2 Total investment return is calculated assuming a purchase of a common share at the current market price on the first day and a sale at the current market price on the last day of each period reported. Dividends and distributions, if any, are assumed for purposes of this calculation to be reinvested at prices obtained under the Trust's dividend reinvestment plan. Total investment returns do not reflect brokerage commissions. Past performance is not a guarantee of future results.

3 Ratios are calculated on the basis of income and expenses applicable to both the common and preferred shares relative to the average net assets of the common shareholders.

The information in the above Financial Highlights represents the operating performance for a common share outstanding, total investment returns, ratios to average net assets and other supplemental data for each period indicated. This information has been determined based upon financial information provided in the financial statements and market price data for the Trust's common shares.

On September 29, 2006, BlackRock, Inc., the parent of BlackRock Advisors, LLC (formerly BlackRock Advisors, Inc.) (the Advisor), and Merrill Lynch & Co., Inc. (Merrill Lynch) combined Merrill Lynch's investment management business, Merrill Lynch Investment Managers, L.P. (MLIM), with BlackRock, Inc. to create a new independent company. Merrill Lynch has a 49.8% economic interest and a 45% voting interest in the new combined company and The PNC Financial Services Group, Inc. (PNC), has approximately a 34% economic and voting interest. The new company operates under the BlackRock name and is governed by a board of directors with a majority of independent members.

Under the Trusts' organizational documents, their officers and Trustees are indemnified against certain liabilities arising out of the performance of their duties to the Trusts. In addition, in the normal course of business, the Trusts enter into contracts with their vendors and others that provide for general indemnifications. The Trusts' maximum exposure under these arrangements are unknown as this would involve future claims that may be made against the Trusts. However, based on experience, the Trusts consider the risk of loss from such claims to be remote.

The following is a summary of significant accounting policies followed by the Trusts.

Investments Valuation: Municipal investments (including commitments to purchase such investments on a when-issued basis) are valued on the basis of prices provided by dealers or pricing services selected under the supervision of each Trust's Board of Trustees or Board of Directors, as the case may be (each, a Board). In determining the value of a particular investment, pricing services may use certain information with respect to transactions in such investments, quotations from bond dealers, market transactions in comparable investments and various relationships between investments. Swap quotations are provided by dealers selected under supervision of the Board. A futures contract is valued at the last sale price as of the close of the commodities exchange on which it trades. Short-term securities may be valued at amortized cost which approximates fair value. Investments in open-end investment companies are valued at net asset value per share. Any investments or other assets for which such current market quotations are not readily available are valued at fair value (Fair Value Assets) as determined in good faith under procedures established by, and under the general supervision and responsibility of, each Trust's Board. The investment advisor and/or sub-advisor will submit its recommendations regarding the valuation and/or valuation methodologies for Fair Value Assets to a valuation committee. The valuation committee may accept, modify or reject any recommendations. The pricing of all Fair Value Assets shall be subsequently reported to the Board.

When determining the price for a Fair Value Asset, the Advisor and/or sub-advisor shall seek to determine the price that the Trust might reasonably expect to receive from the current sale of that asset in an arm's-length transaction. Fair value determinations shall be based upon all available factors that the advisor and/or sub-advisor deems relevant.

In September 2006, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 157, *Fair Value Measurements* (FAS 157), which is effective for fiscal years beginning after November 15, 2007. FAS 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. Management is currently evaluating the implications of FAS 157. At this time, its impact on the Trusts' financial statements has not been determined.

Investment Transactions and Investment Income: Investment transactions are recorded on trade date. The cost of investments sold and the related gain or loss is determined by use of the specific identification method, generally first-in, first-out, for both financial reporting and Federal

income tax purposes. Each Trust also records interest income on an accrual basis and amortizes premium and/or accretes discount on securities purchased using the interest method. Dividend income is recorded on the ex-dividend date.

Financial Futures Contracts: A financial futures contract is an agreement between two parties to buy and sell a financial instrument for a set price on a future date. Initial margin deposits are made upon entering into financial futures contracts and can be either cash or securities. During the period the financial futures contract is open, changes in the value of the contract are recognized as unrealized gains or losses by marking-to-market on a daily basis to reflect the market value of the contract at the end of each day's trading. Variation margin payments are made or received, depending upon whether unrealized gains or losses are incurred. When the contract is closed, the Trust records a realized gain or loss equal to the difference between the proceeds from (or cost of) the closing transaction and the Trust's basis in the contract.

Financial futures contracts, when used by the Trusts, help in maintaining a targeted duration. Financial futures contracts can be sold to effectively shorten an otherwise longer duration portfolio. In the same sense, financial futures contracts can be purchased to lengthen a portfolio that is shorter than its duration target. Thus, by buying or selling financial futures contracts, the Trusts may attempt to manage the duration of positions so that changes in interest rates do not change the duration of the portfolio unexpectedly.

Forward Starting Swaps: A forward starting swap is an agreement for an interest rate swap asset or liability to be created or sold in the future. Interest rate swaps are an agreement in which one party pays a floating rate of interest on a notional principal amount and receives a fixed rate of interest on the same notional principal amount for a specified period of time. Alternatively, a party may pay a fixed rate and receive a floating rate. The Trusts generally intend to close each forward starting swap before the accrual date specified in the agreement and therefore avoid entering into the interest rate swap underlying each forward starting swap.

During the term of the swap, changes in the value of the swap are recognized as unrealized gains or losses by marking-to-market daily based upon quotations from market makers to reflect the market value of the swap. When the swap is terminated, a Trust will record a realized gain or loss equal to the difference between the proceeds from (or cost of) the closing transaction and the Trust's basis in the contract, if any.

Entering into these agreements involves, to varying degrees, elements of credit and market risk in excess of the amounts recognized on the Statements of Assets and Liabilities. Such risks involve the possibility that there will be no liquid market for these agreements, that the counterparty to the agreement may default on its obligation to perform and that there may be unfavorable changes in the fluctuation of interest and/or exchange rates. However, the Advisor of the Trusts monitors swaps and does not anticipate non-performance by any counterparty.

Segregation: In cases in which the 1940 Act and the interpretive positions of the Securities and Exchange Commission (the Commission) require that each Trust segregate assets in connection with certain investments (e.g., when-issued securities, swap agreements or financial futures contracts), each Trust will, consistent with certain interpretive letters issued by the Commission, designate on its books and records cash or other liquid securities having a market value at least equal to the amount that would otherwise be required to be physically segregated.

Federal Income Taxes: It is each Trust's intention to continue to be treated as a regulated investment company under the Internal Revenue Code and to distribute sufficient net income and net realized capital gains, if any, to shareholders. Therefore, no federal income tax or excise tax provisions have been recorded.

On July 13, 2006, the Financial Accounting Standards Board (FASB) released FASB Interpretation No. 48 (FIN 48), *Accounting for Uncertainty in Income Taxes*. FIN 48 provides guidance for how uncertain tax positions should be recognized, measured, presented and disclosed in the financial statements. FIN 48 requires the evaluation of tax positions taken in the course of preparing the Trusts' tax returns to determine whether the tax positions are more-likely-than-not of being sustained by the applicable tax authority. Tax benefits of positions not deemed to meet the more-likely-than-not threshold would be booked as a tax expense in the current year and recognized as: a liability for unrecognized tax benefits; a reduction of an income tax refund receivable; a reduction of deferred tax asset; an increase in deferred tax liability; or a combination thereof. Adoption of FIN 48 is required for the last net asset value calculation in the first required financial statement reporting period for fiscal years beginning after December 15, 2006. At this time, management is evaluating the implications of FIN 48 and its impact on the financial statements has not yet been determined.

