## SIFCO Industries, Inc. and Subsidiaries

## Notes to Unaudited Consolidated Condensed Financial Statements

(Amounts in thousands, except per share data)

## 1. Summary of Significant Accounting Policies

## A. Principles of Consolidation

The accompanying unaudited consolidated condensed financial statements include the accounts of SIFCO Industries, Inc. and its wholly-owned subsidiaries (the "Company"). All significant intercompany accounts and transactions have been eliminated.

The U.S. dollar is the functional currency for all of the Company's U.S. operations and its Irish subsidiary. For these operations, all gains and losses from completed currency transactions are included in income currently. Foreign currency translation adjustments are reported as a component of accumulated other comprehensive loss in the unaudited consolidated condensed financial statements.

These unaudited consolidated condensed financial statements should be read in conjunction with the consolidated financial statements and related notes included in the Company's fiscal 2013 Annual Report on Form 10-K. The results of operations for any interim period are not necessarily indicative of the results to be expected for other interim periods or the full year.

## B. Net Income per Share

The Company's net income per basic share has been computed based on the weighted-average number of common shares outstanding. Net income per diluted share reflects the effect of the Company's outstanding stock options, restricted shares and performance shares under the treasury stock method. The dilutive effect of the Company's stock options, restricted shares and performance shares were as follows:

	Three Months Ended June 30,		Nine Months Ended June 30,	
	2014	2013	2014	2013

C. Derivative Financial Instruments

The Company uses an interest rate swap agreement to reduce risk related to variable-rate debt, which is subject to changes in market rates of interest. The interest rate swap is designated as a cash flow hedge. At June 30, 2014 and at September 30, 2013, the Company held one interest rate swap agreement with a notional amount of \$4,500 and \$6,000, respectively. Cash flows related to the interest rate swap agreement are included in interest expense. The Company's interest rate swap agreement and its variable-rate term debt are based upon LIBOR. During the first nine months of fiscal 2014, the Company's interest rate swap agreement qualified as a fully effective cash flow hedge against the Company's variable-rate term note interest risk.

D. Impact on Newly Issued Accounting Standards Not Yet Adopted

In April 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standard Update ("ASU") 2014-08, "Presentation of Financial Statements and Property, Plant, and Equipment — Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity," which revises what qualifies as a discontinued operation, changes the criteria for determining which disposals can be presented as discontinued operations and modifies related disclosure requirements. This ASU will be effective for the Company for applicable transactions occurring after October 1, 2015. The Company will prospectively apply the guidance to applicable transactions. In May 2014, the FASB issued ASU 2014-09, "Revenue from Contracts with Customers," which clarifies existing accounting literature relating to how and when a company recognizes revenue. Under ASU 2014-09, a company will recognize revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods and services. ASU 2014-09 will be effective for the Company October 1, 2017. The Company is in the process of determining what impact, if any, the adoption of this ASU will have on its financial position, results of operations and cash flows.

In June 2014, the FASB issued ASU 2014-12, "Compensation – Stock Compensation," which requires that a performance target that affects vesting and that could be achieved after the requisite service period be treated as a performance condition. Compensation cost should be recognized in the period in which it becomes probable that the performance target will be achieved and should represent the compensation cost attributable to the period(s) for which the requisite service has already been rendered. If the performance target becomes probable of being achieved before the end of the requisite service period, the remaining unrecognized compensation cost should be recognized prospectively over the remaining requisite service period. The total amount of compensation cost recognized during and after the requisite service period should reflect the number of awards that are expected to vest and should be adjusted to reflect those awards that ultimately vest. The requisite service period ends when the employee is able to cease rendering service and still be eligible to vest in the award if the performance target is achieved. The ASU will be effective for the Company October 1, 2016. The Company will prospectively apply the guidance to applicable transactions.

E. Reclassifications

Certain prior period amounts were reclassified to conform to the current consolidated financial statement presentation.

2. Inventories

Inventories consist of:

	June 30, 2014	September 30, 2013
Raw materials and supplies	\$6,176	\$5,906
Work-in-process	8,299	7,049
Finished goods	7,987	5,385
Total inventories	\$22,462	\$18,340

Inventories are stated at the lower of cost or market. Cost is determined using the last-in, first-out ("LIFO") method for 42.1% and 35.8% of the Company's inventories at June 30, 2014 and September 30, 2013, respectively. The first-in, first-out ("FIFO") method is used for the remainder of the inventories. If the FIFO method had been used for the inventories for which cost is determined using the LIFO method, inventories would have been \$7,731 and \$7,977 higher than reported at June 30, 2014 and September 30, 2013, respectively.

