The maximum amount of shares assumes that all PIK Notes described in footnotes (2) and (3) are converted immediately prior to maturity in 2023. - Up to 19,899,733 shares of our common stock with par value of \$0.001 (“Common Stock”) issuable on conversion of \$10.5 million of 10% PIK-Election Convertible Notes due 2023 (“PIK Notes”). Given the Company’s current financial position, it is anticipated that for the foreseeable future, the Company will pay interest using Notes issued as payment-in-kind interest.
 - 10,000,000 already outstanding shares of Common Stock issued on December 22, 2011.
- The offer and sale by the holders of warrants (“Warrants”) listed under the table “Warrants” in the “Selling Securityholders” section of up to 5,000,000 warrants (“Warrants”), each of which gives the holder the right to purchase 1.0372 shares of Common Stock at \$1.9281 per share (as the price and the number of shares may be adjusted from time to time under antidilution provisions).
- The sale of up to 5,186,413 shares of our Common Stock issuable upon exercise of the Warrants (“Warrant Shares”), either by the holders of the Warrants to the extent that the Selling Securityholders exercise the Warrants or by us, to the extent the Warrants are not exercised by the Selling Securityholders before sale under this prospectus or otherwise.

See "Antidilution Provisions of the PIK Notes" for a detailed description of the mechanics of the antidilution provisions of the PIK Notes. See "Description of Warrants" for a detailed description of the antidilution provisions of the Warrants.

Use of Proceeds The Company will receive none of the proceeds from the sale of the Common Stock or the Warrants by the Selling Securityholders. The proceeds will go to the Selling Securityholders. See "Plan of Distribution."

Business The Company is an exploration-stage mining company that owns the Dragon Mine, located in Eureka, Utah. The Dragon Mine contains halloysite clay and other clays and also iron ore, among other minerals. There are also five waste piles at the Dragon Mine created by former owners and the clay minerals in waste piles may have potential for commercialization.

As of April 10, 2014, the Company has not classified the halloysite and other clay deposits at the Dragon Mine as a reserve according to Industry Guide No. 7 of the Securities and Exchange Commission.

As of April 10, 2014 the Company is marketing its halloysite product to enhance the performance of a range of high-end commercial applications, many of which have not previously utilized halloysite.

The Company is also marketing its iron ore, but as of April 10, 2014 has not classified the iron ore deposit as a reserve according to Industry Guide No. 7 of the Securities and Exchange Commission.

The Company has not yet begun to market the mineralization in the waste piles and as of April 10, 2014, has not classified that mineralization in the waste piles as a reserve according to Industry Guide No. 7 of the Securities and Exchange Commission.

As of April 10, 2014 sales of halloysite and the iron ore have been minimal.

At December 31, 2013 and December 31, 2012, the Company had accumulated deficits since management took over on January 1, 2009 of \$41,812,476 and \$28,748,950, respectively, in addition to unprofitable operations. For the twelve months ended December 31, 2013 and 2012, the Company sustained net losses before discontinued operations of \$13,063,526 and 9,732,399, respectively. The Company's continuation as a going concern is contingent upon its ability to obtain additional financing and/or to generate revenue and cash flow to meet its obligations on a timely basis. The Company has historically been unable to generate enough revenue and cash flow to fund its operating expenses and capital expenditures.

See "Business."

Risk Factors An investment in our Securities is very speculative and involves a high degree of risk. If you decide to buy our Securities, you should be able to afford a complete loss of your investment.

In order to meet operating expenses, the Company has had to raise funds from investors through the issuance of equity and convertible debt securities. If the Company is unable to fund its operations through the commercialization of the Dragon Mine, and/or the sale of equity,

debt, or a combination of both, it may have to file bankruptcy. The Company may have to seek additional financing and there is no assurance that it will be able to do so.

See “Risk Factors.”

Common Stock Rights Holders of Common Stock are entitled to one vote per share. Holders of Common Stock have no cumulative voting rights in the election of directors.

Holders of Common Stock are entitled to receive ratably dividends if, as and when dividends are declared from time to time by our Board of Directors out of funds legally available for that purpose, after payment of dividends required to be paid on outstanding preferred stock or series Common Stock.

The Company has never paid a dividend and does not anticipate paying one in the future.

See “Description of Common Stock.”

PIK Notes On August 10, 2013, the Company sold \$10,500,000 of 10% Convertible PIK Interest Notes due 2023. The Notes are convertible into Common Stock at the price of \$1.40 per share. The \$10.5 million of PIK Notes are convertible into 7,500,000 shares of Common Stock. The Company may pay interest in cash or in the form of PIK Notes. Given the Company's financial condition, it is reasonable to assume that the Company will pay interest in the form of additional PIK Notes for the foreseeable future. The Company has already issued PIK Notes as interest in the amount of \$525,000 that are convertible into 375,000 shares of Common Stock. If the PIK Notes are held to maturity and all interest is paid in the form of PIK Notes additional notes in the amount of \$16, 834, 626 that would be convertible into 12,024,733 shares of Common Stock. The PIK Notes are subject to antidilution provisions.

See "PIK NOTES"

Warrants The Warrant is exercisable in whole or in part at an exercise price of \$1.9281 for 1.0372 shares of Common Stock . The Warrants are exercisable immediately and expire five years after issuance, which was December 22, 2011. The Warrants were sold on December 22, 2011 to the two entities named in the table "Warrants" in the "Selling Securityholder" section . The Warrants were sold as part of units consisting of two shares of common stock and one Warrant. 10 million shares and 5 million warrants were sold for an aggregate price of \$10 million. The Warrants were not separately priced. Initially, each Warrant was exercisable for one share at an exercise price of \$2.00. There have been sales of common stock and securities convertible into common stock by the Company since the date of the issuance of the Warrants at prices below the exercise price of the Warrants. As a result of antidilution provisions in the Warrants triggered by such sales below the exercise price of the Warrants, the exercise price of the Warrants has been reduced and the number of shares issuable on exercise of the Warrants has been increased. If there are future sales of common stock or securities convertible into common stock at prices below the then current exercise price of the Warrants, further adjustments reducing the exercise price of, and increasing the number of shares issuable under, the Warrants will be made.

Rights of Holders on Certain Events

In the event of a merger or similar transaction, voluntary or involuntary dissolution, liquidation or winding up of the affairs of the Company, the holders of the Warrants will be entitled to receive the same consideration as shareholders.

In the event of a Fundamental Transaction, the holders of the Warrants will have an option to require the Company to repurchase the Warrants, at a price equal to the product of (i) the number of Warrant Shares issuable upon exercise of the Warrant and (ii) the five day VWAP as of the fifth trading day immediately following public announcement of the

Fundamental Transaction less the exercise price.

A Fundamental Transaction includes (a) a merger, or similar transaction in which the Company is not the survivor in such transaction or if the Company is the survivor, the holders of shares of Common Stock immediately prior to such transaction (including for this purpose any shares issuable upon exercise of the Warrants) represent less than 50% of the shares of Common Stock outstanding immediately following such transaction, and (b) any sale of all or substantially all of the Company's assets.

Adjustments to the Exercise Price of, and the Number of Shares Subject to, the Warrant

The number of shares issuable on the exercise of the Warrant and the exercise price will be adjusted to prevent dilution in the event of (i) any issuance of Common Stock as a dividend or distribution to all holders of Common Stock, or a subdivision, combination or reclassification of the outstanding shares of Common Stock into a greater or smaller number of shares, (ii) below market issuances; (iii) issuances below the then current market price; (iv) pro rate distributions of a dividend or distribution evidences of indebtedness, assets (including cash and cash dividends, or rights, warrants, options or other securities convertible into or exchangeable or exercisable for capital stock (other than Common Stock otherwise dealt with above); (v) the consummation of a self-tender offer or self-exchange offer for Common Stock, in which the cash and fair value of any other consideration included in the payment per share of Common Stock exceeds the market price. The adjustments are "weighted-average" as opposed to "full ratchet" and are "narrow-based" (taking into account outstanding Common Stock) as opposed to "broad-based" (taking into account not only outstanding shares but also shares issuable pursuant to the exercise of options and warrants). The adjustments in general to lower the exercise price and increase the number of shares to compensate for the dilutive effects of the several actions.

If any single action would require adjustment of the exercise price pursuant to more than one adjustment procedures set forth above, only one adjustment will be made and such adjustment will be the amount of adjustment that has the highest absolute value.

Call Option

The Company has the option acquire the Warrant, in whole or in part; provided, that, the following conditions are met: (a) the VWAP for the 60 consecutive trading days immediately preceding the date on which the holder receives the call notice is in excess of \$2.00 and (b) the closing market price of the Common Stock is in excess of \$2.00 on the date immediately preceding the date on which the call notice is received.