Dividends and Distributions: Each Trust declares and pays dividends and distributions to common shareholders monthly from net investment income, net realized short-term capital gains and other sources, if necessary. Net long-term capital gains, if any, in excess of loss carryforwards may be distributed in accordance with the 1940 Act. Dividends and distributions are recorded on the ex-dividend date. Income distributions and capital gain distributions are determined in accordance with income tax regulations which may differ from accounting principles generally accepted in the United States of America. Dividends and distributions to preferred shareholders are accrued and determined as described in Note 5.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates and such differences may be material.

Deferred Compensation and BlackRock Closed-End Share Equivalent Investment Plan: Under the deferred compensation plan approved by each Trust's Board, non-interested Trustees/Directors (Independent Trustees) are required to defer a portion of their annual complex-wide compensation. Deferred amounts earn an approximate return as though equivalent dollar amounts had been invested in common shares of other BlackRock Closed-End Funds selected by the Independent Trustees. These amounts are shown on the Statements of Assets and Liabilities as Investments in Affiliates. This has approximately the same economic effect for the Independent Trustees as if the Independent Trustees had invested the deferred amounts directly in such Trusts.

The deferred compensation plan is not funded and obligations thereunder represent general unsecured claims against the general assets of the Trust. Each Trust may, however, elect to invest in common shares of those Trusts selected by the Independent Trustees in order to match its deferred compensation obligations.

Other: Expenses that are directly related to one of the Trusts are charged directly to that Trust. Other operating expenses are generally prorated to the Trusts on the basis of relative net assets of all the BlackRock Closed-End Funds.

Note 2. Agreements and Other Transactions with Affiliates and Related Parties.

Each Trust has an Investment Management Agreement with Advisor, a wholly owned subsidiary of BlackRock, Inc. BlackRock Financial Management, Inc. (BFM), a wholly owned subsidiary of BlackRock, Inc., serves as sub-advisor to the 2018 Trusts, 2020 Trusts and Strategic Trusts. BlackRock, Inc. may be presumed an affiliate of Merrill Lynch and PNC. The Investment Management Agreements for the 2018 Trusts, 2020 Trusts and Strategic Trusts cover both investment advisory and administration services. Each 2008 Trust and Insured Municipal Trust has an Administration Agreement with the Advisor.

Each Trust's investment advisory fee paid to the Advisor is computed weekly and payable monthly based on an annual rate, 0.35% for the 2008 Trusts and Insured Municipal Trust, 0.40% for the 2018 Trusts, 0.50% for the 2020 Trusts and 0.60% for the Strategic Trusts, of the Trust's average weekly managed assets. Managed assets means the total assets of a Trust (including any assets attributable to any preferred shares that may be outstanding) minus the sum of accrued liabilities (other than debt representing financial leverage). The Advisor has voluntarily agreed

Edgar Filing: BLACKROCK FLORIDA INSURED MUNICIPAL 2008 TERM TRUST - Form N-CSR

The Advisor pays BFM fees for its sub-advisory services.

The administration fee paid to the Advisor by the 2008 Trusts and Insured Municipal Trust is computed weekly and payable monthly based on an annual rate of 0.10% of the Trusts' average weekly managed assets for each 2008 Trust and Insured Municipal Trust.

Pursuant to the agreements, the Advisor provides continuous supervision of the investment portfolio and pays the compensation of officers of each Trust who are affiliated persons of the Advisor, as well as occupancy and certain clerical and accounting costs of each Trust. Each Trust bears all other costs and expenses, which include reimbursements to the Advisor for costs of employees that provide pricing, secondary market support and compliance services to each Trust. A Trust may not declare dividends or make other distributions on common shares or purchase any such shares if, at the time of the declaration, distribution or purchase, asset coverage with respect to the outstanding preferred shares would be less than 200%.

The preferred shares are redeemable at the option of each Trust, in whole or in part, on any dividend payment date at \$25,000 per share plus any accumulated unpaid dividends whether or not declared. The preferred shares are also subject to mandatory redemption at \$25,000 per share plus any accumulated or unpaid dividends, whether or not declared, if certain requirements relating to the composition of the assets and liabilities of a Trust, as set forth in each Trust's Declaration of Trust/Articles Supplementary, are not satisfied.

The holders of preferred shares have voting rights equal to the holders of common shares (one vote per share) and will vote together with holders of common shares as a single class. However, holders of preferred shares, voting as a separate class, are also entitled to elect two Trustees for each Trust. In addition, the 1940 Act requires that along with approval by shareholders that might otherwise be required, the approval of the holders of a majority of any outstanding preferred shares, voting separately as a class would be required to (a) adopt any plan of reorganization that would adversely affect the preferred shares (b) change a Trust's subclassification as a closed-end investment company or change its fundamental investment restrictions and (c) change its business so as to cease to be an investment company.

Note 7. Concentration Risk

The Trusts concentrate their investments in securities issued by state agencies, other governmental entities and U.S. Territories. The Trusts are more susceptible to adverse financial, social, environmental, economic, regulatory and political factors that may affect these state agencies, other governmental entities and U.S. Territories, which could seriously affect the ability of these states and their municipal subdivisions to meet continuing obligations for principle and interest payments and therefore could impact the value of the Trusts' investments and net asset value per share, than if the Trusts were not concentrated in securities issued by state agencies, other governmental entities and U.S. Territories.

Many municipalities insure repayment for their obligations. Although bond insurance reduces the risk of loss due to default by an issuer, such bonds remain subject to the risk that market value may fluctuate for other reasons and there is no assurance that the insurance company will meet its obligations. These securities have been identified in the Portfolios of Investments.

We have audited the accompanying statements of assets and liabilities of the Trusts, including the portfolios of investments, as of December 31, 2006, and the related statements of operations for the year then ended, and the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the periods presented. These financial statements and financial highlights are the responsibility of the Trusts' management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. The Trusts are not required to have, nor were we engaged to perform audits of their internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Trusts' internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of December 31, 2006, by correspondence with the custodian and brokers. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of the Trusts as of December 31, 2006, the results of their operations for the year then ended, and the changes in their net assets for each of the two years in the period then ended, and their financial highlights for each of the periods presented, in conformity with accounting principles generally accepted in the United States of America.

DIVIDEND REINVESTMENT PLANS

Pursuant to each Trust's Dividend Reinvestment Plan (the Plan), common shareholders of the 2008 Trusts and Insured Municipal may elect, while the common shareholders of the 2018 Trusts, 2020 Trusts and Strategic Trusts are automatically enrolled, to have all distributions of dividends and capital gains reinvested by Computershare Trust Company, N.A. (the Plan Agent) in the respective Trust's shares in accordance with the Plan. Shareholders who do not participate in the Plan will receive all distributions in cash paid by check and mailed directly to the shareholders of record (or if the shares are held in street or other nominee name, then to the nominee) by the Plan Agent, which serves as agent for the shareholders in administering the Plan.

