## **Item 2.02 Results of Operations and Financial Condition**

On July 25, 2007, Newfield issued a press release announcing its second quarter 2007 financial and operating results, recent operational highlights, updated production guidance for 2007 and 2008, updated estimated capital expenditures for 2007 and third quarter 2007 earnings guidance. Please see the discussion appearing below under the caption “Forward-Looking Information.” A copy of the press release is furnished herewith as Exhibit 99.1.

## **Item 7.01 Regulation FD Disclosure**

On July 25, 2007, Newfield issued its @NFX publication, which includes updated 2007 and 2008 production guidance, an operational update by region, third quarter 2007 earnings guidance and updated tables detailing complete hedging positions as of July 24, 2007. Please see the discussion appearing below under the caption “Forward-Looking Information.” A copy of this publication is furnished herewith as Exhibit 99.2.

## **Forward-Looking Information**

The statements set forth in press release and @NFX publication described above regarding estimated or anticipated 2007 and 2008 production volumes, third quarter 2007 results, future drilling plans and capital programs, the expected impact of the settlement of our derivative contracts and the expected timing of development projects and asset sales are forward-looking and are based upon assumptions and anticipated results that are subject to numerous uncertainties. Actual results may vary significantly from those anticipated due to many factors including drilling results, oil and gas prices, industry conditions, the prices of goods and services, the availability of drilling rigs and other support services, the availability of capital resources, the availability of refining capacity for the crude oil Newfield produces from its Monument Butte Field in Utah and labor conditions. Completion of our proposed divestitures is subject to receiving offers that Newfield considers acceptable. The sale of our Gulf of Mexico shelf assets is subject to the satisfaction of customary closing conditions. In addition, the drilling of oil and gas wells and the production of hydrocarbons are subject to governmental regulations and operating risks.
