UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 31, 2014

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number: 001-13103

Ciber, Inc.

(Exact name of Registrant as specified in its charter)

Delaware

38-2046833

(State or other jurisdiction of incorporation or organization)

(I.R.S. Employer Identification No.)

6363 South Fiddler's Green Circle, Suite 1400,
Greenwood Village, Colorado

80111

(Address of Principal Executive Offices)

(Zip Code)

(303) 220-0100

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Edgar Filing: CIBER INC - Form 10-Q

Large accelerated filer

Accelerated filer

Non-accelerated filer
(Do not check if a smaller reporting company)

Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

There were 77,637,804 shares of the registrant's Common Stock outstanding as of April 25, 2014.

Ciber, Inc. and Subsidiaries
Notes to Consolidated Financial Statements
(Unaudited)

(1) Basis of Presentation

The accompanying unaudited interim consolidated financial statements of Ciber, Inc. and its subsidiaries (together, “Ciber,” “the Company,” “we,” “our” or “us”) have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (the “SEC”) for quarterly reports on Form 10-Q and do not include all of the information and note disclosures required by U.S. generally accepted accounting principles (“U.S. GAAP”) for complete financial statements. These consolidated financial statements should therefore be read in conjunction with the consolidated financial statements and notes thereto for the fiscal year ended December 31, 2013, included in our Annual Report on Form 10-K filed with the SEC. The accompanying unaudited interim consolidated financial statements have been prepared in accordance with U.S. GAAP and include all adjustments of a normal, recurring nature that are, in the opinion of management, necessary to present fairly the financial position and results of operations for the interim periods presented. The results of operations for an interim period are not necessarily indicative of the results of operations for a full fiscal year.

Recent Accounting Pronouncements — In March 2013, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update No. 2013-5, Foreign Currency Matters (Topic 830)-Parent’s Accounting for the Cumulative Translation Adjustment upon Derecognition of Certain Subsidiaries or Groups of Assets within a Foreign Entity or of an Investment in a Foreign Entity, (“ASU 2013-5”). This amendment clarifies the applicable guidance for the release of cumulative translation adjustment into net earnings. When an entity ceases to have a controlling financial interest in a subsidiary or group of assets within a foreign entity, the entity is required to apply the guidance in FASB Accounting Standards Codification Topic 830-30 to release any related cumulative translation adjustment into net earnings. ASU 2013-5 is effective prospectively for fiscal years, and interim reporting periods within those years, beginning after December 15, 2013. We adopted this standard as of January 1, 2014 and it did not have a material impact on the Company’s consolidated financial statements.

In July 2013, the FASB issued Accounting Standards Update No. 2013-11, Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists, (“ASU 2013-11”). The objective of this update is to eliminate the diversity in practice in the presentation of an unrecognized tax benefit when a net operating loss carryforward, a similar tax loss or a tax credit carryforward exists. The amendments in this update require an entity to present an unrecognized tax benefit in the financial statements as a reduction to a deferred tax asset for those instances described above, except in certain situations discussed in the update. ASU 2013-11 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2013. We adopted this standard as of January 1, 2014 and it did not have a material impact on the Company’s consolidated financial statements.

In April 2014, the FASB issued Accounting Standards Update No. 2014-08, Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity (“ASU 2014-08”). This update raises the threshold for disposals to qualify as discontinued operations, and allows companies to have significant continuing involvement and continuing cash flows with the discontinued operation. ASU 2014-08 is effective for annual periods beginning on or after December 15, 2014 and interim periods within that year. The guidance is applied prospectively, and early adoption is permitted but only for disposals that have not been reported in financial statements previously issued or available for issue. This ASU may impact our assessment of future disposals, if any, once adopted.

Fair Value — The carrying value of the outstanding borrowings under the ABL Facility, as defined in Note 4, approximates its fair value as (1) it is based on a variable rate that changes based on market conditions and (2) the

margin applied to the variable rate is based on Ciber's credit risk, which has not changed since entering into the facility in May 2012. If Ciber's credit risk were to change, we would estimate the fair value of our borrowings using a discounted cash flow analysis based on current rates expected to be available from the lender for similar types of debt. The inputs used to establish the fair value of the Credit Agreement are considered to be Level 2 inputs, which include inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Restructuring liabilities for office closures are initially recorded at estimated fair value utilizing level 3 assumptions, including an estimate of sublease income which is subject to adjustment in future periods if assumptions change.

Table of Contents

(2) Discontinued Operations

During the second quarter of 2013, we closed down our Russian operations and met the criteria for this business to be reported as a discontinued operation. Accordingly, the operations and cash flows were removed from our consolidated operating results. In 2012, we sold substantially all of the assets and certain liabilities of our Federal division as well as certain contracts and related property and equipment and certain other assets associated with our information technology outsourcing ("ITO") practice, which have both been previously reported as discontinued operations. In connection with the sale of the Federal division and ITO practice, we retained certain assets and liabilities. Some of these items, including certain possible contingent liabilities, may not be settled for several years. Accordingly, adjustments to such items, as well as administrative expenses associated with these discontinued businesses, are recorded through our results of discontinued operations.

The following table summarizes the results of the discontinued operations during the three months ended March 31, 2014 and 2013.

| | Three Months Ended March 31, | |
|---|---------------------------------|----------|
| | 2014 | 2013 |
| | (In thousands) | |
| Total revenues | \$— | \$ 5,424 |
| Operating expenses | 142 | 5,333 |

| Loss from discontinued operations, net of taxes | (142 |) (30 |
| | |) |
| Gain on sale | — | 48 |
| Income tax benefit | — | — |
| Gain on sale, net of income taxes | — | 48 |
| Total income (loss) from discontinued operations, net of income taxes | \$(142 |) \$ 18 |

Table of Contents

(3) Earnings Per Share

Our computation of earnings per share — basic and diluted is as follows:

| | Three Months Ended March 31, | |
|---|--|---------|
| | 2014 | 2013 |
| | (In thousands, except per share amounts) | |
| Numerator: | | |
| Net income from continuing operations | \$4,066 | \$1,449 |
| Net income (loss) attributable to noncontrolling interests | 5 | (146) |
| Net income attributable to Ciber, Inc. from continuing operations | 4,061 | 1,595 |
| Income (loss) from discontinued operations, net of income tax | (142) |) 18 |
| Net income attributable to Ciber, Inc. | \$3,919 | \$1,613 |
| Denominator: | | |
| Basic weighted average shares outstanding | 76,452 | 74,072 |
| Dilutive effect of employee stock plans | 1,020 | 537 |
| Diluted weighted average shares outstanding | 77,472 | 74,609 |
| Basic and diluted earnings per share attributable to Ciber, Inc.: | | |
| Continuing operations | \$0.05 | \$0.02 |
| Discontinued operations | — | — |
| Basic and diluted earnings per share attributable to Ciber, Inc. | \$0.05 | \$0.02 |
| Anti-dilutive securities omitted from the calculation | 2,468 | 5,610 |

Dilutive securities, including stock options and restricted stock units, are excluded from the diluted weighted average shares outstanding computation in periods in which they have an anti-dilutive effect, such as when we report a net loss attributable to Ciber, Inc. from continuing operations, or when stock options have an exercise price that is greater than the average market price of Ciber common stock during the period.

