP) | \$27,334 | \$68,916 |
| | \$41,582 | |

Free cash flow increased \$27 million in the first three months of 2015 compared to the same period in 2014. This increase is primarily due to increased cash from operations, partially offset by capital spending to support our growth initiatives and facilities requirements, and increased capitalized spending to support our ongoing software development initiatives. We believe our free cash flow levels reflect continued strength in our earnings. Free cash flow is a non-GAAP financial measure used by management along with GAAP results to analyze our earnings quality and overall cash generation of the business. We define free cash flow as cash flows from operations reduced by capital purchases and capitalized software development costs. The table above sets forth a reconciliation of free cash flow to cash flows from operating activities, which we believe to be the GAAP financial measure most directly comparable to free cash flow. The presentation of free cash flow is not meant to be considered in isolation, nor as a substitute for, or

superior to, GAAP results, and investors should be aware that non-GAAP measures have inherent limitations and should be read only in conjunction with our consolidated financial statements prepared in accordance with GAAP. Free cash flow may also be different from similar non-GAAP financial measures used by other companies and may not be comparable to similarly titled captions of other companies due to potential inconsistencies in the method of calculation. We believe free cash flow is important to enable investors to better understand and evaluate our ongoing operating results and allows for greater transparency in the review of our overall financial, operational and economic performance, because free cash flow takes into account the capital expenditures necessary to operate our business.

Table of Contents

Item 3. Quantitative and Qualitative Disclosures about Market Risk

No material changes.

Item 4. Controls and Procedures

The Company's Chief Executive Officer (CEO) and Chief Financial Officer (CFO) have evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in the Exchange Act Rules 13a-15(e) and 15d-15(e)) as of the end of the period covered by this quarterly report on Form 10-Q (the Evaluation Date). They have concluded that, as of the Evaluation Date, these disclosure controls and procedures were effective to ensure that material information relating to the Company and its consolidated subsidiaries would be made known to them by others within those entities and would be disclosed on a timely basis. The CEO and CFO have concluded that the Company's disclosure controls and procedures are designed, and are effective, to give reasonable assurance that the information required to be disclosed by the Company in reports that it files under the Exchange Act is recorded, processed, summarized and reported within the time period specified in the rules and forms of the SEC. They have also concluded that the Company's disclosure controls and procedures are effective to ensure that information required to be disclosed in the reports that are filed or submitted under the Exchange Act are accumulated and communicated to the Company's management to allow timely decisions regarding required disclosure.

On February 2, 2015, we acquired Siemens Health Services, as further described in Note (2) of the notes to condensed consolidated financial statements. We have begun to integrate policies, processes, people, technology and operations for our combined operations, and we will continue to evaluate the impact of any related changes to internal control over financial reporting during the fiscal year. Except for any changes in internal controls related to the integration of the Siemens Health Services business into Cerner, there were no other changes in the Company's internal controls over financial reporting during the fiscal quarter ended April 4, 2015, that have materially affected, or are reasonably likely to materially affect, the Company's internal controls over financial reporting.

The Company's management, including its CEO and CFO, has concluded that our disclosure controls and procedures and internal control over financial reporting are designed to provide reasonable assurance of achieving their objectives and are effective at that reasonable assurance level. However, the Company's management can provide no assurance that our disclosure controls and procedures or our internal control over financial reporting can prevent all errors and all fraud under all circumstances. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been or will be detected. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions; over time, controls may become inadequate because of changes in conditions, or the degree of compliance with policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected.

Part II. Other Information

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

(c) Issuer Purchases of Equity Securities

The table below provides information with respect to Common Stock purchases by the Company during the first fiscal quarter of 2015.

(In thousands, except share data)

| Period | Total Number of Shares Purchased (a) | Average Price Paid per Share | Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs (b) | Approximate Dollar Value of Shares That May Yet Be Purchased Under the Plans or Programs (b) |
|--------------------------------------|--------------------------------------|------------------------------|--|--|
| January 4, 2015 - January 31, 2015 | 1,091 | \$66.73 | — | \$100,000 |
| February 1, 2015 - February 28, 2015 | 1,528 | 72.17 | — | 100,000 |
| March 1, 2015 - April 4, 2015 | 1,391 | 71.57 | — | 100,000 |
| Total | 4,010 | \$70.48 | — | |

All of the shares of common stock presented in the table above were originally granted to employees as restricted stock pursuant to our 2011 Omnibus Equity Incentive Plan (the "Omnibus Plan"). The Omnibus Plan allows for the (a) withholding of shares to satisfy the minimum tax obligations due upon the vesting of restricted stock. Pursuant to the Omnibus Plan, the shares reflected above were relinquished by employees in exchange for our agreement to pay federal and state withholding obligations resulting from the vesting of the Company's restricted stock.

In May 2014, we announced that our Board of Directors approved an amendment to our existing stock repurchase program that was originally announced in December 2013, pursuant to which the maximum aggregate purchase price for all shares of our Common Stock authorized for repurchase under the program was increased by \$100 (b) million to \$317 million, excluding transaction costs. As of April 4, 2015, \$100 million remained available for repurchase under the program. The program does not have an expiration date and may be amended, suspended or discontinued at any time. Our Board of Directors will periodically evaluate the program and there can be no assurances as to the number of shares of our Common Stock the Company will repurchase.