After a 2008 Trust, Insured Municipal, 2018 and/or 2020 Trust declares a dividend or determines to make a capital gain distribution, the Plan Agent will acquire shares for the participants' account, by the purchase of outstanding shares on the open market, on the Trust's primary exchange or elsewhere (open market purchases). These Trusts will not issue any new shares under the Plan.

After a Strategic Trust declares a dividend or determines to make a capital gain distribution, the Plan Agent will acquire shares for the participants' account, depending upon the circumstances described below, either (i) through receipt of unissued but authorized shares from the Trust (newly issued shares) or (ii) by open market purchases. If, on the dividend payment date, the NAV is equal to or less than the market price per share plus estimated brokerage commissions (such condition being referred to herein as market premium), the Plan Agent will invest the dividend amount in newly issued shares on behalf of the participants. The number of newly issued shares to be credited to each participant's account will be determined by dividing the dollar amount of the dividend by the NAV on the date the shares are issued. However, if the NAV is less than 95% of the market price on the payment date, the dollar amount of the dividend will be divided by 95% of the market price on the payment date. If, on the dividend payment date, the NAV is greater than the market value per share plus estimated brokerage commissions (such condition being referred to herein as market discount), the Plan Agent will invest the dividend amount in shares acquired on behalf of the participants in open market purchases.

Participation in the Plan is completely voluntary and may be terminated or resumed at any time without penalty by notice if received and processed by the Plan Administrator prior to the dividend record date; otherwise such termination or resumption will be effective with respect to any subsequently declared dividend or other distribution.

The Plan Agent's fees for the handling of the reinvestment of dividends and distributions will be paid by each Trust. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent's open market purchases in connection with the reinvestment of dividends and distributions. The automatic reinvestment of dividends and distributions will not relieve participants of any federal income tax that may be payable on such dividends or distributions.

Each Trust reserves the right to amend or terminate the Plan. There is no direct service charge to participants in the Plan; however, each Trust reserves the right to amend the Plan to include a service charge payable by the participants. Participants that request a sale of shares through the Plan Agent are subject to a \$2.50 sales fee and a \$0.15 per share sold brokerage commission. All correspondence concerning the Plan should be directed to the Plan Agent at 250 Royall Street, Canton, MA 02021, or by calling (800) 699-1BFM.

INVESTMENT MANAGEMENT AGREEMENTS

Under the 1940 Act, the continuation of each Trust's investment management agreement is required to be approved annually by the Boards, including the Independent Trustees. At a meeting held on May 23, 2006, the Board of each Trust, including the Independent Trustees, met to consider the annual continuation of each management agreement in effect prior to such date (the "Old Management Agreements"). The Boards first considered the annual continuation of each Old Management Agreement without considering the impending acquisition by BlackRock, Inc. of the investment management business of Merrill Lynch & Co. Inc. (the "Transaction") because the Old Management Agreements needed to be reapproved whether or not the Transaction closes. Accordingly, it was appropriate to review each Old Management Agreement without considering the impending Transaction, and then to separately consider the impact of the transaction on the Old Management Agreements.

At the meeting on May 23, 2006, the Board of each Trust, including those trustees/directors of each Trust who are not interested persons of the Trusts for purposes of the Investment Company Act of 1940, as amended (the "Independent Trustee"), unanimously approved the continuance of each Old Management Agreement for each Trust with a contract considered for renewal and then approved a new management agreement for each Trust to take effect following the completion of the Transaction (the "New Management Agreements").

Information Received by the Boards

To assist each Board in its evaluation of the Old Management Agreements, the Independent Trustees received information from BlackRock on or about April 22, 2006 which detailed, among other things: the organization, business lines and capabilities of BlackRock Advisors, LLC, (formally BlackRock Advisors, Inc., "BlackRock") the sub-advisors, if any, for each Trust (collectively the "Advisors,") including the responsibilities of various departments and key personnel and biographical information relating to key personnel; financial statements for BlackRock, PNC and each Trust; the advisory and/or administrative fees paid by each Trust to the Advisors, including comparisons, compiled by an independent third party, with the management fees of funds with similar investment objectives ("Peers"); the profitability of BlackRock and certain industry profitability analyses for advisors to registered investment companies; the expenses of BlackRock in providing the various services; non-investment advisory reimbursements and fall-out benefits to BlackRock; the expenses of each Trust, including comparisons of the respective Trust's expense ratios (both before and after any fee waivers) with the expense ratios of its Peers; and each Trust's performance for the past one-, three-, five- and ten-year periods, when applicable, and each Trust's performance compared to its Peers. This information supplemented the information received by each Board throughout the year regarding each Trust's performance, expense ratios, portfolio composition, trade execution and compliance.

In addition to the foregoing materials, independent legal counsel to the Independent Trustees provided a legal memorandum outlining, among other things, the duties of each Board under the 1940 Act, as well as the general principles of relevant law in reviewing and approving advisory contracts, the requirements of the 1940 Act in such matters, an advisor's fiduciary duty with respect to advisory agreements and compensation, and the standards used by courts in determining whether investment company boards of trustees have fulfilled their duties as well as factors to be considered by the boards in voting on advisory agreements.

The Independent Trustees reviewed this information and discussed it with independent counsel in executive session prior to the Board meeting. At the Board meeting on May 23, 2006, BlackRock made a presentation to and responded to additional questions from the Boards. After the presentations and after additional discussion, each Board considered each Old Management Agreement and, in consultation with independent counsel, reviewed the factors set out in judicial decisions and SEC statements relating to the renewal of the Old Management Agreements.

Matters Considered by the Boards

The Old Management Agreements

In connection with their deliberations with respect to the Old Management Agreements, the Boards considered all factors they believed relevant with respect to each Trust, including the following: the nature, extent and quality of the services to be provided by the Advisors; the investment performance of each Trust; the costs of the services to be provided and profits to be realized by the Advisors and their affiliates from their relationship with the Trusts; the extent to which economies of scale would be realized as the BlackRock closed-end fund complex grows; and whether BlackRock realizes other benefits from its relationship with the Trusts.

Nature and Quality of Investment Advisory and Sub-Advisory Services. In evaluating the nature, extent and quality of the Advisors services, the Boards reviewed information concerning the types of services that the Advisors provide and are expected to provide to each Trust, narrative and statistical information concerning each Trust's performance record and how such performance compares to each Trust's Peers,

Edgar Filing: BLACKROCK FLORIDA INSURED MUNICIPAL 2008 TERM TRUST - Form N-CSR

information describing BlackRock's organization and its various departments, the experience and responsibilities of key personnel and available resources. The Boards noted the willingness of the personnel of BlackRock to engage in open, candid discussions with the Boards. The Boards further considered the quality of the Advisors' investment process in making portfolio management decisions. Given the Boards' experience with BlackRock, the Boards noted that they were familiar with and continue to have a good understanding of the organization, operations and personnel of BlackRock. The Boards also noted that the formation of Portfolio Review Committees and a Compliance Committee had helped the Boards to continue to improve their understanding of BlackRock's organization, operations and personnel.