(4) Borrowings

We have an asset-based revolving line of credit of up to \$60 million (the “ABL Facility”) with Wells Fargo Bank, N.A. The maximum amount available for borrowing at any time under such line of credit is determined according to a borrowing base valuation of eligible account receivables, which was \$48.1 million at March 31, 2014. The ABL Facility provides for borrowings in the United States, the Netherlands, the United Kingdom and Germany and matures on May 7, 2017. As of March 31, 2014, we had \$10.6 million outstanding under the ABL Facility. We expect our borrowings to fluctuate based on our working capital needs. Our obligations under the ABL Facility are guaranteed by us and are secured by substantially all of our U.S., Netherlands, United Kingdom, and German assets. Under the ABL Facility, Wells Fargo will have dominion over the cash receipts related to any U.K., Dutch and German borrowings. At March 31, 2014, we had no foreign borrowings that were subject to the bank's dominion.

Table of Contents

(5) Income Taxes

Current period U.S. and foreign income before income taxes as well as income tax expense were as follows:

| | Three Months Ended March 31, | |
|--|---------------------------------|----------|
| | 2014 | 2013 |
| | (In thousands) | |
| Income from continuing operations before income taxes: | | |
| U.S. | \$ 2,048 | \$ 107 |
| Foreign | 4,553 | 4,001 |
| Total | \$ 6,601 | \$ 4,108 |
| Income tax expense: | | |
| U.S. | \$ 1,026 | \$ 1,190 |
| Foreign | 1,509 | 1,469 |
| Total | \$ 2,535 | \$ 2,659 |

Due to our history of domestic losses, we have a full valuation allowance for all U.S. net deferred tax assets, including our net operating loss and tax credit carryforwards. As a result, we cannot record any tax benefits for additional U.S. incurred losses and any U.S. income is offset by a reduction in valuation allowance. Irrespective of our income or loss levels, we continue to record U.S. deferred tax expense related to tax-basis goodwill amortization.

The effective rate on our foreign tax expense varies with the mix of income and losses across multiple tax jurisdictions with most statutory tax rates varying from 23% to 33%. The foreign tax expense was higher than the normal effective rate primarily as a result of the current mix of income and losses across jurisdictions and the recognition of reserves for certain tax exposure items.

(6) Restructuring Charges

On July 30, 2013, we approved a restructuring plan primarily focused on our International operations ("the 2013 Plan"). The goal of the 2013 Plan is to improve utilization, strategically engage our lower-cost off-shore and near-shore resources, and centralize management of administrative functions in key markets to leverage shared services functions. The actions of this plan have impacted approximately 250 employees. The 2013 Plan began in the third quarter of 2013 and a majority of restructuring activities were completed as of December 31, 2013. The total amount of the restructuring charges for the 2013 Plan are expected to be approximately \$13 million, substantially all of which will be settled in cash. The charges associated with the 2013 Plan are substantially all related to personnel severance and related employee benefit costs.

The changes in our 2013 Plan restructuring liabilities, which are recorded in other accrued expenses, during the three months ended March 31, 2014 are as follows:

| | 2013 Plan (In thousands) | |
|--|-----------------------------|---|
| Restructuring liability, as of January 1, 2014 | \$ 7,454 | |
| Restructuring charges (credit) | (413 |) |
| Non-cash items | — | |
| Cash paid | (4,625 |) |
| Foreign exchange rate changes | (58 |) |
| Restructuring liability, as of March 31, 2014 | \$ 2,358 | |

Table of Contents

Restructuring charges by segment are as follows:

| | Three Months Ended March 31, 2014 | Plan to Date (1) |
|---------------|---|---------------------|
| | (In thousands) | |
| North America | \$(60 |) \$600 |
| International | (465 |) 11,651 |
| Other | (7 |) 57 |
| Corporate | 119 | 700 |
| Total | \$(413 |) \$13,008 |

(1) As a majority of the actions have been completed, the total charges to date approximate the total anticipated charges by segment.

On November 5, 2012, we approved a company restructuring plan ("the 2012 Plan"). In the third quarter of 2013, all restructuring actions associated with this plan were completed. Although we have completed all activities associated with the 2012 Plan, our lease-related office closure costs are subject to estimate and as such our actual restructuring charges may differ from our current estimates.

The changes in our restructuring liabilities for the 2012 Plan, which are recorded in other accrued expenses, during the three months ended March 31, 2014 are as follows:

| | Office Closures |
|--|-----------------|
| Restructuring liability, as of January 1, 2014 | \$2,770 |
| Restructuring charges | 311 |
| Non-cash items | — |
| Cash paid | (515 |
| Foreign exchange rate changes | 1 |
| Restructuring liability, as of March 31, 2014 | \$2,567 |

Restructuring charges by segment are as follows:

| | Three Months Ended March 31, 2014 | Plan to Date (1) |
|---------------|---|------------------|
| | (In thousands) | |
| North America | \$23 | \$1,728 |
| International | 260 | 7,340 |
| Corporate (2) | 28 | 2,726 |
| Total | \$311 | \$11,794 |

(1) Our restructuring charges, particularly lease-related office closure costs, are subject to estimate. If we are unable to find tenants for vacated offices or sub-lease terms are different from our assumptions, our actual restructuring charges will differ from our current estimates.

(2) 2014 and 2013 corporate restructuring charges include costs for administrative facility consolidation.

Table of Contents

(7) Segment Information

The following presents financial information about our reportable segments:

| | Three Months Ended March 31, | |
|--|---------------------------------|-----------|
| | 2014 | 2013 |
| | (In thousands) | |
| Revenues: | | |
| International | \$114,981 | \$112,675 |
| North America | 103,478 | 107,169 |
| Other | 654 | 847 |
| Inter-segment | (1,102) | (1,150) |
| Total revenues | \$218,011 | \$219,541 |
| Operating income from continuing operations: | | |
| International | \$6,824 | \$4,951 |
| North America | 8,472 | 8,096 |
| Other | 137 | 36 |
| Corporate expenses | (8,502) | (7,948) |
| Earnings before interest, taxes, amortization, and restructuring | 6,931 | 5,135 |
| Amortization of intangible assets | — | — |
| Restructuring (charges) credit | 102 | (349) |
| Total operating income from continuing operations | \$7,033 | \$4,786 |

(8) Contingencies

We are subject to various claims and litigation that arise in the ordinary course of business. The litigation process is inherently uncertain. Therefore, the outcome of such matters is not predictable.

