PROXY STATEMENT

SOLICITATION OF PROXIES

The enclosed proxy is solicited by and on behalf of the Board of Directors of Vital Images, Inc., a Minnesota corporation (“Vital Images” or the “Company”), for use at the Annual Meeting of Shareholders (the “Annual Meeting”) to be held at the Company's headquarters, 5850 Opus Parkway, Suite 300, Minnetonka, Minnesota, on Thursday, May 12, 2011, at 1:00 p.m. (Minneapolis, Minnesota time), and any adjournment of the Annual Meeting. This Proxy Statement and the accompanying form of proxy are being made available to shareholders on the Internet or are being mailed to shareholders beginning on or about March 29, 2011.

The Company will bear all costs and expenses of preparing, assembling and mailing the proxy materials and soliciting proxies for the Annual Meeting, will arrange with brokerage houses and other custodian nominees and fiduciaries to send proxies and proxy materials to their principals, and will reimburse them for their expense in so doing. Proxies may be solicited by telephone, facsimile or personally.

VOTING AND REVOCATION OF PROXY

Shareholders Entitled to Vote; Record Date

Only holders of record of the Company's common stock at the close of business on March 14, 2011, the record date for the Annual Meeting, are entitled to notice of and to vote at the Annual Meeting. On the record date, 14,064,945 shares of the Company's common stock were outstanding. Each share of common stock entitles the holder of the share to one vote upon each matter to be presented at the Annual Meeting.

Notice of Internet Availability of Proxy Materials

The Company is making proxy materials for the Annual Meeting available via the Internet. Therefore, the Company is mailing to the majority of its shareholders a notice about the Internet availability of the proxy materials instead of a paper copy of the proxy materials. The notice is entitled “Important Notice Regarding the Availability of Proxy Materials.” All shareholders receiving the notice will have the ability to access the proxy materials via the Internet and request to receive a paper copy of the proxy materials by mail. Instructions on how to access the proxy materials over the Internet or to request a paper copy may be found on the notice. The Company's proxy materials may also be accessed on the Company's website at <http://www.vitalimages.com> by selecting “Investors” and then “Proxy Materials.” The Company is providing some of its shareholders, including shareholders who have previously requested to receive paper copies of the proxy materials, with paper copies of the proxy materials instead of a notice about the Internet availability of the proxy materials.

Voting Shares and Revoking Proxy

Each proxy returned to the Company will be voted according to the instructions on the proxy. If no instructions are indicated, the shares will be voted (i) for the election of the nominees for the Board of Directors named in this Proxy Statement, (ii) for approval of the Company's compensation of its named executive officers, (iii) for holding a non-binding vote every ONE year regarding approval of the Company's compensation of its named executive officers, and (iv) for the ratification of the appointment by the Audit Committee of the Company's Board of Directors of PricewaterhouseCoopers LLP as the Company's independent registered public accounting firm for the year ending December 31, 2011. Although the Board of Directors knows of no other matters to be presented at the Annual Meeting or any adjournment or postponement of the Annual Meeting, all proxies returned to the Company will be voted on any such matter according to the judgment of the proxy holders.

Table of Contents

Instead of submitting a signed proxy card, shareholders may submit their proxies by telephone or via the Internet using the control number and instructions on the proxy card. Telephone and Internet proxies must be used in compliance with, and will be subject to, the information and terms contained on the proxy card. These procedures may not be available to shareholders who hold their shares through a broker, nominee, fiduciary or other custodian.

Any proxy for the Annual Meeting may be revoked by the person giving it at any time before it is voted. Proxies may be revoked by:

- giving written notice of such revocation to the Secretary of the Company,
- submitting a proxy bearing a later date,
- attending the Annual Meeting and voting in person (although attendance at the Annual Meeting will not in and of itself revoke a proxy), or
- voting by telephone or via the Internet after your prior telephone or Internet vote.

A quorum, consisting of a majority of the shares of common stock entitled to vote at the Annual Meeting, must be present in person or by proxy before action may be taken at the Annual Meeting. Each Director will be elected by a plurality of the votes cast with regard to the election of Directors. A majority of the votes cast by the holders of shares of our common stock is required to approve any of the other proposals, except that with regard to the advisory vote on how frequently our shareholders should vote on the compensation of our named executive officers, the number of years (1, 2 or 3) that receives the highest number of votes will be deemed to be preferred by our shareholders. If an executed proxy is returned and the shareholder has abstained from voting on any matter, the shares represented by such proxy will be considered present at the Annual Meeting for purposes of determining a quorum and for purposes of calculating the vote, but they will not be considered to have been voted in favor of such matter. If a signed proxy is returned by a broker holding shares in "street name," and it indicates that the broker does not have discretionary authority to vote certain shares on one or more matters, such shares will be considered present at the Annual Meeting for purposes of determining a quorum but will not be considered to be represented at the Annual Meeting for purposes of calculating the vote with respect to such matter.

Counting Votes

The inspector of election appointed for the meeting will count the votes cast by proxy or in person at the Annual Meeting. Shares as to which there are abstentions, and shares held by brokers that are not voted as to particular proposals, will nonetheless be included in determining if a quorum is present or represented at the annual meeting.

Brokers who hold shares in street name for customers will not be able to vote the shares without instructions from their customers with respect to any of the proposals, other than the proposal to ratify the selection of our auditors (Proposal 4 of this Proxy Statement). Shares for which brokers have not received instructions, and which therefore are not voted, with respect to a particular proposal are referred to as "broker non-votes" with respect to that proposal. Neither abstentions from voting on a proposal described in this proxy statement nor broker non-votes will affect the outcome of the vote on that proposal.

PROPOSALS OF SHAREHOLDERS

Pursuant to Rule 14a-8 under the Securities Exchange Act of 1934, any shareholder wishing to have a proposal considered for inclusion in the Company's proxy solicitation material for the Annual Meeting of Shareholders to be held in 2012 must set forth such proposal in writing and file it with the Secretary of the Company no later than November 30, 2011, the date that is 120 days before March 29, 2012. Further, pursuant to Rule 14a-4, if a shareholder

fails to notify the Company of a proposal before February 13, 2012, the date that is 45 days before March 29, 2012, such notice will be considered untimely, and management proxies may use their discretionary voting authority to vote on any such proposal.

OTHER BUSINESS

At the date of this Proxy Statement, management knows of no other business that may properly come before the Annual Meeting. However, if any other matters properly come before the Annual Meeting, the individuals named in the enclosed form of proxy will vote the proxies received in response to this solicitation in accordance with their best judgment on such matters.

Board and Committee Meetings; Attendance of Board Members at Annual Meeting of Shareholders

It is the policy of the Board that each member of the Board should attend the Company's annual meeting of shareholders whenever practical, and that at least one member of the Board must attend each annual meeting of shareholders. The Company regularly schedules a Board meeting on the same day as the annual meeting of shareholders. All Directors being nominated to serve as Directors in 2011 attended the annual meeting of shareholders held in 2010.