In addition to advisory services, the Independent Trustees considered the quality of the administrative or non-investment advisory services provided to the Trusts. In this regard, the Advisors provide each Trust with such administrative and other services (exclusive of, and in addition to, any such services provided by others for the Trusts) and officers and other personnel as are necessary for the operations of the respective Trust. In addition to investment management services, the Advisors and their affiliates provide each Trust with services such as: preparing shareholder reports and communications, including annual and semi-annual financial statements and Trust websites; communications with analysts to support secondary market trading; assisting with daily accounting and pricing; preparing periodic filings with regulators and stock exchanges; overseeing and coordinating the activities of other service providers; administering and organizing Board meetings and preparing

Edgar Filing: BLACKROCK FLORIDA INSURED MUNICIPAL 2008 TERM TRUST - Form N-CSR

the Board materials for such meetings; providing legal and compliance support (such as helping to prepare proxy statements and responding to regulatory inquiries); and performing other Trust administrative tasks necessary for the operation of the respective Trust (such as tax reporting and fulfilling regulatory filing requirements). The Boards considered the Advisors' policies and procedures for assuring compliance with applicable laws and regulations.

Investment Performance of the Trusts. As previously noted, the Boards received performance information regarding each Trust and its Peers. Among other things, the Boards received materials reflecting each Trust's historic performance and each Trust's performance compared to its Peers. More specifically, each Trust's one-, three-, five- and ten-year total returns (when applicable) were evaluated relative to its respective Peers (including the performance of individual Peers as well as the Peers' average performance).

The Boards reviewed a narrative analysis of the third-party Peer rankings, prepared by BlackRock at the Boards' request. The summary placed the Peer rankings into context by analyzing various factors that affect these comparisons. In evaluating the performance information, in certain limited instances, the Boards noted that the Peers most similar to a given Trust still would not adequately reflect such Trust's investment objectives and strategies, thereby limiting the usefulness of the comparisons of such Trust's performance with that of its Peers. The Boards determined that ten Trusts (BRM, BMT, BPK, BKK, BFC, BJZ, BRF, BFO, BLN and BLH) with finite terms were not comparable to the Peers assigned to them by Lipper because, in accordance with their investment objectives, they manage their duration to reflect their finite lives. Because the portfolios of these ten Trusts have a shorter duration than those of their Peers, they generally will have lower returns than their Peers, all other things being equal, in order to seek to return to investors their initial investment at the end of the life of these Trusts. The Boards also noted that each of these ten Trusts performed at least as well as their benchmark in at least two periods in each of the past one-, three- and five-year periods or in all applicable periods if not all periods were applicable.

Of the three other Trusts, the Boards noted that BSD had performed better than or equal to the median of its Peers and benchmarks in each of the past one-, three- and five-year periods. The Boards also noted that BPS had performed worse than the median of its Peers in at least one of these periods or worse than its applicable benchmark in more than one of these periods. The Boards considered the following reasons why BPS may have underperformed its Peers or their benchmarks, but also noted that it is often difficult to determine why a Trust underperformed a Peer because it is difficult to obtain perfect information with respect to the Peers.

The Board of BPS noted that BPS had under-performed its respective Peers or its benchmark for one or more periods. The Board considered that, with respect to a Trust investing primarily in municipal securities, the Advisor generally limits lengthening the duration of such Trust in response to changing interest rate environments because the shorter duration bonds owned by the Trust generally have yields higher than the coupons on longer duration bonds available in the market today. Accordingly, by retaining the short duration bonds currently in the portfolio of BPS, the Advisor believes it is better able to maintain the current dividend levels of BPS, albeit at the expense of a lower total return than they may have otherwise had with a longer duration portfolio. In addition, in a rising interest rate environment where the yield curve is normal, the Advisor believes that BPS portfolio will have less interest rate risk than a portfolio of longer duration bonds.

After considering this information, the Boards concluded that the performance of each Trust, in light of and after considering the other facts and circumstances applicable to each Trust, supports a conclusion that each Trust's Current Agreement should be renewed.

Fees and Expenses. In evaluating the management fees and expenses that a Trust is expected to bear, the Boards considered each Trust's current management fee structure and the Trust's expected expense ratios in absolute terms as well as relative to the fees and expense ratios of applicable Peers. In reviewing fees, the Boards, among other things, reviewed comparisons of each Trust's gross management fees before and after any fee waivers and total expense ratios after any applicable waivers with those of the applicable Peers. The Boards also reviewed a narrative analysis of the Peer rankings that was prepared by an independent third party and summarized by BlackRock at the request of the Boards. This summary placed the rankings into context by analyzing various factors that affect these comparisons.

The Boards noted that, of the 12 Trusts with investment advisory agreements subject to re-approval at the meeting, eight Trusts pay fees lower than or equal to the median fees paid by their Peers in each of (i) contractual management fees payable by a Trust prior to any fee waivers (contractual management fees), (ii) actual management fees paid by a Trust after taking into consideration fee waivers (actual management fees) and (c) total expenses. Of the remaining four Trusts: BLH and BFO had contractual management fees and total expenses better than or equal to the median of their Peers, but had actual management fees worse than the median; and BFC and BRM had contractual management fees better than or equal to the median of their Peers, but had actual management fees and total expenses worse than the median. The Board noted the following reasons why these four Trusts actual management fees or total expenses higher than the median of their Peers:

De minimis. The Boards of BLH, BFO and BRM noted that these Trusts pay actual management fees and/or incur total expenses that are no more than 4 bps (no more than 6%) higher than the median of their respective Peers. Nevertheless, all three of these Trusts have contractual management fees that are lower than or equal to the median of their peers. In addition, BLH and BFO incur total expenses that are lower than or equal to the median.

Other Factors. The Board noted that BFC has contractual management fees which are better or equal to the median of its peers. The Board of BFC noted that the Trust pays actual management fees and incurs total expenses that are worse than the median of its Peers, which may be attributable to the other funds temporarily waiving fees.

The Boards also compared the management fees charged to the Trusts and other investment companies by the Advisors to the management fees the Advisors charge other types of clients (such as open-end investment companies and separately managed institutional accounts). With respect to open-end investment companies, the management fees charged to the Trusts generally were higher than those charged to the open-end investment companies. The Boards also noted that the Advisors provide the Trusts with certain services not provided to open-end funds, such as leverage management in connection with the issuance of preferred shares, stock exchange listing compliance requirements, rating agency compliance with respect to the leverage employed by the Trusts and secondary market support and other services not provided to the Trusts, such as monitoring of subscriptions and redemptions. With respect to separately managed institutional accounts, the management fees for such

Edgar Filing: BLACKROCK FLORIDA INSURED MUNICIPAL 2008 TERM TRUST - Form N-CSR

accounts were generally lower than those charged to the comparable Trusts. The Boards noted, however, the various services that are provided and the costs incurred by the Advisors in managing and operating the Trusts. For instance, the Advisors and their affiliates provide numerous services to the Trusts that are not provided to institutional accounts including, but not limited to: preparing shareholder reports and communications, including annual and semi-annual financial statements; preparing periodic filings with regulators and stock exchanges; overseeing and coordinating the activities of other service providers; administering and organizing Board meetings and preparing the Board materials for such meetings; income monitoring; expense budgeting; preparing proxy statements; and performing other Trust administrative tasks necessary for the operation of the respective Trust (such as tax reporting and fulfilling regulatory filing requirements). Further, the Boards noted the increased compliance requirements for the Trusts in light of new SEC regulations and other legislations. These services are generally not required to the same extent, if at all, for separate accounts.

