Independent Auditor's Report

To the Buckeye Investment Committee
Buckeye Retirement Plan
Memphis, Tennessee

We have audited the accompanying statements of net assets available for benefits of Buckeye Retirement Plan as of June 30, 2006 and 2005, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Buckeye Retirement Plan at June 30, 2006 and 2005, and the changes in its net assets available for benefits for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

BUCKEYE RETIREMENT PLAN

Notes to Financial Statements
June 30, 2006 and 2005

Note 1 - Description of Plan

The following description of Buckeye Retirement Plan provides only general information. Readers should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

Buckeye Retirement Plan (the "Plan") is a defined contribution plan covering all full-time employees of Buckeye Technologies Inc. and its wholly-owned subsidiaries (collectively the "Company"). Employees, as defined in the Plan Agreement, are eligible to make employee deferral contributions and rollover contributions to the Plan and receive Company matching contributions upon date of hire in an eligible category of employment. Employees are eligible for the Company foundation contribution upon completion of 1,000 hours of service either during the first twelve months of employment or during any plan year (July 1 to June 30). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may defer up to 100% of their annual compensation and may also contribute a portion or all of incentive compensation, subject to Internal Revenue Service limitations. Effective July 1, 2004, the Plan was restated to discontinue the premium contribution referred to below and to allow the Company to make matching contributions to the Plan equal to 50% of the first 4% of compensation that a participant contributes to the Plan not to exceed \$2,000.

Prior to July 1, 2004, the Company made a premium contribution, determined annually by the Board of Directors, that was based upon the Company's financial performance. As required by the Plan Agreement, subsequent to June 30, 1996, all Company premium contributions were invested in the common stock of Buckeye Technologies Inc. Existing premium contribution account balances based on premium contributions made in prior years shall continue to be held and invested in accordance with the terms of the Plan.

Foundation contributions, as defined in the Plan Agreement, made annually by the Company are computed based upon the following formula:

$$\text{Contribution} = (A+B)C$$

A = 1%, B = .5% multiplied by number of years service not to exceed twenty (20) years. C = Plan year compensation. The minimum contribution is 1½% of eligible compensation and the maximum contribution is 11% of eligible compensation.

Foundation contributions are generally funded in the six month period following the Plan's year end.

Note 1 - Description of Plan (continued)

Participant accounts

Each participant's account is credited with the participant's deferral contribution, the Company's matching contribution, and an allocation of the Company's foundation contributions, plus a proportionate interest in the investment earnings or losses of the funds in which the contributions are invested. Allocations are based upon the participant's eligible compensation or account balances, as defined by the Plan Agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants are immediately vested in their deferral contributions plus earnings thereon. Participants vest in the Company matching contributions and related earnings at the rate of 20% per year, with 100% vesting after completion of five years of credited service. Participants are 100% vested in the Company foundation contributions and related earnings after completion of five years of credited service. In the event of death, disability, normal retirement age (65), or if the Plan is discontinued, participants become 100% vested in all account balances.

Payment of benefits

Participants may choose to receive account distributions either in the form of a lump sum payment or installments over a period of time as defined in the Plan Agreement. However, if the participant's vested balance does not exceed \$1,000, the Plan may distribute funds in the form of a lump sum payment without the consent of the participant.

Forfeitures

If an employee terminates before his or her account has become fully vested, such portion of the account is forfeited. Participant forfeitures are used to reduce future employer contributions. There were no forfeitures used to reduce employer contributions in 2006. Forfeitures used to reduce employer contributions totaled \$51,047 in 2005. Forfeitures used to pay plan expenses totaled \$1,525 in 2006 and \$2,451 in 2005.

Plan termination

Although it has not expressed any intent to do so, the Company has the right to modify or terminate the Plan at any time subject to the provisions of ERISA and the Plan Agreement. In the event of termination, the Plan provides that all affected participants' interests will become fully vested and nonforfeitable.

The Plan purchased \$2,675,160 and sold \$7,001,242 of the plan sponsor's common stock during the year ended June 30, 2006. The Plan, which has been amended since receiving the determination letter, is required to operate in conformity with the IRC to maintain its qualification. Management is not aware of any course of action or series of events that have occurred that might adversely affect the Plan's qualified status.

Note 8 - Concentration of market risk

The Plan has a significant portion of its assets invested in Buckeye Technologies Inc. common stock. This investment in Buckeye Technologies Inc. common stock approximates 12% of the Plan's net assets available for benefits as of June 30, 2006. As a result of this concentration, any significant reduction in the market value of this stock could adversely affect individual participant accounts and the net assets of the Plan.

Pursuant to the requirements of the Securities Exchange Act of 1934, the Retirement Plan Committee of the Employee Retirement Plans for Buckeye Technologies Inc. has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
