

SHERWIN WILLIAMS CO
Form 10-Q
April 24, 2013

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D. C. 20549

FORM 10-Q

(Mark One)

Quarterly Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934.
For the Period Ended March 31, 2013

or
 Transition Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934.
For the transition period from _____ to _____
Commission file number 1-04851

THE SHERWIN-WILLIAMS COMPANY
(Exact name of registrant as specified in its charter)

OHIO
(State or other jurisdiction of
incorporation or organization)

34-0526850
(I.R.S. Employer
Identification No.)

101 West Prospect Avenue,
Cleveland, Ohio
(Address of principal executive offices)
(216) 566-2000
(Registrant's telephone number including area code)

44115-1075
(Zip Code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one:)

Large accelerated filer Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practical date.

Common Stock, \$1.00 Par Value – 103,164,522 shares as of March 31, 2013.

THE SHERWIN-WILLIAMS COMPANY AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

Periods ended March 31, 2013 and 2012

NOTE 1—BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles (GAAP) for interim financial information and the instructions to Form 10-Q. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included.

There have been no significant changes in critical accounting policies since December 31, 2012. Accounting estimates were revised as necessary during the first three months of 2013 based on new information and changes in facts and circumstances.

The Company primarily uses the last-in, first-out (LIFO) method of valuing inventory. An actual valuation of inventory under the LIFO method can be made only at the end of each year based on the inventory levels and costs at that time. Accordingly, interim LIFO calculations are based on management's estimates of expected year-end inventory levels and costs are subject to the final year-end LIFO inventory valuation. In addition, interim inventory levels include management's estimates of annual inventory losses due to shrinkage and other factors. The final year-end valuation of inventory is based on an annual physical inventory count performed during the fourth quarter. For further information on inventory valuations and other matters, refer to the consolidated financial statements and footnotes thereto included in the Company's Form 10-K for the year ended December 31, 2012.

The consolidated results for the three months ended March 31, 2013 are not necessarily indicative of the results to be expected for the year ending December 31, 2013.

NOTE 2—IMPACT OF RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In February 2013, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2013-2, which amends the Comprehensive Income Topic of the Accounting Standards Codification (ASC). The updated standard requires the presentation of information about reclassifications out of accumulated other comprehensive income. ASU No. 2013-2 is effective for fiscal years and interim periods within those years beginning after December 15, 2012. The Company has adopted the standard on a prospective basis as required. The updated standard affects the Company's disclosures but has no impact on its results of operations, financial condition or liquidity.

NOTE 3—DIVIDENDS

Dividends paid on common stock during the first quarter of 2013 and 2012 were \$.50 per common share and \$.39 per common share, respectively.

NOTE 4—CHANGES IN CUMULATIVE OTHER COMPREHENSIVE LOSS

The following table summarizes the changes in Cumulative other comprehensive loss for the three months ended March 31, 2013:

(Thousands of dollars)

	Foreign Currency Translation Adjustments	Net Actuarial (Losses) Gains and Prior Service Costs Recognized for Employee Benefit Plans	Unrealized Net Gains (Losses) on Available-for-Sale Securities	Total Cumulative Other Comprehensive (Loss) Income
Beginning balance	\$(204,195)	\$(166,595)	\$ 401	\$ (370,389)
Other comprehensive (loss) income before reclassifications ⁽¹⁾	(2,172)	6,683	127	4,638
Amounts reclassified from other comprehensive (loss) income ⁽²⁾		(3,225)	(10)	(3,235)
Net other comprehensive (loss) income	(2,172)	3,458	117	1,403
Ending balance	\$(206,367)	\$(163,137)	\$ 518	\$ (368,986)

⁽¹⁾ Net of taxes of \$(4,273) for net actuarial gains and prior service costs recognized for employee benefit plans and \$(80) for unrealized net gains on available-for-sale securities.

⁽²⁾ Net of taxes of \$2,062 for net actuarial gains and prior service costs recognized for employee benefit plans and \$7 for unrealized net gains on available-for-sale securities.

NOTE 5—PRODUCT WARRANTIES

Changes in the Company's accrual for product warranty claims during the first three months of 2013 and 2012, including customer satisfaction settlements, were as follows:

(Thousands of dollars)

	2013	2012
Balance at January 1	\$22,710	\$22,071
Charges to expense	5,117	5,290
Settlements	(5,640)	(4,474)
Balance at March 31	\$22,187	\$22,887

For further details on the Company's accrual for product warranty claims, see Note 1 to the Consolidated Financial Statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2012.

NOTE 6—EXIT OR DISPOSAL ACTIVITIES

Liabilities associated with exit or disposal activities are recognized as incurred in accordance with the Exit or Disposal Cost Obligations Topic of the ASC. Qualified exit costs primarily include post-closure rent expenses, incremental post-closure costs and costs of employee terminations. Adjustments may be made to liabilities accrued for qualified exit costs if information becomes available upon which more accurate amounts can be reasonably estimated.

Concurrently, property, plant and equipment is tested for impairment in accordance with the Property, Plant and Equipment Topic of the ASC, and if impairment exists, the carrying value of the related assets is reduced to estimated fair value. Additional impairment may be recorded for subsequent revisions in estimated fair value.

In the three months ended March 31, 2013, one store in the Paint Stores Group and one branch in the Global Finishes Group were closed due to lower demand or redundancy.

The following table summarizes the activity and remaining liabilities associated with qualified exit costs at March 31, 2013:

Edgar Filing: SHERWIN WILLIAMS CO - Form 10-Q

(Thousands of dollars)	Balance at December 31, 2012	Provisions in Cost of goods sold or SG&A	Actual expenditures charged to accrual	Adjustments to prior provisions in Other general expense—net	Balance at March 31, 2013
Exit Plan					
Paint Stores Group stores shutdown in 2013:					
Other qualified exit costs		\$27			\$27
Paint Stores Group stores shutdown in 2012:					
Other qualified exit costs	\$313		\$ (30)	\$ (1)	282
Global Finishes Group facility shutdown in 2012:					
Severance and related costs	2,236		(284)		1,952
Other qualified exit costs	3,430		(3,530)	100	
Global Finishes Group branches shutdown in 2011:					
Other qualified exit costs	290		(42)		248
Other qualified exit costs for facilities shutdown prior to 2011	2,288		(300)	29	2,017
Totals	\$8,557	\$27	\$ (4,186)	\$ 128	\$4,526

For further details on the Company's exit or disposal activities, see Note 5 to the Consolidated Financial Statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2012.

NOTE 7—HEALTH CARE, PENSION AND OTHER BENEFITS

Shown below are the components of the Company's net periodic benefit cost for domestic defined benefit pension plans, foreign defined benefit pension plans and postretirement benefits other than pensions:

(Thousands of dollars)	Domestic Defined Benefit Pension Plans		Foreign Defined Benefit Pension Plans		Postretirement Benefits Other than Pensions	
	2013	2012	2013	2012	2013	2012
Three Months Ended March 31:						
Net periodic benefit cost:						
Service cost	\$5,396	\$4,732	\$1,160	\$892	\$765	\$736
Interest cost	4,267	4,331	1,902	1,725	3,046	3,380
Expected return on assets	(10,342)	(11,210)	(1,782)	(1,677)		
Amortization of:						
Prior service cost (credit)	456	398			(82)	(164)
Actuarial loss	3,488	5,486	442	251	983	429
Net periodic benefit cost	\$3,265	\$3,737	\$1,722	\$1,191	\$4,712	\$4,381

For further details on the Company's health care, pension and other benefits, see Note 6 to the Consolidated Financial Statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2012.

NOTE 8—OTHER LONG-TERM LIABILITIES

The Company initially provides for estimated costs of environmental-related activities relating to its past operations and third party sites for which commitments or clean-up plans have been developed and when such costs can be reasonably estimated based on industry standards and professional judgment. These estimated costs are determined based on currently available facts regarding each site. If the best estimate of costs can only be identified as a range and no specific amount within that range can be determined more likely than any other amount within the range, the minimum of the range is provided. At March 31, 2013, the unaccrued maximum of the estimated range of possible

outcomes is \$87.3 million higher than the minimum.

The Company continuously assesses its potential liability for investigation and remediation-related activities and adjusts its environmental-related accruals as information becomes available upon which more accurate costs can be reasonably estimated and as additional accounting guidelines are issued. Actual costs incurred may vary from these estimates due to the inherent uncertainties involved including, among others, the number and financial condition of parties involved with respect to any given site, the volumetric contribution which may be attributed to the Company relative to that attributed to other parties, the nature and magnitude of the wastes involved, the various technologies that can be used for remediation and the determination of acceptable remediation with respect to a particular site.

7

Included in Other long-term liabilities at March 31, 2013 and 2012 were accruals for extended environmental-related activities of \$93.5 million and \$84.7 million, respectively. Estimated costs of current investigation and remediation activities of \$17.1 million and \$42.8 million are included in Other accruals at March 31, 2013 and 2012, respectively. Two of the Company's currently and formerly owned manufacturing sites account for the majority of the accrual for environmental-related activities and the unaccrued maximum of the estimated range of possible outcomes at March 31, 2013. At March 31, 2013, \$58.6 million, or 53.0 percent of the total accrual, related directly to these two sites. In the aggregate unaccrued maximum of \$87.3 million at March 31, 2013, \$56.5 million, or 64.7 percent, related to the two manufacturing sites. While environmental investigations and remedial actions are in different stages at these sites, additional investigations, remedial actions and monitoring will likely be required at each site. Management cannot presently estimate the ultimate potential loss contingencies related to these sites or other less significant sites until such time as a substantial portion of the investigation at the sites is completed and remedial action plans are developed. In the event any future loss contingency significantly exceeds the current amount accrued, the recording of the ultimate liability may result in a material impact on net income for the annual or interim period during which the additional costs are accrued. Management does not believe that any potential liability ultimately attributed to the Company for its environmental-related matters will have a material adverse effect on the Company's financial condition, liquidity, or cash flow due to the extended period of time during which environmental investigation and remediation takes place. An estimate of the potential impact on the Company's operations cannot be made due to the aforementioned uncertainties.

Management expects these contingent environmental-related liabilities to be resolved over an extended period of time. Management is unable to provide a more specific time frame due to the indefinite amount of time to conduct investigation activities at any site, the indefinite amount of time to obtain environmental agency approval, as necessary, with respect to investigation and remediation activities, and the indefinite amount of time necessary to conduct remediation activities.

For further details on the Company's Other long-term liabilities, see Note 8 to the Consolidated Financial Statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2012.