As previously reported, we are engaged in legal proceedings in Germany in connection with our acquisition of a controlling interest in Novasoft AG (now known as Ciber AG) in 2004. In August 2006, we completed a buy-out of the remaining minority shareholders of Novasoft. Certain of those former minority shareholders challenged the adequacy of the buy-out consideration by initiating a review by the district court in Mannheim, Germany. The court made a determination in 2013 which is now under appeal by the plaintiffs. Based on information known to us, we have established a reserve that we believe is reasonable. We are unable to predict the outcome of this matter.

As previously reported, a lawsuit titled CamSoft Data Systems, Inc. v. Southern Electronics, et al., was filed initially in October 2009 in Louisiana state court against numerous defendants, including Ciber. The lawsuit was subsequently removed to federal court in the Middle District of Louisiana and the complaint was amended to include additional defendants and causes of action including antitrust claims, civil RICO claims, unfair trade practices, trade secret, fraud, unjust enrichment, and conspiracy claims. The suit involves many of the same parties involved in related litigation in the state court in New Orleans, which was concluded in 2009 when Ciber settled the New Orleans suit with the plaintiffs, Active Solutions and Southern Electronics, who were CamSoft's former alleged joint venturers and are now co-defendants in the current lawsuit. Ciber is vigorously defending the allegations. The matter is ongoing in the appellate courts where Camsoft has filed a notice of appeal with the Federal Court of Appeals while Ciber and the other defendants have filed notices of appeal with the Fifth Circuit Court of Appeals and with the Federal Court of Appeals. Based on information known to us, we have established a reserve that we believe is reasonable. We are unable to predict the outcome of this litigation.

As previously reported, in October 2011, a putative securities class action lawsuit, Weston v. Ciber, Inc. et al., was filed in the United States District Court for the District of Colorado against Ciber and several of its current and former officers. In November 2013, we entered into a settlement among the lead plaintiff and the defendants that

involved funds paid by our insurers being placed into a settlement fund for the benefit of the class. We have not made any admission of liability or wrongdoing by entering into this settlement. The Court issued final approval of the settlement in April 2014, dismissing the claims of the class with prejudice, and terminating the litigation.

Table of Contents

As previously reported, in February 2012, a purported verified shareholder derivative lawsuit, *Seni v. Peterschmidt. et al.*, was filed in the United States District Court for the District of Colorado against several of our current and former officers and our then-current board of directors. This complaint generally alleged that the various defendants breached their fiduciary duties of good faith, fair dealing, loyalty, due care, reasonable inquiry, oversight, and supervision by approving the issuance of allegedly false statements that misrepresented material information about the finances and operations of the Company. On March 22, 2013, the Court dismissed this complaint with leave to amend. On April 26, 2013, plaintiff filed an amended complaint that largely made the same claims as the original complaint. In February 2014, the Court dismissed the amended complaint with leave to amend. Plaintiff filed a second amended complaint and defendants filed a motion to dismiss the second amended complaint in March 2014. We believe this derivative lawsuit is without merit and we intend to vigorously defend against the claims. We are, however, unable to predict the outcome of this litigation.

In March 2012, a shareholder, Valerie Denny, made a litigation demand on the Board to investigate certain allegations and bring suit against the directors and certain current and former executive officers of the Company. In response, the Board formed an Independent Committee to investigate the claims. In December 2012, after the Independent Committee completed its investigation, it reported its findings to the board of directors. Based upon the Independent Committee's findings that Denny's claims were without merit, the Board formally refused the demand. In February 2014, Denny filed a purported verified shareholder derivative lawsuit, *Denny v. Peterschmidt, et al.*, in Colorado State court, Arapahoe County, against certain current and former officers and directors. This complaint generally made the same allegations as set out in Denny's March 2012 demand. The Complaint alleged that between December 15, 2010, and August 3, 2011, the defendants committed breaches of fiduciary duty that caused losses to Ciber's reputation and goodwill. The defendants were alleged to have breached their fiduciary duties by disseminating inaccurate and incomplete information about Ciber's financial results and business prospects, failing to maintain internal controls, and failing to properly oversee and manage the Company. Denny also made claims of unjust enrichment and insider trading. In March 2014, Defendants filed a motion to stay the action pending resolution of the federal derivative action (*Seni v. Peterschmidt*), as well as motions to dismiss the action, and an answer to the complaint. In response to those motions, Denny agreed to stay the case. The court therefore issued an order staying the action on March 24, 2014. We believe this derivative lawsuit is without merit and we intend to vigorously defend against the claims. We are, however, unable to predict the outcome of this litigation.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis should be read in conjunction with our Unaudited Consolidated Financial Statements and related Notes included elsewhere in this Quarterly Report on Form 10-Q and our Audited Consolidated Financial Statements and related Notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2013, and with the information under the heading "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our Annual Report on Form 10-K for the year ended December 31, 2013. References to "we," "our," "us," "the Company," or "Ciber" in this Quarterly Report on Form 10-Q refer to Ciber, Inc. and its subsidiaries.

We use the phrase "in constant currency" to indicate that we are comparing certain financial results after removing the impact of foreign currency exchange rate fluctuations, thereby allowing for the comparison of business performance between periods. Financial results "in constant currency" are calculated by restating current period activity into U.S. dollars using the comparable prior year period's foreign currency exchange rates. This approach is used for all results where the functional currency is not the U.S. dollar.

Disclosure Regarding Forward-Looking Statements

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 relating to our operations, results of operations and other matters that are based on our

current expectations, estimates, forecasts and projections. Words, such as “anticipate,” “believe,” “could,” “expect,” “estimate,” “intend,” “may,” “opportunity,” “plan,” “potential,” “project,” “should,” and “will” and similar expressions, are intended to identify these forward-looking statements. These statements are not guarantees of future performance and involve risks, uncertainties and assumptions that are difficult to predict. Forward-looking statements are based on assumptions as to future events that may not prove to be accurate. Risks, uncertainties and other factors that could cause actual results to differ materially from those expressed or implied by our forward-looking statements include, but are not limited to:

- Our results of operations may be adversely affected if we are unable to execute on the key elements of our strategic plan or our strategic plan proves to be less successful than anticipated.
- If we are not able to anticipate and keep pace with rapid changes in technology, our business may be negatively affected.

