Item 7.01. Regulation FD Disclosure.

Edgar Filing: ADM TRONICS UNLIMITED INC/DE - Form 8-K

On September 14, 2006, Ivivi Technologies, Inc., a subsidiary of ADM Tronics Unlimited, Inc., filed an amendment to its Registration Statement on Form SB-2 (the "Registration Statement") which included the following disclosure:

"On September 13, 2006, we reached a nonbinding agreement in principle with a prospective strategic partner, a global healthcare company that discovers, develops and commercializes pharmaceutical and medical device products in specialty markets, for the distribution of our products used in plastic and reconstructive surgery. We currently intend to negotiate a definitive agreement pursuant to which we would grant the strategic partner the exclusive right to market and sell our products to certain healthcare professionals in the plastic and reconstructive surgery markets throughout the world.

Under the proposed terms, we would receive an up-front cash license fee and cash milestone payments and royalties in respect of sales of our products. The initial term of the definitive agreement would be for a period of eight years; however, we would have the right to terminate the exclusive rights granted by us thereunder if certain minimum sales and royalty requirements are not met. The definitive agreement would include such other terms and conditions as are customary for agreements of this type, including, among others, provisions regarding regulatory responsibilities, audit rights, insurance, indemnification, confidentiality and termination.

We cannot assure you that we will be able to negotiate a definitive agreement on terms acceptable to us in a timely manner or at all."

In addition, the following risk factor was also included in the Registration Statement:

"Although we have reached a nonbinding agreement in principle for the distribution of our products used in plastic and reconstructive surgery with a global healthcare company, we may not be able to finalize a definitive agreement in a timely manner or at all.

On September 13, 2006, we reached a nonbinding agreement in principle for the distribution of our products related to plastic and reconstructive surgery with a global healthcare company that discovers, develops and commercializes pharmaceutical and medical device products in specialty markets. However, the nonbinding agreement in principle is a mere statement of intention and is subject to various conditions, including the negotiation and execution of a binding definitive agreement. Accordingly, there can be no assurance that we will be able to negotiate a definitive agreement on terms acceptable to us in a timely manner or at all."

In accordance with General Instructions B.2 of Form 8-K, the information in this Current Report on Form 8-K under Item 7.01, shall not be deemed "filed" for the purposes of Section 18 of the Securities Exchange Act of 1934, as amended, or otherwise subject to the liability of that section, nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933, as amended, except as shall be expressly set forth by specific reference in such a filing.