In connection with the Boards' consideration of this information, the Boards reviewed the considerable investment management experience of the Advisors and considered the high level of investment management, administrative and other services provided by the Advisors. In light of these factors and the other facts and circumstances applicable to each Trust, the Boards concluded that the fees paid and expenses incurred by each Trust under its Old Management Agreements supports a conclusion that each Trust's Old Management Agreements should be renewed.

Profitability. The Trustees also considered BlackRock's profitability in conjunction with their review of fees. The Trustees reviewed BlackRock's revenues, expenses and profitability margins on a before-and after-tax basis. In reviewing profitability, the Trustees recognized that one of the most difficult issues in determining profitability is establishing a method of allocating expenses. The Trustees also reviewed BlackRock's assumptions and methodology of allocating expenses, noting the inherent limitations in allocating costs among various advisory products. The Boards also recognized that individual fund or product line profitability of other advisors is generally not publicly available.

The Boards recognized that profitability may be affected by numerous factors including, among other things, the types of funds managed, expense allocations and business mix, and therefore comparability of profitability is somewhat limited. Nevertheless, to the extent available, the Boards considered BlackRock's pre-tax profit margin compared to the pre-tax profitability of various publicly-traded investment management companies and/or investment management companies that publicly disclose some or all of their financial results. The comparison indicated that BlackRock's pre-tax profitability was in the second quartile of the 15 companies compared (including BlackRock), with the most profitable quartile being ranked first and the least profitable quartile being ranked fourth.

In evaluating the reasonableness of the Advisors' compensation, the Boards also considered any other revenues paid to the Advisors, including partial reimbursements paid to the Advisors for certain non-investment advisory services. The Boards noted that these payments were less than the Advisors' costs for providing these services. The Boards also considered indirect benefits that the Advisors and their affiliates are expected to receive that are attributable to their management of the Trusts.

In reviewing each Trust's fees and expenses, the Boards examined the potential benefits of economies of scale, and whether any economies of scale should be reflected in the Trusts' fee structures, for example through the use of breakpoints. In this connection, the Boards reviewed information provided by BlackRock, noting that most closed-end fund complexes do not have fund-level breakpoints, as closed-end funds generally do not experience substantial growth after their initial public offering and each fund is managed independently consistent with its own investment objectives. The information also revealed that only one closed-end fund complex used a complex-level breakpoint structure for advisory fees, and that this complex generally is homogeneous with regard to the types of funds managed and is about three times as large as the Trusts' complex.

The Boards concluded that BlackRock's profitability, in light of all the other facts and circumstances applicable to each Trust, supports a conclusion that each Trust's Current Agreements should be renewed.

Other Benefits. In evaluating fees, the Boards also considered indirect benefits or profits the Advisors or their affiliates may receive as a result of their relationships with the Trusts. The Trustees, including the Independent Trustees, considered the intangible benefits that accrue to the Advisors and their affiliates by virtue of their relationships with the Trusts, including potential benefits accruing to the Advisors and their affiliates as a result of participating in offerings of the Trusts' shares, potentially stronger relationships with members of the broker-dealer community, increased name recognition of the Advisors and their affiliates, enhanced sales of other investment funds and products sponsored by the Advisors and their affiliates and increased assets under management which may increase the benefits realized by the Advisors from soft dollar arrangements with broker-dealers. The Boards also considered the unquantifiable nature of these potential benefits.

Miscellaneous. During the Boards' deliberations in connection with the Old Management Agreements, the Boards were aware that the Advisor pays compensation, out of its own assets, to the lead underwriter and to certain qualifying underwriters of many of its closed-end funds, and to employees of the Advisors' affiliates that participated in the offering of such funds. The Boards considered whether the management fee met applicable standards in light of the services provided by the Advisors, without regard to whether the Advisors ultimately pay any portion of the anticipated compensation to the underwriters.

Conclusion with respect to the Old Management Agreements. In reviewing the Old Management Agreements without considering the impending Transaction, the Trustees did not identify any single factor discussed above as all-important or controlling. The Trustees, including

Edgar Filing: BLACKROCK FLORIDA INSURED MUNICIPAL 2008 TERM TRUST - Form N-CSR

the Independent Trustees, unanimously determined that each of the factors described above, in light of all the other factors and all of the facts and circumstances applicable to each respective Trust, was acceptable for each Trust and supported the Trustees' conclusion that the terms of each Old Management Agreement were fair and reasonable, that the respective Trust's fees are reasonable in light of the services provided to the respective Trust, and that each Old Management Agreement should be approved.

The Transaction

On September 29, 2006, Merrill Lynch contributed its investment management business, MLIM, to BlackRock, one of the largest publicly traded investment management firms in the United States and the parent company of the Advisor to form a new asset management company

Edgar Filing: BLACKROCK FLORIDA INSURED MUNICIPAL 2008 TERM TRUST - Form N-CSR

that is one of the world's preeminent, diversified global money management organizations with approximately \$1 trillion in assets under management. Based in New York, BlackRock manages assets for institutional and individual investors worldwide through a variety of equity, fixed income, cash management and alternative investment products. The new company operates under the BlackRock name and is governed by a board of directors with a majority of independent members. The new company offers a full range of equity, fixed income, cash management and alternative investment products with strong representation in both retail and institutional channels, in the United States and in non-U.S. markets. It will have over 4,500 employees in 18 countries and a major presence in most key markets, including the United States, the United Kingdom, Asia, Australia, the Middle East and Europe. Merrill Lynch owns no more than 49.8% of the total capital stock of the company on a fully diluted basis and it owns no more than 45% of the new company's voting power, and The PNC Financial Services Group, Inc. (PNC), which previously held a majority interest in BlackRock, retains approximately 34% of the new company's common stock. Each of Merrill Lynch and PNC has agreed that it will vote all of its shares on all matters in accordance with the recommendation of BlackRock's board of directors.

The New Management Agreements

Consequences of the Transaction. On February 23, 2006, April 21, 2006 and May 23, 2006, members of BlackRock management made presentations on the Transaction to the Trustee and the Trustees discussed with management and amongst themselves management's general plans and intentions regarding the Trusts, including the preservation, strengthening and growth of BlackRock's business and its combination with MLIM's business. The Boards also inquired about the plans for and anticipated roles and responsibilities of certain BlackRock employees and officers after the Transaction. The Independent Trustees also met in executive session to discuss the Transaction. After these meetings, BlackRock continued to update the Boards with respect to its plans to integrate the operations of BlackRock and MLIM and the potential impact of those plans on the Trusts as those plans were further developed.