Board Committees

The Compensation Committee, with input from the Board of Directors, reviews and approves salaries, compensation and benefits of executive officers and senior management of the Company and administers the Company's 2006 Long-Term Incentive Plan. In addition to the meetings and actions of the Compensation Committee described above, the entire Board of Directors discussed and reviewed compensation issues throughout the year at its regular meetings. The current members of the Compensation Committee are Gregory J. Peet (Chair), Sven A. Wehrwein and Douglas M. Pihl. Mr. Peet and Mr. Pihl were members of the Compensation Committee throughout 2010; Mr. Wehrwein replaced James B. Hickey, Jr. on April 1, 2010. The Board of Directors has determined that all members of the Compensation Committee are "independent," as that term is defined in Rule 5605 of NASDAQ's Marketplace Rules.

The Audit Committee oversees the accounting and financial reporting processes and audits of the financial statements of the Company and is responsible for selecting, evaluating and, when it deems it to be appropriate, replacing the Company's independent registered public accounting firm. The Audit Committee assists the Board in fulfilling its oversight responsibilities for the quality and integrity of the Company's financial reports, the Company's compliance with legal and regulatory requirements and the independent registered public accounting firm's qualifications and independence, as well as accounting

and reporting processes. The Audit Committee reviews the internal and external financial reporting of the Company and reviews the scope of the independent audit. The Audit Committee also reviews the activity in the Company's investment portfolio, monitors compliance with the Company's investment policy and assists management with the development of investment strategies. It also oversees the Company's Policy and Procedures with respect to Related Person Transactions. The current members of the Audit Committee are Sven A. Wehrwein (Chair), James B. Hickey, Jr. and Richard W. Perkins, who were also the members of the Audit Committee throughout 2010. The Company's Board of Directors has determined that all members of the Audit Committee are independent under Rule 5605 of NASDAQ's Marketplace Rules and Rule 10A-3 under the Securities Exchange Act of 1934 ("Exchange Act"). The Board has determined that Sven A. Wehrwein and Richard W. Perkins are each qualified as an "audit committee financial expert," as that term is defined in Item 401(h)(2)(i) of Regulation S-K.

The Governance and Nominating Committee is responsible for making recommendations to the full Board of Directors regarding candidates for election to the Board and for overseeing the Company's Code of Business Conduct and Ethics. It determines the independence of all Directors under Rule 5605 of NASDAQ's Marketplace Rules and at least annually develops a succession plan for the Company's Chief Executive Officer. The Governance and Nominating Committee also oversees annual review of the performance of the Board of Directors and the individual Directors. The current members of the Governance and Nominating Committee are Richard W. Perkins (Chair), Michael W. Vannier, M.D., and Oran E. Muduroglu. Mr. Perkins and Dr. Vannier were members of the Governance and Nominating Committee throughout 2010; Mr. Muduroglu replaced Sven A. Wehrwein on April 1, 2010. Executive Sessions of the Board

The Board has formally adopted a policy of meeting in executive session, with only independent Directors being present, on a regular basis and at least two times each year. During 2010, the Board met in executive session four times.

Compensation Committee Interlocks and Insider Participation

Douglas M. Pihl, a member of our Compensation Committee, previously served as our interim Chief Executive Officer from February 1998 to December 1999. Neither Gregory J. Peet nor Sven A. Wehrwein, the other members of our Compensation Committee, has ever been an officer of employee of the Company. None of the Compensation Committee members has engaged in a transaction with the Company requiring disclosure as a "related person transaction." None of our executive officers has served on the board of directors or compensation committee of any other entity, any officers of which served on either our Board or our Compensation Committee.

Risk Oversight

Through a series of discussions with management and the Company's Vice President, General Counsel and Secretary, both during Board and Committee meetings and in conversations directly between certain members of the Board and members of management, the Board of Directors has identified and prioritized various enterprise risks, and each prioritized risk is assigned to a board committee or the full board for oversight. For example, strategic risks are overseen by the Strategy Committee; financial risks are overseen by the Audit Committee; compensation risks are overseen by the Compensation Committee; CEO succession planning is overseen by the Governance and Nominating Committee; and compliance risks are typically overseen by the full Board. Management regularly reports on each such risk to the relevant committee or the Board, and material risks identified by a relevant Committee are then presented to the full Board. The enterprise risk management program as a whole is reviewed annually at a meeting of the Board. Additional review or reporting on enterprise risks is conducted as needed or as requested by the Board or a Committee. Coordination of management's review of enterprise risks is performed by the Company's Vice President, General Counsel and Secretary, who reports to the CEO and is a member of the Company's leadership.

Code of Business Conduct and Ethics

The Company has a Code of Business Conduct and Ethics that applies to all Directors, officers and employees of the Company, and it can be found on the Company's website at <http://www.vitalimages.com> by selecting "Investors," then "Corporate Governance," then "Documents & Charters" and then "Code of Business Conduct and Ethics." The Governance and Nominating Committee of the Board is responsible for overseeing the code. In accordance with NASDAQ's Marketplace Rules, any waivers of the code for Directors and executive officers must be approved by the Company's Board of Directors.

Policy and Procedures with Respect to Related Person Transactions

The Board of Directors has adopted a written Policy and Procedures with Respect to Related Person Transactions, which the Audit Committee oversees. Under the policy, a "related person transaction" is a transaction, arrangement or relationship in which the Company was, is or will be a participant and the amount involved exceeds \$50,000, and in which any "related person" had, has or will have a direct or indirect material interest. The policy generally defines a "related person" as a Director, executive officer or beneficial owner of more than 5% of any class of the Company's voting securities and any immediate family member of any of the foregoing persons.

Under the policy, the related person; the Director, executive officer or beneficial owner who is an immediate family member of the related person; or the head of the business unit that is responsible for a potential related person transaction must notify the Company's general counsel of facts and circumstances involved in the potential related person transaction. If the general counsel determines that the transaction is a related person transaction, he must submit it to the Audit Committee or the Chair of the Audit Committee for review and, if appropriate, approval. The policy provides that, on an annual basis, the Audit Committee shall review any previously approved related person transaction that is ongoing. The policy also provides that proposed charitable contributions or pledges of charitable contributions by the Company in the amount of at least \$10,000 that would otherwise qualify as a related person transaction are subject to prior review by the Audit Committee or the Chair of the Audit Committee. No transactions were reviewed under the related person transaction policy during 2010.

Policy with Respect to Board Service

The Board has adopted a policy that no Director may serve on the board of directors of more than six public companies, including Vital Images.

Board Leadership Structure

For many years, the Company has separated the roles of CEO and Chairman of the Board of Directors. The Company has long felt that such a separation has benefited the Company, by enhancing the opportunities for checks and balances between the Company's strategies and its objectives and ensuring that a wider selection of alternative measures are considered. Our current Chairman, James B. Hickey, Jr., has served in that role since September 2008 and our current CEO, Michael H. Carrel, has served in that role since January 2008.

Qualifications of Candidates for Election to the Board

The Company's Directors take a critical role in guiding the Company's strategic direction, and they oversee the management of the Company. Many of the Directors have served as Directors since or soon after the Company

became a publicly-held company in May 1997. See "Election of Directors." When Board candidates are considered, they are evaluated based upon various criteria, such as their broad-based business and professional skills and experiences, experience serving as management or on the Board of Directors of other companies, concern for the long-term interests of the shareholders, financial literacy, personal integrity in judgment and their willingness to be a prepared and active participant at Board and committee meetings. The Governance and Nominating Committee and the Board seek to attract and attain highly qualified Directors who have sufficient time to attend to their duties and responsibilities to the Company. Recent developments in the economy, as well as to corporate governance and financial reporting, have resulted in an increased demand for such highly-qualified and productive public company Directors.