Table of Contents

• A data security or privacy breach could adversely affect our business.

• We may experience declines in revenue and profitability if we do not accurately estimate the cost of engagements conducted on a fixed-price basis.

• Our business could be adversely affected if our clients are not satisfied with our services, and we could face damage to our professional reputation and/or legal liability.

• Termination of a contract by a significant client and/or cancellation with short notice could adversely affect our results of operations.

• Our results of operations can be adversely affected by economic conditions and the impacts of economic conditions on our clients' operations and technology spending.

• If we do not continue to improve our operational, financial and other internal controls and systems to manage our growth and size or if we are unable to enter, operate and compete effectively in new geographic markets, our results of operations may suffer and the value of our business may be harmed.

• Our brand and reputation are key assets and competitive advantages of our Company, and our business may be affected by how we are perceived in the marketplace.

• Our future success depends on our ability to continue to retain and attract qualified sales, delivery and technical employees.

• We cannot guarantee that we are in compliance with all applicable laws and regulations.

• If we are unable to protect our intellectual property rights from unauthorized use or infringement by third parties, our business could be adversely affected.

• Our services or solutions could infringe upon the intellectual property rights of others, or we might lose our ability to utilize rights we claim in intellectual property or the intellectual property of others.

• If we are unable to collect our receivables, our results of operations and cash flows could be adversely affected.

• Our credit facility, an asset-based loan facility, limits our operational and financial flexibility.

• Our revenues, operating results and profitability may vary from quarter to quarter and may result in increased volatility in the price of our stock.

• Our international operations expose us to additional risks that could have adverse effects on our business and operating results.

• The IT services industry, in the U.S. and internationally, is highly competitive, with increased focus on offshore capability and we may not be able to compete effectively in this evolving marketplace.

• Our operations are vulnerable to disruptions that may impact our results of operations and from which we may not recover.

• We might not be successful at identifying, acquiring, or integrating businesses or entering into joint ventures.

• We could incur additional losses due to further impairment in the carrying value of our goodwill.

• We depend on contracts with various public sector agencies for a significant portion of our revenue and, if the spending policies or budget priorities of these agencies change, we could lose revenue.

• Unfavorable government audits could require us to adjust previously reported operating results, to forego anticipated revenue and subject us to penalties and sanctions.

• We have adopted anti-takeover defenses that could make it difficult for another company to acquire control of Ciber or limit the price investors might be willing to pay for our stock, thus affecting the market price of our securities.

For a more detailed discussion of these factors, see the information under the "Risk Factors" heading in this Quarterly Report on Form 10-Q, our Annual Report on Form 10-K for the year ended December 31, 2013, and other documents filed with or furnished to the Securities and Exchange Commission. We undertake no obligation to publicly update any forward-looking statements in light of new information or future events. Readers are cautioned not to put undue reliance on forward-looking statements.

Table of Contents

Business Overview

Ciber is a leading global information technology (“IT”) company founded in 1974 with 40 years of proven IT experience, world-class credentials and a wide range of technology expertise. With operations in 15 countries across four continents, Ciber has the infrastructure and expertise to deliver IT services to almost any organization. At Ciber, we take a client-focused, personalized service approach that includes the building of long-term relationships, creation of custom-tailored IT solutions, and the implementation of business strategies to reflect anticipated trends. Driven by results, we are committed to delivering quality solutions precisely configured to our clients' needs and achieving high client satisfaction. The consistent goal is sustainable business value delivered on time and on budget.

The key initiatives of our strategic plan include: (i) focusing on high-value, tightly-defined core offerings with a well-developed portfolio of reusable solution sets; (ii) developing a world-class sales organization; and (iii) performing under heightened operational regimes.

We operate our business by geography. Our reportable operating segments consist of International and North America. Our International segment transacts business in the local currencies of the countries in which they operate. In recent years, approximately 50% to 60% of our International division's revenue has been denominated in Euros, 15% to 20% has been denominated in Great Britain Pounds (“GBP”) and the balance has come from a number of other European currencies. Changes in the exchange rates between these foreign currencies and the U.S. dollar affect the reported amounts of our assets, liabilities, revenues and expenses. For financial reporting purposes, the assets and liabilities of our foreign operations are translated into U.S. dollars at current exchange rates at period end and revenues and expenses are translated at average exchange rates for the period.

The market demand for Ciber's services is heavily dependent on IT spending by Fortune 500 and middle-market corporations, organizations and government entities in the markets and regions that we serve. In recent years, economic recession and volatile economic conditions have negatively impacted many of our existing and prospective clients and caused fluctuations in their IT spending behaviors. The pace of technological advancement, as well as changes in business requirements and practices of our clients, all have a significant impact on the demand for the services that we provide.

Our results of operations are affected by economic conditions, including macroeconomic conditions and levels of business confidence. Revenue is driven by our ability to secure new contracts and deliver solutions and services that add value relevant to our clients' current needs and challenges. In recent years and ongoing for the foreseeable future, we have been affected by significant efforts by our clients (both current and potential) to implement cost-savings initiatives. These initiatives have included going to third-party vendor management systems, taking their business to larger, pure-play offshore vendors and vendor consolidation. In some cases, these initiatives have benefited Ciber, but in others we have lost our revenue stream entirely or seen a decline in our level of revenues with particular clients. The pricing environment continues to be extremely competitive. A number of our competitors are structuring more offshore services into their bids, thereby lowering their pricing to help clients reduce costs, and making it more difficult for us to compete on pricing. We also have global delivery options to offer to our current and potential clients as possible cost savings, and we are expanding our offshore capabilities and increasing the usage of these resources; however, they are on a smaller scale than the offshore offerings of some of our competitors.

Another issue that continues to have an impact on our revenues and profitability involves a longer sales cycle than we have seen historically. This has been driven by a much slower decision-making process in starting new projects in a variety of industries that we currently serve, or in which we are currently bidding for work, and the changing business mix of our service offerings. The longer sales cycle increases the cost of our sales efforts and pushes potential revenues and profitability further into the future. Some clients remain cautious, seeking flexibility by shifting to a more phased approach to contracting for work. We are also affected by the fact that certain markets we do business in currently have shortages of desired skill sets forcing us to use higher cost subcontractors. We have standards

governing the quality of engagements that we will accept with the goal of growing revenue, increasing margins, improving collectability of receivables and delivering sustained, predictable performance. However, there can be no assurances that we will be successful with such actions, and in certain cases, these actions may slow our revenue growth. Economic conditions and other factors continue to impact the business operations of some of our clients, their ability to continue to use our services and their financial ability to pay for our services in full. The impact of project cancellations cannot be accurately predicted and bad debt expense may differ significantly from our estimates, and any such events may negatively impact our results of operations.