NOTE 9 – LITIGATION

In the course of its business, the Company is subject to a variety of claims and lawsuits, including, but not limited to, litigation relating to product liability and warranty, personal injury, environmental, intellectual property, commercial, contractual and antitrust claims that are inherently subject to many uncertainties regarding the possibility of a loss to the Company. These uncertainties will ultimately be resolved when one or more future events occur or fail to occur confirming the incurrence of a liability or the reduction of a liability. In accordance with the Contingencies Topic of the ASC, the Company accrues for these contingencies by a charge to income when it is both probable that one or more future events will occur confirming the fact of a loss and the amount of the loss can be reasonably estimated. In the event that the Company's loss contingency is ultimately determined to be significantly higher than currently accrued, the recording of the additional liability may result in a material impact on the Company's results of operations, liquidity or financial condition for the annual or interim period during which such additional liability is accrued. In those cases where no accrual is recorded because it is not probable that a liability has been incurred and the amount of any such loss cannot be reasonably estimated, any potential liability ultimately determined to be attributable to the Company may result in a material impact on the Company's results of operations, liquidity or financial condition for the annual or interim period during which such liability is accrued. In those cases where no accrual is recorded or exposure to loss exists in excess of the amount accrued, the Contingencies Topic of the ASC requires disclosure of the contingency when there is a reasonable possibility that a loss or additional loss may have been incurred.

Lead pigment and lead-based paint litigation. The Company's past operations included the manufacture and sale of lead pigments and lead-based paints. The Company, along with other companies, is and has been a defendant in a number of legal proceedings, including individual personal injury actions, purported class actions, and actions brought by various counties, cities, school districts and other government-related entities, arising from the manufacture and sale of lead pigments and lead-based paints. The plaintiffs' claims have been based upon various legal theories, including negligence, strict liability, breach of warranty, negligent misrepresentations and omissions, fraudulent

misrepresentations and omissions, concert of action, civil conspiracy, violations of unfair trade practice and consumer protection laws, enterprise liability, market share liability, public nuisance, unjust enrichment and other theories. The plaintiffs seek various damages and relief, including personal injury and property damage, costs relating to the detection and abatement of lead-based paint from buildings, costs associated with a public education campaign, medical monitoring costs and others. The Company is also a defendant in legal proceedings arising from the manufacture and sale of non-lead-based paints that seek recovery based upon various legal theories, including the failure to adequately warn of potential exposure to lead during surface preparation when using non-lead-based paint on surfaces previously painted with lead-based paint. The Company believes that the litigation brought to date is without merit or subject to

meritorious defenses and is vigorously defending such litigation. The Company has not settled any lead pigment or lead-based paint litigation. The Company expects that additional lead pigment and lead-based paint litigation may be filed against the Company in the future asserting similar or different legal theories and seeking similar or different types of damages and relief.

Notwithstanding the Company's views on the merits, litigation is inherently subject to many uncertainties, and the Company ultimately may not prevail. Adverse court rulings or determinations of liability, among other factors, could affect the lead pigment and lead-based paint litigation against the Company and encourage an increase in the number and nature of future claims and proceedings. In addition, from time to time, various legislation and administrative regulations have been enacted, promulgated or proposed to impose obligations on present and former manufacturers of lead pigments and lead-based paints respecting asserted health concerns associated with such products or to overturn the effect of court decisions in which the Company and other manufacturers have been successful.

Due to the uncertainties involved, management is unable to predict the outcome of the lead pigment and lead-based paint litigation, the number or nature of possible future claims and proceedings, or the effect that any legislation and/or administrative regulations may have on the litigation or against the Company. In addition, management cannot reasonably determine the scope or amount of the potential costs and liabilities related to such litigation, or resulting from any such legislation and regulations. The Company has not accrued any amounts for such litigation. With respect to such litigation, including the public nuisance litigation, the Company does not believe that it is probable that a loss has occurred, and it is not possible to estimate the range of potential losses as there is no prior history of a loss of this nature and there is no substantive information upon which an estimate could be based. In addition, any potential liability that may result from any changes to legislation and regulations cannot reasonably be estimated. In the event any significant liability is determined to be attributable to the Company relating to such litigation, the recording of the liability may result in a material impact on net income for the annual or interim period during which such liability is accrued. Additionally, due to the uncertainties associated with the amount of any such liability and/or the nature of any other remedy which may be imposed in such litigation, any potential liability determined to be attributable to the Company arising out of such litigation may have a material adverse effect on the Company's results of operations, liquidity or financial condition. An estimate of the potential impact on the Company's results of operations, liquidity or financial condition cannot be made due to the aforementioned uncertainties.

Public nuisance claim litigation. The Company and other companies are or were defendants in legal proceedings seeking recovery based on public nuisance liability theories, among other theories, brought by the State of Rhode Island, the City of St. Louis, Missouri, various cities and counties in the State of New Jersey, various cities in the State of Ohio and the State of Ohio, the City of Chicago, Illinois, the City of Milwaukee, Wisconsin and the County of Santa Clara, California and other public entities in the State of California. Except for the Santa Clara County, California proceeding, all of these legal proceedings have been concluded in favor of the Company and other defendants at various stages in the proceedings.

The proceedings initiated by the State of Rhode Island included two jury trials. At the conclusion of the second trial, the jury returned a verdict finding that (i) the cumulative presence of lead pigment in paints and coatings on buildings in the State of Rhode Island constitutes a public nuisance, (ii) the Company, along with two other defendants, caused or substantially contributed to the creation of the public nuisance, and (iii) the Company and two other defendants should be ordered to abate the public nuisance. The Company and two other defendants appealed and, on July 1, 2008, the Rhode Island Supreme Court, among other determinations, reversed the judgment of abatement with respect to the Company and two other defendants. The Rhode Island Supreme Court's decision reversed the public nuisance liability judgment against the Company on the basis that the complaint failed to state a public nuisance claim as a matter of law.

The Santa Clara County, California proceeding was initiated in March 2000 in the Superior Court of the State of California, County of Santa Clara. In the original complaint, the plaintiffs asserted various claims including fraud and concealment, strict product liability/failure to warn, strict product liability/design defect, negligence, negligent breach of a special duty, public nuisance, private nuisance, and violations of California's Business and Professions Code. A number of the asserted claims were resolved in favor of the defendants through pre-trial proceedings. The named plaintiffs in the Fourth Amended Complaint, filed on March 16, 2011, are the Counties of Santa Clara, Alameda, Los

Angeles, Monterey, San Mateo, Solano and Ventura, and the Cities of Oakland, San Diego and San Francisco. The Fourth Amended Complaint asserts a sole claim for public nuisance, alleging that the presence of lead products for use in paint and coatings in, on and around buildings in the plaintiffs' jurisdictions constitutes a public nuisance. The plaintiffs seek the abatement of the alleged public nuisance that exists within the plaintiffs' jurisdictions. A trial is currently scheduled to begin in June 2013.

Litigation seeking damages from alleged personal injury. The Company and other companies are defendants in a number of legal proceedings seeking monetary damages and other relief from alleged personal injuries. These proceedings include claims by children allegedly injured from ingestion of lead pigment or lead-containing paint, claims for damages allegedly incurred by the children's parents or guardians, and claims for damages allegedly incurred by professional painting contractors.

These proceedings generally seek compensatory and punitive damages, and seek other relief including medical monitoring costs. These proceedings include purported claims by individuals, groups of individuals and class actions. The plaintiff in *Thomas v. Lead Industries Association, et al.*, initiated an action in state court against the Company, other alleged former lead pigment manufacturers and the Lead Industries Association in September 1999. The claims against the Company and the other defendants included strict liability, negligence, negligent misrepresentation and omissions, fraudulent misrepresentation and omissions, concert of action, civil conspiracy and enterprise liability. Implicit within these claims is the theory of “risk contribution” liability (Wisconsin’s theory which is similar to market share liability) due to the plaintiff’s inability to identify the manufacturer of any product that allegedly injured the plaintiff. The case ultimately proceeded to trial and, on November 5, 2007, the jury returned a defense verdict, finding that the plaintiff had ingested white lead carbonate, but was not brain damaged or injured as a result. The plaintiff appealed and, on December 16, 2010, the Wisconsin Court of Appeals affirmed the final judgment in favor of the Company and other defendants.

Wisconsin is the only jurisdiction to date to apply a theory of liability with respect to alleged personal injury (i.e., risk contribution/market share liability) that does not require the plaintiff to identify the manufacturer of the product that allegedly injured the plaintiff in the lead pigment and lead-based paint litigation. Although the risk contribution liability theory was applied during the *Thomas* trial, the constitutionality of this theory as applied to the lead pigment cases has not been judicially determined by the Wisconsin state courts. However, in an unrelated action filed in the United States District Court for the Eastern District of Wisconsin, *Gibson v. American Cyanamid, et al.*, on November 15, 2010, the District Court held that Wisconsin’s risk contribution theory as applied in that case violated the defendants’ right to substantive due process and is unconstitutionally retroactive. The District Court’s decision in *Gibson v. American Cyanamid, et al.*, has been appealed by the plaintiff.

Insurance coverage litigation. The Company and its liability insurers, including certain Underwriters at Lloyd’s of London, initiated legal proceedings against each other to primarily determine, among other things, whether the costs and liabilities associated with the abatement of lead pigment are covered under certain insurance policies issued to the Company. The Company’s action, filed on March 3, 2006 in the Common Pleas Court, Cuyahoga County, Ohio, is currently stayed and inactive. The liability insurers’ action, which was filed on February 23, 2006 in the Supreme Court of the State of New York, County of New York, has been dismissed. An ultimate loss in the insurance coverage litigation would mean that insurance proceeds could be unavailable under the policies at issue to mitigate any ultimate abatement related costs and liabilities. The Company has not recorded any assets related to these insurance policies or otherwise assumed that proceeds from these insurance policies would be received in estimating any contingent liability accrual. Therefore, an ultimate loss in the insurance coverage litigation without a determination of liability against the Company in the lead pigment or lead-based paint litigation will have no impact on the Company’s results of operation, liquidity or financial condition. As previously stated, however, the Company has not accrued any amounts for the lead pigment or lead-based paint litigation and any significant liability ultimately determined to be attributable to the Company relating to such litigation may result in a material impact on the Company’s results of operations, liquidity or financial condition for the annual or interim period during which such liability is accrued.

Department of Labor (DOL) Leveraged ESOP Settlement. As previously disclosed in the Company’s Current Report on Form 8-K dated February 20, 2013 and in the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2012, on February 20, 2013, the Company reached a settlement with the DOL of the DOL’s investigation of transactions related to the Company’s ESOP that were implemented on August 1, 2006 and August 27, 2003. The DOL had notified the Company, among others, of potential enforcement claims asserting breaches of fiduciary obligations and sought compensatory and equitable remedies. The Company resolved all ESOP related claims with the DOL by agreeing, in part, to make a one-time payment of \$80.0 million to the ESOP, resulting in a \$49.2 million after tax charge to earnings in the fourth quarter of 2012. The Company made this required \$80.0 million payment to the ESOP during the first quarter of 2013.