The Governance and Nominating Committee and the Board have established the following minimum requirements for Director candidates: being able to read and understand fundamental financial statements; having at least 10 years of relevant business experience; having no identified conflicts of interest as a prospective Director of the Company; having not been convicted in a criminal proceeding other than traffic violations; and being willing to comply with the Company's Code of Business Conduct and Ethics. The Governance and Nominating Committee retains the right to modify these minimum

Table of Contents

qualifications from time to time. Exceptional candidates who do not meet all of these criteria still may be considered.

The Company's Corporate Governance Guidelines describe our director qualifications. The Board seeks members who will contribute to the Company's overall corporate goals, taking into account its responsibility to its shareholders, industry leadership, customer success, positive working environment, and integrity in financial reporting and business conduct. Directors should have experience in positions with a high degree of responsibility and be leaders in the companies or institutions with which they are affiliated; they should be selected based upon their potential contributions to the Board and management and their ability to represent the interests of shareholders. Diversity of a candidate's skills and experiences, as well as demographics, are considered as part of the nomination process.

When considering diversity, the Governance and Nominating Committee and the Board seek directors with a diversity of skills and experiences. To determine whether the board has the appropriate diversity or whether a potential new member could improve the diversity of skills or experiences, the Governance and Nominating Committee and the Board consider issues like the following:

- Skills and experiences presently represented on the Board;
- Desired size of the Board; and
- Biggest needs of the Board.

Among the skills and experiences considered are the following:

- Significant M&A experience;
- Expertise in software, imaging, healthcare or some mix;
- Strategic alliance partner;
- Leadership of a company with significantly greater revenues than the Company; and
- Financial expertise.

For new candidates, the Governance and Nominating Committee and the Board also consider whether the person will provide gender or racial diversity.

Process for Identifying and Evaluating Candidates for Election to the Board

The Governance and Nominating Committee reviews the qualifications and backgrounds of the Directors, as well as the overall composition of the Board of Directors, and recommends to the full Board of Directors the individuals to be nominated for election at each annual meeting of shareholders of the Company. In the case of incumbent Directors, the Governance and Nominating Committee reviews such Directors' overall service to the Company, including the number of meetings attended, level of participation, quality of performance, and whether the Director continues to meet the applicable independence standards. For any new Director candidates, the questions of independence and financial expertise are important to determine what roles can be performed by the candidate, and the Governance and Nominating Committee determines whether the candidate meets the applicable independence standards and the level of the candidate's financial expertise. Any new candidates will be interviewed by the Governance and Nominating Committee. The full Board will approve the final nominations. The Chair of the Board, acting on behalf of the full Board, will extend the formal invitation to become a nominee of the Board of Directors.

Shareholder Nominations

Shareholders may nominate Director candidates for consideration by the Governance and Nominating Committee by writing to Mr. Ian L. Nemerov, the Company's Secretary, and providing to the Secretary the candidate's name, biographical data and qualifications, including five-year employment history with employer names, a description of

the employer's business, and all other information relating to such nominee that is required to be disclosed by Schedule 14A under the Exchange Act; other Board memberships (if any); and such other information as is reasonably available and sufficient to enable the Governance and Nominating Committee to evaluate the minimum qualifications stated above under the section of this proxy statement entitled "Information Concerning Directors, Nominees and Executive Officers — Qualifications of Candidates for Election to the Board." The submission must be accompanied by a written consent of the individual being named in the proxy statement to be a nominee and to serve as a Director if elected by the shareholders. The submission must also include the name, address and number of shares of the Company's common stock owned by each shareholder submitting the nomination. Written notice must be given at least 120 days before the date of the next annual meeting of shareholders. If a shareholder nominee is eligible, and if the nomination is proper, the Governance and Nominating Committee then will deliberate and make its recommendation to the Board of Directors.

Table of Contents

The Governance and Nominating Committee will not change the manner in which it evaluates candidates, including the applicable minimum criteria set forth above, based on whether the candidate was recommended by a shareholder.

Communications with the Board

Shareholders can communicate directly with the Board, or with any Committee of the Board, by writing to Mr. Ian L. Nemerov at the Company's address, by calling Mr. Nemerov at (952) 487-9500 or by contacting him via e-mail at boardofdirectors@vitalimages.com. All communications will be reviewed by management and then forwarded to the appropriate Director or Directors or to the full Board, as appropriate.

Director Compensation

Compensation for the non-employee directors is set by the Compensation Committee. Key considerations in determining director compensation are for a meaningful portion of director compensation to be in the form of stock options, to align directors' long-term interests with those of shareholders, and for the compensation program to be simple and transparent. Effective as of September 1, 2008, the Compensation Committee adjusted the cash component of director compensation, so that compensation paid after that date was solely on a retainer basis, and meeting fees were discontinued.

The following table sets forth information about the compensation paid by the Company to and earned by its non-employee Directors for the year ended December 31, 2010:

1997 Director Stock Option Plan. The Vital Images, Inc. 1997 Director Stock Option Plan (the “1997 Director Plan”) was adopted by the Board of Directors on March 19, 1997 and approved by the sole shareholder of the Company on May 1, 1997. It automatically terminated on March 19, 2007, although options outstanding under the 1997 Director Plan on that date were not affected by the 1997 Director Plan's termination. The 1997 Director Plan was intended to assist the Company in attracting, motivating and retaining well-qualified individuals to serve as Directors of the Company. The 1997 Director Plan provided for both the automatic and discretionary grant of options. The only individuals eligible to receive options under the 1997 Director Plan were members of the Board of Directors of the Company, and the only individuals eligible to receive automatic grants of options under the 1997 Director Plan were those Directors of the Company who were not employees of the Company. The 1997 Director Plan provided that the total number of shares of the Company's common stock that may be purchased upon the exercise of options could not exceed 500,000 shares, subject to adjustment as provided in the 1997 Director Plan. The 1997 Director Plan was administered by the Board of Directors of the Company.

During the term of the 1997 Director Plan, all grants of stock options under the 1997 Director Plan and the amounts and terms of the options so granted were automatically determined under the 1997 Director Plan, and there were no discretionary grants of options under the 1997 Director Plan. As such, the Board of Directors had no authority to determine the grant or terms of such automatic grants. Under the 1997 Director Plan, non-employee Directors of the Company received automatic grants of stock options to purchase 18,000 shares on their initial election or appointment to the Board of Directors and on each third anniversary of their appointment to the Board so long as they were members of the Company's Board. As of February 28, 2011, options to purchase 180,000 shares were outstanding under the 1997 Director Plan, all of which were automatic grants.