For each part of this Warrant representing the right to acquire 1.0372 shares (as may be adjusted from time to time of Common Stock (each, a "Warrant Right"), the price to be paid in cash by the Company to the

holder for each Warrant Right (the “Option Price”) will be equal to the difference between (a) the greater of (i) the market price on the date immediately preceding the date on which the holder receives the call notice and (ii) the VWAP for the 60 consecutive trading days immediately preceding the date on which the holder receives the call notice and (b) \$2.00; provided , that, under no circumstances will the Company acquire the Warrant Rights from the holder for less than \$0.10 per Warrant Right.
See “ Description of Warrants .”

Market for Our Common Stock Our Common Stock is traded on the OTCQB. On April 10 , 2014, the closing market price on the OTCQB was \$0 .66 .
See “Price Range of our Common Stock.”

Market for the Warrants There is no established market for the Warrants and it is anticipated that the Warrants none will develop.

OTHER MATTERS REFERRED TO IN THIS ANNUAL REPORT, BEFORE YOU DECIDE TO BUY OUR SECURITIES. IF YOU DECIDE TO BUY OUR SECURITIES, YOU SHOULD BE ABLE TO AFFORD A COMPLETE LOSS OF YOUR INVESTMENT.

SPECIFIC RISKS APPLICABLE TO APPLIED MINERALS

FINANCIAL HISTORY

Losses. We have experienced annual operating losses since our reactivation in September 1997. For the year ended December 31, 2013 and 2012, the Company sustained losses from continuing operations of \$13,063,526 and \$9,732,399, respectively.

Accumulated Deficits. . At December 31, 2013 and 2012, the Company had accumulated deficits since current management took over on January 1, 2009 of \$41,812,476 and \$28,748,950, respectively, in addition to limited cash and unprofitable operations.

NO SIGNIFICANT SALES .

Since January 1, 2009 when current management took over, the Company has sold only \$313,519 of clay and iron oxide and in 2013, the Company had sales of only \$54,825.

RELIANCE OF EQUITY AND DEBT SALES TO FINANCE OPERATIONS

The Company has had to rely mainly on the proceeds from the sale of stock and convertible debt to fund its operations. If the Company is unable to fund its operations through the commercialization of its minerals at the Dragon Mine, there is no assurance that it will be able to raise funds through the sale of equity or debt. If so, it may have to file bankruptcy.

SUCCESS IS DEPENDENT ON PENETRATING MARKETS

Obviously, in order for the Company to be successful, we must penetrate our target markets and achieve sales levels and generate sufficient cash flow to break even and to be a success we must do better than that. As outlined below, there is uncertainty that we will be able to do so.

Many of the applications for which we are selling for our halloysite-based material are applications for which halloysite has not been used previously. As a result, there are a number of special obstacles that we need to overcome to achieve sales in these markets. It is necessary to convince manufacturers to change their manufacturing processes and substitute our halloysite-based material for the product they are currently using, and in some cases, to use our halloysite-based material where no product was used before. The process beginning with introducing our halloysite-based material to manufactures and ending with the manufacturing using our production its products can encounter inertia, skepticism, and different corporate priorities; requires educating potential customers on the benefits of our material and how to use our material (how much to add, when to add, and so forth) and often requires working with potential customers to assure that the potential customers test the materials under proper conditions. While we believe that our halloysite-based material often adds significant value, we can say two things about the process that ends with manufacturers using our halloysite-based material: it can take a long time and there is no certainty that we will be able to convince enough manufacturers to use our halloysite-base material. Moreover, since our halloysite-based materials have not been used in large scale commercial production, there is an element of uncertainty as to whether it will demonstrate significant value in that context.

Other applications for which we are selling for our halloysite-based material are applications for which halloysite has been used previously. Similarly, the applications for which we are selling our iron oxides are applications for which iron oxides have been used previously. To penetrate these markets, we fact the difficulties encounters by any company trying to enter an established market competing against established players, all of whom are in better financial condition that we are and are already familiar to, and in many cases have relationships with, the potential customers, all of which can make such customers more attractive than us. While we believe that in many cases, our products are superior to those already in the market, there is uncertainty that we will be able to penetrate those markets to a sufficient degree.

COMPETITION

Dragonite .

Currently there are no companies competing with us in any significant respect in connection with the sale of halloysite-based products (Dragonite) in the advanced applications target markets. We do face competition in the whiteware markets from Imerys, a large French minerals company that owns the only other mine to produce significant tonnage of halloysite. For our Dragonite to penetrate our target markets, we face significant competition as we compete against non-halloysite solutions sold by larger, more established companies. The basis for competition is performance and price.

If we are successful in penetrating our target markets, we may face competition from operators of halloysite clay deposits in other locations around the world. We believe that our Dragon Mine property is one of only two large-sized halloysite deposits in the world. The other deposit is owned by Imerys. It is our understanding that given the level of purity of the Imerys' halloysite, Imerys would face processing costs that we do not have to bear if it decided to compete in markets for advanced applications. There are a number of other smaller deposits of halloysite in the U.S. and other parts of the world, some of which produce halloysite commercially. Whether halloysite from any of these deposits will compete with our halloysite-based products, or the extent to which they can compete, is not known to us.

Iron Oxide

We expect to compete with companies that are much larger and better capitalized than we are.

Pigments. There is significant competition within the iron oxide pigment market. We will try to compete directly with synthetic iron oxide pigments in the coatings markets by selling our pigments at a lower price. In other iron oxide pigment markets, there is very little product differentiation with competition focused primarily on price.

Technical and Other Markets . There is significant competition in the technical markets based on performance and price.

Pricing

Because we have not yet penetrated any market on a continuing basis, we cannot predict whether we will be able to sell our products at the prices we predict or whether we will have to reduce the prices, perhaps substantially, to be able to make sales in significant amounts.

THE COMPANY'S SUCCESS DEPENDS ON OUR CEO

Andre Zeitoun is the President and CEO of Applied Minerals, Inc. Mr. Zeitoun has played a critical role in leading the effort to commercialize our halloysite-based products, iron oxides and waste piles. If the Company loses the service of Mr. Zeitoun, there is no assurance that the Company would be able to attract and retain a qualified replacement.

OUR ASSETS AND OPERATIONS MAY BE ADVERSELY AFFECTED BY RISKS AND HAZARDS THAT MAY NOT BE FULLY COVERED BY INSURANCE.

We maintain insurance to protect against losses that may result from some of the risk of the mining business, such as property loss and business interruption, in amounts we believe to be reasonably consistent with industry practice and circumstances surrounding each identified risk. Such insurance, however, contains exclusions and limitations on coverage, particularly with respect to environmental liability and political risk. There can be no assurance that claims would be paid under such insurance policies in connection with a particular event. Insurance specific to environmental risks or to timber on our Idaho properties is generally either unavailable or, we believe, too expensive for us, and we therefore do not maintain environmental or timber insurance. Occurrence of events for which we are not insured may have an adverse effect on our business.

ESTIMATES OF MINERALIZED MATERIAL

The estimates of mineralized material included in the Company's Annual Report on Form 10-K for the year ended December 31, 2013 are estimates and are not guarantees that the tonnages or grades actually exist. Estimation is an interpretive process based on available data and certain assumptions. You are strongly cautioned not to put undue much reliance on estimate of mineralized material. Moreover, estimates of mineralized material are not estimates of amounts that may be sold. Estimates of mineralization are estimates of in situ amounts without taking into account mining losses (which would take into account the effects of a final mine plan) and processing losses. The estimation of mineralized material involves greater uncertainty as to their existence and economic feasibility than the estimation of proven and probable reserves. Investors are cautioned not to assume that mineralized material will be converted into reserves.

COMMON STOCK: MARKET, PRICING AND VOLATILITY

Our common stock is traded on the OTCQX. In recent years, the number of shares traded on a daily has often not been significant. As a result, the price of the stock has been quite volatile. There is no assurance that trading will become active of a consistent basis. The market price of our stock at any given point in time may not accurately reflect our value and may prevent investors from realizing a profit on their investment.

TENDER OFFERS OR TAKEOVER ATTEMPTS.

Certain provisions in our certificate of incorporation, our by-laws and Delaware law could make it more difficult for a third party to acquire control of us, even if that transaction could be beneficial to stockholders. These impediments include:

- The Delaware Business Combinations with Interested Stockholders Act generally operates to prevent a wide variety of transactions between the corporation, on one hand, and an "interested shareholder" and its affiliates, on the other hand. It generally prohibits a publicly held Delaware corporation from engaging in a "business combination" with an "interested stockholder" for a period of three years

after the date of the transaction in which the person became an interested stockholder, unless (i) prior to such date the Board of Directors of the corporation approved either the business combination or the transaction in which the person became an interested stockholder, (ii) upon consummation of the transaction that resulted in the stockholder becoming an interested stockholder, the interested stockholder owns at least 85% of the outstanding voting stock of the corporation excluding shares owned by officers or directors of the corporation and by certain employee stock plans, or (iii) on or after such date the business combination is approved by the Board of Directors of the corporation and by the affirmative vote of at least 66 2/3% of the outstanding voting stock of the corporation that is not owned by the interested stockholder. A “business combination” generally includes mergers, asset sales and similar transactions between the corporation and the interested stockholder, and other transactions resulting in a financial benefit to the stockholder. An “interested stockholder” is a person who, together with affiliates and associates, owns 15% or more of the corporation’s voting stock or who is an affiliate or associate of the corporation and, together with his affiliates and associates, has owned 15% or more of the corporation’s voting stock within three years.

