PROXY STATEMENT

INFORMATION CONCERNING SOLICITATION AND VOTING

GENERAL

The enclosed proxy is being furnished to shareholders of TESSCO Technologies Incorporated, a Delaware corporation (the "Company"), in connection with the solicitation by the Board of Directors of the Company of proxies for use at the Annual Meeting of Shareholders to be held at the Company's corporate headquarters, 11126 McCormick Road, Hunt Valley, Maryland 21031, on Thursday, July 19, 2001 at 10:00 a.m., local time, and at any adjournment or postponement thereof.

SOLICITATION

The solicitation of proxies is being made primarily by mail, but directors, officers and employees may also engage in the solicitation of proxies by telephone. The cost of soliciting proxies will be borne by the Company. The Company has retained the services of Innisfree M&A Incorporated to assist in the solicitation of proxies at a cost to the Company not to exceed \$6,500. In addition, the Company may reimburse brokers, custodians, nominees and other record holders for their reasonable out-of-pocket expenses in forwarding proxy material to beneficial owners.

This Proxy Statement and the accompanying form of proxy are being sent to shareholders on or about June 15, 2001.

REVOCATION OF PROXIES

A proxy may be revoked at any time before its exercise by the filing of a written notice of revocation with the Secretary of the Company, by delivering to the Company a duly executed proxy bearing a later date, or by attending the Annual Meeting and voting in person. However, if you are a shareholder whose shares are not registered in your own name, you will need additional documentation from your record holder to vote personally at the Annual Meeting.

VOTING RIGHTS AND OUTSTANDING SHARES

The Board of Directors of the Company has fixed the close of business on June 1, 2001 as the record date for determining the shareholders of the Company entitled to notice of and to vote at the Annual Meeting. On the record date, the Company had outstanding 4,500,529 shares of Common Stock, \$0.01 par value per share. Each share of Common Stock entitles the holder to one vote on each matter to be voted on at the Annual Meeting. There is no cumulative voting for the election of directors.

The presence, in person or by proxy, of at least a majority of the total number of shares of Common Stock entitled to vote is necessary to constitute a quorum at the Annual Meeting. In the event there are not sufficient votes for a quorum or to approve any proposal at the Annual Meeting, the Annual Meeting may be adjourned in order to permit the further solicitation of proxies.

Edgar Filing: TESSCO TECHNOLOGIES INC - Form DEF 14A

All outstanding shares of the Company's Common Stock represented by properly executed and unrevoked proxies received in time for the Annual Meeting will be voted. A shareholder may, with respect to the election of directors, (i) vote "FOR" the election of the named director nominees, (ii) "WITHHOLD AUTHORITY" to vote for all named director nominees, or (iii) vote for the

election of all director nominees other than any nominee with respect to whom the shareholder withholds authority to vote by striking a line through such nominee's name on the proxy. A shareholder may, with respect to each other matter specified in the notice of meeting, (i) vote "FOR" the matter, (ii) vote "AGAINST" the matter, or (iii) "ABSTAIN" from voting on the matter. Shares will be voted as instructed in the accompanying proxy on each matter submitted to shareholders. If no instructions are given, the shares will be voted FOR the election of the named director nominees and FOR the ratification of the appointment of Arthur Andersen LLP as the Company's independent public accountants.

A proxy submitted by a shareholder may indicate that all or a portion of the shares represented by the proxy are not being voted by the shareholder with respect to a particular matter. This could occur, for example, when a broker is not permitted to vote Common Stock held in street name on certain matters in the absence of instructions from the beneficial owner of the Common Stock. These "nonvoted shares," i.e., shares subject to a proxy which are not being voted with respect to a particular matter, will be considered shares not present and entitled to vote on such matter, although these shares may be considered present and entitled to vote for other purposes and will count for purposes of determining the presence of a quorum.

REQUIRED VOTE

The affirmative vote of a plurality of the shares of Common Stock present in person or by proxy at the Annual Meeting and entitled to vote on the election of directors is required to elect directors. Accordingly, if a quorum is present at the Annual Meeting, the two persons receiving the greatest number of votes will be elected to serve as directors. Therefore, withholding authority to vote for a director(s) and "nonvoted shares" with respect to the election of directors will not affect the outcome of the election of directors. The affirmative vote of a majority of the shares of Common Stock present in person or by proxy at the Annual Meeting and entitled to vote thereon is required to approve each matter other than the election of directors. Under Delaware law, abstentions with respect to matters other than the election of directors are generally considered as shares present and entitled to vote and thus have the same effect as a vote against such matter. "Nonvoted shares" with respect to such a matter will not be considered as present and entitled to vote on the matter and thus will not affect the determination of whether the matter is approved.

The Board of Directors knows of no additional matters that will be presented for consideration at the Annual Meeting. Delivery of an executed proxy, however, confers on the designated proxy holders discretionary authority to vote the shares in accordance with their discretion on such other business, if any, as may properly come before the Annual Meeting or any adjournment thereof. Proxies solicited by means of this proxy statement will be tabulated by inspectors of election designated by the Board, who will not be employees or directors of the Company or any of its affiliates.

EMPLOYMENT AGREEMENTS

In March 1994, the Company entered into an employment agreement with Mr. Barnhill providing for his employment as Chairman of the Board, President and Chief Executive Officer at a minimum annual base salary of \$240,000 and cash bonuses in accordance with the Company's Officer's Value Share Plan. This plan is designed to reward the Company's officers based upon the growth in the Company's earnings and improvement in other key corporate performance measures. The employment agreement provides for an initial term of three years, and, unless the Board of Directors notifies Mr. Barnhill otherwise before the end of any calendar year, the term of the agreement automatically renews daily for the succeeding three-year period. In August 1999, the Compensation Committee of the Board of Directors increased Mr. Barnhill's annual base salary to \$350,000. In April 2000, the Compensation Committee of the Board of Directors further increased Mr. Barnhill's annual base salary to \$450,000.

The employment agreement also provides for the establishment of a

Edgar Filing: TESSCO TECHNOLOGIES INC - Form DEF 14A

supplemental executive retirement plan, which will provide Mr. Barnhill with a \$75,000 annual pension benefit payable on Mr. Barnhill's retirement, termination of employment for reasons other than cause (as defined in the employment agreement) or attainment of age 62. The employment agreement also provides for (i) a \$2,000,000 split-dollar life insurance policy on Mr. Barnhill and his spouse and (ii) a long-term disability policy providing Mr. Barnhill with a benefit equal to not less than 70% of his annual base salary.

In the event of the termination of Mr. Barnhill's employment for certain reasons, including death, disability or a termination resulting from a change in control of the Company (as defined in the employment agreement), the employment agreement provides for payment to Mr. Barnhill, when and as due, of the total salary payable to him for the next three years, plus bonuses to which he would have been entitled had he remained in the employ of the Company during the three-year period. In addition, Mr. Barnhill would be entitled to receive the employee benefits he would have received during such three-year period or an after-tax payment in an amount equal to the value of such benefits.

In January 1996, the Company also adopted a stock compensation program for the Chief Executive Officer, pursuant to which Mr. Barnhill is each quarter granted an option to purchase 10,000 shares of Common Stock at an exercise price equal to not less than the market value of the Company's Common Stock on the date of the grant. All of these options have a term of ten years and generally become exercisable over a five year period following the date of grant, provided that Mr. Barnhill remains employed by the Company.

The Company is also party to employment letter agreements with each of Messrs. Rein and Singer, pursuant to which Mr. Rein was retained as Senior Vice President of Operations and Fulfillment and Mr. Singer was retained as Senior Vice President and Chief Financial Officer, at annual base salaries of \$200,000 each. Messrs. Rein and Singer are also entitled to receive performance based bonuses, in accordance with the Company's Officers' Value Share Plan. The employment letter agreements also each provide for severance payments of between six and nine months salary, depending upon the date of termination of employment, in the event that their employment is terminated by the Company "without good cause" or by them for "good reason", as such terms are defined in the respective employment letter agreements.

7

PROFIT-SHARING PLAN

The Company has a 401(k) profit-sharing plan which covers all eligible employees. Under the 401(k) plan, participants are permitted to make salary reduction contributions equal to a percentage of annual salary with matching contributions made by the Company at the discretion of the Board of Directors. The Company's 401(k) profit-sharing plan expense during fiscal 2001 totaled \$75,300.

STOCK-BASED COMPENSATION PLANS

The Company's 1994 Stock and Incentive Plan provides for the grant or award to regular full-time employees (including officers and directors who are not officers) of stock options, stock appreciation rights, restricted stock, restricted stock units and other performance awards, which may be denominated in shares of Common Stock or other securities of the Company. The 1994 Plan also provides for the grant of awards in respect of a limited number of shares to the Company's non-employee Directors. At present, the maximum number of shares of Common Stock with respect to which awards may be granted at any time under the 1994 Plan is 1,172,500, of which options for 123,530 shares have been granted and exercised and options for 928,570 shares have been granted and remain outstanding (i.e., have not lapsed, been cancelled or expired) as of June 1,

Edgar Filing: TESSCO TECHNOLOGIES INC - Form DEF 14A

2001. No awards may be made under the 1994 Plan after April 12, 2004.

In addition to the 1994 Stock and Incentive Plan, the Company maintains the 1984 Employee Incentive Stock Option Plan, which provides for the grant of options to acquire up to an aggregate of 401,250 shares of Common Stock. As of June 1, 2001, options to acquire 43,000 shares were outstanding, all of which were fully exercisable and all of which had an exercise price of \$12.00 per share. No additional shares are available for award under the 1984 Plan.

(1) Potential Realizable Values are based on an assumption that the stock price of the Common Stock on the date of grant equals the exercise price shown for each particular option grant and appreciates at the annual rate shown (compounded annually) from the date of grant until the end of the term of the option. These amounts are reported net of the option exercise price, but before any taxes associated with exercise or subsequent sale of the underlying stock. The actual value, if any, an option holder may realize will be a function of the extent to which the stock price exceeds the exercise price on the date the option is exercised and also will depend on the option holder's continued employment through the vesting period. The actual value to be realized by the option holder may be greater or less than the values estimated in this table.

(2) These options, which were issued under the Company's 1994 Stock and Incentive Plan, generally vest over a three-year period commencing on the second anniversary of date of grant, provided that the recipient remains an employee of the Company and subject to such other conditions as the Compensation Committee may impose. To the extent not then exercised, these options generally expire on either the sixth or the tenth anniversary of the date of grant.

The following table sets forth information with respect to fiscal year 2001

COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION

The Board of Directors has delegated to the Compensation Committee responsibility for developing and administering programs for compensating the Company's executive officers. The entire Board also approves the Committee's compensation recommendations with respect to salaries and bonuses of executive officers. The Committee, which currently consists of Messrs. Shaughnessy, Zifferer and Beletic (none of whom are officers or employees of the Company), believes that the Company's success is attributable in large part to the management and leadership efforts of its executive officers. The Company's management team has substantial experience in the distribution industry in general and the wireless communications industry in particular. Mr. Barnhill, the Chairman of the Board, President and Chief Executive Officer of the Company, has been instrumental in the Company's business success. The Company and the Compensation Committee intend to maintain compensation policies, plans and programs that will attract and retain executive officers who can enhance

Edgar Filing: TESSCO TECHNOLOGIES INC - Form DEF 14A

shareholder value. Generally speaking, the Compensation Committee seeks to use the same policies and guidelines in determining the compensation to be paid to its executive officers as it uses for the Company's other employees and other key contributors to the Company's success.

The Company has designed a compensation package that will achieve the following principal objectives:

- provide the Company's executives with total compensation that is sufficiently competitive to attract and retain high-quality people. In general, this involves establishing an individual's base salary in light of that individual's responsibilities, experience, personal performance and

9

contribution to the Company's overall performance. The base salary and performance-based incentives are designed to establish an individual's total compensation at a level that competes favorably with the overall pay levels of comparable companies (i.e., companies comparable in size and with business operations similar to those of the Company) and to reward outstanding performance.

- link a significant portion of annual compensation to performance-based incentives. This is done primarily by means of the Company's Value Share Program and the grant of stock options.
- provide long-term incentives that are consistent with the Company's strategic goals and the creation of shareholder value. This is done through the grant of stock options.
- structure the compensation program to be viewed favorably by the Company's shareholders, employees, the financial community, and the general public.

The Internal Revenue Code places limits on the amount of non-performance-based compensation paid to executive officers that may be deducted by the Company for federal income tax purposes. The Company has structured compensation programs to minimize the portion of any executive compensation that is not deductible for federal income tax purposes.

The Committee annually reviews each executive officer's compensation, including the compensation levels of the Company's Chairman, President and Chief Executive Officer. When reviewing compensation, the Committee considers individual and corporate performance, levels of responsibility, prior experience, breadth of knowledge and competitive pay practices with respect to salary. The Chief Executive Officer's minimum base salary of \$240,000 is determined pursuant to an employment agreement between the Company and the Chief Executive Officer, effective as of April 1994. In August 1999, in recognition of Mr. Barnhill's continued contribution to the overall success of the Company, the Compensation Committee unanimously approved an increase in his base salary to \$350,000. Subsequently, in April 2000, largely in recognition of the Company's financial performance, the Compensation Committee unanimously approved a further increase in the base salary of the Chief Executive Officer to \$450,000. Salaries for the other Named Executive Officers are established based on the principles discussed with respect to the Chief Executive Officer. The bonuses paid to the Named Executive Officers, including the Chief Executive Officer, are determined pursuant to the Company's Officers' Value Share Plan.

The Company has also adopted a stock compensation program for the Chief Executive Officer. This program provides for quarterly grants of options to purchase 10,000 shares of Common Stock at an exercise price at least equal to the fair market value of the Common Stock on the date of grant. Accordingly,

Edgar Filing: TESSCO TECHNOLOGIES INC - Form DEF 14A

Mr. Barnhill was granted options during fiscal year 2001 for 40,000 shares at exercises prices ranging from \$20.00 to \$26.00 per share. Vesting of these options occurs over time and the options have a term of ten years.

During fiscal 2001, the Committee also granted options to purchase 66,000 shares of Common Stock to other executive officers other than Mr. Barnhill. The awards made to the other executive officers also were granted to provide further incentives to increase shareholder value and were deemed by the Committee to be appropriate in light of the officers' expected contributions to the Company's performance. The Committee has noted that revenues have increased by an average of 24% annually from fiscal 1993 to fiscal 2001, with net income increasing by an average of 47% annually from fiscal 1993 to fiscal 2001. The Committee intends to continue to recommend stock-based compensation awards as a significant part of the Company's overall compensation program.

Respectively,

John D. Beletic
Dennis J. Shaughnessy
Morton F. Zifferer, Jr.

REPORT OF THE AUDIT COMMITTEE

The Audit Committee is comprised solely of independent directors, as defined in the Marketplace Rules of The Nasdaq Stock Market, and it operates under a written charter adopted by the Board of Directors, a copy of which is included with this proxy statement as Exhibit A. The composition of the Audit Committee, the attributes of its members and the responsibilities of the Committee, as reflected in its charter, are intended to be in accordance with applicable requirements for corporate audit committees. The Committee reviews and assesses the adequacy of its charter on an annual basis.

As described more fully in its charter, the purpose of the Audit Committee is to assist the Board of Directors in its general oversight of the Company's financial reporting, internal control and audit functions. Management is responsible for the preparation, presentation and integrity of the Company's financial statements, accounting and financial reporting principles, internal controls and procedures designed to ensure compliance with accounting standards, applicable laws and regulations. Arthur Andersen LLP, the Company's independent auditing firm, is responsible for performing an independent audit of the consolidated financial statements in accordance auditing standards generally accepted in the United States.

The Audit Committee members are not professional accountants or auditors, and their functions are not intended to duplicate or to certify the activities of management and the independent auditor, nor can the Committee certify that the independent auditor is "independent" under applicable rules. The Committee serves a board-level oversight role, in which it provides advice, counsel and direction to management and the auditors on the basis of the information it receives, discussions with management and the auditors and the experience of the Committee's members in business, financial and accounting matters.

The Committee has reviewed and discussed the consolidated financial statements with management and the independent auditor, and management represented to the Committee that the Company's consolidated financial statements were prepared in accordance with accounting principles generally accepted in the United States. The Committee has discussed with the independent auditor the matters required to be discussed by Statement on Auditing Standards No. 61, as amended, "Communication with Audit Committee."

Edgar Filing: TESSCO TECHNOLOGIES INC - Form DEF 14A

The Company's independent auditor also provided the Committee with the written disclosures required by Independence Standards Board Standard No. 1, "Independence Discussions with Audit Committees," and the Committee discussed with the independent auditor that firm's independence.

Based on the Committee's discussions with management and the independent auditor, the Committee recommended that the Board of Directors include the audited consolidated financial statements in the Company's annual report on Form 10-K for the year ended April 1, 2001.

Sincerely,

Jerome C. Eppler
Benn R. Konsynski, Ph.D
Morton F. Zifferer, Jr.