2006 Long-Term Incentive Plan. On March 9, 2006, the Company's Board of Directors adopted and, on May 4, 2006, the Company's shareholders approved, the Vital Images, Inc. 2006 Long-Term Incentive Plan (the “2006 Plan”). Throughout 2006, the provisions of the 2006 Plan providing for the automatic grant of options to non-employee Directors generally were the same as those of the 1997 Director Plan, although no options were granted under the 2006 Plan to non-employee Directors during 2006. The 2006 Plan was amended by the Board of Directors on February 2, 2007 to change certain features of the automatic grants of options to non-employee Directors. As amended on February 2, 2007, the 2006 Plan provides that when a non-employee Director is first elected or appointed to the

Board, the Director will automatically receive an option to purchase a number of shares of common stock determined by multiplying 9,000 shares by a fraction, the numerator of which is the expected number of months until the next annual meeting of the Company's shareholders and the denominator of which is twelve. As amended on February 2, 2007, the 2006 Plan provides that beginning in 2008, each non-employee Director was to be automatically granted, on the day after the Company's annual meeting of shareholders, an option to purchase 9,000 shares of common stock, with the exception of Michael W. Vannier, M.D., who was to receive an option to purchase 5,000 shares on such date in 2008. In addition, the Compensation Committee and the Board of Directors approved the one-time grant under the 2006 Plan to James B. Hickey, Jr. and Gregory J. Peet on the day after the 2007 annual shareholders' meeting of an option to purchase 12,000 shares and 5,000 shares, respectively, as a time cycle adjustment for them. Beginning in 2009, each non-

Table of Contents

employee Director was to receive an annual automatic grant of an option to purchase 9,000 shares of common stock on the day after the annual shareholders' meeting. However, when at the conclusion of the Company's stock repurchase program in early February 2009, the number of outstanding shares of Company common stock had been reduced from approximately 17.2 million shares to approximately 14.5 million shares, or approximately 15.7%, the Compensation Committee elected to eliminate the automatic grant for 2009 of an option to purchase 9,000 shares and instead authorized a grant to each non-employee Director of an option to purchase 7,600 shares, which is approximately 15.7% fewer shares, and for such option to be awarded on the day after the 2009 Annual Meeting. As a result of continued reductions in our shares outstanding, instead of providing the automatic grant of an option to purchase 9,000 shares in 2010 and 2011, the Compensation Committee has elected to provide a grant in each year to each non-employee Director of options to purchase 7,500 shares, to be awarded on the day after the respective Annual Meeting. All options granted to Directors under the 2006 Plan will vest one year after the date of grant, have a term of five years, and have an exercise price equal to the closing price of the Company's common stock as of the date of grant.

In addition to automatic option grants, the 2006 Plan permits the Compensation Committee to make discretionary grants of stock options to any and all Directors, including non-employee Directors. Upon the discretionary grant of options to the Company's non-employee Directors under the 2006 Plan, the Compensation Committee will fix the number of shares of the Company's common stock that the optionee may purchase upon exercise of the option and the exercise price at which the shares may be purchased. The exercise price of such options cannot be less than the fair market value of the common stock at the time the option is granted. Each option will be exercisable by the optionee only during the term fixed by the Compensation Committee, with such term ending not later than five years after the date of grant.

All options granted to non-employee Directors under the 2006 Plan are non-qualified options not intended to qualify as incentive stock options under Section 422 of the Internal Revenue Code of 1986, as amended. Payment for shares upon exercise of any automatic or discretionary options granted to non-employee Directors under the 2006 Plan may be made in cash, in shares of Company's common stock that have been owned for more than six months having an aggregate fair market value on the date of exercise which is not less than the exercise price of the shares of common stock being purchased, partly in cash and partly in such shares, or by the delivery of irrevocable instructions to a broker to sell shares of common stock obtained upon the exercise of an option and to deliver to the Company an amount out of the proceeds of such sale equal to the aggregate exercise price of the shares being purchased. As of February 28, 2011, non-employee Directors held 172,600 options to purchase shares under the 2006 Plan, all of which were automatically granted options, with the exception of the 2007 grants to Messrs. Hickey and Peet and the 2008 grant to Dr. Vannier.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 requires the Company's Directors, executive officers, and any persons holding more than 10% of the outstanding common stock of the Company to file reports with the Securities and Exchange Commission concerning their initial ownership of common stock and any subsequent changes in that ownership. The Company believes the filing requirements for its Directors and Named Executive Officers were satisfied for 2010, with the exception of one Form 3 filing in April 2010 for Oran E. Muduroglu, which was filed 61 days late. In making this disclosure, the Company has relied solely on written representations of its Directors, executive officers and beneficial owners of more than 10% of its common stock and on copies of the reports that they have filed with the Securities and Exchange Commission.

Compensation Discussion and Analysis

Compensation Philosophy and Components

We compete in a competitive market for personnel, both for executives and for non-executive employees. Desirable candidates for employment at Vital Images may also have attractive opportunities from many other employers, such as multi-national medical device companies, venture-backed or fast-growing medical device or technology companies, and academic research institutions. Our long-term success depends on our ability to develop and market innovative solutions that improve the cost, quality and accessibility of healthcare, which is a very competitive market. To achieve our goals, it is critical that we be able to attract, motivate and retain highly talented individuals at all levels of the organization.

The Compensation Committee of our Board of Directors bases its executive compensation programs on the same objectives that guide the Company in establishing all of its compensation programs:

- Compensation should be based on the level of job responsibility, individual performance and Company performance. As employees progress to higher levels in the organization, an increasing proportion of their pay should be linked to Company performance because they are more able to affect its results.

- Compensation should reflect the value of the job in the marketplace. To attract and retain a highly skilled work force, we must remain competitive with the pay of other premier employers who compete with us for talent.
- Compensation should reward performance, and the objectives of pay-for-performance and retention must be balanced.
- To be effective, performance-based compensation programs should measure the achievement of objectives that are critical for driving the success of the Company.
- Although compensation and benefit programs and individual pay levels will reflect differences in job responsibilities, geographies and marketplace considerations, the overall structure of compensation and benefit programs should be broadly similar across the organization.
- Except for benefits and programs that are available to all of our employees or a broad selection of our general employee population, our executives should receive few perquisites, if any. Perquisites for executives should be rare and limited to those that are important to the Company's ability to attract and retain executive leadership or the executive's ability to safely and effectively carry out his or her responsibilities.

Table of Contents

The Compensation Committee is responsible for assuring that compensation for our executives is consistent with our compensation philosophy. The Compensation Committee reviews our compensation philosophy and trends in our industry to ensure that our executive compensation program is competitive and attracts and retains talented management, motivates our executives to achieve short- and long-range corporate objectives, and aligns the motivation and interests of the executives with the interests of our shareholders.

The Compensation Committee administers our equity-based compensation and management incentive programs and other compensation initiatives identified by the Board. The Compensation Committee annually reviews and approves each executive's base salary, equity incentives, and our management incentive plan under which the executive officers may receive non-equity incentive compensation.

We view the various components of compensation as related but distinct. Although the Compensation Committee does review and consider total compensation for each executive officer and for all executive officers as a group, we do not believe that significant compensation derived from one component of compensation should necessarily negate or reduce compensation from other components. We determine the appropriate level for each compensation component based in part, but not exclusively, on the following factors:

- internal equity and consistency;
- the executive compensation paid by other companies with which we compete for executive talent;
- individual performance; and
- Company performance.

The Compensation Committee has not adopted any formal or informal policies or guidelines for allocating compensation between long-term and currently paid-out compensation, between cash and non-cash compensation, or among different forms of non-cash compensation.