Table of Contents

Discontinued Operations

During the second quarter of 2013, we closed down our Russian operations and met the criteria for this business to be reported as a discontinued operation. Accordingly, the operations and cash flows were removed from our consolidated operating results. In 2012, we sold substantially all of the assets and certain liabilities of our Federal division as well as certain contracts and related property and equipment and certain other assets associated with our information technology outsourcing ("ITO") practice, which have both been previously reported as discontinued operations. In connection with the sale of the Federal division and ITO practice, we retained certain assets and liabilities. Some of these items, including certain possible contingent liabilities, may not be settled for several years. Accordingly, adjustments to such items, as well as administrative expenses associated with these discontinued businesses, are recorded through our results of discontinued operations.

Restructuring

On July 30, 2013, we approved a restructuring plan primarily focused on our International operations ("the 2013 Plan"). The goal of the 2013 Plan is to improve utilization, strategically engage our lower-cost off-shore and near-shore resources, and centralize management of administrative functions in key markets to leverage shared services functions. The actions of this plan have impacted approximately 250 employees. The 2013 Plan began in the third quarter of 2013 and a majority of restructuring activities were completed as of December 31, 2013. The total amount of the restructuring charges for the 2013 Plan are expected to be approximately \$13 million, substantially all of which will be settled in cash. The charges associated with the 2013 Plan are substantially all related to personnel severance and related employee benefit costs. We expect the 2013 Plan will result in annualized pre-tax net savings of approximately \$12 million that will be fully realized starting in the second half of 2014 and each year thereafter.

On November 5, 2012, we approved a company restructuring plan ("the 2012 Plan"). In the third quarter of 2013, all restructuring actions associated with this plan were completed. Although we have completed all activities associated with the 2012 Plan, our lease-related office closure costs are subject to estimate and as such our actual restructuring charges may differ from our current estimates. Restructuring liabilities for office closures are recorded at estimated fair value, including an estimate of sublease income which is subject to adjustment in future periods if assumptions change. We expect pre-tax savings of \$11 million in 2014 related to the 2012 Plan. However, these savings are partially offset by adverse business performance in our International segment.

Table of Contents

Results of Operations — Comparison of the Three Months Ended March 31, 2014 and 2013

The following table and related discussion provide information about our consolidated financial results for the periods presented. In the second quarter of 2013 the operations of our Russian business met the criteria to be classified as a discontinued operation. As such, our Russian operations have been excluded from our results from continuing operations in the tables and related discussion below, unless otherwise noted.

The following table sets forth certain Consolidated Statement of Operations data in dollars and expressed as a percentage of revenue:

| | Three Months Ended March 31, | | | | |
|---|------------------------------|--------|-------------|--------|---|
| | 2014 | | 2013 | | |
| | (Dollars in thousands) | | | | |
| Consulting services | \$204,981 | 94.0 | % \$209,044 | 95.2 | % |
| Other revenue | 13,030 | 6.0 | 10,497 | 4.8 | |
| Total revenues | \$218,011 | 100.0 | % \$219,541 | 100.0 | % |
| Gross profit - consulting services | \$51,130 | 24.9 | % \$51,470 | 24.6 | % |
| Gross profit - other revenue | 5,441 | 41.8 | 3,756 | 35.8 | |
| Gross profit - total | 56,571 | 25.9 | 55,226 | 25.2 | |
| SG&A costs | 49,640 | 22.8 | 50,091 | 22.8 | |
| Restructuring charges (credit) | (102 |) — | 349 | 0.2 | |
| Operating income from continuing operations | 7,033 | 3.2 | 4,786 | 2.2 | |
| Interest income | 165 | 0.1 | 365 | 0.2 | |
| Interest expense | (362 |) (0.2 |) (1,057 |) (0.5 |) |
| Other income (expense), net | (235 |) (0.1 |) 14 | — | |
| Income from continuing operations before income taxes | 6,601 | 3.0 | 4,108 | 1.9 | |
| Income tax expense | 2,535 | 1.2 | 2,659 | 1.2 | |
| Net income from continuing operations | \$4,066 | 1.9 | % \$1,449 | 0.7 | % |

Revenue by segment from continuing operations was as follows:

| | Three Months Ended March | | | | |
|----------------|--------------------------|-----------|-------|----------|--|
| | 2014 | 2013 | | % change | |
| | (In thousands) | | | | |
| International | \$114,981 | \$112,675 | 2.0 | % | |
| North America | 103,478 | 107,169 | (3.4 |) | |
| Other | 654 | 847 | n/m | | |
| Inter-segment | (1,102 |) (1,150 |) n/m | | |
| Total revenues | \$218,011 | \$219,541 | (0.7 |)% | |

n/m = not meaningful

Revenues. For the three months ended March 31, 2014, total revenues decreased \$1.5 million, or (0.7)% in U.S. dollars. On a constant currency basis, revenues decreased \$3.0 million, or (1.4)%, as compared with the three months

ended March 31, 2013, due to a small decline in our North America segment.

International revenues increased \$2.3 million, or 2.0%, and increased 0.7% in constant currency during the three months ended March 31, 2014. Revenue results varied by country with growth in our operations in Germany, UK, and Norway. We had strong performance in the CMS practice which positively impacted revenue growth in Germany and other countries. This growth was offset by a decline in revenue in the Netherlands due to continued challenges in the IT services industry and a resulting weak revenue pipeline for our Netherlands operation. Our operations in European

Table of Contents

countries continued to experience vendor consolidation and cost-containment measures which have tempered revenue growth during the three months ended March 31, 2014.

North America revenues decreased \$3.7 million, or 3.4% compared to the first three months of 2013. We continue to experience pricing pressure in our ADM practice and had a decline in revenue which more than offset growth in other practices. Revenue increased in our Business Consulting practice and certain ISV channels. We had growth in our CMS business during the three months ended March 31, 2014, which is partially a result of our ISV successes.

Gross Profit. Gross profit margin improved to 25.9% for the three months ended March 31, 2014, compared to 25.2% for the same period in 2013. Gross profit margin for our International business improved as a result of cost reduction actions in connection with the 2013 Restructuring Plan, and due to lower use of subcontractors. North America gross margin was down slightly during the first three months of 2014 as a result of lower margins in our ADM practice due to pricing pressures.

