PS Business Parks, Inc. Reports Results for the Second Quarter Ended June 30, 2009

**GLENDALE, California** PS Business Parks, Inc. (NYSE:PSB) reported operating results for the second quarter ended June 30, 2009.

Net income allocable to common shareholders for the three months ended June 30, 2009 was \$8.7 million, or \$0.42 per diluted share, on revenues of \$68.1 million compared to \$4.6 million, or \$0.22 per diluted share, on revenues of \$70.6 million for the same period in 2008. Net income allocable to common shareholders for the six months ended June 30, 2009 was \$41.5 million, or \$2.01 per diluted share, on revenues of \$138.1 million compared to \$8.3 million, or \$0.40 per diluted share, on revenues of \$140.9 million for the same period in 2008.

Revenues for the three months ended June 30, 2009 decreased \$2.5 million, or 3.5%, over the same period in 2008. Net income allocable to common shareholders for the three months ended June 30, 2009 increased \$4.1 million over the same period in 2008 primarily as a result of a decrease in depreciation expense of \$3.7 million, a decrease in preferred equity distributions of \$2.0 million and a \$1.5 million gain on the sale of a parcel of land in Oregon partially offset by a decrease in net operating income of \$2.1 million due to a decrease in occupancy combined with an increase in net income allocable to noncontrolling interest common units of \$1.4 million.

Revenues for the six months ended June 30, 2009 decreased \$2.9 million, or 2.0%, over the same period in 2008. Net income allocable to common shareholders for the six months ended June 30, 2009 increased \$33.2 million over the same period in 2008 primarily as a result of a net gain of \$35.6 million on the repurchase of preferred equity, a \$1.5 million gain on the sale of a parcel of land in Oregon, a decrease in depreciation expense of \$6.8 million and a decrease in preferred equity distributions of \$3.6 million partially offset by an increase in net income allocable to noncontrolling interests common units of \$11.8 million and a decrease in net operating income of \$2.7 million due to a decrease in occupancy.

#### **Supplemental Measures**

Funds from operations (FFO) allocable to common and dilutive shares for the three months ended June 30, 2009 and 2008 were \$31.7 million, or \$1.13 per common and dilutive share, and \$31.4 million, or \$1.12 per common and dilutive share, respectively. The increase in FFO for the three months ended June 30, 2009 over the same period in 2008 was primarily due to a decrease in preferred equity distributions as a result of the preferred equity repurchased during the first quarter of 2009 combined with a decrease in general and administrative expense partially offset by a decrease in net operating income. FFO allocable to common and dilutive shares for the six months ended June 30, 2009 was \$98.9 million, or \$3.53 per common and dilutive share, compared to \$62.0 million, or \$2.21 per common and dilutive share, for the same period in 2008. The increase in FFO for the six months ended June 30, 2009 over the same period in 2008 was primarily due to a net gain of \$35.6 million on the repurchase of preferred equity combined with a decrease in preferred equity distributions and a decrease in general and administrative expense partially offset by a decrease in net operating income. Excluding the \$35.6 million net gain, FFO allocable to common and dilutive shares would have been \$63.3 million, or \$2.26 per common and dilutive share, for the six months ended June 30, 2009.

#### **Property Operations**

In order to evaluate the performance of the Company s overall portfolio over two comparable periods, management analyzes the operating performance of a consistent group of properties owned and operated throughout both periods (herein referred to as Same Park). As the Company has had no acquisitions or dispositions since January 1, 2008, for the three and six months ended June 30, 2009 and 2008, the Same Park portfolio constitutes 19.6 million rentable square feet, which includes 100.0% of the assets of the Company.

The Company s property operations account for substantially all of the net operating income earned by the Company. <sup>(1)</sup> Funds From Operations (FFO) is computed in accordance with the White Paper on FFO approved by the Board of Governors of the National Association of Real Estate Investment Trusts (NAREIT). The White Paper defines FFO as net income, computed in accordance with GAAP, before depreciation, amortization, gains or losses on asset dispositions and nonrecurring items. FFO should be analyzed in conjunction with net income. However, FFO should not be viewed as a substitute for net income as a measure of operating performance or liquidity as it does not reflect depreciation and amortization costs or the level of capital expenditure and leasing costs necessary to maintain the operating performance of the Company s properties, which are significant economic costs and could materially impact the Company s results from operations. Other REITs may use different methods for calculating FFO and, accordingly, the Company s FFO may not be comparable to other real estate companies.

<sup>(2)</sup> Funds available for distribution (FAD) is computed by adjusting consolidated FFO for recurring capital improvements, which the Company defines as those costs incurred to maintain the assets value, tenant improvements, lease commissions, straight-line rent, stock compensation expense, impairment charges, amortization of lease incentives and tenant improvement reimbursements, in-place lease adjustment and the impact of EITF Topic D-42. Like FFO, the

Company considers FAD to be a useful measure for investors to evaluate the operations and cash flows of a REIT. FAD does not represent net income or cash flow from operations as defined by GAAP.