For 2010, our named executive officers were Michael H. Carrel, President and Chief Executive Officer; Peter J. Goepfrich, Chief Financial Officer; Steven P. Canakes, Executive Vice President — Global Sales and Sales Operations; Vikram Simha, Chief Technology Officer; and Aaron (Erkan) Akyuz, Executive Vice President — Product Strategy and Development (the “Named Executive Officers”).

Setting Executive Compensation

At the end of each calendar year, the members of the Compensation Committee hold several conversations to discuss the desired process and data to determine executive compensation for the following year. These meetings continue through approximately the end of February and the President and Chief Executive Officer and the Chief Financial Officer participate in some, but not all, of the conversations. During the review sessions for 2010, management and the Compensation Committee decided, based on the Company's results during 2009, to continue a salary freeze for Named Executive Officers that it had instituted in 2009. Therefore, although the Compensation Committee did consider information about market compensation for similar roles, based on comparisons with benchmark companies and various surveys, as well as information obtained by the members of the Compensation Committee while serving on boards of other companies, the Compensation Committee decided again not to increase base salaries for the Named Executive Officers.

As in other years, in 2010, the Compensation Committee considered various factors in determining executive compensation, including the following:

- Motivate, attract and retain high-caliber executives who will achieve short- and long-range business objectives;
- Create a direct, meaningful link between business and team success and individual performance and rewards;
-

Foster a sense of urgency and a strong pay-for-performance culture that provides market-leading compensation opportunities commensurate with outstanding performance; and

- Reward for superior execution of Company goals which support Company growth and create additional shareholder value.

Base Salary

Executive officers receive a base salary to compensate them for services rendered during each year. Base salary is determined by assessing the executive's sustained performance against his or her individual job responsibilities, including the impact of such performance on our business results, market data and comparisons to other Company officers.

Table of Contents

Salary levels are considered annually as part of our performance review process as well as upon a promotion or other change in job responsibility. Increases in the salary of the President and Chief Executive Officer are determined by the Compensation Committee based on its assessment of his performance and his achievement of goals. For other Named Executive Officers, increases in base salary are determined by reference to each individual's performance review and the recommendation of the President and Chief Executive Officer. Because the Company implemented a salary freeze for 2009 and continued that salary freeze for Named Executive Officers in 2010, no merit-based increases were given during 2010 to the CEO or any of the Company's other Named Executive Officers.

Bonus

Bonuses to executive officers are determined and paid under the management incentive plan established each year. Payments under the annual management incentive plan are tied to the level of achievement of annual performance targets by our executives. These targets are based on our annual budget as approved by the Board of Directors. An executive's annual incentive opportunity is based upon a percentage of his or her base salary. The management incentive plan under which bonuses are determined and paid consists of two major components that we believe will have the most positive effect on shareholder value — corporate performance and personal performance.

For 2010, we based the corporate performance portion of the management bonus upon achievement as measured by two financial performance objectives and one company performance objective, which are the following:

- income before taxes, interest, depreciation, amortization and equity-based compensation, which we refer to as “adjusted EBITDA”;
- revenue; and
- achievement of certification for the Company's customer support operations.

Additionally, for Mr. Canakes, our Executive Vice President — Global Sales and Sales Operations, a fourth factor for his bonus was achievement against a sales-based objective. The Compensation Committee also retained discretion to adjust the bonuses for each Named Executive Officer, based on that person's overall performance.

The targeted bonus for each Named Executive Officer for 2010 was the following percentages of his base salary:

Name	Positions with the Company	Targeted Bonus Percent	
Michael H. Carrel	President and Chief Executive Officer	65	%
Peter J. Goepfrich	Chief Financial Officer	50	%
Aaron (Erkan) Akyuz	Executive Vice President — Product Strategy and Development	35	%
Steven P. Canakes	Executive Vice President — Global Sales and Sales Operations	75	%
Vikram Simha	Chief Technology Officer	35	%

The bonus target for each executive during 2010 was the same as that executive's 2009 bonus target. In 2010, the following percentages of potential bonus for each Named Executive Officer was based on achievement of the following goals:

	Executive Vice President — Global Sales and Sales Operations (Steven P. Canakes)	All Other Named Executive Officers (Michael H. Carrel, Peter J. Goepfrich, Vikram Simha, Aaron (Erkan) Akyuz)	
Adjusted EBITDA Objective	10	50	%

Edgar Filing: VITAL IMAGES INC - Form DEF 14A

Revenue Objective	10	45	
Customer Support Certification	5	5	
Sales Objective	75	—	
Total Target	100	% 100	%

The Compensation Committee chose the financial performance objectives of revenue and adjusted EBITDA because it believed they are objective and well-known measures, and because the Compensation Committee believed that achievement of the objectives would directly benefit the shareholders. The customer support certification objective was chosen because

17

Table of Contents

management and the Compensation Committee believed that focus on the quality of service provided by the Company is a strong indicator of customer satisfaction, which, the Company believes, is a good long-term indicator of whether customers will continue to purchase the Company's products and services. The sales objective for Mr. Canakes was selected to recognize the impact of his job performance to the Company's sales.

The financial performance objectives have minimum achievement levels and maximum potential bonuses for overachievement. Results below the minimum achievement levels will result in no bonus for that objective. After the minimum is obtained, actual results within an achievement range will be interpolated until the maximum potential bonus is achieved. The objective for customer support certification was designed to be either achieved or not.

Our 2010 corporate performance measurement amounts for all objectives were the same for all of our Named Executive Officers, with the exception of the sales objective for Mr. Canakes. For 2010, the Compensation Committee approved targets of 100% bonuses for Named Executive Officers upon the achievement of \$7.5 million of adjusted EBITDA and \$66.0 million of revenue. Achievement of the customer support objective was based on obtaining certification by J.D. Power and Associates. Overachievement against the adjusted EBITDA and revenue targets could have earned up to 230% of the bonus amount eligible for award under those two objectives. For 2010, the sales objective at which Mr. Canakes could receive 100% of his target bonus was \$17.0 million in direct bookings. Overachievement against the sales objective target could have earned up to 200% of the eligible bonus amount.

Our targets for revenue and adjusted EBITDA in 2010 were chosen to represent growth over our results in 2009, and thus were considered to be difficult to achieve. No bonuses were to be earned for either the adjusted EBITDA or revenue objectives unless results in 2010 substantially exceeded those in 2009. For example, to achieve an on-target bonus for adjusted EBITDA in 2010, the Company needed growth of more than 75% over the adjusted EBITDA obtained by the Company in 2009. The Compensation Committee also felt achievement of these objectives would drive significant value for our shareholders.