3. Goodwill and Intangible Assets

The Company's intangible assets by major asset class subject to amortization consist of:

June 30, 2014	Estimated Useful Life	Original Cost	Accumulated Amortization	Net Book Value
Intangible assets:				
Trade name	10 years	\$2,000	\$596	\$1,404

Transition services	< 1 year	23	23	—
Total intangible assets		\$20,523	\$6,872	\$13,651

The amortization expense on identifiable intangible assets for the nine months ended June 30, 2014 and 2013 was \$1,635 and \$1,544, and \$545 and \$492 during the third quarter of fiscal 2014 and 2013, respectively. Amortization expense associated with the identified intangible assets is expected to be as follows:

	Amortization Expense
Fiscal year 2014	\$2,161
Fiscal year 2015	2,080
Fiscal year 2016	1,854
Fiscal year 2017	1,617
Fiscal year 2018	1,596

The Company's goodwill is not being amortized and is subject to annual impairment tests. All of the goodwill is expected to be deductible for tax purposes. Changes in the net carrying amount of goodwill were as follows:

Balance at September 30, 2013	\$7,620
Goodwill purchase price adjustment	38
Balance at June 30, 2014	\$7,658

#### 4. Accumulated Other Comprehensive Loss

The components of accumulated other comprehensive loss are as follows:

	June 30, 2014	September 30, 2013
Foreign currency translation adjustment, net of tax	\$(5,851 )	\$(5,851 )
Retirement plan liability adjustment, net of tax	(3,527 )	(3,866 )
Interest rate swap agreement adjustment, net of tax	1	(26 )
Total accumulated other comprehensive loss	\$(9,377 )	\$(9,743 )

## 5. Long-Term Debt

Long-term debt consists of:

	June 30, 2014	September 30, 2013
Revolving credit agreement	\$2,004	\$3,381
Term loan	4,500	6,000
Promissory Note	—	2,392
	6,504	11,773
Less – current maturities	2,000	4,392
Total long-term debt	\$4,504	\$7,381

In October 2011, the Company entered into an amendment to its existing credit agreement (the “Credit Agreement Amendment”) with its bank increasing the maximum borrowing amount from \$30,000 to \$40,000, of which \$10,000 is a five (5) year term loan and \$30,000 is a five (5) year revolving loan, secured by substantially all of the assets of the Company and its U.S. subsidiaries and a pledge of 65% of the stock of its Irish subsidiary. The term loan is repayable in quarterly installments of \$500 starting December 1, 2011.

The term loan has a LIBOR-based variable interest rate that was 2.2% at June 30, 2014. This rate becomes an effective fixed rate of 2.9% after giving effect to an interest rate swap agreement.

Borrowing under the revolving loan bears interest at a rate equal to LIBOR plus 0.75% to 1.75%, which percentage fluctuates based on the Company’s leverage ratio of outstanding indebtedness to EBITDA. At June 30, 2014, the interest rate was 1.0%. The loans are subject to certain customary financial covenants including, without limitation, covenants that require the Company to not exceed a maximum leverage ratio and to maintain a minimum fixed charge coverage ratio. There is also a commitment fee ranging from 0.10% to 0.25% to be incurred on the unused balance.

The Company was in compliance with all applicable loan covenants as of June 30, 2014.

In connection with the purchase of the forging business and substantially all related operating assets from GEL Industries, Inc. (DBA Quality Aluminum Forge) (“QAF”), the Company issued a non-interest bearing promissory note to the seller, which note was paid by the Company in November 2013. The imputed interest rate used to discount the note was 2.0% per annum.

## 6. Income Taxes

For each interim reporting period, the Company makes an estimate of the effective tax rate it expects to be applicable for the full fiscal year for its continuing operations. This estimated effective rate is used in providing for income taxes on a year-to-date basis. The Company’s effective tax rate through the first nine months of fiscal 2014 was 29%, compared to 32% for the same period of fiscal 2013, and differs from the U.S. federal statutory rate due primarily to (i) application of foreign tax credits and other U.S. credits, (ii) the impact of U.S. state and local income taxes, (iii) a domestic production activities deduction, and (iv) the decrease in the reserve for uncertain tax positions.

The effective rate for the first nine months of fiscal 2014 reflects a \$158 foreign tax credit related to prior years and a \$110 decrease in the reserve for uncertain tax positions, compared to the comparable period in fiscal 2013.

In September 2013, the Internal Revenue Service issued final regulations governing the income tax treatment of acquisitions, dispositions, and repairs of tangible property. Taxpayers are required to follow the new regulations in taxable years beginning on or after January 1, 2014. Management is currently assessing the impact of the regulations and does not expect they will have a material impact on the Company’s consolidated financial statements.

The Company is subject to income taxes in the U.S. federal jurisdiction, and various states, local and non-U.S. jurisdictions. The Company believes it has appropriate support for its federal income tax returns. The Company is no longer subject to U.S. federal, state and local income tax examinations by tax authorities for fiscal years prior to 2008 or non-U.S. income tax examinations by tax authorities for fiscal years prior to 2006.

