RYDER SYSTEM, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS
(unaudited)

(A) INTERIM FINANCIAL STATEMENTS

The accompanying unaudited Consolidated Condensed Financial Statements include the accounts of Ryder System, Inc. (Ryder) and all entities in which Ryder has a controlling voting interest (“subsidiaries”) and variable interest entities (VIEs) required to be consolidated in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP). The accompanying unaudited Consolidated Condensed Financial Statements have been prepared in accordance with the accounting policies described in our 2012 Annual Report on Form 10-K and should be read in conjunction with the Consolidated Financial Statements and notes thereto. These financial statements do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair statement have been included and the disclosures herein are adequate. The operating results for interim periods are unaudited and are not necessarily indicative of the results that can be expected for a full year. Prior year amounts have been reclassified to conform to the current period presentation. These reclassifications were immaterial to the financial statements taken as a whole.

(B) RECENT ACCOUNTING PRONOUNCEMENTS

In July 2013, the Financial Accounting Standards Board (FASB) issued accounting guidance on the presentation of an unrecognized tax benefit when a net operating loss carryforward exists. Under this guidance, an unrecognized tax benefit, or a portion of an unrecognized tax benefit, should be presented in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward. This guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2013. Other than the change in presentation within the Consolidated Balance Sheet, this accounting guidance will not have an impact on our consolidated financial position, results of operations or cash flows.

(C) ACQUISITIONS

Euroway Ltd. — On August 1, 2012, we acquired all of the common stock of Euroway Ltd., a U.K.-based, full service leasing, rental and maintenance company for a purchase price of \$2.4 million and assumed capital lease obligations and debt of \$20.3 million. Approximately \$1.2 million of the stock purchase price has been paid, and the majority of the capital lease obligations have been repaid as of June 30, 2013. The purchase price includes \$0.5 million in contingent consideration to be paid to the seller provided certain conditions are met. As of June 30, 2013, the fair value of the contingent consideration has been reflected in “Accrued expenses and other current liabilities” in our Consolidated Condensed Balance Sheet. See Note (N), “Fair Value Measurements,” for additional information. The acquisition included Euroway's fleet of approximately 560 full service lease vehicles as well as 800 contract maintenance vehicles. As of June 30, 2013, goodwill and customer relationship intangibles related to the Euroway acquisition were \$6.5 million and \$2.8 million, respectively. The combined network operates under the Ryder name, complementing our FMS business segment coverage in the U.K.

During the six months ended June 30, 2013 and June 30, 2012, we paid \$1.4 million and \$2.4 million, respectively, related to acquisitions completed in years prior to 2012.

(D) DISCONTINUED OPERATIONS

Edgar Filing: RYDER SYSTEM INC - Form 10-Q

In 2009, we ceased SCS service operations in Brazil, Argentina, Chile and European markets. Accordingly, results of these operations, financial position and cash flows are separately reported as discontinued operations for all periods presented either in the Consolidated Condensed Financial Statements or notes thereto.

Summarized results of discontinued operations were as follows:

	Three months ended June 30,		Six months ended June 30,	
	2013	2012	2013	2012
	(In thousands)			
Pre-tax (loss) income from discontinued operations	\$(298) 66	\$(1,199) (509
Income tax expense	(83) (110) (60) (90
Loss from discontinued operations, net of tax	\$(381) (44) \$(1,259) (599

Results of discontinued operations in 2013 and 2012 reflected losses related to adverse legal developments and professional and administrative fees associated with our discontinued South American operations.

RYDER SYSTEM, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS — (Continued)

(unaudited)

The following is a summary of assets and liabilities of discontinued operations:

	June 30, 2013	December 31, 2012
	(In thousands)	
Total assets, primarily deposits	\$3,621	4,460
Total liabilities, primarily contingent accruals	\$5,067	5,329

Although we discontinued our South American operations in 2009, we continue to be party to various federal, state and local legal proceedings involving labor matters, tort claims and tax assessments. We have established loss provisions for any matters where we believe a loss is probable and can be reasonably estimated. Other than with respect to the matters discussed below, for matters where a reserve has not been established and for which we believe a loss is reasonably possible, as well as for matters where a reserve has been recorded but for which an exposure to loss in excess of the amount accrued is reasonably possible, we believe that such losses will not have a material effect on our consolidated financial statements.

In Brazil, we were assessed \$4.2 million (before and after tax) in prior years for various federal income taxes and social contribution taxes for the 1997 and 1998 tax years. We have successfully overturned these federal tax assessments in the lower courts; however, there is a reasonable possibility that these rulings could be reversed and we would be required to pay the assessments. We believe it is more likely than not that our position will ultimately be sustained if appealed and no amounts have been reserved for these matters. We are entitled to indemnification for a portion of any resulting liability on these federal tax claims which, if honored, would reduce the estimated loss.

In Brazil, we were assessed \$4.7 million (before and after tax) in prior years for certain state operating tax credits utilized between 2001 and 2003. Although there is a reasonable possibility that we could incur this loss, we believe it is more likely than not that our position will ultimately be sustained and no amounts have been reserved for these matters.

(E) SHARE-BASED COMPENSATION PLANS

Share-based incentive awards are provided to employees under the terms of various share-based compensation plans (collectively, the "Plans"). The Plans are administered by the Compensation Committee of the Board of Directors. Awards under the Plans principally include at-the-money stock options, nonvested stock and cash awards. Nonvested stock awards include grants of market-based, performance-based, and time-vested restricted stock rights. Under the terms of our Plans, dividends may be granted on our stock options, nonvested stock and cash awards. We have historically granted dividends with nonvested stock awards but not with our stock option awards. Dividends on nonvested stock granted after 2011 are not paid unless the award vests. Upon vesting, the amount of the dividends paid is equal to the aggregate dividends declared on common shares during the period from the date of grant of the award until the date the shares underlying the award are delivered.

The following table provides information on share-based compensation expense and income tax benefits recognized during the periods:

	Three months ended June 30,		Six months ended June 30,	
	2013	2012	2013	2012
	(In thousands)			
Stock option and stock purchase plans	\$2,193	2,274	\$4,303	4,638
Nonvested stock	2,799	2,374	5,299	4,447

Edgar Filing: RYDER SYSTEM INC - Form 10-Q

Share-based compensation expense	4,992		4,648		9,602		9,085	
Income tax benefit	(1,640)	(1,522)	(3,327)	(3,006)
Share-based compensation expense, net of tax	\$3,352		3,126		\$6,275		6,079	

During the six months ended June 30, 2013 and 2012, approximately 381,000 and 460,000 stock options, respectively, were granted under the Plans. These awards generally vest evenly over a three year period beginning on the date of grant. The stock options granted in 2013 have contractual terms of ten years and stock options granted in 2012 have contractual terms of seven years. The fair value of each option award at the date of grant was estimated using a Black-Scholes-Merton option-pricing valuation model. The weighted-average fair value per option granted during the six months ended June 30, 2013 and 2012 was \$13.99 and \$14.07, respectively.

RYDER SYSTEM, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS — (Continued)

(unaudited)

During the six months ended June 30, 2013 and 2012, approximately 22,000 and 93,000 market-based restricted stock rights, respectively, were granted under the Plans. The awards were segmented into three performance periods of one, two and three years. At the end of each performance period, 25%-125% of the award may be earned based on Ryder's total shareholder return (TSR) as compared to the TSR of a peer group over the applicable performance period. For the 2013 awards, Ryder's TSR will be compared to the TSR of a custom peer group. For the 2012 awards, Ryder's TSR will be compared to the TSR of the S&P 500. If earned, employees will receive the grant of stock at the end of the relevant three year performance period provided they continue to be employed with Ryder, subject to Compensation Committee approval. The fair value of the market-based restricted stock rights was estimated using a lattice-based option-pricing valuation model that incorporates a Monte-Carlo simulation. The fair value of the market-based awards was determined and fixed on the grant date and considers the likelihood of Ryder achieving the market-based condition. The weighted-average fair value per market-based restricted stock right granted during the six months ended June 30, 2013 and 2012 was \$53.32 and \$43.39, respectively.

During the six months ended June 30, 2013, approximately 15,000 performance-based restricted stock rights were granted under the Plans. For these awards, 25%-125% of the awards may be earned based on Ryder's 2013 adjusted return on capital (ROC) measured against a ROC target. If earned, employees will receive the grant of stock three years after the grant date, provided they continue to be employed with Ryder, subject to Compensation Committee approval. Share-based compensation expense is recognized on a straight-line basis over the vesting period, based upon the probability that the performance target will be met. During the six months ended June 30, 2013, approximately 30,000 performance-based restricted stock rights were also awarded under the Plans for which the annual ROC target will be determined in future years. These awards will be considered granted under accounting guidance for stock compensation once the Compensation Committee approves the annual ROC target and communicates the terms of the awards to the recipients.

During the six months ended June 30, 2013 and 2012, approximately 146,000 and 123,000 time-vested restricted stock rights, respectively, were granted under the Plans. The time-vested restricted stock rights entitle the holder to shares of common stock when the awards generally vest at the end of the three-year period after the grant date. The fair value of the time-vested awards is determined and fixed on the date of grant based on Ryder's stock price on the date of grant. The weighted-average fair value per time-vested restricted stock right granted during the six months ended June 30, 2013 and 2012 was \$58.06 and \$52.64, respectively.

During the six months ended June 30, 2013 and 2012, employees who received market-based restricted stock rights also received market-based cash awards. In addition, in 2012, the majority of the employees who received time-vested restricted stock rights also received market-based cash awards. The cash awards have the same vesting provisions as the market-based restricted stock rights. The cash awards are accounted for as liability awards under the share-based compensation accounting guidance as the awards are based upon the performance of our common stock and are settled in cash. As a result, the liability is adjusted to reflect fair value at the end of each reporting period. The fair value of the cash awards was estimated using a lattice-based option-pricing valuation model that incorporates a Monte-Carlo simulation.

The following table is a summary of compensation expense recognized for market-based cash awards in addition to the share-based compensation expense reported in the previous table:

	Three months ended June 30,		Six months ended June 30,	
	2013	2012	2013	2012
	(In thousands)			
Cash awards	\$889	788	\$2,163	1,385

Total unrecognized pre-tax compensation expense related to all share-based compensation arrangements at June 30, 2013 was \$32.2 million and is expected to be recognized over a weighted-average period of 1.8 years.

(G) RESTRUCTURING AND OTHER CHARGES

The components of restructuring and other charges, net in the three and six months ended June 30, 2013 and 2012, respectively, were as follows:

	Three months ended June 30,		Six months ended June 30,	
	2013	2012	2013	2012
	(In thousands)			
Restructuring charges, net:				
Severance and employee-related costs	\$ —	7,142	\$ —	7,142
Contract termination costs	—	—	—	865
Total	\$ —	7,142	\$ —	8,007

During the second quarter of 2012, we approved a plan to eliminate approximately 350 employees, primarily in the U.S., as a result of cost containment actions. These actions resulted in the payment of severance and other termination benefits, which have been completed. During the first half of 2012, we also recorded exit costs of \$0.9 million associated with non-essential leased facilities assumed in the Hill Hire acquisition.

Activity related to restructuring reserves including discontinued operations was as follows:

	December 31,		Deductions			June 30, 2013
	2012	Additions	Cash	Non-Cash	Foreign	Balance
	Balance		Payments	Reductions	Translation	
	(In thousands)			(1)	Adjustments	
Employee severance and benefits	\$3,147	—	2,164	—	(158)	825
Contract termination costs	1,728	—	1,168	—	(99)	461
Total	\$4,875	—	3,332	—	(257)	1,286

(1) Non-cash reductions represent adjustments to the restructuring reserve as actual costs were less than originally estimated.

At June 30, 2013, the majority of outstanding restructuring obligations are required to be paid by the end of the year.

