### ALFACELL CORPORATION (A Development Stage Company)

#### NOTES TO FINANCIAL STATEMENTS

(Unaudited)

#### 1. ORGANIZATION AND BASIS OF PRESENTATION

In the opinion of management, the accompanying unaudited financial statements contain all adjustments (consisting of normal recurring accruals) necessary to present fairly the Company's financial position as of January 31, 2002 and the results of operations for the three and six month periods ended January 31, 2002 and 2001 and the period from August 24, 1981 (date of inception) to January 31, 2002. The results of operations for the six months ended January 31, 2002 are not necessarily indicative of the results to be expected for the full year.

The Company is a development stage company as defined in the Financial Accounting Standards Board's Statement of Financial Accounting Standards No. 7. The Company is devoting substantially all of its present efforts to establishing a new business. Its planned principal operations have not commenced and, accordingly, no significant revenue has been derived therefrom.

Effective August 1, 1998, the Company adopted Statement of Financial Accounting Standards No. 130 ("SFAS 130"), Reporting Comprehensive Income. SFAS 130 establishes new rules for the reporting and display of comprehensive income and its components. The net loss of \$1,075,000 and \$749,000 recorded for the six months ended January 31, 2002 and 2001, respectively, is equal to the comprehensive loss for those periods.

The Company has reported net losses since its inception. Also, the Company has limited liquid resources. The report of the Company's independent accountants on the Company's July 31, 2001 financial statements included an explanatory paragraph which states that the Company's recurring losses, working capital deficit and limited liquid resources raise substantial doubt about the Company's ability to continue as a going concern. The financial statements at July 31, 2001 and January 31, 2002 do not include any adjustments that might result from the outcome of this uncertainty.

## Edgar Filing: ALFACELL CORP - Form 10-Q

The Company's continued operations will depend on its ability to raise additional funds through various potential sources such as equity and debt financing, collaborative agreements, strategic alliances, sale of tax benefits, revenues from the commercial sale of ONCONASE(R) and its ability to realize the full potential of its technology and its drug candidates. Such additional funds may not become available as needed or be available on acceptable terms. To date, a significant portion of the Company's financing has been through private placements of common stock and warrants, the issuance of common stock for stock options and warrants exercised and for services rendered, debt financing and financing provided by the Company's Chief Executive Officer. Until the Company's operations generate significant revenues, the Company will need to continue to fund operations through the sources of capital previously described. From August, 2001 through March 21, 2002, the Company received gross proceeds of approximately \$600,000 from private placements of equity to various individual investors and exercise of warrants by an unrelated party. The Company also has received from time to time loans payable on demand from a related party. As of January 31, 2002 the aggregate balance of these loans was \$135,500. Additionally, in December 2001 the Company has raised capital amounting to \$354,000 through the sale of its tax

- 6 -

### ALFACELL CORPORATION (A Development Stage Company)

#### NOTES TO FINANCIAL STATEMENTS, Continued

(Unaudited)

#### 1. ORGANIZATION AND BASIS OF PRESENTATION, Continued

benefits. As the Company has no liquid resources and significant liabilities, it needs to raise additional capital in order to remain in operation. The Company believes its current operating levels require \$160,000 of cash per month. The Company does not presently maintain the cash balance needed to fund its operations; however, to date it has been able to meet the cash needed for continued operations. In the near term, management continues to seek additional capital financing through sales of equity in private placements and exercise of warrants. In addition, the Company expects some funds to be available through loans from its Chief Executive Officer, although no such loans are required to be made. Once any of these sources if received are exhausted, the Company will need additional financing through the sources described above, to continue its operations. There is no assurance these funds will be received, however, if the funds will be received it will assist in allowing the Company to satisfy its liquidity needs.