At June 30, 2014 and September 30, 2013, the Company recorded liabilities of \$67 and \$177, respectively, for uncertain tax positions and any related interest and penalties. The Company classifies any interest and penalties related to uncertain tax positions in income tax expense. A summary of activity related to the Company’s uncertain tax positions is as follows:

Edgar Filing: SIFCO INDUSTRIES INC - Form 10-Q

Balance at September 30, 2013	\$177	
Decrease due to tax positions effectively settled	(110	)
Balance at June 30, 2014	\$67

## 7. Retirement Benefit Plans

The Company and certain of its subsidiaries sponsor defined benefit pension plans covering most of its employees. The components of net periodic benefit cost of the Company's defined benefit plans are as follows:

	Three Months Ended June 30,		Nine Months Ended June 30,	
	2014	2013	2014	2013
Service cost	\$31	\$72	\$94	\$216
Interest cost	247	212	740	638
Expected return on plan assets	(393	) (371	) (1,180	) (1,114
Amortization of prior service cost	—	13	—	39
Amortization of net loss	112	219	337	656
Settlement cost	—	191	—	382
Net periodic (benefit) cost	\$(3	) \$336	\$(9	) \$817

During the nine months ended June 30, 2014 and 2013, the Company has made contributions in the amount of \$382 and \$670, respectively to its defined benefit pension plans. The Company anticipates making \$127 of additional contributions to fund its defined benefit pension plans during the balance of fiscal 2014.

## 8. Stock-Based Compensation

In previous periods, the Company awarded stock options under its shareholder approved 1995 Stock Option Plan ("1995 Plan") and 1998 Long-Term Incentive Plan ("1998 Plan"). No further options may be awarded under either the 1995 Plan or the 1998 Plan. The option exercise price is not less than fair market value on date of grant and options are exercisable no later than ten years from date of grant. All options awarded under both plans are fully vested as of June 30, 2014.

At June 30, 2014 and 2013, there was no unrecognized compensation cost related to the stock options granted under the Company's stock option plans. There was no compensation expense related to stock options recognized in the nine months ended June 30, 2014 and 2013. As of June 30, 2014, all options have been exercised.

The Company has awarded performance and restricted shares under its shareholder approved 2007 Long-Term Incentive Plan ("2007 Plan"). The aggregate number of shares that may be awarded under the 2007 Plan is 600 less any shares previously awarded and subject to an adjustment for the forfeiture of any unissued shares. In addition, shares that may be awarded are subject to individual recipient award limitations. The shares awarded under the 2007 Plan may be made in multiple forms including stock options, stock appreciation rights, restricted or unrestricted stock, and performance related shares. Any such awards are exercisable no later than ten years from the date of the grant. The performance shares that have been awarded under the 2007 Plan generally provide for the issuance of the Company's common shares upon the Company achieving certain defined financial performance objectives during a period up to three years following the making of such award. The ultimate number of common shares of the Company that may be earned pursuant to an award ranges from a minimum of no shares to a maximum of 150% of the initial target number of performance shares awarded, depending on the level of the Company's achievement of its financial performance objectives.

With respect to such performance shares, compensation expense is being accrued. During each future reporting period, such expense may be subject to adjustment based upon the Company's financial performance, which impacts the number of common shares that it expects to issue upon the completion of the performance period. The performance shares were valued at the closing market price of the Company's common shares on the date of grant. The vesting of such shares is determined at the end of the performance period.

During the first nine months of fiscal 2014, the Company granted 68 performance share awards under the 2007 Plan with a grant date fair value of \$26.50 per share. The shares vest over a three year performance period. The Company terminated one of its performance share awards under the 2007 Plan that consisted of 45 performance share awards with a fair value of \$16.03 per share. The Company granted a replacement award for 43 performance shares under the 2007 Plan with a grant date fair value of \$26.50 per share. The shares vest over a two year performance period.

The Company has awarded restricted shares to its directors, officers, and other employees of the Company. The restricted shares were valued at the closing market price of the Company's common shares on the date of grant, and such value was recorded as unearned compensation. The unearned compensation is being amortized ratably over the

restricted stock vesting period of one (1) year.

10

---

During the first nine months of fiscal 2014, the Company granted 18 restricted shares under the 2007 Plan with a grant date fair value of \$22.02 per share. The Company granted an additional 10 restricted shares under the 2007 Plan with a grant date fair value of \$31.12 per share. The shares vest over a one year service period.

If all outstanding share awards are ultimately earned and issued at the target number of shares, there are approximately 290 shares that remain available for award at June 30, 2014. If any of the outstanding share awards are ultimately earned and issued at greater than the target number of shares, up to a maximum of 150% of such target, then a fewer number of shares would be available for award.

Stock-based compensation under the 2007 Plan was \$1,051 and \$515 during the first nine months of fiscal 2014 and 2013 and \$498 and \$148 during the third quarter of fiscal 2014 and 2013, respectively. As of June 30, 2014, there was \$2,514 of total unrecognized compensation cost related to the performance and restricted shares awarded under the 2007 Plan. The Company expects to recognize this cost over the next 2.3 years.

#### 9. Business Acquisition

On July 23, 2013, SIFCO Industries, Inc.'s subsidiary completed the purchase of the forging business and substantially all related operating assets from MW General, Inc. (DBA General Aluminium Forgings). The forging business is operated in General Aluminum Forgings, LLC's ("GAF") Colorado Springs, Colorado facility, which is leased. The purchase price for the business and related assets of GAF was approximately \$4,400, after certain adjustments related principally to the final working capital level.