As mentioned in Note (U), "Segment Reporting," our primary measure of segment financial performance excludes, among other items, restructuring and other charges, net. However, the applicable portion of the restructuring and other charges, net that related to each segment for the three and six months ended June 30, 2013 and 2012, respectively, were as follows:

	Three months ended June 30,		Six months ended June 30,	
	2013	2012	2013	2012
	(In thousands)			
Fleet Management Solutions	\$ —	5,482	\$ —	6,347
Supply Chain Solutions	—	1,400	—	1,400
Central Support Services (CSS)	—	260	—	260
Total	\$ —	7,142	\$ —	8,007

(unaudited)

(H) DIRECT FINANCING LEASE RECEIVABLES

We lease revenue earning equipment to customers for periods typically ranging from three to seven years for trucks and tractors and up to ten years for trailers. The majority of our leases are classified as operating leases. However, some of our revenue earning equipment leases are classified as direct financing leases and, to a lesser extent, sales-type leases. The net investment in direct financing and sales-type leases consisted of:

	June 30, 2013	December 31, 2012
	(In thousands)	
Total minimum lease payments receivable	\$598,606	629,919
Less: Executory costs	(190,090)	(201,777)
Minimum lease payments receivable	408,516	428,142
Less: Allowance for uncollectibles	(538)	(703)
Net minimum lease payments receivable	407,978	427,439
Unguaranteed residuals	56,955	60,764
Less: Unearned income	(90,434)	(96,280)
Net investment in direct financing and sales-type leases	374,499	391,923
Current portion	(73,449)	(76,395)
Non-current portion	\$301,050	315,528

Our direct financing lease customers operate in a wide variety of industries, and we have no significant customer concentrations in any one industry. We assess credit risk for all of our customers including those who lease equipment under direct financing leases upon signing of a full service lease contract. The credit risk assessment is only updated under certain circumstances. Credit risk is assessed using an internally developed model, which is updated monthly, that incorporates credit scores from third party providers and our own custom risk ratings. The external credit scores are developed based on the customer's historical payment patterns and an overall assessment of the likelihood of delinquent payments. Our internal ratings are weighted based on the industry in which the customer operates, company size, years in business, and other credit-related financial indicators. Any one of the following factors may result in a customer being classified as high risk: i) the customer has a history of late payments; ii) the customer has open lawsuits, liens or judgments; iii) the customer has been in business less than 3 years; and iv) the customer operates in an industry with low barriers to entry. For those customers who are designated as high risk, we typically require deposits to be paid in advance in order to mitigate our credit risk. Additionally, our receivables are collateralized by the vehicle's fair value, which further mitigates our credit risk.

The following table presents the credit risk profile by creditworthiness category of our direct financing lease receivables:

	June 30, 2013	December 31, 2012
	(In thousands)	
Very low risk to low risk	\$156,596	193,123
Moderate risk	184,990	177,400
Moderately high risk to high risk	66,930	57,619
	\$408,516	428,142

The following table is a rollforward of the allowance for credit losses on direct financing lease receivables for the six months ended June 30, 2013 and 2012:

	2013	2012
	(In thousands)	
Balance at January 1	\$703	903
(Credited) charged to earnings	(22) 746
Deductions	(143) (911
Balance at June 30	\$538	738

(I) REVENUE EARNING EQUIPMENT

	June 30, 2013			December 31, 2012		
	Cost	Accumulated Depreciation	Net Book Value ⁽¹⁾	Cost	Accumulated Depreciation	Net Book Value ⁽¹⁾
	(In thousands)					
Held for use:						
Full service lease	\$6,826,293	(2,433,139)	4,393,154	\$6,728,746	(2,500,786)	4,227,960
Commercial rental	2,128,962	(686,786)	1,442,176	2,041,698	(660,356)	1,381,342
Held for sale	517,981	(365,508)	152,473	499,074	(353,768)	145,306
Total	\$9,473,236	(3,485,433)	5,987,803	\$9,269,518	(3,514,910)	5,754,608

Revenue earning equipment, net includes vehicles acquired under capital leases of \$54.9 million, less accumulated (1)depreciation of \$18.3 million, at June 30, 2013, and \$56.2 million, less accumulated depreciation of \$16.5 million, at December 31, 2012.

At the end of 2012, we completed our annual review of residual values and useful lives of revenue earning equipment. Based on the results of our analysis, we adjusted the estimated residual values of certain classes of revenue earning equipment effective January 1, 2013. The change in estimated residual values increased pre-tax earnings for the three and six months ended June 30, 2013 by approximately \$7.4 million and \$14.9 million, respectively.

(J) GOODWILL

The carrying amount of goodwill attributable to each reportable business segment with changes therein was as follows:

	Fleet Management Solutions	Supply Chain Solutions	Total
	(In thousands)		
Balance at January 1, 2013:			
Goodwill	\$223,129	190,308	413,437
Accumulated impairment losses	(10,322)	(18,899)	(29,221)
	212,807	171,409	384,216
Purchase accounting adjustments	434	—	434
Foreign currency translation adjustments	(788)	(491)	(1,279)
Balance at June 30, 2013:			
Goodwill	222,775	189,817	412,592
Accumulated impairment losses	(10,322)	(18,899)	(29,221)
	\$212,453	170,918	383,371

Purchase accounting adjustments primarily related to changes in the fair value of acquired revenue earning equipment. We did not adjust the December 31, 2012 balance sheet as the amounts are not material.

We assess goodwill for impairment on April 1st of each year or more often if deemed necessary. In the second quarter of 2013, we completed our annual goodwill impairment test and determined there was no impairment.

(L) INCOME TAXES

Uncertain Tax Positions

We are subject to tax audits in numerous jurisdictions in the U.S. and foreign countries. Tax audits by their very nature are often complex and can require several years to complete. In the normal course of business, we are subject to challenges from the Internal Revenue Service (IRS) and other tax authorities regarding amounts of taxes due. These challenges may alter the timing or amount of taxable income or deductions, or the allocation of income among tax jurisdictions. As part of our calculation of the provision for income taxes on earnings, we recognize the tax benefit from uncertain tax positions that are at least more likely than not of being sustained upon audit, based on the technical merits of the tax position. The tax benefit to be recognized is measured as the largest amount of benefit that is greater than fifty percent likely of being realized upon ultimate settlement. Such calculations require management to make estimates and judgments with respect to the ultimate outcome of a tax audit. Actual results could vary materially from these estimates. We reevaluate uncertain tax positions each quarter based on factors including, but not limited to, changes in facts or circumstances, expiration of statutes of limitations, changes in tax law, effectively settled issues under audit, and new audit activity. Depending on the jurisdiction, such a change in recognition or measurement may result in the recognition of a tax benefit or an additional charge to the tax provision in the period.

The following is a summary of tax years that are no longer subject to examination:

Federal — audits of our U.S. federal income tax returns are closed through fiscal year 2008.

State — for the majority of states, tax returns are closed through fiscal year 2008.

Foreign — we are no longer subject to foreign tax examinations by tax authorities for tax years before 2005 in Canada, 2007 in Brazil, 2008 in Mexico and 2011 in the U.K., which are our major foreign tax jurisdictions. Refer to Note (D), “Discontinued Operations,” for further discussion on various assessments related to our former South American operations.

At June 30, 2013 and December 31, 2012, the total amount of gross unrecognized tax benefits (excluding the federal benefit received from state positions) was \$54.1 million and \$52.3 million, respectively. Unrecognized tax benefits related to federal, state and foreign tax positions may decrease by \$2.3 million by June 30, 2014, if audits are completed or tax years close.

Like-Kind Exchange Program

We have a like-kind exchange program for certain of our U.S.-based revenue earning equipment. Pursuant to the program, we dispose of vehicles and acquire replacement vehicles in a form whereby tax gains on disposal of eligible vehicles are deferred. To qualify for like-kind exchange treatment, we exchange through a qualified intermediary eligible vehicles being disposed of with vehicles being acquired, allowing us to generally carryover the tax basis of the vehicles sold (“like-kind exchanges”). The program results in a material deferral of federal and state income taxes, and a decrease in cash taxes in periods when we are not in a net operating loss (NOL) position. As part of the program, the proceeds from the sale of eligible vehicles are restricted for the acquisition of replacement vehicles and other specified applications. Due to the structure utilized to facilitate the like-kind exchanges, the qualified intermediary that holds the proceeds from the sales of eligible vehicles and the entity that holds the vehicles to be acquired under the program are required to be consolidated in the accompanying Consolidated Condensed Financial Statements in accordance with U.S. GAAP. The total assets, primarily revenue earning equipment, and the total liabilities, primarily vehicle accounts payable, held by these consolidated entities are equal in value as these entities are solely structured to facilitate the like-kind exchanges. At June 30, 2013 and December 31, 2012, these consolidated entities had total

assets and total liabilities of \$181.2 million and \$25.8 million, respectively.

In the second quarter of 2012, we began to restructure and centralize the administration of vehicle purchasing, licensing and sales in order to reduce vehicle acquisition costs as well as realize operational efficiencies. During 2012, we were in a NOL position for tax purposes and were not realizing any benefits from the like-kind exchange program. As a result, effective April 1, 2012, we temporarily suspended the like-kind exchange program. Once we suspended the program, tax gains on vehicles sold during that period were no longer deferred. Those tax gains resulted in an immaterial decrease in the NOL. Although the suspension did not impact our 2012 tax provision or capital spending program, our cash flows increased \$19.2 million from the release of the program's restricted cash.

In the first quarter of 2013, once we had completed our restructuring of the administrative processes for purchasing and selling vehicles, we reinstated our like-kind exchange program. The reinstated program operates, and will provide cash tax

RYDER SYSTEM, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS — (Continued)

(unaudited)

benefits, in the same manner as it did prior to suspension once we are no longer in a NOL position. Our cash flow declined \$15.1 million as a result of the program's restricted cash. There were no other impacts to cash flow as a result of the program's reinstatement.

Effective Tax Rate

Our effective income tax rate from continuing operations for the second quarter of 2013 was 35.7% compared with 36.6% in the same period of the prior year. The decrease in our effective tax rate in the second quarter of 2013 is due to a higher proportionate amount of 2013 earnings in lower tax rate jurisdictions as well as the impact of a prior year tax law change.

Our effective income tax rate from continuing operations for the six months ended June 30, 2013 was 35.3% compared with 32.8% in the same period of the prior year. The effective rate from continuing operations in the first half of 2012 was favorably impacted by a tax benefit of \$5.0 million (4.1% of earnings before tax) relating to the favorable resolution of a tax item from prior periods. The increase in the effective tax rate in the first half of 2013 reflects the \$5.0 million tax benefit in the prior year partially offset by a higher proportionate amount of 2013 earnings in lower tax rate jurisdictions.

(M) DEBT

	Weighted-Average Interest Rate		Maturities	June 30, 2013	December 31, 2012
	June 30, 2013	December 31, 2012		June 30, 2013 (In thousands)	December 31, 2012

Current portion of long-term debt, including capital leases				(258,303)	(358,155)
Long-term debt				3,655,710	3,452,821

Total debt	\$3,914,407	3,820,796
------------	-------------	-----------

-
- (1) We had unamortized original issue discounts of \$8.4 million and \$8.8 million at June 30, 2013 and December 31, 2012, respectively.
- (2) The notional amount of executed interest rate swaps designated as fair value hedges was \$300 million and \$550 million at June 30, 2013 and December 31, 2012, respectively.

We can borrow up to \$900 million under a global revolving credit facility with a syndicate of twelve lending institutions led by Bank of America N.A., Bank of Tokyo-Mitsubishi UFJ, Ltd., BNP Paribas, Mizuho Corporate Bank, Ltd., Royal Bank of Canada, Royal Bank of Scotland Plc, U.S. Bank National Association and Wells Fargo Bank, N.A. This facility matures in June 2016 and is used primarily to finance working capital and provide support for the issuance of unsecured commercial paper in the U.S. and Canada. This facility can also be used to issue up to \$75 million in letters of credit (there were no letters of credit outstanding against the facility at June 30, 2013). At our option, the interest rate on borrowings under the credit facility is based on LIBOR, prime, federal funds or local equivalent rates. The agreement provides for annual facility fees, which range from 10.0 basis points to 32.5 basis points, and are based on Ryder's long-term credit ratings. The current annual facility fee is 15.0

RYDER SYSTEM, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS — (Continued)

(unaudited)

basis points, which applies to the total facility size of \$900 million. The credit facility contains no provisions limiting its availability in the event of a material adverse change to Ryder's business operations; however, the credit facility does contain standard representations and warranties, events of default, cross-default provisions and certain affirmative and negative covenants. In order to maintain availability of funding, we must maintain a ratio of debt to consolidated net worth of less than or equal to 300%. Net worth, as defined in the credit facility, represents shareholders' equity excluding any accumulated other comprehensive income or loss associated with our pension and other postretirement plans. The ratio at June 30, 2013 was 179%. At June 30, 2013, \$361 million was available under the credit facility, net of support for commercial paper borrowings.