Selling, general and administrative costs. Our SG&A costs decreased by \$0.5 million, or 0.9% to \$49.6 million for the three months ended March 31, 2014, from \$50.1 million for the three months ended March 31, 2013. International SG&A costs increased compared to the first three months of 2013 due to the negative effects of changes in foreign currency exchange rates and increased labor costs. North America SG&A costs were down due to reduced personnel costs, improved cost discipline, and lower facilities expense.

Operating income. Our operating income was \$7.0 million for the three months ended March 31, 2014, as compared to \$4.8 million for the same period of 2013. This overall improvement was a result of cost reductions from our restructuring plans and improved operational performance in International.

Operating income (loss) from continuing operations by segment was as follows:

| | Three Months Ended March | | % | 2014 | 2013 | |
|---|--------------------------|----------|--------|----------|----------|---|
| | 31, | 2013 | change | % of | % of | |
| | 2014 | | | revenue* | revenue* | |
| | (In thousands) | | | | | |
| International | \$6,824 | \$4,951 | 37.8 | % 5.9 | % 4.4 | % |
| North America | 8,472 | 8,096 | 4.6 | 8.2 | 7.6 | |
| Other | 137 | 36 | n/m | n/m | n/m | |
| Corporate expenses | (8,502) | (7,948) | (7.0) | (3.9) | (3.6) |) |
| Earnings before interest, taxes, amortization and restructuring charges | 6,931 | 5,135 | 35.0 | 3.2 | 2.3 | |
| Amortization of intangible assets | — | — | n/m | — | — | |
| Restructuring (charges) credit | 102 | (349) | n/m | — | (0.2) |) |
| Total operating income from continuing operations | \$7,033 | \$4,786 | 46.9 | % 3.2 | % 2.2 | % |

n/m = not meaningful

*International, North America and Other calculated as a % of their respective revenue, all other items calculated as a % of total revenue. Column may not total due to rounding.

International operating income improved to \$6.8 million for the three months ended March 31, 2014 compared to \$5.0 million for the comparable period in 2013. This is primarily due to improved gross margins resulting from restructuring efforts and lower use of subcontractors.

North America operating income increased \$0.4 million, or 4.6%, compared to the first three months of 2013. The increase was due to a reduction in SG&A expenses, specifically relating to reduced personnel costs and facilities expenses. However, these improvements were somewhat offset by lower revenues at existing ADM clients and margin compression.

Corporate expenses increased \$0.6 million during the current three month period primarily due to increased legal and information technology costs.

Table of Contents

Interest expense. Interest expense decreased \$0.7 million for the three months ended March 31, 2014, compared to the same period of 2013 due to a significant reduction in our average borrowings.

Other expense, net. Other expense, net was \$235 thousand for the three months ended March 31, 2014, compared to income of \$14 thousand for the three months ended March 31, 2013. This change was due to foreign exchange losses.

Income taxes. Current period U.S. and foreign income before income taxes as well as income tax expense were as follows:

| | Three Months Ended March 31, | |
|--|------------------------------|---------|
| | 2014 | 2013 |
| | (In thousands) | |
| Income from continuing operations before income taxes: | | |
| U.S. | \$2,048 | \$107 |
| Foreign | 4,553 | 4,001 |
| Total | \$6,601 | \$4,108 |
| Income tax expense: | | |
| U.S. | \$1,026 | \$1,190 |
| Foreign | 1,509 | 1,469 |
| Total | \$2,535 | \$2,659 |

Due to our history of domestic losses, we have a full valuation allowance for all net U.S. deferred tax assets, including our net operating loss and tax credit carryforwards. As a result, we cannot record any tax benefits for additional U.S. incurred losses and any U.S. income is offset by a reduction in valuation allowance. Irrespective of our income or loss levels, we continue to record deferred U.S. tax expense related to tax-basis goodwill amortization, and we expect to record approximately \$4 million of related U.S. deferred tax expense in 2014.

The effective rate on our foreign tax expense varies with the mix of income and losses across multiple tax jurisdictions with most statutory tax rates varying from 23% to 33%. The foreign tax expense was higher than the normal effective rate primarily as a result of the mix of income and losses across jurisdictions and the recognition of reserves for certain tax exposure items.

Liquidity and Capital Resources

At March 31, 2014, we had \$107.2 million in working capital, which represented an increase from \$85.9 million at December 31, 2013. Our current ratio was 1.8:1 at March 31, 2014 compared to 1.5:1 at December 31, 2013. Our primary sources of liquidity are cash flows from operations, available cash reserves, and debt capacity under our credit agreement. In addition, we could seek to raise additional funds through public or private debt or equity financings. We believe that our cash and cash equivalents, our expected operating cash flow and our available credit agreement will be sufficient to finance our working capital needs through at least the next year.

Our balance of cash and cash equivalents was \$25.5 million at March 31, 2014, compared to \$44.5 million at December 31, 2013. Our domestic cash balances are generally used to reduce our outstanding borrowings. Typically, most of our cash balance is maintained by our foreign subsidiaries. We have not provided for additional U.S. income taxes on the undistributed earnings of most of our foreign subsidiaries, as we currently do not have plans to repatriate cash in the future and we consider these to be permanently reinvested in the operations of such subsidiaries. If future events, including material changes in estimates of cash, working capital and long-term investment requirements, necessitate that the undistributed earnings of our foreign subsidiaries be distributed, an additional provision for income taxes may apply, which could materially affect our future tax expense.

Related to the execution of our 2012 restructuring plan, we had cash outlays of approximately \$0.5 million during the three months ended March 31, 2014. In the third quarter of 2013, all restructuring actions associated with the 2012 Plan were completed. Total cash outlays associated with the plan will be approximately \$11 million, \$9 million of which has been paid to date.

Table of Contents

We had cash outlays of approximately \$4.6 million during the three months ended March 31, 2014 related to the 2013 Plan, and we estimate total cash outlays of \$13 million, \$11 million of which has been paid to date.

Operating activities. Cash used in operating activities from continuing operations was \$30.5 million during the three months ended March 31, 2014, compared with \$27.2 million for the three months ended March 31, 2013. Changes in normal short-term working capital items, including accounts payable and accrued liabilities, contributed to the increase in cash used in continuing operations during the current three month period as compared to the same period of the prior year. Our working capital fluctuates significantly due to changes in accounts receivable (discussed below), as well as due to the timing of our domestic payroll and accounts payable processing cycles with regard to month-end dates and other seasonal factors. We paid \$5.1 million and \$3.5 million for restructuring-related costs in the first quarter of 2014 and 2013, respectively. In 2014, these costs were related to severance expenses primarily in our International segment. In 2013, restructuring costs included severance expenses in our International segment and real estate related costs in North America. During the three months ended March 31, 2014, and 2013, our domestic operations used \$15.2 million and \$7.8 million, respectively, of cash from continuing operations while our International operations used \$15.3 million and \$19.4 million, respectively during the same time periods. Typically, the seasonality of our business in many European countries results in negative cash from operations in the early part of the year with improvements in the second half of the year. Cash flow from European receivables and payables are typically maximized in the fourth quarter.