The GAF purchase transaction was accounted for under the purchase method of accounting. The Company has completed the purchase accounting related to the GAF acquisition.

The results of operations of GAF are included in the Company's unaudited consolidated condensed statements of operations for the three months ended and nine months ended June 30, 2014. The following unaudited pro forma information presents a summary of the results of operations for the Company including GAF as if the acquisition had occurred on October 1, 2012:

	Three Months Ended June 30, 2013	Nine Months Ended June 30, 2013
Net sales	\$30,123	\$88,343
Net income	\$2,457	\$7,270
Net income per share (basic)	\$0.46	\$1.36
Net income per share (diluted)	\$0.45	\$1.35

#### 10. Discontinued Operations, Assets Held for Sale, and Business Divestiture

As part of the Company's strategy to focus on its core competencies in the Aerospace and Energy ("A&E") market, the Company decided to exit the Turbine Component Service and Repair ("Repair Group") business in the fourth quarter of fiscal 2013.

Edgar Filing: SIFCO INDUSTRIES INC - Form 10-Q

The table below presents the components of the balance sheet accounts classified as assets and liabilities held for sale at June 30, 2014 and September 30, 2013, respectively.

	June 30, 2014	September 30, 2013

As the Company exited the Repair Group, the Company recognized \$959 in workforce reduction costs of which \$274 was incurred in the first nine months of fiscal 2014 and \$701 was paid as of June 30, 2014.

On December 10, 2012, the Company completed the divestiture of its Applied Surface Concepts ("ASC") business. There were no assets or liabilities held for sale at June 30, 2014 and September 30, 2013.

The financial results of ASC included in discontinued operations were as follows:

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Management's Discussion and Analysis of Financial Condition and Results of Operations may contain various forward-looking statements and includes assumptions concerning the Company's operations, future results and prospects. These forward-looking statements are based on current expectations and are subject to risk and uncertainties. In connection with the "safe harbor" provisions

of the Private Securities Litigation Reform Act of 1995, the Company provides this cautionary statement identifying important economic, political and technological factors, among others, the absence or effect of which could cause the actual results or events to differ materially from those set forth in or implied by the forward-looking statements and related assumptions. Such factors include the following: (1) the impact on business conditions in general, and on the demand for product in the Aerospace and Energy ("A&E") industries in particular, of the global economic outlook, including the continuation of military spending at or near current levels and the availability of capital and liquidity from banks and other providers of credit; (2) future business environment, including capital and consumer spending; (3) competitive factors, including the ability to replace business which may be lost; (4) metals and commodities price increases and the Company's ability to recover such price increases; (5) successful development and market introduction of new products and services; (6) continued reliance on consumer acceptance of regional and business aircraft; (7) continued reliance on military spending, in general, and/or several major customers, in particular, for revenues; (8) the impact on future contributions to the Company's defined benefit pension plans due to changes in actuarial assumptions, government regulations and the market value of plan assets; (9) stable governments, business conditions, laws, regulations and taxes in economies where business is conducted; and (10) the ability to successfully integrate businesses that may be acquired into the Company's operations.

The Company and its subsidiaries engage in the production and sale of a variety of metalworking processes, services and products produced primarily to the specific design requirements of its customers. The processes and services include both conventional and precision forging, heat-treating, coating, welding, and precision component machining. The products include conventional and precision forged components, machined forged components, other machined metal components, and remanufactured component parts for turbine engines. The Company operates under one business segment: SIFCO Forged Components.

The Company endeavors to plan and evaluate its business operations while taking into consideration certain factors including the following: (i) the projected build rate for commercial; business and military aircraft as well as the engines that power such aircraft; (ii) the projected build rate for industrial gas turbine engines; (iii) the projected maintenance, repair and overhaul schedules for commercial, business and military aircraft as well as the engines that power such aircraft; and (iv) anticipated exploration and production activities relative to oil and gas products. The Company operates within a cost structure that includes a significant fixed component. Therefore, higher net sales volumes are expected to result in greater operating income because such higher volumes allow the business operations to better leverage the fixed component of their respective cost structures. Conversely, the opposite effect is expected to occur at lower net sales and related production volumes.

#### A. Results of Operations

##### Non-GAAP Financial Measures

Presented below is certain financial information based on our EBITDA and Adjusted EBITDA. References to "EBITDA" mean earnings from continuing operations before interest, taxes, depreciation and amortization, and references to "Adjusted EBITDA" mean EBITDA plus, as applicable for each relevant period, certain adjustments as set forth in the reconciliations of net income to EBITDA and Adjusted EBITDA.