Our global revolving credit facility permits us to refinance short-term commercial paper obligations on a long-term basis. Settlement of short-term commercial paper obligations not expected to require the use of working capital are classified as long-term as we have both the intent and ability to refinance on a long-term basis. At June 30, 2013 and December 31, 2012, we classified \$533.8 million and \$353.1 million, respectively, of short-term commercial paper as long-term debt.

In February 2013, we issued \$250 million of unsecured medium-term notes maturing in February 2019. The proceeds from the notes were used to pay down commercial paper and for general corporate purposes. If the notes are downgraded following, and as a result of, a change in control, the note holder can require us to repurchase all or a portion of the notes at a purchase price equal to 101% of principal plus accrued and unpaid interest.

We have a trade receivables purchase and sale program, pursuant to which we sell certain of our domestic trade accounts receivable to a bankruptcy remote, consolidated subsidiary of Ryder, that in turn sells, on a revolving basis, an ownership interest in certain of these accounts receivable to a receivables conduit or committed purchasers. The subsidiary is considered a VIE and is consolidated based on our control of the entity's activities. We use this program to provide additional liquidity to fund our operations, particularly when it is cost effective to do so. The costs under the program may vary based on changes in interest rates. The available proceeds that may be received under the program are limited to \$175 million. If no event occurs which causes early termination, the 364-day program will expire on October 25, 2013. The program contains provisions restricting its availability in the event of a material adverse change to our business operations or the collectibility of the collateralized receivables. At June 30, 2013 and December 31, 2012, no amounts were outstanding under the program. Sales of receivables under this program will be accounted for as secured borrowings based on our continuing involvement in the transferred assets.

At June 30, 2013 and December 31, 2012, we had letters of credit and surety bonds outstanding totaling \$296.6 million and \$294.1 million, respectively, which primarily guarantee the payment of insurance claims.

(unaudited)

(N) FAIR VALUE MEASUREMENTS

The following tables present our assets and liabilities that are measured at fair value on a recurring basis and the levels of inputs used to measure fair value:

	Balance Sheet Location	Fair Value Measurements At June 30, 2013 Using			Total
		Level 1	Level 2	Level 3	
		(In thousands)			
Assets:					
Interest rate swaps	DFL and other assets	\$—	10,358	—	10,358
Investments held in Rabbi Trusts:					
Cash and cash equivalents		4,149	—	—	4,149
U.S. equity mutual funds		13,094	—	—	13,094
Foreign equity mutual funds		3,417	—	—	3,417
Fixed income mutual funds		4,515	—	—	4,515
Investments held in Rabbi Trusts	DFL and other assets	25,175	—	—	25,175
Total assets at fair value		\$25,175	10,358	—	35,533

Liabilities:

Contingent consideration	Accrued expenses and other current liabilities	\$—	—	478	478
Total liabilities at fair value		\$—	—	478	478

	Balance Sheet Location	Fair Value Measurements At December 31, 2012 Using			Total
		Level 1	Level 2	Level 3	
		(In thousands)			
Assets:					
Interest rate swaps	Prepaid expenses and other current assets	\$—	1,313	—	1,313
Interest rate swaps	DFL and other assets	—	15,412	—	15,412
Investments held in Rabbi Trusts:					
Cash and cash equivalents		4,055	—	—	4,055
U.S. equity mutual funds		10,871	—	—	10,871
Foreign equity mutual funds		2,974	—	—	2,974
Fixed income mutual funds		4,526	—	—	4,526
Investments held in Rabbi Trusts	DFL and other assets	22,426	—	—	22,426
Total assets at fair value		\$22,426	16,725	—	39,151

Liabilities:

Contingent consideration	Other non-current liabilities	\$—	—	478	478
Total liabilities at fair value		\$—	—	478	478

The following is a description of the valuation methodologies used for these items, as well as the level of inputs used to measure fair value:

Interest rate swaps — The derivatives are pay-variable, receive-fixed interest rate swaps based on the LIBOR rate and are designated as fair value hedges. Fair value was based on a model-driven income approach using the LIBOR rate at each interest payment date, which was observable at commonly quoted intervals for the full term of the swaps.

Therefore, our interest rate swaps were classified within Level 2 of the fair value hierarchy.

Investments held in Rabbi Trusts — The investments primarily include mutual funds that invest in equity and fixed income securities. Shares of mutual funds were valued based on quoted market prices, which represent the net asset value of the shares and were therefore classified within Level 1 of the fair value hierarchy.

RYDER SYSTEM, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS — (Continued)

(unaudited)

Contingent consideration — Fair value was based on the income approach and uses significant inputs that are not observable in the market. These inputs are based on our expectations as to what amount we will pay based on contractual provisions. Therefore, the liability was classified within Level 3 of the fair value hierarchy.

The following tables present our assets and liabilities that are measured at fair value on a nonrecurring basis and the levels of inputs used to measure fair value:

	Fair Value Measurements At June 30, 2013 Using			Total Losses ⁽²⁾	
	Level 1	Level 2	Level 3	Three months ended	Six months ended
	(In thousands)				
Assets held for sale:					
Revenue earning equipment: ⁽¹⁾					
Trucks	\$—	—	11,132	\$2,447	\$5,476
Tractors	—	—	16,283	1,413	2,508
Trailers	—	—	882	370	967
Total assets at fair value	\$—	—	28,297	\$4,230	\$8,951
	Fair Value Measurements At June 30, 2012 Using			Total Losses ⁽²⁾	
	Level 1	Level 2	Level 3	Three months ended	Six months ended
	(In thousands)				
Assets held for sale:					
Revenue earning equipment ⁽¹⁾					
Trucks	\$—	—	9,992	\$3,108	\$5,489
Tractors	—	—	6,361	1,071	1,542
Trailers	—	—	584	276	783
Total assets at fair value	\$—	—	16,937	\$4,455	\$7,814

(1) Represents the portion of all revenue earning equipment held for sale that is recorded at fair value, less costs to sell.

(2) Total losses represent fair value adjustments for all vehicles held for sale throughout the period for which fair value was less than carrying value.

Revenue earning equipment held for sale is stated at the lower of carrying amount or fair value less costs to sell. Losses to reflect changes in fair value are presented within “Other operating expenses” in the Consolidated Condensed Statements of Earnings. For revenue earning equipment held for sale, we stratify our fleet by vehicle type (tractors, trucks and trailers), weight class, age and other relevant characteristics and create classes of similar assets for analysis purposes. Fair value was determined based upon recent market prices obtained from our own sales experience for sales of each class of similar assets and vehicle condition. Therefore, our revenue earning equipment held for sale was classified within Level 3 of the fair value hierarchy.

Fair value of total debt (excluding capital lease obligations) at June 30, 2013 and December 31, 2012 was approximately \$4.00 billion and \$3.99 billion, respectively. For publicly-traded debt, estimates of fair value were based on market prices. Since our publicly-traded debt is not actively traded, the fair value measurement was classified within Level 2 of the fair value hierarchy. For other debt, fair value was estimated based on a model-driven approach using rates currently available to us for debt with similar terms and remaining maturities. Therefore, the fair

value measurement of our other debt was classified within Level 2 of the fair value hierarchy. The carrying amounts reported in the Consolidated Condensed Balance Sheets for “Cash and cash equivalents,” “Receivables, net” and “Accounts payable” approximate fair value because of the immediate or short-term maturities of these financial instruments.

(unaudited)

(O) DERIVATIVES

As of June 30, 2013, we have interest rate swaps outstanding which are designated as fair value hedges whereby we receive fixed interest rate payments in exchange for making variable interest rate payments. The differential to be paid or received is accrued and recognized as interest expense. The following table provides a detail of the swaps outstanding and the related hedged items as of June 30, 2013:

Issuance date	Maturity date	Face value of medium-term notes	Aggregate notional amount of interest rate swaps	Fixed interest rate	Weighted-average variable interest rate on hedged debt as of June 30,	
					2013	2012
		(Dollars in thousands)				
May 2011	June 2017	\$350,000	\$150,000	3.50%	1.51%	1.83%
February 2011	March 2015	\$350,000	\$150,000	3.15%	1.41%	1.70%

Changes in the fair value of our interest rate swaps are offset by changes in the fair value of the debt instrument. Accordingly, there is no ineffectiveness related to the interest rate swaps. The location and amount of gains (losses) on interest rate swap agreements designated as fair value hedges and related hedged items reported in the Consolidated Condensed Statements of Earnings were as follows:

Fair Value Hedging Relationship	Location of Gain (Loss) Recognized in Income	Three months ended June 30,		Six months ended June 30,	
		2013	2012	2013	2012
		(In thousands)			
Derivatives: Interest rate swaps	Interest expense	\$(3,586)	218	\$(6,367)	(1,952)
Hedged items: Fixed-rate debt	Interest expense	3,586	(218)	6,367	1,952
Total		\$—	—	\$—	—

Refer to Note (N), "Fair Value Measurements," for disclosures of the fair value and line item caption of derivative instruments recorded on the Consolidated Condensed Balance Sheets.

(P) SHARE REPURCHASE PROGRAMS

In December 2011, our Board of Directors authorized a share repurchase program intended to mitigate the dilutive impact of shares issued under our various employee stock, stock option and employee stock purchase plans. Under the December 2011 program, management is authorized to repurchase shares of common stock in an amount not to exceed the number of shares issued to employees under the Company's various employee stock, stock option and employee stock purchase plans from December 1, 2011 through December 13, 2013. The December 2011 program limits aggregate share repurchases to no more than 2 million shares of Ryder common stock. In 2013, we temporarily paused our anti-dilutive share repurchase program to appropriately manage our leverage and to allow us to maintain near-term balance sheet flexibility. For the three months ended June 30, 2012, we repurchased and retired 233,500 shares under the program at an aggregate cost of \$10.9 million. For the six months ended June 30, 2012, we repurchased and retired 456,700 shares under the program at an aggregate cost of \$22.9 million.

(Q) ACCUMULATED OTHER COMPREHENSIVE LOSS

The following summaries set forth the components of accumulated other comprehensive loss, net of tax:

	Currency Translation Adjustments	Net Actuarial Loss ⁽¹⁾	Prior Service Credit ⁽¹⁾	Transition Obligation ⁽¹⁾	Unrealized Gain (Loss) on Derivatives	Accumulated Other Comprehensive Loss
	(In thousands)					
December 31, 2012	\$57,848	(648,125)	2,634	12	12	(587,619)
Amortization	—	11,514	(697)	—	—	10,817
Current period change	(49,952)	(3,714)	—	—	9	(53,657)
June 30, 2013	\$7,896	(640,325)	1,937	12	21	(630,459)
	(In thousands)					
	Currency Translation Adjustments	Net Actuarial Loss ⁽¹⁾	Prior Service Credit ⁽¹⁾	Transition Obligation ⁽¹⁾	Unrealized Gain (Loss) on Derivatives	Accumulated Other Comprehensive Loss
December 31, 2011	\$28,219	(599,687)	4,291	12	—	(567,165)
Amortization	—	10,107	(814)	—	—	9,293
Current period change	5,844	(2,547)	—	—	19	3,316
June 30, 2012	\$34,063	(592,127)	3,477	12	19	(554,556)

(1) These amounts are included in the computation of net periodic pension cost. See Note (R), "Employee Benefit Plans", for further information.

