Report of Independent Registered Public Accounting Firm

To the Plan Administrator
The Southern Company Employee Savings Plan

We have audited the accompanying statements of net assets available for benefits of The Southern Company Employee Savings Plan (the "Plan") as of December 31, 2014 and 2013, and the related statement of changes in net assets available for benefits for the year ended December 31, 2014. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the auditing standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2014 and 2013, and the changes in net assets available for benefits for the year ended December 31, 2014 in conformity with accounting principles generally accepted in the United States of America.

The Supplemental Schedule of Assets (Held at End of Year) has been subjected to audit procedures performed in conjunction with the audit of the Plan's financial statements. The Supplemental Schedule of Assets (Held at End of Year) is the responsibility of the Plan's management. Our audit procedures included determining whether the Supplemental Schedule of Assets (Held at End of Year) reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the Supplemental Schedule of Assets (Held at End of Year). In forming our opinion on the Supplemental Schedule of Assets (Held at End of Year), we evaluated whether the Supplemental Schedule of Assets (Held at End of Year), including its form and content, is presented in conformity with Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, the Supplemental Schedule of Assets (Held at End of Year) is fairly stated, in all material respects, in relation to the financial statements as a whole.

The Southern Company Employee Savings Plan

Notes to Financial Statements

A. DESCRIPTION OF THE PLAN

General. The following description of The Southern Company Employee Savings Plan (the “Plan”) is provided for general information purposes only. Readers should refer to the Plan and other documents relating to the Plan for more complete information.

The Plan is a defined contribution plan administered by The Southern Company Benefits Administration Committee (the “Committee”), as designated in the Plan. The Plan covers substantially all employees and certain former employees and retirees of the following subsidiaries of The Southern Company (the “Company”): Alabama Power Company, Georgia Power Company, Gulf Power Company, Mississippi Power Company, Southern Company Services, Inc. (the “Plan Sponsor”), Southern Communications Services, Inc., and Southern Nuclear Operating Company, Inc. (collectively, referred to as the “Employing Companies”). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”), and the Internal Revenue Code of 1986, as amended (the “IRC”).

Plan Administration. The trustee and recordkeeper of the Plan are Bank of America, N.A. (the “Trustee”) and Merrill Lynch, Pierce, Fenner & Smith, Incorporated, respectively.

Participation. Employees meeting certain criteria, as defined by the Plan, may elect to participate in the Plan immediately after the employee’s first day of employment as of the first day of the payroll period.

Contributions. Participants may elect to contribute total before-tax, Roth after-tax, or regular after-tax contributions of up to 25% of eligible compensation, as defined by the Plan. Participants may change the percentage of their contributions at any time. Contributions are subject to certain IRC limitations. Participants also may contribute by rolling over to the Plan amounts representing distributions from other qualified defined benefit plans, defined contribution plans, or eligible individual retirement accounts.

The Employing Companies’ contributions (“Employer Matching Contributions”) are discretionary and determined by the Board of Directors of the Plan Sponsor. For the year ended December 31, 2014, the Employing Companies contributed, on behalf of the participants, an amount equal to 85% of each participant’s contribution, up to 6% of eligible compensation. The Board of Directors of the Plan Sponsor reserves the right to discontinue or change the Employer Matching Contributions at any time; however, it has not expressed any intent to make any changes at the present time.

Participant Accounts. Individual accounts are maintained for each Plan participant. Each participant’s account is credited with the participant’s contributions, the Employer Matching Contributions, and an allocation of Plan earnings based on the participant’s investment elections, and charged with certain administrative expenses and any withdrawals and allocations of Plan losses based on the participant’s investment elections. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Notes to Financial Statements (Continued)

Investment Options. Participants' contributions may be invested in 1% increments into any of the investment options offered by the Plan. The Plan offers a participant-directed brokerage account that allows participants to purchase publicly traded securities, mutual funds, and fixed income instruments. Participants may change their investment options at any time.

Vesting. Participants are immediately vested in the total value of their accounts - both employee and Employer Matching Contributions.