NOTE 10—OTHER

Other general expense - net

Included in Other general expense - net were the following:

(Thousands of dollars)	Three Months Ended	
	March 31,	
	2013	2012
Provisions for environmental matters—net	\$323	\$5,105
Loss (gain) on disposition of assets	3,496	(121)
Adjustments to prior provisions for qualified exit costs	128	53
Total	\$3,947	\$5,037

Provisions for environmental matters—net represent site-specific increases or decreases to environmental-related accruals as information becomes available upon which more accurate costs can be reasonably estimated and as additional accounting guidelines are issued. Environmental-related accruals are not recorded net of insurance proceeds in accordance with the Offsetting Subtopic of the Balance Sheet Topic of the ASC. See Note 8 for further details on the Company's environmental-related activities.

The loss (gain) on disposition of assets represents net realized losses (gains) associated with the disposal of fixed assets previously used in the conduct of the primary business of the Company.

The adjustments to prior provisions for qualified exit costs represent site specific increases or decreases to accrued qualified exit costs as adjustments for costs of employee terminations are required or as information becomes available upon which more accurate amounts can be reasonably estimated. See Note 6 for further details on the Company's exit or disposal activities.

Other income - net

Included in Other income - net were the following:

(Thousands of dollars)	Three Months Ended	
	March 31,	
	2013	2012
Dividend and royalty income	\$(2,824)	\$(1,250)
Net expense from financing activities	1,898	2,980
Foreign currency transaction related losses (gains)	2,748	(5,078)
Other income	(7,312)	(3,251)
Other expense	2,769	1,612
Total	\$(2,721)	\$(4,987)

The net expense from financing activities includes the net expense relating to the change in the Company's financing fees.

Foreign currency transaction related losses (gains) represent net realized losses (gains) on U.S. dollar-denominated liabilities of foreign subsidiaries and net realized and unrealized losses (gains) from foreign currency option and forward contracts. There were no foreign currency option and forward contracts outstanding at March 31, 2013 and 2012.

Other income and Other expense included items of revenue, gains, expenses and losses that were unrelated to the primary business purpose of the Company. There were no items within the other income or other expense caption that were individually significant.

NOTE 11—INCOME TAXES

The effective tax rate was 31.0 percent for the first quarter of 2013 compared to 29.6 percent for the first quarter of 2012. The increase in the effective tax rate for the first quarter of 2013 compared to 2012 was primarily due to the impact of additional state income tax expense as well as a reduction in tax benefits related to federal income tax credits.

At December 31, 2012, the Company had \$28.1 million in unrecognized tax benefits, the recognition of which would have an effect of \$25.0 million on the current provision for income taxes. Included in the balance of unrecognized tax benefits at December 31, 2012, was \$7.0 million related to tax positions for which it is reasonably possible that the total amounts could significantly change during the next twelve months. This amount represents a decrease in unrecognized tax benefits comprised of items related to federal audits of partnership investments, assessed state income tax audits, state settlement negotiations currently in progress and expiring statutes in federal and foreign jurisdictions.

The Company classifies all income tax related interest and penalties as income tax expense. At December 31, 2012, the Company had accrued \$6.2 million for the potential payment of income tax interest and penalties.

There were no significant changes to any of the balances of unrecognized tax benefits at December 31, 2012 during the first three months of 2013.

On January 2, 2013, the American Taxpayer Relief Act (ATRA) was enacted which retroactively reinstated and extended the Federal Research and Development Tax Credit from January 1, 2012 to December 31, 2013. As a result, the Company recognized a \$2.0 million discrete tax benefit during the first quarter of 2013. The other provisions of the Act will have a negligible impact on the Company's effective tax rate in 2013.

The Company and its subsidiaries file income tax returns in the U.S. federal jurisdiction, and various state and foreign jurisdictions. The IRS commenced an examination of the Company's U.S. income tax returns for the 2008 and 2009 tax years in the third quarter of 2011. Fieldwork is expected to be completed during 2013. At this time, the Company has determined that an insignificant payment is due for issues under review during this audit period. The Company has fully resolved all IRS issues for the 2003 through 2009 tax years relating to the matters challenging the ESOP related federal income tax deductions claimed by the Company. With the exception of \$2.0 million of interest related to the 2008 tax year, all ESOP related settlement payments have been made to the IRS.

As of March 31, 2013, the Company is subject to non-U.S. income tax examinations for the tax years of 2006 through 2012. In addition, the Company is subject to state and local income tax examinations for the tax years 2002 through 2012.

NOTE 12—NET INCOME PER COMMON SHARE

(Thousands of dollars except per share data)

	Three Months Ended March 31,	
	2013	2012
Basic		
Average common shares outstanding	101,961,059	102,070,349
Net income	\$ 116,185	\$ 100,216
Less net income allocated to unvested restricted shares	(639) (782
Net income allocated to common shares	\$ 115,546	\$ 99,434
Basic net income per common share	\$ 1.13	\$.97
Diluted		
Average common shares outstanding	101,961,059	102,070,349
Stock options and other contingently issuable shares ⁽¹⁾	2,295,204	2,387,739
Average common shares outstanding assuming dilution	104,256,263	104,458,088
Net income	\$ 116,185	\$ 100,216
Less net income allocated to unvested restricted shares assuming dilution	(628) (768
Net income allocated to common shares assuming dilution	\$ 115,557	\$ 99,448
Diluted net income per common share	\$ 1.11	\$.95

⁽¹⁾ There were no options excluded due to their anti-dilutive effect for the three months ended March 31, 2013 and March 31, 2012.

The Company has two classes of participating securities: common shares and restricted shares, representing 99% and 1% of outstanding shares, respectively. The restricted shares are shares of unvested restricted stock granted under the Company's restricted stock award program. Unvested restricted shares granted prior to April 21, 2010 received non-forfeitable dividends. Accordingly, the shares are considered a participating security and the two-class method of calculating basic and diluted earnings per share is required. Effective April 21, 2010, the restricted stock award program was revised and dividends on performance-based restricted shares granted after this date are deferred and payment is contingent upon the awards vesting. Only the time-based restricted shares, which continue to receive non-forfeitable dividends, are considered a participating security. Basic and diluted earnings per share are calculated using the two-class method in accordance with the Earnings Per Share Topic of the ASC.

NOTE 13—REPORTABLE SEGMENT INFORMATION

The Company reports segment information in the same way that management internally organizes its business for assessing performance and making decisions regarding allocation of resources in accordance with the Segment Disclosures Topic of the ASC. The Company has determined that it has four reportable operating segments: Paint Stores Group, Consumer Group, Global Finishes Group and Latin America Coatings Group (individually, a "Reportable Segment" and collectively, the "Reportable Segments").

(Thousands of dollars)	Three Months Ended March 31, 2013					
	Paint Stores Group	Consumer Group	Global Finishes Group	Latin America Coatings Group	Administrative	Consolidated Totals
Net external sales	\$1,167,937	\$308,580	\$486,818	\$202,636	\$1,197	\$2,167,168
Intersegment transfers		507,704	1,291	10,221	(519,216)	
Total net sales and intersegment transfers	\$1,167,937	\$816,284	\$488,109	\$212,857	\$(518,019)	\$2,167,168
Segment profit	\$129,713	\$53,972	⁽¹⁾ \$33,931	\$20,839		\$238,455
Interest expense					\$(15,311)	(15,311)
Administrative expenses and other					(54,760)	(54,760)
Income before income taxes	\$129,713	\$53,972	\$33,931	\$20,839	\$(70,071)	\$168,384
	Three Months Ended March 31, 2012					
	Paint Stores Group	Consumer Group	Global Finishes Group	Latin America Coatings Group	Administrative	Consolidated Totals
Net external sales	\$1,123,078	\$320,373	\$483,075	\$208,594	\$1,224	\$2,136,344
Intersegment transfers		503,501	2,330	10,975	(516,806)	
Total net sales and intersegment transfers	\$1,123,078	\$823,874	\$485,405	\$219,569	\$(515,582)	\$2,136,344
Segment profit	\$112,713	\$55,306	⁽¹⁾ \$28,636	\$19,887		\$216,542
Interest expense					\$(10,337)	(10,337)
Administrative expenses and other					(63,890)	(63,890)
Income before income taxes	\$112,713	\$55,306	\$28,636	\$19,887	\$(74,227)	\$142,315

⁽¹⁾ Segment profit includes \$6,170 and \$6,676 of mark-up on intersegment transfers realized as a result of external sales by the Paint Stores Group during the first quarter of 2013 and 2012, respectively.

In the reportable segment financial information, Segment profit was total net sales and intersegment transfers less operating costs and expenses. Domestic intersegment transfers were accounted for at the approximate fully absorbed manufactured cost, based on normal capacity volumes, plus customary distribution costs. International intersegment transfers were accounted for at values comparable to normal unaffiliated customer sales. The Administrative segment includes the administrative expenses of the Company's corporate headquarters site. Also included in the Administrative segment was interest expense, interest and investment income, certain expenses related to closed facilities and environmental-related matters, and other expenses which were not directly associated with the Reportable Segments. The Administrative segment did not include any significant foreign operations. Also included in the Administrative segment was a real estate management unit that is responsible for the ownership, management and leasing of non-retail properties held primarily for use by the Company, including the Company's headquarters site, and disposal of idle facilities. Sales of this segment represented external leasing revenue of excess headquarters space or

leasing of facilities no longer used by the Company in its primary businesses. Gains and losses from the sale of property were not a significant operating factor in determining the performance of the Administrative segment. Net external sales and segment profit of all consolidated foreign subsidiaries were \$516.8 million and \$25.7 million, respectively, for the first quarter of 2013, and \$501.8 million and \$34.8 million, respectively, for the first quarter of 2012. Long-lived assets of these subsidiaries totaled \$767.6 million and \$662.2 million at March 31, 2013 and March 31, 2012, respectively. Domestic operations accounted for the remaining net external sales, segment profits and long-lived assets. No single geographic area outside the United States was significant relative to consolidated net external sales, income before taxes, or consolidated long-lived assets.

Export sales and sales to any individual customer were each less than 10 percent of consolidated sales to unaffiliated customers during all periods presented.

NOTE 14—ACQUISITIONS

On November 9, 2012, the Company entered into a definitive Stock Purchase Agreement to purchase all of the issued and outstanding shares of Consorcio Comex, S.A. de C.V. (Comex) for an aggregate purchase price of approximately \$2.34 billion, including assumed debt. Comex is a leader in the paint and coatings market in Mexico with headquarters in Mexico City. Completion of the transaction is subject to certain conditions and regulatory approvals.