The loss from currency translation adjustments in 2013 of \$50.0 million was due to the weakening of the British Pound and the Canadian Dollar compared to the U.S. Dollar. The currency translation adjustment in 2012 of \$5.8 million reflects the strengthening of the British Pound against the U.S. Dollar.

(R) EMPLOYEE BENEFIT PLANS

Components of net periodic benefit cost were as follows:

	Three months ended June 30,		Six months ended June 30,	
	2013	2012	2013	2012
	(In thousands)			
Pension Benefits				
Company-administered plans:				
Service cost	\$3,756	3,826	\$8,008	7,733
Interest cost	22,316	23,563	44,735	47,252
Expected return on plan assets	(26,389) (24,055) (52,837) (48,112
Amortization of:				
Net actuarial loss	8,685	7,726	17,565	15,587
Prior service credit	(443) (567) (909) (1,136
	7,925	10,493	16,562	21,324
Union-administered plans	2,046	1,630	4,030	3,244
Net periodic benefit cost	\$9,971	12,123	\$20,592	24,568
Company-administered plans:				
U.S.	\$8,152	9,643	\$16,893	19,491
Non-U.S.	(227) 850	(331) 1,833
	7,925	10,493	16,562	21,324
Union-administered plans	2,046	1,630	4,030	3,244
	\$9,971	12,123	\$20,592	24,568
Postretirement Benefits				
Company-administered plans:				
Service cost	\$230	227	\$493	547
Interest cost	392	475	787	989
Amortization of:				
Net actuarial (gain) loss	(5) (7) (7) (10
Prior service credit	(57) (57) (115) (115
Net periodic benefit cost	\$560	638	\$1,158	1,411
Company-administered plans:				
U.S.	\$402	519	808	1,071
Non-U.S.	158	119	350	340
	\$560	638	\$1,158	1,411

During the six months ended June 30, 2013, we contributed \$24.1 million to our pension plans. In 2013, we expect total contributions to our pension plans to be approximately \$66 million.

RYDER SYSTEM, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS — (Continued)

(unaudited)

(S) OTHER ITEMS IMPACTING COMPARABILITY

Our primary measure of segment performance excludes certain items we do not believe are representative of the ongoing operations of the segment. We believe that excluding these items from our segment measure of performance allows for better comparison of results.

During the six months ended June 30, 2013, we recognized a benefit of \$1.9 million (before and after tax) from the recognition of the accumulated currency translation adjustment from a FMS foreign operation which has substantially liquidated its net assets. This benefit was recorded within “Miscellaneous income, net” in our Consolidated Condensed Statement of Earnings.

(T) SUPPLEMENTAL CASH FLOW INFORMATION

Supplemental cash flow information was as follows:

	Six months ended June 30,	
	2013	2012
	(In thousands)	
Interest paid	\$67,545	64,060
Income taxes paid	\$8,447	6,644
Changes in accounts payable related to purchases of revenue earning equipment	\$40,389	112,990
Operating and revenue earning equipment acquired under capital leases	\$4,814	616

(U) SEGMENT REPORTING

Our operating segments are aggregated into reportable business segments based upon similar economic characteristics, products, services, customers and delivery methods. We operate in two reportable business segments: (1) FMS, which provides full service leasing, contract maintenance, contract-related maintenance and commercial rental of trucks, tractors and trailers to customers, principally in the U.S., Canada and the U.K.; and (2) SCS, which provides comprehensive supply chain consulting including distribution and transportation services in North America and Asia. The SCS segment also provides dedicated services, which includes vehicles and drivers as part of a dedicated transportation solution in the U.S.

Our primary measurement of segment financial performance, defined as “Earnings Before Tax” (EBT) from continuing operations, includes an allocation of Central Support Services (CSS) and excludes non-operating pension costs, restructuring and other charges, net as described in Note (G), “Restructuring and Other Charges” and the items discussed in Note (S), “Other Items Impacting Comparability.” CSS represents those costs incurred to support all business segments, including human resources, finance, corporate services, public affairs, information technology, health and safety, legal and corporate communications. The objective of the EBT measurement is to provide clarity on the profitability of each business segment and, ultimately, to hold leadership of each business segment and each operating segment within each business segment accountable for their allocated share of CSS costs. Certain costs are considered to be overhead not attributable to any segment and remain unallocated in CSS. Included among the unallocated overhead remaining within CSS are the costs for investor relations, public affairs and certain executive compensation.

Our FMS segment leases revenue earning equipment and provides fuel, maintenance and other ancillary services to the SCS segment. Inter-segment revenue and EBT are accounted for at rates similar to those executed with third parties. EBT related to inter-segment equipment and services billed to customers (equipment contribution) are

included in both FMS and SCS and then eliminated (presented as “Eliminations”).

The following tables set forth financial information for each of our business segments and provides a reconciliation between segment EBT and earnings from continuing operations before income taxes for the three and six months ended June 30, 2013 and 2012. Segment results are not necessarily indicative of the results of operations that would have occurred had each segment been an independent, stand-alone entity during the periods presented.

(1) Excludes revenue earning equipment acquired under capital leases.

(2) Excludes acquisition payments of \$1.4 million and \$2.4 million during the six months ended June 30, 2013 and 2012, respectively.

(V) OTHER MATTERS

We are a party to various claims, complaints and proceedings arising in the ordinary course of our continuing business operations including but not limited to those relating to commercial and employment claims, environmental matters, risk management matters (e.g. vehicle liability, workers' compensation, etc.) and administrative assessments primarily associated with operating taxes. We have established loss provisions for matters in which losses are probable and can be reasonably estimated. For matters from continuing operations where a reserve has not been established and for which we believe a loss is reasonably possible, as well as for matters where a reserve has been recorded but for which an exposure to loss in excess of the amount accrued is reasonably possible, we believe that such losses will not have a material effect on our consolidated financial statements.

Our estimates regarding potential losses and materiality are based on our judgment and assessment of the claims utilizing currently available information. Although we will continue to reassess our reserves and estimates based on future developments, our objective assessment of the legal merits of such claims may not always be predictive of the outcome and actual results may vary from our current estimates.

Refer to Note (D), “Discontinued Operations,” for additional matters.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS

OVERVIEW

The following discussion should be read in conjunction with the unaudited Consolidated Condensed Financial Statements and notes thereto included under Item 1. In addition, reference should be made to our audited Consolidated Financial Statements and notes thereto and related Management's Discussion and Analysis of Financial Condition and Results of Operations included in the 2012 Annual Report on Form 10-K.

Ryder System, Inc. (Ryder) is a global leader in transportation and supply chain management solutions. Our operating segments are aggregated into reportable business segments based upon similar economic characteristics, products, services, customers and delivery methods. We operate in two reportable business segments: (1) FMS, which provides full service leasing, contract maintenance, contract-related maintenance and commercial rental of trucks, tractors and trailers to customers, principally in the U.S., Canada and the U.K.; and (2) SCS, which provides comprehensive supply chain consulting including distribution and transportation services in North America and Asia. The SCS segment also provides dedicated services, which includes vehicles and drivers as part of a dedicated transportation solution in the U.S.

We operate in highly competitive markets. Our customers select us based on numerous factors including service quality, price, technology and service offerings. As an alternative to using our services, customers may choose to provide these services for themselves, or may choose to obtain similar or alternative services from other third-party vendors. Our customer base includes enterprises operating in a variety of industries including automotive, transportation, food service, electronics, consumer packaged goods, grocery, lumber and wood products and home furnishing.

Total revenue increased 3% in the second quarter of 2013 to \$1.60 billion and increased 2% in the first half of 2013 to \$3.17 billion. Operating revenue (revenue excluding FMS fuel and all subcontracted transportation) increased 4% in the second quarter of 2013 to \$1.31 billion and increased 3% to \$2.58 billion in the first half of 2013. The increase in total and operating revenue for both periods was driven by growth in both the FMS and SCS business segments. See "Consolidated Results" for further discussion of operating revenue, a non-GAAP financial measure.

Earnings from continuing operations before taxes (EBT) increased 32% in the second quarter of 2013 to \$97.4 million and increased 32% for the first half of 2013 to \$159.9 million. The increase in EBT in both the second quarter and the first half of 2013 reflects improved performance in the FMS and SCS business segments. The increase in EBT also reflects the impact of pre-tax restructuring charges related to cost reduction initiatives implemented in the second quarter of 2012 and lower pension expense.

EBT, earnings and EPS from continuing operations included certain items we do not consider indicative of our ongoing operations and have been excluded from our comparable earnings measure. The following discussion provides a summary of the quarter and year to date June 30, 2013 and 2012 special items, which are discussed in more detail throughout our MD&A and within the Notes to Consolidated Condensed Financial Statements:

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - (Continued)

	EBT		Earnings		Diluted EPS	
	2013	2012	2013	2012	2013	2012
Three months ended June 30	(In thousands, except per share amounts)					
EBT/Earnings/EPS	\$97,362	73,769	\$62,575	46,767	\$1.19	0.91
Non-operating pension costs ⁽¹⁾	4,999	7,702	2,924	4,746	0.06	0.09
Restructuring and other charges ⁽²⁾	—	7,142	—	4,516	—	0.09
Comparable	\$102,361	88,613	\$65,499	56,029	\$1.25	1.09
Six months ended June 30						
EBT/Earnings/EPS	\$159,870	121,467	\$103,377	81,643	\$1.98	1.59
Non-operating pension costs ⁽¹⁾	10,243	15,706	6,005	9,685	0.12	0.19
Restructuring and other charges ⁽²⁾	—	8,007	—	5,161	—	0.10
Foreign currency translation benefit ⁽³⁾	(1,904)	—	(1,904)	—	(0.04)	—
Tax benefit ⁽⁴⁾	—	—	—	(4,967)	—	(0.10)
Comparable	\$168,209	145,180	\$107,478	91,522	\$2.06	1.78

Includes the amortization of actuarial loss, interest cost and expected return on plan assets components of pension (1) and post-retirement costs, which are tied to financial market performance. The company considers these costs to be outside the operational performance of the business.

(2) See Note (G), "Restructuring and Other Charges," for further discussion.

(3) See Note (S), "Other Items Impacting Comparability," for additional information.

(4) Tax benefit associated with the resolution of a prior year tax item. See Note (L), "Income Taxes."

Excluding the special items listed above, comparable earnings and EPS from continuing operations in the second quarter of 2013 increased 17% to \$65.5 million and increased 15% to \$1.25 per diluted common share, respectively. Comparable earnings and EPS from continuing operations in the first half of 2013 increased 17% to \$107.5 million and increased 16% to \$2.06 per diluted common share, respectively. We believe that comparable earnings from continuing operations before taxes, comparable earnings from continuing operations, and comparable earnings per diluted common share from continuing operations, all non-GAAP financial measures, provide useful information to investors and allow for better year over year comparison of operating performance. These non-GAAP financial measures exclude non-operating pension costs, which we consider to be costs outside the operational performance of the business that can significantly change from year to year. These non-GAAP financial measures also exclude other significant items that are not representative of our ongoing business operations and allow for better year over year comparison.

Net earnings and EPS increased 33% in the second quarter of 2013 to \$62.2 million and 31% to \$1.19 per diluted common share, respectively. Net earnings and EPS increased 26% in the first half of 2013 to \$102.1 million and 24% to \$1.96 per diluted common share, respectively.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - (Continued)

CONSOLIDATED RESULTS

	Three months ended June 30,		Six months ended June 30,		Change 2013/2012	
	2013	2012	2013	2012	Three Months	Six Months
	(In thousands, except per share amounts)					
Total revenue	\$1,603,999	1,563,860	\$3,167,016	3,100,136	3%	2%
Operating revenue ⁽¹⁾	1,313,339	1,266,610	2,580,860	2,495,534	4%	3%
Pre-tax earnings from continuing operations	\$97,362	73,769	\$159,870	121,467	32%	32%
Earnings from continuing operations	62,575	46,767	103,377	81,643	34%	27%
Net earnings	62,194	46,723	102,118	81,044	33%	26%
Earnings per common share — Diluted						
Continuing operations	\$1.19	0.91	\$1.98	1.59	31%	25%
Net earnings	1.19	0.91	1.96	1.58	31%	24%

We use operating revenue, a non-GAAP financial measure, to evaluate the operating performance of our businesses and as a measure of sales activity. FMS fuel services revenue, which is directly impacted by fluctuations in market fuel prices, is excluded from the operating revenue computation as fuel is largely a pass-through to our customers for which we realize minimal changes in profitability during periods of steady market fuel prices. However, profitability may be positively or negatively impacted by rapid changes in market fuel prices. Subcontracted transportation is deducted from total revenue to arrive at operating revenue as subcontracted transportation is typically a pass-through to our customers. We realize minimal changes in profitability as a result of fluctuations in subcontracted transportation. Refer to the section titled "Non-GAAP Financial Measures" for a reconciliation of total revenue to operating revenue.