#### 2. EARNINGS (LOSS) PER COMMON SHARE

"Basic" earnings (loss) per common share equals net income (loss) divided by weighted average common shares outstanding during the period. "Diluted" earnings (loss) per common share equals net income divided by the sum of weighted average common shares outstanding during the period plus common stock equivalents. The Company's Basic and Diluted per share amounts are the same since the assumed exercise of stock options and warrants are all anti-dilutive. The amount of options and warrants excluded from the calculation was 7,802,895 and 6,060,363 at January 31, 2002 and 2001, respectively.

#### 3. LOAN PAYABLE, RELATED PARTY

## Edgar Filing: ALFACELL CORP - Form 10-Q

From August 2001 to January 2002, Kuslima Shogen the Company's Chief Executive Officer, loaned the Company some amounts payable upon demand bearing an interest at 8% per annum. As of January 31, 2002, the loan balance was \$135,500.

#### 4. CAPITAL STOCK

In August 2001, the Company issued 55,556 shares of common stock in settlement of accounts payable. In addition, the vendor was granted five-year warrants to purchase 55,556 shares of common stock at an exercise price of \$1.50 per share. The settled accounts payable totaled \$50,000 and therefore that amount has been charged to equity as the value of the stock and warrants.

In August 2001, the Company issued 70,000 five-year stock options as payment for services to be rendered. The options vested immediately and have an exercise price of \$0.75 per share. The total general and administrative expense recorded for these options was \$35,770, based upon the fair value of such option on the date of issuance.

During the quarter ended October 31, 2001, the Company sold an aggregate of 440,000 shares of common stock to private investors at a price of \$0.50 to \$0.90 per share resulting in net proceeds of \$252,000 to the Company. In addition, the private investors were granted five-year warrants to purchase an aggregate of 440,000 shares of common stock at an exercise price of \$1.50 per share.

- 7 -

### ALFACELL CORPORATION (A Development Stage Company)

#### NOTES TO FINANCIAL STATEMENTS, Continued

(Unaudited)

#### 4. CAPITAL STOCK, Continued

In October 2001, the Company issued 72,214 shares of common stock upon the exercise of convertible debentures by unrelated parties. In addition, upon conversion, the unrelated parties were granted five-year warrants to purchase 72,214 shares of common stock at \$1.50 per share.

During the quarter ended January 31, 2002, the Company sold an aggregate of 359,070 shares of common stock to private investors at a price of \$0.50 per share resulting in net proceeds of \$162,200 to the Company. In addition, the private investors were granted five-year warrants to purchase an aggregate of 409,070 shares of common stock at an exercise price of \$1.50 per share.

#### 5. SALE OF NET OPERATING LOSSES

New Jersey has enacted legislation permitting certain corporations located in New Jersey to sell state tax loss carryforwards and state research and development credits or tax benefits. For the state fiscal year 2002 (July 1, 2001 to June 30, 2002), the Company has \$1,477,000 total available tax benefits of which \$426,000 was allocated to be sold between July 1, 2001 and June 30, 2002. In December 2001, the Company received \$354,000 from the sale of the

## Edgar Filing: ALFACELL CORP - Form 10-Q

allocated tax benefits which was recognized as a tax benefit for the six months ended January 31, 2002. In December 2000, the Company received \$451,000 from the sale of the allocated tax benefits which was recognized as a tax benefit for the six months ended January 31, 2001. The Company will attempt to sell the remaining balance of its tax benefits in the amount of approximately \$1,051,000 between July 1, 2002 and June 30, 2003, subject to all existing laws of the State of New Jersey. However, there is no assurance that the Company will be able to find a buyer for its tax benefits or that such funds will be available in a timely manner.