Neither EBITDA nor Adjusted EBITDA is a measurement of financial performance under generally accepted accounting principles in the United States of America ("GAAP"). The Company presents EBITDA and Adjusted EBITDA because it believes that they are useful indicators for evaluating operating performance and liquidity, including the Company's ability to incur and service debt and it uses EBITDA to evaluate prospective acquisitions. Although the Company uses EBITDA and Adjusted EBITDA for the reasons noted above, the use of these non-GAAP financial measures as analytical tools has limitations. Therefore, reviewers of the Company's financial information should not consider them in isolation, or as a substitute for analysis of the Company's results of operations as reported in accordance with GAAP. Some of these limitations include:

• Neither EBITDA nor Adjusted EBITDA reflects the interest expense, or the cash requirements necessary to service interest payments, on indebtedness;

Although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future, and neither EBITDA nor Adjusted EBITDA reflects any cash requirements for such replacements;

The omission of the substantial amortization expense associated with the Company's intangible assets further limits the usefulness of EBITDA and Adjusted EBITDA; and

Neither EBITDA nor Adjusted EBITDA includes the payment of taxes, which is a necessary element of operations. Because of these limitations, EBITDA and Adjusted EBITDA should not be considered as measures of discretionary cash available to the Company to invest in the growth of its businesses. Management compensates for these limitations by not viewing EBITDA or Adjusted EBITDA in isolation and specifically by using other GAAP measures, such as net income, net sales, and operating

profit, to measure operating performance. Neither EBITDA nor Adjusted EBITDA is a measurement of financial performance under GAAP, and neither should be considered as an alternative to net income or cash flow from operations determined in accordance with GAAP. The Company's calculation of EBITDA and Adjusted EBITDA may not be comparable to the calculation of similarly titled measures reported by other companies.

The following table sets forth a reconciliation of net income to EBITDA and Adjusted EBITDA:

#### Overview

The Company exited two reportable segments: Applied Surface Concepts ("ASC") business in December, 2012 and Turbine Components Services and Repair ("Repair Group") business in September, 2013. The Company completed the purchase of the forging business and substantially all related operating assets from MW General, Inc. (DBA General Aluminium Forgings) in July, 2013. The Company's results for the first nine months of fiscal 2014 include

the results of General Aluminum Forgings ("GAF").

Net Sales

Net sales for the first nine months of fiscal 2014 increased 3.1% to \$86.7 million, compared to \$84.1 million in the comparable period of fiscal 2013. The Company produces forged components for (i) turbine engines that power commercial, business and regional aircraft, as well as military aircraft and armored military vehicles; (ii) airframe applications for a variety of aircraft;

14

---

(iii) industrial gas turbine engines for power generation units; and (iv) other commercial applications. Net sales comparative information for the first nine months of fiscal 2014 and 2013 is as follows:

(Dollars in millions)	Nine Months Ended		Increase (Decrease)
	June 30, 2014	2013	
Net Sales			
Aerospace components for:			
Fixed wing aircraft	\$44.7	\$41.4	\$3.3
Rotorcraft	23.4	25.0	(1.6 )
Energy components for power generation units	13.4	14.6	(1.2 )
Commercial product and other revenue	5.2	3.1	2.1
Total	\$86.7	\$84.1	\$2.6

Overall, net sales for the Company increased \$2.6 million in the first nine months of fiscal 2014 compared to the comparable period of fiscal 2013. The increase in fixed wing aircraft sales, due primarily to the acquisition of GAF, were partially offset by lower rotorcraft sales, resulting from decreased demand in the Black Hawk and V-22 military rotorcraft programs. The Company's lower energy components sales were due to the timing of sales to a major customer. The Company's higher commercial products and other revenue sales were due to sales related to a new ordnance program.

Commercial net sales were 55.4% of total net sales and military net sales were 44.6% of total net sales in the first nine months of fiscal 2014, compared to 52.0% and 48.0%, respectively, in the comparable period in fiscal 2013. Lower sales of the Company's energy components impacted commercial net sales for the first nine months of fiscal 2014. Military net sales decreased \$1.6 million to \$38.7 million in the first nine months of fiscal 2014, compared to \$40.3 million in the comparable period of fiscal 2013. This was due primarily to the decline in military rotorcraft sales, which was partially offset by an increase in sales due to a new ordnance program.

#### Cost of Goods Sold

Cost of goods sold increased by \$3.0 million, or 4.7%, to \$67.7 million during the first nine months of fiscal 2014, compared to \$64.6 million in the comparable period of fiscal 2013, primarily due to an increase in net sales and higher overhead expenses, principally related to employee benefits.

#### Gross Profit

Gross profit decreased \$0.5 million to \$19.0 million during the first nine months of fiscal 2014, compared to \$19.5 million in the comparable period of fiscal 2013.

#### Selling, General and Administrative Expenses

Selling, general and administrative expenses were \$11.0 million, or 12.6% of net sales, during the first nine months of fiscal 2014, compared to \$9.6 million, or 11.4% of net sales, in the comparable period of fiscal 2013. The first nine months of fiscal 2013 included a \$0.8 million non-recurring severance payment to a former executive. Excluding this charge, selling, general and administrative expenses increased by \$2.2 million, primarily due to increases in legal and professional costs associated with the Company's SOX readiness, increased compensation and benefit costs due to increased headcount and higher Long-Term Incentive compensation, an increase in depreciation expense due to accelerating depreciation on certain computer assets targeted to be replaced by an upcoming Enterprise Resource Planning ("ERP") system installation, and the addition of GAF.