- The articles of incorporation prohibit shareholders from acting by written consent
- The bylaws contain advance notice provisions for nominations and for presentation of business at stockholder meetings

TAX REFORM

There has been significant activity in Congress moving toward tax reform. If tax reform takes place, certain provisions of current law that are favorable to the Company, particularly percentage depletion and not operating loss carryforwards, could be limited or eliminated.

MORE GENERALIZED RISKS

We are subject to the risks that affect other mining companies and industrial companies in general. Among these risks are the following.

ESTIMATES RELATING TO NEW DEVELOPMENT PROJECTS ARE UNCERTAIN AND WE MAY INCUR HIGHER COSTS AND LOWER ECONOMIC RETURNS THAN ESTIMATED

Mine development projects typically require a number of years and significant expenditures during the development phase. Such projects could experience unexpected problems and delays during development.

Our decision to develop a project is typically based on the results of internal studies and expertise. The actual project profitability or economic feasibility may differ from such estimates as a result of any of the following factors, among others:

- Changes in tonnage, grades and metallurgical characteristics of ore to be mined and processed;
- Higher input commodity and labor costs;
- The quality of the data on which engineering assumptions were made;
- Adverse geotechnical conditions;
- Availability of adequate and skilled labor force and supply and cost of water and power;
- Fluctuations in inflation and currency exchange rates;
- Availability and terms of financing;
- Delays in obtaining environmental or other government permits or approvals or changes in the laws and regulations related to our operations or project development;
- Changes in tax laws;
- Weather or severe climate impacts; and
- Potential delays relating to social and community issues, including, without limitation, issues resulting in protests, road blockages or work stoppages.

MINING ACCIDENTS OR OTHER ADVERSE EVENTS AT AN OPERATION COULD DECREASE OUR ANTICIPATED PRODUCTION.

Exploration development and/or production may be reduced below our historical or estimated levels as a result of mining accidents; unfavorable ground conditions; work stoppages or slow-downs; lower than expected ore grades; unexpected regulatory actions; or because our equipment or facilities fail to operate properly or as expected.

OUR OPERATIONS MAY BE ADVERSELY AFFECTED BY RISKS AND HAZARDS ASSOCIATED WITH THE MINING INDUSTRY THAT MAY NOT BE FULLY COVERED BY INSURANCE.

Our business is capital intensive, requiring ongoing capital investment for the replacement, modernization or expansion of equipment and facilities. Our mining and milling operations are subject to risks of process upsets and equipment malfunctions. Equipment and supplies may from time to time be unavailable on a timely basis. Our business is subject to a number of other risks and hazards including:

- environmental hazards;
- unusual or unexpected geologic formations;
- rock bursts and ground falls;
- seismic activity;
- underground fires or floods;
- unanticipated hydrologic conditions, including flooding and periodic interruptions due to inclement or hazardous weather conditions;
- political and country risks;
- civil unrest or terrorism;
- industrial accidents; and
- labor disputes or strikes.

Such risks could result in:

- personal injury or fatalities;
- damage to or destruction of mineral properties or producing facilities;
- environmental damage and financial penalties;
- delays in exploration, development or mining;
- monetary losses;
- legal liability; and
- temporary or permanent closure of facilities.

We maintain insurance to protect against losses that may result from some of these risks, such as property loss and business interruption, in amounts we believe to be reasonably consistent with our historical experience, industry practice and circumstances surrounding each identified risk. Such insurance, however, contains exclusions and limitations on coverage, particularly with respect to environmental liability and political risk.

Capitalized development projects may cost more and provide less return than we estimate. If we are unable to realize a return on these investments, we may incur a related asset write-down that could adversely affect our financial results or condition.

THERE IS COMPREHENSIVE FEDERAL, STATE AND LOCAL REGULATION OF THE EXPLORATION INDUSTRY THAT COULD HAVE A NEGATIVE IMPACT OUR MINING OPERATIONS.

Exploration and mining operations are subject to federal, state and local laws relating to the protection of the environment, including laws regulating removal of natural resources from the ground and the discharge of materials into the environment. Exploration and mining operations and some of the products we sell are also subject to federal, state and local laws and regulations which seek to maintain health and safety standards by regulating the design and use of exploration methods and equipment. We cannot assure you that such permits will be received. No assurance can be given that environmental standards imposed by federal, state or local authorities will not be changed or that any such changes would not have material adverse effects on our activities. Moreover, compliance with such laws may

cause substantial delays or require capital outlays in excess of those anticipated, thus causing an adverse effect on our financial position. Additionally, we may be subject to liability for pollution or other environmental damages that we may elect not to insure against due to prohibitive premium costs and other reasons. Management is aware of the necessity of obtaining proper permits prior to conducting any exploration activity.

For a full description of risk factors, see the filings incorporated by reference into this prospectus and any supplement to this prospectus.

THE OFFERING

This prospectus relates to the offer and sale, from time to time, to the following

- up to 19,899,733 shares of our common stock with par value of \$0.001 (“Common Stock”) issuable on conversion of \$10.5 million of 10% PIK-Election Convertible Notes due 2023 (“PIK Notes”). The interest rate on the PIK Notes is 10% per year and at the Company’s election, interest may be paid in cash or in PIK Notes (i.e., may be “paid in kind” or “PIK”ed). 7,500,000 shares are issuable on conversion of the PIK Notes that were issued on August 2, 2013 (the date of the initial issuance of PIK Notes) and 375,000 shares are issuable on conversion of PIK Notes that have been issued as interest. If the Company issues additional PIK Notes in payment of interest, the number of shares to which this Prospectus relates will increase, and if the Company makes all the interest payments by issuing additional PIK Notes and all the PIK Notes (including all the PIK Notes issued as interest) remain outstanding until 2023, the additional shares issuable on conversion of the PIK Notes issued in payment of interest could increase the number of shares to which this Prospectus relates to 19,899,733 shares. Given the Company’s current financial position, it is anticipated that for the foreseeable future, the Company will pay interest using Notes issued as payment-in-kind interest.
- 10,000,000 already outstanding shares of Common Stock issued on December 22, 2011.
- The offer and sale by the holders of the Warrants listed under the table "Warrants" in the "Selling Securityholders" section of up to 5,000,000 Warrants, each of which gives the holder the right to purchase 1.0372 shares of Common Stock at \$1.9281 per share (as the price and the number of shares may be adjusted from time to time under antidilution provisions).
- The sale of up to 5,186,413 shares (as may be adjusted from time to time under antidilution provisions) of our Common Stock issuable upon exercise of the Warrants (“Warrant Shares”), either by the holders of the Warrants to the extent that the Selling Securityholders exercise the Warrants or by us, to the extent the Warrants are not exercised by the Selling Securityholders before sale under this prospectus.

PIK NOTES

On August 10, 2013, the Company sold \$10,500,000 of 10% Convertible PIK Interest Notes due 2023 (“PIK Notes”). The Notes are convertible into Common Stock at the price of \$1.40 per share. The \$10.5 million of PIK Notes are convertible into 7,500,000 shares of Common Stock. The Company may pay interest in cash or in the form of PIK Notes and interest is payable semiannually. Given the Company’s financial condition, it is reasonable to assume that the Company will pay interest in the form of additional PIK Notes for the foreseeable future. The Company has already issued PIK Notes as interest in the amount of \$525,000 that are convertible into 375,000 shares of Common Stock. If the PIK Notes are held to maturity and all interest is paid in the form of PIK Notes additional notes in the amount of \$16, 834, 626 that would be convertible into 12,024,733 shares of Common Stock. The PIK Notes are subject to antidilution provisions.

If the Company, while the PIK Notes is outstanding, pays a dividend or make a distribution on its Common Stock in shares of Common Stock, subdivides its outstanding shares of Common Stock into a greater number of shares or combines its outstanding shares of Common Stock into a smaller number of shares, then (i) the conversion price (initially \$1.40) in effect immediately prior to the date on which such change will become effective will be adjusted by multiplying such conversion price by a fraction, the numerator of which will be the number of shares of Common Stock outstanding immediately prior to such change and the denominator of which will be the number of shares of Common Stock outstanding immediately after giving effect to such change and (ii) the number of PIK Shares issuable upon conversion of the PIK Notes will be adjusted by multiplying the number of PIK Shares issuable upon conversion of the PIK Notes immediately prior to the date on which such change will become effective by a fraction, the numerator of which is will be the conversion price in effect immediately prior to the date on which such change will become effective and the denominator of which will be the conversion price in effect immediately after giving effect to such change, calculated in accordance with clause (i) above. If the PIK Shares issuable upon conversion of the PIK Notes will be changed into, or the right to receive, the same or a different number of shares of any other class(es) or series of stock or other securities or property, whether by reclassification, reorganization or otherwise, then and in each such event, the Holders will have the right thereafter to receive upon conversion of the PIK Notes the kind and amount of shares of stock and other securities and property receivable upon such reclassification, reorganization or other change in respect of a number of shares of PIK Shares equal to the number of Shares otherwise issuable upon such conversion of the PIK Notes.