- 8 -

### Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Information contained herein contains, in addition to historical information, forward-looking statements that involve risks and uncertainties. All statements, other than statements of historical fact, regarding our financial position, potential, business strategy, plans and objectives for future operations are "forward-looking statements." These statements are commonly identified by the use of forward-looking terms and phrases as "anticipates," "believes," "estimates," "expects," "intends," "may," "seeks," "should," or "will" or the negative thereof or other variations thereon or comparable terminology, or by discussions of strategy. We cannot be sure that the future results covered by these forward-looking statements will be achieved. The matters set forth in Exhibit 99.1 to our annual report on Form 10-K for the fiscal year ended July 31, 2001 which is incorporated herein by reference, constitute cautionary statements identifying important factors with respect to these forward-looking statements, including certain risks and uncertainties, that could cause actual results to vary significantly from the future results indicated in these forward-looking statements. Other factors could also cause actual results to differ significantly from the future results indicated in these forward-looking statements.

#### Results of Operations

Three and six month periods ended January 31, 2002 and 2001

**Revenues.** We are a development stage company as defined in the Financial Accounting Standards Board's Statement of Financial Accounting Standards No. 7. We are devoting substantially all of our present efforts to establishing a new business and developing new drug products. Our planned principal operations of marketing and/or licensing of new drugs have not commenced and, accordingly, we have not derived any significant revenue from these operations. We focus most of our productive and financial resources on the development of ONCONASE(R) and as such we have not had any sales in the three and six month periods ended January 31, 2001 and 2000. Investment income for the three months ended January 31, 2002 was \$100 compared to \$3,000 for the same period last year a decrease of \$2,900. Investment income for the six months ended January 31, 2002, was \$200 compared to \$6,800 for the same period last year, a decrease of \$6,600. These decreases were due to lower balances of cash and cash equivalents.

**Research and Development.** Research and development expense for the three months ended January 31, 2002 was \$506,000 compared to \$510,000 for the same period last year, a decrease of \$4,000, or 1%. This decrease was primarily due to a decrease in expenses in preparation for marketing approval filings of ONCONASE(R) for the treatment of malignant mesothelioma with the Food and Drug Administration in the U.S. and with the European Agency for the Evaluation of

## Edgar Filing: ALFACELL CORP - Form 10-Q

Medicinal Products in Europe and a reduction of non-cash expense relating to stock options issued for consulting services. This decrease was partially offset by an increase in costs in support of the on-going Phase III clinical trials for ONCONASE(R) and an increase in cost of clinical supplies related to the clinical trials, both resulting from the expansion of our Phase III clinical trials for malignant mesothelioma in Europe, as well as an increase in costs relating to patent and trademark applications for ONCONASE(R).

Research and development expense for the six months ended January 31, 2002 was \$1,008,000 compared to \$878,000 for the same period last year, an increase of \$130,000, or 15%. This increase was primarily due to an increase in costs in support of on-going Phase III clinical trials for ONCONASE(R) for malignant mesothelioma and an increase in cost of clinical supplies related to the clinical trials, both resulting from the expansion of our Phase III clinical trials for malignant mesothelioma in Europe and an increase in patent and trademark applications for ONCONASE(R). This increase was partially offset by a reduction of a non-cash expense relating to stock options issued for consulting services.

General and Administrative. General and administrative expense for the three months ended January 31, 2002 was \$188,000 compared to \$180,000 for the same period last year, an increase of

- 9 -

\$8,000, or 4%. This increase was primarily due to an increase in legal expenses due to business development activities, offset by a decrease in public relations activities and a reduction of a non-cash expense relating to stock options issued for consulting services.

General and administrative expense for the six months ended January 31, 2002 was \$383,000 compared to \$325,000 for the same period last year, an increase of \$58,000 or 18%. This increase was primarily due to an increase in public relations expenses and an increase in legal expenses due to business development activities, offset by a reduction in a non-cash expense relating to stock options issued for consulting services.

Interest. Interest expense for the three months ended January 31, 2002 was \$3,000 compared to \$2,000 for the same period last year, an increase of \$1,000. Interest expense for the six months ended January 31, 2002 was \$38,000 compared to \$4,000 for the same period last year, an increase of \$34,000. These increases were primarily due to the interest expense on the renewal of the convertible notes and related warrants issued to unrelated parties in April 2001. The interest expense was based on the value of the warrants using the Black-Scholes options-pricing model, amortized on a straight-line basis over the life of the notes.