At the Board meeting on May 23, 2006, after considering and approving the Old Management Agreements, the Boards (including the Independent Trustees) then considered the information received at or prior to the meeting and the consequences of the Transaction to each Trust, including, among other things:

(i) that BlackRock, MLIM and their investment advisory subsidiaries are experienced and respected asset management firms, and that BlackRock advised the Boards that in connection with the closing of the Transaction, it intends to take steps to combine the investment management operations of BlackRock and MLIM, which, among other things, may involve sharing common systems and procedures, employees (including portfolio managers), investment and trading platforms, and other resources. Furthermore, these combination processes will result in changes to portfolio management teams for each of the Trusts;

(ii) that BlackRock advised the Boards that following the Transaction, there is not expected to be any diminution in the nature, quality and extent of services provided to the Trusts and their shareholders by the Advisors, including compliance services;

(iii) that BlackRock advised the Boards that it has no present intention to alter the expense waivers and reimbursements currently in effect for certain of the Trusts;

(iv) the experience, expertise, resources and performance of MLIM that will be contributed to BlackRock after the closing of the Transaction and their anticipated impact on BlackRock's ability to manage the Trusts;

(v) that BlackRock and MLIM would derive benefits from the Transaction and that as a result, they have a financial interest in the matters that were being considered;

(vi) the potential effects of regulatory restrictions on the Trusts as a result of Merrill Lynch's equity stake in BlackRock after the Transaction;

(vii) the fact that each Trust's aggregate investment advisory and sub-advisory fees payable under the New Management Agreements and the Old Management Agreements are identical;

(viii) the terms of the New Management Agreements, including the differences from the Old Management Agreements (see Comparison of the Old Management Agreements to the New Management Agreements above);

(ix) that the Trusts would not bear the costs of obtaining shareholder approval of the New Agreements; and

(x) that BlackRock and Merrill Lynch have agreed to conduct their respective businesses (and use reasonable best efforts to cause their respective affiliates to conduct their respective businesses) to enable the conditions of Section 15(f) to be true in relation to any registered investment companies advised by MLIM and registered under the 1940 Act and have agreed to the same conduct in relation to the BlackRock registered investment companies to the extent it is determined the Transaction is an assignment under the 1940 Act.

Nature and Quality of Investment Advisory and Sub-Advisory Services. The Boards considered the expected impact of the Transaction on the operations, facilities, organization and personnel of the Advisors, the potential implications of regulatory restrictions on the Trusts following the Transaction and the ability of the Advisors to perform their duties after the Transaction. The Boards considered that the services to be provided

and the standard of care under the New Agreements are the same as under the Current Agreements. The Boards also considered statements by management of BlackRock that, in connection with integrating the operations of the Advisors and MLIM, the objective was to preserve the best of both organizations in order to enhance BlackRock's ability to provide investment advisory services following completion of the Transaction.

The Boards noted that it is impossible to predict with certainty the impact of the Transaction on the nature, quality and extent of the services provided by the Advisors to the Trusts, but concluded based on the information currently available and in light of all of the current facts and circumstances that the Transaction is likely to provide the Advisors with additional resources with which to serve the Trusts and was not expected to adversely affect the nature, quality and extent of the services to be provided to the Trusts and their shareholders by the Advisors and was not expected to materially adversely affect the ability of the Advisors to provide those services.

Edgar Filing: BLACKROCK FLORIDA INSURED MUNICIPAL 2008 TERM TRUST - Form N-CSR

At the May 23rd meetings of the Boards, BlackRock informed the Boards that, following completion of the Transaction, a team primarily comprised of MLIM professionals would manage the portfolios of those Trusts. BlackRock discussed with the Boards the reasons for this proposed change at the August meetings of the Boards for the Boards' consideration at the time. If the Boards did not object to this change, the following team members generally would oversee investment policies for those Trusts that invest primarily in municipal securities. This team is one of the largest managers of municipal debt with approximately \$67.5 billion in assets under management as of March 31, 2006, including 31 closed-end investment companies with \$16.2 billion in assets, \$8 billion in retail separate accounts and nine open-end mutual funds with \$4.1 billion in assets.

Robert A. DiMella. Mr. DiMella had been a Managing Director of MLIM since 2004 and was a Director from 2002 to 2004. He had been a portfolio manager with MLIM since 1993.

William R. Bock. Mr. Bock had been a Director of MLIM since 2005, and was a Vice President from 1989 to 2005. Mr. Bock had been a portfolio manager with MLIM since 1989.

Timothy T. Browse. Mr. Browse had been a Vice President (Municipal Tax-Exempt Fund Management) of and portfolio manager with MLIM since 2004. He was also Vice President, Portfolio Manager and team leader of the Municipal Investments Team with Lord Abbett & Co. from 2000 to 2003.

Theodore R. Jaeckel, Jr., CFA. Mr. Jaeckel had been a Director (Municipal Tax-Exempt Fund Management) of MLIM since 1997. Mr. Jaeckel had been a portfolio manager with MLIM since 1991.

Walter O Connor. Mr. O Connor had been a Managing Director of MLIM since 2003, was a Director of MLIM from 1998 to 2003 and was a Vice President of MLIM from 1992 to 1998. He had been a portfolio manager with MLIM since 1991.

Robert D. Sneed. Mr. Sneed had been a Vice President of MLIM since 1998 and was an Assistant Vice President from 1994 to 1998. Mr. Sneed had been a portfolio manager with MLIM since 1994.

Investment Performance of the Trusts. The Boards examined MLIM's investment performance with respect to its closed-end funds. The Boards noted the Advisors' and MLIM's considerable investment management experience and capabilities. The Boards considered this information together with the level of services expected to be provided to the Trusts. Although the Boards noted that it is impossible to predict the effect, if any, that consummation of the Transaction would have on the future performance of the Trusts, the Boards concluded that the information currently available, in light of all of the current facts and circumstances, supported approving the New Management Agreements.

Fees. The Boards noted that the fees payable by the Trusts under the New Management Agreements are identical to the fees payable under the Old Management Agreements. The Boards also considered the fees paid by the MLIM closed-end funds. In light of (i) the Boards' approval of the fees paid by each Trust pursuant to the Old Management Agreements earlier at the May 23rd meeting, (ii) the fact that the Transaction would cause no change to the fees paid by any Trust and (iii) the Boards' earlier conclusion with respect to the services expected to be provided to the Trusts under the New Management Agreements, the Boards concluded that the fee structure under the New Management Agreements was reasonable.

Profitability. Management of the Advisors stated to the Boards that, following the Transaction, the current intention is to continue to determine profitability and report profitability to the Boards in the same way as they did prior to the Transaction, subject to management's desire to preserve the best practices of MLIM. Management of the Advisors stated that any changes in the methods used to determine profitability and report profitability to the Boards would be discussed with the Boards. The Boards considered the potential for increased economies of scale as a result of the Transaction and whether any economies of scale should be reflected in the Trusts' fee structures. The Boards also considered that the process of integrating the operations of the Advisors and MLIM was in the early stages and that considerable expense would be incurred in connection with integrating such operations, all of which made it difficult to conclude that economies of scale would be realized as a result of the Transaction. In light of the foregoing, the Boards concluded that, at this time, no changes were necessary to the fee structure of the Trusts as a result of the Transaction.

Other Benefits. In evaluating ancillary benefits to be received by the Advisors and their affiliates under the New Management Agreements, the Boards considered whether the Transaction would have an impact on the ancillary benefits received by the Advisors by virtue of the Old Management Agreements. Based on its review of the materials provided, including materials received in connection with its approval of the continuance of each Old Management Agreement earlier at the May 23rd meetings of the Boards and its discussions with the Advisors, the Boards noted that such benefits were difficult to quantify with certainty at this time and indicated that it would continue to evaluate them going forward.