In the event the Company issues additional shares of Common Stock for cash (with convertible securities, options and warrants being deemed issuances of Common Stock at their respective conversion, strike or exercise prices, as applicable) without consideration or for a consideration per share less than the conversion price in effect on the date of and immediately prior to such issue, then the conversion price will be reduced, concurrently with such issue, to a price (calculated to the nearest cent) determined by multiplying the conversion price by a fraction, (A) the numerator of which will be the number of shares of Common Stock outstanding immediately prior to such issue plus the number of shares which the aggregate consideration received by the Company for the total number of additional shares of Common Stock so issued would purchase at such conversion price immediately prior to such issuance, and (B) the denominator of which will be the number of shares of Common Stock outstanding immediately prior to such issue plus the number of such additional shares of Common Stock so issued. For the purpose of the above calculation, the number of shares of Common Stock outstanding immediately prior to such issue will be calculated on a fully-diluted basis, as if all shares of convertible securities, options and warrants had been fully converted into shares of Common Stock immediately prior to such issue. Notwithstanding the foregoing, no conversion price will be reduced at such time if the amount of such reduction would be less than \$0.01, but any such amount will be carried forward, and a reduction will be made with respect to such amount at the time of, and together with, any subsequent reduction which, together with such amount and any other amounts so carried forward, equal \$0.01 or more in the aggregate. For the purposes of this paragraph, all PIK Shares issuable upon conversion of all outstanding shares of PIK Notes and the exercise and/or conversion of any other outstanding convertible securities, options and warrants, will be deemed to be outstanding.

USE OF PROCEEDS

The Company will receive none of the proceeds for the sale of the Common Stock or the Warrants . The proceeds will go to the Selling Securityholders. If the Selling Securityholders exercise the Warrants and sell the Warrant Shares, they will receive proceeds of the sale of Warrant Shares.

The Company will receive the proceeds of the exercise of the Warrants, whether exercised by the Selling Securityholders or persons who purchase Warrants offered pursuant to this prospectus. There are 5,000,000 Warrants exercisable at \$1.9281 per Warrant and the Company could receive up to \$10 million for the exercise thereof. However, only proceeds of exercises pursuant to this prospectus will be proceeds of the offering under this prospectus. The Company would use such proceeds for working capital.

DESCRIPTION OF CAPITAL STOCK

Set forth below is a description of certain provisions relating to our capital stock. For additional information regarding our stock please refer to our Certificate of Incorporation and Bylaws.

Common Stock

Each share of Common Stock entitles the holder to one vote on each matter that may come before a meeting of the stockholders. There is no right to cumulative voting; thus, the holders of fifty percent or more of the shares outstanding can, if they choose to do so, elect all of the directors.

In the event of a voluntary or involuntary liquidation, all stockholders are entitled to a pro rata distribution after payment of liabilities and after provision has been made for each class of stock, if any, having preference over the Common Stock. The holders of the Common Stock have no preemptive rights with respect to future offerings of shares of Common Stock except that two shareholders holding 10 million shares of Common Stock and warrants to

purchase an additional 5 million shares of Common Stock are entitled to preemptive rights to maintain their perspective ownership on an exercised basis. The preemptive rights are subject to certain exceptions including options, warrants and shares issued as compensation. Holders of Common Stock are entitled to dividends if, as and when declared by the Board out of the funds legally available therefore. It is our present intention to retain earnings, if any, for use in our business. The payment of dividends on our Common Stock is, therefore, unlikely in the foreseeable future.

The Board of Directors is not classified.

The outstanding shares of Common Stock covered by this prospectus are , and the shares of Common Stock issuable on conversion of the PIK Notes when issued upon exercise in accordance with their terms , the shares of Common Stock when issued in accordance with their terms and upon payment of the exercise price will be , fully paid and non-assessable.

The Company's Certificate of Incorporation and Bylaws have no restrictions on alienability of the Securities and do not contain any provision discriminating against any existing or prospective holder of such Securities as a result of such security holder owning or acquiring a substantial amount of Securities.

The Delaware General Corporation Law ("GCL") has a provision called "Business Combinations with Interested Stockholders Act," By which the Company has elected to be governed.

The Delaware Business Combinations with Interested Stockholders Act generally operates to prevent a wide variety of transactions between the corporation, on one hand, and an "interested shareholder" and its affiliates, on the other hand. It generally prohibits a publicly held Delaware corporation from engaging in a "business combination" with an "interested stockholder" for a period of three years after the date of the transaction in which the person became an interested stockholder, unless (i) prior to such date the Board of Directors of the corporation approved either the business combination or the transaction in which the person became an interested stockholder, (ii) upon consummation of the transaction that resulted in the stockholder becoming an interested stockholder, the interested stockholder owns at least 85% of the outstanding voting stock of the corporation excluding shares owned by officers or directors of the corporation and by certain employee stock plans, or (iii) on or after such date the business combination is approved by the Board of Directors of the corporation and by the affirmative vote of at least 66 2/3% of the outstanding voting stock of the corporation that is not owned by the interested stockholder. The term "business combination" generally includes mergers, asset sales, and similar transactions between the corporation and the interested stockholder, and other transactions resulting in a financial benefit to the stockholder. An "interested stockholder" is a person who, together with affiliates and associates, owns 15% or more of the corporation's voting stock or who is an affiliate or associate of the corporation and, together with his affiliates and associates, has owned 15% or more of the corporation's voting stock within three years.

DESCRIPTION OF WARRANTS

The material terms and provisions of the warrants being offered pursuant to this prospectus are summarized below. This summary is subject to, and qualified in its entirety by, the terms set forth in the Warrant attached as an exhibit hereto.

General

The Warrants are exercisable and will expire on December 22, 2016. Exercise can be made by the payment in cash of the exercise price of the shares of common stock being acquired upon exercise of the warrants. There is no trading market for the Warrants and it is unlikely that any will develop.

Each Warrant is exercisable for \$1.9281 of 1.03728 shares of Common Stock. Warrants are exercisable only for whole shares.

The Warrants were sold on December 22, 2011 to the two entities named in the table "Warrants" in the "Selling Securityholders" section. The Warrants were sold as part of units consisting of two shares of common stock and one Warrant. 10 million shares and 5 million warrants were sold for an aggregate price of \$10 million. The Warrants were not separately priced. Initially, each Warrant was exercisable for one share at an exercise price of \$2.00. There have been sales of common stock and securities convertible into common stock by the Company since the date of the issuance of the Warrants at prices below the exercise price of the Warrants. As a result of antidilution provisions in the Warrants triggered by such sales below the exercise price of the Warrants, the exercise price of the Warrants has been reduced and the number of shares issuable on exercise of the Warrants has been increased. If there are future sales of common stock or securities convertible into common stock at prices below the then current exercise price of the Warrants, further adjustments reducing the exercise price of, and increasing the number of shares issuable under, the Warrants will be made.

Subject to compliance with applicable federal and state securities laws, this Warrants are transferable, in whole or in part.

The shares of Common Stock issuable on exercise of the Warrants when issued upon exercise in accordance with their terms and upon payment of the exercise price will be fully paid and non and non-assessable.

Rights of Holders upon Certain Events

If, on or prior to the expiration date of the Warrants, the Company effects a voluntary or involuntary dissolution, liquidation or winding up of the affairs of the Company, on the date of any distribution to shareholders with respect to such transaction, the holders of the Warrants will receive the securities, money or other property that the holders would have been entitled to receive had the holders been the holders of record of the shares of Common Stock issuable upon exercise of the Warrant immediately prior to such dissolution, liquidation or winding up (net of the then applicable exercise price) and the rights to exercise the Warrant will terminate.

If, at any time while the Warrants are outstanding, the Company effects a Fundamental Transaction (defined below) then, the Company will make appropriate arrangements to ensure that the holders will thereafter receive upon an exercise of the Warrants at any time after the consummation of a Fundamental Transaction (and subject to continuing adjustment in accordance with the terms hereof) but before the expiration date of the Warrants, in lieu of the Warrant Shares issuable upon the exercise of the Warrant immediately prior to such Transaction, such cash, stock, assets, securities, options, subscription rights or other property that the holders would have been entitled to receive upon the

happening of such Fundamental Transaction had the Warrants been exercised immediately before such transaction. If any holder of Common Stock is given any choice as to the cash, stock, assets, securities, options, subscription rights or other property to be received in a Fundamental Transaction, then the holders will be given the same choice as to what it receives upon any exercise of the Warrant following such Fundamental Transaction. The term "Fundamental Transaction" means a merger, consolidation or other similar transaction or series of transactions to which the Company is a party and pursuant to which (i) the Company is not the surviving Person in such transaction or (ii) if the Company is the surviving Person, the holders of shares of Common Stock immediately prior to such transaction (including for this purpose any shares issuable upon exercise of this Warrant) represent less than 50% of the shares of Common Stock outstanding immediately following such transaction (including for this purpose the shares of Common Stock issuable upon exercise of this Warrant) or (b) any sale of all or substantially all of the Company's assets in one transaction or a series of related transactions.