Changes in accounts receivable can have a significant impact on our cash flow. Items that can affect our cash flow from accounts receivable include: contractual payment terms, client payment patterns (including approval or processing delays and cash management), client mix (public vs. private), fluctuations in the level of IT product sales and the effectiveness of our collection efforts. Many of the individual reasons are outside of our control and, as a result, it is normal for cash flow from accounts receivable to fluctuate from period to period, affecting our liquidity.

Total accounts receivable decreased to \$187.7 million at March 31, 2014, from \$189.4 million at December 31, 2013. Total accounts receivable day's sales outstanding ("DSO") increased to 63 days at March 31, 2014, from 59 days at December 31, 2013, an increase of 4 days, compared with DSO of 62 days at March 31, 2013, and 61 days at December 31, 2012, an increase of 1 day. While DSO increased by 1 day in the first quarter of 2014 as compared to the comparable period of 2013, we did have net positive cash flows from accounts receivable during the three months ended March 31, 2014. During the three months ended March 31, 2014, as compared December 31, 2013 we experienced a small increase in DSO in our International divisions due to typical seasonality of collections. Our receivable collections are slower in the first half of the year with improvement in the second half of the year.

Accrued compensation and related liabilities fluctuate from period to period based on a couple of primary factors, including the timing of our normal bi-weekly U.S. payroll cycle and the timing of variable compensation payments. Bonuses are typically accrued throughout the year, and paid either quarterly or annually, based on the applicable bonus program associated with an employee's role and country in which he or she works. As such, bonus payments can fluctuate from quarter to quarter. Accounts payable and other accrued liabilities typically fluctuate based on when we receive actual vendor invoices and when they are paid. The largest of such items typically relates to vendor payments for IT hardware and software products that we resell and payments to services-related subcontractors.

Table of Contents

Investing activities. Spending on property and equipment increased to \$2.1 million during the three months ended March 31, 2014, from \$0.4 million in the same period of 2013. Our capital spending increase is primarily for technology equipment and software and to support our global employee base, as well as our management and corporate support infrastructure, and for investment in our domestic and off-shore delivery centers. Our investments will fluctuate from period to period.

Financing activities. Typically, our most significant financing activities consist of the borrowings and payments under our ABL Facility. This primarily fluctuates based on cash provided by, or used in, our domestic operations during the period as the ABL Facility is used for U.S. working capital fluctuations. During the three months ended March 31, 2014, we had net borrowings on our long-term debt of \$10.6 million, compared with \$5.6 million for the three months ended March 31, 2013. In 2013, Ciber began repurchasing shares to satisfy minimum tax withholdings for employee stock plans. We had a net cash inflow of \$2.8 million in the first quarter of 2014 for proceeds from employee stock plans, net of the repurchases of shares for minimum employee tax withholding. During the three months ended March 31, 2013, we had a net cash inflow of \$1.4 million for proceeds from employee stock plans.

Credit Agreement. We have an asset-based revolving line of credit of up to \$60 million (the “ABL Facility”) with Wells Fargo Bank, N.A. The maximum amount available for borrowing at any time under such line of credit is determined according to a borrowing base valuation of eligible account receivables, which was \$48.1 million at March 31, 2014. The ABL Facility provides for borrowings in the United States, the Netherlands, the United Kingdom and Germany and matures on May 7, 2017. As of March 31, 2014, we had \$10.6 million outstanding under the ABL Facility. We expect our borrowings to fluctuate based on our working capital needs. Our obligations under the ABL Facility are guaranteed by us and are secured by substantially all of our U.S., Netherlands, United Kingdom, and German assets. There are no specific financial covenants required under the ABL Facility.

Under the ABL Facility, U.S. borrowings accrue interest at a rate of the London interbank offered rate (“LIBOR”) plus a margin ranging from 225 to 275 basis points, or, at our option, a base rate equal to the greatest of (a) the Federal Funds Rate plus 0.50%, (b) LIBOR plus 1%, and (c) the “prime rate” set by Wells Fargo plus a margin ranging from 125 to 175 basis points. All foreign borrowings accrue interest at a rate of LIBOR plus a margin ranging from 225 to 275 basis points, plus certain fees related to compliance with European banking regulations. The interest rates applicable to borrowings under the Credit Agreement are subject to increase during an event of default. We are also required to pay an unused line fee ranging from 0.375% to 0.50% annually on the unused portion of the ABL Facility.

Wells Fargo will take dominion over our U.S. cash and cash receipts and will automatically apply such amounts to the ABL Facility on a daily basis if (i) an event of default has occurred and is continuing, (ii) less than 30% of the ABL Facility or less than \$18 million is available for borrowing under the ABL Facility for five consecutive days, or (iii) less than 25% of the ABL Facility or less than \$15 million is available for borrowing under the ABL Facility at any time. Wells Fargo will continue to exercise dominion over our U.S. cash and cash receipts until (1) no event of default is continuing and (2) at least 30% of the ABL Facility and a minimum of \$18 million have been available for borrowing under the ABL Facility for 30 consecutive days. In addition, at all times during the term of the ABL Facility, Wells Fargo will have dominion over the cash of the United Kingdom, Dutch, and German borrowers when a balance is outstanding to those entities and will automatically apply such amounts to the ABL Facility on a daily basis. As a result, if we have any outstanding borrowings that are subject to the bank's dominion, such amounts will be classified as a current liability on our balance sheet. At March 31, 2014, we had no borrowings that were subject to the bank's dominion.

Off-Balance Sheet Arrangements

We do not have any reportable off-balance sheet arrangements.

Critical Accounting Policies and Estimates

For a description of our critical accounting policies and estimates, see "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations" in our Annual Report on Form 10-K for the year ended December 31, 2013.

Table of Contents

Item 3. Quantitative and Qualitative Disclosures about Market Risk

During the three months ended March 31, 2014, there were no material changes in our market risk exposure. For a complete discussion of our market risk associated with foreign currency risk and interest rate risk as of December 31, 2013, see “Item 7A. Quantitative and Qualitative Disclosures about Market Risk” in our Annual Report on Form 10-K for the year ended December 31, 2013.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures — During the fiscal period covered by this report, our management, with the participation of our principal executive officer and principal financial officer, carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act. Based upon this evaluation, our principal executive officer and principal financial officer have concluded that, as of the end of the period covered by this report, our disclosure controls and procedures were effective to ensure that information required to be disclosed by us in reports we file or submit under the Exchange Act is (1) recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms, and (2) accumulated and communicated to our management, including our principal executive officer and principal financial officer, to allow timely decisions regarding required disclosure.