The completed acquisitions below have been accounted for as purchases and their results of operations have been included in the consolidated financial statements since the date of acquisition. Both acquisitions resulted in the recognition of goodwill and intangible assets.

Effective December 18, 2012, the Company acquired Jiangsu Pulanna Coating Co., Ltd. (Pulanna). Headquartered in Changzhou, China, Pulanna is a leading automotive refinishes coatings manufacturer in China. The acquisition strengthens the Global Finishes Group's established presence in China and its ability to serve automotive customers around the world.

Effective June 1, 2012, the Company acquired Geocel Holdings Corporation. Geocel manufactures innovative caulks, sealants, and adhesives specially designed for tough construction and repair applications in commercial, residential, industrial and transport non-automotive markets. Geocel has operations in both the United States and United Kingdom. The acquisition strengthens the Consumer Group's sealant and adhesive market position.

The following unaudited pro-forma summary presents consolidated financial information as if Pulanna and Geocel had been acquired as of the beginning of each period presented. The pro-forma consolidated financial information does not necessarily reflect the actual results that would have occurred had the acquisitions taken place on January 1, 2012 or of future results of operations of Pulanna and Geocel under ownership and operation of the Company.

(Thousands of dollars except per share data)	Three Months Ended	
	March 31, 2013	2012
Net sales	\$2,167,168	\$2,156,852
Net income	116,185	103,240
Net income per common share:		
Basic	\$1.13	\$1.00
Diluted	\$1.11	\$0.98

NOTE 15—FAIR VALUE MEASUREMENTS

The Fair Value Measurements and Disclosures Topic of the ASC applies to the Company's financial and non-financial assets and liabilities. The guidance applies when other standards require or permit the fair value measurement of assets and liabilities. It does not expand the use of fair value measurements. The Company did not have any fair value measurements for its non-financial assets and liabilities during the first quarter. The following table presents the Company's financial assets and liabilities that are measured at fair value on a recurring basis, categorized using the fair value hierarchy:

(Thousands of dollars)

	Fair Value at	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets:				
Deferred compensation plan asset ⁽¹⁾	\$20,520	\$6,118	\$14,402	
Liabilities:				
Deferred compensation plan liability ⁽²⁾	\$30,398	\$30,398		

The deferred compensation plan asset consists of the investment funds maintained for the future payments under
(1) the Company's executive deferred compensation plan, which is structured as a rabbi trust. The investments are marketable

15

securities accounted for under the Debt and Equity Securities Topic of the ASC. The level 1 investments are valued using quoted market prices multiplied by the number of shares. The level 2 investments are valued based on vendor or broker models. The cost basis of the investment funds is \$20,095.

The deferred compensation plan liability is the Company's liability under its executive deferred compensation plan. (2) The liability represents the fair value of the participant shadow accounts, and the value is based on quoted market prices.

NOTE 16—DEBT

The table below summarizes the carrying amount and fair value of the Company's publicly traded debt and non-publicly traded debt in accordance with the Fair Value Measurements and Disclosures Topic of the ASC. The fair values of the Company's publicly traded debt are based on quoted market prices. The fair values of the Company's non-traded debt are estimated using discounted cash flow analyses, based on the Company's current incremental borrowing rates for similar types of borrowing arrangements. The Company's publicly traded debt and non-traded debt are classified as level 1 and level 2, respectively, in the fair value hierarchy.

(Thousands of dollars)	March 31, 2013		March 31, 2012	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Publicly traded debt	\$1,630,125	\$1,705,652	\$632,435	\$701,156
Non-traded debt	5,459	5,277	12,356	11,860

On March 18, 2013, Sherwin-Williams Canada, Inc., a wholly owned subsidiary of the Company, increased the aggregate amount of its existing credit facility to CAD 150 million. The credit facility is being used for general corporate purposes, including refinancing indebtedness and for acquisitions.

NOTE 17—NON-TRADED INVESTMENTS

The Company has invested in the U.S. affordable housing and historic renovation real estate markets. These non-traded investments have been identified as variable interest entities. However, because the Company does not have the power to direct the day-to-day operations of the investments and the risk of loss is limited to the amount of contributed capital, the Company is not considered the primary beneficiary. In accordance with the Consolidation Topic of the ASC, the investments are not consolidated. The Company uses the effective yield method to determine the carrying value of the investments. Under the effective yield method, the initial cost of the investments is amortized over the period that the tax credits are recognized. The carrying amount of the investments, included in Other assets, was \$233.2 million and \$240.4 million at March 31, 2013 and 2012, respectively. The liability for estimated future capital contributions to the investments was \$214.5 million and \$231.3 million at March 31, 2013 and 2012, respectively.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
SUMMARY

The Sherwin-Williams Company, founded in 1866, and its consolidated wholly owned subsidiaries (collectively, the "Company") are engaged in the development, manufacture, distribution and sale of paint, coatings and related products to professional, industrial, commercial and retail customers primarily in North and South America with additional operations in the Caribbean region, Europe and Asia. The Company is structured into four reportable segments—Paint Stores Group, Consumer Group, Global Finishes Group and Latin America Coatings Group (collectively, the "Reportable Segments")—and an Administrative segment in the same way it is internally organized for assessing performance and making decisions regarding allocation of resources. See pages 6 through 15 and Note 18, on pages 74 through 76, in the Company's Annual Report on Form 10-K for the year ended December 31, 2012 for more information concerning the Reportable Segments.

The Company's financial condition, liquidity and cash flow continued to be strong through the first three months of 2013 primarily due to higher paint sales volume in our Paint Stores Group. Net working capital increased \$1.222 billion at March 31, 2013 compared to the end of the first quarter of 2012 due to an increase in cash and cash equivalents and a decrease in short-term borrowings, which was primarily due to the \$700.0 million of 1.35% Senior Notes due 2017 and \$300.0 million of 4.00% Senior Notes due 2042 issued on December 4, 2012. The Company has been able to arrange sufficient short-term borrowing capacity at reasonable rates, and the Company has sufficient total available borrowing capacity to fund its current operating needs. Net operating cash improved \$63.7 million in the first three months of 2013 to a cash usage of \$91.1 million from a cash usage of \$154.8 million in 2012 primarily due to an increase in net income of \$16.0 million, improved working capital management, and a payment to the IRS for the 2011 ESOP settlement of \$59.1 million in the first quarter of 2012 partially offset by a payment to the ESOP for the 2012 DOL settlement of \$80.0 million in the first quarter of 2013.

Consolidated net sales increased 1.4 percent in the first quarter of 2013 to \$2.167 billion from \$2.136 billion in the first quarter of 2012 due primarily to higher paint sales volume in our Paint Stores Group. Consolidated gross profit as a percent of consolidated net sales increased in the first quarter to 44.4 percent from 42.6 percent in 2012 due primarily to increased paint volume, improved operating efficiency and selling price increases. Selling, general and administrative expenses (SG&A) increased as a percent of consolidated net sales to 35.9 percent from 35.5 percent in the first quarter of 2012 due primarily to new store openings and acquisitions. Interest expense increased \$5.0 million in the first quarter of 2013 due to increased long-term debt balances. The effective income tax rate for the first quarter of 2013 was 31.0 percent compared to 29.6 percent in 2012. Diluted net income per common share increased to \$1.11 per share for the first quarter of 2013 from \$.95 per share a year ago.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The preparation and fair presentation of the consolidated unaudited interim financial statements and accompanying notes included in this report are the responsibility of management. The financial statements and footnotes have been prepared in accordance with U.S. generally accepted accounting principles for interim financial statements and contain certain amounts that were based upon management's best estimates, judgments and assumptions that were believed to be reasonable under the circumstances. Management considered the impact of the uncertain economic environment and utilized certain outside sources of economic information when developing the basis for their estimates and assumptions. The impact of the global economic conditions on the estimates and assumptions used by management was believed to be reasonable under the circumstances. Management used assumptions based on historical results, considering the current economic trends, and other assumptions to form the basis for determining appropriate carrying values of assets and liabilities that were not readily available from other sources. Actual results could differ from those estimates. Also, materially different amounts may result under materially different conditions, materially different economic trends or from using materially different assumptions. However, management believes that any materially different amounts resulting from materially different conditions or material changes in facts or circumstances are unlikely to significantly impact the current valuation of assets and liabilities that were not readily available from other sources.

A comprehensive discussion of the Company's critical accounting policies and management estimates and significant accounting policies followed in the preparation of the financial statements is included in Management's Discussion and Analysis of Financial Condition and Results of Operations and in Note 1, on pages 48 through 51, in the Company's Annual Report on Form 10-K for the year ended December 31, 2012. There have been no significant changes in critical accounting policies, management estimates or accounting policies followed since the year ended December 31, 2012.

FINANCIAL CONDITION, LIQUIDITY AND CASH FLOW

Overview

The Company's financial condition, liquidity and cash flow continued to be strong through the first three months of 2013 primarily due to improving domestic architectural paint demand. Net working capital increased \$1.222 billion at March 31, 2013 compared to the end of the first quarter of 2012 due to an increase in cash and cash equivalents and a decrease in short-term borrowings. Cash and cash equivalents increased \$588.4 million, accounts receivable decreased \$4.2 million, inventories decreased \$3.5 million and all other current assets increased \$29.0 million. Short-term borrowings decreased \$608.7 million while accounts payable increased \$23.6 million and all other current liabilities decreased \$27.5 million from March 31, 2012. Net working capital increases were impacted primarily by cash proceeds of long-term debt acquired during the fourth quarter of 2012, increased sales, and decreased short-term borrowing needs. The Company continues to maintain sufficient short-term borrowing capacity at reasonable rates, and the Company has sufficient cash on hand and total available borrowing capacity to fund its current operating needs. In the first three months of 2013, accounts receivable and inventories increased \$191.8 million when normal seasonal trends typically require significant growth in these categories. Accounts payable increased \$100.3 million, primarily due to the seasonal increase in need for working capital, while short-term borrowings decreased \$0.7 million and all other current liabilities decreased \$193.4 million, primarily due to a payment to the ESOP for the 2012 DOL settlement of \$80.0 million and timing of accrued expense payments. The Company's current ratio was 1.73 at March 31, 2013 compared to 1.03 at March 31, 2012 and 1.68 at December 31, 2012. Total debt at March 31, 2013 increased \$382.1 million to \$1.704 billion from \$1.322 billion at March 31, 2012 and increased as a percentage of total capitalization to 48.4 percent from 46.7 percent at the end of the first quarter last year. Total debt decreased \$1.0 million and decreased from 48.8 percent of total capitalization at December 31, 2012. At March 31, 2013, the Company had remaining borrowing ability of \$2.273 billion. Net operating cash improved \$63.7 million in the first three months of 2013 to a cash usage of \$91.1 million from a cash usage of \$154.8 million in 2012. In the twelve month period from April 1, 2012 through March 31, 2013, the Company generated net operating cash of \$871.6 million, including a payment to the ESOP for the 2012 DOL settlement of \$80.0 million in the first quarter of 2013, used \$364.4 million in investing activities, and generated \$3.4 million in financing activities. In that same period, the Company invested \$155.6 million in capital additions and improvements, invested \$99.2 million in acquisitions, made net payments on total debt of \$374.8 million, purchased \$458.4 million in treasury stock and paid \$172.3 million in cash dividends to its shareholders of common stock.