The holders have an option to require the Company to repurchase the Warrant in the event of a Fundamental Transaction, at a price equal to the product of (i) the number of Warrant Shares issuable upon exercise of the Warrant and (ii) the five day VWAP as of the fifth trading day immediately following public announcement of the Fundamental Transaction less the exercise price.

If the Company has a shareholder rights plan in effect with respect to the Common Stock, upon exercise of a Warrant, the holders will be entitled to receive, in addition to any shares of Common Stock, the rights under such shareholder rights plan, unless, prior to such exercise, such rights have separated from the Common Stock, in which case the exercise price and the number of Warrant Shares will be adjusted at the time of separation as if the Company had made a pro rata distribution, subject to readjustment in the event of the expiration, termination or redemption of such rights

Adjustments to the Exercise Price of, and the Number of Shares Subject to, the Warrants

The number of shares issuable on the exercise of the Warrants and the exercise price will be adjusted to prevent dilution in the event of (i) any issuance of Common Stock as a dividend or distribution to all holders of Common Stock, or a subdivision, combination or reclassification of the outstanding shares of Common Stock into a greater or smaller number of shares, (ii) below market issuances; (iii) issuances below the then current market price; (iv) pro rate distributions of a dividend or distribution evidences of indebtedness, assets (including cash and cash dividends, or rights, warrants, options or other securities convertible into or exchangeable or exercisable for capital stock (other than Common Stock otherwise dealt with above); (v) the consummation of a self-tender offer or self-exchange offer for Common Stock, in which the cash and fair value of any other consideration included in the payment per share of Common Stock exceeds the market price. The adjustments are “weighted-average” as opposed to full ratchet and are “narrow-based) taking into account outstanding Common Stock) as opposed to broad-based (taking into account not only outstanding shares issuable pursuant to the exercise of options and warrants). The adjustments in general to lower the exercise price and increase the number of shares to compensate for the dilutive effects of the several actions. By way of example, in the event of a stock split, the exercise price would be adjusted under the following formula:

$$E = E_0 \times \frac{N_0}{N_1}$$

where:

- E = the exercise price in effect immediately after the open of business on the ex-date for such dividend or distribution, or immediately after the open of business on the effective date for such subdivision, combination or reclassification, as the case may be;
- E₀ = the exercise price in effect immediately prior to the open of business on the ex-date for such dividend or distribution, or immediately prior to the open of business on the effective date for such subdivision, combination or reclassification, as the case may be;
- N₀ = the number of shares of Common Stock outstanding immediately prior to the open of business on the ex-date for such dividend or distribution, or immediately prior to the open of business on the effective date for such subdivision, combination or reclassification, as the case may be; and
- N₁ = the number of shares of Common Stock equal to (i) in the case of a dividend or distribution, the sum of the number of shares outstanding immediately prior to the open of business on the ex-date for such dividend or distribution plus the total number of shares issued pursuant to such dividend or distribution or (ii) in the case of a subdivision, combination or reclassification, the number of shares outstanding immediately after such

subdivision, combination or reclassification.

The number of shares subject to the Warrants would be adjusted so that number of Warrant Shares immediately following the effectiveness of such adjustment will be equal to the number of Warrant Shares immediately prior to such adjustment multiplied by a fraction, (a) the numerator of which is the exercise price in effect immediately prior to such adjustment and (b) the denominator of which is the exercise price in effect immediately following such adjustment.

The adjustments to the exercise price and the number of shares issuable on exercise are as follows.

In the event of any issuance of Common Stock as a dividend or distribution to all holders of Common Stock, or a subdivision, combination or reclassification of the outstanding shares of Common Stock into a greater or smaller number of shares, the exercise price shall be adjusted pursuant to the following formula:

$$E = E_0 \times \frac{N_0}{N_1}$$

where:

- E = the exercise price in effect immediately after the open of business on the ex-date for such dividend or distribution, or immediately after the open of business on the effective date for such subdivision, combination or reclassification, as the case may be;
- E₀ = the exercise price in effect immediately prior to the open of business on the ex-date for such dividend or distribution, or immediately prior to the open of business on the effective date for such subdivision, combination or reclassification, as the case may be;

In the event that a claim for indemnification against such liabilities (other than the payment of expenses incurred or paid by a director, officer or controlling person in a successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, we will, unless in the opinion of our counsel the matter has been settled by controlling precedent, submit to the court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

If the Selling Securityholders use this prospectus for any sale of the Securities, they will be subject to the prospectus delivery requirements of the Securities Act.

The Company has advised each Selling Securityholder that it may not use Securities registered on the registration statement of which this prospectus is a part to cover short sales of Securities made prior to the date on which this registration statement shall have been declared effective by the SEC.

WARRANT
To Purchase Shares of Common Stock,
Par Value \$0.001 Per Share,
of
APPLIED MINERALS, INC.

Initial Issuance Date: December 22, 2011

THIS COMMON STOCK PURCHASE WARRANT (this “Warrant”) certifies that, for value received, Samlyn Onshore Fund, LP, a Delaware limited partnership (the “Holder”), is entitled, upon the terms and subject to the limitations on exercise and the conditions hereinafter set forth, at any time on or after the date hereof (the “Initial Exercise Date”) and on or before 5:00 p.m. New York City time on the five year anniversary of the Initial Issuance Date (the “Termination Date”) but not thereafter, to subscribe for and purchase from Applied Minerals, Inc., a Delaware corporation (the “Company”), up to 1,925,000 shares (the “Warrant Shares”) of common stock, \$.001 par value per share (the “Common Stock”), of the Company. The purchase price of one share of Common Stock under this Warrant shall be equal to the Exercise Price (as defined in Section 1.2 of this Warrant). This Warrant is issued pursuant to the Investment Agreement, dated as of the date hereof (the “Investment Agreement”), by and between the Company and the Holder.

WHEREAS, the Holder wishes to acquire this Warrant from the Company, and the Company wishes to issue this Warrant to the Holder, pursuant to the terms and conditions set forth below.

NOW, THEREFORE, in consideration of the promises and the mutual covenants and undertakings contained herein, and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Company and the Holder, intending to be legally bound, agree as follows:

ARTICLE I

EXERCISE

Section 1.1 Exercise of Warrant .

- (a) For so long as this Warrant remains outstanding, exercise of the purchase rights represented by this Warrant may be made, in whole or in part, at any time or times on or after the Initial Exercise Date and on or before the Termination Date by:
- (i) delivery to the Company (or such other office or agency of the Company as it may designate by notice in writing to the Holder pursuant to Section 6.9 of this Agreement) of a duly executed copy of a Notice of Exercise in the form attached to this Warrant (the “Notice of Exercise”) (provided , however , within five Trading Days of the date said Notice of Exercise is delivered to the Company, if this Warrant is exercised in full, the Holder shall have surrendered this Warrant to the Company); and
 - (ii) payment to the Company of the aggregate Exercise Price of the Warrant Shares thereby purchased (as well as all taxes required to be paid by the Holder, if any, pursuant to Section 1.3(g) of this Warrant) by wire transfer or cashier’s check drawn on a United States bank.
- (b) Notwithstanding anything herein to the contrary, the Holder shall not be required to physically surrender this Warrant to the Company until the Holder has purchased all of the Warrant Shares available hereunder and this

Warrant has been exercised in full. Partial exercises of this Warrant resulting in purchases of a portion of the total number of Warrant Shares available hereunder shall have the effect of lowering the outstanding number of Warrant Shares purchasable hereunder in an amount equal to the applicable number of Warrant Shares purchased. The Company shall maintain records showing the number of Warrant Shares purchased and the date of such purchases.

(c) Section 1.3(c) notwithstanding, by reason of the provisions of this Section 1.1, following the purchase of a portion of the Warrant Shares hereunder, the number of Warrant Shares available for purchase hereunder at any given time may be less than the amount stated on the face of this Warrant.

Section 1.2 Exercise Price

. The exercise price per share of the Common Stock under this Warrant shall be \$2.00 per Warrant Share, subject to adjustment hereunder (the “ Exercise Price ”).

Section 1.3 Mechanics of Exercise .