The bonus paid to each Named Executive Officer for performance in 2010 and the components of that payment was the following:

Executive	Michael H. Carrel	Peter J. Goepfrich	Aaron (Erkan) Akyuz	Steven P. Canakes	Vikram Simha
Title	President and Chief Executive Officer	Chief Financial Officer	Executive Vice President — Product Strategy and Development	Executive Vice President — Global Sales and Sales Operations	Chief Technology Officer
Adjusted EBITDA Objective	\$24,396	\$12,713	\$10,594	\$4,840	\$10,170
Revenue Objective	—	—	—	—	—
Customer Support Objective	10,075	5,250	4,375	1,999	4,200
Sales Objective	—	—	—	54,959	—
Performance Adjustment	—	2,200	10,000	(3,500)	—
Total Bonus	\$34,471	\$20,163	\$24,969	\$58,298	\$14,370

In 2010, the Company achieved approximately 24% of the adjusted EBITDA objective for Named Executive Officers and attained the customer support certification, but did not attain the minimum threshold for payout under the revenue objective. In 2010, Mr. Canakes achieved 46% of his target sales objective.

The Compensation Committee exercised its retained discretion to adjust the bonuses for each Named Executive Officer, based on that person's overall performance apart from the management incentive plan. These adjustments were based on performance against individual objectives for each person, which are determined annually and may be quantitative or qualitative, or because of specific achievements by the officer that were not part of his annual objectives. Individual performance objectives for each Named Executive Officer are determined by discussions between that person and the President and Chief Executive Officer or, in the case of the President and Chief Executive Officer, by the Compensation Committee. The President and Chief Executive Officer approves the personal objectives of the other Named Executive Officers and measures their performance. Most of the personal objectives are considered to be difficult to achieve, but attainable.

The management incentive plan is administered by the Board of Directors and Compensation Committee, which have the right, at any time and at their discretion, to amend the plan, increase or decrease individual payout amounts, whether earned or

unearned, or terminate the plan, in whole or in part. The Company follows applicable laws and regulations regarding recovery of any bonus or other incentive-based or equity-based compensation, or profits realized from the sale of securities, resulting from misconduct. The Compensation Committee also retains discretion to award special bonuses for outstanding achievement.

Equity-Based Compensation Program

Our shareholder-approved equity compensation plan permits a variety of equity awards. Grants of stock options and restricted stock awards are the primary vehicles for offering long-term incentives to executive officers and key employees. The objectives of our equity-based compensation program are to advance the longer-term interests of the Company, complement incentives tied to annual performance, and align the interests of executives more closely with those of our shareholders. We believe that long-term incentives provided by stock options and restricted stock awards are especially significant in motivating our executives and retaining their services. The number of stock options and restricted stock awards granted is based on the executive's position and performance in that position. During 2010, as in prior years, we granted stock options to executives and other senior officers in March 2010 as part of our Company-wide annual grant. The Named Executive Officers did not receive restricted stock grants during 2010. We will continue to evaluate what types of equity award vehicles achieve the best balance between continuing our successful practice of providing equity-based compensation and creating and maintaining long-term shareholder value.

The Compensation Committee has prescribed standardized target option grants for the Company's executives as a percentage of shares outstanding. Within the prescribed target, the Compensation Committee considers recommendations made by the President and Chief Executive Officer with regard to grants of options and restricted stock awards to executive officers. The Compensation Committee reviews these recommendations and approves grants of options and restricted stock awards based on, among other factors, historical grants, the value of past grants and the Company's performance. In granting stock options and restricted stock awards, the Compensation Committee considers trends in equity-based compensation and whether they are consistent with our compensation philosophy. They also consider our "overhang" percentage; that is, the number of our shares that are subject to outstanding options and other awards, such as restricted stock, as a percentage of the number of our shares outstanding.

Grants of stock options and awards of restricted stock to executive officers and other key employees are considered at a series of meetings of the Compensation Committee that are held in the first quarter of each year. Grants to newly-hired employees are effective on the employee's first day of employment, and grants to employees who are promoted during the fiscal year are effective on the later of the date of their promotion and the date the Compensation Committee approves the grants. To facilitate the grant of options and restricted stock awards to existing and newly-hired non-executive employees, the Board of Directors and the Compensation Committee authorized Michael H. Carrel and Peter J. Goepfrich to grant individual stock options during 2010 to such employees, subject to the terms of the applicable plan and guidelines approved by the Compensation Committee and the Board. The exercise price of all stock options granted is equal to the closing price of our common stock as reported on the NASDAQ Global Select Market on the date of grant.

All grants of stock options to Named Executive Officers during 2010 contained vesting provisions. Options granted during 2010 were to vest as to 28% of the amount granted on the first anniversary of the grant date, with an additional 2% of the grant amount to vest each month thereafter until the entire option vests on the fourth anniversary of the date of its grant. However, in order to vest, the holder of the option must be an employee of the Company on the scheduled vesting dates.

In an effort to reduce option overhang and increase long-term shareholder value, during 2010, our Directors approved a company-wide stock option repurchase program, under which outstanding stock options held by employees with an exercise price at or above \$25 per share could be tendered to the Company in exchange for a cash payment equal to 80% of the value of the option, as determined by the Black-Scholes option pricing model. Our Named Executive Officers were eligible to participate in this program, as were all other employees of the Company, but non-employee Board members were not eligible. We conducted this program during the first quarter of 2010 and 360,442 options, or 88.7% of the eligible options, were tendered to the Company, in exchange for which the Company paid an aggregate of \$194,098. Our Named Executive Officers tendered 88,000 options in exchange for aggregate cash payments of \$30,180. Although the Company recognized that some independent corporate governance organizations expect that companies conducting such programs first obtain shareholder approval before undertaking such a program, for many reasons the Board determined that it would be in the interest of the Company and our shareholders to not wait for shareholder approval before conducting the program. These reasons include the following:

- If all eligible options would have been tendered, the amount of cash that would have been paid by the Company would have been less than 0.18% of the Company's cash and cash equivalents as of the date of the tender, which is a negligible amount;

Table of Contents

- During the first quarter of each year, the Company informs employees of the annual compensation program, including base salary increases, equity grants, payment under the prior year's bonus plan, and the terms of the new year's bonus program, and because the Company had not increased base salaries in 2009, reduced the amount of its equity incentive grants to employees in 2009 and was going to continue that reduction in 2010, and was announcing significant changes to the Company's medical plans in 2010, the Board believed it was important for employee morale to connect the timing of the repurchase program to the Company's announcement of its annual compensation program instead of waiting for shareholder approval to conduct the program, which, if received, would have caused the program to occur in the third quarter;
- In addition to the Board's awareness that the aggregate payment under the program would be minimal, the Board also was aware that the payment to any individual, including Named Executive Officers, would be relatively minor to that individual in context of the person's total compensation, with the payments to our Named Executive Officers equaling approximately 1.6% of their total compensation in 2010; and
 - If all eligible options had been tendered, the "overhang" of the Company, which is calculated as a percentage of outstanding shares of common stock represented by outstanding option grants and had increased on a percentage basis by the Company's repurchase of 3.3 million shares of common stock prior to the announcement of the program, would have been reduced by approximately 2.8%, which reduction the Board considered to be a material benefit to our shareholders.