Changes in Internal Controls — There were no changes in our internal control over financial reporting identified in connection with the evaluation required by paragraph (d) of Rule 13a-15 or Rule 15d-15 under the Exchange Act that occurred during our most recently completed fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

On July 30, 2013, we announced plans to centralize the management of administrative functions in key markets to leverage shared services functions. As a result of the transition of these accounting operations to central locations, the personnel responsible for executing controls over the processing of transactions in certain processes changed. These central locations began processing transactions in the fourth quarter of 2013. This transition process will continue through 2014. Management believes it took the necessary steps to monitor and maintain appropriate internal controls during the period of change.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

We are subject to various claims and litigation that arise in the ordinary course of business. The litigation process is inherently uncertain. Therefore, the outcome of such matters is not predictable.

As previously reported, we are engaged in legal proceedings in Germany in connection with our acquisition of a controlling interest in Novasoft AG (now known as Ciber AG) in 2004. In August 2006, we completed a buy-out of the remaining minority shareholders of Novasoft. Certain of those former minority shareholders challenged the adequacy of the buy-out consideration by initiating a review by the district court in Mannheim, Germany. The court made a determination in 2013 which is now under appeal by the plaintiffs. Based on information known to us, we have established a reserve that we believe is reasonable. We are unable to predict the outcome of this matter.

As previously reported, a lawsuit titled CamSoft Data Systems, Inc. v. Southern Electronics, et al., was filed initially in October 2009 in Louisiana state court against numerous defendants, including Ciber. The lawsuit was subsequently removed to federal court in the Middle District of Louisiana and the complaint was amended to include additional defendants and causes of action including antitrust claims, civil RICO claims, unfair trade practices, trade secret,

fraud, unjust enrichment, and conspiracy claims. The suit involves many of the same parties involved in related litigation in the state court in New Orleans, which was concluded in 2009 when Ciber settled the New Orleans suit with the plaintiffs, Active Solutions and Southern Electronics, who were CamSoft's former alleged joint venturers and are now co-defendants in the current lawsuit. Ciber is vigorously defending the allegations. The matter is ongoing in the appellate courts where Camsoft has filed a notice of appeal with the Federal Court of Appeals while Ciber and the other defendants have filed notices of appeal with the Fifth Circuit Court of Appeals and with the Federal Court of Appeals. Based on information known to us, we have established a reserve that we believe is reasonable. We are unable to predict the outcome of this litigation.

Table of Contents

As previously reported, in October 2011, a putative securities class action lawsuit, *Weston v. Ciber, Inc. et al.*, was filed in the United States District Court for the District of Colorado against Ciber and several of its current and former officers. In November 2013, we entered into a settlement among the lead plaintiff and the defendants that involved funds paid by our insurers being placed into a settlement fund for the benefit of the class. We have not made any admission of liability or wrongdoing by entering into this settlement. The Court issued final approval of the settlement in April 2014, dismissing the claims of the class with prejudice, and terminating the litigation.

As previously reported, in February 2012, a purported verified shareholder derivative lawsuit, *Seni v. Peterschmidt. et al.*, was filed in the United States District Court for the District of Colorado against several of our current and former officers and our then-current board of directors. This complaint generally alleged that the various defendants breached their fiduciary duties of good faith, fair dealing, loyalty, due care, reasonable inquiry, oversight, and supervision by approving the issuance of allegedly false statements that misrepresented material information about the finances and operations of the Company. On March 22, 2013, the Court dismissed this complaint with leave to amend. On April 26, 2013, plaintiff filed an amended complaint that largely made the same claims as the original complaint. In February 2014, the Court dismissed the amended complaint with leave to amend. Plaintiff filed a second amended complaint and defendants filed a motion to dismiss the second amended complaint in March 2014. We believe this derivative lawsuit is without merit and we intend to vigorously defend against the claims. We are, however, unable to predict the outcome of this litigation.

In March 2012, a shareholder, Valerie Denny, made a litigation demand on the Board to investigate certain allegations and bring suit against the directors and certain current and former executive officers of the Company. In response, the Board formed an Independent Committee to investigate the claims. In December 2012, after the Independent Committee completed its investigation, it reported its findings to the board of directors. Based upon the Independent Committee's findings that Denny's claims were without merit, the Board formally refused the demand. In February 2014, Denny filed a purported verified shareholder derivative lawsuit, *Denny v. Peterschmidt, et al.*, in Colorado State court, Arapahoe County, against certain current and former officers and directors. This complaint generally made the same allegations as set out in Denny's March 2012 demand. The Complaint alleged that between December 15, 2010, and August 3, 2011, the defendants committed breaches of fiduciary duty that caused losses to Ciber's reputation and goodwill. The defendants were alleged to have breached their fiduciary duties by disseminating inaccurate and incomplete information about Ciber's financial results and business prospects, failing to maintain internal controls, and failing to properly oversee and manage the Company. Denny also made claims of unjust enrichment and insider trading. In March 2014, Defendants filed a motion to stay the action pending resolution of the federal derivative action (*Seni v. Peterschmidt*), as well as motions to dismiss the action, and an answer to the complaint. In response to those motions, Denny agreed to stay the case. The court therefore issued an order staying the action on March 24, 2014. We believe this derivative lawsuit is without merit and we intend to vigorously defend against the claims. We are, however, unable to predict the outcome of this litigation.

Item 1A. Risk Factors

For information regarding our potential risks and uncertainties, please refer to "Item 1A. Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2013. There have been no material changes to risk factors disclosed in our Annual Report on Form 10-K for the year ended December 31, 2013.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

(c) Issuer Purchases of Equity Securities

The following table sets forth information concerning our repurchases of Ciber common stock for the three months ended March 31, 2014:

| Period | Average price paid per share |
|--------|------------------------------|
|--------|------------------------------|

Edgar Filing: CIBER INC - Form 10-Q

| | Total number of shares purchased (1) | |
|---|---|--------|
| January 1 to January 31 | 46,642 | \$4.09 |
| February 1 to February 28 | 16,796 | \$4.49 |
| March 1 to March 31 | 76,658 | \$4.71 |
| Total: January 1 through March 31, 2014 | 140,096 | \$4.47 |

(1) All shares were purchased to satisfy minimum tax withholdings for employee stock plans. No shares were purchased as part of a publicly announced share repurchase or buy-back plan or program.

Item 4. Mine Safety Disclosures

Not applicable.