Income Taxes. New Jersey has enacted legislation permitting certain corporations located in New Jersey to sell state tax loss carryforwards and state research and development credits or tax benefits. For the state fiscal year 2002 (July 1, 2001 to June 30, 2002), we have \$1,477,000 total available tax benefits of which \$426,000 was allocated to be sold between July 1, 2001 and June 30, 2002. In December 2001, we received \$354,000 from the sale of allocated tax benefits which was recognized as a tax benefit for the six months ended January 31, 2002. In December 2000, we received \$451,000 from the sale of the allocated tax benefits which was recognized as a tax benefit for the six months ended January 31, 2001. We will attempt to sell the remaining balance of our tax benefits in the amount of approximately \$1,051,000 between July 1, 2002 and June

## Edgar Filing: ALFACELL CORP - Form 10-Q

30, 2003, subject to all existing laws of the State of New Jersey. However, we cannot assure you that we will be able to find a buyer for our tax benefits or that such funds will be available in a timely manner.

**Net Loss.** We have incurred net losses during each year since our inception. The net loss for the three months ended January 31, 2002 was \$698,000 as compared to \$688,000 for the same period last year, an increase of \$10,000. The net loss for the six months ended January 31, 2002 was \$1,075,000 as compared to \$749,000 for the same period last year, an increase of \$326,000. The cumulative loss from the date of inception, August 24, 1981 to January 31, 2002, amounted to \$60,046,000. Such losses are attributable to the fact that we are still in the development stage and accordingly have not derived sufficient revenues from operations to offset the development stage expenses.

### Liquidity and Capital Resources

We have financed our operations since inception primarily through equity and debt financing, research product sales and interest income. During the six months ended January 31, 2002, we had a net decrease in cash and cash equivalents of \$30,000, which resulted primarily from net cash used in operating activities of \$572,000, offset by net cash provided by financing activities of \$542,000, primarily from the private placement of common stock and warrants and proceeds from short-term borrowings. Total cash resources as of January 31, 2002 were \$14,000 compared to \$45,000 at July 31, 2001.

Our current liabilities as of January 31, 2002 were \$1,337,000 compared to \$918,000 at July 31, 2001, an increase of \$419,000. The increase was primarily due to an increase in expenses related to the expansion of our Phase III clinical trials for malignant mesothelioma in Europe. As of January 31, 2002 our current liabilities exceeded our current assets and we had a working capital deficit of \$1,301,000.

- 10 -

Our continued operations will depend on our ability to raise additional funds through various potential sources such as equity and debt financing, collaborative agreements, strategic alliances, sale of tax benefits, revenues from the commercial sale of ONCONASE(R) and our ability to realize the full potential of our technology and our drug candidates. Such additional funds may not become available as we need them or be available on acceptable terms. To date, a significant portion of our financing has been through private placements of common stock and warrants, the issuance of common stock for stock options and warrants exercised and for services rendered, debt financing and financing provided by our Chief Executive Officer. Until our operations generate significant revenues, we will need to continue to fund operations through the sources of capital previously described. From August, 2001 through March 21, 2002, we received gross proceeds of approximately \$600,000 from private placements of equity to various individual investors and exercise of warrants by an unrelated party. We have also received from time to time loans payable on demand from a related party. As of January 31, 2002 the aggregate balance of these loans was \$135,500. Additionally, in December 2001 we have raised capital amounting to \$354,000 through the sale of our tax benefits. As we have no liquid resources and significant liabilities, we need to raise additional capital in order to remain in operation. We believe our current operating levels require \$160,000 of cash per month. We do not presently maintain the cash balance needed to fund our operations; however, to date we have been able to meet the cash needed for continued operations.