- (a) Authorization of Warrant Shares . The Company covenants that all Warrant Shares which may be issued upon the exercise of the purchase rights represented by this Warrant will, upon exercise of the purchase rights represented by this Warrant and payment of the Exercise Price therefor, be duly authorized, validly issued, fully paid and non-assessable and free from all taxes, liens and charges in respect of the issue thereof (other than taxes in respect of any transfer occurring contemporaneously with such issue).
- (b) Delivery of Certificates upon Exercise . Certificates representing Warrant Shares shall be transmitted by the Company (whether through its transfer agent or otherwise) to the Holder to the address specified by the Holder in the Notice of Exercise within three Business Days from the delivery to the Company of the Notice of Exercise, together with an amount in cash in lieu of any fractional share(s), surrender of this Warrant (if required) and payment of the aggregate Exercise Price as set forth above (“ Warrant Share Delivery Date ”). The Warrant Shares shall be issued free of all legends, unless, in the reasonable opinion of outside counsel to the Company (after taking into account any representations of the Holder), the securities laws require a legend(s) to be affixed to the certificate(s) representing the Warrants Shares. This Warrant shall be deemed to have been exercised on the first date on which the Notice of Exercise has been properly delivered to the Company, the Company has received the Exercise Price and all taxes required to be paid by the Holder, if any, pursuant to Section 1.3(g) of this Warrant before the issuance of such shares have been paid. The Warrant Shares shall be deemed to have been issued, and the Holder or any other Person so designated to be named therein shall be deemed to have become a holder of record of such shares for all purposes, on the first date on which the Notice of Exercise has been properly delivered to the Company, the Company has received the Exercise Price and all taxes required to be paid by the Holder, if any, pursuant to Section 1.3(g) of this Warrant before the issuance of such shares have been paid.
- (c) Delivery of New Warrants upon Exercise . If this Warrant shall have been exercised in part, the Company shall, at the request of the Holder and upon surrender of this Warrant, at the time of delivery of the certificate or certificates representing Warrant Shares, deliver to the Holder a new Warrant evidencing the rights of the Holder to purchase the unpurchased Warrant Shares called for by this Warrant, which new Warrant shall in all other respects be identical with this Warrant.
- (d) Rescission Rights . If the Company fails to, or fails to cause its transfer agent to, transmit to the Holder a certificate or certificates representing the Warrant Shares pursuant to this Section 1.3 by the Warrant Share Delivery Date, then the Holder will have the right to rescind such exercise.
- (e) Compensation for Buy-In on Failure to Timely Deliver Certificates Upon Exercise . In addition to any other rights available to the Holder, if the Company fails to, or fails to cause its transfer agent to, transmit to the Holder a certificate or certificates representing the Warrant Shares pursuant to an exercise on or before the Warrant Share Delivery Date pursuant to this Section 1.3 , and if after such date the Holder is required by its broker to purchase (in an open market transaction or otherwise) shares of Common Stock to deliver in satisfaction of a sale by the Holder of the Warrant Shares which the Holder anticipated receiving upon such exercise (a “ Buy-In ”), then the Company shall:
- (i) pay in cash to the Holder the amount by which (A) the Holder’s total purchase price (including brokerage commissions, if any) for the shares of Common Stock so purchased exceeds (B) the amount obtained by multiplying (x) the number of Warrant Shares that the Company was required to deliver to the Holder in connection with the exercise at issue multiplied by (y) the price at which the sell order giving rise to such purchase obligation was executed, and
 - (ii) at the option of the Holder, either reinstate the portion of this Warrant and equivalent number of Warrant Shares for which such exercise was not honored or deliver to the Holder the number of shares of Common Stock that would

have been issued had the Company timely complied with its exercise and delivery obligations hereunder. For example, if the Holder purchases Common Stock having a total purchase price of \$11,000 to cover a Buy-In with respect to an attempted exercise of shares of Common Stock with an aggregate sale price giving rise to such purchase obligation of \$10,000, under Section 1.3(e)(i), the Company shall be required to pay the Holder \$1,000. The Holder shall provide the Company written notice indicating the amounts payable to the Holder in respect of the Buy-In, together with applicable confirmations and other evidence reasonably requested by the Company. Nothing herein shall limit the Holder's right to pursue any other remedies available to it hereunder, at law or in equity, including, without limitation, a decree of specific performance and/or injunctive relief with respect to the Company's failure to timely deliver certificates representing shares of Common Stock upon exercise of this Warrant as required pursuant to the terms of this Warrant.

(f) **No Fractional Shares or Scrip** . No fractional shares or scrip representing fractional shares shall be issued upon the exercise of this Warrant. As to any fraction of a share which the Holder would otherwise be entitled to purchase upon such exercise, the Company shall pay a cash adjustment in respect of such final fraction on the basis of the Market Price per share of Common Stock on the date of such exercise.

(g) **Charges, Taxes and Expenses** . Issuance of certificates for Warrant Shares shall be made without charge to the Holder for any issue or transfer tax or other incidental expense (including the fees of counsel) in respect of the issuance of such certificate, all of which taxes and expenses shall be paid by the Company, and such certificates shall be issued in the name of the Holder or in such name or names as may be directed by the Holder; provided, however, that in the event certificates for Warrant Shares are to be issued in a name other than the name of the Holder, this Warrant when surrendered for exercise shall be accompanied by the Assignment Form attached hereto duly executed by the Holder; and the Company may require, as a condition thereto, the payment of a sum sufficient to reimburse it for any transfer tax incidental thereto.

(h) **Closing of Books** . The Company will not close its shareholder books or records in any manner which prevents the timely exercise of this Warrant, pursuant to the terms of this Warrant.

ARTICLE II

DISSOLUTION

Section 2.1 Dissolution; Liquidation .

(a) If, on or prior to the Expiration Date, the Company (or any other Person controlling the Company) shall propose a voluntary or involuntary dissolution, liquidation or winding up of the affairs of the Company, the Company shall give written notice thereof to the Holder in the manner provided in Section 6.9 prior to the date on which such transaction is expected to become effective or, if earlier, the Record Date for such transaction. Such notice also shall specify the date on which the holders of record of the shares of Common Stock shall be entitled to exchange their shares for securities, money or other property deliverable upon such dissolution, liquidation or winding up, as the case may be. On the date of and as a condition to the consummation of any such transaction, the Holder shall receive the securities, money or other property that the Holder would have been entitled to receive had the Holder been the holder of record of the shares of Common Stock issuable upon exercise of this Warrant immediately prior to such dissolution, liquidation or winding up (net of the then applicable Exercise Price) and the rights to exercise this Warrant shall terminate.

ARTICLE III

ADJUSTMENT

Section 3.1 Adjustments Generally

. In order to prevent dilution of the rights granted under this Warrant and to grant the Holder certain additional rights, the Exercise Price shall be subject to adjustment from time to time as provided in this Article III and the number of shares of Common Stock obtainable upon exercise of this Warrant also shall be subject to adjustment from time to time as provided in this Article III .

Section 3.2 Stock Dividends and Splits

. In the event of any issuance of Common Stock as a dividend or distribution to all holders of Common Stock, or a subdivision, combination or reclassification of the outstanding shares of Common Stock into a greater or smaller number of shares, the Exercise Price shall be adjusted pursuant to the following formula:

$$E = E_0 \times \frac{N_0}{N_1}$$

where:

E = the Exercise Price in effect immediately after the Open of Business on the Ex-Date for such dividend or distribution, or immediately after the Open of Business on the effective date for such subdivision, combination or reclassification, as the case may be;

E₀ = the Exercise Price in effect immediately prior to the Open of Business on the Ex-Date for such dividend

or distribution, or immediately prior to the Open of Business on the effective date for such subdivision, combination or reclassification, as the case may be;

N 0 = the number of shares of Common Stock outstanding immediately prior to the Open of Business on the Ex-Date for such dividend or distribution, or immediately prior to the Open of Business on the effective date for such subdivision, combination or reclassification, as the case may be; and

N 1 = the number of shares of Common Stock equal to (i) in the case of a dividend or distribution, the sum of the number of shares outstanding immediately prior to the Open of Business on the Ex-Date for such dividend or distribution plus the total number of shares issued pursuant to such dividend or distribution or (ii) in the case of a subdivision, combination or reclassification, the number of shares outstanding immediately after such subdivision, combination or reclassification.

Such adjustment shall become effective (a) in the case of a dividend or distribution, immediately after the Open of Business on the Ex-Date for such dividend or distribution or (b) in the case of a subdivision, combination or reclassification, immediately after the Open of Business on the effective date for such subdivision, combination or reclassification. If any dividend or distribution or subdivision, combination or reclassification of the type described in this Section 3.2 is declared or announced but not made, the Exercise Price shall again be adjusted to the Exercise Price that would then be in effect if such dividend or distribution or subdivision, combination or reclassification had not been declared or announced, as the case may be.