Stock Ownership and Retention Guidelines. In May 2006, the Board of Directors approved stock ownership guidelines that apply to all Directors and executive officers. The guidelines are overseen by our Governance and Nominating Committee. Under these guidelines, ownership targets for executive officers are a multiple of base salary (not including bonuses, such as performance or signing bonuses), varying by management level, and the ownership target for members of the Board is based on the value of our common stock, as follows:

Level	Target
Board members	\$100,000
Chief Executive Officer	2.0 times base salary
Chief Operating Officer	1.5 times base salary
Other executive officers	1.0 times base salary

The guidelines provided that ownership was to be measured as of December 31, 2010 for those who were executive officers on that date, with reference to the executive officer's base salary for the year then ended and using the fair market value of our common stock as of December 31, 2010. To the extent that a Board member or executive officer did not already satisfy the applicable ownership and valuation requirements, he or she is expected to meet the target over the later of four years from December 31, 2010 or five years from the date such person became a Board member or assumed his current executive officer position. Ownership for new executive officers and Board members is measured on the last trading date of the year before they became an executive officer or Board member, if such service began in the first half of the year, or the last trading date of the year in which they became an executive officer or Board member, if such service began in the last of the year, with reference to the executive officers' annualized base salaries. Shares that count include all shares directly or beneficially owned by the executive officer or Board member, except for shares subject to unvested options and unvested restricted stock awards. As of December 31, 2010, all the Directors and Named Executive Officers either met the guidelines or were making satisfactory progress toward meeting them, in the opinion of the Governance and Nominating Committee.

If a Director or executive officer desires to sell any shares of our stock, we recommend that person adopt a 10b5-1 plan, which provides a safe harbor from liability under the anti-fraud provisions of the Exchange Act for sales complying with such a written plan that includes either the number of shares to be sold and the prices at which they will be sold or a formula under which the number of shares and sales prices are determined. We also encourage all Directors and Named Executive Officers who exercise options to retain and hold at least 10% of the shares obtained

upon their exercise. Under our policy prohibiting insider trading, which applies to all Directors and employees, the 10b5-1 plans must be reviewed and approved by the chair of the Compensation Committee and outside securities counsel before they can be adopted.

Role of Executive Officers in Compensation Decisions

As part of the Compensation Committee's meetings to determine executive compensation, our President and Chief Executive Officer presents his recommendations regarding changes in his compensation and the compensation for our other executive officers. The Compensation Committee discusses these recommendations and accepts or adjusts them, in whole or in part. The President and Chief Executive Officer is not present during the Compensation Committee's final discussions or determination of his compensation, but he participates in some of the discussions regarding other executive officers'

Table of Contents

compensation. The Chief Financial Officer also may be present for discussions regarding compensation for the vice presidents. The other executive officers are not present during the Compensation Committee's discussions of their compensation. The chair of the Compensation Committee presents the Compensation Committee's findings regarding compensation for executive officers to the Board of Directors at one or more meetings typically held before mid-March of each year to obtain the Board's input. The inputs from the President and Chief Executive Officer are considered by the Compensation Committee when it determines executive compensation for that year, including executive salaries, the management incentive plan, and stock options and restricted stock awards.

Benefits

Our executive officers are eligible for all benefits generally available to our full-time permanent employees. Other than contributions to 401(k) retirement savings plans for our U.S. employees and contributions to savings programs for our European employees, we do not provide pension arrangements, post-retirement health coverage, or similar benefits for our executives or employees. Any benefits that are provided only to executive officers are usually directly related to unique features of that executive's position, such as being an expatriate, or when the executive officer undertakes actions at our request, such as relocating. The benefits we provided in 2010 to executive officers are described in the Summary Compensation Table included elsewhere in this proxy statement.

All employees, including the executive officers, are entitled to participate in the Vital Images, Inc. Salary Savings Plan qualified under Section 401(k) of the Internal Revenue Code of 1986, or 401(k) plan. The 401(k) plan has been highlighted as a positive element of compensation in our employee satisfaction survey results. Each employee that is at least 21 years of age may, commencing on the first day of the quarter after which the employee has attained three months of service, elect to contribute to the 401(k) plan through payroll deductions of up to 100% of his or her salary, subject to certain limitations. At the discretion of the Board of Directors, we may make matching contributions equal to a percentage of the salary deduction contributions or other discretionary amounts. The Company paid \$372,000 in matching contributions in 2010, \$372,000 in 2009, and \$412,000 in 2008. Matching contributions to the 401(k) plan on behalf of the Named Executive Officers are described in the Summary Compensation Table.

Perquisites

The Named Executive Officers are eligible for the same health and welfare programs and benefits as the rest of the Company's employees. In addition, Mr. Simha received reimbursement from the Company during 2010 for the costs of airfare, housing and automobile rental, as well as related gross-up of the taxes related to these reimbursements. The Company agreed to these perquisites with Mr. Simha to assist him with the costs of commuting to the Company's headquarters in Minnetonka, Minnesota, while maintaining a home residence in another location. Mr. Simha is a leading executive for the Company's research and development activities, and it was determined that providing such perquisites was necessary to recruit and retain him to the Company. The Company's costs for these perquisites are set forth in the Summary Compensation Table.

Employment and Other Agreements

All Named Executive Officers have at-will employment agreements with the Company, which include confidentiality and non-competition provisions, and also provide for payment of severance compensation if the Company terminates any of these executive officers' employment without cause, or if the executive officer resigns for good reason. Severance is equal to 12 months of base salary for Mr. Carrel, nine months of base salary for each of Mr. Simha and Mr. Akyuz, and six months of base salary for each of Mr. Goepfrich and Mr. Canakes. For Mr. Carrel, the Company will also continue to pay the same portion of his employee welfare benefits as the Company was paying before his termination for a period of 12 months after his termination. For each of Mr. Simha and Mr. Akyuz, the Company will also continue to pay the same portion of his employee welfare benefits as the Company was paying before his termination for a period of nine months after his termination. For Mr. Goepfrich, the Company will also continue to pay the same portion of his employee welfare benefits as the Company was paying before his termination for a period of six months after his termination.

Change in Control Agreements

The Company has entered into change in control agreements with each of its Named Executive Officers and certain other officers that provide for lump sum cash payments equal to his annual base salary — twice in the case of Mr. Carrel and Mr. Canakes — in effect on the date of a “change in control” of the Company, as defined in such agreements, as well as continued payment of the employee welfare benefits then in effect for each Named Executive Officer for a period of 24 months upon a change in control of the Company. Payments under the agreements are to be made if the officer's employment with the Company is terminated for any reason other than death, cause, disability or retirement, or if he or she terminates his or her employment with the Company for good reason, or, in the case of Mr. Carrel, for any reason, and the termination occurs within 12 months following a change in control, or before a change in control if his or her termination was a condition of the change in control.

Post-Employment Compensation

Potential Payments upon Termination of Employment or Change in Control

The tables below reflect the amount of compensation to each of the Named Executive Officers of the Company who were employees as of December 31, 2010 in the event of termination of such executive's employment. The amounts of compensation payable to each such Named Executive Officer upon retirement, termination without cause or resignation for good reason, termination for cause or resignation without good reason, voluntary or involuntary termination following a change in control, and death are shown below. The amounts shown assume that such termination was effective as of December 31, 2010, include amounts earned through such time, and are estimates of the amounts which would be paid out to the Named Executive Officers upon their termination. The actual amounts to be paid out can be determined only at the time of such executive's separation from the Company. In addition, there may be re-negotiation of the payments upon any termination of employment or change in control.