In the near term we continue to seek additional capital financing through

## Edgar Filing: ALFACELL CORP - Form 10-Q

the sale of equity in private placements and exercise of warrants. In addition, we expect some funds to be available through loans from our Chief Executive Officer, although no such loans are required to be made. Once any of these sources if received are exhausted we will need additional financing through the sources described above, to continue our operations. We cannot be sure these funds will be received, however, if the funds will be received it will assist us in satisfying our liquidity needs. The report of our independent auditors on our July 31, 2001 financial statements included an explanatory paragraph which states that our recurring losses, working capital deficit and limited liquid resources raise substantial doubt about our ability to continue as a going concern. Our financial statements at July 31, 2001 and January 31, 2002 do not include any adjustments that might result from the outcome of this uncertainty.

We will continue to incur costs in conjunction with our U.S. and foreign registrations for marketing approval of ONCONASE(R). We are currently in discussions with several potential strategic alliance partners, including major international biopharmaceutical companies, to further the development and marketing of ONCONASE(R) and other related products in our pipeline. However, we cannot be sure that any such alliances will materialize.

New Jersey has enacted legislation permitting certain corporations located in New Jersey to sell state tax loss carryforwards and state research and development credits or tax benefits. For the state fiscal year 2002 (July 1, 2001 to June 30, 2002), we had \$1,477,000 total available tax benefits of which \$426,000 was allocated to be sold between July 1, 2001 and June 30, 2002. In December 2001, we received \$354,000 from the sale of the allocated tax benefits which was recognized as a tax benefit for the quarter ended October 31, 2001. In December 2000, we received \$451,000 from the sale of the allocated tax benefits which was recognized as a tax benefit for the quarter ended October 31, 2000. We will attempt to sell the remaining balance of our tax benefits in the amount of approximately \$1,051,000 between July 1, 2002 and June 30, 2003, subject to all existing laws of the State of New Jersey. However, there is no assurance that the Company will be able to find a buyer for our tax benefits or that such funds will be available in a timely manner.

Our common stock was delisted from The Nasdaq SmallCap Market effective at the close of business April 27, 1999 for failing to meet the minimum bid price requirements set forth in the NASD Marketplace Rules. As of April 28, 1999, our common stock trades on the OTC Bulletin Board under the

- 11 -

symbol "ACEL.OB". Delisting of our common stock from Nasdaq could have a material adverse effect on our ability to raise additional capital, our stockholders' liquidity and the price of our common stock.

The market price of our common stock is volatile, and the price of the stock could be dramatically affected one way or another depending on numerous factors. The market price of our common stock could also be materially affected by the marketing approval or lack of approval of ONCONASE(R).

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Not applicable.

PART II. OTHER INFORMATION

Item 2. (c) Recent Sales of Unregistered Securities

## Edgar Filing: ALFACELL CORP - Form 10-Q

In November 2001, we completed a private placement resulting in the issuance of 209,070 shares of restricted common stock and 259,070 five-year warrants to purchase an aggregate 259,070 shares of common stock at an exercise price of \$1.50 per share. We received an aggregate \$104,535 from such private placement.

In January 2002, we completed a private placement resulting in the issuance of 150,000 shares of restricted common stock and 150,000 five-year warrants to purchase an aggregate 150,000 shares of common stock at an exercise price of \$1.50 per share. We received an aggregate \$75,000 from such private placement.

In February 2002, we completed a private placement resulting in the issuance of 1,500,000 five-year warrants to purchase 1,500,000 shares of common stock. Of such warrants, 250,000 are exercisable at \$0.50 per share, 650,000 are exercisable at \$1.00 per share and 600,000 are exercisable at \$1.50 per share. We received \$1,500 from such private placement.

In March 2002, we issued 100,000 shares of common stock upon the exercise of warrants by an unrelated party resulting in gross proceeds of \$50,000, in a transaction consummated as a private sale pursuant to Section 4(2) of the Securities Act of 1933, as amended.