Net Working Capital, Debt and Other Long-Term Assets and Liabilities

Cash and cash equivalents decreased \$248.7 million during the first three months of 2013. Cash and cash equivalents on hand funded cash requirements for increased sales and normal seasonal increases in working capital, capital expenditures of \$31.2 million, net payments made on long-term debt of \$0.3 million, payments of cash dividends of \$51.7 million and treasury stock purchases of \$81.4 million. At March 31, 2013, the Company's current ratio was 1.73 compared to 1.68 at December 31, 2012 and 1.03 a year ago. The increase from a year ago was primarily due to a significant increase in cash and cash equivalents resulting from proceeds received from issuance of long-term debt during the fourth quarter of 2012 and a decrease in short-term borrowings.

Goodwill and intangible assets decreased \$8.0 million from December 31, 2012 and increased \$79.0 million from March 31, 2012. The net decrease during the first three months of 2013 was due primarily to amortization of \$7.7 million and foreign currency translation of \$3.1 million partially offset by capitalization of software of \$3.0 million. The net increase over the twelve month period from March 31, 2012 resulted from acquisitions of \$108.5 million and capitalization of software of \$5.8 million partially offset by amortization of \$28.1 million, impairments of \$4.1 million, and foreign currency translation of \$3.2 million. See Note 4, on pages 52 to 53, in the Company's Annual Report on Form 10-K for the year ended December 31, 2012 for more information concerning goodwill and intangible assets.

Deferred pension assets increased \$0.5 million during the first three months of 2013 and increased \$19.6 million from March 31, 2012. The increase in the last twelve months was due primarily to increases in the fair market value of equity securities held by the Company's defined benefit pension plans. See Note 6, on pages 56 to 62, in the Company's Annual Report on Form 10-K for the year ended December 31, 2012 for more information concerning the Company's

benefit plan assets.

Other assets at March 31, 2013 increased \$12.4 million in the first three months of 2013, due primarily to increased investments in affordable housing and historic renovation real estate properties along with increases in various other investments, and decreased \$3.0 million from a year ago.

Net property, plant and equipment decreased \$11.0 million in the first three months of 2013 and increased \$4.1 million in the twelve months since March 31, 2012. The decrease in the first three months was primarily due to depreciation expense of \$38.9

million, sale or disposition of fixed assets of \$0.7 million and changes in currency translation rates of \$2.6 million partially offset by capital expenditures of \$31.2 million. Since March 31, 2012, capital expenditures of \$155.6 million and acquisitions of \$11.4 million were partially offset by depreciation expense of \$153.2 million, dispositions or sale of assets with remaining net book value of \$9.4 million and changes in currency translation rates of \$0.2 million. Capital expenditures during the first three months of 2013 primarily represented expenditures associated with improvements and normal equipment replacement in manufacturing and distribution facilities in the Consumer Group and normal equipment replacement in the Paint Stores and Global Finishes Groups.

There were no borrowings under the Company's domestic commercial paper program outstanding nor certain other short-term revolving and letter of credit agreements at March 31, 2013. Short-term borrowings outstanding under various foreign programs at March 31, 2013 were \$68.3 million with a weighted average interest rate of 3.0 percent. The Company had unused capacity of \$1.050 billion at March 31, 2013 under the commercial paper program that is backed by the Company's revolving credit agreement. On March 18, 2013, Sherwin-Williams Canada, Inc., a wholly owned subsidiary of the Company, increased the aggregate amount of its existing credit facility to CAD 150 million. The credit facility is being used for general corporate purposes, including refinancing indebtedness and for acquisitions. There were no significant changes in long-term debt during the first quarter of 2013. See Note 7, on pages 62 through 63, in the Company's Annual Report on Form 10-K for the year ended December 31, 2012 for more information concerning the Company's debt.

Long-term liabilities for postretirement benefits other than pensions did not change significantly from December 31, 2012 and increased \$22.1 million from March 31, 2012. The increase in the liability was due to the increase in the actuarially determined postretirement benefit obligation resulting from changes in actuarial assumptions and unfavorable claims experience. See Note 6, on pages 56 to 62, in the Company's Annual Report on Form 10-K for the year ended December 31, 2012 for more information concerning the Company's benefit plan obligations.

Other long-term liabilities at March 31, 2013 increased \$4.1 million in the first three months of 2013 and increased \$1.2 million from a year ago primarily due to acquisitions.

Environmental-Related Liabilities

The operations of the Company, like those of other companies in the same industry, are subject to various federal, state and local environmental laws and regulations. These laws and regulations not only govern current operations and products, but also impose potential liability on the Company for past operations. Management expects environmental laws and regulations to impose increasingly stringent requirements upon the Company and the industry in the future. Management believes that the Company conducts its operations in compliance with applicable environmental laws and regulations and has implemented various programs designed to protect the environment and promote continued compliance.

Depreciation of capital expenditures and other expenses related to ongoing environmental compliance measures were included in the normal operating expenses of conducting business. The Company's capital expenditures, depreciation and other expenses related to ongoing environmental compliance measures were not material to the Company's financial condition, liquidity, cash flow or results of operations during the first three months of 2013. Management does not expect that such capital expenditures, depreciation and other expenses will be material to the Company's financial condition, liquidity, cash flow or results of operations in 2013.

The Company is involved with environmental investigation and remediation activities at some of its currently and formerly owned sites (including sites which were previously owned and/or operated by businesses acquired by the Company). In addition, the Company, together with other parties, has been designated a potentially responsible party under federal and state environmental protection laws for the investigation and remediation of environmental contamination and hazardous waste at a number of third party sites, primarily Superfund sites. The Company may be similarly designated with respect to additional third party sites in the future.

The Company accrues for estimated costs of investigation and remediation activities at its currently and formerly owned sites and third party sites for which commitments or clean-up plans have been developed and when such costs can be reasonably estimated based on industry standards and professional judgment. These estimated costs are based on currently available facts

regarding each site. The Company accrues a specific estimated amount when such an amount and a time frame in which the costs will be incurred can be reasonably determined. If the best estimate of costs can only be identified as a range and no specific amount within that range can be determined more likely than any other amount within the range, the minimum of the range is accrued by the Company in accordance with applicable accounting rules and interpretations. The Company continuously assesses its potential liability for investigation and remediation activities and adjusts its environmental-related accruals as information becomes available upon which more accurate costs can be reasonably estimated. At March 31, 2013 and 2012, the Company had accruals for environmental-related activities of \$110.6 million and \$127.5 million, respectively.

Due to the uncertainties of the scope and magnitude of contamination and the degree of investigation and remediation activities that may be necessary at certain currently or formerly owned sites and third party sites, it is reasonably likely that further extensive investigations may be required and that extensive remedial actions may be necessary not only on such sites but on adjacent properties. Depending on the extent of the additional investigations and remedial actions necessary, the Company's ultimate liability may result in costs that are significantly higher than currently accrued. If the Company's future loss contingency is ultimately determined to be at the maximum of the range of possible outcomes for every site for which costs can be reasonably estimated, the Company's aggregate accruals for environmental-related activities would be \$87.3 million higher than the accruals at March 31, 2013.

Two of the Company's currently and formerly owned sites accounted for the majority of the accruals for environmental-related activities and the unaccrued maximum of the estimated range of possible outcomes at March 31, 2013. At March 31, 2013, \$58.6 million, or 53.0 percent, related directly to these two sites. Of the aggregate unaccrued exposure at March 31, 2013, \$56.5 million, or 64.7 percent, related to the two sites. While environmental investigations and remedial actions are in different stages at these sites, additional investigations, remedial actions and/or monitoring will likely be required at each site. A comprehensive description of the two currently and formerly owned sites that account for the majority of the accruals for environmental-related activities is included in Management's Discussion and Analysis of Financial Condition and Results of Operations in the Company's Annual Report on Form 10-K for the year ended December 31, 2012. There have been no significant changes in the investigative or remedial status of the two sites since December 31, 2012.

Management cannot presently estimate the ultimate potential loss contingencies related to these two sites or other less significant sites until such time as a substantial portion of the investigative activities at each site is completed and remedial action plans are developed.

In accordance with the Asset Retirement Obligations Topic of the ASC, the Company has identified certain conditional asset retirement obligations at various current manufacturing, distribution and store facilities. These obligations relate primarily to asbestos abatement and closures of hazardous waste containment devices. Using investigative, remediation and disposal methods that are currently available to the Company, the estimated cost of these obligations is not significant.

In the event any future loss contingency significantly exceeds the current amount accrued, the recording of the ultimate liability may result in a material impact on net income for the annual or interim period during which the additional costs are accrued. Management does not believe that any potential liability ultimately attributed to the Company for its environmental-related matters or conditional asset retirement obligations will have a material adverse effect on the Company's financial condition, liquidity, or cash flow due to the extended period of time during which environmental investigation and remediation takes place. An estimate of the potential impact on the Company's operations cannot be made due to the aforementioned uncertainties.

Management expects these contingent environmental-related liabilities and conditional asset retirement obligations to be resolved over an extended period of time. Management is unable to provide a more specific time frame due to the indefinite amount of time to conduct investigation activities at any site, the indefinite amount of time to obtain governmental agency approval, as necessary, with respect to investigation and remediation activities, and the indefinite amount of time necessary to conduct remediation activities.

Contractual Obligations, Commercial Commitments and Warranties

Short-term borrowings decreased \$0.7 million to \$68.3 million at March 31, 2013 from \$69.0 million at December 31, 2012. Total long-term debt was \$1.636 billion at March 31, 2013 and December 31, 2012 and \$644.8 million at March 31, 2012. See the Financial Condition, Liquidity and Cash Flow section of this report for more information.

There have been no other significant changes to the Company's contractual obligations and commercial commitments in the first quarter of 2013 as summarized in Management's Discussion and Analysis of Financial Condition and Results of Operations in the Company's Annual Report on Form 10-K for the year ended December 31, 2012.

Changes to the Company's accrual for product warranty claims in the first three months of 2013 are disclosed in Note 5.

Contingent Liabilities

Life Shield Engineered Systems, LLC (Life Shield), a wholly-owned subsidiary of the Company, ceased operations in 2012. Life Shield developed and manufactured blast and fragment mitigating systems. The blast and fragment mitigating systems create a potentially higher level of product liability for the Company (as an owner of and supplier to Life Shield) than is normally associated with coatings and related products currently manufactured, distributed and sold by the Company.

