ELBIT SYSTEMS AWARDED A \$57 MILLION FRAMEWORK CONTRACT (IDIQ), TO SUPPLY THE AVIATOR'S NIGHT VISION IMAGING SYSTEM/HEADS UP DISPLAY (ANVIS/HUD) SYSTEM FOR US ARMY AND OTHER DOD HELICOPTERS

Elbit Systems, Haifa, 6 October 2005 - Elbit Systems Ltd. (NASDAQ:ESLT) reported today that EFW Inc, an Elbit Systems of America company, has been awarded a \$57 Million framework contract (IDIQ - Indefinite Delivery / Indefinite Quantity contract) by the US Government to supply the ANVIS/HUD for US Army utility helicopters and other DOD rotary-wing platforms. Under this contract, which will cover up to a five-year period, the Army may place purchase orders with EFW for ANVIS/HUD systems from time to time for up to the aggregate amount of the contract.

The ANVIS/HUD system provides a significant increase in situational awareness and safety by allowing the pilot to fly "head out of the cockpit" during night operations and projecting critical flight information into the night vision goggles' view. This system has been in operational use by US Army, US Navy / Marines and USAF rotary wing pilots since the mid 1990's and is installed on most of these utility and special operations helicopter fleet platforms, including the H-60, CH-53 CH-47, CH-46, H-1, V-22 and others.

Commenting on the award, Rotorcraft Mission Systems Vice President Kelly Dameron said, "This award will allow EFW to continue the supply of operationally

excellent systems for US pilots to safely and effectively execute their night missions."

Additionally, EFW with its VSI joint venture, provides the Joint Helmet Mounted Cueing System (JHMCS) used in fixed wing fighter aircraft in the US and other allied countries and is under contract to supply the highly advanced HMD system for the F-35 Joint Strike Fighter program. EFW provides systems for various weapon platforms for U.S. and allied military forces. EFW is a Gold supplier to Boeing and a valued Team Apache Member.
