RADA to Receive a \$1.6 Million Purchase Order From Lockheed Martin Aeronautics

Monday April 4, 12:27 pm ET

NATANYA, Israel, April 4 /PRNewswire-FirstCall/ -- RADA Electronic Industries Ltd. (NASDAQ: RADI - News) announced today that it has received a \$1.6 million purchase order, from Lockheed Martin Aeronautics Company, to provide the Israeli Air Force with "Reality" - an advanced flight debriefing system and Squadron Information Management Network (SIMNet). The systems will be supplied to the IAF during the third quarter of 2005.

The "Reality" flight debriefing system is a network centric data management system that provides advanced post flight debriefing including video, audio and Air Combat Maneuvering Instrumentation (ACMI), using digital data recordings from the aircraft. The "Reality" is the first operationally fielded, digital video debriefing system in the world.

RADA entered the digital video arena in 2001 during the Israel "Peace Marble V" program where, together with Smiths, a complete digital video and data transfer equipment was installed onboard the new Israeli Air Force F-16I aircraft, complemented with the "Reality" debriefing and Squadron Information Management Network. In 2003 RADA was awarded a contract by the Chilean Air Force, to replace the V-83 tape recorders with digital video recorders and Ground Debriefing Systems as part of the "Peace Puma" F-16 program.

Commenting on the contract, Zvi Alon, RADA's Vice President of Business Development said, "This contract places RADA as a prime provider of flight debriefing systems to more than half of the Israeli Air Force, with installations onboard the A-4 trainer aircraft, through the F-16A/B to the most advanced F-16I squadrons."

About RADA

RADA Electronic Industries Ltd. is an Israel based company involved in the defense and commercial aerospace industries. The Company specializes in Avionics systems (Digital Video Recorders, Ground Debriefing Stations, Stores Management Systems, Flight Data Recorders, Inertial Navigation Systems), Trainers Upgrades, Avionics systems for the UAV market, and Electro optic cameras for airplanes and armored vehicles.