Certain of Life Shield's technology has been designated as Qualified Anti-Terrorism Technology and granted a Designation under the Support Anti-Terrorism by Fostering Effective Technologies Act of 2002 (SAFETY Act) and the regulations adopted pursuant to the SAFETY Act. Under the SAFETY Act, the potentially higher level of possible product liability for Life Shield relating to the technology granted the Designation is limited to \$6.0 million per occurrence in the event any such liability arises from an Act of Terrorism (as defined in the SAFETY Act). The limitation of liability provided for under the SAFETY Act does not apply to any technology not granted a designation or certification as a Qualified Anti-Terrorism Technology, nor in the event that any such liability arises from an act or event other than an Act of Terrorism. Life Shield maintains insurance for liabilities up to the \$6.0 million per occurrence limitation caused by failure of its products in the event of an Act of Terrorism.

Management of the Company has reviewed the potential increased liabilities associated with Life Shield's systems and determined that potential liabilities arising from an Act of Terrorism that could ultimately affect the Company will be appropriately insured or limited by current regulations. However, due to the uncertainties involved in the future development, usage and application of Life Shield's systems, the number or nature of possible future claims and legal proceedings, or the effect that any change in legislation and/or administrative regulations may have on the limitations of potential liabilities, management cannot reasonably determine the scope or amount of any potential costs and liabilities for the Company related to Life Shield or to Life Shield's systems. Any potential liability for the Company that may result from Life Shield or Life Shield's systems cannot reasonably be estimated. However, based upon, among other things, the limitation of liability under the SAFETY Act in the event of an Act of Terrorism, management does not currently believe that the costs or potential liability ultimately determined to be attributable to the Company through its ownership of Life Shield, or as a supplier to Life Shield arising from the use of Life Shield's systems will have a material adverse effect on the Company's results of operations, liquidity or financial conditions.

Litigation

In the course of its business, the Company is subject to a variety of claims and lawsuits, including, but not limited to, litigation relating to product liability and warranty, personal injury, environmental, intellectual property, commercial, contractual and antitrust claims that are inherently subject to many uncertainties regarding the possibility of a loss to the Company. These uncertainties will ultimately be resolved when one or more future events occur or fail to occur confirming the incurrence of a liability or the reduction of a liability. In accordance with the Contingencies Topic of the ASC, the Company accrues for these contingencies by a charge to income when it is both probable that one or more future events will occur confirming the fact of a loss and the amount of the loss can be reasonably estimated. In the event that the Company's loss contingency is ultimately determined to be significantly higher than currently accrued, the recording of the additional liability may result in a material impact on the Company's results of operations, liquidity or financial condition for the annual or interim period during which such additional liability is accrued. In those cases where no accrual is recorded because it is not probable that a liability has been incurred and the amount of any such loss cannot be reasonably estimated, any potential liability ultimately determined to be attributable to the Company may result in a material impact on the Company's results of operations, liquidity or financial condition for the annual or interim period during which such liability is accrued. In those cases where no accrual is recorded or exposure to loss exists in excess of the amount accrued, the Contingencies Topic of the ASC requires disclosure of the contingency when there is a reasonable possibility that a loss or additional loss may have been incurred.

Lead pigment and lead-based paint litigation. The Company's past operations included the manufacture and sale of lead pigments and lead-based paints. The Company, along with other companies, is and has been a defendant in a number of legal proceedings, including individual personal injury actions, purported class actions, and actions brought

by various counties, cities, school districts and other government-related entities, arising from the manufacture and sale of lead pigments and lead-based paints. The plaintiffs' claims have been based upon various legal theories, including negligence, strict liability, breach of warranty, negligent misrepresentations and omissions, fraudulent misrepresentations and omissions, concert of action, civil conspiracy, violations of unfair trade practice and consumer protection laws, enterprise liability, market share liability, public nuisance, unjust enrichment and other theories. The plaintiffs seek various damages and relief, including personal injury and property damage, costs relating to the detection and abatement of lead-based paint from buildings, costs associated with a public education campaign, medical monitoring costs and others. The Company is also a defendant in legal proceedings arising from the manufacture and sale of non-lead-based paints that seek recovery based upon various legal theories, including the failure to adequately warn of potential exposure to lead during surface preparation when using non-lead-based paint on surfaces previously painted with lead-based paint. The Company believes that the litigation brought to date is without merit or subject to

meritorious defenses and is vigorously defending such litigation. The Company has not settled any lead pigment or lead-based paint litigation. The Company expects that additional lead pigment and lead-based paint litigation may be filed against the Company in the future asserting similar or different legal theories and seeking similar or different types of damages and relief.

Notwithstanding the Company's views on the merits, litigation is inherently subject to many uncertainties, and the Company ultimately may not prevail. Adverse court rulings or determinations of liability, among other factors, could affect the lead pigment and lead-based paint litigation against the Company and encourage an increase in the number and nature of future claims and proceedings. In addition, from time to time, various legislation and administrative regulations have been enacted, promulgated or proposed to impose obligations on present and former manufacturers of lead pigments and lead-based paints respecting asserted health concerns associated with such products or to overturn the effect of court decisions in which the Company and other manufacturers have been successful.

Due to the uncertainties involved, management is unable to predict the outcome of the lead pigment and lead-based paint litigation, the number or nature of possible future claims and proceedings, or the effect that any legislation and/or administrative regulations may have on the litigation or against the Company. In addition, management cannot reasonably determine the scope or amount of the potential costs and liabilities related to such litigation, or resulting from any such legislation and regulations. The Company has not accrued any amounts for such litigation. With respect to such litigation, including the public nuisance litigation, the Company does not believe that it is probable that a loss has occurred, and it is not possible to estimate the range of potential losses as there is no prior history of a loss of this nature and there is no substantive information upon which an estimate could be based. In addition, any potential liability that may result from any changes to legislation and regulations cannot reasonably be estimated. In the event any significant liability is determined to be attributable to the Company relating to such litigation, the recording of the liability may result in a material impact on net income for the annual or interim period during which such liability is accrued. Additionally, due to the uncertainties associated with the amount of any such liability and/or the nature of any other remedy which may be imposed in such litigation, any potential liability determined to be attributable to the Company arising out of such litigation may have a material adverse effect on the Company's results of operations, liquidity or financial condition. An estimate of the potential impact on the Company's results of operations, liquidity or financial condition cannot be made due to the aforementioned uncertainties.

Public nuisance claim litigation. The Company and other companies are or were defendants in legal proceedings seeking recovery based on public nuisance liability theories, among other theories, brought by the State of Rhode Island, the City of St. Louis, Missouri, various cities and counties in the State of New Jersey, various cities in the State of Ohio and the State of Ohio, the City of Chicago, Illinois, the City of Milwaukee, Wisconsin and the County of Santa Clara, California and other public entities in the State of California. Except for the Santa Clara County, California proceeding, all of these legal proceedings have been concluded in favor of the Company and other defendants at various stages in the proceedings.

The proceedings initiated by the State of Rhode Island included two jury trials. At the conclusion of the second trial, the jury returned a verdict finding that (i) the cumulative presence of lead pigment in paints and coatings on buildings in the State of Rhode Island constitutes a public nuisance, (ii) the Company, along with two other defendants, caused or substantially contributed to the creation of the public nuisance, and (iii) the Company and two other defendants should be ordered to abate the public nuisance. The Company and two other defendants appealed and, on July 1, 2008, the Rhode Island Supreme Court, among other determinations, reversed the judgment of abatement with respect to the Company and two other defendants. The Rhode Island Supreme Court's decision reversed the public nuisance liability judgment against the Company on the basis that the complaint failed to state a public nuisance claim as a matter of law.

The Santa Clara County, California proceeding was initiated in March 2000 in the Superior Court of the State of California, County of Santa Clara. In the original complaint, the plaintiffs asserted various claims including fraud and concealment, strict product liability/failure to warn, strict product liability/design defect, negligence, negligent breach of a special duty, public nuisance, private nuisance, and violations of California's Business and Professions Code. A number of the asserted claims were resolved in favor of the defendants through pre-trial proceedings. The named plaintiffs in the Fourth Amended Complaint, filed on March 16, 2011, are the Counties of Santa Clara, Alameda, Los

Angeles, Monterey, San Mateo, Solano and Ventura, and the Cities of Oakland, San Diego and San Francisco. The Fourth Amended Complaint asserts a sole claim for public nuisance, alleging that the presence of lead products for use in paint and coatings in, on and around buildings in the plaintiffs' jurisdictions constitutes a public nuisance. The plaintiffs seek the abatement of the alleged public nuisance that exists within the plaintiffs' jurisdictions. A trial is currently scheduled to begin in June 2013.

Litigation seeking damages from alleged personal injury. The Company and other companies are defendants in a number of legal proceedings seeking monetary damages and other relief from alleged personal injuries. These proceedings include claims by children allegedly injured from ingestion of lead pigment or lead-containing paint, claims for damages allegedly incurred by the children's parents or guardians, and claims for damages allegedly incurred by professional painting contractors. These

proceedings generally seek compensatory and punitive damages, and seek other relief including medical monitoring costs. These proceedings include purported claims by individuals, groups of individuals and class actions.

The plaintiff in *Thomas v. Lead Industries Association, et al.*, initiated an action in state court against the Company, other alleged former lead pigment manufacturers and the Lead Industries Association in September 1999. The claims against the Company and the other defendants included strict liability, negligence, negligent misrepresentation and omissions, fraudulent misrepresentation and omissions, concert of action, civil conspiracy and enterprise liability. Implicit within these claims is the theory of “risk contribution” liability (Wisconsin’s theory which is similar to market share liability) due to the plaintiff’s inability to identify the manufacturer of any product that allegedly injured the plaintiff. The case ultimately proceeded to trial and, on November 5, 2007, the jury returned a defense verdict, finding that the plaintiff had ingested white lead carbonate, but was not brain damaged or injured as a result. The plaintiff appealed and, on December 16, 2010, the Wisconsin Court of Appeals affirmed the final judgment in favor of the Company and other defendants.

Wisconsin is the only jurisdiction to date to apply a theory of liability with respect to alleged personal injury (i.e., risk contribution/market share liability) that does not require the plaintiff to identify the manufacturer of the product that allegedly injured the plaintiff in the lead pigment and lead-based paint litigation. Although the risk contribution liability theory was applied during the *Thomas* trial, the constitutionality of this theory as applied to the lead pigment cases has not been judicially determined by the Wisconsin state courts. However, in an unrelated action filed in the United States District Court for the Eastern District of Wisconsin, *Gibson v. American Cyanamid, et al.*, on November 15, 2010, the District Court held that Wisconsin’s risk contribution theory as applied in that case violated the defendants’ right to substantive due process and is unconstitutionally retroactive. The District Court’s decision in *Gibson v. American Cyanamid, et al.*, has been appealed by the plaintiff.