(1) fuel prices during a short period of time as customer pricing for fuel services is established based on market fuel costs.

Revenue and Cost of Revenue by Source

Total revenue increased 3% in the second quarter of 2013 to \$1.60 billion. Operating revenue increased 4% in the second quarter of 2013 to \$1.31 billion. For the first half of 2013, total revenue increased 2% to \$3.17 billion and operating revenue increased 3% to \$2.58 billion. The increase in total and operating revenue was primarily driven by new business in SCS as well as full service lease growth in FMS.

Lease and Rental

	Three months ended June 30,		Six months ended June 30,		Change 2013/2012	
	2013	2012	2013	2012	Three Months	Six Months
	(Dollars in thousands)					

Edgar Filing: RYDER SYSTEM INC - Form 10-Q

Lease and rental revenues	\$688,048	675,623	\$1,347,756	1,313,481	2%	3%
Cost of lease and rental	473,528	474,272	943,648	933,216	—%	1%
Gross margin	214,520	201,351	404,108	380,265	7%	6%
Gross margin %	31	% 30	% 30	% 29	%	

Lease and rental revenues represent full service lease and commercial rental product offerings within our FMS business segment. Revenues increased 2% in the second quarter of 2013 to \$688.0 million and 3% to \$1.35 billion in the first half of 2013 primarily driven by higher prices on full service lease vehicles partially offset by lower commercial rental revenue. Commercial rental revenue decreased due to lower demand in the U.K. partially offset by a 2% improvement in rental pricing.

Cost of lease and rental represents the direct costs related to lease and rental revenues. These costs are comprised of depreciation of revenue earning equipment, maintenance costs (primarily repair parts and labor), and other fixed costs such as licenses, insurance and operating taxes. Cost of lease and rental excludes interest costs from vehicle financing. Cost of lease and rental was \$473.5 million in the second quarter of 2013 and increased to \$943.6 million in the first half of 2013 due to depreciation from higher lease vehicle investments, increased maintenance costs and equipment rental costs partially offset by lower commercial rental depreciation on a smaller rental fleet. The growth in equipment rental reflects a higher number of leased vehicles resulting from the sale lease-back transaction completed in June 2012.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS - (Continued)

Lease and rental gross margin increased 7% in the second quarter of 2013 to \$214.5 million and increased as a percentage of revenue to 31% in the second quarter of 2013. Lease and rental gross margin increased 6% to \$404.1 million in the first half of 2013 and increased as a percentage of revenue to 30%. The increase in both periods was due to higher per-vehicle pricing reflecting new engine technology, benefits from improved vehicle residual values and increased utilization on a 10% smaller average rental fleet.

Services

	Three months ended June 30,		Six months ended June 30,		Change 2013/2012	
	2013	2012	2013	2012	Three Months	Six Months
	(Dollars in thousands)					
Services revenue	\$707,666	675,533	1,397,127	1,353,885	5%	3%
Cost of services	592,221	564,609	1,177,658	1,140,278	5%	3%
Gross margin	115,445	110,924	219,469	213,607	4%	3%
Gross margin %	16	% 16	% 16	% 16	%	%

Services revenue represents all the revenues associated with our SCS business segment as well as contract maintenance, contract-related maintenance and fleet support services associated with our FMS business segment. Services revenue increased 5% in the second quarter of 2013 to \$707.7 million and increased 3% in the first half of 2013 to \$1.40 billion primarily due to new business in our SCS business segment and higher contract-related maintenance revenue in our FMS business segment.

Cost of services represents the direct costs related to services revenue and is primarily comprised of salaries and employee-related costs, SCS subcontracted transportation (purchased transportation from third parties) and maintenance costs. Cost of services increased 5% in the second quarter of 2013 to \$592.2 million and increased 3% in the first half of 2013 to \$1.18 billion primarily due to higher revenue. Subcontracted transportation costs, which are passed through to customers, decreased \$2.2 million and \$7.8 million in the second quarter and first half of 2013, respectively.

Services gross margin increased 4% to \$115.4 million in the second quarter of 2013 and increased 3% to \$219.5 million in the first half of 2013 primarily due to higher revenue. Services gross margin as a percentage of revenue remained at 16% in both the second quarter and the first half of 2013.

Fuel

	Three months ended June 30,		Six months ended June 30,		Change 2013/2012	
	2013	2012	2013	2012	Three Months	Six Months
	(Dollars in thousands)					
Fuel services revenue	\$208,285	212,704	\$422,133	432,770	(2)%	(2)%
Cost of fuel services	204,626	209,337	414,919	424,910	(2)%	(2)%
Gross margin	3,659	3,367	7,214	7,860	9%	(8)%
Gross margin %	2	% 2	% 2	% 2	%	%

Fuel services revenue decreased 2% in the second quarter of 2013 to \$208.3 million due to lower fuel prices passed through to customers partially offset by higher gallons sold. Fuel services revenue decreased 2% to \$422.1 million in the first half of 2013 due to lower gallons sold and lower fuel prices passed through to customers.

Cost of fuel services includes the direct costs associated with providing our customers with fuel. These costs include fuel, salaries and employee-related costs of fuel island attendants and depreciation of our fueling facilities and equipment. Cost of fuel decreased 2% in the second quarter of 2013 to \$204.6 million and decreased 2% in the first half of 2013 to \$414.9 million due to lower revenue.

Fuel services gross margin increased 9% to \$3.7 million in the second quarter of 2013 and decreased 8% to \$7.2 million in the first half of 2013. Fuel is largely a pass-through to customers for which we realize minimal changes in margin during periods of steady market fuel prices. However, fuel services margin is impacted by sudden increases or decreases in market fuel prices during a short period of time as customer pricing for fuel is established based on market fuel costs. Fuel service margin as a percent of revenue remained unchanged in the second quarter and first half of 2013.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - (Continued)

	Three months ended June 30,		Six months ended June 30,		Change 2013/2012	
	2013	2012	2013	2012	Three Months	Six Months
	(In thousands)					
Other operating expenses	\$33,291	33,664	\$71,259	67,913	(1)%	5%

Other operating expenses include costs related to our owned and leased facilities within the FMS business segment such as facility depreciation, rent, insurance, utilities and taxes. These facilities are utilized to provide maintenance to our lease, rental, contract maintenance and contract-related maintenance customers. Other operating expenses also include the costs associated with used vehicle sales such as writedowns of used vehicles to fair market value and facilities costs. Other operating expenses decreased 1% to \$33.3 million in the second quarter of 2013 due to lower operating property depreciation partially offset by higher FMS facilities maintenance costs. Other operating expenses increased 5% to \$71.3 million in the first half of 2013 due to higher maintenance costs on our FMS facilities as well as higher writedowns on vehicles held for sale of \$1.1 million partially offset by lower operating property depreciation. The higher writedowns on vehicles held for sale reflect an increase in our used vehicle sales inventory.

	Three months ended June 30,		Six months ended June 30,		Change 2013/2012	
	2013	2012	2013	2012	Three Months	Six Months
	(Dollars in thousands)					
Selling, general and administrative expenses (SG&A)	\$195,842	189,332	\$385,655	384,316	3%	—%
Percentage of total revenue	12	% 12	% 12	% 12	%	
Percentage of operating revenue	15	% 15	% 15	% 15	%	

SG&A expenses increased 3% to \$195.8 million and SG&A expenses as a percent of total revenue remained unchanged at 12% in the second quarter of 2013. SG&A expenses increased slightly to \$385.7 million in the first half of 2013. SG&A expenses as a percent of total revenue remained at 12% in the first half of 2013. SG&A increased in both the second quarter and first half of 2013 due to higher compensation-related expenses partially offset by lower pension and bad debt expense. Pension expense, which primarily impacts SG&A expenses, decreased \$2.2 million in the second quarter of 2013 and decreased \$4.0 million in the first half of 2013 reflecting higher than expected pension asset returns in 2012 as well as contributions, partially offset by a lower discount rate at December 31, 2012.

	Three months ended June 30,		Six months ended June 30,		Change 2013/2012	
	2013	2012	2013	2012	Three Months	Six Months
	(In thousands)					
Gains on vehicle sales, net	\$23,197	22,546	\$46,203	44,537	3%	4%

Gains on vehicle sales, net increased 3% in the second quarter of 2013 to \$23.2 million due to higher average proceeds per unit in North America partially offset by lower sales volume. Gains on vehicle sales, net increased 4% in the first half of 2013 to \$46.2 million due to higher sales volume partially offset by lower proceeds per unit. Increased sales volume in the first half of 2013 reflects higher wholesaling activity to maintain used vehicle inventories at acceptable levels. Global average proceeds per unit decreased by 2% in the second quarter of 2013 and 1% in the first half of 2013 reflecting a higher proportion of vehicle sales in international markets with lower prices.

Three months ended June 30, Six months ended June 30, Change 2013/2012

Edgar Filing: RYDER SYSTEM INC - Form 10-Q

	2013		2012		2013		2012	Three Months	Six Months
	(Dollars in thousands)								
Interest expense	\$33,901		35,622		\$68,355		70,387	(5)%	(3)%
Effective interest rate	3.5	%	3.9	%	3.5	%	3.9	%	

Interest expense decreased 5% in the second quarter of 2013 to \$33.9 million and decreased 3% in the first half of 2013 to \$68.4 million reflecting a lower effective interest rate partially offset by higher average outstanding debt. The lower effective interest rate in 2013 primarily reflects the replacement of higher interest rate debt with debt issuances at lower rates. The increase in average outstanding debt reflects capital spending over the last twelve months.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - (Continued)

	Three months ended June 30,		Six months ended June 30,	
	2013	2012	2013	2012
	(In thousands)			
Miscellaneous income, net	\$3,575	1,341	\$8,145	5,821

Miscellaneous income, net consists of investment income on securities used to fund certain benefit plans, interest income, gains from sales of operating property, foreign currency transaction gains and other non-operating items. Miscellaneous income, net increased in the second quarter of 2013 primarily due to insurance proceeds received for business interruption insurance claims related to Superstorm Sandy. In addition, miscellaneous income, net increased in the first half of 2013 due to a benefit from the recognition of the accumulated adjustment in a foreign operation partially offset by lower gains on sales of property.

	Three months ended June 30,		Six months ended June 30,	
	2013	2012	2013	2012

Restructuring and other charges, net	\$—	7,142	\$—	8,007

Refer to Note (G), "Restructuring and Other Charges," in the Notes to Consolidated Condensed Financial Statements for a discussion of the restructuring and other charges recognized during the first half of 2012.

	Three months ended June 30,		Six months ended June 30,		Change 2013/2012	
	2013	2012	2013	2012	Three Months	Six Months
	(Dollars in thousands)					
Provision for income taxes	\$34,787	27,002	\$56,493	39,824	29%	42%
Effective tax rate from continuing operations	35.7	% 36.6	% 35.3	% 32.8	%	

Our effective income tax rate from continuing operations for the second quarter of 2013 was 35.7% compared with 36.6% in the same period of the prior year. The decrease in our effective tax rate in the second quarter of 2013 is due to a higher proportionate amount of 2013 earnings in lower tax rate jurisdictions as well as the impact of a prior year tax law change.