#### Amortization of Intangibles

Amortization of intangibles was \$1.6 million during the first nine months of fiscal 2014, compared to \$1.5 million in the comparable period of fiscal 2013.

#### Other/General

The following table sets forth the weighted average interest rates and weighted average outstanding balances under the Company's debt agreement in the first nine months of both fiscal 2014 and 2013:

	Weighted Average Interest Rate Nine Months Ended June 30,		Weighted Average Outstanding Balance Nine Months Ended June 30,	
	2014	2013	2014	2013
Revolving credit agreement	1.0	% 1.2	% \$ 1.5 million	\$ 4.3 million
Term note	2.9	% 2.9	% \$ 5.2 million	\$ 7.3 million
Promissory note	2.0	% 2.0	% \$ 0.5 million	\$ 2.4 million

Other income, net consists principally of \$0.3 million of rental income earned from the lease of the Company's Cork, Ireland facility.

Income Taxes

The Company's effective tax rate in the first nine months of fiscal 2014 was 29%, compared to 32% in the comparable period in fiscal 2013. The first nine months of fiscal 2014 was favorably impacted by \$158 foreign tax credits related to prior year. The Company's effective tax rate differs from the U.S. federal statutory rate due primarily to (i) application of tax credits, (ii) the impact of U.S. state and local taxes, (iii) domestic production activities deduction, and (iv) the decrease in the reserve for uncertain tax positions.

#### Income from Continuing Operations

Income from continuing operations, net of tax was \$4.6 million, or 5.4% of net sales, during the first nine months of fiscal 2014, compared to \$5.8 million, or 6.9% of net sales, in the comparable period of fiscal 2013.

#### (Loss)/Income from Discontinued Operations

Loss from discontinued operations, net of tax, was \$0.4 million during the first nine months of fiscal 2014, compared to income from discontinued operations, net of tax, of \$1.5 million in the comparable period of fiscal 2013. This line item consists of income from discontinued operations related to ASC and the Repair Group.

The loss in fiscal 2014 is due to certain minimal continued operating costs associated with the closure of the Repair Group in the first quarter of fiscal 2014. The gain in fiscal 2013 is primarily due to the after-tax gain of \$2.5 million on the sale of ASC during the first quarter of fiscal 2013.

#### Net Income

Net income decreased by \$3.0 million to \$4.3 million, or 4.9% of net sales, during the first nine months of fiscal 2014, compared to net income of \$7.3 million, or 8.7% of net sales, in the comparable period of fiscal 2013. Net income decreased primarily due to discontinued operations and higher selling, general and administrative expenses as noted above.

Three Months Ended June 30, 2014 compared with Three Months Ended June 30, 2013

#### Net Sales

Net sales for the third quarter of fiscal 2014 increased 8.1% to \$31.0 million, compared to \$28.7 million in the comparable period of fiscal 2013. Net sales comparative information for the third quarter of fiscal 2014 and 2013 is as follows:

(Dollars in millions)	Three Months Ended		Increase (Decrease)
	June 30, 2014	2013	
Net Sales			
Aerospace components for:			
Fixed wing aircraft	\$15.7	\$13.6	\$2.1
Rotorcraft	8.0	8.7	(0.7)
Energy components for power generation units	5.4	4.9	0.5
Commercial product and other revenue	1.9	1.5	0.4
Total	\$31.0	\$28.7	\$2.3

Overall, net sales for the Company increased \$2.3 million in the third quarter of fiscal 2014 compared to the comparable period of fiscal 2013. The Company's higher fixed wing aircraft sales were due primarily to the acquisition of GAF. The Company's lower rotorcraft sales were due primarily to a decrease in demand in the Black Hawk and V-22 military rotorcraft programs. The Company's higher commercial products and other revenue sales were due to sales related to a new ordnance program.

Commercial net sales were 57.5% of total net sales and military net sales were 42.5% of total net sales in the third quarter of fiscal 2014, compared to 45.8% and 54.2%, respectively, in the comparable period in fiscal 2013. Military net sales decreased \$2.3 million to \$13.2 million in the third quarter of fiscal 2014, compared to \$15.5 million in the comparable period of fiscal 2013. This was due primarily to the addition of commercial net sales related to the GAF acquisition and the decline in military rotorcraft sales, which was partially offset by an increase in sales due to a new ordnance program.

#### Cost of Goods Sold

Cost of goods sold increased by \$2.9 million, or 13.8%, to \$23.8 million during the third quarter of fiscal 2014, compared to \$21.0 million in the comparable period of fiscal 2013. The increase in the dollar amount of cost of goods sold in the third quarter of fiscal 2014 compared to the comparable period of fiscal 2013 was primarily due to an increase in net sales and higher overhead expenses, principally related to employee benefits.

#### Gross Profit

Gross profit decreased by \$0.6 million, or 7.2%, to \$7.1 million during the third quarter of fiscal 2014, compared to \$7.7 million in the comparable period of fiscal 2013. Gross profit as a percentage of net sales decreased to 23.1% during the third quarter of fiscal 2014, compared to 26.9% in the comparable period in fiscal 2013. This decrease was primarily due to product mix.