Insurance coverage litigation. The Company and its liability insurers, including certain Underwriters at Lloyd’s of London, initiated legal proceedings against each other to primarily determine, among other things, whether the costs and liabilities associated with the abatement of lead pigment are covered under certain insurance policies issued to the Company. The Company’s action, filed on March 3, 2006 in the Common Pleas Court, Cuyahoga County, Ohio, is currently stayed and inactive. The liability insurers’ action, which was filed on February 23, 2006 in the Supreme Court of the State of New York, County of New York, has been dismissed. An ultimate loss in the insurance coverage litigation would mean that insurance proceeds could be unavailable under the policies at issue to mitigate any ultimate abatement related costs and liabilities. The Company has not recorded any assets related to these insurance policies or otherwise assumed that proceeds from these insurance policies would be received in estimating any contingent liability accrual. Therefore, an ultimate loss in the insurance coverage litigation without a determination of liability against the Company in the lead pigment or lead-based paint litigation will have no impact on the Company’s results of operation, liquidity or financial condition. As previously stated, however, the Company has not accrued any amounts for the lead pigment or lead-based paint litigation and any significant liability ultimately determined to be attributable to the Company relating to such litigation may result in a material impact on the Company’s results of operations, liquidity or financial condition for the annual or interim period during which such liability is accrued.

Department of Labor (DOL) Leveraged ESOP Settlement. As previously disclosed in the Company’s Current Report on Form 8-K dated February 20, 2013 and in the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2012, on February 20, 2013, the Company reached a settlement with the DOL of the DOL’s investigation of transactions related to the Company’s ESOP that were implemented on August 1, 2006 and August 27, 2003. The DOL had notified the Company, among others, of potential enforcement claims asserting breaches of fiduciary obligations and sought compensatory and equitable remedies. The Company resolved all ESOP related claims with the DOL by agreeing, in part, to make a one-time payment of \$80.0 million to the ESOP, resulting in a \$49.2 million after tax charge to earnings in the fourth quarter of 2012. The Company made this required \$80.0 million payment to the ESOP during the first quarter of 2013.

Shareholders’ Equity

Shareholders’ equity increased \$21.2 million to \$1.813 billion at March 31, 2013 from \$1.792 billion at December 31, 2012 and increased \$304.4 million from \$1.509 billion at March 31, 2012. The increase in Shareholders’ equity for the first three months of 2013 resulted primarily from net income of \$116.2 million, an increase in Other capital of \$55.6

million, resulting primarily from stock option exercises, and a decrease in Cumulative other comprehensive loss of \$1.4 million partially offset by purchases of treasury stock of \$81.4 million and cash dividends paid on common stock of \$51.7 million. Since March 31, 2012, net income of \$647.0 million and an increase in Other capital of \$337.6 million more than offset purchases of treasury stock for \$458.4 million, cash dividends paid on common stock of \$172.3 million and an increase in Cumulative other comprehensive loss of \$32.7 million in twelve months. During the first three months of 2013, the Company purchased .50 million shares of its common stock for treasury purposes through open market purchases. The Company purchased 3.30 million shares of its common stock since March 31, 2012 for treasury. The Company acquires its common stock for general corporate purposes, and

depending on its cash position and market conditions, it may acquire additional shares in the future. The Company had remaining authorization at March 31, 2013 to purchase 15.95 million shares of its common stock. At a meeting held on February 13, 2013, the Board of Directors increased the quarterly cash dividend from \$.39 per common share to \$.50 per common share. This quarterly dividend will result in an annual dividend for 2013 of \$2.00 per common share or a 33.2 percent payout of 2012 diluted net income per common share.

Cash Flow

Net operating cash improved \$63.7 million in the first three months of 2013 to a cash usage of \$91.1 million from a cash usage of \$154.8 million in 2012 primarily due to an increase in net income of \$16.0 million, improved working capital management, and a payment to the IRS for the 2011 ESOP settlement of \$59.1 million in the first quarter of 2012 partially offset by a payment to the ESOP for the 2012 DOL settlement of \$80.0 million in the first quarter of 2013. Net investing cash usage increased \$22.0 million in the first three months of 2013 to a usage of \$48.0 million from a usage of \$26.0 million in 2012 primarily due to decreased cash used in other investments. Net financing cash decreased \$283.2 million to a usage of \$107.4 million in the first three months of 2013 from a source of \$175.8 million in 2012 primarily due to net decreases in short-term borrowings of \$328.2 million and decreased proceeds from stock options exercised of \$46.2 million in the first three months of 2013 partially offset by decreases in treasury stock purchases of \$99.4 million. In the twelve month period from April 1, 2012 through March 31, 2013, the Company generated net operating cash of \$871.6 million, including a payment to the ESOP for the 2012 DOL settlement of \$80.0 million in the first quarter of 2013, used \$364.4 million in investing activities, and generated \$3.4 million in financing activities. In that same period, the Company invested \$155.6 million in capital additions and improvements, invested \$99.2 million in acquisitions, made net payments on total debt of \$374.8 million, purchased \$458.4 million in treasury stock and paid \$172.3 million in cash dividends to its shareholders of common stock.

Market Risk

The Company is exposed to market risk associated with interest rate, foreign currency and commodity fluctuations. The Company occasionally utilizes derivative instruments as part of its overall financial risk management policy, but does not use derivative instruments for speculative or trading purposes. In the first three months of 2013, the Company entered into forward currency exchange contracts with maturity dates of less than twelve months to hedge against value changes in foreign currency. The Company believes it may be exposed to continuing market risk from foreign currency exchange rate and commodity price fluctuations. However, the Company does not expect that foreign currency exchange rate and commodity price fluctuations or hedging contract losses will have a material adverse effect on the Company's financial condition, results of operations or cash flows.

Financial Covenant

Certain borrowings contain a consolidated leverage covenant. The covenant states the Company's leverage ratio is not to exceed 3.00 to 1.00. In connection with the new credit facility entered into on July 8, 2011, the leverage ratio for that facility was increased to 3.25 to 1.00. The leverage ratio is defined as the ratio of total indebtedness (the sum of Short-term borrowings, Current portion of long-term debt and Long-term debt) at the reporting date to consolidated "Earnings Before Interest, Taxes, Depreciation, and Amortization" (EBITDA) for the twelve month period ended on the same date. Refer to the "Results of Operations" caption below for a reconciliation of EBITDA to Net income. At March 31, 2013, the Company was in compliance with the covenant. The Company's Notes, Debentures and revolving credit agreements contain various default and cross-default provisions. In the event of default under any one of these arrangements, acceleration of the maturity of any one or more of these borrowings may result. See Note 7, on page 62 and 63, in the Company's Annual Report on Form 10-K for the year ended December 31, 2012 for more information concerning the Company's debt and related covenant.

RESULTS OF OPERATIONS

Shown below are net sales and income before taxes by segment for the first quarter:

(Thousands of dollars)	Three Months Ended			
	March 31, 2013	2012	Change	
Net Sales:				
Paint Stores Group	\$1,167,937	\$1,123,078	4.0	%
Consumer Group	308,580	320,373	-3.7	%
Global Finishes Group	486,818	483,075	0.8	%
Latin America Coatings Group	202,636	208,594	-2.9	%
Administrative	1,197	1,224	-2.2	%
Total	\$2,167,168	\$2,136,344	1.4	%

(Thousands of dollars)	Three Months Ended			
	March 31, 2013	2012	Change	
Income Before Income Taxes:				
Paint Stores Group	\$129,713	\$112,713	15.1	%
Consumer Group	53,972	55,306	-2.4	%
Global Finishes Group	33,931	28,636	18.5	%
Latin America Coatings Group	20,839	19,887	4.8	%
Administrative	(70,071)	(74,227)	5.6	%
Total	\$168,384	\$142,315	18.3	%

Consolidated net sales increased in the first quarter of 2013 due primarily to higher paint sales volume in our Paint Stores Group.

Net sales of all consolidated foreign subsidiaries were up 3.0 percent to \$516.8 million in the quarter versus \$501.8 million in the same period last year. The increase in net sales for all consolidated foreign subsidiaries in the quarter was due primarily to acquisitions, which increased net sales 4.1 percent in the quarter, and selling price increases partially offset by a 3.8 percent negative impact of foreign currency translation rate changes. Net sales of all operations other than consolidated foreign subsidiaries were up 1.0 percent to \$1.650 billion in the quarter as compared to \$1.634 billion in the same period last year.

Net sales in the Paint Stores Group increased due primarily to higher paint sales volume. Net sales from stores open for more than twelve calendar months increased 3.2 percent in the quarter compared to last year's comparable period. Total paint sales volume percentage increases were in the high single digits for the quarter as compared to last year's comparable period. Sales of non-paint products increased by 4.0 percent over last year's first quarter. A discussion of changes in volume versus pricing for sales of products other than paint is not pertinent due to the wide assortment of general merchandise sold. Net sales of the Consumer Group decreased in the first quarter, due primarily to the previously disclosed elimination of a portion of a paint program with a large retail customer partially offset by acquisitions. Net sales in the Global Finishes Group stated in U.S. dollars increased in the first quarter, due primarily to selling price increases and acquisitions partially offset by unfavorable currency translation rate changes.

Acquisitions increased net sales in U.S. dollars by 1.0 percent which offset the impact of unfavorable currency translation rate changes in the quarter. Net sales in the Latin America Coatings Group stated in U.S. dollars decreased in the first quarter, which can primarily be attributed to unfavorable currency translation rate changes partially offset by selling price increases. Currency translation rate changes decreased net sales by 6.6 percent in the quarter. Net sales in the Administrative segment, which primarily consist of external leasing revenue of excess headquarters space and leasing of facilities no longer used by the Company in its primary business, were essentially flat in the first quarter. Consolidated gross profit increased \$53.0 million in the first quarter of 2013 compared to the same period in 2012. As a percent of sales, consolidated gross profit increased to 44.4 percent in the quarter from 42.6 percent in the first quarter of 2012. The percent to sales and dollar increases were primarily due to increased paint sales volume and

selling price increases.