Our effective income tax rate from continuing operations for the six months ended June 30, 2013 was 35.3% compared with 32.8% in the same period of the prior year. The effective rate from continuing operations in the first half of 2012 was favorably impacted by a tax benefit of \$5.0 million (4.1% of earnings before tax) relating to the favorable resolution of a tax item from prior periods. The increase in the effective tax rate in the first half of 2013 reflects the \$5.0 million tax benefit in the prior year partially offset by a higher proportionate amount of 2013 earnings in lower tax rate jurisdictions.

Earnings from continuing operations before income taxes	\$97,362	73,769	\$159,870	121,467	32%	32%

As part of management's evaluation of segment operating performance, we define the primary measurement of our segment financial performance as "Earnings Before Taxes" (EBT) from continuing operations, which includes an allocation of Central Support Services (CSS), and excludes non-operating pension costs, restructuring and other charges, net, as described in Note (G), "Restructuring and Other Charges," and the items discussed in Note (S), "Other Items Impacting Comparability," in the Notes to Consolidated Condensed Financial Statements. CSS represents those costs incurred to support all business segments, including human resources, finance, corporate services and public affairs, information technology, health and safety, legal and corporate communications.

The objective of the EBT measurement is to provide clarity on the profitability of each business segment and, ultimately, to hold leadership of each business segment and each operating segment within each business segment accountable for their allocated share of CSS costs. Segment results are not necessarily indicative of the results of operations that would have occurred had each segment been an independent, stand-alone entity during the periods presented. Certain costs are considered to be overhead not attributable to any segment and remain unallocated in CSS. Included within the unallocated overhead remaining within CSS are the costs for investor relations, public affairs and certain executive compensation.

Inter-segment revenue and EBT are accounted for at rates similar to those executed with third parties. EBT related to inter-segment equipment and services billed to customers (equipment contribution) are included in both FMS and SCS

and then eliminated (presented as “Eliminations” in the table above).

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - (Continued)

The following table provides a reconciliation of items excluded from our segment EBT measure to their classification within our Consolidated Condensed Statements of Earnings:

Fuel services revenue	268,731	270,041	544,475	548,689	—	(1)
Total revenue	\$1,121,258	1,100,905	\$2,220,990	2,172,296	2%	2%
Segment EBT	\$88,667	76,651	\$149,412	127,334	16%	17%
Segment EBT as a % of total revenue	7.9	% 7.0	% 6.7	% 5.9	% 90 bps	80 bps
Segment EBT as a % of operating revenue ⁽¹⁾	10.4	% 9.2	% 8.9	% 7.8	% 120 bps	110 bps

We use operating revenue and EBT as a percent of operating revenue, non-GAAP financial measures, to evaluate the operating performance of our FMS business segment and as a measure of sales activity. Fuel services revenue, which is directly impacted by fluctuations in market fuel prices, is excluded from our operating revenue

(1) computation as fuel is largely a pass-through to customers for which we realize minimal changes in profitability during periods of steady market fuel prices. However, profitability may be positively or negatively impacted by rapid changes in market fuel prices during a short period of time as customer pricing for fuel services is established based on market fuel costs.

Total revenue increased 2% in the second quarter of 2013 to \$1.12 billion. Operating revenue (revenue excluding fuel) increased 3% in the second quarter of 2013 to \$852.5 million. For the first half of 2013, total revenue increased 2% to \$2.22 billion. Operating revenue (revenue excluding fuel) increased 3% in the first half of 2013 to \$1.68 billion. The following table summarizes the components of the change in revenue on a percentage basis versus the prior year:

	Three months ended June 30, 2013		Six months ended June 30, 2013	
	Total	Operating	Total	Operating
Organic including price and volume	1%	2%	1%	2%
Acquisitions	1	1	1	1
Total increase	2%	3%	2%	3%

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - (Continued)

Full service lease revenue increased 4% in the second quarter of 2013 and 4% in the first half of 2013 primarily reflecting higher prices on replacement vehicles. The higher pricing on replacement vehicles was driven by increased costs on new engine technology. The number of full service lease vehicles declined 1% from the prior year, reflecting the anticipated non-renewal of certain low margin trailers in the U.K., the impact of economic uncertainty and more efficient redeployment of off-lease vehicles. We expect favorable full service lease comparisons to continue throughout the year primarily due to the heavy replacement cycle of expiring leases currently underway. Contract-related maintenance revenue increased 12% in the second quarter of 2013 and increased 13% in the first half of 2013 due primarily to our new on-demand maintenance product initiative and the benefit of the Euroway acquisition. Commercial rental revenue decreased 1% in the second quarter of 2013 and remained unchanged in the first half of 2013 reflecting lower demand in the U.K. partially offset by higher global rental pricing (up 2% in both the second quarter of 2013 and the first half of 2013). We expect favorable year over year commercial rental revenue comparisons in the near term due to higher pricing. Fuel services revenue was unchanged in the second quarter of 2013 as higher gallons sold were offset by lower prices passed through to customers. Fuel services revenue in our FMS business segment decreased 1% in the first half of 2013 due to lower gallons sold and lower prices passed through to customers.

The following table provides commercial rental statistics on our global fleet:

	Three months ended June 30,		Six months ended June 30,		Change 2013/2012	
	2013	2012	2013	2012	Three Months	Six Months
	(Dollars in thousands)					
Rental revenue from non-lease customers	\$ 117,140	116,174	\$ 213,252	207,926	1%	3%
Rental revenue from lease customers ⁽¹⁾	\$ 79,372	82,554	\$ 156,357	162,050	(4)%	(4)%
Average commercial rental power fleet size — in service ^{(2), (3)}	28,300	31,000	28,200	30,400	(9)%	(7)%
Commercial rental utilization — power fleet	80.5	% 75.0	% 77.2	% 72.0	% 550 bps	520 bps

(1) Represents revenue from rental vehicles provided to our existing full service lease customers, generally during peak periods in their operations.

(2) Number of units rounded to nearest hundred and calculated using quarterly average unit counts.

(3) Fleet size excluding trailers.

FMS EBT increased 16% in the second quarter of 2013 to \$88.7 million primarily due to improved full service lease performance and the benefit of \$7.4 million of lower depreciation due to residual value policy changes implemented January 1, 2013. Full service lease comparisons benefited from higher per vehicle pricing reflecting new engine technology. Commercial rental performance improved 4% in the second quarter of 2013 as a result of higher pricing and increased fleet utilization partially offset by lower performance in the U.K. Rental power fleet utilization was 80.5% for the second quarter of 2013, up from 75.0% in the year earlier period. Used vehicle sales results modestly improved with stable pricing.

FMS EBT increased 17% in the first half of 2013 to \$149.4 million primarily due to improved full service lease performance and the benefit of \$14.9 million of lower depreciation due to residual value policy changes implemented January 1, 2013. Full service lease comparisons benefited from higher per vehicle pricing reflecting new technology. Commercial rental performance increased 2% from the prior year reflecting higher pricing and increased fleet utilization offset by lower performance in the U.K. Rental power fleet utilization was 77.2% for the first half of 2013, up from 72.0% in the year earlier period. Used vehicle sales results modestly improved primarily due to stronger volumes partially offset by higher carrying costs on a larger average inventory.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - (Continued)

Our global fleet of owned and leased revenue earning equipment and contract maintenance vehicles is summarized as follows (number of units rounded to the nearest hundred):

	June 30, 2013	December 31, 2012	June 30, 2012	Change Jun. 2013/Dec. 2012	Jun. 2013/Jun. 2012

Held for sale	9,800	8,800	8,200	11	20
Total	171,200	173,700	173,800	(1)%	(1)%
Customer vehicles under contract maintenance	37,800	36,500	35,700	4%	6%

(1) Generally comprised of Class 1 through Class 6 type vehicles with a Gross Vehicle Weight (GVW) up to 26,000 pounds.

(2) Generally comprised of over the road on highway tractors and are primarily comprised of Classes 7 and 8 type vehicles with a GVW of over 26,000 pounds.

(3) Generally comprised of dry, flatbed and refrigerated type trailers.

(4) Includes 8,400 trailers (5,400 full service lease and 3,000 commercial rental and other), 9,400 trailers (6,200 full service lease and 3,200 commercial rental and other) and 9,800 trailers (6,400 full service lease and 3,300 commercial rental and other) as of June 30, 2013, December 31, 2012 and June 30, 2012, respectively, acquired as part of the Hill Hire acquisition.

Note: Amounts were computed using a 6-point average based on monthly information.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - (Continued)

The following table provides a breakdown of our non-revenue earning equipment included in our global fleet count (number of units rounded to nearest hundred):

	June 30, 2013	December 31, 2012	June 30, 2012	Change Jun. 2013/ Dec. 2012	Jun. 2013/ Jun. 2012
Not yet earning revenue (NYE)	2,100	2,200	2,600	(5)%	(19)%
No longer earning revenue (NLE):					
Units held for sale	9,600	9,200	9,200	4	4
Other NLE units	2,200	2,800	3,100	(21)	(29)
Total	13,900	14,200	14,900	(2)%	(7)%

NYE units represent new vehicles on hand that are being prepared for deployment to a lease customer or into the rental fleet. Preparations include activities such as adding lift gates, paint, decals, cargo area and refrigeration equipment. NYE units decreased compared to both year-end and June 30, 2012 primarily reflecting a decline in lease NYE's due to economic uncertainty impacting lease sales. NLE units represent vehicles held for sale and vehicles for which no revenue has been earned in the previous 30 days. NLE units decreased compared to both year-end and June 30, 2012 reflecting increased rental demand in North America partially offset by increased lease replacement activity. We expect NLE levels to decrease throughout the year from a decline in vehicles held for sale.

Supply Chain Solutions

Total revenue	\$597,177	570,254	\$1,173,656	1,142,167	5%	3%
Segment EBT	\$32,683	30,401	\$56,494	52,272	8%	8%
Segment EBT as a % of total revenue	5.5	% 5.3	% 4.8	% 4.6	% 20 bps	20 bps
Segment EBT as a % of operating revenue ⁽¹⁾	6.3	% 6.3	% 5.6	% 5.4	% —	20 bps
Memo:						
Dedicated services total revenue	\$338,735	327,045	\$663,500	655,390	4%	1%
Dedicated services operating revenue ^{(1) (2)}	\$301,951	283,866	\$593,100	565,942	6%	5%
Average fleet	12,000	11,600	11,900	11,500	3%	3%
Fuel costs ⁽³⁾	\$66,937	63,797	\$135,095	130,611	5%	3%

We use operating revenue and EBT as a percent of operating revenue, non-GAAP financial measures, to evaluate the operating performance of our SCS business segment and as a measure of sales activity and profitability. In SCS transportation management arrangements, we may act as a principal or as an agent in purchasing transportation on behalf of our customer. We record revenue on a gross basis when acting as principal and we record revenue on a (1) net basis when acting as an agent. As a result, total revenue may fluctuate depending on our role in subcontracted transportation arrangements yet our profitability remains unchanged as we typically realize minimal profitability from subcontracting transportation. We deduct subcontracted transportation expense from SCS total revenue to arrive at SCS operating revenue, and from dedicated services total revenue to arrive at dedicated services operating revenue.

Dedicated services operating revenue excludes dedicated subcontracted transportation as follows: \$36.8 million (2) and \$43.2 million for the three months ended June 30, 2013 and 2012, respectively, and \$70.4 million and \$89.4 million for the six months ended June 30, 2013 and 2012, respectively.

(3) Fuel costs are largely a pass-through to customers and therefore have a direct impact on revenue.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - (Continued)

Total revenue increased 5% in the second quarter of 2013 to \$597.2 million as higher operating revenue offset lower subcontracted transportation. Operating revenue (revenue excluding subcontracted transportation) increased 6% in the second quarter of 2013 to \$514.8 million. For the first half of 2013, total revenue increased 3% to \$1.17 billion and operating revenue increased 4% to \$1.01 billion. Operating revenue growth in both the second quarter and the first half of 2013 was largely driven by new business, primarily in dedicated services. We expect favorable revenue comparisons to continue throughout the year due to new sales activity. The following table summarizes the components of the change in revenue on a percentage basis versus the prior year:

	Three months ended June 30, 2013		Six months ended June 30, 2013	
	Total	Operating	Total	Operating
Organic including price and volume	6%	6%	4%	4%
Subcontracted transportation	(1)	—	(1)	—
Total increase	5%	6%	3%	4%

SCS EBT increased 8% in the second quarter of 2013 to \$32.7 million due to new business partially offset by higher commissions on new sales activity. The earnings improvement in the second quarter also reflects unusually high medical benefit costs in the prior year, largely offset by increased self-insurance costs in the current period. SCS EBT increased 8% in the first half of 2013 to \$56.5 million due to operating revenue growth from new business and improved operating performance.

