Veolia Environnement's consolidated revenue totaled (euro)14,048 million for the first half 2003 compared with (euro)14,971 million for the first half 2002, owing to disposals of non core businesses completed in 2002.

Revenue from core businesses amounted to (euro)13,902 million and increased 5.4% at constant exchange rates.

Revenue	Six months ended June 30, 2003 (in (euro)m)	Six months ended June 30, 2002 (in (euro)m)	Variation 2003/2002	Internal growth	Ex g

Non-core businesses sold or in the process of being sold	146	1,113			
Consolidated total	14,048	14,971	-6.2%		

Revenue from core businesses amounted to (euro)13,902 million, up 5.4% at constant exchange rates. The negative impact of exchange rate fluctuations totaled (euro)705 million, of which (euro)450 million was attributable to variation in the dollar (the average US dollar-euro rate was 1.11455 in the six-months ended June 30, 2003 compared with 0.885183 in the six-months ended June 30, 2002). The balance was mainly due to variations in Latin American currencies and the British pound. Internal growth of 5.2% was recorded for core businesses.

Revenue from non-core businesses sold or in the process of being sold amounted to (euro)146 million, compared with (euro)1,113 million in the six-months ended June 30, 2002. As a result, the company's consolidated revenue was (euro)14,048 million in the six-months ended June 30, 2003.

The portion of core business revenue generated outside France totaled (euro)7,476 million, representing 53.8% of total revenue.

- (1) Excluding the following non-core businesses sold or in the process of being sold:  
 US Filter non-core businesses (Filtration & Separation, Plymouth, Distribution US) and Bonna Sabla in France, which were sold in 2002, as well as Surface Preparation Corp., which is in the process of being sold pursuant to an agreement announced in July 2003.

### WATER (1)

(1) Excluding non-core businesses sold or in the process of being sold

Internal growth for the water business in the first half of 2003 varied:

- o In France, revenue from water distribution rose 3.7%.
- o Outside France (excluding the United States and Latin America), revenue increased over 20% due principally to the increase in impact of contracts won in Continental Europe, North Africa and Asia.
- o In the United States, revenue in dollars grew 4.1%. The Services activity continued to record double-digit growth, boosted by the startup of the Indianapolis contract, but equipment sales again reflected the stagnation in industrial markets. Culligan showed a positive trend in dollars.

Overall growth was impacted by the downturn in business in Latin America, and revenue for Veolia Water Systems declined approximately 16%.

### WASTE MANAGEMENT

Six months ended June 30, 2003 (in(euro)m)	Six months ended June 30, 2002 (in(euro)m)	Variation 2003/2002	Internal growth	External growth

The breakdown of internal growth is as follows:

- o In France, the division continued its good performance with growth of 6.4%.
- o Outside France, growth in total revenue at constant exchange rates and excluding Latin America (Proactiva) amounted to 3.7%. Northern Europe recorded satisfactory results, benefiting in particular from the many contracts won in the UK over the last months. In the United States, there were good performances from the solid waste and incineration activities, but hazardous waste and industrial services were affected by the economic slowdown.