Notes Receivable from Participants. Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of \$50,000 or 50% of their account balances, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates commensurate with prevailing rates as determined by the Committee. The term of the loan may not be less than 12 months or more than 58 months. However, if the loan is to be used to purchase a principal residence, the term of the loan may be up to 15 years. Generally, principal and interest are paid ratably through payroll deductions. Participants also may repay an outstanding loan in full at any time.

Payment of Benefits. Upon retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's account or annual installments over a period of up to 20 years or may defer the distribution of the account. However, the participant must begin receiving payments by April 1 of the calendar year following the later of the calendar year in which the participant reaches age 70 ½ or terminates with the Company. On termination of service due to death or disability, or for other reasons, a participant or beneficiary may receive the value of his or her account as a lump-sum distribution.

Each participant may elect to receive a cash distribution of all or a portion of the dividends payable on the shares of the Company's common stock credited to the participant's account as of the record date of the dividend. The dividends payable on the shares of the Company's common stock credited to the account of a participant who does not elect to receive a cash distribution are reinvested in the participant's account in shares of the Company's common stock. Payments of the cash distributions for dividends payable are made as soon as administratively practicable after the payable date of the dividend but no later than 90 days after the end of the Plan year which includes such payable date. A participant's election to receive cash distributions of dividends payable on the Company's common stock is revoked automatically upon his or her death.

B. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting. The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Notes to Financial Statements (Continued)

Risks and Uncertainties. The Plan provides for various investment options. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Investment Valuation and Income Recognition. The Plan's investments are stated at fair value. Quoted market prices are used to value all readily marketable securities. Common stocks are valued at the closing price reported on the active market on which the individual securities are traded. Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded. Collective trust funds ("CCTs") are valued at the NAV of units of a collective trust fund. The NAV, as provided by the Trustee, is used as a practical expedient to estimate fair value.

The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date.

Notes Receivable from Participants. Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Payments of Benefits. Benefit payments to participants are recorded upon distribution. Amounts allocated to accounts of persons who have elected to withdraw from the Plan but have not yet been paid were \$1,454,496 and \$2,015,262 as of December 31, 2014 and 2013, respectively.

Administrative and Investment Management Fees. Brokerage commissions, transfer taxes, and any other expenses resulting from purchases and sales of securities within investment funds are charged to the various investment funds. Commissions on individual securities traded through the participant directed brokerage option are charged to the participant making the trade.

In addition, investment management fees for all funds, except Company common stock, are charged to Plan assets. Certain reasonable Plan administration expenses approved in accordance with Plan requirements may be paid from Plan assets.

Notes to Financial Statements (Continued)

C. INVESTMENTS

All investments are participant directed. The Plan's investments that represent 5% or more of the Plan's net assets available for benefits as of December 31, 2014 and 2013 are as follows:

	December 31	
	2014	2013
Southern Company Common Stock	\$ 2,651,313,429	\$ 2,365,881,416
BlackRock Money Market Fund	615,592,048	517,367,514
Vanguard Institutional Index Plus Fund	977,283,270	880,221,726
BlackRock Russell 2000 Index Fund	376,014,602	367,217,525

During the year ended December 31, 2014, the Plan's investments (including gains and losses on investments bought and sold as well as held during the year) appreciated (depreciated) in value as follows:

Southern Company Common Stock	\$ 453,556,828
Mutual Funds	100,505,205
Common Collective Trust Funds	19,672,847
Self-Directed Accounts	
Common and Preferred Stocks	1,857,533
Mutual Funds	(804,421)
Other	17,640
	\$ 574,805,632

D. FAIR VALUE MEASUREMENT

Accounting Standard Codification (ASC) Topic 820 establishes a fair value hierarchy that prioritizes observable and unobservable inputs to valuation techniques used to measure fair value. These levels, in order of highest to lowest priority are described below:

- Level 1 — Quoted prices (unadjusted) in active markets for identical assets or liabilities at the measurement date.
- Level 2 — Observable prices that are based on inputs not quoted on active markets, but corroborated by market data.
- Level 3 — Prices that are unobservable for the asset or liability and are developed based on the best information available under the circumstances, which might include the Company's own data.

The Plan classifies its investments based on the lowest level of input that is significant to the fair value measurement. The following tables set forth, by level within the fair value hierarchy, a summary of the Plan's investments measured at fair value as of December 31, 2014 and 2013.