The Paint Stores Group's gross profit was higher than last year by \$37.7 million in the first quarter due to increased paint sales volume. The Paint Stores Group's gross profit margins were higher in the quarter compared to the same period last year. The

25

Consumer Group's gross profit increased by \$2.9 million and gross profit margins increased as a percent of sales for the first quarter compared to the same period last year primarily due to improved operating efficiencies. The Global Finishes Group's gross profit increased \$13.7 million in the first quarter compared to the same period last year, when stated in U.S. dollars, due primarily to selling price increases, acquisitions and improved operating efficiencies partially offset by unfavorable currency translation rate changes. The Global Finishes Group's gross profit margins were up as a percent of sales in the quarter compared to last year primarily due to selling price increases and improved operating efficiencies. The Latin America Coatings Group's gross profit decreased by \$0.8 million in the first quarter from the same period in the prior year, when stated in U.S. dollars, primarily due to unfavorable currency translation rate changes partially offset by selling price increases. The Latin America Coatings Group's gross profit margins were up as a percent of sales for the first quarter as compared to the same period last year primarily due to selling price increases. The Administrative segment's gross profit decreased by an insignificant amount in the first quarter compared to the same period last year.

Selling, general and administrative expenses (SG&A) increased \$21.0 million in the first quarter of 2013 versus last year due primarily to increased expenses to support higher sales levels and net new store openings. As a percent of sales, consolidated SG&A increased to 35.9 percent in the quarter from 35.5 percent in the first quarter of 2012 due to net new store openings.

The Paint Stores Group's SG&A increased \$19.7 million in the first quarter due primarily to net new store openings and general comparable store expenses to support higher sales levels. The Consumer Group's SG&A was up \$4.0 million in the quarter compared to the same period last year primarily due to acquisitions. The Global Finishes Group's SG&A increased \$2.3 million in the quarter primarily due to acquisitions. The Latin America Coatings Group's SG&A decreased \$3.1 million in the first quarter primarily due to currency translation rate changes. The Administrative segment's SG&A decreased by \$1.9 million in the first quarter.

Other general expense—net decreased \$1.1 million in the first quarter. The decrease in the quarter was primarily due to decreased provisions for environmental expenses and a current period loss on disposal of assets both in the Administrative segment.

Other income—net decreased \$2.3 million in the first quarter primarily due to current period foreign currency losses versus prior period foreign currency gains partially offset by increased miscellaneous income both primarily impacting the Global Finishes and Latin America Coatings Groups.

Consolidated income before income taxes increased \$26.1 million in the first quarter due to higher segment profits in Paint Stores, Global Finishes, and Latin America Coatings Groups and decreased expenses in the Administrative segment partially offset by lower segment profits in the Consumer Group.

The effective income tax rate of 31.0 percent for the first quarter of 2013 was higher than the 29.6 percent effective income tax rate for the first quarter of 2012 due primarily to the timing of discrete items.

Net income for the quarter increased \$16.0 million to \$116.2 million from \$100.2 million in the first quarter of 2012. Diluted net income per common share increased 16.8 percent from \$.95 per share in the first quarter of 2012 to \$1.11 per share in the first quarter of 2013.

Management considers a measurement that is not in accordance with U.S. generally accepted accounting principles a useful measurement of the operational profitability of the Company. Some investment professionals also utilize such a measurement as an indicator of the value of profits and cash that are generated strictly from operating activities, putting aside working capital and certain other balance sheet changes. For this measurement, management increases net income for significant non-operating and non-cash expense items to arrive at an amount known as "Earnings Before Interest, Taxes, Depreciation and Amortization" (EBITDA). The reader is cautioned that the following value for EBITDA should not be compared to other entities unknowingly. EBITDA should not be considered an alternative to net income or cash flows from operating activities as an indicator of operating performance or as a measure of liquidity. The reader should refer to the determination of net income and cash flows from operating activities in accordance with U. S. generally accepted accounting principles disclosed in the Statements of Consolidated Income and Statements of Consolidated Cash Flows. EBITDA as used by management is calculated as follows:

(Thousands of dollars)	Three Months Ended	
	March 31,	
	2013	2012
Net income	\$ 116,185	\$ 100,216
Interest expense	15,311	10,337
Income taxes	52,199	42,099
Depreciation	38,892	37,884
Amortization	7,664	6,599
EBITDA	\$ 230,251	\$ 197,135

27

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING INFORMATION

Certain statements contained in “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and elsewhere in this report constitute “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These forward-looking statements are based upon management’s current expectations, estimates, assumptions and beliefs concerning future events and conditions and may discuss, among other things, anticipated future performance (including sales and earnings), expected growth, future business plans and the costs and potential liability for environmental-related matters and the lead pigment and lead-based paint litigation. Any statement that is not historical in nature is a forward-looking statement and may be identified by the use of words and phrases such as “expects,” “anticipates,” “believes,” “will,” “will likely result,” “will continue,” “plans to” and similar expressions.

Readers are cautioned not to place undue reliance on any forward-looking statements. Forward-looking statements are necessarily subject to risks, uncertainties and other factors, many of which are outside the control of the Company, that could cause actual results to differ materially from such statements and from the Company’s historical results and experience. These risks, uncertainties and other factors include such things as: (a) the duration and severity of the current negative global economic and financial conditions; (b) general business conditions, strengths of retail and manufacturing economies and the growth in the coatings industry; (c) competitive factors, including pricing pressures and product innovation and quality; (d) changes in raw material and energy supplies and pricing; (e) changes in the Company’s relationships with customers and suppliers; (f) the Company’s ability to attain cost savings from productivity initiatives; (g) the Company’s ability to successfully integrate past and future acquisitions into its existing operations, including the planned acquisition of Comex and the recent acquisitions of Leighs Paints, Geocel and Jiangsu Pulanna, as well as the performance of the businesses acquired; (h) risks and uncertainties associated with the Company’s ownership of Life Shield Engineered Systems LLC; (i) changes in general domestic economic conditions such as inflation rates, interest rates, tax rates, unemployment rates, higher labor and healthcare costs, recessions, and changing government policies, laws and regulations; (j) risks and uncertainties associated with the Company’s expansion into and its operations in Asia, Europe, Mexico, South America and other foreign markets, including general economic conditions, inflation rates, recessions, foreign currency exchange rates, foreign investment and repatriation restrictions, legal and regulatory constraints, civil unrest and other external economic and political factors; (k) the achievement of growth in foreign markets, such as Asia, Europe, Mexico and South America; (l) increasingly stringent domestic and foreign governmental regulations including those affecting health, safety and the environment; (m) inherent uncertainties involved in assessing the Company’s potential liability for environmental-related activities; (n) other changes in governmental policies, laws and regulations, including changes in accounting policies and standards and taxation requirements (such as new tax laws and new or revised tax law interpretations); (o) the nature, cost, quantity and outcome of pending and future litigation and other claims, including the lead pigment and lead-based paint litigation, and the effect of any legislation and administrative regulations relating thereto; and (p) unusual weather conditions.

Readers are cautioned that it is not possible to predict or identify all of the risks, uncertainties and other factors that may affect future results and that the above list should not be considered to be a complete list. Any forward-looking statement speaks only as of the date on which such statement is made, and the Company undertakes no obligation to update or revise any forward-looking statement, whether as a result of new information, future events or otherwise.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company is exposed to market risk associated with interest rate, foreign currency and commodity fluctuations. The Company occasionally utilizes derivative instruments as part of its overall financial risk management policy, but does not use derivative instruments for speculative or trading purposes. The Company enters into option and forward currency exchange contracts and commodity swaps to hedge against value changes in foreign currency and commodities. The Company believes it may experience continuing losses from foreign currency translation and commodity price fluctuations. However, the Company does not expect currency translation, transaction, commodity price fluctuations or hedging contract losses to have a material adverse effect on the Company's financial condition, results of operations or cash flows. There were no material changes in the Company's exposure to market risk since the disclosure included in Management's Discussion and Analysis of Financial Condition and Results of Operations in the Company's Annual Report on Form 10-K for the year ended December 31, 2012.

Item 4. CONTROLS AND PROCEDURES

As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of our Chairman and Chief Executive Officer and our Senior Vice President—Finance and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures pursuant to Rule 13a-15 and Rule 15d-15 of the Securities Exchange Act of 1934, as amended (“Exchange Act”). Based upon that evaluation, our Chairman and Chief Executive Officer and our Senior Vice President—Finance and Chief Financial Officer concluded that as of the end of the period covered by this report our disclosure controls and procedures were effective to ensure that information required to be disclosed by us in reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms, and accumulated and communicated to our management including our Chairman and Chief Executive Officer and our Senior Vice President—Finance and Chief Financial Officer, to allow timely decisions regarding required disclosure. There were no changes in our internal control over financial reporting identified in connection with the evaluation that occurred during the period covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings.

For information with respect to certain environmental-related matters and legal proceedings, see the information included under the captions entitled “Environmental-Related Liabilities” and “Litigation” of “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and Notes 8 and 9 of the “Notes to Condensed Consolidated Financial Statements,” which is incorporated herein by reference.

31

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

A summary of the repurchase activity for the Company's first quarter is as follows:

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Number of Shares Purchased as Part of a Publicly Announced Plan	Number of Shares That May Yet Be Purchased Under the Plan
January 1 - January 31 Share repurchase program ⁽¹⁾				16,450,000
February 1 - February 28 Share repurchase program ⁽¹⁾	75,000	\$ 156.93	75,000	16,375,000
Employee transactions ⁽²⁾	117,290	165.80		NA
March 1 - March 31 Share repurchase program ⁽¹⁾	425,000	163.93	425,000	15,950,000
Total				
Share repurchase program ⁽¹⁾	500,000	\$ 162.88	500,000	15,950,000
Employee transactions ⁽²⁾	117,290	165.80		NA

(1) All shares were purchased through the Company's publicly announced share repurchase program. The Company had remaining authorization at March 31, 2013 to purchase 15,950,000 shares. There is no expiration date specified for the program. The Company intends to repurchase stock under the program in the future.

(2) All shares were delivered to satisfy the exercise price and/or tax withholding obligations by employees who exercised stock options or had shares of restricted stock vest.

Item 5. Other Information.

During the fiscal quarter ended March 31, 2013, the Audit Committee of the Board of Directors of the Company approved permitted non-audit services to be performed by Ernst & Young LLP, the Company's independent registered public accounting firm. These non-audit services were approved within categories related to domestic advisory tax and tax compliance services and international tax compliance.

33

Item 6. Exhibits.

3 Amended and Restated Articles of Incorporation of the Company, as amended through April 17, 2013, filed as Exhibit 3 to the Company's Current Report on Form 8-K dated April 17, 2013, and incorporated herein by reference.

4 First Amendment Agreement, dated as of March 18, 2013, among Sherwin-Williams Canada Inc., as borrower, the Company, as guarantor, the lenders party thereto, KeyBank National Association, as joint lead arranger, sole book runner and administrative agent, PNC Bank, National Association, as joint lead arranger and syndication agent, and Royal Bank of Canada, as joint lead arranger and documentation agent, filed as Exhibit 4 to the Company's Current Report on Form 8-K dated March 18, 2013, and incorporated herein by reference.