Central Support Services

	Three months ended June 30,		Six months ended June 30,		Change 2013/2012	
	2013	2012	2013	2012	Three Months	Six Months
	(Dollars in thousands)					
Human resources	\$4,345	5,306	\$8,759	10,691	(18)%	(18)%
Finance	12,307	13,064	24,813	25,877	(6)	(4)
Corporate services and public affairs	3,108	3,582	7,139	6,929	(13)	3

Health and safety	2,008	1,922	3,939	4,037	4	(2)
Other	13,329	10,688	24,693	19,654	25	26
Total CSS	52,121	48,703	103,455	97,269	7	6
Allocation of CSS to business segments	(41,537)	(37,510)	(81,496)	(76,570)	11	6
Unallocated CSS	\$10,584	11,193	\$21,959	20,699	(5)%	6%

Total CSS costs increased 7% in the second quarter of 2013 to \$52.1 million and increased 6% in the first half of 2013 to \$103.5 million primarily due to investments in information technology initiatives and higher compensation-related expenses. Unallocated CSS decreased 5% in the second quarter of 2013 to \$10.6 million due to lower professional services costs partially offset by higher compensation-related expenses. Unallocated CSS increased 6% in the first half of 2013 to \$22.0 million primarily due to higher compensation-related expenses partially offset by lower professional services costs.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - (Continued)

FINANCIAL RESOURCES AND LIQUIDITY

Cash Flows

The following is a summary of our cash flows from operating, financing and investing activities from continuing operations:

	Six months ended June 30,	
	2013	2012
	(In thousands)	
Net cash provided by (used in):		
Operating activities	\$563,777	472,021
Financing activities	124,940	322,046
Investing activities	(687,604)	(825,047)
Effect of exchange rate changes on cash	6,966	1,216
Net change in cash and cash equivalents	\$8,079	(29,764)

A detail of the individual items contributing to the cash flow changes is included in the Consolidated Condensed Statements of Cash Flows.

Cash provided by operating activities from continuing operations increased to \$563.8 million in the six months ended June 30, 2013 compared with \$472.0 million in 2012 reflecting reduced working capital needs and higher earnings compared to the prior year period. The reduced working capital needs were primarily driven by lower payments to vendors within trade accounts payable, lower pension contributions and improved collections on trade accounts receivable from customers. Cash provided by financing activities decreased to \$124.9 million in the six months ended June 30, 2013 compared to \$322.0 million in 2012 as a result of lower borrowing needs. Cash used in investing activities decreased to \$687.6 million in the six months ended June 30, 2013 compared with \$825.0 million in 2012 primarily due to lower commercial rental capital spending, partially offset by proceeds from the sale-leaseback transaction completed in 2012.

We refer to the sum of operating cash flows, proceeds from the sales of revenue earning equipment and operating property and equipment, collections on direct finance leases, sale and leaseback of revenue earning equipment, and other investing cash inflows from continuing operations as "total cash generated." We refer to the net amount of cash generated from operating and investing activities (excluding changes in restricted cash and acquisitions) from continuing operations as "free cash flow." Although total cash generated and free cash flow are non-GAAP financial measures, we consider them to be important measures of comparative operating performance. We also believe total cash generated to be an important measure of total cash inflows generated from our ongoing business activities. We believe free cash flow provides investors with an important perspective on the cash available for debt service and for shareholders after making capital investments required to support ongoing business operations. Our calculation of free cash flow may be different from the calculation used by other companies and therefore comparability may be limited.

The following table shows the sources of our free cash flow computation:

	Six months ended June 30,	
	2013	2012
	(In thousands)	
Net cash provided by operating activities from continuing operations	\$563,777	472,021

Edgar Filing: RYDER SYSTEM INC - Form 10-Q

Sales of revenue earning equipment	225,749		194,907	
Sales of operating property and equipment	3,296		4,381	
Collections on direct finance leases	39,854		32,586	
Other, net	8,173		—	
Sale and leaseback of revenue earning equipment	—		130,184	
Total cash generated	840,849		834,079	
Purchases of property and revenue earning equipment	(948,114))	(1,203,985))
Free cash flow	\$(107,265))	(369,906))

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - (Continued)

Free cash flow increased \$262.6 million to negative \$107.3 million in 2013 primarily due to higher cash flows from operations and lower cash payments for the purchase of commercial rental vehicles. We anticipate the full-year 2013 free cash flow estimate to be closer to the \$190 million level of the previous forecast of negative \$130 million to \$190 million.

The following table provides a summary of capital expenditures:

	Six months ended June 30,	
	2013	2012
	(In thousands)	
Revenue earning equipment: ⁽¹⁾		
Full service lease	\$777,508	785,827
Commercial rental	171,210	499,553
	948,718	1,285,380
Operating property and equipment	39,785	31,595
Total capital expenditures	988,503	1,316,975
Changes in accounts payable related to purchases of revenue earning equipment	(40,389)	(112,990)
Cash paid for purchases of property and revenue earning equipment	\$948,114	1,203,985

Capital expenditures exclude non-cash additions of approximately \$4.8 million and \$0.6 million during the six (1) months ended June 30, 2013 and 2012, respectively, in assets held under capital leases resulting from the extension of existing operating leases and other additions.

Capital expenditures (accrual basis) decreased 25% in the six months ended June 30, 2013 to \$988.5 million reflecting lower commercial rental capital spending. We anticipate full-year 2013 accrual basis capital expenditures to be at the high end of our previous forecast of \$1.8 billion to \$1.9 billion.

Financing and Other Funding Transactions

We utilize external capital primarily to support working capital needs and growth in our asset-based product lines. The variety of debt financing alternatives typically available to fund our capital needs include commercial paper, long-term and medium-term public and private debt, asset-backed securities, bank term loans, leasing arrangements and bank credit facilities. Our principal sources of financing are issuances of commercial paper and medium-term notes.

Our ability to access unsecured debt in the capital markets is impacted by both our short-term and long-term debt ratings. These ratings are intended to provide guidance to investors in determining the credit risk associated with particular Ryder securities based on current information obtained by the rating agencies from us or from other sources. Lower ratings generally result in higher borrowing costs as well as reduced access to unsecured capital markets. A significant downgrade of our short-term debt ratings would impair our ability to issue commercial paper and likely require us to rely on alternative funding sources. A significant downgrade would not affect our ability to borrow amounts under our revolving credit facility described below.

Our debt ratings and rating outlooks at June 30, 2013 were as follows:

	Short-term		Long-term	
	Rating	Outlook	Rating	Outlook
Moody's Investors Service	P2	Stable	Baa1	Stable

Edgar Filing: RYDER SYSTEM INC - Form 10-Q

Standard & Poor's Ratings Services	A2	Stable	BBB	Stable
Fitch Ratings	F2	Stable	A-	Stable

We believe that our operating cash flows, together with our access to commercial paper markets and other available debt financing, will be adequate to meet our operating, investing and financing needs in the foreseeable future. However, there can be no assurance that unanticipated volatility and disruption in commercial paper markets would not impair our ability to access these markets on terms commercially acceptable to us or at all. If we cease to have access to commercial paper and other sources of unsecured borrowings, we would meet our liquidity needs by drawing upon contractually committed lending agreements as described below and/or by seeking other funding sources.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - (Continued)

At June 30, 2013, we had the following amounts available to fund operations under the following facilities:

	(In millions)
Global revolving credit facility	\$361
Trade receivables program	\$175

We have a \$900 million global revolving credit facility with a syndicate of twelve lending institutions which matures in June 2016 and is used primarily to finance working capital and provide support for the issuance of unsecured commercial paper in the U.S. and Canada. In order to maintain availability of funding, we must maintain a ratio of debt to consolidated net worth of less than or equal to 300%. Net worth, as defined in the credit facility, represents shareholders' equity excluding any accumulated other comprehensive income or loss associated with our pension and other postretirement plans. The ratio at June 30, 2013 was 179%.

We also have a \$175 million trade receivables purchase and sale program, pursuant to which we ultimately sell certain ownership interests in certain of our domestic trade accounts receivable to a receivables conduit or committed purchasers. We use this program to provide additional liquidity to fund our operations, particularly when it is cost effective to do so. The program contains provisions restricting its availability in the event of a material adverse change to our business operations or the collectibility of the collateralized receivables. If no event occurs which causes early termination, the 364-day program will expire on October 25, 2013.

On February 6, 2013, Ryder filed an automatic shelf registration statement on Form S-3 with the SEC. The registration is for an indeterminate number of securities and is effective for three years. Under this universal shelf registration statement, we have the capacity to offer and sell from time to time various types of securities, including common stock, preferred stock and debt securities, subject to market demand and ratings status. Refer to Note (M), "Debt," in the Notes to Consolidated Condensed Financial Statements for further discussion around the global revolving credit facility, the trade receivables program, the issuance of medium-term notes under this shelf registration statement and debt maturities.

The following table shows the movements in our debt balance:

	Six months ended June 30,	
	2013	2012
	(In thousands)	
Debt balance at January 1	\$3,820,796	3,382,145
Cash-related changes in debt:		
Net change in commercial paper borrowings	180,777	187,935
Proceeds from issuance of medium-term notes	249,723	349,444
Proceeds from issuance of other debt instruments	4,648	28,556
Retirement of medium term notes	(250,000)	(200,000)
Other debt repaid, including capital lease obligations	(70,862)	(5,324)
	114,286	360,611
Non-cash changes in debt:		
Fair market value adjustment on notes subject to hedging	(6,367)	(1,952)
Addition of capital lease obligations	4,814	616
Changes in foreign currency exchange rates and other non-cash items	(19,122)	4,228
Total changes in debt	93,611	363,503
Debt balance at June 30	\$3,914,407	3,745,648

In accordance with our funding philosophy, we attempt to balance the aggregate average remaining re-pricing life of our debt with the aggregate average remaining re-pricing life of our assets. We utilize both fixed-rate and variable-rate debt to achieve this match and generally target a mix of 25% to 45% variable-rate debt as a percentage of total debt

outstanding. The variable-rate portion of our total obligations (including notional value of swap agreements) was 29% and 33% at June 30, 2013 and December 31, 2012, respectively.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - (Continued)

Ryder's leverage ratios and a reconciliation of on-balance sheet debt to total obligations were as follows:

	June 30, 2013 (Dollars in thousands)	% to Equity	December 31, 2012	% to Equity
On-balance sheet debt	\$3,914,407	253%	3,820,796	260%
Off-balance sheet debt—PV of minimum lease payments and guaranteed residual values under operating leases for vehicles ⁽¹⁾	141,912		147,987	
Total obligations	\$4,056,319	262%	3,968,783	270%

⁽¹⁾ Present value (PV) does not reflect payments Ryder would be required to make if we terminated the related leases prior to the scheduled expiration dates.

On-balance sheet debt to equity consists of balance sheet debt divided by total equity. Total obligations to equity represents balance sheet debt plus the present value of minimum lease payments and guaranteed residual values under operating leases for vehicles, discounted based on our incremental borrowing rate at lease inception, all divided by total equity. Although total obligations is a non-GAAP financial measure, we believe that total obligations is useful as it provides a more complete analysis of our existing financial obligations and helps better assess our overall leverage position. Our leverage ratios decreased in 2013 due to an increase in our equity from net earnings partially offset by increased obligations to fund capital expenditures.