Section 3.3 Below Market Issuances

. If the Company, at any time while this Warrant is outstanding, shall issue shares of Common Stock or Convertible Securities at an Effective Consideration per share that is less than the Market Price on the Trading Day immediately before the issuance is announced, then the Exercise Price shall be adjusted pursuant to the following formula:

$$E = E_0 \times \frac{N_0 + C/M}{N_0 + N_A}$$

where:

- E = the Exercise Price in effect immediately after the Open of Business on the Trading Day of such issuance;
- E₀ = the Exercise Price in effect immediately prior to the Open of Business on the Trading Day of such issuance;
- N₀ = the number of shares of Common Stock outstanding immediately prior to the Open of Business on the Trading Day of such issuance;
- N_A = the number of shares of Common Stock issued and/or issuable upon exercise, conversion or exchange of any Convertible Securities, full physical settlement assumed;
- C = the total consideration receivable by the Company on issuance and/or the exercise, conversion or exchange of any Convertible Securities, full physical settlement assumed; and
- M = the Five-Day VWAP as of the Trading Day immediately preceding the date on which such issuance is announced.

Such adjustment shall become effective immediately after the Open of Business on the Trading Day of such issuance. In the event that an issuance of such Common Stock or Convertible Securities is announced but such Common Stock or Convertible Securities are not issued, the Exercise Price shall again be adjusted to be the Exercise Price that would then be in effect if such issuance had not been announced.

Section 3.4 Issuances Below the Exercise Price

. If the Company, at any time while this Warrant is outstanding, shall issue shares of Common Stock or Convertible Securities at an Effective Consideration per share that is less than the Exercise Price in effect at the Close of Business on the Trading Day immediately preceding such issuance (other than issuances to directors, officers, employees or consultants of the Company as compensation for services rendered to the Company by such persons), then the Exercise Price shall be adjusted pursuant to the following formula:

$$N_0 + C/E_0$$

$$E = \frac{E_0 \times \text{-----}}{N_0 + N_A}$$

- E = the Exercise Price in effect immediately after the Open of Business on the Trading Day of such issuance;
- E₀ = the Exercise Price in effect immediately prior to the Open of Business on the Trading Day of such issuance;
- N₀ = the number of shares of Common Stock outstanding immediately prior to the Open of Business on the Trading Day of such issuance;
- N_A = the number of shares of Common Stock issued and/or issuable upon exercise, conversion or exchange of any Convertible Securities, full physical settlement assumed; and
- C = the total consideration receivable by the Company on issuance and/or the exercise, conversion or exchange of any Convertible Securities, full physical settlement assumed.

Such adjustment shall become effective immediately after the Open of Business on the Trading Day of such issuance. In the event that an issuance of such Common Stock or Convertible Securities is announced but such Common Stock or Convertible Securities are not issued, the Exercise Price shall again be adjusted to be the Exercise Price that would then be in effect if such issuance had not been announced.

Section 3.5 Pro Rata Distributions

. If the Company, at any time while this Warrant is outstanding, shall issue as a dividend or distribution evidences of indebtedness, assets (including cash and cash dividends, other than those addressed in Section 3.2 , Section 3.3 or Section 3.4), shares of capital stock (other than Common Stock) or rights, warrants, options or other securities convertible into or exchangeable or exercisable for capital stock (other than Common Stock), then the Exercise Price shall be adjusted pursuant to the following formula:

$$E = E_0 \times \frac{M - FMV}{M}$$

where:

- E = the Exercise Price in effect immediately after the Open of Business on the Ex-Date for such dividend or distribution;
- E₀ = the Exercise Price in effect immediately prior to the Open of Business on the Ex-Date for such dividend or distribution;
- M = the Five-Day VWAP as of the Trading Day immediately preceding the Ex-Date for such dividend or distribution; and
- FMV = the fair value of the portion of such dividend or distribution applicable to one share of Common Stock on the Trading Day immediately preceding the Ex-Date for such dividend or distribution as determined by the Board of Directors in good faith.

Such adjustment shall become effective immediately after the Open of Business on the Ex-Date for such dividend or distribution. In the event that such dividend or distribution is declared or announced but not made, the Exercise Price shall again be adjusted to be the Exercise Price that would then be in effect if such distribution had not been declared or announced..

Section 3.6 Rights Plans

. If the Company has a shareholder rights plan in effect with respect to the Common Stock, upon exercise of a Warrant the Holder shall be entitled to receive, in addition to any shares of Common Stock, the rights under such shareholder rights plan, unless, prior to such exercise, such rights have separated from the Common Stock, in which case the Exercise Price and the number of Warrant Shares shall be adjusted at the time of separation as if the Company had made a distribution as described in Section 3.5 , subject to readjustment in the event of the expiration, termination or redemption of such rights.

Section 3.7 Tender Offers; Exchange Offers

. If, at any time while this Warrant is outstanding, the Company proposes to make a tender offer or exchange offer for Common Stock, in which the cash and fair value of any other consideration included in the payment per share of Common Stock exceeds the Market Price as of the Trading Day immediately following the expiration date of the tender offer or exchange offer (the “ Offer Expiration Date ”), the Exercise Price shall be adjusted pursuant to the following formula:

$$E = \frac{E_0 \times N_0 + A + (M \times N_1)}{N_0 + M}$$

where:

- E = the Exercise Price in effect immediately after the Close of Business on the Offer Expiration Date;
- E₀ = the Exercise Price in effect immediately prior to the Close of Business on the Offer Expiration Date;
- N₀ = the number of shares of Common Stock outstanding immediately prior to the expiration of the tender offer or exchange offer (prior to giving effect to the purchase or exchange of shares);
- N₁ = the number of shares of Common Stock outstanding immediately after the expiration of the tender or exchange offer (after giving effect to the purchase or exchange of shares);
- A = the aggregate cash and fair value of any other consideration payable for shares of Common Stock purchased in such tender offer or exchange offer, as determined by the Board of Directors in good faith; and
- M = the Five-Day VWAP on the Trading Day immediately following the Offer Expiration Date.

Any adjustment to the Exercise Price pursuant to this Section 3.7 shall become effective immediately after the Close of Business on the Offer Expiration Date. In the event that the Company or a subsidiary of the Company does not purchase shares of Common Stock pursuant to any such tender offer or exchange offer, or all such purchases are rescinded, then the Exercise Price shall again be adjusted to be the Exercise Price that would then be in effect if such tender offer or exchange offer had not been made.

Section 3.8 Fundamental Transactions .

(a) If, at any time while this Warrant is outstanding, the Company effects a merger, acquisition, consolidation or similar transaction (including any Fundamental Transaction), then, the Company shall make appropriate arrangements to ensure that the Holder will thereafter receive upon an exercise of this Warrant at any time after the consummation of a Fundamental Transaction (and subject to continuing adjustment in accordance with the terms hereof) but before the Termination Date, in lieu of the Warrant Shares issuable upon the exercise of this Warrant immediately prior to such Fundamental Transaction, such cash, stock, assets, securities, warrants, options, subscription rights or other property that the Holder would have been entitled to receive upon the happening of such Fundamental Transaction had this Warrant been exercised immediately before such Fundamental Transaction (without regard to any limitations on the exercise of this Warrant). If any holder of Common Stock is given any choice as to the cash, stock, assets, securities, warrants, options, subscription rights or other property to be received in a Fundamental Transaction, then the Holder shall be given the same choice as to what it receives upon any exercise of this Warrant following such Fundamental Transaction.

(b) The Company hereby grants to the Holder an irrevocable option to require the Company to repurchase this Warrant in the event of a Fundamental Transaction upon the closing of such Fundamental Transaction (provided that the Holder elects to exercise this option by giving written notice to the Company within 10 Business Days of the Holder receiving written notice of such Fundamental Transaction from the Company) at a price equal to the product of (i) the number of Warrant Shares issuable upon exercise of this Warrant and (ii) the Five-Day VWAP as of the fifth Trading Day immediately following public announcement of the Fundamental Transaction less the Exercise Price..

Section 3.9 Adjustment to the Number of Warrant Shares

. Concurrently with any adjustment to the Exercise Price under this Article III , the number of Warrant Shares also will be adjusted such that the number of Warrant Shares immediately following the effectiveness of such adjustment will be equal to the number of Warrant Shares immediately prior to such adjustment multiplied by a fraction, (a) the numerator of which is the Exercise Price in effect immediately prior to such adjustment and (b) the denominator of which is the Exercise Price in effect immediately following such adjustment.

Section 3.10 Additional Considerations

. In no event will the Company adjust the Exercise Price or make a corresponding adjustment to the number of Warrant Shares if that adjustment would increase the Exercise Price, except in the event of a reverse stock split or in the event that an adjustment is made in respect of an event but such event does not occur and the adjustment is reversed. The Company covenants that, while this Warrant is outstanding, it will not amend its certificate of incorporation to increase the Common Stock's par value above \$0.001 per share. Notwithstanding anything else in this Warrant to the contrary, the Exercise Price shall not be adjusted to an amount below the Common Stock's par value per share. If any single action would require adjustment of the Exercise Price pursuant to more than one Sections of this Article III , only one adjustment shall be made and such adjustment shall be the amount of adjustment that has the highest absolute value. The adjustments required by this Article III shall be made whenever and as often as any specified event requiring an adjustment shall occur, except that no adjustment of the Exercise Price that would otherwise be required shall be made unless and until such adjustment either by itself or with other adjustments not previously made decreases the Exercise Price immediately prior to the making of such adjustment by at least 1%. Any adjustment representing a change of less than such minimum amount shall be carried forward and made as soon as such adjustment, together with other adjustments required by this Article III and not previously made, would result in such minimum adjustment. If the Company issues to any Person any Convertible Securities that, in the sole and absolute discretion of the Holder, contain adjustment provisions more favorable than those of this Warrant, this Warrant shall be amended to include such provisions.