#### Selling, General and Administrative Expenses

Selling, general and administrative expenses were \$4.1 million, or 13.1% of net sales, during the third quarter of fiscal 2014, compared to \$3.1 million, or 10.7% of net sales in the comparable period of fiscal 2013. The increase in selling, general and administrative expenses in the third quarter of fiscal 2014 was due to \$0.7 million increase in legal and professional costs, \$0.2 million increase in depreciation expense due to accelerating depreciation on certain computer assets targeted to be replaced by an upcoming ERP system installation, and \$0.1 million increase due to the addition of GAF.

#### Amortization of Intangibles

Amortization of intangibles was \$0.5 million during both the third quarter of fiscal 2014 and fiscal 2013.

#### Other/General

The following table sets forth the weighted average interest rates and weighted average outstanding balances under the Company's debt agreement in the third quarters of both fiscal 2014 and 2013:

	Weighted Average Interest Rate Three Months Ended June 30,		Weighted Average Outstanding Balance Three Months Ended June 30,	
	2014	2013	2014	2013
Revolving credit agreement	1.0	% 1.0	% \$ 2.0 million	\$ 2.5 million
Term note	2.9	% 2.9	% \$ 4.7 million	\$ 6.8 million
Promissory note	—	% 2.0	% \$ 0.0 million	\$ 2.4 million

Other income, net consists principally of \$0.1 million of rental income earned from the lease of the Company's Cork, Ireland facility.

Income Taxes

The Company's effective tax rate in the third quarter of fiscal 2014 was 24% compared to 31% in the comparable period in fiscal 2013. The third quarter of fiscal 2014 was favorably impacted by \$158 foreign tax credits related to prior years. The Company's effective tax rate differs from the U.S. federal statutory rate due primarily to (i) application of foreign tax credits, (ii) the impact of U.S. state and local taxes, (iii) domestic production activities deduction, and (iv) the decrease in the reserve for uncertain tax positions.

The third quarter of fiscal 2014 does not reflect the research credit compared to the similar period in fiscal 2013 as the research credit expired at December 31, 2013.

#### Income from Continuing Operations

Income from continuing operations, net of tax was \$2.0 million, or 6.4% of net sales, during the third quarter of fiscal 2014, compared to \$2.9 million, or 10.0% of net sales, in the comparable period in fiscal 2013.

#### (Loss) from Discontinued Operations

Loss from discontinued operations, net of tax, was \$0.1 million during the third quarter of fiscal 2014, compared to loss from discontinued operations, net of tax, of \$0.4 million in the comparable period of fiscal 2013. This line item consists of income from discontinued operations related to ASC and the Repair Group.

#### Net Income

Net income decreased \$0.6 million to \$1.9 million, or 6.2% of net sales, during the third quarter of fiscal 2014, compared to net income of \$2.5 million, or 8.6% of net sales, in the comparable period in fiscal 2013. Net income decreased primarily due to higher selling, general and administrative expenses discussed above.

#### B. Liquidity and Capital Resources

Cash and cash equivalents were \$4.6 million at June 30, 2014 compared with \$4.5 million at September 30, 2013. At June 30, 2014, essentially all of the \$4.6 million of the Company's cash and cash equivalents were in the possession of its non-operating Irish subsidiary. Distributions from the Company's Irish subsidiary to the Company may be subject to statutory restrictions, adverse tax consequences or other limitations.

The Company's operating activities of continuing operations provided \$13.3 million of cash in the first nine months of fiscal 2014 compared with \$2.2 million of cash provided by operating activities of continuing operations in the first nine months of fiscal 2013. The cash provided by operating activities of continuing operations in the first nine months of fiscal 2014 was primarily due to net income of \$4.3 million and \$5.3 million from the impact of such non-cash items as depreciation and amortization expense and equity based compensation expense. These items were increased by a \$3.3 million increase in net operating assets, primarily consisting of a \$3.9 million decrease in accounts receivable; a \$3.9 million increase in inventories; a \$5.7 million increase in accounts payable; and a \$2.4 million

decrease in accrued liabilities, accrued taxes and other operating activities. These changes were due to factors resulting from normal business conditions of the Company, including (i) to support growth in business, (ii) the relative timing of sales and collections from customers, and the relative timing of payments to suppliers and tax authorities. Capital expenditures were \$8.3 million in the first nine months of fiscal 2014 compared with \$2.5 million in the comparable period of fiscal 2013. The increase is attributed to the Company's ERP installation and a large capital investment at our Cleveland plant which will reduce operating costs. In addition to the \$8.3 million expended during the first nine months of fiscal 2014, \$2.6 million was committed as of June 30, 2014. The Company anticipates that total fiscal 2014 capital expenditures will be within the range of

18

---

\$12.0 to \$13.0 million and will relate principally to the further enhancement of production and product offering capabilities, operating cost reductions and the implementation of a new ERP system.

In the fourth quarter of fiscal 2013, the Company declared a special cash dividend of \$0.20 per common share, which resulted in a cash expenditure of \$1.1 million during first nine months of fiscal 2014.