Off-Balance Sheet Arrangements

We periodically enter into sale-leaseback transactions in order to lower the total cost of funding our operations, to diversify our funding among different classes of investors and to diversify our funding among different types of funding instruments. These sale-leaseback transactions are often executed with third-party financial institutions. In general, these sale-leaseback transactions result in a reduction in revenue earning equipment and debt on the balance sheet, as proceeds from the sale of revenue earning equipment are primarily used to repay debt. Accordingly, sale-leaseback transactions will result in reduced depreciation and interest expense and increased equipment rental expense. These leases contain limited guarantees by us of the residual values of the leased vehicles (residual value guarantees) that are generally conditioned upon disposal of the leased vehicles prior to the end of their lease term. The amount of future payments for residual value guarantees will depend on the market for used vehicles and the condition of the vehicles at time of disposal. We did not enter into any sale-leaseback transactions during the six months ended June 30, 2013. In June of 2012, we completed a sale-leaseback transaction of revenue earning equipment with third parties not deemed to be VIEs and this transaction qualified for off-balance sheet treatment. Proceeds from the sale-leaseback transaction totaled \$130.2 million.

Pension Information

The funded status of our pension plans is dependent upon many factors, including returns on invested assets and the level of certain market interest rates. We review pension assumptions regularly and we may from time to time make voluntary contributions to our pension plans, which exceed the amounts required by statute. In 2013, we expect total contributions to our pension plans to be approximately \$66 million. During the six months ended June 30, 2013, we contributed \$24 million to our pension plans. Changes in interest rates and the market value of the securities held by the plans during 2013 could materially change, positively or negatively, the funded status of the plans and affect the

level of pension expense and contributions in 2013 and beyond. See Note (R), "Employee Benefit Plans," in the Notes to Consolidated Condensed Financial Statements for additional information.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS - (Continued)

Share Repurchases and Cash Dividends

See Note (P), "Share Repurchase Programs," in the Notes to Consolidated Condensed Financial Statements for a discussion of share repurchases.

In May 2013, our Board of Directors declared a quarterly cash dividend of \$0.31 per share of common stock. In July 2013, our Board of Directors declared a quarterly cash dividend of \$0.34. This dividend reflects a \$0.03 increase from the \$0.31 quarterly cash dividend we have been paying since September of 2012.

NON-GAAP FINANCIAL MEASURES

This Quarterly Report on Form 10-Q includes information extracted from consolidated condensed financial information but not required by generally accepted accounting principles (GAAP) to be presented in the financial statements. Certain of this information are considered "non-GAAP financial measures" as defined by SEC rules. Specifically, we refer to comparable earnings from continuing operations before taxes, comparable earnings from continuing operations, comparable EPS from continuing operations, operating revenue, FMS operating revenue, FMS EBT as a % of operating revenue, SCS operating revenue, SCS EBT as a % of operating revenue, dedicated services operating revenue, total cash generated, free cash flow, total obligations and total obligations to equity. We provide a reconciliation of each of these non-GAAP financial measures to the most comparable GAAP measure and an explanation why management believes that presentation of the non-GAAP financial measure provides useful information to investors within the management's discussion and analysis and in the table below. Non-GAAP financial measures should be considered in addition to, but not as a substitute for or superior to, other measures of financial performance prepared in accordance with GAAP.

The following table provides a reconciliation of total revenue to operating revenue which was not provided within the MD&A discussion:

	Three months ended June 30,		Six months ended June 30,	
	2013	2012	2013	2012
	(In thousands)			
Total revenue	\$ 1,603,999	1,563,860	\$ 3,167,016	3,100,136
FMS fuel services and SCS subcontracted transportation (1)	(351,106)	(354,586)	(708,498)	(720,521)
Fuel eliminations	60,446	57,336	122,342	115,919
Operating revenue	\$ 1,313,339	1,266,610	\$ 2,580,860	2,495,534

(1) Includes intercompany fuel sales.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS - (Continued)

FORWARD-LOOKING STATEMENTS

Forward-looking statements (within the meaning of the Federal Private Securities Litigation Reform Act of 1995) are statements that relate to expectations, beliefs, projections, future plans and strategies, anticipated events or trends concerning matters that are not historical facts. These statements are often preceded by or include the words "believe," "expect," "intend," "estimate," "anticipate," "will," "may," "could," "should" or similar expressions. This Quarterly Report on 10-Q contains forward-looking statements including, but not limited to, statements regarding:

- our expectations as to anticipated revenue and earnings in each business segment as well as future economic conditions and market demand, including revenue, demand and pricing in full service lease and commercial rental as well as the impact of new business on SCS revenue;
- our expectations of the long-term residual values of revenue earning equipment;
- our ability to sell certain revenue earning vehicles through the end of the year;
- the anticipated levels of NLE vehicles in inventory through the end of the year;
- the anticipated tax benefits of our like-kind exchange program;
- our expectations of operating cash flow, free cash flow and capital expenditures throughout 2013;
- the adequacy of our accounting estimates and reserves for pension expense, compensation expense and employee benefit plan obligations, depreciation and residual value guarantees and income taxes;
- the adequacy of our fair value estimates of employee incentive awards under our share-based compensation plans, contingent consideration, total debt and other debt;
- our beliefs regarding the default risk of our direct financing lease receivables
- our ability to fund all of our operating, investing and financial needs for the foreseeable future through internally generated funds and outside funding sources;
- the anticipated impact of fuel price fluctuations;
- our expectations as to return on pension plan assets, future pension expense and estimated contributions
- our expectations regarding the completion and ultimate resolution of tax audits;
- our expectations regarding the scope, anticipated outcomes and the adequacy of our loss provisions with respect to certain claims, proceedings and lawsuits;
- our ability to access commercial paper and other available debt financing in the capital markets;
- our expectations regarding the future use and availability of funding sources; and
- the anticipated impact of our decision to temporarily pause our share repurchase program.

These statements, as well as other forward-looking statements contained in this Quarterly Report, are based on our current plans and expectations and are subject to risks, uncertainties and assumptions. We caution readers that certain important factors could cause actual results and events to differ significantly from those expressed in any forward-looking statements. These risk factors include, but are not limited to, the following:

Market Conditions:

- Changes in general economic and financial conditions in the U.S. and worldwide leading to decreased demand for our services, lower profit margins, increased levels of bad debt and reduced access to credit
- Decrease in freight demand or setbacks in the recent recovery of the freight recession which would impact both our transactional and variable-based contractual business
- Changes in our customers' operations, financial condition or business environment that may limit their need for, or ability to purchase, our services
- Decreases in market demand affecting the commercial rental market, as well as economic conditions in the U.K.

Fluctuations in market demand on the sale of used vehicles impacting our pricing and our anticipated proportion of retail versus wholesale sales

Volatility in automotive and high-tech volumes and shifting customer demand in the automotive and high-tech industries

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS - (Continued)

Changes in current financial, tax or regulatory requirements that could negatively impact the leasing market

Competition:

Advances in technology may require increased investments to remain competitive, and our customers may not be willing to accept higher prices to cover the cost of these investments
Competition from other service providers, some of which have greater capital resources or lower capital costs, or from our customers, who may choose to provide services themselves
Continued consolidation in the markets in which we operate which may create large competitors with greater financial resources
Our inability to maintain current pricing levels due to economic conditions, demand for services, customer acceptance or competition

Profitability:

Our inability to obtain adequate profit margins for our services
Lower than expected sales volumes or customer retention levels
Our inability to integrate acquisitions as projected, achieve planned synergies, anticipate costs and liabilities or retain customers of companies we acquire
Lower full service lease sales activity
Loss of key customers in our SCS business segment
Our inability to adapt our product offerings to meet changing consumer preferences on a cost-effective basis
The inability of our legacy information technology systems to provide timely access to data
Sudden changes in fuel prices and fuel shortages
Higher prices for vehicles, diesel engines and fuel as a result of exhaust emissions standards enacted over the last few years
Higher than expected maintenance costs and lower than expected benefits associated with a younger fleet and recently implemented maintenance initiatives
Our inability to successfully implement our asset management initiatives
Our key assumptions and pricing structure of our SCS contracts prove to be invalid
Increased unionizing, labor strikes, work stoppages and driver shortages
Difficulties in attracting and retaining drivers due to driver shortages, which may result in higher costs to procure drivers and higher turnover rates affecting our customers
Our inability to manage our cost structure

Savings resulting from our company-wide savings initiatives are higher or lower than anticipated
Our inability to limit our exposure for customer claims
Unfavorable or unanticipated outcomes in legal proceedings or uncertain positions

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS - (Continued)

Financing Concerns:

- Higher borrowing costs and possible decreases in available funding sources caused by an adverse change in our debt ratings
- Unanticipated interest rate and currency exchange rate fluctuations
- Negative funding status of our pension plans caused by lower than expected returns on invested assets and unanticipated changes in interest rates
- Withdrawal liability as a result of our participation in multi-employer plans
- Instability in U.S. and worldwide credit markets, resulting in higher borrowing costs and/or reduced access to credit

Accounting Matters:

- Impact of unusual items resulting from ongoing evaluations of business strategies, asset valuations, acquisitions, divestitures and our organizational structure
- Reductions in residual values or useful lives of revenue earning equipment
- Increases in compensation levels, retirement rate and mortality resulting in higher pension expense; regulatory changes affecting pension estimates, accruals and expenses
- Increases in healthcare costs resulting in higher insurance costs
- Changes in accounting rules, assumptions and accruals
- Impact of actual insurance claim and settlement activity compared to historical loss development factors used to project future development

Other risks detailed from time to time in our SEC filings

New risk factors emerge from time to time and it is not possible for management to predict all such risk factors or to assess the impact of such risk factors on our business. As a result, no assurance can be given as to our future results or achievements. You should not place undue reliance on the forward-looking statements contained herein, which speak only as of the date of this Quarterly Report. We do not intend, or assume any obligation, to update or revise any forward-looking statements contained in this Quarterly Report, whether as a result of new information, future events or otherwise.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes to Ryder's exposures to market risks since December 31, 2012. Please refer to the 2012 Annual Report on Form 10-K for a complete discussion of Ryder's exposures to market risks.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

As of the end of the second quarter of 2013, we carried out an evaluation, under the supervision and with the participation of management, including Ryder's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of Ryder's disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934). Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that as of the end of the second quarter of 2013, Ryder's disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934) were effective.

Changes in Internal Controls over Financial Reporting

During the six months ended June 30, 2013, there were no changes in Ryder's internal control over financial reporting that have materially affected or are reasonably likely to materially affect such internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following table provides information with respect to purchases we made of our common stock during the three months ended June 30, 2013:

	Total Number of Shares Purchased ⁽¹⁾	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Programs	Maximum Number of Shares That May Yet Be Purchased Under the Anti-Dilutive Program ⁽²⁾
April 1 through April 30, 2013	4,992	\$58.53	—	1,456,077
May 1 through May 31, 2013	1,880	59.31	—	1,456,077
June 1 through June 30, 2013	4,400	60.25	—	1,456,077
Total	11,272	\$59.33	—	

During the three months ended June 30, 2013, we purchased an aggregate of 11,272 shares of our common stock in employee-related transactions. Employee-related transactions may include: (i) shares of common stock delivered as payment for the exercise price of options exercised or to satisfy the option holders' tax withholding liability associated with our share-based compensation programs and (ii) open-market purchases by the trustee of Ryder's deferred compensation plans relating to investments by employees in our stock, one of the investment options available under the plans.

(1)

(2)

In December 2011, our Board of Directors authorized a share repurchase program intended to mitigate the dilutive impact of shares issued under our various employee stock, stock option and employee stock purchase plans. Under the December 2011 program, management is authorized to repurchase shares of common stock in an amount not to exceed the number of shares issued to employees under the Company's various employee stock, stock option and employee stock purchase plans from December 1, 2011 through December 13, 2013. The December 2011 program limits aggregate share repurchases to no more than 2 million shares of Ryder common stock. Share repurchases of common stock are made periodically in open-market transactions and are subject to market conditions, legal requirements and other factors. Management established prearranged written plans for the Company under Rule 10b5-1 of the Securities Exchange Act of 1934 as part of the December 2011 program, which allow for share repurchases during Ryder's quarterly blackout periods as set forth in the trading plan. For the three months ended June 30, 2013, we did not repurchase any shares under the program.