Conclusion with respect to the New Management Agreements. The Trustees did not identify any single consequence of the Transaction discussed above as all-important or controlling. The Boards determined that all of the factors referred to in their evaluation of the Old Management Agreements described above under Matters Considered by the Boards The Old Management Agreements are applicable to the evaluation of the New Management Agreements and concluded that these factors, in light of all the other factors and all of the facts and

circumstances applicable to each Trust, were acceptable for each Trust and supported the Trustees' conclusion that the terms of each New Management Agreement were fair and reasonable, that the fees in each New Management Agreement are fair and reasonable in light of the services provided to the respective Trust and that each New Management Agreement should be approved.

Shareholder Meeting

At the shareholder meeting for each Trust held on August 23, 2006, the shareholders of each Trust approved the New Management Agreement for each Trust.

Item 3. Audit Committee Financial Expert.

The Registrant's Board of Trustees has determined that it has three audit committee financial experts serving on its audit committee, each of whom is an "independent" Trustee: Dr. Andrew F. Brimmer, Kent Dixon and Frank Fabozzi. Under applicable securities laws, a person who is determined to be an audit committee financial expert will not be deemed an "expert" for any purpose, including without limitation for the purposes of Section 11 of the Securities Act of 1933, as a result of being designated or identified as an audit committee financial expert. The designation or identification of a person as an audit committee financial expert does not impose on such person any duties, obligations, or liabilities that are greater than the duties, obligations, and liabilities imposed on such person as a member of the audit committee and Board of Trustees in the absence of such designation or identification. Dr. Brimmer retired from the Board of Trustees as of December 31, 2006.

Item 4. Principal Accountant Fees and Services.

(a) Audit Fees. The aggregate fees billed for each of the last two fiscal years for professional services rendered by the principal accountant for the audit of the Registrant's annual financial statements or services that are normally provided by the accountant in connection with statutory and regulatory filings or engagements for those fiscal years were \$26,500 for the fiscal year ended December 31, 2006 and \$21,600 for the fiscal year ended December 31, 2005.

(b) Audit-Related Fees. The aggregate fees billed in each of the last two fiscal years for assurance and related services by the principal accountant that are reasonably related to the performance of the audit of the Registrant's financial statements and are not reported above in Item 4(a) were \$1,975 for the fiscal year ended December 31, 2006 and \$2,000 for the fiscal year ended December 31, 2005. The nature of the service includes assurance and related services reasonably related to the performance of the audit of financial statements not included in Audit Fees.

(c) Tax Fees. The aggregate fees billed in each of the last two fiscal years for professional services rendered by the principal accountant for tax compliance, tax advice and tax planning were \$8,000 for the fiscal year ended December 31, 2006 and \$7,700 for the fiscal year ended December 31, 2005. The nature of the services was federal, state and local income and excise tax return preparation and related advice and planning and miscellaneous tax advice.

(d) All Other Fees. The aggregate fees billed in each of the last two fiscal years for products and services provided by the principal accountant, other than the services reported above in Items 4(a) through (c) were \$1,000 for the fiscal year ended December 31, 2006 and \$1,000 for the fiscal year ended December 31, 2005. The nature of the service includes a review of compliance procedures and provide an attestation regarding such review.

(e) Audit Committee Pre-Approval Policies and Procedures.

(1) The Registrant has polices and procedures (the "Policy") for the pre-approval by the Registrant's Audit Committee of Audit, Audit-Related, Tax and Other Services (as each is defined in the Policy) provided by the Trust's independent auditor (the "Independent Auditor") to the Registrant and other "Covered Entities" (as defined below). The term of any such pre-approval is 12 months from the date of pre-approval, unless the Audit Committee specifically provides for a different period. The amount of any such pre-approval is set forth in the appendices to the Policy (the "Service Pre-Approval Documents"). At its first meeting of each calendar year, the Audit Committee will review and re-approve the Policy and approve or re-approve the Service Pre-Approval Documents for that year, together with any changes deemed necessary or desirable by the Audit Committee. The Audit Committee may, from time to time, modify the nature of the services pre-approved, the aggregate level of fees pre-approved or both.

For the purposes of the Policy, "Covered Services" means (A) all engagements for audit and non-audit services to be provided by the Independent Auditor to the Trust and (B) all engagements for non-audit services related directly to the operations and financial reporting or the Trust to be provided by the Independent Auditor to any Covered Entity, "Covered Entities" means (1) the Advisor or (2) any entity controlling, controlled by or under common control with the Advisor that provides ongoing services to the Trust.

In the intervals between the scheduled meetings of the Audit Committee, the Audit Committee delegates pre-approval authority under this Policy to the Chairman of the Audit Committee (the "Chairman"). The Chairman shall report any pre-approval decisions under this Policy to the Audit Committee at its next scheduled meeting. At each scheduled meeting, the Audit Committee will review with the Independent Auditor the

Covered Services pre-approved by the Chairman pursuant to delegated authority, if any, and the fees related thereto. Based on these reviews, the Audit Committee can modify, at its discretion, the pre-approval originally granted by the Chairman pursuant to delegated authority. This modification can be to the nature of services pre-approved, the aggregate level of fees approved, or both. Pre-approval of Covered Services by the Chairman pursuant to delegated authority is expected to be the exception rather than the rule and the Audit Committee may modify or withdraw this delegated authority at any time the Audit Committee determines that it is appropriate to do so.

Fee levels for all Covered Services to be provided by the Independent Auditor and pre-approved under this Policy will be established annually by the Audit Committee and set forth in the Service Pre-Approval Documents. Any increase in pre-approved fee levels will require specific pre-approval by the Audit Committee (or the Chairman pursuant to delegated authority).

The terms and fees of the annual Audit services engagement for the Trust are subject to the specific pre-approval of the Audit Committee. The Audit Committee (or the Chairman pursuant to delegated authority) will approve, if necessary, any changes in terms, conditions or fees resulting from changes in audit scope, Trust structure or other matters.

In addition to the annual Audit services engagement specifically approved by the Audit Committee, any other Audit services for the Trust not listed in the Service Pre-Approval Document for the respective period must be specifically pre-approved by the Audit Committee (or the Chairman pursuant to delegated authority).

Audit-Related services are assurance and related services that are not required for the audit, but are reasonably related to the performance of the audit or review of the financial statements of the Registrant and, to the extent they are Covered Services, the other Covered Entities (as defined in the Joint Audit Committee Charter) or that are traditionally performed by the Independent Auditor. Audit-Related services that are Covered Services and are not listed in the Service Pre-Approval Document for the respective period must be specifically pre-approved by the Audit Committee (or the Chairman pursuant to delegated authority).

The Audit Committee believes that the Independent Auditor can provide Tax services to the Covered Entities such as tax compliance, tax planning and tax advice without impairing the auditor's independence. However, the Audit Committee will not permit the retention of the Independent Auditor in connection with a transaction initially recommended by the Independent Auditor, the sole business purpose of which may be tax avoidance and the tax treatment of which may not be supported in the Internal Revenue Code and related regulations. Tax services that are Covered Services and are not listed in the Service Pre-Approval Document for the respective period must be specifically pre-approved by the Audit Committee (or the Chairman pursuant to delegated authority).

All Other services that are covered and are not listed in the Service Pre-Approval Document for the respective period must be specifically pre-approved by the Audit Committee (or the Chairman pursuant to delegated authority).