Section 3.11 Calculations

. All calculations under this Article III shall be made to the nearest cent or the nearest share, as the case may be. For purposes of this Article III, the number of shares of Common Stock deemed to be issued and outstanding as of a given date shall be the sum of the number of shares of Common Stock (excluding treasury shares, if any) issued and outstanding.

Section 3.12 Notice to the Holder .

(a) Adjustment to Exercise Price . Whenever the Exercise Price is adjusted pursuant to this Article III, the Company shall promptly mail to the Holder a notice setting forth the Exercise Price after such adjustment and setting forth a brief statement of the facts requiring such adjustment.

(b) Notice to Allow Exercise by the Holder . If (i) the Company shall declare a dividend (or any other distribution in whatever form) on the Common Stock, (ii) the Company shall declare a special nonrecurring cash dividend on or a redemption of the Common Stock, (iii) the Company shall authorize the granting to all holders of the Common Stock rights or warrants to subscribe for or purchase any shares of capital stock of any class or of any rights, (iv) the approval of any shareholders of the Company shall be required in connection with any reclassification of the Common Stock, any consolidation or merger to which the Company is a party (including any Fundamental Transaction), any sale or transfer of all or substantially all of the assets of the Company, or any compulsory share exchange whereby the Common Stock is converted into other securities, cash or property, (v) the Company commences any tender offer (including any exchange offer) as announced from time to time for all or a portion of the outstanding shares of Common Stock, (vi) the Company shall authorize the voluntary or involuntary dissolution, liquidation or winding up of the affairs of the Company or (vii) the Company shall engage in any other transaction that would result in an adjustment to the Exercise Price in accordance herewith, then, in each case, the Company shall cause to be mailed to the Holder at its last address as it shall appear upon the Warrant Register (as defined below) of the Company, at least 20 calendar days before the applicable record or effective date hereinafter specified, a notice stating (i) the date on which a record is to be taken for the purpose of such dividend, distribution, redemption, rights or warrants, or if a record is not to be taken, the date as of which the holders of the Common Stock of record to be entitled to such dividend, distributions, redemption, rights or warrants are to be determined or (ii) the date on which such reclassification, consolidation, merger, sale, transfer, share exchange, tender offer, exchange offer or other action is expected to become effective or close, and the date as of which it is expected that holders of the Common Stock of record shall be entitled to exchange their shares of the Common Stock for securities, cash or other property deliverable upon such reclassification, consolidation, merger, sale, transfer, share exchange, tender offer, exchange offer or other action; provided, however, that, the failure to mail such notice or any defect therein or in the mailing thereof shall not affect the validity of the corporate action required to be specified in such notice. To the extent that any notice provided hereunder constitutes, or contains, material, non-public information regarding the Company or any of its subsidiaries, the Company shall forthwith file such notice with the Commission pursuant to a Current Report on Form 8-K. The Holder is entitled to exercise this Warrant during the period commencing on the date of such notice to the effective date of the event triggering such notice.

ARTICLE IV

TRANSFERS

Section 4.1 Transferability

. Subject to compliance with applicable federal and state securities laws, this Warrant and all rights hereunder are transferable, in whole or in part, upon surrender of this Warrant at the principal office of the Company, together with a written assignment of this Warrant substantially in the form attached hereto duly executed by the Holder or its agent or attorney and funds sufficient to pay any transfer taxes payable pursuant to Section 1.3(g). Upon such surrender and, if required, such payment, the Company shall execute and deliver a new Warrant or Warrants in the name of the assignee or assignees and in the denomination or denominations specified in such instrument of assignment and, if the assignor assigns less than the entirety of this Warrant, shall issue to the assignor a new Warrant evidencing the portion of this Warrant not so assigned, and this Warrant shall promptly be cancelled.

Section 4.2 New Warrants

. This Warrant may be divided or combined with other Warrants upon presentation of this Warrant at the aforesaid office of the Company, together with a written notice specifying the names and denominations in which new Warrants are to be issued, signed by the Holder or its agent or attorney. Subject to compliance with Section 4.1 of this Warrant, as to any transfer which may be involved in such division or combination, the Company shall execute and deliver a new Warrant or Warrants in exchange for this Warrant or Warrants to be divided or combined in accordance with such notice. All Warrants issued on transfers or exchanges shall be dated the initial issuance date set forth on the first page of this Warrant and shall be identical to this Warrant, except as to the number of Warrant Shares issuable pursuant thereto.

Section 4.3 Warrant Register

. The Company shall register this Warrant, upon records to be maintained by the Company for that purpose (the “Warrant Register”), in the name of the record holder from time to time. The Company may deem and treat the registered holder of this Warrant as the absolute owner of this Warrant for the purpose of any exercise of this Warrant or any distribution to the Holder and for all other purposes, absent actual notice to the contrary.

ARTICLE V

CALL OPTION

Section 5.1 Call Option

. The Company, subject to compliance with this Article V, has an option (the “Call Option”) to acquire all or a portion of this Warrant; provided, that, the following conditions are met: (a) the VWAP for the 60 consecutive Trading Days immediately preceding the date on which the Holder receives the Call Notice (as defined below) is in excess of \$2.00 and (b) the closing market price of the Common Stock (on the Trading Market or, if the Common Stock currently is trading on multiple Trading Markets, the principal Trading Market for the Common Stock) (the “Market Price”) is in excess of \$2.00 on the date immediately preceding the date on which the Call Notice is received; provided further, that, if the Company exercises a Call Option for a portion of this Warrant, the Company may not acquire less than that portion of this Warrant equal to 962,500 Warrant Rights.

Section 5.2 Option Price

. The Company covenants that all shares of Common Stock that shall be so issuable shall be duly or validly issued, fully paid and non-assessable. Section 6.15 Severability

. The provisions of this Warrant shall be deemed severable and the invalidity or unenforceability of any provision hereof shall not affect the validity or enforceability of any other provision. Whenever possible, each provision or portion of any provision of this Warrant shall be interpreted in such manner as to be effective and valid under applicable law, but if any provision of this Warrant, or the application thereof to any Person or any circumstance, is invalid or unenforceable, (a) a suitable and equitable provision shall be substituted therefor to carry out, so far as may be valid and enforceable, the intent and purpose of such invalid or unenforceable provision and (b) the remainder of this Warrant and the application of such provision to other Persons or circumstances shall not be affected by such invalidity or unenforceability, nor shall such invalidity or unenforceability affect the validity or enforceability of such provision, or the application thereof, in any other jurisdiction; provided, that, if any one or more of the provisions contained in this Warrant shall be determined to be excessively broad as to activity, subject, duration or geographic scope, it shall be reformed by limiting and reducing it to the minimum extent necessary, so as to be enforceable under applicable law.

Section 6.16 Specific Performance

. The Company hereby acknowledges and agrees that its failure to perform its agreements and covenants hereunder will cause irreparable injury to the Holder for which damages, even if available, will not be an adequate remedy. Accordingly, the Company hereby consents to the issuance of injunctive relief by the Chosen Courts to compel performance of the Company's obligations and to the granting by the Chosen Courts of the remedy of specific performance of the Company's obligations hereunder.

ITEM 5. UNDERTAKINGS.

The undersigned registrant hereby undertakes:

1. to file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement to:
 - i. include any prospectus required by section 10(a)(3) of the Securities Act;
 - ii. reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than a 20 percent change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement; and
 - iii . include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement.
2. that, for the purpose of determining any liability under the Securities Act of 1933, each post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.
3. to remove from registration by means of post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.
4. that, for the purpose of determining liability under the Securities Act to any purchaser, each prospectus filed pursuant to Rule 424(b) as part of a registration statement relating to an offering, other than registration statements relying on Rule 430B or other than prospectuses filed in reliance on Rule 430A, shall be deemed to be part of and included in the registration statement as of the date it is first used after effectiveness. Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser

with a time of contract of sale prior to such first use, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such date of first use.

5. that insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission, such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person to the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question of whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

- 2, The undersigned registrant hereby undertakes to deliver or cause to be delivered with the prospectus, to each person to whom the prospectus is sent or given, the latest annual report to security holders that is incorporated by reference in the prospectus and furnished pursuant to and meeting the requirements of Rule 14a-3 or Rule 14c-3 under the Securities Exchange Act of 1934; and, where interim financial information required to be presented by Article 3 of Regulation S-X are not set forth in the prospectus, to deliver, or cause to be delivered to each person to whom the prospectus is sent or given, the latest quarterly report that is specifically incorporated by reference in the prospectus to provide such interim financial information.