In October 2011, the Company entered into an amendment to its existing credit agreement (the "Credit Agreement Amendment") with its bank increasing the maximum borrowing amount from \$30.0 million to \$40.0 million, of which \$10.0 million is a five (5) year term loan and \$30.0 million is a five (5) year revolving loan, secured by substantially all the assets of the Company and its U.S. subsidiaries and a pledge of 65% of the stock of its Irish subsidiary. The term loan is repayable in quarterly installments of \$0.5 million starting December 1, 2011.

The term loan has a variable interest rate based on LIBOR, which becomes an effective fixed rate of 2.9% after giving effect to an interest rate swap agreement. Borrowing under the revolving loan bears interest at a rate equal to LIBOR plus 0.75% to 1.75%, which percentage fluctuates based on the Company's leverage ratio of outstanding indebtedness to EBITDA. The bank loans are subject to certain customary financial covenants including, without limitation, covenants that require the Company to not exceed a maximum leverage ratio and to maintain a minimum fixed charge coverage ratio. There is also a commitment fee ranging from 0.10% to 0.25% to be incurred on the unused balance. In November 2013, the Company repaid a non-interest bearing promissory note that was issued to the seller of QAF. The Company was in compliance with all applicable loan covenants as of June 30, 2014.

Future cash flows from the Company's operations will be used to pay down amounts outstanding under the Company's credit agreement. The Company believes it has adequate cash/liquidity available to finance its operations from the combination of (i) the Company's expected cash flows from the operations and (ii) funds available under its existing credit agreement.

As described more fully in Note 10 to the unaudited consolidated condensed financial statements, the Company exited the Repair Group business in December 2013 and completed the divestiture of its ASC business segment in December 2012. In December 2013, the Company received net cash proceeds of \$1.0 million from the sale of the Repair Group's machinery and equipment. In December 2012, the Company received net cash proceeds of approximately \$8.1 million from the sale of ASC, net of certain transaction fees. These proceeds were used to pay down the Company's revolving loan. In conjunction with this divestiture, the Company's ASC non-U.S. subsidiaries paid a \$1.1 million cash dividend to the Company. Proceeds from this dividend were used to pay down the Company's revolving loan during the first quarter of fiscal 2013.

#### C. Impact on Newly Issued Accounting Standards Not Yet Adopted

In April 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standard Update ("ASU") 2014-08, "Presentation of Financial Statements and Property, Plant, and Equipment — Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity," which revises what qualifies as a discontinued operation and changes the criteria for determining which disposals can be presented as discontinued operations and modifies related disclosure requirements. This ASU will be effective for the Company for applicable transactions occurring after October 1, 2015. The Company will prospectively apply the guidance to applicable transactions.

In May 2014, the FASB issued ASU 2014-09, "Revenue from Contracts with Customers," which clarifies existing accounting literature relating to how and when a company recognizes revenue. Under ASU 2014-09, a company will recognize revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods and services. ASU 2014-09 will be effective for the Company October 1, 2017. The Company is in the process of determining what impact, if any, the adoption of this ASU will have on its financial position, results of operations and cash flows.

In June 2014, the FASB issued ASU 2014-12, "Compensation – Stock Compensation," which requires that a performance target that affects vesting and that could be achieved after the requisite service period be treated as a performance condition. Compensation cost should be recognized in the period in which it becomes probable that the performance target will be achieved and should represent the compensation cost attributable to the period(s) for which the requisite service has already been rendered. If the performance target becomes probable of being achieved before

the end of the requisite service period, the remaining unrecognized compensation cost should be recognized prospectively over the remaining requisite service period. The total amount of compensation cost recognized during and after the requisite service period should reflect the number of awards that are expected to vest and should be adjusted to reflect those awards that ultimately vest. The requisite service period ends when the employee is able to cease rendering service and still be eligible to vest in the award if the performance target is achieved. The ASU will be effective for the Company October 1, 2016. The Company will prospectively apply the guidance to applicable transactions.

Item 4. Controls and Procedures

19

---

As defined in Rule 13a-15(e) under the Securities Exchange Act of 1934 (the “Exchange Act”), disclosure controls and procedures are controls and procedures designed to ensure that information required to be disclosed in reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported on a timely basis, and that such information is accumulated and communicated to management, including the Company’s Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure. The Company’s disclosure controls and procedures include components of the Company’s internal control over financial reporting. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Management of the Company, under the supervision and with the participation of the Chief Executive Officer and Chief Financial Officer, carried out an evaluation of the effectiveness of the design and operation of the Company’s disclosure controls and procedures pursuant to Exchange Act Rule 13a-15(e) as of June 30, 2014 (the “Evaluation Date”). Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that, as of the Evaluation Date, the Company’s disclosure controls and procedures were effective. Accordingly, management has concluded that the unaudited consolidated condensed financial statements in this Form 10-Q fairly present, in all material respects, the Company’s financial position, results of operations and cash flows for the periods presented.

There were no changes to the Company’s internal controls over financial reporting during the quarter ended June 30, 2014, which would be expected to have a material effect on financial reporting.