Requests or applications to provide Covered Services that require approval by the Audit Committee (or the Chairman pursuant to delegated authority) must be submitted to the Audit Committee or the Chairman, as the case may be, by both the Independent Auditor and the Chief Financial Officer of the respective Covered Entity, and must

include a joint statement as to whether, in their view, (a) the request or application is consistent with the rules of the Securities and Exchange Commission ("SEC") on auditor independence and (b) the requested service is or is not a non-audit service prohibited by the SEC. A request or application submitted to the Chairman between scheduled meetings of the Audit Committee should include a discussion as to why approval is being sought prior to the next regularly scheduled meeting of the Audit Committee.

(2) None of the services described in each of Items 4(b) through (d) were approved by the Audit Committee pursuant to paragraph (c)(7)(i)(C) of Rule 2-01 of Regulation S-X.

(f) Not applicable.

(g) The aggregate non-audit fees billed by the Registrant's accountant for services rendered to the Registrant, the Registrant's investment adviser (except for any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser) and any entity controlling, controlled by, or under common control with the Registrant's investment adviser that provides ongoing services to the Registrant for each of the last two fiscal years were \$286,200 for the fiscal year ended December 31, 2006 and \$286,200 for the fiscal year ended December 31, 2005.

(h) The Registrant's Audit Committee of the Board of Trustees has considered whether the provision of non-audit services that were rendered to the Registrant's investment adviser (not including any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser) and any entity controlling, controlled by, or under common control with the investment adviser that provides ongoing services to the Registrant that were not pre-approved pursuant to paragraph (c)(7)(ii) of Rule 2-01 of Regulation S-X is compatible with maintaining the principal accountant's independence.

BlackRock has built a professional working environment, firm-wide compliance culture and compliance procedures and systems designed to protect against potential incentives that may favor one account over another. BlackRock has adopted policies and procedures that address the allocation of investment opportunities, execution of portfolio transactions, personal trading by employees and other potential conflicts of interest that are designed to ensure that all client accounts are treated equitably over time. Nevertheless, BlackRock furnishes investment management and advisory services to numerous clients in addition to the Registrant, and BlackRock may, consistent with applicable law, make investment recommendations to other clients or accounts (including accounts which are hedge funds or have performance or higher fees paid to BlackRock, or in which portfolio managers have a personal interest in the receipt of such fees), which may be the same as or different from those made to the Registrant. In addition, BlackRock, its affiliates and any officer, director, stockholder or employee may or may

not have an interest in the securities whose purchase and sale BlackRock recommends to the Registrant. BlackRock, or any of its affiliates, or any officer, director, stockholder, employee or any member of their families may take different actions than those recommended to the Registrant by BlackRock with respect to the same securities. Moreover, BlackRock may refrain from rendering any advice or services concerning securities of companies of which any of BlackRock's (or its affiliates') officers, directors or employees are directors or officers, or companies as to which BlackRock or any of its affiliates or the officers, directors and employees of any of them has any substantial economic interest or possesses material non-public information. Each portfolio manager also may manage accounts whose investment strategies may at times be opposed to the strategy utilized for the Registrant. In this connection, it should be noted that the portfolio management team may manage certain accounts that are subject to performance fees. In addition, the portfolio management team may assist in managing certain hedge funds and may be entitled to receive a portion of any incentive fees earned on such funds and a portion of such incentive fees may be voluntarily or involuntarily deferred. Additional portfolio managers may in the future manage other such accounts or funds and may be entitled to receive incentive fees.

As a fiduciary, BlackRock owes a duty of loyalty to its clients and must treat each client fairly. When BlackRock purchases or sells securities for more than one account, the trades must be allocated in a manner consistent with its fiduciary duties. BlackRock attempts to allocate investments in a fair and equitable manner among client accounts, with no account receiving preferential treatment. To this end, BlackRock has adopted a policy that is intended to ensure that investment opportunities are allocated fairly and equitably among client accounts over time. This policy also seeks to achieve reasonable efficiency in client transactions and provide BlackRock with sufficient flexibility to allocate investments in a manner that is consistent with the particular investment discipline and client base.

(a)(3) The elements of total compensation for portfolio managers on BlackRock's municipal team include a fixed base salary, annual performance-based cash and stock compensation (cash and stock bonus) and other benefits. BlackRock has balanced these components of pay to provide these portfolio managers with a powerful incentive to achieve consistently superior investment performance. By design, compensation levels for these portfolio managers fluctuate—both up and down—with the relative investment performance of the portfolios that they manage.

Base compensation. Like that of many asset management firms, base salaries represent a relatively small portion of a portfolio manager's total compensation. This approach serves to enhance the motivational value of the performance-based (and therefore variable) compensation elements of the compensation program.

Performance-Based Compensation. BlackRock believes that the best interests of investors are served by recruiting and retaining exceptional asset management talent and managing their compensation within a consistent and disciplined framework that emphasizes pay for performance in the context of an intensely competitive market for

talent. To that end, BlackRock and its affiliates portfolio manager incentive compensation is based on a formulaic compensation program. BlackRock's formulaic portfolio manager compensation program includes: investment performance relative to a subset of general closed-end, leveraged, municipal debt funds over 1-, 3- and 5-year performance periods and a measure of operational efficiency. Portfolio managers are compensated based on the pre-tax performance of the products they manage. If a portfolio manager's tenure is less than 5 years, performance periods will reflect time in position. Portfolio managers are compensated based on products they manage. A discretionary element of portfolio manager compensation may include consideration of: financial results, expense control, profit margins, strategic planning and implementation, quality of client service, market share, corporate reputation, capital allocation, compliance and risk control, leadership, workforce diversity, supervision, technology and innovation. All factors are considered collectively by BlackRock management.

Cash Bonus

Performance-based compensation is distributed to portfolio managers in a combination of cash and stock. Typically, the cash bonus, when combined with base salary, represents more than 60% of total compensation for portfolio managers.

Stock Bonus

A portion of the dollar value of the total annual performance-based bonus is paid in restricted shares of BlackRock stock. Paying a portion of annual bonuses in stock puts compensation earned by a portfolio manager for a given year "at risk" based on the company's ability to sustain and improve its performance over future periods. The ultimate value of stock bonuses is dependent on future BlackRock stock price performance. As such, the stock bonus aligns each portfolio manager's financial interests with those of the BlackRock shareholders and encourages a balance between short-term goals and long-term strategic objectives. Management strongly believes that providing a significant portion of competitive performance-based compensation in stock is in the best interests of investors and shareholders. This approach ensures that portfolio managers participate as shareholders in both the "downside risk" and "upside opportunity" of the company's performance. Portfolio managers therefore have a direct incentive to protect BlackRock's reputation for integrity.

Other Compensation Programs

Portfolio managers who meet relative investment performance and financial management objectives during a performance year are eligible to participate in a deferred cash program. Awards under this program are in the form of deferred cash that may be benchmarked to a menu of BlackRock mutual funds (including their own fund) during a five-year vesting period. The deferred cash program aligns the interests of participating portfolio managers with the investment results of BlackRock products and promotes continuity of successful portfolio management teams.

Other Benefits

Portfolio managers are also eligible to participate in broad-based plans offered generally to employees of BlackRock and its affiliates, including broad-based retirement, 401(k), health, and other employee benefit plans.

(a)(4) As of December 31, 2006, the end of the Registrant's most recently completed fiscal year, the dollar range of securities beneficially owned by each portfolio manager in the Registrant is shown below:
