Item 5. Other Events and Regulation FD Disclosure

This report on Form 8-K is being filed to provide information relating to our adoption of Statement of Financial Accounting Standards (SFAS) No. 142, "Goodwill and Other Intangible Assets." This information is in addition to, and should be read in conjunction with, other information that has been included in prior public filings, including but not limited to, our Report on Form 10-K for the year ended December 31, 2001 and our Report on Form 10-Q for the quarter ended March 31, 2002.

As previously disclosed, we adopted SFAS No. 142 effective January 1, 2002. This statement changed the accounting for goodwill and indefinite-lived intangible assets from an amortization approach to an impairment-only approach. The SFAS No. 142 impairment model is a two-step process. First, it requires comparison of the book value of net assets to the fair value of the related reporting units that have goodwill assigned to them. If the fair value is determined to be less than book value, a second step is performed to compute the amount of impairment. In

Edgar Filing: MANITOWOC CO INC - Form 8-K

the second step, the implied fair value of goodwill is estimated as the fair value of the reporting unit used in the first step less the fair values of all other tangible and intangible assets of the reporting unit. If the carrying amount of goodwill exceeds its implied fair market value, an impairment loss is recognized in an amount equal to that excess, not to exceed the carrying amount of the goodwill.

Upon our adoption of SFAS No. 142, goodwill and indefinite-lived intangible assets ceased being amortized, and were tested for impairment. Using the SFAS No. 142 approach described above, we estimated the fair values of our reporting units, with the assistance of independent valuation experts, using the present value of future cash flows approach, subject to a comparison for reasonableness to our market capitalization at the date of evaluation. As a result, we will record a transitional goodwill impairment charge as of January 1, 2002 of \$51.0 million (\$36.8 million net of tax) and present it as a cumulative effect of accounting change. This charge relates to our reporting units as follows: Beverage Group (Foodservice Equipment Segment) \$33.1 million and Boom Trucks (Cranes and Related Products Segment) \$17.9 million, and is due to current economic conditions in these industries. This transitional impairment charge results from the application of the new impairment methodology introduced by SFAS No. 142. Previous accounting rules incorporated comparison of book value to undiscounted cash flows, whereas the new rules require a comparison of book value to discounted cash flows, which are lower. Under previous requirements, no goodwill impairment would have been recorded on January 1, 2002.

The results for periods prior to January 1, 2002 have not been restated. The following table reconciles our reported net earnings before extraordinary loss, net earnings and earnings per share to that which would have resulted each year in the three year period ended December 31, 2001 if SFAS No. 142 had been adopted at the beginning of the periods presented. This reconciliation also assumes

that there had been no determination in any of those periods that an impairment of goodwill or other intangible assets had occurred.
