COMPUTER ASSOCIATES ELECTS FOUR NEW DIRECTORS

FOUR CURRENT DIRECTORS TO LEAVE BOARD AT THE END OF THE CURRENT TERM  
COMPANY FILES PRELIMINARY PROXY FOR AUGUST 28 ANNUAL MEETING

ISLANDIA, N.Y., July 16, 2002 - Computer Associates International, Inc. (CA) today announced the election of four new members to its Board of Directors: Kenneth Cron, Chief Executive Officer of Vivendi Universal Games, a division of Vivendi Universal; Robert E. La Blanc, former Vice Chairman of Continental Telecom Corporation and a former general partner of Salomon Brothers Inc.; Alex Serge Vieux, an international technology and software entrepreneur; and Thomas H. Wyman, the former Chairman and Chief Executive Officer of CBS, Inc. The new Board members will stand for reelection at the Company's annual meeting on August 28, 2002. Consistent with CA's corporate governance principles, including term limits, which state that outside directors should serve for a maximum of eight years, the Company also announced that Richard A. Grasso, Willem F.P. de Vogel and Shirley Strum Kenny will not stand for reelection to CA's Board. In addition, Roel Pieper will not be standing for reelection due to increased business commitments in Europe.

The Company also said that it is filing today its preliminary proxy statement with the Securities and Exchange Commission. Upon completion of SEC review, the proxy statement will be mailed to shareholders of record as of July 3, 2002, in advance of the annual meeting.

NEW DIRECTORS

"We are extremely pleased to welcome Ken, Robert, Alex and Tom as independent directors to CA's Board," said Sanjay Kumar, President and Chief Executive Officer of Computer Associates. "All are recognized leaders in their fields and they bring unique and extensive expertise to CA. By agreeing to serve as directors, they have given a strong vote of confidence in our company, our prospects going forward and our corporate governance practices."

Kumar continued, "Our Board is continually looking for opportunities to strengthen itself by achieving the right balance of expertise in such areas as finance, accounting, technology and governance. We also search for outstanding

individuals who have a broad understanding of the complex business dynamics in which we operate, and who clearly share our core values. These are the things that have driven our decisions on board membership in the past few challenging years and the objectives that will drive us as we consider changes to the board in the future."

Said CA Board member Jay Lorsch, a noted corporate governance expert, "The Board changes announced today are consistent with the governance changes that we have been working on over the past year. I

believe CA's governance practices are state-of-the-art and today are among the best in corporate America." Lorsch is the Louis Kirstein Professor of Human Relations at the Harvard Business School.

On joining the CA Board, Wyman said, "I am impressed with CA's determination to achieve best practices in all areas of its business, including corporate governance. I look forward to contributing the experience I've gained from work on other Fortune 500 boards to benefit CA's shareholders and other stakeholders."

Cron said, "After witnessing far-reaching changes in the technology industry, I am confident that CA has all the right ingredients for a successful future. It is also clear that CA has adopted a set of corporate governance principles designed to ensure the necessary oversight and alignment with shareholder interests."

Vieux said, "CA is clearly already a leader in providing innovative and integrated enterprise software solutions for major corporations and institutions around the world. I expect that CA's business model and its focus on R&D and on customer satisfaction will substantially enhance the Company's competitive position in the years ahead."

La Blanc said, "Before joining CA, I looked very carefully at its business, its senior management and its corporate governance practices and I was delighted to find that all three are of the highest order."

### DEPARTING DIRECTORS

Said Charles B. Wang, Founder and Chairman of Computer Associates, "Dick, Willem, Shirley and Roel have given many devoted years of service to CA and its shareholders. Notwithstanding recent challenging times, CA is one of the world's leading software companies, thanks in large part to their many contributions. I am grateful for their service to CA and, while they are leaving our Board, we look forward to their informal input and continued support."

Speaking on behalf of the directors retiring from the Board, Dick Grasso, Chairman and Chief Executive Officer of the New York Stock Exchange, said, "All of us are proud of our collective and individual contributions to CA, and we believe very strongly in the direction and management of the Company. CA has made tremendous strides in improving customer relationships and its business model is proving very popular. We are confident that CA can ride out the current difficult economic environment and deliver significant benefits to customers, shareholders, employees and the communities in which it operates."

Mr. Grasso continued, "The new `term limits' for outside directors are part of a

substantial strengthening of CA's corporate governance procedures. While Willem, Shirley and I regret that we are leaving the Board, the limits ensure a continual injection of fresh, independent thinking." Roel Pieper, Managing Director and Chairman, Favonius Ventures commented, "CA is a superb company and I have every confidence that it will prosper in the future. I regret that my other business commitments mean that I will not have sufficient time to devote to CA in the years ahead."

### KUMAR COMMENT ON PRELIMINARY PROXY STATEMENT

Commenting on the preliminary proxy statement, Kumar said, "While CA has faced a number of challenges this year, we believe the Company is on the right track for long-term success. Our business model, which was implemented in October 2000, is delivering sustainable competitive advantage and - as evidenced by today's announcements, the April additions of Jay Lorsch, a noted governance expert from

Harvard, and Walter Schuetze, the former Chief Accountant to the Securities and Exchange Commission, and last year's addition of lead independent director Lewis Ranieri - we have continued to make excellent progress in attracting highly qualified independent directors to CA's Board.

"We believe the proposals of Ranger Governance, an outside party financed and controlled by Sam Wyly, that recently announced renewed plans to nominate candidates to serve on the CA Board, would be divisive, impede progress and hurt CA and its shareholders. And in the detail of their proposals, we believe there is nothing constructive or of value that the Company has not already implemented. "

### OTHER BUSINESS

At the annual meeting, in addition to electing CA's eleven directors, shareholders will be asked to approve the Company's 2002 Incentive Plan and 2002 Compensation Plan for Non-Employee Directors.

The 2002 Incentive Plan provides for incentive awards to a broad base of CA employees as well as to consultants to the Company. This plan would replace the 1994 Annual Incentive Compensation Plan and the Company's 2001 Stock Option Plan if approved by shareholders. Forty-five million shares, in addition to approximately one million remaining shares under the 2001 Stock Option Plan, would be authorized for issuance under the plan over ten years.

The 2002 Compensation Plan for Non-Employee Directors, which will also be considered by shareholders at the 2002 annual meeting, would provide for the annual grant to each CA non-employee director of options to purchase 6,750 CA shares and for the annual retainer fee for non-employee directors to be paid in the form of deferred CA stock compensation. This plan would replace the Company's soon-to-expire 1993 Stock Option Plan for Non-Employee Directors (which provides for a like amount of annual option grants depending on the Company's attainment of specific return on equity objectives) and the 1996 Deferred Stock Plan for Non-Employee Directors. 650,000 shares would be authorized for issuance under the plan.

Computer Associates intends to begin soliciting votes from its shareholders as soon as the proxy materials become effective.