Both of our equity award plans that cover our employees, consisting of the 1997 Stock Option and Incentive Plan and the 2006 Long-Term Incentive Plan, provide that the restrictions on all shares of restricted stock shall lapse immediately, and all outstanding options will become exercisable immediately, if any of the following events occur: (i) the sale, lease, exchange or other transfer of substantially all of the assets of the Company; (ii) the liquidation or dissolution of the Company; (iii) certain mergers or consolidations of the Company which result in a reduction in the voting power of the current shareholders of the Company; (iv) any person becomes the beneficial owner of more than 20% of the Company's common stock without the advance approval of the incumbent Directors or more than 50% of

the voting power of the Company's outstanding stock without regard to consent by the incumbent Directors; (v) the incumbent Directors cease for any reason to constitute at least a majority of the Board; or (vi) any other change in control of the Company of a nature that would be required to be reported pursuant to Section 13 or Section 15(d) of the Exchange Act.

We do not provide any nonqualified defined contribution or other deferred compensation plans.

Compensation Risk Analysis

The process the Company used to analyze its compensation risks began with the Chief Financial Officer and leadership in our Human Resources department documenting each of the Company's incentive compensation programs, identifying, for each program, the type of plan, the persons eligible to receive incentive compensation under the program, the activities or results necessary to receive incentive compensation under the program, and the possible risks that may result from an individual's attempts to achieve such incentive compensation. Management also examined risk mitigating factors, such as the balance of incentives created by and within various incentive programs. Then, management and the Compensation Committee reviewed the catalogue and assessed whether any of the programs could create risks that are reasonably likely to have a material adverse effect on the Company. In that discussion, it was determined that none of the Company's incentive compensation programs create risks that are reasonably likely to have a material adverse effect on the Company.

ADVISORY (NON-BINDING) VOTE ON THE COMPENSATION PAID
TO OUR NAMED EXECUTIVE OFFICERS
(Proposal 2)

Introduction

The foundation of Vital Images' executive compensation program is to pay for performance. Base compensation for our executive officers are set relatively low against their peer groups and a meaningful portion of the compensation to our executive officers is based on long-term equity incentive compensation and annual non-equity incentive compensation, which is focused on the key results and strategic drivers of our business. We believe that our executive compensation program aligns our incentive compensation with the long-term interests of our shareholders because it is designed to motivate our executives to deliver long-term sustainable growth and shareholder value, and to provide retention incentives.

All of our Named Executive Officers are subject to at-will employment agreements. Base salaries for our CEO and CFO were the same in 2010 as they were in 2009 and 2008. We do not maintain any supplemental executive retirement plans for our executive officers and our Named Executive Officers participate in a retirement program that is open to all of our U.S. employees. We also have a stock ownership policy that requires our Named Executive Officers and other key executives to reach and retain certain levels of ownership of our common stock. We generally do not provide significant perquisites and other personal benefits.

We urge you to read the Compensation Discussion and Analysis section of this proxy statement for additional details on our executive compensation, including our compensation philosophy and objectives and the 2010 compensation of our Named Executive Officers. We believe that viewed as a whole, our compensation practices and policies are appropriate and are fair to both the company and its executives.

Proposal

The U.S. Congress has enacted requirements commonly referred to as the "Say on Pay" rules. As required by those rules, we are asking you to vote on the adoption of the following resolution:

BE IT RESOLVED by the shareholders of Vital Images, Inc., that the shareholders approve the compensation of the company's Named Executive Officers as disclosed pursuant to Item 402 of Regulation S-K in the company's proxy statement for the 2011 Annual Meeting of Shareholders.

Shareholder Approval

Proxies will be voted in favor of the resolution unless shareholders specify otherwise in their proxies. The voting option, if any, that receives the affirmative vote of a plurality of the voting power present (in person or by proxy) at the meeting and entitled to vote on this item of business will be the option adopted by the shareholders in accordance with the voting standard established by Vital Images' bylaws. As an advisory vote, this proposal is non-binding. However, the Board and our Compensation Committee, which is responsible for designing and overseeing the administration of our executive compensation program, values the opinions of our shareholders, and will consider the outcome of the vote when making future compensation decisions for our Named Executive Officers.

THE BOARD OF DIRECTORS RECOMMENDS THAT THE SHAREHOLDERS VOTE FOR PROPOSAL 2, THE APPROVAL OF THE COMPENSATION OF OUR NAMED EXECUTIVE OFFICERS AS DISCLOSED IN THE

PROXY STATEMENT PURSUANT TO THE SEC'S COMPENSATION DISCLOSURE RULES.

ADVISORY (NON-BINDING) VOTE ON FREQUENCY OF SAY-ON-PAY VOTE
(Proposal 3)

As required under the new rules adopted by the U.S. Congress and the SEC in connection with the say-on-pay vote described in Proposal 2 above, our shareholders will also have an opportunity to cast an advisory, non-binding vote on how frequently future say-on-pay votes should be conducted by the Company. Shareholders may indicate whether they would prefer an advisory vote on executive compensation every one, two or three years. We are required to solicit shareholder votes on the frequency of future say-on-pay proposals at least once every six years, although we may seek shareholder input more frequently.

We have given significant thought to our recommendation with respect to the frequency of the voting on Say on Pay by our stockholders. We have determined that a vote each year is preferable because it would provide more consistent feedback on our compensation programs, policies and decisions. The frequency selected by the stockholders for conducting Say on Pay voting at the annual meetings of the stockholders of the company is not a binding determination. However, the frequency selected will be given due consideration by the Company in its discretion.

Shareholder Approval

The proxy card provides shareholders with the opportunity to choose among four options (holding the say-on-pay advisory vote once every one, two or three years, or abstaining from voting on this item). As a result, shareholders will not be voting to approve or disapprove the recommendation of the Board of Directors.

Proxies will be voted for the option of once every year unless shareholders specify otherwise in their proxies. The voting option, if any, that receives the affirmative vote of a plurality of the voting power present (in person or by proxy) at the meeting and entitled to vote on this item of business will be the option adopted by the shareholders in accordance with the voting standard established by Vital Images' bylaws. However, the results of this vote are not binding on the board, whether or not any option is passed under this voting standard. In evaluating the vote on this advisory resolution, the board will consider the voting results in their entirety.

THE BOARD OF DIRECTORS RECOMMENDS THAT THE SHAREHOLDERS VOTE FOR THE OPTION OF ONCE EVERY YEAR AS THE PREFERRED FREQUENCY FOR ADVISORY SAY-ON-PAY VOTES ON EXECUTIVE COMPENSATION AS SET FORTH IN PROPOSAL 3.

(4) All other fees are fees for other permissible work performed by PricewaterhouseCoopers LLP that does not meet the above category descriptions.

As provided in the Audit Committee's charter, all engagements for any non-audit services by the Company's independent registered public accounting firm must be approved by the Audit Committee before the commencement of any such services. All such services were pre-approved for the last two fiscal years. The Audit Committee may

designate a member or members of the Audit Committee to represent the entire Audit Committee for purposes of approving non-audit services, subject to review by the full Audit Committee at the next regularly scheduled meeting.

The Audit Committee considers the provision of services by PricewaterhouseCoopers LLP to the Company, over and above the external audit fees, to be compatible with PricewaterhouseCoopers LLP's ability to maintain its independence.
