Acquisition of 70.27% of Greens Creek Mine

On February 12, 2008, Hecla Mining Company (Hecla) and our wholly owned subsidiary, Hecla Admiralty Company (Hecla Admiralty), entered into a Stock Purchase Agreement (the Stock Purchase Agreement) with Kennecott Minerals Holdings Company (Kennecott) an affiliate of Rio Tinto plc. Acquisition of the Assets of Independence Lead Mines Company

On February 12, 2008, Hecla Mining Company and our wholly owned subsidiary, Hecla Merger Company (Merger Sub), entered into an Asset Purchase Agreement (the Asset Purchase Agreement) with Independence Lead Mines Company (ILM). Under the terms of the Asset Purchase Agreement, Merger Sub will acquire substantially all of the assets of ILM in exchange for 6,936,884 shares of Hecla common stock, par value \$0.25 per share (the ILM Acquisition). The ILM Acquisition is currently expected to close in the second quarter of 2008 and is subject to customary closing conditions necessary regulatory approvals and an affirmative vote by ILM 's shareholders. A copy of the Asset Purchase Agreement is attached hereto as Exhibit 2.2 and is incorporated herein by reference.

Since 1958, we have owned and operated the Lucky Friday unit, a deep underground silver, lead and zinc mine located in the Coeur d'Alene Mining District in northern Idaho. During 1991, we discovered several mineralized structures containing some high-grade silver ores in an area known as the Gold Hunter property, approximately 5,000 feet northwest of the then existing Lucky Friday workings. This discovery led to the development of the Gold Hunter property on the 4900 level. We currently control the Gold Hunter property under certain agreements with ILM, that entitle us, as operator, to an 81.48% interest in the net profits from operations from the Gold Hunter property. After we have recouped our costs to explore, develop, and operate the property, ILM may elect, within two years, to take a participating interest in the property. If ILM does not take a participating interest, it will be entitled to an 18.52 percent net profits interest. As of December 31, 2007, unrecouped costs totaled approximately \$14.7 million. Our ability to recoup those costs, and the projected timing of such event, depends on future metal prices and our level of capital investments. We are currently studying the level of capital expenditures necessary for continued production from the Gold Hunter property.

Edgar Filing: HECLA MINING CO/DE/ - Form 8-K

In March 2002, ILM, notified us of certain alleged defaults by us under a 1968 lease agreement relating to the Gold Hunter area (also known as the DIA properties) of our Lucky Friday unit. ILM alleged that we violated the prudent operator obligations implied under the lease by undertaking the development of the Gold Hunter project on the 4900 level, and violated certain other provisions of the Agreement.

In June 2002, ILM filed a lawsuit in Idaho State District Court seeking termination of the lease agreement and requesting unspecified damages. Trial of the case occurred in late March 2004. In July 2004, the Court issued a decision that found in our favor on all issues and subsequently awarded us approximately \$0.1 million in attorneys' fees and certain costs, which ILM has paid. In August 2004, ILM filed its Notice of Appeal with the Idaho Supreme Court. Oral arguments were heard by the Idaho Supreme Court in February 2006. In April 2006, the Idaho Supreme Court ruled in our favor on all of ILM's claims.

In December 2006, ILM filed a lawsuit in the United States District Court for the District of Idaho seeking monetary damages and injunctive relief. ILM alleged that the April 2006 decision by the Idaho Supreme Court violated their civil rights and their constitutional right to due process, and also alleged that Hecla engaged in mail fraud and securities fraud during the term of the lease. In September 2007, the United States District Court for the District of Idaho granted our motion to dismiss the case in its entirety. In October 2007, ILM filed a Notice of Appeal to the United States Court of Appeals for the Ninth Circuit. In addition, in January 2007, ILM filed an action in Idaho State District Court for Shoshone County seeking rescission of the lease based upon the theory of mutual mistake. In May 2007, the District Court of the First Judicial District of the State of Idaho granted our motion for summary judgment. In July 2007, ILM filed a Notice of Appeal to the Idaho Supreme Court. We believe that the existing decisions of the Idaho State District Court and Idaho Supreme Court in our favor are correct and controlling in these cases, and we believe that we have complied fully with the terms of the lease. We have moved to dismiss both lawsuits by ILM. We believe that we will prevail in both cases and will be able to continue to operate under the lease.

3

If the ILM Acquisition is consummated, among the terms of the Asset Purchase Agreement is that all litigation between us and ILM will be dismissed, and we will acquire all of ILM's right, title and interest to the Gold Hunter area/DIA properties and the related agreements between us and ILM.

The Asset Purchase Agreement has been incorporated by reference herein to provide you with information regarding its terms. It is not intended to provide any other factual information about us.
